"35. This matter is important inasmuch as many short branch lines have been projected in different districts, which might be left without railway accommodation, if additional expenses were imposed on the construction and working of such lines.

"36. It is right also to notice that the adoption of these systems, if it were indiscriminately required in all cases, would involve a large expenditure, which would bear with great severity upon the lines where the traffic is scanty and the risk of collision very small.

"37. The evidence taken by the Committee proves that Railway Companies are now making increased exertions to introduce both the block system and the system of interlocking.

"38. The Bill provides that these systems shall be universally adopted on all railways within five years from the present time.

"39. The arrangements indispensable for the efficient working of these systems throughout all the important lines of the country could not, it is said, be completed within that period. In many cases an entire remodelling of the stations will be required, and as this would have to be accomplished without suspending the traffic, the change, if compulsorily enforced, might be attended with much inconvenience and some danger.

"40. A clause might be introduced into the Bill giving the Board of Trade power to prolong the time named in the Act for the completion of these systems.

"41. This course would impose on the Board of Trade a grave responsibility during the interval of time conceded to the Railway Company, and if an accident from collision should occur during the intermediate period, the Board of Trade would be blamed for not having used the power with which Parliament had invested the department.

"42. The inspectors of the Board of Trade, in their annual reports, have called attention to many other measures for the prevention of accidents, besides the two which are mentioned in this Bill. If these two systems were made compulsory, Railway Companies might rest content with fulfilling the requirements of the law, and be less inclined to expend money on other improvements, which, though not enforced by law, may be conducive to public safety.

"43. It is desirable, as stated in the report of 1870, that improvements should be introduced by those who are intrusted with the management of railways, especially in cases where success depends upon care in construction, maintenance and daily discipline.

"44. Relying on the great exertions recently and very generally made by different railway companies to extend the block and interlocking systems, and the improvements now in progress, the Committee recommend that the Bill should not be proceeded with during the present Session. They recommend, however, that the Board of Trade should call for such information as may enable the inspectors in their annual reports to state especially the progress made in their adoption on all passenger lines. Parliament will then be in a condition to decide whether or not it would be right to require the further and more prompt extension of these systems on the lines where they are necessary.

"45. And the Committee have directed the minutes of evidence, together with an appendix, to be laid before your Lordships."

OBSERVATIONS.—The memorandum drawn up by Major Mallock concerning the aid in working afforded to Railways by the electric telegraph is a paper

that will be of the utmost practical value generally to the Railway Administrations in India. The different systems for working in use have been well described and well defined.

RESOLUTION.—His Excellency the Governor General in Council records with pleasure his sense of the value of the paper and the soundness of the conclusions it illustrates.

ORDER.—Ordered, that this Resolution be communicated to the Governments of Madras and Bombay, the Director of State Railways, and the Consulting Engineers to the Government of India for Guaranteed Railways at Calcutta, Lahore and Lucknow, for information.

Ordered also, that a copy be forwarded to the Home Department for publication in the Supplement to the *Gazette of India*.

W. A. CROMMELIN, Major-Genl., R. E.,
Secretary.

A little rain has fallen in Sholapur.

2. A slight increase in the cost of grain is observable in Satara and Káladgi, and a slight decrease in Dharwar.

3. The number of people upon relief works in the nine affected districts is 217,163 against 223,763 last week; and there are also 3,051 hill-men and immigrants employed in Ratnagiri and Kanara.

4. Tables (A) and (B) are appended as before. It will be noticed that, on the 10th March, the number of people upon works under Civil agency had decreased to 29,526 as compared with 37,060 in the former week, while during the week ending March the 17th, the people upon Civil works had decreased to 18,765, the number upon works under Public Works Department agency being 193,223.

During the week in question there were, therefore, upon works under Civil agency, only about one-eleventh of the total number of labourers. The accounts received of the physical condition of the people on both classes of works continue to be satisfactory, and, except that in the Southern Mahratta Country, there are a few wandering bands of immigrants whose condition is somewhat low, the general condition of the population who are not upon relief works is understood to be, on the whole, good.

5. It may be interesting to notice the distribution of the people among the larger relief works which have been opened in the nine affected districts, and the following table gives the particulars for each Collectorate as regards all works employing 2,000 people, or more. It will be seen that three-fourths of the relief labourers are now employed upon the large works enumerated:—

Districts.	Works.	Number of labourers.	Total.	Remarks.
Khandesh.				
Nasik	Sinnar-Ghoti Road	6,535	11,037

* Return from the Executive Engineer for irrigation not received.

† Collector's returns not received.

The attention of Collectors has recently been again drawn to the necessity for searching out very carefully all isolated cases calling for charitable relief, and of freely using their discretionary grants in respect to such cases. This grant, it may be observed, is mainly for the purpose of charitably providing food for poor persons unable to work, but it is also used for the purchase of blankets for people urgently requiring them, and for other similar purposes.

8. A table is appended, showing the condition of the affected Native States.

9. With regard to the movements of food-grains, 5,258 tons were exported from Bombay to the Southern Mahratta ports during the week ending 15th March, and during the same week 3,092 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Násik-Bhusawal lines, making a total of 8,350 tons for the week. The table below shows the quantities of grain sent by sea and rail from October till the 15th of March to the Southern Mahratta ports and the Railway stations in the distressed districts. It will be seen that the total amount delivered up to the 15th of March was 203,282 tons:—

FOOD-GRAINS SENT TO	In October 1876.	In November 1876.	In December 1876.	In January 1877.	In February 1877.	In March (upto 15th.)	TOTAL.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
Southern Mahratta Ports ...	7,675	19,228	17,312	13,459	16,075	8,959	82,708
South-Eastern line, from Poona to Sholapur ...	11,683	30,014	25,498	15,471	12,477	6,711	101,854
North-Eastern line, from Násik to Bhusawal ...	4,447	4,776	3,606	1,615	2,622	1,654	18,720

10. On the whole, the grain supply continues abundant, and the transference of the relief labourers to the Public Works Department works is making very satisfactory progress.

M. K. KENNEDY, Major-General, R. E.,

Secretary to Government.

NOTE.—The totals are not invariably the sum of the men, women and children, as in a few returns these particulars have not been given, the total number of labourers alone having been entered. These figures are for the nine distressed districts only. The people upon relief works in Ratnagiri and Kanara are shown in Table A.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

RELIEF REPORTS FOR THE WEEK ENDING 17th MARCH 1877.

Proceedings of the Board of Revenue, dated 23rd March 1877.

The Board submit to Government the relief reports for the week ending 17th March.

1. District Average prices.
 2. " Relief return.
 3. Taluq "
 4. Classification of outlay
- Maps—Madura, Chingleput,
Nellore, Bellary, Salem,
Coimbatore, Cuddapah.

Statements and maps as noted marginally accompany. No report has been received from South Arcot, and telegrams only from Kurnool and Kistna as usual.

2. *Prices.*—There is scarcely any change, and prices may be said to be stationary. Rice has fallen slightly in Madura, probably owing to importation, and rice and cholam are cheaper in Salem. The very high prices noted last week in the Darampury taluq in the latter district continue. They are attributed to short imports. Prices in Kurnool have again stiffened.

3. *Rainfall.*—Rain, which has been most welcome, has fallen in every district from which report has been received, except Chingleput. The rain appears to have come from the westward, and fell in the three southern taluqs of Bellary (from .8 to 1.5 inch), and slightly in Anantapur; in the north-western parts of North Arcot; in all the taluqs of the Cuddapah District; in Kurnool and Kistna; and in those taluqs of the Nellore District which lie under the hills; but the rain did not reach the coast. It was heaviest in Punganoor (2 inches), and Palmanair (1 inch) of North Arcot; and in the Cuddapah District, in Kadiri (3.75), Pulivendala (2.15), and along the Pennair Valley in Cuddapah and Sidhout. The Pennair had a good fresh, and was 2 feet over the annicut at Nellore for some hours.

4. There was a separate belt of rainfall in the southern districts. In Tinnevely there was a general fall of about 2 inches; in Madura rain fell in all taluqs except Ramnad, but was heaviest in Melur (1.35), Palin (2.0), and Periyakolam (2.2), and the Board have been informed that 9 inches were registered on the Palni hills, which drain into the two last-mentioned taluqs, where many tanks have been filled. The line of rainfall passed from Madura, through the two western taluqs of Trichinopoly, into the south and east of the Salem District (Namkul .9, Salem 2.25, Trichengode 4 inches); but the rain did not enter the Salem Sub-division, turning west again into the Bhowany (2.4 inches), and Collegal (1.0) taluqs of Coimbatore. There was from $\frac{1}{4}$ to $\frac{1}{2}$ an inch over the southern and central taluqs of Coimbatore, and a good fall on the Nilgiris.

5. This rainfall cannot much affect cultivation, except, perhaps, the hot-weather well crops in the south, or prices; but must do much to mitigate anxiety as to water-supply, and will start some herbage, especially on the hills, for the cattle to feed on for a time.

6. *Grants and Outlay.*—The grants to the 17th March for works and gratuitous relief were Rs. 1,00,60,283; against this have been spent Rs. 91,75,156. The following is the usual summary of Statement No. 4:—

ROADS—			<i>Classification of outlay on works in progress.</i>	
			In the week.	To the end of the week.
			Rs.	Rs.
New works	...	...	1,13,622	28,13,565
Repairs	...	...	61,565	7,52,671
			1,75,490	35,96,236
Irrigation works	...	...	30,777	4,17,720
Miscellaneous	...	...	38,473	4,39,421
			2,44,740	44,53,377

The increasing proportion of outlay on irrigation works and repairs rather than construction of roads is satisfactory.

7. *Numbers on relief works.*—The district totals compare as follow with last week:—

	10th March.	17th March.	
Kistna	2,755	3,439	+ 684
Nellore	54,546	39,720	— 14,826
Cuddapah	57,231	56,276	— 955
Bellary	2,18,319	2,30,713	+ 12,394
Kurnool	1,91,546	1,92,028	+ 482
Chingleput	7,368	6,092	— 1,216
North Arcot	15,109	15,374	+ 265
South Arcot	616	...	— 616
Trichinopoly	...	...	...
Madura	6,784	6,274	— 510
Tinnevely	1,561	1,144	— 417
Coimbatore	24,418	23,476	— 942
Salem	45,346	42,801	— 2,545
	6,25,539	6,17,337	— 8,202
	29,879	30,860	+ 981
	655,418	648,197	— 7,221

8. The points for notice are the great decrease in Nellore, notwithstanding that the num-

	10th March.	17th March.	
Gudur ...	2,555	1,494	— 1,061
Rapur ...	491	564	+ 73
Nellore ...	1,281	1,562	+ 281
Atmakur ...	5,593	4,626	— 967
Kavali ...	15,587	8,930	— 6,657
Udayagiri ...	10,138	11,095	+ 957
Kandakur ...	7,884	6,350	— 1,534
Kanigiri ...	6,142	1,677	— 4,465
Ongole ...	1,064	760	— 304
Darsi and Podili ...	2,494	1,557	— 937
Venkatagiri ...	1,317	1,105	— 212
	54,546	39,720	— 14,826

bers on the East Coast Canal are nearly stationary and the increase in Bellary. On the former point no explanation is given in the Nellore report. The taluq details are compared in the margin, and it will be seen that though there is a general decline, the decrease is accounted for by a falling off in the taluqs of Kavali and Kanigiri. The Collector will report the cause.

9. Bellary.—The taluq figures for this district are as follows :—

	10th March.	17th March.	
Adoni ...	51,776	50,016	— 1,760
Alur ...	21,914	23,112	+ 1,198
Ghooty ...	13,513	13,832	+ 319
Tadpatri ...	8,985	9,470	+ 485
Anantapur ...	8,083	10,378	+ 2,295
Dharmavaram ...	3,031	7,247	+ 4,216
Penkenda ...	2,698	2,777	+ 79
Hindupur ...	1,408	891	— 514
Madaksira ...	7,880	6,974	— 906
Raidrug ...	8,721	8,696	— 25
Bellary ...	47,116	48,279	+ 1,163
Hospett ...	3,513	12,867	— 646
Sundoor ...	1,343	1,362	+ 19
Kudlighi ...	10,856	10,162	— 694
Harpanhalli ...	11,298	13,125	+ 1,827
Hadgalli ...	6,184	11,522	+ 5,338
TOTAL ...	2,18,319	230,713	+ 12,394

there is thus a general tendency to increase in the district, but the increase is very great in Hadgalli, Dharmavaram, and Anantapur. The cause cannot be gathered from the reports. The fall in Madaksira and Hindupur seems attributable to cholera chiefly. The Collector is requested to report why the numbers in Hindupur taluq are so extraordinary low. From remarks in the detailed report it is gathered that the children under seven years of age, who are allowed 3 pies a head, are entered amongst the coolies on some of the works. This is of course wrong; they ought to be entered under gratuitous relief, and the Collector will be instructed accordingly. The fact may explain the increase in numbers in some taluqs.

10. The Cuddapah, details show decrease in Budvail and increase in Voilpaul, but in other taluqs no change of importance. The fall in Chingleput is in the Madurantakun taluq, and seems due to completion of works. In North Arcot and Coimbatore there is nothing particular to note. In Salem the decline occurs in Salem and Trichengode taluqs, and is probably due to the rainfall, which gives hopes of some cultivation under wells.

11. Rates of wages.—The scale of wages prescribed in G. O., 31st January, is now reported to be in force everywhere except in the sub-division of Cuddapah, where the old rates of 2 annas, 1 anna 4 pie, and 10 pie are still paid. The Acting Collector will call upon the Sub-Collector to explain at once why the orders of Government have not been carried out.

12. Gratuitous Relief.—The numbers in receipt of this form of relief have greatly increased as shown below :—

	10th March.	17th March.	
Kistna ...	184	397	+ 213
Nellore ...	5,204	5,595	+ 391
Cuddapah ...	1,256	2,600	+ 1,344
Bellary ...	17,575	25,853	+ 8,278
Kurnool ...	11,233	31,577	+ 20,344
Chingleput ...	5,666	6,006	+ 340
North Arcot ...	1,398	1,712	+ 314
Madura ...	328	537	+ 209
Tinnevely ...	272	260	— 12
Coimbatore ...	1,093	1,759	+ 666
Salem ...	3,740	5,594	+ 1,854
TOTAL ...	47,949	81,890	+ 33,941

13. The increase is almost entirely due to the inclusion of children under seven, whose parents are on the works. That in Kurnool is very great; and 28,000 of the total in the district are due to this cause. This is 15 per cent. of the number on the works; and as, according to the census, children under six in that district are 20 per cent. of the population, considerable further increase is to be anticipated. Some portion of the increased numbers is due to the operation of the orders of Government regarding village inspection and relief.

14. The details of total outlay are as follows :—

			In the week.	Up to the week.
Relief works	...	...	3,92,129	88,74,011
Gratuitous relief	...	...	20,093	3,01,145
			<u>4,12,222</u>	<u>91,75,156</u>

The grants sanctioned by the Board to date amount to Rs. 1,02,41,493.

15. The following statement shows advances made under the Land Improvement Act :—

			In the week.	Up to the week.
Nellore	...	...	...	12,846
Cuddapah	...	...	2,249	22,009
Bellary	...	...	...	1,270
Tinnevelly	...	...	6,445	14,175
Salem	...	...	50	50
			<u>8,744</u>	<u>50,350</u>

16. The Special Establishments entertained for relief purposes are as follows according to the most recent returns :—

	RELIEF.		WAGES.		ACCOUNTS.		TOTAL.		SUPERIOR OFFICERS INCLUDED.	
	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.
		Rs.		Rs.						Rs.
Cuddapah	247	10,578	68	723	100	1,138	415	12,439	15	7,971
Bellary	856	16,581	225	3,145	76	1,543	1,157	21,269	8	3,455

TOTAL	2,059	60,602	396	4,947	422	5,408	2,877	70,957	55	27,290

17. In Madras Town there were 9,454 resident and 12,362 non-resident paupers on the average relieved daily. There were 628 in hospital on the 17th, and 142 died in the week, of whom 125 were in hospital. The outlay by the Commissioner of Police was in the week Rs. 21,933, and up to the week Rs. 2,78,159.

GOVERNMENT
DEPARTMENT OF REVENUE

STATEMENT REGARDING THE CONDITION OF THE PROVINCE

DIVISIONS AND DISTRICTS.						No. AND DESCRIPTIVE WORKS IN PROGRESS REVENUE OFFICE					
						Roads.	Tanks.	Miscellaneous works.			
1	2	3	4	5	6	7					
NUNDYDROOG.	Bangalore	2,914	1,014	828,351	384,908	<i>Bangalore District.</i> —Markets moderately supplied, except in the Kankanhalli and Anekal taluks, where importation is slack, owing possibly to prevalence of cholera, and prices have slightly risen in some localities. Javari and Bengal gram sown in beds of tanks, sugarcane, irrigated ragi and potatoes are in tolerably good condition. Paddy is doing well in Hoskote and Davanahalli. No rain, except in the Doddaballapur and Nelamangala taluks, where 40 and 50 cents were gauged respectively. Emigrants are returning in gangs and flocking into the large towns. Cholera prevails throughout the district, as also smallpox, fever and dysentery in some parts. Scarcity of water is severely felt almost everywhere. Murrain continues to prevail among cattle.			66	66	183
	Kolar ...	2,577	2,577	618,954	618,954	<i>Kolar District.</i> —Markets fairly supplied, except in the Gudibanda and Gummayakampadya taluks. Importation by rail at Kolar station has fallen off. No rain, except a slight drizzle at Chikballapur. Cholera is more or less prevalent in all the taluks, and fever and dysentery at Chikballapur; an insufficient supply of water is procured from wells with much difficulty; cattle suffer from want of fodder. Bengal gram, javari, sugarcane and ragi are thriving, and in some places the crops are being harvested. Price of ragi has slightly fallen.			37	189	80
	Tumkūr...	3,606	3,606	632,239	632,239	<i>Tumkūr District.</i> —Markets sufficiently supplied, except in the Maddur taluk; slight drizzling rain fell in the Koratagere and Kunigal taluks, but the scarcity of water is felt everywhere, more particularly so in the Chikmagalur taluk. Cholera prevails in all the taluks, except Tumkūr, Sira and Kunigal; small-pox also in Kadaba. Emigrants are returning. The mortality among the poorer kind of cattle has been great. Javari and Bengal gram are thriving in the Tumkūr and Maddur taluks, but they are withering in Kadaba. The wheat crop in Maddur promises fairly. Sugarcane mills are at work in the Kunigal taluk. The coconut and areca-nut gardens in the Chikmagalur taluk are suffering much from want of moisture.			66	221	38
ASHTAGRAM.	Mysore ...	4,127	1,470	913,187	118,832	<i>Mysore District.</i> —Markets fairly supplied. Slight drizzle at Mysore, and in parts of the Periyapatna, Yedatore, Heggaddevankote and Gundlupet taluks; about 80 cents of rain fell in and about Nanjangud. Those subsisting on bamboo rice are reported to be suffering from a dysentery affliction, and others who obtain a bare subsistence on unwholesome food also suffer in this way. The condition of the district remains much as it was as per last return.			22	17	2
	Hassan ...	3,291	2,154	668,417	190,873	<i>Hassan District.</i> —Markets sufficiently supplied, except in Manjarabad, Arkalgud, Channarayana and Nagamangala. This is probably due to the prevalence of cholera there. More than 1 inch of rain fell in some villages of the Arkalgud taluk; 35 cents at Saklespur, and 5 cents at Hassan. There was a slight drizzle, too, in the Belur and Channarayana taluks. Sugarcane and Bengal gram in the taluk of Hassan, and paddy in Manjarabad, are drooping, as are also the areca and coconut palms in Harnahalli. Sugarcane in Attikuppai is in fair condition. In the Harnahalli and Hassan taluks there was a slight fall in prices. Cholera more or less throughout the district.			20	37	
NAGAR.	Shimoga...	3,797	388	498,976	47,431	<i>Shimoga District.</i> —Markets moderately supplied. There was a slight drizzle in the Channagiri taluk; rabi paddy in fair condition; cholera is still prevalent in some localities.			10	12	
	Kadur ...	2,294	691	333,925	100,414	<i>Kadur District.</i> —Markets fairly supplied; 15 cents of rain fell at Chikmagalur, and 20 cents in the Tarikere taluk. Sugarcane and Bengal gram are being harvested, but in Tarikere taluk the crops are in a very drooping condition. Murrain among cattle continues, and they suffer much from want of fodder. Cholera, fever and small-pox prevail. Scarcity of water is much felt.			16	24	
	Chitaldroog	4,471	4,238	531,360	511,201	<i>Chitaldroog District.</i> —Markets generally fairly supplied, but in some taluks the imports fell off. With the exception of parts of the Chitaldroog, Doddéri and Hosdurga taluks, the crops that it has been found possible to cultivate are in fair condition. There was a slight drizzle in some villages of the Kankuppa taluk; with this exception there has been no rain. Cholera prevails in all the taluks; small-pox also at Chitaldroog. The great want is water.			25	67

 Turns for previous weeks in inches.

GENERAL REMARKS.

The condition of the province remains nearly the same as in the preceding report, but there are reasonable grounds for hope that some slight amelioration may be expected. Should the partial rains that have fallen during the current week be followed by a heavier general downfall, of which there is some indication, the numbers that it was originally estimated would have to be relieved in May and July may be considerably reduced. In the Nundydroog Division there has been drizzling rain and a few good showers in several taluks of each of the three districts, and in one some slight storage of water. Colonel Pearse writes somewhat hopefully of the prospect, and states, "Slight rain has fallen in several taluks, and I am in great hopes of a good downpour; if it comes, I feel certain, it will put the people in heart, and reduce our expenditure most materially."

From the Ashtagram Division a similar report has been received. In the two taluks of Periapatna and Yedatore, which, with Maudya and Harnahalli, were reported by Colonel Hay to be more severely famine-stricken than the rest, there have been showers, and heavier rain in Nanjangūd, Manjarabad, Belur and Andalūd. In the Nagar Division the rain apparently has been lighter and more partial; the expectancy of rain on the part of the agricultural population still confidently continues, and the preparations to meet the expected change are being most assiduously carried on. A noticeable feature in the collection of manure for their fields is, that the silt from the dry beds of the tanks is being largely made use of to supplement the ordinary kinds. Buchanan, in his "Journey through Mysore," calls attention to the careful way in which they collect and apply manure, and his observations are strongly corroborated in the present crisis. No rain was registered at the Observatory at Bangalore, but there has been much atmospheric disturbance, and, for the season of the year, unusual variableness in the direction of the wind, together with other signs indicative of a welcome change in the weather. Cholera still continues with scarcely abated intensity, but it is believed that the next week's returns will show that it is on the decline. On the cessation of the visitation, a chart will be drawn up for submission to Government, showing its rise, progress, culmination and decline, and a comparison with the outbreak that occurred in 1866 under somewhat similar conditions. The number of deaths for the week ending 8th March 1877 was 3,247, as below:—

Bangalore	...	...	...	328	Hassan	...	...	...	552
Kolar	...	...	...	827	Shimoga	...	...	...	21
Túmkúr	...	...	...	600	Kadur	...	...	...	105
Mysore	...	...	...	408	Chittdroog	...	...	...	394

But probably some of these deaths were caused by famine diarrhoea. Excluding cholera and small-pox, the public health has been fairly good.

The markets continue to be well supplied with grain; and though there is a slight rise in prices reported in the Kolar and Shimoga districts, they generally are remarkably steady, and bear favourable comparison with the rates prevailing during the year of scarcity, 1866. In that year the carrying power of the railway was not so developed, as tested by the touchstone of prices, which were respectively during the height of the crisis at that time.—

Rice 9 lbs. per rupee as against 12½ lbs. in current week.

Ragi 13½ lbs. ditto 16½ lbs. ditto

The weight imported by rail was at the terminal station 3,458 tons,
at the Kolar Road Station 250 "

4,708 tons.—

a large increase on the figures of the previous week, which were exceptionally low. Of this quantity, 3,194 tons were drawn from Madras, 361 from Bcypore, 46 from Negapatam by the alternative route, and the remainder from neighbouring districts of the Madras Presidency. An unlooked-for export of grain from Mysore to Kolar Road to the extent of 23 tons has attracted the Chief Commissioner's attention. It is probably rice grown under the Cauvery Channels, which is much esteemed, and commands a ready sale.

The daily average number of people employed on relief works by the revenue officers shows an increase of 3,087 as compared with the previous week: the increase is chiefly in the Bangalore and Chittdroog districts; but in Kolar and Túmkúr there has been a considerable falling off, and a corresponding increase in those gratuitously fed. This is in some measure due to the operation of the house-to-house visitation ordered in Proceedings No. 11381 of the 9th February last, but more critical enquiries are being made in this direction, and a scale for this form of relief, that demands the exercise of much judgment and careful administration, has been laid down for general adoption throughout the province, accompanied by brief rules, which it is hoped will ensure uniformity of practice and a more generally correct procedure.

Those persons employed by the professional department are doing good work on well-selected projects; those employed on relief works under civil agency are similarly doing useful work on irrigation works, village improvements, collecting metal on lines of roads already made but not metalled, and tracing new inter-village communications. A progress report of each work made up to the end of March has been ordered, and fuller details will be given in subsequent returns. Monthly registers of all employed on relief works, or gratuitously relieved during the crisis, are being prepared, but some little time must elapse before they can be called quite complete; no effort, however, will be spared to make them so. The Commissioners of Divisions have been asked to submit revised returns of affected areas, either by map colouration, or by talukwar or hobliwar statements; the results will appear, if possible, in the next return.

With regard to the subject of emigrated Mysoreans mentioned in the return for week ending 3rd March 1877, and the appointment of a special officer to arrange for their removal to their own taluks from Madaksira, Hindupur and Pennakonda, Colonel Hay reports that he also has issued to the Deputy Commissioner of Mysore special instructions, which appear very judicious, to arrange similarly for the return of any Mysore labourers who may have emigrated to the Wynaad. Colonel Hay considers it would be of advantage for the authorities of that district to place an officer at the frontier for the purpose of refusing admission to such as the Government of Madras may wish excluded; all of whom, he adds, can be received by the officer in charge of the Gundlupet road, and be either passed back to Mysore or employed in the Nanjangūd sub-division.

The return for the next week will be got up in an improved form. The tabular statement will be separated from the explanatory remarks, which will contain condensed information on all points connected with the condition of the province, for which purpose a diary of all the principal points has been opened. It is hoped that after the return for the week ending March 17th has been despatched, all future returns will be posted on the Saturday evening next succeeding that up to which all the provincial returns are closed.

The following typographical errors may be corrected in column 25 of the return for week ending 3rd March 1877:—

Column 1,	6th line from bottom.—	For 40 tolas, read 50 tolas.
"	12th do.	For provision, read pre-vision.
"	61st do.	For tip, read top.

J. PUCKLE,

On Special Duty.

Register of Rainfall recorded scientifically at the Government Observatory at Bangalore for each week in the year, as the usual monthly averages do not give sufficiently reliable information in a tropical climate.

GOVERNMENT OF INDIA.

**ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.**

The Council met at Government House on Wednesday, the 21st March 1877.

PRESENT :

His Excellency the Viceroy and Governor General of India, G.M.S.I.,
presiding.

His Honour the Lieutenant-Governor of Bengal.

The Hon'ble Sir A. Hobhouse, Q.C., K.C.S.I.

The Hon'ble Sir E. C. Bayley, K.C.S.I.

The Hon'ble Sir A. J. Arbutnot, K.C.S.I.

Colonel the Hon'ble Sir Andrew Clarke, R.E., K.C.M.G., C.B.

The Hon'ble Sir J. Strachey, K.C.S.I.

Major-General the Hon'ble Sir E. B. Johnson, K.C.B.

The Hon'ble T. C. Hope, C.S.I.

The Hon'ble D. Cowie.

The Hon'ble Mahārājā Narendra Krishna.

The Hon'ble J. R. Bullen Smith, C.S.I.

The Hon'ble F. R. Cockerell.

The Hon'ble B. W. Colvin.

The Hon'ble R. E. Egerton, C.S.I.

The Hon'ble Mahārājā Jotindra Mohan Tagore.

MILITARY LUNATICS BILL.

Major-General the Hon'ble Sir E. B. Johnson introduced the Bill to facilitate the admission of Military Lunatics into Asylums.

ACT XXIII OF 1867 CONTINUANCE BILL.

The Hon'ble Sir Edward Bayley introduced the Bill to prolong and amend Act No. XXIII of 1867. He said that he had nothing to add to what he had said on the last occasion, except as regards the statistics of crime, of which he then promised to give a more accurate account. Since the last meeting he had received a telegram from the Lieutenant-Governor of the Panjāb, from which it appeared that whereas, before the passing of the Act, twenty-four officers were either killed or seriously wounded on the frontier within about twenty years, since the passing of the Act there had been only four such cases, and there was besides another attempted outrage within the last few days.

The Bill itself providing merely for a continuation of the existing law, and the amendment of it proposed being purely technical, to meet an executive arrangement which had been made since the passing of the Act, he did not propose to ask the Council to refer the Bill to a Select Committee, but, with His Excellency's permission, he would at the next meeting request the Council to take it into consideration, and if they agreed to do so, would ask them also to pass it.

The Hon'ble Mr. Cockerell desired, with His Excellency's permission, to say a few words in regard to this Bill, as owing to the absence of any proposal for its reference to a Select Committee, there was no distinct motion before the Council, and consequently any remarks on the subject of it would, without such permission, be out of order. The hon'ble mover appeared to think that the acceptance of this Bill by the Council was such a purely formal matter that it need not be referred to a Select Committee, and in fact required little or no consideration. He (Mr. Cockerell), however, took a very different view of the question, and his object in desiring to draw attention to the circumstances of the case at the present stage of the Bill was to obtain further information, if any could be supplied, as to the need for the retention, or rather re-enactment—for Act XXIII of 1867 had already become extinct—of a law of such an exceptional character. He hoped that, unless what he had

now to say elicited the communication of more substantial grounds than had yet been put forward for the proposed enactment, the Council would hesitate before according its sanction to the measure. He thought that very possibly some members of the Council at least were not aware of the nature of Act XXIII of 1867, and if he were asked briefly to say what that Act was, he should say it was an Act to enable certain authorities in the Panjáb to hang a man first and to try him afterwards! But he submitted that an exceptional procedure, such as was provided by this Act, should only be adopted under very exceptional circumstances; and the question before the Council was whether at the present time the circumstances of the Panjáb were such as to call for exceptional legislation of this sort.

The special jurisdiction to be conferred by the Bill was of a kind that even the Hon'ble Member (Mr. Hope) who had charge of a Bill for extending certain portions of the Criminal Procedure Code to the Presidency-towns, had never, even at the period of his most uncompromising proposals for increasing the jurisdiction of the Presidency Magistrates, desired to confer upon those gentlemen! Now he would ask, what were the circumstances under which the Council was asked to sanction the re-application of this time-expired enactment to the whole of the Panjáb province? The hon'ble member had told the Council that during the ten years during which Act XXIII of 1867 had been in operation, there had been something less than six trials under special procedure, and as far as he (MR. COCKERELL) knew, the only grounds for immediately proceeding with the measure were contained in a paper which he would read to the Council. It was an extract of a letter from the Officiating Secretary to the Government of the Panjáb, dated the 24th July 1876.

"The Lieutenant-Governor is glad to be able to observe that the provisions of this Act have been found rarely necessary to enforce, and at the present time in the Panjáb it might be argued with much force that it was undesirable to maintain this special legislation; but after full consideration, His Honour is of opinion that it may be wise to retain the power which Act XXIII of 1867 grants, as no harm is done should the provisions remain dormant, while an epidemic of fanaticism in some of the border-districts of the province might make it very desirable that the powers conferred by the Act should be in possession of the Local Government."

That was all that could be said apparently by the head of the province in favour of the hon'ble member's proposal, and it was particularly stated that it was only required for the frontier or border-districts. Now, as the Council was aware, since the passing of Act XXIII of 1867, Parliament had enacted, under 33 Vic., certain provisions by which His Excellency the Viceroy was enabled to put a special legal procedure of the kind contemplated by the Bill in force in the frontier-districts of the Panjáb province without coming to this Council for a formal enactment. He thought that laws of such an exceptional character as Act XXIII of 1867, should be brought upon the Statute-book with extreme reluctance, and only when the necessity for their being so placed was undeniable.

Such, he submitted, could not be correctly asserted as regards the present case; for the Act, 33 Vic., had been enacted, as he had always believed, for the express purpose of meeting emergent cases of this kind; his contention was therefore, that (1) it was doubtful whether there was any longer occasion for maintaining or reinstituting this special procedure in regard to certain criminal offences; (2) that in any case the need for the exercise of such special jurisdiction was confined to the Pesháwar and possibly other frontier-districts, and this could never justify the enactment of a special law for application to the whole of the Panjáb; and (3) that the proper remedy consisted in the exercise of the powers conferred on the Governor General by English Statute, as preferable to the interposition of this Council.

The Hon'ble Mr. EGERTON said it appeared to him that his hon'ble friend, Mr. Cockerell, had divided his remarks into two heads. One was the procedure of Act XXIII of 1867, which he briefly described as a law which permitted certain petty officers to hang a man first and try him afterwards. MR. EGERTON submitted that that was not a correct description of the Act. It was an Act which was passed after full deliberation by this Council under the presidency of a Governor General who was particularly acquainted with the

condition and circumstances of the districts to which the Act applied ; and so far from the procedure being lax, it was in his opinion as strict as the ordinary criminal procedure, and provided for assessors sitting with the Judge who presided over the Court which tried the criminals, and it differed from the ordinary criminal procedure in little else than providing that the sentences which were passed would not be subject to the sanction of the Chief Court of the Panjáb. He should not argue regarding the correctness of the procedure which the law provided any further than to say that it seemed unnecessary to do so, inasmuch as it was passed before in this Council, and had been in force for the last ten years without producing any of the evils which a law such as his hon'ble friend had described would be likely to produce.

The second point in his hon'ble friend's remarks related to the necessity for continuing the enactment. MR. EGERTON submitted that this was a point on which the opinion of the Local Government should be allowed the greatest weight. Although it had so happened, happily, that during the time the law had been in force a very small number of cases had been tried under its provisions, yet he thought the argument to be derived from that fact was one which might fairly be interpreted in favour of the continuance of the law and not for its abolition. It was probable that the short and speedy procedure which the law supplied had been effectual in preventing the outrages against which it was directed. And it was very possible that if this law were allowed to expire, it might be considered by the frontier-tribes that the opportunity had been given them of perpetrating outrages from which they had for some time abstained. Encouragement might be given to evilly disposed fanatics and might cost the lives of many European officers. And he thought it was desirable, as the Local Government had requested, that the Act should be continued in force. If it were not required frequently to be put in operation, the special procedure which was considered objectionable would be of course little used and the continuance of the Act would be unobjectionable.

THE HON'BLE SIR EDWARD BAXLEY said, although there was no motion before the Council and this discussion was somewhat irregular, as it would naturally arise rather on the proposal to introduce the Bill, when it was the custom to discuss the policy of intended measures, nevertheless, as His Excellency the President had permitted the hon'ble member to make some observations upon the Bill, he thought it might be well that he should continue the discussion, and offer some explanation as to the remarks which had been made, in the degree which they seemed to require explanation.

He thought his hon'ble friend's remarks might be divided into three heads:—first, that the law was a bad law ; secondly, that it was unnecessary ; and thirdly, that if it were necessary, the better way to provide for it would be by a Regulation under the Statute 33 Victoria.

As regards the badness of the Bill, he had said before all that need be said, and he might say that, with the exception of the remarks under the last head, he had already by anticipation answered most of the arguments which the Hon'ble Member had brought forward. The original Bill, he would again remind the Hon'ble Member, was introduced at the request of the Panjáb Government, in a Council which was presided over by *the* man of all others who knew most of the circumstances of the Panjáb. It was approved by some of the ablest members and best jurists who ever sat in this Council. Therefore as far as the necessity for the provisions of the Bill at the time was concerned, and the fitness of those provisions to meet that necessity, he thought the Bill required no advocacy from him. As regards the assertion that it was a Bill to hang a man first and try him afterwards, if the Hon'ble Member had read the discussions which passed on the former Bill, he would find that that question was distinctly answered by Sir Henry Maine, who said that it was not a Bill to hang a man first and try him afterwards, for in all these cases the perpetrator of the outrage invariably not only confessed but boasted of what he had done : there was no question of evidence, no question of fact whatever ; the man was only too glad to declare his act and to bear his guilt."

In respect of the present necessity for the Bill, he thought what had fallen from his hon'ble friend Mr. Egerton, who himself had been well acquainted with the operation of the Bill for the last ten years, and who would be responsible for its operation hereafter, might be accepted as sufficient authority. But he thought that the extract itself which the hon'ble member read from the letter of the Government of the Panjáb was pretty good evidence of the correctness of the assertion that this Bill was required. It was true that the number of these outrages was not very large, and that they had decreased since the passing of the law in 1867. As he had said before, in the twenty years which preceded the passing of the Act, there were twenty-four officers either killed or seriously wounded by assassins on the frontier. Besides these, there were many attempts which were not recorded. He himself was acquainted with two such cases in which murderous attacks had been made on two most eminent men, General Nicholson and Sir Herbert Edwardes, who were repeatedly attacked and had to defend themselves by their own weapons. In the early days there was scarcely a civil officer whose life was not attempted by fanatics. Since the passing of the Act, as was stated in the letter to which reference had been made, there had been only four such cases, but since the writing of that letter there had been an attempt at another, the report of which was only received by him the day before yesterday.

Then came the question, what were the causes of these outrages? If the Act had removed the causes of them, there might have been some reason to say that the Act was no longer necessary. But the causes remained in exactly the same force, or nearly the same force, as before. It was possible—and in that respect his statements on the last occasion were perhaps not perfectly clear—that within our frontier there was now maintained a better degree of order. Still these outrages were not committed by men from within our borders, but by members of the wild and lawless tribes who were outside the border, and who were in much the same condition—just as fanatic, just as blood-thirsty, just as hostile—as before 1867. The causes therefore remained, and the only reason that could be given for the diminution of these outrages was that the sharp, short, and certain method of punishment which the Act had provided deterred these people from committing outrages. The Panjáb Government therefore naturally objected to its repeal or extinction, and they wished that they should be empowered to continue to give their officers the same protection in the future as they had enjoyed in the past.

One other observation it was necessary for him to make on the Hon'ble Member's suggestion that it would have been better to pass this Bill under the special Act of Parliament which enabled the Executive Government to make Regulations for special districts. It was quite true that this Bill did apply nominally to the whole of the Panjáb, but as a fact it only came into operation in certain districts which were proclaimed by the Government of the Panjáb with the sanction of the Governor General in Council, and those were no doubt the very districts to which the Act of Parliament would apply. In that respect therefore, the one remedy was certainly as good as the other. But he had all along fully admitted that the procedure of the proposed law was extremely exceptional and peculiar. It was in fact a kind of coercion Bill. He thought therefore that, as being an exceptional measure, he would not say it was more prudent, but more courteous to the public, to give an opportunity of discussing the principle and operation of the measure in Council, than to bring it into force at once by proclamation in the *Gazette*; and as the law was one which had been adopted and fully approved by this Council before, it seemed to him the natural, almost the inevitable, course to re-introduce it in this Council.

The Hon'ble Sir ARTHUR HOBBHOUSE said :—“As I have been personally appealed to by my hon'ble friend Mr. Cockerell to say if I think this kind of jurisdiction is a proper jurisdiction to give to Magistrates in the Presidency-towns, I have no hesitation in answering frankly that I do not. But the fact is that the circumstances of the Presidency-towns are very different from the circumstances of the frontier-districts in the Panjáb. The good order which

is established in the one is not established in the other. The alterations which were desirable and which we have made in the Presidency-towns, were some moderate, cautious, well-guarded extensions of jurisdiction for the convenience of the public. If we had murderous outrages to deal with, no doubt we should have given much more arbitrary and extensive powers, and we should have placed them in more responsible hands : namely, as regards Calcutta, in the hands of my hon'ble friend the Lieutenant-Governor himself. The fact is that all coercion Acts appear upon their face to be tyrannical or arbitrary ; by the very nature of the case they must be arbitrary if they are to work at all, and we must look to their working to see whether they are good laws or bad laws. The first question then is, does this Act answer its purpose ? It is clear on the evidence before us that it does. The next question is, does it oppress the people and do they complain ? We have not a scrap of evidence to show that during the ten years the Act has been in force any person has come forward to complain of its operation. Therefore I think the case is one in which we should do well to continue that state of things which is working well, and wait to hear complaints before we condemn the law for harshness."

His Excellency THE PRESIDENT said :—" I did not feel justified in interrupting my hon'ble friend, Mr. Cockerell, just now, because I was under the impression that, if he was not going to ask for information, it was perhaps his intention to furnish us with some special information, not in possession of the Government, having regard to this Bill. But I think we are labouring, at present, under this disadvantage, that the discussion raised by my hon'ble friend's remarks is somewhat irregular. Those remarks might, more appropriately, have been made on the occasion of our next meeting, when my hon'ble friend, Sir Edward Bayley, proposes to ask the Council to pass this Bill for renewing the operation of Act XXIII of 1867.

" I may say, however, that one reason why I myself hope the Council will then assent to the request of my hon'ble friend Sir Edward Bayley, is that as far as my own information goes, there are, in my opinion, many exceptional symptoms in the present social condition of our northern frontier which render the abrogation of this Act peculiarly inexpedient just now, notwithstanding the existence of Act 33 of Victoria.

" I therefore trust that at our next meeting we may be able to obtain the assent of the Council to the renewal of this Act."

BRITISH BURMA EMBANKMENT BILL.

Colonel the Hon'ble SIR ANDREW CLARKE moved for leave to introduce a Bill to provide for the execution of emergent works in connection with embankments in British Burma. He said that he found himself also in the position of having to introduce a coercion Bill, but it was somewhat of a different nature from that last under discussion, as it was a Bill to induce those interested in the soil in the Province of British Burma to look after their own property. Since the acquisition of Burma by the British, very large sums of money had been expended under the auspices of the several Chief Commissioners, and especially of his hon'ble friend Mr. Eden, and great improvements in the embankments of the country had been carried out, and the cultivated lands were now comparatively safe from those dangerous floods which so frequently occurred. But at times the floods were more than normal and rose excessively high, and many of these embankments were subject to being breached. And it required immediately a large mass of labour and material to be at the disposal of the Canal officers to check the ravages of the water if allowed to flow uncontrolled and unchecked. But the people of Burma, who had so immensely benefited from these embankments, at a time when their material and labour were necessary, would not give their labour and would not allow their material to be taken for this purpose. Therefore he came to ask the Council to allow him to take special powers to force the people to labour on these embankments, and at the same time to take their material. It was at the same time proposed to give them high wages. The Bill provided for fifteen per cent. being given above the market-rate of

the day, and also a percentage above the value of the material. He himself would wish to see that in a case of this sort there should be no excess-payment either for labour or material, because the work was for their own benefit. But he found that there were precedents for such excess-payments in the case of the embankments in Northern India and Madras, and also he believed in Bengal. He would conclude by a quotation to show that he was not asking for an unreasonable power, and also to show what had been the influence of embankment-works in British Burma. He would quote a paragraph from a recent report by Mr. Rivers Thompson after a severe flood.

The Motion was put and agreed to.

N. W. P. LOCAL RATES ACT, 1871, AMENDMENT BILL AND LICENSE BILL.

The Hon'ble Mr. COLVIN moved that the Bill to amend the law relating to assignments from the General Provincial Fund established under the North-Western Provinces Local Rates Act, 1871, be referred to a Select Committee.

He said that, although the question thus brought before the Council related to only one of the two Bills which had been introduced by his hon'ble friend, the Member in charge of the Financial Department on Thursday last, it would perhaps be more convenient, and would also save the time of the Council, if he dealt with them both together in the remarks he was about to make. The two measures which had been thus proposed were both in furtherance of the scheme for throwing on the Local Governments the responsibility of undertaking their own local works,—and for that purpose only. He should not have thought it necessary to say this, but that from certain comments which he had seen and heard, he was under the impression that some people imagined that these Bills were in some way connected with other schemes, such as alterations of the customs-tariff, and with further financial changes which had been mentioned by his hon'ble friend on that occasion, and not solely with a view to the extension of provincial responsibility for public works. He wished to remove this misapprehension as far as he could. These Bills, with which he had been connected from the commencement, related solely and entirely to the extension of the provincial system to the management of public works. The first of the two measures introduced for this object was one which would enable the Lieutenant-Governor of the North-Western Provinces to appropriate a certain portion of the funds under the Local Rates Act towards works of general provincial utility. The principle of applying these funds in such a way was already recognized in the Act, as any part of the assignment made to these districts, which might remain unexpended, might be appropriated to the benefit of the North-Western Provinces generally. The proceeds of all rates levied under it were also thrown into a general provincial fund. Besides this, the Lieutenant-Governor had power, under a certain section of the Act, to apportion the cost of any work which might benefit one or more districts among the districts which were thus benefitted. All that the Bill now before the Council proposed to do, was to extend these powers expressly to the case of such canals and railways as had been declared, with the sanction of His Excellency in Council, to be works of general provincial utility—that was to say, works which came within the spirit and intention, if not within the actual letter, of the existing law. The powers conferred by the Bill would be purely optional. It was hoped by the enhancement of the profits from those works which were reproductive, by further taxation (to which he would allude presently), and by other modes of improving its income which were open to it, that the Local Government would perhaps be able to undertake the charges which had been laid upon it, without having recourse to this measure at all. In any case, and supposing that the Local Government required this assistance, the amount which it was empowered to take was limited to ten per cent. upon the total sum levied. The remaining ninety per cent. would leave an ample margin to meet all charges on account of the grants which had at present to be made by the Local Government. The changes made by this Bill were so trifling that they did not appear to him to require any further remark.

He would proceed now to the License-tax, which it was in contemplation to impose in the North-Western Provinces. When first the scheme for placing

local works under the control of the Local Government was suggested, and it became evident that further funds would be necessary, a number of the most experienced officers in the North-Western Provinces had been consulted as to the best way of raising that money. There was a general unanimity in the opinions given by all the officers who were consulted. In the first place there was a strong and general disinclination to add any thing to the burdens already borne by the agricultural classes. There was also a universal conviction that it was both just and expedient to tax the non-agricultural community. As was well known, that community contributed at present remarkably little to the public revenue, except in such towns as paid an octroi-duty. At the same time the non-agricultural classes were amongst those who benefitted especially from the class of works which it was now proposed to transfer to the Local Government. In the case of any famine or scarcity, the first and greatest pressure of the calamity almost always fell on the poorer classes living in towns. It seemed only reasonable then that, when canals and railways were provided, which by ensuring the supply of food, and providing the means of transport for it, and thereby greatly diminishing, if not wholly averting, the danger of famine, those particular classes that most especially benefitted from these works should at least contribute something towards their cost. As to the mode of levying contributions from them, there was a general consensus of opinion that the best form would be that of a License-tax. It was accordingly in this shape that it was now proposed to levy the tax. The Bill now before the Council borrowed all its principal features from one which had formerly been introduced by Mr. Inglis. That Bill, though it had passed through Committee, never took the shape of law, solely for this reason, that the Local Government of that time discovered that it would be able to meet its financial requirements without having recourse to extra taxation. The present Bill also bore a strong resemblance to one which had been introduced so far back as 1862, when Mr. Laing was in charge of the Financial Department. That Bill, like Mr. Inglis's, was intended to impose a low and fixed rate of fees upon all traders. These two Bills however, namely, the one introduced by Mr. Inglis and that introduced by Mr. Laing, were supplementary to an Income-tax, that is, they were both intended to be in operation simultaneously with an Income-tax. The present Bill differed from them in this respect, that it was the only tax which was to be imposed at present. It resembled them however in the essential point that the necessary addition to the revenue was to be levied by a scale of fixed fees, which it was hoped would do away with the necessity for any minute inquisition into incomes, against which very strong objections had been felt and expressed.

For the purpose of determining the rates at which the fees were to be charged, the whole body of traders had been divided into three broad classes. In this respect the measure followed Mr. Inglis's Bill, as it did also in the grouping of trades under the respective classes. Great pains were said to have been taken at the time to make this classification as complete as it could be, and it seemed the safest course to adopt it as it stood. It was possible of course that in Committee some amendments and improvements might be suggested, but generally the Bill followed the classification of Mr. Inglis's Bill. In one point however, it had been determined in some degree to alter the arrangement of classes which was then made. It had been thought desirable to introduce grades, and to make the scale of fees range over a wider extent than that of the former Bill. The reasons for doing this were, in the first place, that it was necessary to improve the receipts. It was thought that the amount which could be levied by a uniform scale of fees so low as they were originally pitched would be quite insufficient to meet the requirements of the Government, for it was admitted on all hands now that the estimate then made of the probable yield of that tax was greatly overrated. A further reason for introducing grades was this, that with fixed rates of fees each class must be so determined that it should not bear hardly upon the poorest men who came within it. A necessary consequence of this was that the richer men who came within any class would not pay their due proportionate amount unless more than three classes were introduced and grades recognized, which corresponded in some measure with the variations which actually existed in the amount of business and prosperity of different traders. This had accordingly been done, and it was hoped

that it would have the effect of making the tax both more equitable and also of producing a larger revenue.

In order to prevent the tax from pressing unduly on any individual, a limit of two per cent. on the net annual earnings had been fixed. But it must be understood distinctly that the limit so fixed was a maximum rate, beyond which the incidence of the tax was not to go. It was not to be a standard for determining the rate at which each person was to be charged. In the case of wealthy traders it certainly would not be an excessive rate, and he for one would be very glad to see a fee imposed upon them which, so far as the law permitted, reached the full maximum of two per cent. But it was beyond dispute that a uniform percentage fell heaviest upon people with low means; that it was easier for a wealthy man to pay two per cent. upon his earnings than it was for a man whose income did not exceed Rs. 200 or Rs. 300; and he had reason to believe that, as a matter of fact, the Local Government had no intention of allowing these fees to reach so high a rate as two per cent. on the poorer classes of traders.

A minor change which had been introduced in the present Bill was that an appeal was allowed to the Commissioner. In Mr. Inglis's Bill no appeal had been allowed. But it had been thought desirable, as the amount with which any man could be charged was considerably higher than it was then proposed, to allow of one appeal in case of any person being dissatisfied, so that a petitioner might carry his objections before two separate officers.

Sections 17 and 18 of the Bill had been adopted as they stood from Mr. Inglis's Bill. They were inserted there with the intention of utilizing Municipalities in the collection of taxes, and it had been thought that they might be found useful for this purpose now. They had accordingly been retained, and it would be a matter for the discretion of the Local Government to avail itself of them, or not, as might be found convenient.

He had now noticed the only points in the two Bills which were introduced on Thursday last that seemed to him to require any comment at present. He had only this much further to add, that all that had been done in connection with them had been carried out in communication with the Government of the North-Western Provinces, and that the Lieutenant-Governor had expressed his entire concurrence in the measures they were intended to further, and his cordial approval of the principles contained in the Bills.

The Hon'ble SIR JOHN STRACHEY said :—" My Lord : But for one reason I should have reserved for the close of this debate any observations which it seemed necessary for me to make ; but some remarks have fallen from my hon'ble friend, Mr. Colvin, which remind me that it is desirable that I should say a few words to the Council before the debate proceeds. My hon'ble friend appeared to think that there may have been some misunderstanding in regard to the objects with which these Bills have been introduced, and that there has been a feeling in some people's minds that these Bills are connected with measures affecting the customs-tariff which I said the other day that I hoped might be carried out hereafter. I had myself become aware that such an opinion had been expressed, and I wish to take the earliest opportunity which offers itself for removing any misunderstanding which may have arisen. I must say, in the first place, that when I spoke about the possible future abolition of all customs-duties in India, I perhaps did not state in a sufficiently unmistakeable way that I was giving my own personal opinion only. When I dipped into the future and saw the untaxed wares of the world pouring into the free ports of India, I was indulging in the pleasures of my own imagination, and by no means proclaiming the intention of the Government to adopt hereafter the policy which I foreshadowed. The truth is that the subject has never been considered by the Government at all, nor has it been officially before the Government, so far as I know, in any shape whatever.

" I hope that no one will fancy that it has ever entered into my head that all customs-duties can be got rid of within any specific time, or, indeed, within any time to which I can practically look forward, or that the Government is in any way committed to anything by the aspirations which I have expressed. The customs-duties yield about 2½ millions a year, and it is clear that under

present circumstances we could not abolish them without imposing heavy fresh taxation in their place, a course which would be, in my opinion, totally unjustifiable, and indeed preposterous. Even for the much smaller object of abolishing the cotton-duties, there has never been any idea of imposing fresh taxation. The Secretary of State, in the last orders which he gave on the subject, distinctly said that, highly as he estimated the importance of removing these duties, he quite agreed with the Government of India in the opinion that it would be inexpedient to impose any new tax for such a purpose. Your Excellency, almost immediately after your arrival in India, spoke in public to the same effect.

"There is only one rule in regard to such matters as this, which, consistently with prudence and good financial administration, can be followed, and I hope that the Government will be guided by it in future. This rule was laid down by the Secretary of State in the despatch to which I have just referred in a passage which I will read to the Council: 'All important remissions of taxation,' he wrote, 'especially in India, in which country the revenue is liable to sudden fluctuations, and the margin between revenue and expenditure is usually small, should proceed upon the most careful estimates, and be undertaken with caution and deliberation; but for this very reason it appears to me that where the revenue is so considerable as in the present case, gradual reduction, which can in a serious and unforeseen emergency be suspended, is a safer and more prudent policy than total and final remission.'

"The policy thus laid down by Her Majesty's Government is the policy which I hope to see carried out.

"I said the other day that, in this matter of the cotton-duties, I believed the interests of England and India to be identical, and I am confident that if we act cautiously and gradually in the manner which the Secretary of State desired, no Indian interest can possibly be injured, but on the other hand that Indian interests must be greatly benefited. But I certainly could not say this, if the abolition of these duties involved the imposition of fresh and unwelcome taxation. The Government would, in my opinion, obviously neglect the paramount duty which, as their natural guardian, it owes to the people of India, if it consented to any such transaction.

"I endeavoured in my Financial Statement to show that while the total expenditure of the Empire showed no tendency to increase, every great source of income had been steadily advancing; that the total nett revenue in 1875-76, the last year for which we have complete accounts, was more than two millions sterling in excess of what it had been seven years before, and that it had increased at an average rate of about £300,000 a year. Considering that the total amount of the cotton-duties is only £850,000, and that only gradual remission is aimed at, there is nothing sanguine in the anticipation that we shall soon be able to take a first step in dealing with them.

"The object with which the Bills now before the Council have been introduced is that, and that only, which has been stated by my hon'ble friend, Mr. Colvin: we require these measures to enable us to carry out in the North-Western Provinces a great financial reform,—that of enforcing local and provincial responsibility for meeting the cost of works undertaken for the benefit of local and provincial interests: this is the practical question now before the Council.

"I wish now, my Lord, to take this opportunity of making a little personal confession. I am afraid that I am one of those people who are inclined to express their opinions in somewhat strong and plain language, and who do not always show sufficient consideration for the opinions of others. When I read over in cold blood the remarks which I made the other day about the cotton-duties, I found in them an illustration of what I have now said. Considering that only a year ago Lord Northbrook, for whom, both on personal and public grounds, I have the highest regard and respect, and many of the Members of this Council towards whom I hold the same feelings, stated on behalf of the Government of India opinions on this subject very different from my own, it would have been wiser and in better taste if my remarks had been couched in less aggressive language. I hope that if any member

of the Council has felt this too, he will accept my present confession and apology."

The Hon'ble MAHÁRÁJÁ JOTÍNDRA MOHAN TAGORE said that he did not wish to enter into the details, nor to discuss the various principles, raised in the Budget-Statement; but he would beg leave simply to invite attention to one or two points connected with the decentralization scheme, which he thought formed one of the main features of the Financial Statement. The theory of decentralization was certainly sound in principle; but the present scheme, in his humble judgment, did not go sufficiently far. While certain sources of revenue were made over to the Local Government, certain liabilities were thrown upon them, which would necessitate the imposition of fresh local taxation. Now taxes, whether called local or imperial, as the hon'ble member in charge of the Finances had himself admitted, would press upon the people all the same. If he might be so permitted, he would remark that the proposed system of Local Finance was like the *Thikadári* system known in Bengal Zamindaris, only the arrangement seemed to be based upon less favourable terms; for the *Thikadár* generally paid to the Zamindár less than the gross assets he derived from the land, and was allowed to enjoy all prospective profits during his incumbency, whereas the Local Government, under the decentralization scheme, was required not only to make good to the Imperial Government the full amount of the receipts from the different sources of revenue assigned, but also to make over a moiety of the increase during the period of the contract. If justice was to be done to the Local Governments under the decentralization scheme, he thought the only way to do it would be to adopt the course indicated by Lord Canning in his Resolution of the 11th November 1861. Speaking of Bengal, in which he naturally felt the greatest interest, he begged to observe that it yielded the largest amount of revenue, while its provincial expenditure came up to about one-third of the gross income. Making proportionate deductions from certain revenues, such as opium and customs, to which other provinces had a legitimate claim, there was still left a large surplus, which went to make up for the deficiencies of the less-paying provinces; and yet it was proposed to levy fresh taxes. This, he submitted, was not fair or just to Bengal. It had often been urged that, as Bengal was blessed with a permanent settlement, and as her land-revenue could not be increased, it ought to be made to pay in other ways. Those who averred this forgot that in no other part of India was indirect taxation more productive than in Bengal, and that, to use the words of His Grace the Duke of Argyll, Her Majesty's Secretary of State in 1870, "in the greater fruitfulness of indirect taxation and some direct taxes in Bengal, as compared with other provinces, the Government recovers some portion of the revenue which it has sacrificed in the form of land-assessment." And this was exactly the result which was expected by that far-seeing statesman who introduced the permanent settlement. He wished to add one word with regard to compulsory rates for irrigation. No doubt the principle was sound, that those who benefited by the work ought to pay for it; but it so happened that in Bengal the canals did not supply the water when it was most needed; for the rivers being dry during a season of drought the canals which were fed by the rivers became necessarily dry also, and during the rains, when the canals were full, there was rarely any necessity of supply from them for irrigation. It would be very hard to impose a permanent tax on the people for works of which the benefit was so very uncertain. He believed it was for this, among other reasons, that the Secretary of State once disallowed a law imposing a tax of this nature; and if the Government should revert to the same policy within so short a time, he respectfully submitted that the effect upon the people would be anything but assuring.

The Hon'ble MR. BULLEN-SMITH said that in supporting the Bills just laid before the Council by the hon'ble member on his right, it would be readily supposed that, from his constant residence in Lower Bengal, he could not bring any special information to their consideration; and he might well give a silent vote in their favour, but for two reasons: 1st, having had the honour of a seat in this Council when the decentralization-scheme had first been launched under the presidency of His Excellency's lamented predecessor, Lord Mayo, and

having given his cordial adherence to that measure as one which in his judgment formed a turning point in modern finance, he was the more pleased to give his support to a Bill which, like the first of the two introduced, was in further development of that system; and he was also glad of the opportunity to express the pleasure with which he had heard the hon'ble gentleman now at the head of the Financial Department, who had himself so largely shared in the initiation of the policy of decentralization, declare that, after a thorough examination of the working of that measure during the seven years in which it had been in operation, he was able to announce to the Council and to the public that its results were entirely satisfactory. His second reason for abstaining from a mere silent vote on the present occasion was that he desired to avail himself of the opportunity, which he understood it to be His Excellency's wish this day's discussion should afford, of making a few comments on the Financial Statement that had been delivered before this Council on Thursday last.

He had listened to this statement with the utmost pleasure, satisfaction and interest; more so, he thought he might safely say, than to any previous Financial Statement which he had heard delivered in this place. He thanked the hon'ble gentleman for his frankness; he admired the statement for its boldness, and he particularly rejoiced to find in it not mere clerky manipulation of figures, but a strong and well-defined grasp of what he considered sound financial principles, which he could not doubt would ultimately secure to His Excellency's financial policy that success which it deserved. The field over which the Statement travelled was large and varied; but he did not purpose troubling the Council with any lengthy remarks, but merely noticing a few of the points which were of most interest to those who, like himself, were engaged in mercantile pursuits, and whom he might perhaps in some degree be held to represent in this Council. Regarding opium, he accepted with thankfulness the hon'ble member's declaration that he would, on the earliest possible day after the termination of certain enquiries now going on, announce the exact quantity which would be offered next year; and he believed that in so doing he would at once serve the interests of the trade and of the Government. For some years past it had been the custom to give such information to a certain extent, although not for such a forward period as was now pointed at; and, he believed, with the happiest results. If during these years the fluctuations in the price of opium had been less frequent and severe than formerly, he considered it to be very much owing to the knowledge possessed of the quantity to be brought forward. So long as Bengal opium was the subject of occasional heavy gambling operations, which were generally initiated from the Bombay side, considerable fluctuations in price must be expected; but apart from such interruptions, the information promised should have a very steadying effect on the market. He wished much that the hon'ble member could have been more reassuring on ways and means. He not only concurred with him in thinking it unsatisfactory, but he considered it also most unfortunate and injurious, that Government had not been able to give more definite information regarding its loans and bill-operations for the coming year. True the present views and estimates of these are mentioned in the Financial Statement; but the note attached, and to which the hon'ble member had most properly drawn prominent attention, took away any value from this declaration, and left all in doubt and uncertainty---conditions which always pressed hardly on business. The limited extent of the markets of India for Government securities, and the fact that there existed here, unlike the great financial centres of Europe, almost no other forms of investment in which bankers and merchants could place their reserves and floating funds, were two circumstances which tended greatly to aggravate the evil of uncertainty in such matters. It was obvious that in view of the announcement made in this Statement, operations in Government securities must for the present be somewhat of a leap in the dark, while the uncertainty about the issue of the Council Bills must tend still more to perplex all concerned as to the future course of exchange, and reduce this all-important class of business to something not unlike gambling. In making these observations, he did not forget that the exchange-difficulties last year had pressed very hardly upon the Government of India in common with

other people; and he was also free to admit that undue panic had something to do with the excessive decline which had taken place in the value of the rupee. Nor was he disposed to insist much upon that wisdom which is wise after the event, but he thought it was now generally admitted—and here he desired to speak with all moderation and respect—that a firmer and more consistent handling of the Council Bills last year would have greatly checked and mitigated the evil which the course adopted tended rather to intensify. This being so, he thought he was not asking too much when he expressed the earnest hope that, as Parliament was now in session, the Secretary of State might be at once moved to obtain the statutory borrowing powers, which he required with the least possible delay, and forthwith put the Indian Government in a position to give, as regards the loans and Council Bills for the coming financial year, that definite information which circumstances demanded, and which he believed there was no desire on the part of Government to withhold.

The Financial Statement delivered to the Council last Thursday closed with some interesting remarks on certain fiscal matters, and a vehement denunciation of the existing cotton-duties. He was no lover of trumpets which gave an uncertain sound, and even if he had any such predilection, he knew that he must look elsewhere than to the Hon'ble the Financial Member for such an instrument; but believing that in his remarks on the cotton-duties the hon'ble gentleman had not spoken in his individual capacity, he confessed that he had heard them with surprise and regret, and would have desired more measured utterances. The remarks as made seemed likely to kindle hopes which had no early prospect of accomplishment, and further appeared to indicate that the Government of India was prepared to go to extremes in carrying out the instructions of the Secretary of State on this subject. From what had fallen from the hon'ble member this morning, he was glad to infer that his fears had been groundless, and that on the previous occasion he had been giving utterance rather to the intensity of his own convictions, than speaking in that other and wider sense to which he had alluded. As these cotton-duties were not today before the Council in any practical shape, it was not his intention to enter upon the subject in detail, or to trouble the Council with the reasons which had led him and many others altogether to dissent from the opinion that these duties had a priority of claim over any other form of fiscal relief. He would rather express the hope that, in carrying out the instructions of the Secretary of State, the Government of India would avail itself of the large discretion which these instructions seemed to leave in its hands, and would not, when the opportunity came for making some move towards the removal of these cotton-duties, lose sight of other matters, which although not so much heard of, had even stronger claims to relief. He need not assure the hon'ble member that he would welcome as gladly as himself the free ports to which he looked forward; that he was no lover of these cotton-duties *per se*; he would even go further, and admit for the sake of argument that they were blots on the Indian fiscal system. But they all knew that there were blots and blots: some so large as to deface and disfigure the parchment; others so small as to be scarcely discernible. It was a question of degree; and so also with these fiscal items. What he asked was, that each should be considered on its merits; and in the meantime he might express his own strong opinion that some of the other items to which he had alluded not only offended more against the theory of fiscal economy than did these cotton-duties, but were also productive of much more evil and mischief in their practical working. As to the proper mode of dealing with this subject, he was not ashamed to say that, both as a member of this Council and as a member of the Tariff Committee, his endeavour had been to look at it mainly from an Indian point of view; and for this reason among others, that he had always felt sure that the English side of the question would be fully put forward by others, and would meet with every consideration from the controlling authority at home before any decision was come to. In saying this, he hoped he need not assure the hon'ble member that he was not one of the foolish people who sneer at Manchester, and he agreed with him that the man was foolish indeed who would attempt to sneer at that great centre of England's manufacturing industry. But human

nature was, he took it, much the same in Lancashire as elsewhere; and it was only natural that the men of Manchester had looked, did look, and would continue to look, at these cotton-duties from their own point of view and in the light of their own interests. He did not blame them for so doing, but he could not admit that their interests and those of India were altogether so identical as his hon'ble friend seemed to consider them. Identical they were of course in so far as the interests of England were closely bound up in those of her greatest dependency; identical they were in that the interests of two countries carrying on such a trade as that existing between England and India could not but be closely connected; identical they were, no doubt, in a sort of general way; but it was an identity which, although accepted when stated in the abstract, became more difficult to receive when one entered on details. He would give an instance, taken from the Statement before the Council, where the interests of which he had been speaking were not identical. The hon'ble member in his Statement had given a graphic sketch of the customs-hedge which ran across a great tract of Northern India, and had unsparingly pointed out its many evils. If that hedge were abolished tomorrow, no man in England would find himself happier or better off in any respect; while in India, from the very day of its abolition, harassment, extortion and petty tyranny would be saved to many. Then again, Lancashire needed no help from here to fight her cause. The men of Manchester were strong and wealthy and united; they wielded powerful political influence, and probably inspired more than any other body, that pressing terror without the salutary influence of which, the Secretary said a few weeks ago, when speaking to the Associated Chambers of Commerce, he did not know what would become of the reform of Indian finance. He had therefore, as he had said before, always felt quite sure that the Manchester view of these cotton-duties would be well pressed, and had deemed it the more incumbent upon himself to view them from the Indian standpoint, to ascertain what was likely to be most equitable and beneficial to the people and trade of this country, and to decide accordingly. With these remarks he begged to tender his support to the two Bills before the Council.

The Hon'ble MAHARAJA NARENDRA KRISHNA said that they had heard the able and lucid Financial Statement read at the last meeting of this honourable Council. It would be impracticable to dwell at length on the various items contained in it, and he would therefore confine his remarks to certain very important points. The Government of India wished to raise the amount of six and a half millions by loans, to be contracted here or in England, or partly in both countries. Such a large amount would not have been required if the finances had not been affected by the terrible famines raging in the Presidencies of Bombay and Madras, and by the charges required for extraordinary Public Works. This was certainly a matter of regret; but over the former cause there could be no human control, and as regarded the latter an economical management was promised. The people of India were very much indebted to His Excellency for not recommending the imposition of the obnoxious Income-tax to meet the deficiency. It was stated that certain existing taxes would have been touched, but had not been interfered with on account of the famines. It was contemplated to equalise and reduce the salt-duties, to abolish the inland customs-lines and the sugar-duties, and the import-duties on cotton-goods. In the absence of any data of the amount of the proposed reduction of salt-duties, if they took the amount of revenue derived from the other two sources to be about a million, they would have to lose an income far above one million, to recoup which it was feared some new form of taxation would hereafter be imposed upon the people. It would however be premature to dwell on such subjects, which were not now taken in hand; but he would only point out that, although nothing could be said as to the abolition of all protective duties as a general principle, he might observe that all principles should not necessarily be acted upon simply because they were good and sound, without a due regard to their adaptability to the times and the circumstances of the people. The cotton-industries, through the aid of steam-machineries just born in the different parts of India, required the fostering care of the British Government for their development, and it was on that account a matter of serious

consideration whether the abolition of these duties would not stifle them at their birth, not to mention that it was still a doubtful question whether the particular customs-duty was of a protective character. It was declared that an extension of the existing form of provincial taxation was to be made for carrying out local improvements. The people however believed that their able and wise Lieutenant-Governor could devise means to raise the twenty-seven and a half ~~lakhs~~ lakhs of rupees required for the carrying out of the proposed improvements more by the curtailment of expenditure and the development of the productive resources of the country, than by the extension of the existing taxes.

The Hon'ble Mr. COWIE said:—"My Lord,—As I have no special exceptions to take to the Financial Statement before us, my observations upon it will be very brief, and perhaps therefore the more acceptable.

"I congratulate the Hon'ble Member that he has happily managed to steer clear of the imposition of an Income-tax, in which I think he is the more to be praised, inasmuch as he does not disguise his admiration of that mode of raising Indian revenue.

"If one could eliminate from that statement the cost of that terrible famine, I feel bound to admit that the year's estimate of income and expenditure would have been both satisfactory and encouraging.

"That cost, we are told, is to be met by loans to be raised partly in India and partly in England. When money here is worth 10 per cent. and at home $2\frac{1}{2}$ per cent., there should *prima facie* be no doubt as to which is the better country where to borrow; but then comes in that very difficult problem, called the silver-question, which casts grave doubts upon the expediency of India borrowing English gold, when she can pay the interest of it only in a very depreciated silver-currency.

"It is possible that the suggestion of borrowing in each country arises in the desire, if I may use the expression, to hedge this very grave difficulty.

"In the case of borrowing in England, there is this singular anomaly. It is matter of notoriety, that the most impecunious Government in the world may go into the London money-market and borrow to the extent of the credulity of lenders, but the Empire of India cannot do so without a special Act of Parliament, and from what fell from the Hon'ble Member last week, it would seem that even that concession cannot with certainty be calculated upon.

"In connexion with the proposed loans, I think bankers and merchants have cause to complain of the very remarkable vagueness as to time, place and circumstance which accompanied the statement of the Finance Minister, that $3\frac{3}{4}$ millions would probably be raised at home and $2\frac{1}{2}$ millions in this country. In point of fact it came to this, that notwithstanding those figures were named, the Government of India will borrow when and where they please.

"I congratulate the Hon'ble Member on his broad and liberal utterances in regard to the salt-tax, the Inland Customs-duties and the Import-duties on cotton-manufactures. On this last-named item I will say nothing, as my esteemed friend, the Hon'ble Mr. Bullen Smith, has just now so ably handled the subject. When hearing the Hon'ble Sir John Strachey last week draw a picture, to which distance lent enchantment, of the day when the ports of this vast Empire should be free to the commerce of the world, I thought it was somewhat Utopian, but imagined he was only setting up a high standard of excellence, of which, if not the whole, a part might some day be realized; but in his explanation of to-day, he has removed all the varnish from that picture, by stating that he was merely revelling in imagination. At my time of life I cannot hope to see that consummation, but I very cordially trust the Hon'ble Member may."

The Hon'ble Mr. HOPE said that, before noticing the two Bills which were now under the consideration of the Council, he proposed to offer a few remarks on the Budget Statement which had been presented on the last occasion when the Council met, although he was well aware that, but for His Excellency the President's indulgence, he should be out of order in doing so. He would in the first place express the great relief and satisfaction which he felt, and which he believed was shared by all who gave any attention to such matters, at learn-

ing from his friend, the Hon'ble Sir J. Strachey, that in respect of Public Works Extraordinary, the cloud which they had seen lowering in the horizon at the time of Sir William Muir's Financial Statement last year, and which had darkened over their heads with momentary threats of bursting in August last, had to all appearance passed away; and that these works were not to be further checked or indefinitely postponed. The importance of these Extraordinary Works, whether railways or canals, or others of a special nature, had not been, MR. HOPE was quite certain, one whit overrated by the hon'ble member; and he was sure that Sir John Strachey must share with him, though he might not feel at liberty to express it, the disappointment he experienced on learning that the condition of the finances did not allow of the assignment of a larger sum than two millions and a half towards these objects. In connection with this subject, he would invite attention to the opposite side of the shield to that which the hon'ble member had presented to them. The hon'ble member had given a very graphic sketch of the enormous increase of wealth and prosperity, and the other incalculable benefits, which canals and railway had conferred upon the country. He would invite them to remember the loss, past and still continuing, to trade, and the more confined increment in the national wealth, which resulted from delay in the prosecution of these undertakings on a larger scale than hitherto. The hon'ble member had also pointed out that, but for railroads, the people now suffering from famine in the Madras and Bombay Presidencies would be dying of starvation by hundreds of thousands. He would recall to their minds the painful memory of the hundreds of thousands who did die in Rájputána in 1869, for want of the railway through that province the construction of which had been so long vainly urged. On the whole, he was inclined to think that, considering the importance of these works and the vast interests involved, it would be justifiable in any case in which the fact that a work would pay was undoubted, to push it on even at a greater rate than financial prudence according to their present principles would permit. He was not at all sure that it would not be right to construct such a work with the utmost rapidity, debiting to capital if need be the interest during construction, and even for two or three years later, in full confidence that the earlier use would in a variety of ways, indirect and direct, square the account, rather than to spread its execution over a series of years, to postpone it indefinitely because there was no surplus-income, or to relegate it to forecasts which, as the hon'ble member had shown, were constantly liable to be falsified by new circumstances, and which only seemed to be brought forward to cause disappointment and tantalization. In connection with this, and with both the doubts which were entertained as to the possibility of raising sufficient capital in India, and the importance, on which the hon'ble member had just dwelt, of raising as much of it as possible in India instead of in England, he would venture to throw out the suggestion whether raising money in India would not sometimes be facilitated if loans were to be recognized as being intended for particular works. As a case in point, he would take this very Rájputána Railway. He thought it highly probable that, if for the construction of this railway there were a separate loan, many merchants in Bombay who had one reason or another for being interested in the line, and expected their trade to benefit by it, would be ready to subscribe with the view of getting it constructed, although they would otherwise never have thought of investing their money in Government paper. The princes, again, through whose territories the railways would pass, might with propriety be invited, and would no doubt accept the invitation, to place at the disposal of Government for investment in it a considerable portion of their balances, instead of leaving them to remain unused by lakhs and lakhs in their several treasuries as at present. He would now pass on to the subject of exchange and the so-called depreciation of silver. He observed that the hon'ble member had stated that their loss by exchange was "one element which may be said to be practically altogether beyond our control." In another place he had said that "we cannot with any confidence expect to avoid serious loss hereafter from disturbances in the relative values of the precious metals." No doubt a question of this magnitude had most fully engaged the mind of the hon'ble gentleman, and MR. HOPE did not question that, in speaking as he had done,

the hon'ble member had only exercised the caution which was due and necessary for one in his position, and felt sure that at the proper time the decision of the Government would be formally announced, together with the reasons for it. Mr. HOPE had not the slightest desire to precipitate that decision, or to complain of the non-announcement of it on the present occasion; still less was it his object to attempt to extract any declaration on the subject. But he would say that, although there were occasions when the strength of a Government might be to sit still, he did not think that this was one of them. The British Empire was interested in the silver question as much as any nation in the world—in fact more so, in consideration of the special double life which it possessed, a life both European and Indian. The English nation had in England an enormous debt, contracted and payable in gold. It had likewise there a vast manufacturing industry for export, which depended in a great measure on the ability of the silver-using nations with which it dealt to pay for its products. Here in India, on the other hand, it had a heavy debt to defray in gold, while all its assets were raised in silver. Thus if there were any serious rise in the value of gold, such as he for one believed had taken place, rather than a fall in the value of silver, England must suffer both at home in her debt-obligations and her current commerce, and in India by the depreciation of the national—he meant in the sense of Indian national—capital, which was almost entirely in silver, by the increased weight of the obligations which she had to meet in gold, and by the decrease in the value of her means of meeting them. He believed it therefore to be entirely the interest of England, whether in England or in India, to have as large a circulating medium as possible, and one which should embrace both gold and silver as a full legal tender. It would be gathered from what he had said that he was one of that minority—and he must admit with regret that they were at present a rather small minority—who were in favour of bi-metallism. So long ago as August last, after studying everything on the subject which was within his reach, he had written privately to his friend, Mr. Chapman the Financial Secretary, that he could come to no other conclusion than that that system was the right one. He believed it was quite possible for Government to fix a ratio between gold and silver after due enquiry, and that it was just as much the duty of Government to do so as to take any other measures for the protection of the community. No doubt such a step could not be taken without an understanding with other nations. But if they were to wait till all nations agreed on the subject, or till they could get together a sort of universal conference, they might have to wait for ever.

England however had no need to stand by in the hope that other nations would come forward and pull her chestnuts out of the fire, and it was undignified for her to do so. It seemed to him that to come to an understanding with the Latin union—that was to say, principally with France—was all that was required, and that we might then safely leave the rest of the nations to follow—or rather the course of events would oblige them to follow—in the line which we ourselves had adopted. He was very well aware that the subject of which he was treating was an exceedingly difficult one, and there might be a certain savouring of presumption in his speaking on it. This was not the time to argue out the whole matter, and he merely made these remarks in order to give utterance to the anxiety which both he and others felt that the Government should take up the subject, and at the same time to express their confidence that no one could be more competent to do so than the hon'ble member in charge of the finances. It might be that if his own disposition had been more angelic, he might have feared to tread these mazes; but being what he was, he could only say—*Liberavi animam meam*.

He now passed on to another subject—to the decision to treat as ordinary expenditure the cost of both famines and unproductive public works. The reasons for this course had been so clearly and forcibly stated by the hon'ble member, that the only wonder seemed to be that these items had ever been treated in any other manner. It might perhaps be necessary in some cases to borrow money for items which would thus be classed as ordinary; but he presumed that any money borrowed under such circumstances would be all brought directly into the ordinary charges of the year, and accepted if necessary,

as *bond fide* deficit. He had only one other remark to make in connection with this subject. The Hon'ble Member had said that "if a work has been classed as extraordinary, and it be ascertained subsequently that the estimates of profit were fallacious, any further expenditure upon it shall not be treated as extraordinary, but entered among the ordinary charges." His hon'ble friend had not however said what he would do in the converse case which would arise if a work like the Northern Panjáb Railway, which was commenced for military purposes and classed as ordinary, after a time paid its expenses. He presumed that in such a case the course which would be followed would be, not to carry the receipts to the ordinary current revenue of the year, but that they would be treated as an addition to the annual amount which it was thought desirable and safe to set aside as interest on loans for reproductive enterprises. At the same time it was not quite clear as to what were the Hon'ble Member's intentions in such a case.

The hon'ble member had, Mr. HOPE went on to say, made several remarks and announcements in his Financial Statement with reference to salt, sugar and customs. It was not clear at the time, nor was it perfectly clear now, although the Hon'ble Member had endeavoured to make it so, which of these were his own opinions, and which carried with them the weight of the Government of India. In some of those remarks Mr. HOPE most heartily concurred; but with regard to others he could not go further than to admit that, when the orders of Her Majesty's Government had been definitely and clearly given, they were bound to afford to them a loyal and unhesitating obedience. With respect to all those remarks and announcements, both those in which he concurred and those from which he was disposed to differ, he did not feel bound to make any detailed statements or criticisms, because there was no specific measure regarding them before the Council at the present time.

He now came to the very important question of decentralization; and here he would express his unfeigned satisfaction that it had been decided to crown the work which had been commenced during the Viceroyalty of the late Lord Mayo, and that the intention to do so had been set forth in terms which were sufficient to carry conviction to every reasonable mind. The measures which came under this head were, as he understood, three in number. The first consisted in transferring certain heads of revenue to the Local Governments, and increasing the number of heads of expenditure which were under their control. There could be no doubt that the want of revenue out of which to meet the growing necessities of the country in all departments had been most seriously felt by the Local Governments during the period for which the decentralization-system, so far as it had hitherto gone, had been tried; and as one who had been long ago a district officer, Mr. HOPE could testify that this was a difficulty which had met him at almost every turn. The difficulty would to a great extent be removed by the present arrangement, under which a portion of the increased revenue was to be retained by the Local Governments, and the question of the proportion of the division of profits had been rightly kept open and made subject to revision at short periods. On this head he had nothing further to say than to express his own private opinion—of course he had no authority to express any on behalf of the Government of Bombay—that arrangements similar to those which were about to be carried out in the North-Western Provinces could be elaborated without any difficulty whatever for the Presidency of Bombay.

With regard to the second head—that was, the transfer to Local Governments of the responsibility for Extraordinary Public Works which were primarily of local and provincial utility—he thought there could be no doubt of the correctness of the principle that they should be so transferred. At the same time he anticipated considerable difficulty in its application, especially in the case of new works in future. They all knew that the distinctions which existed between provincial and local charges were purely artificial. The main idea he presumed was, that all the members of a community should pay alike for the measures which affected their security, and for the development of their common interests; but that special needs and special luxuries which were found to exist, or to be necessary, in any part of a country should be paid for by the persons whom they most concerned. For instance, here in Calcutta—

more strictly speaking he should perhaps say at Simla—the Imperial Government found the police for the protection of the station; but if a man wanted a special policeman to watch his house, he would be called upon to pay for it himself. That idea had already been largely applied in the case of municipalities and local funds throughout India with the most satisfactory results. They found these bodies already everywhere providing for peculiar local wants, and also ready to pay for local luxuries, which the State at large was neither bound to furnish nor able to afford. The difficulty however which would arise in the practical application of this principle in the cases now contemplated, was that there were many measures of which it was extremely doubtful whether they could be said to be primarily of local or provincial utility. Taking for instance, as an illustration, some of the canals which had been mentioned the other day, it might be argued, and probably with truth as regards a certain amount of the charge, that their cost was fairly debitable to the Imperial Government, which derived a large revenue from the land, and that the canal was constructed just as much for the security of that revenue as for the human purpose of preserving the people from famine. Again, there were many more projects of which the benefit was extremely doubtful. There were numerous projects all over India cut and dried in the possession of their worthy friends of the Public Works Department and there was always considerable pressure to carry forward such schemes. He did not say that they were not carefully matured, and that in the honest opinion of their promoters they had not advantages which they would consider of sufficient importance to warrant their being carried out; but he doubted whether many of them would be held by the people at large to be of any benefit at all. He had in his mind at the present moment one scheme which had been on the *tapis* for some fifteen years. It was an irrigation-canal, which was to cost half a million of money, and to go through a country which was already almost a garden in agriculture; and the sole end to be attained was that a large proportion of the land which was now paying a very heavy land revenue might hereafter pay three or four rupees an acre more. He did not think that such a scheme would be approved of by the people or that the cost of it should be put upon them.

* As regards how far the Local Governments were to be trusted in these matters, the argument cut both ways. Although it was true that, if they had to find the money, they might be more careful how they spent it, on the other hand it was also true that the facility of starting great projects almost at pleasure might make them forgetful of the serious difficulty of providing funds for them, which would usually have to be borne by their successors in office. The sum and substance of all he had said was this, that although the principle appeared a thoroughly sound and proper one, and one which he hoped would be carried out within all safe limits, it seemed to be one over the practical application of which the Government of India would have to exercise a severe and constant check.

As regarded the imposition of famine-charges on the provinces afflicted with famine, he thought the hon'ble member had wisely deferred announcing any decision on the present occasion. As they had now in the first place a very heavy famine going on in two provinces, and were not in a position to know what the views of the Local Governments were on the subject, any decision would now perhaps have been premature; and there were moreover a number of considerations affecting the famine in those particular provinces which might not apply to future famines.

He would now pass on to notice the two Bills which had been brought forward, and he was afraid that the Council would be apt to consider that his remarks on them bore the same proportion to the rest of his speech which the bread bore to the sack on a certain well-known convivial occasion. It appeared to him that the License Bill would fill in the North-Western Provinces a blank which existed more or less all over India as regards the taxation of the non-agricultural classes.

As to the structure of the Bill, he was glad to see that it was framed on the principle of large and well-defined jumps in the rates which were to be imposed. It was extremely difficult—in fact next to impossible—to judge whether a man's income was £70 or £75; but it was comparatively easy to say whether

he should pay a certain sum or twice as much. He had no doubt that the gradation of rates which had been adopted in the Bill would very materially facilitate the just application of the tax, and would aid in commending it to the favourable reception of the community.

As regarded the other Bill, it was, so far as he understood, a transfer of a part of an existing burden from one hand to another; and if the Government of the North-Western Provinces considered it a proper transfer—of which Mr. HOPE held them to be the best judges—there need be no further objection in this Council to their views being carried out.

To these remarks he would only add, in conclusion, his hope that both these Bills would be approved by the Council, and passed at an early date.

Colonel the Hon'ble Sir ANDREW CLARKE said: "My Lord,—The Budget of last year with a written statement reviewing it, prepared by the Member of Council in charge of the Finances of India, was followed by the publication of a detailed departmental review of the estimates for Public Works for the same period.

"This year your Lordship has decided to have the announcement of the Budget for the coming year reviewed orally in open Council, and with your Excellency's assent, I will follow the precedent afforded by former proceedings in this Chamber, and will offer some explanations as to the present phase, the progress and the prospects, of the great interest and resources with which I am personally charged.

"Adhering to the form adopted last year, I would first observe that it has not yet been found convenient or practicable to include the grants from Provincial Services and Local Funds for Public Works, nor the estimated receipts and expenses of the Port-trusts at Calcutta and Bombay, nor the Harbour-works at Madras. The expenditure from Municipal funds on Public Works and on loans to Corporations, and the receipts and expenses of the Light Railways under the Government, North-Western Provinces, as also the expenditure on Public Works by Public Works Officers from contributions, cannot be brought under consideration, because the materials for the purpose are still wanting. Consequently these observations do not embrace the whole field of the operations of the Department. Endeavours will be made to obtain the materials required for a comprehensive summary of the entire receipts and expenditure on Public Works, whether controlled directly or supervised indirectly by the State, in time for the next annual review. I will now confine myself to dealing with the facts and estimates relating to the receipts and expenses from Imperial funds and to guaranteed undertakings included in the Imperial accounts.

"The amounts then to be dealt with are:—

	£
The estimate of receipts for 1877-78, which provides for a sum of ...	11,697,500
And an expenditure amounting to ...	13,485,160
Making a Grand Total of ...	25,182,660

Of the sum shown under receipts, the amount expected to be received from rents and other miscellaneous receipts from buildings classed as Imperial, from the Warora Collieries, from fees from students of the Civil Engineering Colleges at Cooper's Hill and Roorkee, and from the Press at Roorkee, is ...	92,100
From water-rates and other miscellaneous receipts of irrigation-works, excluding the share of the land-revenue ascribed to such works, the receipts are likely to be ...	551,600
The revenue of the Telegraph Department, both Indian and Indo-European, is expected to amount to ...	315,500
And the revenue from State Railways to ...	674,800

So that the direct Imperial receipts that will be accounted for in the Public Works Department aggregate ...	1,634,000
The credits to Capital Account of Guaranteed Railways by transfer to revenue are taken at ...	1,510,200

	£
From the earnings of the several Guaranteed Railways there is expected to be received	8,540,800
And from the Madras Irrigation and Canal Company ...	12,500
These several items make up the total of	<u>11,697,500</u>

"The average Miscellaneous receipts of the three years ending with 1875-76 have been £80,663, for 1876-77 the receipts are estimated to amount to £84,000, and in 1877-78 to £92,100. The anticipated increase in the revenue of 1877-78, as compared with the average receipts of previous years and with the probable income of 1876-77, is chiefly due to the receipts from the Warora Collieries, being now taken at £18,100, as against £5,700 in 1876-77. This will just pay the cost of working expenses.

"I view the future of these collieries, with iron-ore in their vicinity, as a subject of great importance, and of this the present Chief Commissioner of the Central Provinces is keenly sensible.

"The sums under this head also include the fees from the students of the Royal Civil Engineering College, Cooper's Hill. These receipts are not sufficient to pay the working expenses of the Institution, on which there is a deficit of £4,300. The expenses, not including first cost and additions to buildings, are £24,000; the receipts £19,700; a deficit of but little importance or significance, once admitting that the principle of such an establishment is the right one. The receipts for the Rurki Press and College are expected to amount to £4,100, of which £600 only is derived from fees of the students; and as the expenses of the College amount to £20,494, the result is a nett deficit of £19,894. But the College is mainly kept up for the training of Upper and Lower Subordinates of the Department, and as these classes of students pay no fee for tuition, the College cannot be expected to pay its expenses. The items of income classed as Miscellaneous necessarily vary from year to year in consequence of the fluctuating nature of the source of the income; the receipts realized are commensurate with cost of buildings rented. I may here notice in the case of the receipts from buildings classed as Provincial, the revenue is credited to Provincial Services. The tolls on lines of roads in cases where such tolls are levied, on the Circular Canals and Nadiya Rivers in Bengal, and on the East Coast Canals in Madras, and generally on such canals as are used for the sole purpose of navigation, are credited to Local Funds, and are at the disposal of the Local Governments concerned for local works.

"The gross direct receipts from Irrigation-works in 1876-77 are expected to amount to £500,700, against an average receipt in the three previous years of £489,860 per annum. In 1877-78 a sum of £551,600 may be realized; so that, as compared with 1876-77, there is likely to be an increase of £50,900. But the receipts in 1876-77 were unduly low in consequence of the favourable rainfall in the Panjáb in the winter of 1876, while in Bengal there was some delay in collecting the full assessments. It may be added that no portion of the expected receipts is to be derived from new canals coming into operation during the year.

"Of the sum of £315,500 set down as the expected receipts from Telegraphs, £241,000 is from the Indian and Ceylon Telegraphs, and the remainder from the Indo-European Telegraph. The average receipts per annum of the three years ending with 1875-76, from the Indian Telegraph Department, have been £204,538, the expected receipts of 1876-77 amount to £236,000, so that the estimate for next year provides for an increase of £5,000.

"In the case of the Indo-European Telegraph no increase can be expected. The average receipts have been £76,668 per annum, the probable receipts of 1876-77, £96,100, while those of 1877-78 are £60,285. The decrease is due to exceptional items of receipt on Capital Account in previous years, and to the opening of the duplicate cable now being laid between Suez and Bombay,

which will probably affect the income of the European Telegraph to the extent of £13,900. A further falling-off of £14,215 is due to the payment to the Indo-European Telegraph Company for earnings collected in India on messages home, and anticipated to exceed the sum due by the Company for earnings collected in England on messages out. In other words, the outward messages *via* Russia are calculated to be in excess of the inwards due by that route.

"In 1877-78 the gross receipts on State Railways are taken at £674,800, the receipts of 1876-77 being £369,600, and the average actual receipts of the three previous years £153,470 per annum. The increase in receipts of 1877-78, as contrasted with those of 1876-77, will be due to the opening of the Indus Valley, Northern Bengal, and Rangoon and Irrawaddy Valley State Railways, from which there will probably be received £209,300 in all.

"The balance, £95,900, of the increase occurs in the other Railways, namely £35,000 from the Rájputána, £11,100 from the Panjáb Northern, £18,000 from the Holkar State Railway, and £14,700 from the Tirhut State Railway. The increase in the receipts of the last two Railways is partly owing to a larger extent of line being opened.

"At the rate in which the Government accounts are made up, namely, two shillings per rupee, the gross traffic-receipts from Guaranteed Lines of 1877-78 are expected to amount to £8,540,800, the probable receipts of 1876-77 being £9,492,600, and the average receipts of the three previous years £8,036,172 per annum. The large revenue of the year 1876-77 is due partly to the increase in the traffic caused by the Imperial Assemblage at Delhi, and greatly to the famine in Madras and Bombay. But the growth of the export-trade in seed and grains has also added to the traffic, and this will, I trust, still largely increase, and be a permanent source of income to our railways and of greatly extended prosperity to the whole Empire and its peoples.

"The scarcity in Madras has improved slightly the income of the Madras Irrigation Company. In 1873-74 the receipts were £4,633, in 1874-75 £4,193, and in 1875-76 £6,620. In 1876-77 they are expected to be £7,000, and in 1877-78 £12,500.

"Excluding the items of receipt on Capital Account of Guaranteed Railways, which to a great extent have to be deducted from the expenditure side of the account, the total sum due to the operations of the Department and carried to the credit of the Imperial Revenues is £9,915,000, the expected receipts in 1876-77 being £10,786,000, so that there is a decrease of £871,000. The decrease under Guaranteed Railways, due chiefly to the operation of the famine, is £1,224,100, so that under other heads there is an increase of £353,100. Of this increase, £8,100 falls under Revenue Miscellaneous, and £50,900 under Revenue Irrigation. Under State Railways the increase is £305,200, and in the receipts from the Madras Irrigation and Canal Company £5,500. On the other hand, the receipts from Telegraphs show a decrease of £16,600.

"Turning to expenditure, the aggregate of £13,485,160 is thus made up—

	£
Grant from Ordinary Imperial funds for expenditure on Public Works (exclusive of the portion given to Provincial Services)	2,563,950
Provision for expenditure on Telegraphs	495,500
Provision for expenditure on State Railways Ordinary, including working expenses	501,110
Provision for land and control for State expenditure on Guaranteed Railways	78,000
The total Ordinary grant is thus	3,638,560
Under Extraordinary the provision is	3,628,000
For Capital expenditure of the Guaranteed Railways there is required	1,382,000
And for working expenses of the same Railways there is wanted	4,457,800
It is necessary to provide, for payment of surplus-profits to Shareholders of the East Indian, Great Indian Peninsula, Eastern Bengal, and Bombay, Baroda and Central India Railways	367,000
And for working expenses of the Madras Irrigation and Canal Company it is necessary to provide	11,800
Making up the total of	13,485,160

"The grant for Public Works Ordinary, as contrasted with the Regular Estimate of the current year and the average expenditure of the three previous years, is as follows:—

	Budget Estimate, 1877-78.	Regular Estimate, 1876-77.	Average actual outlay of previous three years ending with 1875-76.
	£	£	£
Military Works	1,231,985	1,246,900	1,215,541
Other Services	431,365	392,800	406,049
Irrigation	900,600	958,800	939,970
Imperial Assemblage at Delhi		23,800	
	2,563,950	2,626,800	2,561,560

"On the whole, the grant for expenditure is £62,850 less than of 1876-77, and £2,389 more than the average outlay of the previous three years. Of the decrease in 1877-78, as contrasted with 1876-77, £28,300 is due to the exceptional expenditure on the Imperial Assemblage, and £58,200 to a diminution in the grant for Irrigation Works. Under other Services the increase of £38,565 includes the expenditure necessitated on Government of India buildings and water-supply project at Simla.

"The grant for next year for Telegraph, amounting to £495,500, includes a sum of £14,215 of refunds to the Indo-European Telegraph Company, which ought to be really deducted from Revenue, so that virtually the expenditure provided for amounts to only £481,285, the probable expenditure in 1876-77 being £491,800, and the average expenditure of the three previous years £444,816. The nett charge on the Revenues of the State by the operations of the Telegraph is expected to amount to £180,000 in 1877-78, against an average of £162,632 in the previous four years.

"The provision for State Railways under the head of Ordinary is £501,110, against a probable charge of £303,650 for 1876-77. Of this sum, £18,100 is for outlay on surveys, and the remainder for working expenses of the several State Railways. The increase in the charge on the Ordinary Revenue of £197,460 is more than covered by the increase of £305,200 shown as likely to accrue under receipts.

"Of the increase of £197,460 in 1877-78, £169,300 is accounted for by provision having been made for the working expenses of the Indus Valley, Northern Bengal, and Rangoon and Irrawaddy Valley Railways, the receipts from which are expected to aggregate £209,300. A further increase of £48,270 is expected to be incurred on the expenses of the other State Railways from which an increased income of £95,900 is anticipated. On the other hand the provision for outlay on Capital account of surveys has decreased by £20,110.

"The charge for State outlay on Guaranteed Railways is decreasing. The average charge in the three years ending with 1875-76 was £97,048 per annum. In 1876-77 it is expected to be £91,250, while in 1877-78 the provision made is only £78,000.

"The total outlay on Extraordinary Works, Irrigation and State Railways, to end of 1877-78, is expected to amount to close upon £28,000,000. The figures are as follows:—

	Irrigation.	State Railways.	Total.
	£	£	£
Actual outlay to end of 1875-76 ...	8,708,195	11,785,492	20,493,687
Probable outlay ... 1876-77 ..	1,012,000	2,788,100	3,800,100
" " ... 1877-78 ...	900,000	2,728,000	3,628,000
	10,620,195	17,301,592	27,921,787

"This is called extraordinary outlay, and is all of it treated as being defrayed from borrowed funds, though much of it has been paid out of current revenue.

"The actual charge on the Ordinary revenues for interest on this outlay is estimated at £1,174,850, against £1,007,718 in 1876-77, so that there is an increase in charge of £167,132. Of this increase, £138,500 is met by an increase in revenue, so that the nett increased charge really incurred on the income of 1877-78 by the construction of Extraordinary Works amounts only to £28,632.

"The revenue expense of the Guaranteed Lines is nearly £460,000 less for 1877-78 than for the current year.

	£
It is expected that there will have to be paid as surplus-profits over the guaranteed 5 per cent.	
rate of interest	367,000
The probable charge in 1876-77 being	274,000
And the average charge per annum of the three previous years	226,638

"The increase in the charge for next year is due to the large earnings of 1876-77, whereby the surplus-profits to be paid in 1877-78 have been considerably augmented.

"The provision made for working expenses of the Madras Irrigation Company is £11,800, the probable charge for 1876-77 being £16,400, and the actual charge of the three previous years £16,025.

"Excluding the Capital Account of Guaranteed Railways, the total sum included as grants from Imperial Revenue in 1877-78 is £12,103,160, the probable charge in 1876-77 being £12,524,600, so that there is a decrease of £421,440. The nett decrease in the working expenses of Guaranteed Railways, caused chiefly by the hope of a cessation of traffic for famine-relief, is £462,800, but this may, I am sanguine enough to think, be partially met by the growth of the traffic in wheat for export; especially if our rates of freight can be kept at a minimum, so as to allow of this staple firmly establishing itself in European estimation. The increase under other heads is £41,360. This increase occurs as follows:—

	£
Increase in Telegraph charge	3,700
„ in State Railways Ordinary	197,460
„ in provision for surplus-profits to be paid to shareholders of certain Guaranteed Railways	93,000
	294,160

Less decreases under the following heads:—

	£
Public Works Ordinary	62,850
State outlay on Guaranteed Railways	13,250
Public Works Extraordinary	172,100
Madras Irrigation and Canal Company	4,600
	252,800
	<u>41,360</u>

Excluding Madras, Bombay, Rájputána and Burma, and deducting the construction-outlay on Irrigation-works not yet brought into operation, the total Capital expenditure to end of 1876-77 for works from which revenue is expected to be realised in 1877-78 is

... ..	10,719,537
The gross direct receipts from these works in 1877-78 is expected to be	518,730
And the working expenses are estimated at	333,863

Leaving the nett revenue at	184,867
The share of land-revenue ascribed to these works is	203,634

So that the *nett* total revenue is 388,501
and the nett return expected to be derived is 3·7 per cent. of the construction-cost.

“It is desirable to further analyse these figures so as to bring out clearly the sources of the revenue according to the character of the works. Thus there are the two great canals constructed entirely by the British Government—the Ganges Canal and the Bári Doab. Singling out these two, as having been in operation for a considerable time, and therefore such as may reasonably be expected to give a fair return, the results are as follows:—

	Ganges Canal.	Baree Doab Canal.	Total.
	£	£	£
Probable Capital outlay to end of 1876-77 ...	2,921,381	1,545,221	4,466,602
Nett direct and indirect return expected in 1877-78 ...	186,252	49,817	236,069
Percentage of latter on former...	6·4	3·2	5·2

“Thus these two permanent canals are calculated to return over 5 per cent. on their construction-cost.

“The next group of canals, consisting of the Orissa Project, Midnápúr Canal, Tidal Canal, Soane Canal, Agra Canal, cannot, according to the experience derived from other canals, be reasonably expected to pay their working expenses in consequence of their having been less than ten years in operation. The construction-outlay on these canals to end of 1876-77 will be £5,139,912, and the loss in their working during 1877-78 is anticipated to amount to £20,653 or about 40 per cent.

“The third group of canals consists of the Eastern and Western Jamna Canals, the construction-outlay on which, as recorded in the accounts, includes only that portion spent by the British Government, and shows that with a total outlay of £746,129 to end of 1876-77, and an anticipated revenue in 1877-78 of £150,774, the Eastern Jamna Canal will pay 26·3 per cent. and the Western Jamna Canal 20·2. The results for these canals are expected to be as follows:—

	Eastern Jamna	Western Jamna.	Total.
Expected construction-outlay by British Government to end of 1876-77 ...	242,433	503,696	746,129
Expected nett direct and indirect revenue in 1877-78 ...	63,822	86,952	150,774
Percentage of net revenue on Capital outlay ...	26·3	17·3	20·2

“Next come the inundation-canals in the Panjáb, the construction-outlay on which to end of 1876-77 is expected to be £124,208, and the nett returns in 1877-78, direct and indirect, will probably amount to £12,961 or 10·4 per cent.

“Finally, there are the minor works of Irrigation constructed entirely by the British Government, such as the Dun and Rohilkhand Canals, the Bijnúr Canals, the Bandelkhand Irrigation Works, the Delhi and Gurgaon Irrigation Works, and the Shahpur and Shahival Canals. The nett return from these works is balanced at £9,350, against a Capital outlay of £242,686, so that the works pay about 3·8 per cent.

“Thus the Ganges and Bári Doab Canals are expected to pay 5·2 per cent., the Eastern and Western Jamna Canals 20·2 per cent., the Inundation Canals 10·4 per cent., and certain minor Irrigation Works 3·8 per cent. On the other hand, the Orissa, Midnapur, and Tidal Canals, the Soane Canal and the Agra Canal, having been less than ten years in operation, are to be worked at a loss of 40 per cent. on construction-outlay.

“The estimate of the Madras Irrigation and Canal Company provides for a nett receipt of £700 in 1877-78.

"The provision for State outlay on Establishment and land for these works is £1,050, and the charge for interest on Guaranteed Capital close upon £50,000, so that the operations of the Company are expected to involve a charge on the State in 1877-78 of £50,350. The conditions under which the Government bore the deficit in the working expenses of these canals have now ceased, the Secretary of State having decided that the Government is not to advance funds for such expenses.

"The construction-outlay, actual and approximate, Ordinary and Extraordinary, on State Railways, to end of 1876-77, is £11,895,668, of which sum £440,380 will have been expended on lines not in operation during the year 1877-78. The construction cost of the lines, the whole or part of which will earn revenue in 1877-78, is thus £11,455,288.

"The net receipts from such railways during the year 1877-78 are expected to be £191,790, and from 1·3 per cent. of the construction-outlay of £11,455,288, which includes £1,703,995 of stores, &c., in suspense.

"I have thus given a general sketch of our operations, adhering, for the purpose rather of easier comparison than because the form has anything special to recommend it, to the shape the review of these details took last year. I will now allude to our present and proposed expenditure on Military Works, for which in 1877-78 a grant of £1,231,985 is assigned, that for last year being £1,228,400.

"Of this grant, 38 per cent. must be spent on repairs, maintenance of buildings, barracks, and furniture, and the very heavy proportion of 22 per cent. on Establishment, a proportion apparently inseparable from all Public Works in India, and which is surprising to those acquainted with the subject at Home. It is quite true this supervision is costly, due to some extent to the employment of a highly-paid European staff, but still more due to the fact that the practice in India is to charge salaries and wages of overseers, gangers and leading men—in fact, all who are on permanent employment, or paid by the month—to Establishment, whilst in England and the Colonies this would be charged to the work. I believe our practice in India is better, and really exercises a beneficial influence, and tends to keep down unnecessary establishment; but as it is not understood at home, our supervision has been often commented on as extravagant.

"Since 1873-74 there has been a steady increase for repairs, due for the most part to existing buildings not having been kept in proper repair during several years prior to 1872-73. Repairs were deferred because the efforts of the Department were mainly directed to pushing on new buildings for the additional European force thrown into the country immediately after the mutiny. There is no point on which the Inspector-General is now so particular as that of keeping existing buildings in a sound condition, and we have not withheld the necessary funds for this purpose, even though the result has been to decrease the provision for expenditure on new works.

"I have in the last two years practically not permitted any new barracks, with one exception in Madras, to be commenced, but have concentrated the efforts of the officers to complete those that have been already begun; and when I use the word new works, it only applies to works the construction of which had been approved, or the buildings of which had really been begun, before 1875.

"So that, of the provision for works in progress, it is expected that works, the estimates for which aggregate £467,500, will be completed during the year, the grant being £165,868.

"The remaining works in progress, the completion of which in 1877-78 is not anticipated, are estimated to cost £245,000, of which £77,500 will have been expended to end of 1876-77, leaving £165,000 to complete. The grant allowed for next year is £62,180, so that these works may reasonably be expected to be finished off in three years.

"Of the provision for new works, £49,789 have been allotted for completion by the close of 1877-78. The remaining new works are 27 in number, estimated to cost £167,500, and the grant allowed is £69,630.

“Thus, on the whole, works estimated to cost £930,000 will be in hand during the year, the probable expenditure to end of 1876-77 being £405,000. The grant allowed for the coming year is £347,467, so that a further sum of £175,000 will remain to be provided for their completion. These figures exclude the sum of £45,700 allowed for works, the probable cost of which is not known as yet.

“The grant for Original Works, Military, may be thus further analysed—

	£
Buildings for accommodation of troops	215,082
Drainage Works	5,575
Protective „	6,000
Water-supply	74,540
Fortifications	12,850
Works for Ordnance Department	38,400
„ for Commissariat Department	11,590
„ for Dock-yards	11,200
Military lines of communications	24,400
Miscellaneous Works	6,120
Minor Works	94,793
	<u>500,550</u>

“The amount allowed for buildings has been applied to some extent to the scheme for completing barrack accommodation on a permanent scale. It cannot be told exactly what that scheme will cost, as the wants of the Army vary from time to time. But we have considered every means for reducing the cost; and in this view, amongst other measures, the principle of remodelling old buildings and adapting them to the requirements of the present day has been followed, in some cases with much financial advantage. The buildings so remodelled have been found to answer the purpose.

“Under the Government of Madras the chief work for which provision has been made, is for a new set of buildings for European troops at Punalni estimated to cost £37,037, of which it is computed that £4,001 will have been spent by end of 1876-77: the grant allowed for the work is £10,000. The scheme provides for double-storeyed barracks for 200 men, to cost £16,807, barracks for 30 families to cost £8,015, and a double-storeyed hospital for 90 patients to cost £10,200.

“Another work for which a provision of £5,000 has been made, and to which it is necessary to draw attention, is the scheme for constructing an entire set of new lines for a Regiment of Native Infantry at Pudupetta, near Madras. Rendered necessary in consequence of the existing lines occupied by the Regiment having been condemned by several high authorities as inconvenient and unhealthy, the demand has been considered to be an urgent want, which should be met as soon as possible, and is an excess. The provision made is for purchase of land for the lines. The probable cost of the scheme is not known as yet.

“Of the grant allowed for Bombay, £16,000 is for the project for providing additional barrack accommodation at Ghorepuri, estimated to cost £60,650, of which £2,600 will have been spent by end of 1876-77. The scheme provides for 12 single-storeyed barracks and one block of quarters for married men.

“For troops of the Native Army under the Government of Bombay provision of funds has also been made. Thus a sum of £3,000 has been allowed for improvements to lines of the troops at Bori Bunder. The scheme provides for two new rows and for re-erecting 25 rows of sheds, and for providing drainage, the latter to cost £2,943; the total scheme involving an expense of £6,141, of which £3,146 has already been spent.

“At Puna two new buildings for a Regiment of Native Infantry are about to be provided at a cost of £6,035, the grant for the year being £2,600. The buildings consist of a hospital to cost £3,937; a quarter-guard to cost £766; a school-room costing £873; and sundry small buildings, including an armourer's shop, to cost £458.

“For the troops of the Native force located at Jacobabad £2,100 have been given for improving and providing new hospital accommodation.

“Under the orders of Government the troops of the Panjáb Frontier Force are provided with quarters at the expense of the State, and a grant of £7,570 has been provided for the purpose for 1877-78. Among the works to be executed are the re-construction of Native Infantry lines at Kohát to cost £5,300, the grant for 1877-78 being £2,500. A hospital for the Right Native Infantry lines at Dera Ismail Khán is also to be provided at a cost of £1,360. In the Fort at Dhalipghur the quarters for Native officers are to be re-constructed at a cost of £970.

“At Kamthí, in the Central Provinces, the principal of remodelling existing buildings to suit them to present requirements has been carried out with great success. Following out this principle, £7,030 has been provided for remodelling three barracks of European Infantry and one of Artillery. For 24 families of European Infantry at Kamthí accommodation is to be provided at an expense of £6,800, the grant for 1877-78 being £4,000. And at Jabal-pore £3,000 has been allotted for re-roofing three of the barracks of European Infantry.

“At Rangoon the scheme of providing new buildings for European Infantry is being gradually carried out. By the end of 1877-78 the first and third sections of the scheme, providing accommodation for three Companies and the Band, will have been carried out at a cost of £25,865, the grant for the year being £7,550. The single-storeyed barracks for 80 men and 4 sergeants, in the redoubt at Thayetmyo, will also have been finished at a cost of £6,855, the grant for 1877-78 being £2,500.

“In Central India the only military works of importance are at Nimuch and Mau, both occupied by troops of the Bombay Army. At Mau a provision of £7,000 has been made for commencing the long desired scheme for providing new accommodation for the Artillery. The estimate of the cost of so doing has still to be prepared. At Nimuch auxiliary buildings are still required to complete the new sets of buildings already constructed for the Artillery, and a provision of £8,000 has been made for the purpose.

“At Hyderabad, Deccan, the great project for providing an entire set of new buildings for a Regiment of European Cavalry at Trimulgiri is approaching completion. The proved unhealthiness of the buildings occupied by that Regiment at Secunderabad rendered it necessary to remove their location to the adjoining station of Trimulgiri. The scheme is expected to cost £232,500, of which £165,000 will have been spent by end of 1876-77, leaving £67,500 to complete, the grant for 1877-78 being £20,730. The project provides for the accommodation, in four double-storeyed barracks, of all the single men of a full Regiment of Cavalry, and of 50 married men in four blocks of single-storeyed buildings. A hospital for male patients, to cost £8,500, is also provided. Quarters for Officers have also been constructed, the accommodation being given in single-storeyed buildings constructed on the unit system. The usual auxiliary and subsidiary buildings have also been provided.

“Turning to the works in charge of the Inspector-General of Military Works, the grant allowed for buildings for accommodation for troops, for the force located in Bengal, North-Western Provinces and the Panjab, is only £59,250. Of this grant, £24,750 has been allowed for buildings in the hills, and £34,500 for buildings in the plains.

“For buildings in the hills £1,100 has been allowed for the completion of quarters for families at Jullapahar, estimated to cost £2,699, and of which £1,259 have already been spent. For providing verandahs to the barracks for single and married men at Clifden, Marri, £2,000 has been given, £1,000 having been already spent. For the buildings at Ránikhet £3,150 have been allotted. Of this sum, £3,100 has been devoted to a Regimental Hospital which is estimated to cost £10,789, and of which £7,689 will have been spent by end of 1876-77. For the building at Chakráta £10,500 has been assigned. Of this sum, £3,000 is for barracks for single men, estimated to cost £5,802, and £300 for barracks for married men, to cost £2,919. Of this £2,649 has already been spent. For quarters for Staff Sergeants £2,200 has been given.

“Of the grant of £34,500 for buildings in the plains, a sum of £10,000 has been devoted to the re-construction of barracks and out-offices at Lucknow,

and £10,000 for a similar purpose at Faizábád. The schemes are estimated to cost, the former £65,760, and the latter £27,692, and provide for the renewal of the old barracks constructed immediately after the mutiny. By this means the expense of constructing new barracks is avoided.

"At Nowgong a barrack for the Royal Artillery will be completed at a cost of £5,378, the sum allotted for the purpose for next year being £4,700. Family barracks for Infantry will also be completed for £7,000 at Agra, the grant allowed being £1,500, and the hospital for the left Wing Native Infantry at the same place will be finished at a total cost of £3,838.

"The out-offices for barracks for single men of the Infantry at Mooltan will be completed next year with a grant of £2,000, £4,000 having already been spent.

For drainage works only £5,575, I am sorry to say, has been assigned, for it is a service in which I wish I could spend more, as I firmly believe that good drainage and well selected sites, with good drinking water, will ever ensure the health of troops. Of this sum, £1,000 has been allotted for the drainage of the Fort at Govindghur, and £1,000 for the drainage of the Cantonment at Lucknow, both being very urgent sanitary works. For the drainage of swamps lying to windward of European Infantry barracks at Kamptí £1,000 has been allotted, the expenditure incurred to end of 1876-77 having been £504. For the drainage of the lines of the European troops at Meean Meer £300 has been given.

"The encroachments of the Indus at Dera Ismail Khán were so serious that it was necessary to consider whether the Cantonment should not be removed. But by the skill of the Engineers concerned, protective works have been constructed during the past and present year.

"The serious overflow of the Kanhan River at Kamthí last rains, which led to much property, both public and private, being placed in imminent risk of destruction, has forced us to consider what works should be devised for protection from an inundation which may occur at any time. The result has been a scheme estimated to cost about £6,000, and for which the necessary funds have been allowed. It is expected that the work will be done before the next rains.

"I cannot over-estimate the importance to the health of the troops of providing a pure system of supply of water, and it has led me to increase the grant for the purpose from £45,900 in 1876-77 to £774,540 in 1877-78. The works provided for are as follows:—

"The Ulsoor water-supply project at Bangalore will be completed by the end of 1877-78 at a cost of £14,162, the grant for 1877-78 being £500, in addition to £1,250 for providing a new filter, and making certain alteration to the work. The project is in addition to the scheme for supplying Bangalore with water, which is being carried out at an expense of £55,000 from Mysore funds.

"A small sum of £1,000 has been provided for settling tanks in connection with the water-supply at Puná.

"In the Panjáb £1,410 have been given for Artesian borings and wells at two of the frontier out-posts.

"A sum of £770 has been allowed for sinking wells at Asírgarh.

"For water-supply at Trimulgiri and Sikandarábád a provision of £4,610 has been made. Of this sum £4,000 has been reserved for pipes from England for the project for the North water-supply scheme at Trimulgiri, estimated to cost £25,000. The balance of the grant for 1877-78 has been devoted to an engine and pump for water-supply to the 2nd European Infantry Regiment.

"At Nasirábád, in Rájputána, it is hoped that the scheme for supplying the station with water at a cost of £25,874 will have been completed by end of 1877-78. The expenditure on the work to end of 1876-77 has been £13,807, the grant for next year being £10,900.

"The scheme of water-supply at Mhow, for which a grant of £3,000 has been given, has still to be matured. This is now being done.

"For the scheme of the water-supply at Ambála £10,000 has been given. The complete project has yet to be matured. Meanwhile a project for a temporary supply of water is under execution at a cost of £6,800, of which £5,000 will be made use of in the permanent project.

"Small sums of £500 and £900, respectively, have been allotted for water-supply tanks at Darjeeling, and for a filter and storage reservoir at Chukrata.

"For water-supply at Mian Mir £13,700 has been allotted. It is expected to cost £16,000, of which £2,100 has already been spent. The scheme provides for a supply of 6 gallons per head per diem to British Troops.

"The grant allowed for the water-supply at Peshawar is £25,000. A sum of £25,400 will have been spent by end of 1876-77 on an estimate of £28,752. But the complete project for the work has still to be prepared.

"For clearing and repairing the tank at Fort Kangra £1,000 has been given.

"The limited amount of the Public Works grant prevents much being done under the head of Fortification. A provision of £6,000 has been made for improving the defences at Aden, and of £2,000 for keeping in repair the large stock of plant collected for the harbour defences at Bombay. For the inner line of defences at Ferozepoor £2,000 has been given. The estimated cost of this work is £4,250, of which £2,220 will have been spent by end of 1876-77, so that the work will be completed next year. The bomb-proof magazine in the redoubt at Thayetmyo will be finished for £2,762, the grant being £1,650. And sufficient funds have been provided for keeping the existing forts in an efficient state of repair.

"The additional buildings for the Small-Arms factory at Kirki will be completed by the end of 1877-78, the grant for that year being £4,000, and the computed outlay to end of 1876-77 £10,000. For buildings for 6 incorporating mills in the Gunpowder Factory at Kirki a provision of £5,000 has been made, the estimated cost being £15,190.

"Amongst the measures contemplated for a fortified post and place of refuge at Rawul Pindee, the provision of buildings for magazines and other works of the Ordnance Department found a place. The sum it is expected to spend on the purpose is £83,750, and in furtherance of the scheme a provision of £19,900 has been made in the Budget next year for Store-room, Workshops, Armoury, Offices, Laboratory, and Small Arms Ammunition Magazine. These works are expected to cost £38,041, of which it is expected that £15,800 will have been spent by end of 1876-77.

"The alteration to the Gun-Carriage Factory at Fatehgarh, the construction of the Powder Magazine in the Fort of Allahabad, and the provision of Workshops in the Arsenal at Ferozepoor are all expected to be finished during the coming year, at a cost of £4,488, £9,183 and £7,464, respectively, the grant allowed for next year being £1,900, £1,000, and £1,200. A grant of £2,200 has also been allowed for the Pebble Powder House at Ishapore.

"Some small works for the Commissariat Department will be completed this year at Allahabad.

"A small amount has been reserved for urgent works in hand at the Dockyards, but for Bombay, in view of future contingencies, I wish I could say the sum was larger.

"For Military roads the grant to Chukrata is £19,900. Of this sum £10,000 is to be devoted to the completion of the bridge over the River Jumna, which is expected to cost £30,545, and of which £20,500 will have been spent by end of 1876-77. The balance of the grant has been devoted to completing the earthwork and formation of the road.

"The road to Dalhousie will also, it is hoped, be finished during the year at a cost of £68,000, the grant for the purpose for next year being £4,500, the outlay to end of 1876-77 being expected to be £63,500.

"A provision of £19,500 has been made for improving the roof and making sundry additions to the Lawrence Asylum buildings at Mount Abu.

"Next to nothing has been appropriated for the defences of our ports or arsenals, and literally nothing for strong places; if no change in our policy is made, there is no prospect of anything material being done to remedy these wants which, to repeat former warnings, are becoming more imperative and more essential the more you raise and develop the material wealth and value of this country.

"Let me not here be understood to advocate the costly and ponderous defences which it has been the fashion of recent years to elaborate under the idea of converting defences into success over attack, but rather more simple mea-

asures which may protect us from insult on the sea-board, and be sufficient to leave in the interior the sick and the helpless in comparative safety. But I regard this subject as one of much more serious importance than is practically recognised by the part assigned to it in the distribution of the resources of the State.

"The bulk of the outlay on Civil Buildings and Roads is now drawn from grants made over to Provincial Services. The direct expenditure from Imperial Funds is for Departmental and Government buildings, church, burial grounds, harbour works, civil works, roads, as well as for the establishments at Cooper's Hill and Roorkee, the colliery charges at Warora, and the furlough allowances in England.

"The grant for 1877-78 is taken at £431,365, or £67,500 in excess of that for the previous year, owing to the provision required for the works at Simla.

"This sum does not fully represent our wants, and I regret there is but little hope of any great or sensible increase to the sum now set apart.

"Under Civil Buildings the grant amounts to £139,069, of which one-third is for repairs. The balance is allowed for Original Works, and distributed among the different departments in the following manner:—

"For the Salt Works, the sum allotted (£5,494) has been fairly divided between Madras and Bombay.

"On Opium, the whole grant (£14,752), with the exception of a small sum reserved for Oudh, has been fairly apportioned between Bengal and the North-Western Provinces.

"The greater part of the sum (£2,700) allowed for the Mints is needed at Calcutta, and it is most probable that the grant under this head will have to be largely increased for next year.

"Of the sum set aside for Postal (£13,099), one-half nearly is for the introduction of several small post offices, and the remainder for additions to existing offices throughout India.

"Under Telegraph (£12,531) allotments have been made for new offices, &c., at Ootacamund, Alipore, Ambála, Gadac, Rajanpore, and Gauhati, and the amount given to Bombay completes the instalments required for the signallers' quarters. Suitable telegraph and post office accommodation has still to be provided for the Presidency Town of Madras.

"The largest sum (£21,390) is required for the Government of India Buildings, and includes the cost of additions to the Peterhoff estate, the purchase of houses at Simla, and improvements to the viceregal buildings generally.

"The designs for the Mayo College Buildings at Ajmer by Major Mant, R. E., have been approved and the grant (£6,560) is provided for the collection of necessary material. The funds (£4,194) required for the boarding houses in connection with this College are being found by Native States.

"Out of a total of £6,784, sums have been reserved for the completion of the Thuggee Jail at Indore, and for the commencement of a new Jail at Mercara. The Civil Jail at Rewah will probably be constructed from funds supplied by the State of Rewah.

"From the amount (£1,066) under Churches, &c., the completions of the Bolarum church and the commencement of a Roman Catholic Chapel at Rawul Pindee have been provided for.

"The restoration of the beautiful temple at Ajmer, referred to in the review of 1876-77, has to be continued at an excess on the original estimate, the peculiar nature of the work and the necessity for its extension during the course of reconstruction having led to this result.

"The great scheme of restoration and preservation of antiquities in the North-Western Provinces is undertaken from Provincial Funds, aided by a grant from Imperial Revenues.

"Under Communications the grants allowed are for provinces to which the Provincial Service arrangements do not apply, namely, Rájputána, Central India and Coorg. The total £64,035, as against £69,270 for last year, is divided into £20,934 for Original Works, and £43,102 for Repairs.

"The outlay from Imperial funds in the construction of new roads in Rájputána has practically ceased.

"The conditions under which these roads were commenced, namely, that the outlay on the portions passing through foreign territory would be

provided for by Native States, have in some cases been fulfilled, while in others the roads have been made over to the States concerned to complete. The provision £10,552 is for the repair of the roads so constructed, and of this sum nearly $\frac{1}{4}$ th is for the portion lying in foreign territory.

"In Central India also a portion of the outlay on roads has been and is still being met partly from funds supplied by Native States; for, in addition to the expenditure (£14,050) on the roads from Mau to Nimuch, Nowgong to Satna, and Dewas to Ashta, the road from Gwalior to Chumbal River receives an allotment of £4,800 from a contribution by His Highness the Mahārājā Scindiah. Of the total for repairs £29,000, more than half is for the Agra and Bombay Road, one-fifth is absorbed between Nimuch and Khandwa, and the balance is distributed over the Gwalior and Jhānsī Roads.

"The comparatively large grant of £5,614 to Coorg is to facilitate trade and encourage the export of coffee by opening out new communications; the maintenance of existing roads also is contemplated to an extent of £3,300 from Imperial funds.

"Under Miscellaneous Public Improvements, £35,320 have been set aside, in which £5,935 are included for repairs. Three-fourths of the grant is absorbed by the Simla water-supply project, for which, exclusive of establishment, £27,435 has been provided until the arrangements with the Municipality for the provision of funds have been settled.

"Under Light-houses £1,500 have been assigned to Karāchi for a new light-house with its revolving light.

"For the harbour works at Karāchi, the sum appropriated for maintenance, conservancy, dredging, &c., exclusive of establishment, is but £5,000. The growing importance of this harbour, with the early completion of the Indus Valley Line, make it desirable to leave as little as possible undone which may facilitate and increase the rapidity of our communications between the Panjāb and the sea. The construction of jetties has also to be considered with the necessary sheds for the accommodation of trade. These works should receive early consideration, and the grant now fixed at £5,000 will probably have to be doubled before the close of the year.

"The importance of the Warora colliery works to the coal industry of India, and their effect on the reduction of Railway working expenses, is obvious. The pits are now in working order, and it is expected during the year 36,000 tons of coal will be raised, and be sold for a sum closely approaching the expenses of production.

"The exploration for coal in the Central Provinces continues, and the necessary grants have been assigned for the Satpura and Warora Districts.

"The Budget Estimate of the Telegraph Department for 1877-78, as contrasted with the Regular Estimate for 1876-77 and the actual average receipts of the three previous years, shows that—

	£
The RECEIPTS were in 1876-77...	832,100
The Budget-Estimate of 1877-78 is taken at	315,500
The average of actuals for the last three years being	281,200
The Charges were in 1876-77 ...	491,800
The total nett charge thus being	159,700
The Budget-Estimate for 1877-78 is taken at	495,500
Making a total nett charge of	180,000
The average of actuals for the last three years being	444,800
Making a total nett charge of	163,600
Thus, on the whole, the expected nett charge in 1877-78, as compared with the Regular Estimate for 1876-77, shows a nett increase of	20,300
Of this nett increase the amount due to an anticipated falling off in the revenue of the Indo-European Telegraph Department, caused by the construction of a second line of cable from Bombay to Suez, is	13,900
While the payment to the Indo-European Company in England in excess of receipts, due to its being anticipated that the messages despatched from Home, <i>via</i> Russia, will be more than those despatched from India by the same route, is	14,215
so that in these two items alone there is a nett increase of	28,115

"Under Receipts the figures for the Budget and Regular Estimate for the Indian and Indo-European Telegraph Departments, as compared with the

Budget-Estimate of the current year and the average actuals of the three previous years, are as follows :—

The Estimate of 1876-77 is—

Indian Telegraph—

Indian Telegraph	...	...	...	...	...	£.
Ceylon	..	...	...	...	...	206,700
						8,500
Total						215,200
Whilst the Indo-European Telegraph has a total of	...	...	...	...	...	74,800
making a Grand Total						290,000

The Regular Estimate for 1876-77 is—
Indian Telegraph—

Indian Telegraph	...	...	...	...	...	225,700
Ceylon	..	...	...	...	...	10,300
Total						236,000
The Indo-European Telegraph has a total of	...	...	...	...	...	96,100
making a Grand Total						332,100

In the Budget-Estimate of 1877-78, the—
Indian Telegraph—

Indian Telegraph	...	...	...	...	...	23,000
Ceylon	..	...	...	...	...	9,000
Total						241,000
The Indo-European Telegraph has a total of	...	...	...	...	...	74,500
making a Grand Total						315,500

The average of actuals for the last three years being—

<i>Indian Telegraph—</i>						
Indian Telegraph	...	...	...	...	...	196,100
Ceylon	..	...	...	...	...	8,400
Total						204,500
Indo-European Telegraph	...	...	...	...	...	76,700

Grand Total ... 281,200

“ Compared with the Budget-Estimate of the current year, the Regular Estimate for the Indian Telegraph Department shows a gratifying increase of £20,800.

“ The steady increase in the receipts of the Telegraph Department, as shown by the preceding figures, justifies the expectation that the receipts for next year may be set down somewhat in excess of those for the current year, and the estimate for 1877-78 has therefore been accepted at £241,000, being £5,000 only more than the Regular Estimate for 1876-77.

“ In the case of the Indo-European Telegraph Department, the Regular Estimate amounts to £21,300 in excess of the Budget-Estimate for 1876-77, of which £6,400 occurs in England and the balance in India. The increase in England is ascribed to be due to recoveries of revenue earned in the previous year arising from the interruption of the Red Sea route from 15th November 1875 to 3rd February 1876, and to the receipt of £1,986, being an additional instalment of the Persian debt. The increase in India is due to a general increase of receipts on the Government lines due partly to general causes, and partly to the late interruption of the Madras-Penang cable.

For 1877-78 the Budget-Estimate of receipts in India of the Indo-European

Telegraph Department amounts to only	...	...	...	£
The probable receipts of 1876-77 being...	...	...	...	68,400
And the actual receipts of 1875-76	...	...	...	81,200
	...	...	...	76,468

The opening of the duplicate cable now being laid between Suez and Bombay is expected to affect the income of the Indo-European Telegraph Department to the extent of £13,900, and the estimate for next year has therefore had to be reduced accordingly—

In England the expected receipts of 1877-78 are set down at	...	...	£
But in the Budget-Estimate of Expenditure a sum of	...	...	6,100
	...	...	14,215

Is included for amount due to the Indo-European Telegraph Company for earnings collected in India on messages home being expected to exceed the sum due by the Company for earnings collected in England on messages out, so that really the estimate of revenue is for a net charge of ... 8,115

The expected receipts of 1876-77 being ... 14,900

And the actual receipts of 1875-76 ... 17,122

The Budget charges have been accepted for a sum of £411,900 (including £13,050 for Ceylon). Of this amount £123,900 are for capital outlay, £17,350 being for establishment and other charges, £21,560 for additional stores, and £84,990 for actual construction operations on the following lines of telegraph :—

State Railway Lines.

	£
Agra to Gwalior	5,440
Re-construction, Lahore to Jhelum	1,375
Re-construction, and adding wire, Jhelum to Rāwalpindi	2,870

Trichinopoly to Tuticorin	300
Calcutta to Chittagong	500
Gauhati to Dibrugarh	1,000
Lahore to Kotri	1,000
Miscellaneous	620
Special—	
Jacobábád to Quetta and Kelát	9,480
	49,025
Minor Works	5,400
Abstract—	
State Railway Lines	24,365
Guaranteed ditto	7,200
Departmental	49,025
Minor Works	5,400
	85,990
Less recoveries	1,000
	84,990

“ Excluding the sum provided for the completion of the special line to Quetta and Kelát, the whole of the provision made for departmental line will practically be absorbed by the cost of an additional wire between Chittagong and Elephant Point, and the line Madura to Ramnad, with an extra wire from Madura to Trichinopoly. The former will materially improve communication with Burma, and is rendered necessary by the increased importance of this route in connection with the cable shortly to be laid between Rangoon and Penang, so that it will be necessary to make the line from Calcutta to Rangoon

fit for international traffic. On this point the following extract from a letter No. 58, dated 8th June 1876, will show the necessity for the work, the estimate for which has been sanctioned by the Government of India:—

‘The existing line between Calcutta and Rangoon, although gradually improving with every season’s work, is still utterly unfit for international traffic, and incomparably inferior to the line across the Dhunds between Deesa and Hyderabad, respecting which the Indo-European Company have made so many complaints. It consists, moreover, of one wire unequal to the existing traffic, and although a second wire has been sanctioned and is in course of erection, as far as Chittagong, it will be fully taken up by its own local traffic. It will therefore be necessary to add an extra wire throughout, for although we may expect no cable messages so long as the Madras-Penang line is in order, when an accident does occur, and they are diverted *via* Rangoon, no delays would be tolerated by the Company or by the public.’

“It may be added that this expenditure has been made the basis of a demand for an increase in the Indian Tariff for all Foreign messages, an increase which cannot be refused and which will add more than £10,000 to the annual revenue of the Telegraph Department.

“The latter, that is the line from Madura to Trichinopoly, is needed to strengthen communication between Madras and Ceylon and the South-west coast, by the substitution of an inland line, mainly on a Railway, for the existing precarious sea-coast line between Negapatam and Tuticorin.

“The Budget-Estimate for 1876-77 was passed for—

						£
Expenditure	...	...	...	...	...	383,000
Receipts	...	...	...	...	...	215,200
Nett charge	...	...	...	...	...	167,800

“For 1877-78 the figures are—

						£
Expenditure	...	...	...	...	...	411,900
Receipts	...	...	...	...	...	241,900
Nett charge	...	...	...	...	...	170,000

an increased charge, therefore, of £2,100, as compared with the Budget for 1876-77. This increase is entirely due to increased capital outlay, and excluding capital outlay from the figures for both years, 1877-78 shows an improvement of £19,749 over 1876-77.

“There has been for several years a progressive reduction in the difference between earnings and revenue charges. This reduction is very marked during 1876-77, and justifies the expectation that but a very short time is needed for the Department to pay, not only its working expenses, but also a small dividend on the capital expended.

“Nett annual loss on revenue account, *i. e.*, the difference between expenditure excluding capital outlay and receipts including *pro forma* charges:—

						£
1872-73	...	...	...	...	...	73,211
1873-74	...	...	...	...	...	56,166
1874-75	...	...	...	...	...	41,837
1875-76	...	...	...	...	...	42,367
1876-77	...	...	...	...	under 10,000	(partly estimated).

“The capital expended from the commencement is nominally somewhat over £3,000,000. I say nominally, because this amount includes the value of lines and offices abandoned or destroyed in past years.

“In the earlier days of Indian telegraphy, lines were hastily constructed of perishable material, requiring frequent renewal, and were abandoned or replaced by others mainly on military and political considerations; but for the sums spent year by year the State received a full equivalent in the assistance, direct and indirect, which the Telegraph afforded in the administration of the country.

“Again, contrary to the experience of Europe, in India the Telegraph preceded the Railway, and long before the Railway was more than an idea, the Telegraph had spread over many hundreds of miles. As the Railways extended, it became necessary to re-erect the Telegraph lines within the Railway fences, to secure the advantages of immunity from malicious interference, and

the foregoing observations indicate the direction which such revision must take should it become imperative.

"The result of the changes introduced in the tariff for international messages by the Convention of St. Petersburg has not, so far as the Indian Department is concerned, been altogether successful; for while the number of messages exchanged with foreign countries has materially increased, the increase in their value is only nominal, and there are not wanting indications of even a prospective decrease. To some extent this may be traced to the insufficiency of the Indian share of the total tariff, but it is questionable whether the reduction of the unit charge to one word can prove a financial success, unless the rate per word be proportionately very much higher than the previous rates for the larger units.

"There are two points of detail in connection with the rules for foreign messages which have given rise to complaints from the Chambers of Commerce in this country—one referring to gratuitous repetitions of messages which are supposed to have been incorrectly transmitted; the other to the charge made for figure cipher telegrams. Proposals have been made to other States, parties to the Convention, by this Government and by the Postal Telegraph Department of England, to modify the rules on these points somewhat in accordance with the wishes of the mercantile community, but these proposals have been rejected, and the grounds of their non-acceptance cannot well be contested.

"The real grievance of the Indian public lies in the circumstance that the rules are not strictly enforced in England; but it has been explained that the relaxations have there been carried out by private Telegraph Companies in a spirit of competition and with a view to attract customers (though, possibly, for the present at a loss to the shareholders); that such a proceeding is one which the manager of a private company, dealing with private money subscribed for a special purpose, may perhaps adopt with some sort of justification, though in defiance of rule, but that his example cannot be followed by a public agent dealing with public funds for the benefit of a class interest at a further sacrifice to the general community, who have already to bear the loss on an unremunerative undertaking. An opportunity will shortly be afforded of reconsidering the rules in concert with other Administrations, and I venture to hope that some means may be found of amending those which have given rise to so much discussion.

"The fact not generally known that the telegraphs are worked at a loss in some of the principal countries in Europe, and an examination of the results obtained in Great Britain, enable some conception to be formed of the difficulties with which State, *i.e.*, cheap, telegraphy has to contend under the most favourable conditions; and it is a fair matter for congratulation that India, with all her disadvantages, possesses a highly efficient and extensive telegraph system which at no very distant date promises to be self-supporting.

"I have dwelt at some length on this subject, for I have felt that it is due to the Chambers of Commerce of the three great centres of Indian trade, with whom we have been in communication, to offer to them here a fuller explanation of our motives and position than I could introduce into ordinary official or business correspondence.

"I would add a few words of explanation on the Indo-European Telegraph Department which has charge of the Indian Government lines from Kurrachee to Fao and Teheran. The head-quarters of the Director-in-Chief are in London, where there is an office of account adjustment, with a small branch office at Constantinople.

"The lines of the Department are in two sections: the Persian, which includes the lines in Persia, and the Persian Gulf section, which includes the cables connecting Kurrachee with Bushire and Fao, and the land line along the coast of Beloochistan from Kurrachee to Jask.

"The Gulf section has its head-quarters at Kurrachee, where are the offices of the Deputy Director (who is in charge of the section) and of the Traffic Manager, as well as workshops and a store depôt. A special steamer, the *Amberwitch*, is attached to the service of this section for the repair of cables and conveyance of establishment and stores.

"The land-line consists of 739 miles of line and 1,478 miles of wire. It has, besides the usual maintenance establishments, the aid of a special Political Agency at Gwadur, half the cost of which is borne by the Telegraph Department. Subsidies to the extent of £3,128 a year are also paid to Chiefs in Beloochistan for protection of this line.

"The cables of the Gulf section are 1,738 miles in length, of which 1,235 miles are of gutta-percha, and 503 miles of India-rubber core.

"The Persian section is under a Director, whose head-quarters are at Teheran. This section contains 792 miles of line and 2,406 of wire. The lines of the Department do not extend beyond Teheran.

"The total length of the lines of the Department is 2,754 miles, consisting of 3,884 miles of wire and 1,738 miles of cable.

					£
Excluding the provision for payment to foreign lines of traffic earnings realized in India, the Budget-Estimate for 1877-78 amounts to					95,985
The Regular Estimate of 1876-77 being					102,200
So that there is a decrease of					6,215

which is due to the work of erection of iron poles to replace existing wooden ones, and for which a provision of £3,980 was made in current year's Budget, not being required next year. There is also a decrease of £850 in the provision for Repairs.

"The estimate has been framed for the authorized scale of expenditure for Establishment and Repairs, and there is nothing in it to call for comment, or which can be reduced.

EXTRAORDINARY IRRIGATION.

"The total grant for the year 1877-78, from extraordinary funds for Irrigation, amounts to £900,000, distributed

				£	to the several Provinces as follows. This amount is exclusive of £107,500 to be spent from contribution of the Native States for the Sirhind Canal.
Madras	...	...	50,000		
Bombay	...	...	40,000		
Bengal	...	...	275,000		
North-Western Provinces	...	...	260,000		
Panjab	...	...	275,000		

"The works for which this sum is provided were all in progress during the current year (1876-77), in which the aggregate outlay under Extraordinary is expected to amount to £1,012,000.

"In Madras the improvements to the Godavery and Kristna systems of canals are still the most important works in progress.

"In the Godavery system several works for the improvement of irrigation and navigation in the Eastern and Western Deltas were carried out. The widening of the main canal in the Eastern Delta has been finished; the banks of the Cōconada, Ingeram, and Coringa main canals were raised and improved. The widening of the bank and Coringa Canals was carried on; nine miles of the former were opened out for navigation; one lock was built and four more were completed; and three weirs finished. Ten minor distributaries with an aggregate length of 25 miles were completed, and some improvements made to drainage cuts.

"In the Western Delta, widening and other improvements were carried on on nine canals; the widening of the main canal above water-line was completed, as also the widening and deepening of the Bank canal for 22½ miles and some masonry-works built; on these works about £20,000 were spent during 1876-77. The sum allotted for the coming year is £28,561.

"In the Kristna Delta the works on Ryves's main canal were much retarded by continued outbreaks of cholera; but they will probably be completed early in the coming year. The new supply-head, though incomplete, was opened for the admission of water, the volume supplied by the old heads being insufficient owing to the low state of the river caused by the excessive drought.

"The alterations to these channels will probably be completed as relief works. The widening of the Masulinatam Canal will also be completed early

"The Sreevignanam Anicut Project, which will supply irrigation to a portion of the Tinnevely District, and water to the town of Tuticorin, was practically finished during the year; only a portion of the revetment of the Korsur Pallam Tank, and the raising to full height of the Ooppar Oday dam being incomplete. The grant for the coming year is £3,477.

"On the Pennair Delta some expenditure was incurred from the Ordinary grant. A sum of £3,183 is allotted from the Extraordinary grant for this work during the coming year.

"The Sungum Project for the irrigation of the Northern Delta of the Pennair River from storage reservoirs in the river is still under consideration; no work is contemplated on it in the coming year.

"The Perryaur Project referred to in last year's Resolution is still under consideration; the works which will consist of a tunnel through the Ghauts in the Madura District leading from a large storage reservoir are estimated to cost £602,762; there is no prospect of their being commenced this year.

"In Bombay the only work of any magnitude in progress is the Moota Moola Project consisting of a dam across the River Moota, 99 feet in height and 3,683 feet long, exclusive of the waste weir which is 1,153 feet long, with channels for the water-supply of Poona and Kirkee and for the irrigation of about 70,000 acres. The total expenditure to the end of the current year amounted to £123,372. A grant of £31,921 is proposed for the coming year, which will bring the works, so far as sanctioned, very near completion, the estimated cost of the works being £166,118. The right bank canal, which is capable of discharging 111 cubic feet per second, has been extended to a distance of 39 miles from the head, out of a sanctioned length of 71 miles, and this portion is now being carried out as a famine relief work; the left bank canal, discharging 38 cubic feet per second, has been almost completed. A gross revenue of £7,385 is anticipated from these works during the coming year, and the working expenses are estimated at £1,063.

"The remainder of the grant will be divided among five projects of less importance. £2,671 are set apart for the completion of the Ekruk Tank in Sholapur, at a total cost of £97,116; the water is retained in this reservoir by an earthen dam with a maximum height of 78 feet. £3,113 are allotted to a small canal called the Hathmatti in Ahmadabad; the work, which is approaching completion, is estimated to cost £38,170. £1,177 are allotted to the Lakh Canal in Ahmadnagar, which is also very near completion, at an estimated cost of £25,951. £4,800 are allotted to the Mukti Reservoir and £300 to the Palkhed Canal, both of which are nearly complete, at an estimated cost of £26,456 and £11,029, respectively.

"In Bengal the grants for 1877-78, for the works in Orissa and Midnapoor, are £63,425 and £20,503, respectively. These with the Tidal Canal in Hidgelee are separate sections of the Orissa scheme purchased by Government from the East India Irrigation and Canal Company. They were originally intended to form portions of a connected system, but are now worked as separate projects. About £850,000 have been spent on the Tidal and Midnapoor Series of works, out of an estimated total of £915,803; 248 miles of distributaries are completed and in operation out of a total projected of 320 miles; and during the past kharif season 32,160 acres were irrigated from them. The navigation works on the Midnapoor Series are not quite finished, but by the end of the current year the canal will be complete as a navigation line throughout, with the exception of 4 miles in the second range in which the locks are still under construction.

"The Tidal Canal is in full operation.

"The portion of the Orissa section, to which it has been determined to limit expenditure for the present, consists only of the channels in progress and distributaries for the irrigation of 206,172 acres; the total estimated cost is £1,929,568, of which about £1,740,000 have been expended to the end of the current year (1876-77), the grant for next year being £63,425. The principal lines of canals are nearly finished; before the end of the coming year, with the exception of part of the Kendrapara extension, the whole of the navigable canals will be open for traffic throughout their length. Of the distributaries 501½ miles are completed and in operation out of a total projected length of 547½ miles.

“For the Soane Project the grant for next year is £191,071. The cost of this scheme, as now limited, is estimated at £2,710,361, of which about £1,770,000 will have been spent up to the close of the current year (1876-77), by which time the Main Western Canal, the Behia and Dumraon Branch Canals, and the Eastern Main Canal will, with their distributaries, be complete. The Arrah Branch, the Buxar Branch Canal, the Chowra Branch Canal, and the Patna Canal will, with their distributaries, be ready for irrigation, and, with the exception of some locks and waste weir bridges, will be complete throughout. The area irrigable from the completed portions by the end of the year was 443,000 acres. The Arrah Branch has for some months been navigable throughout with exception of the junction with the Ganges at the termination. A cadastral survey of the land commanded by these channels is under execution, and up to the end of the current year about 1,600 square miles, out of a total of 2,900 square miles, will have been surveyed.

“In the North-Western Provinces there are three series of works in execution from the Loan funds.

“The rectification and completion of the Ganges Canal at an estimated cost of £858,813 is the first: up to the end of the current year about £387,400, exclusive of value of materials in hand, will have been expended. The grant for the coming year is £80,000. The works executed during the past year consisted mainly of protective works to the floorings of the falls in the main canal; the re-construction of two locks, and the building of new locks and weirs near Jaoli regulator, Wallipura and Nanun, with the view of reducing the slope of bed and consequent velocity of the water in the main canal. The completion of the upper portion of the Anupshahr Branch with an escape into the Ganges, and the preparation of surveys and detailed plans and estimates for some of the new branches and some other minor works. The construction of the new branches will be undertaken shortly.

“The Agra Canal is virtually complete, and has been already in operation for two years. The navigation arrangements are nearly complete throughout. A sum of £10,000 has been allotted for the current year for expenditure on drainage works and minor distributaries. The total estimated cost, exclusive of plantation, is £772,553, of which £10,000 are still unspent. The revenue from this canal has so far more than justified the expectations formed regarding it.

“The Lower Ganges Canal is the most important work in progress in the North-West Provinces. The supply is drawn from the River Ganges by a masonry weir, the closing of which was successfully accomplished during the past year. The grant for expenditure during the coming year is £170,000; revised estimates for this project have been submitted, and are now under the consideration of the Government of India, meantime permission has been accorded to proceed with the more urgent works: the first 40 miles of the main canal and the supply branch, 22 miles in length, will be finished by the close of next year. The remaining earth-work of the main canal, as far as its junction with the old Kahunpur Branch, is also nearly complete. About £1,083,000 will have been spent on this canal to the end of 1876-77; the ultimate expenditure will probably considerably exceed £2,000,000.

“The project for a canal from the River Betwa, in Bundelkhand, has proved to be too expensive to justify its execution from the Loan funds: further enquiries are being made with a view to substituting, if practicable, a cheaper and less elaborate scheme.

“The execution of the project for the Eastern Ganges Canal to water a portion of Rohilkhand has been postponed indefinitely owing to doubts as to the volume of water available from the Ganges after providing for the Lower Ganges Canal.

“In the Panjáb there are four series of works in progress from Extraordinary funds; two, the Sirhind and Swat River Canal projects, are not yet brought into operation. Indeed, the last has only been just begun, and though it gives fair prospect of paying interest on its outlay, it has been accepted rather on political than on material reasons. With this exception it is the only new Irrigation project which has been sanctioned within the last two years, for in my opinion it is desirable to complete those already commenced, and

watch their prospects before we commit ourselves to any further great or doubtful operations; the other two consist of improvements and extensions of existing canals—the Bári Doáb and the Western Jamna.

“The Bári Doáb Canal has been yielding revenue since 1860; the estimated cost of the improvements now in progress is £333,114, of which about £135,000 will have been spent to the end of 1876-77. The grant proposed for the coming year is £24,791. The two new branches have been completed, the grant now to be made will be utilised in constructing distributaries. Two new distributaries have been completed on the old portion of the canal. The escape sluices of the weir across the Ravi, at the head of the canal, suffered severely from the floods again this year, but not to the same extent as in 1875: the protective and training works were also slightly damaged.

“The work on the Western Jumna Canal consists of a masonry-weir across the Jumna River with regulating heads for both Eastern and Western Jumna Canals; and of new channels in substitution for portions of the main canal and branches. The estimate for works is about £730,000; about £262,000 will have been spent up to the end of 1876-77, and the grant for the coming year is £74,900. The head-works are approaching completion, land has been acquired for the portions known as the new Main Line and new Delhi Branch, and a considerable quantity of material has been collected, two of the new distributaries have been completed, and another is in hand.

“The largest work under construction is the Sirhind Canal, drawing its supply from the Sutlej River for the irrigation of the British Districts of Ludiana and Ferozpur, and the Native States of Patiala, Jhind and Nabha; the entire cost of the works is estimated at £3,087,388, of which £1,187,000 will be contributed by the Native States. The outlay to the end of 1876-77 will probably aggregate £1,185,000, and the grant for the coming year is £248,217, of which £107,317 will be contributed by the Native States. The head-works and the excavation of the main canal are well in hand, and seven out of the eight bridges are complete. Convict labor has been tried with success on these works. The Abohur Branch and the first and second feeders are well advanced. The third feeder and the Patiala navigation channel are nearly complete, and the excavation of the Choya Branch is complete to the 20th mile. Work on the navigable junction with the Sutlej at Ferozpoor was commenced during the year.

“The fourth and last work is the Swat River canal in the Eusufzaie valley, at an estimated cost of £167,313; a commencement of work has been made, and about £10,000 spent. Its chief object is to induce some of the lawless borderers to settle down in British territory, and betake themselves to peaceful pursuits. It will be desirable to push on the works to completion as rapidly as possible; the grant proposed for the coming year is £30,181.

“Of the Ordinary grant for 1877-78 amounting to £900,600, as against £958,800 for 1876-77, £141,163 will be an addition to the Capital outlay on the works. £544,133 provides for the current expenses of works in operation for which Capital and Revenue accounts are kept, and £245,305 are charges debitable to works for which there are no Capital or Revenue accounts.

“In Madras the principal works for which Capital expenditure is being partially incurred from the Ordinary Revenues are the Godavari Delta, the Kistna Delta system, the Pennair Delta system, and the Chembrambakam Tank. For the Madras water-works a grant of £2,774, exclusive of establishment, is provided in the budget, which will be utilised on embanking the river and left side of supply-channel, in extension of weirs in the supply-channels and in works of protection from the river floods. The tanks are in good order, and the weir has been raised to full tank level. In the Godavery District a larger extent of the cultivation and of revenue is anticipated. In the Tanjore District the high floods towards the end of July breached in the left bank of the Vennaur Tank, and caused considerable damage to the crops. Owing to the prevailing drought the supply in the river has proved insufficient for the irrigation under the river.

“The total grant amounts to £262,000, the grant for 1876-77 being £272,200, and the average outlay of the three previous years £266,986. The necessity for increasing the normal irrigation grant so often urged by Madras,

owing to the vast revenue at stake and the interests to life and agriculture involved by the efficient maintenance of Irrigation Works, has received consideration, and further detailed information has been called for. The large irrigation works already constructed in Godavery, Kistna, Pennair, Tanjore, &c., have assisted not only in reducing the extent of the districts subject to scarcity at exceptional times, but also in increasing production in ordinary years, and in this double capacity they differ from some of the works in Bengal which are more for the prevention of famine only.

“Of the grant assigned, £35,999 is for works, and £146,759 for repairs, the balance being devoted to establishment and other charges. Of the grant for works, £3,987 is for embankments, £3,091 for the Chembrumbaukum Tank Project, and the remainder for sundry minor works.

“In the Bombay Presidency there are numerous irrigation works under construction from the ordinary revenues. The Desert Canal of Sind, which takes its supply from the River Indus, to irrigate land both in Khelat and British territory, is one of the principal. The estimated cost is £83,481, of which £42,500 have been spent; a grant of £6,100 has been made for expenditure during next year on this canal, from which an ultimate net revenue of £7,737 is expected. A grant of £5,362 has been made for the execution of the important series of embankments known as the Kashmir and Begari bunds, which are designed to shut out the flood-water of the Indus for a distance of 45 miles, and to protect the land on the right bank. The provision now made will, it is expected, suffice to complete the work at a total cost of £72,947. The Begari Canal, 76 miles in length, and yielding a revenue of £17,639, is being enlarged, extended, and improved at an estimated cost of £104,942: these improvements are expected to double the area under irrigation, and raise the profits to 15 per cent. on the outlay: this canal will be protected from injury by the Kashmir Bund; a grant of £6,100 is allotted for the coming year. The Sukkur Canal is approaching completion: its supply is derived from the Indus; the main canal is 75 miles long, and is capable of irrigating 88,250 acres, yielding a revenue of £18,400. The estimated cost of the project is £106,892. The grant for the coming year is £2,440. The Eastern Narra system comprises a series of works extending from the Indus at Rohri to the Ruin of Cutch. Provision is made for £6,100 for expenditure during the coming year. The Great Marak Canal in the Hyderabad Collectorate has been enlarged at an estimated cost of £17,008. This work promises to yield a good return for the money spent; the grant for the coming year is £400. A grant of £1,200 is made for works on the Fuleli Canal, chiefly to secure efficient control over the supply of water; the main canal is 95 miles long, and the branches aggregate 986 miles. A small provision of £700 is made for the Krishna Canal which is nearly completed; the estimated cost is £62,341, and it already irrigates 4,000 acres. Progress on all these canals is much restricted by want of funds.

“The total grant assigned is £180,000, of which £47,365 is for works, £79,465 for repairs, and the remainder for establishment and other charges. Of the provision for new works, £2,387 will be spent in the completion of 12 works, estimated to cost £262,068, and on which it is expected that £248,623 will have been spent by end of 1876-77. For other works in progress, the grants for which will not suffice for completion in 1876-77, £27,604 has been given, the estimated cost being £262,068, and the probable outlay to end of 1876-77 £333,392. The balance of the grant for new works has been devoted to sundry small and minor works.

“On irrigation works, commenced in view to give employment to the distressed, £225,000 have been spent from famine relief funds; the total estimated cost of these works being £467,500.

“In Bengal the principal works under investigation, the expenses connected with which are defrayed from the ordinary revenues, are the Tirlut irrigation scheme and the Hooghly irrigation scheme; the expenditure during the current year on the former has been £8,148. A very promising scheme of irrigation from the Gandak River was prepared this year; it consists in diverting a perennial supply from the River Gandak into some natural beds of streams, which in the ordinary course are dry except in the rainy season.

watch their prospects before we commit ourselves to any further great or doubtful operations; the other two consist of improvements and extensions of existing canals—the Bári Doáb and the Western Jumna.

“The Bári Doáb Canal has been yielding revenue since 1860; the estimated cost of the improvements now in progress is £333,114, of which about £185,000 will have been spent to the end of 1876-77. The grant proposed for the coming year is £24,791. The two new branches have been completed, the grant now to be made will be utilised in constructing distributaries. Two new distributaries have been completed on the old portion of the canal. The escape sluices of the weir across the Ravi, at the head of the canal, suffered severely from the floods again this year, but not to the same extent as in 1875: the protective and training works were also slightly damaged.

“The work on the Western Jumna Canal consists of a masonry-weir across the Jumna River with regulating heads for both Eastern and Western Jumna Canals; and of new channels in substitution for portions of the main canal and branches. The estimate for works is about £730,000; about £262,000 will have been spent up to the end of 1876-77, and the grant for the coming year is £74,900. The head-works are approaching completion, land has been acquired for the portions known as the new Main Line and new Delhi Branch, and a considerable quantity of material has been collected, two of the new distributaries have been completed, and another is in hand.

“The largest work under construction is the Sirhind Canal, drawing its supply from the Sutlej River for the irrigation of the British Districts of Ludiana and Ferozpur, and the Native States of Patiala, Jhind and Nabha; the entire cost of the works is estimated at £3,087,388, of which £1,187,000 will be contributed by the Native States. The outlay to the end of 1876-77 will probably aggregate £1,485,000, and the grant for the coming year is £248,217, of which £107,317 will be contributed by the Native States. The head-works and the excavation of the main canal are well in hand, and seven out of the eight bridges are complete. Convict labor has been tried with success on these works. The Abohur Branch and the first and second feeders are well advanced. The third feeder and the Patiala navigation channel are nearly complete, and the excavation of the Choya Branch is complete to the 20th mile. Work on the navigable junction with the Sutlej at Ferozpoor was commenced during the year.

“The fourth and last work is the Swat River canal in the Eusufzaie valley, at an estimated cost of £167,313; a commencement of work has been made, and about £10,000 spent. Its chief object is to induce some of the lawless borderers to settle down in British territory, and betake themselves to peaceful pursuits. It will be desirable to push on the works to completion as rapidly as possible; the grant proposed for the coming year is £30,481.

“Of the Ordinary grant for 1877-78 amounting to £900,600, as against £958,800 for 1876-77, £141,163 will be an addition to the Capital outlay on the works. £544,133 provides for the current expenses of works in operation for which Capital and Revenue accounts are kept, and £245,305 are charges debitable to works for which there are no Capital or Revenue accounts.

“In Madras the principal works for which Capital expenditure is being partially incurred from the Ordinary Revenues are the Godavari Delta, the Kistna Delta system, the Pennair Delta system, and the Chembambakam Tank. For the Madras water-works a grant of £2,774, exclusive of establishment, is provided in the budget, which will be utilised on embanking the river and left side of supply-channel, in extension of weirs in the supply-channels and in works of protection from the river floods. The tanks are in good order, and the weir has been raised to full tank level. In the Godavery District a larger extent of the cultivation and of revenue is anticipated. In the Tanjore District the high floods towards the end of July breached in the left bank of the Vennaur Tank, and caused considerable damage to the crops. Owing to the prevailing drought the supply in the river has proved insufficient for the irrigation under the river.

“The total grant amounts to £262,000, the grant for 1876-77 being £272,200, and the average outlay of the three previous years £266,986. The necessity for increasing the normal irrigation grant so often urged by Madras,

owing to the vast revenue at stake and the interests to life and agriculture involved by the efficient maintenance of Irrigation Works, has received consideration, and further detailed information has been called for. The large irrigation works already constructed in Godavery, Kistna, Pennair, Tanjore, &c., have assisted not only in reducing the extent of the districts subject to scarcity at exceptional times, but also in increasing production in ordinary years, and in this double capacity they differ from some of the works in Bengal which are more for the prevention of famine only.

"Of the grant assigned, £35,999 is for works, and £146,759 for repairs, the balance being devoted to establishment and other charges. Of the grant for works, £3,987 is for embankments, £3,091 for the Chembrumbaukum Tank Project, and the remainder for sundry minor works.

"In the Bombay Presidency there are numerous irrigation works under construction from the ordinary revenues. The Desert Canal of Sind, which takes its supply from the River Indus, to irrigate land both in Khelat and British territory, is one of the principal. The estimated cost is £83,481, of which £42,500 have been spent; a grant of £6,100 has been made for expenditure during next year on this canal, from which an ultimate net revenue of £7,737 is expected. A grant of £5,362 has been made for the execution of the important series of embankments known as the Kashmor and Begari bunds, which are designed to shut out the flood-water of the Indus for a distance of 45 miles, and to protect the land on the right bank. The provision now made will, it is expected, suffice to complete the work at a total cost of £72,947. The Begari Canal, 76 miles in length, and yielding a revenue of £17,639, is being enlarged, extended, and improved at an estimated cost of £104,942: these improvements are expected to double the area under irrigation, and raise the profits to 15 per cent. on the outlay: this canal will be protected from injury by the Kashmor Bund; a grant of £6,100 is allotted for the coming year. The Sukkur Canal is approaching completion; its supply is derived from the Indus; the main canal is 75 miles long, and is capable of irrigating 88,250 acres, yielding a revenue of £18,400. The estimated cost of the project is £106,892. The grant for the coming year is £2,440. The Eastern Narra system comprises a series of works extending from the Indus at Rohri to the Runn of Cutch. Provision is made for £6,100 for expenditure during the coming year. The Great Marak Canal in the Hyderabad Collectorate has been enlarged at an estimated cost of £17,008. This work promises to yield a good return for the money spent; the grant for the coming year is £400. A grant of £1,200 is made for works on the Fuleli Canal, chiefly to secure efficient control over the supply of water; the main canal is 95 miles long, and the branches aggregate 986 miles. A small provision of £700 is made for the Krishna Canal which is nearly completed; the estimated cost is £62,341, and it already irrigates 4,000 acres. Progress on all these canals is much restricted by want of funds.

"The total grant assigned is £180,000, of which £47,365 is for works, £79,465 for repairs, and the remainder for establishment and other charges. Of the provision for new works, £2,387 will be spent in the completion of 12 works, estimated to cost £262,068, and on which it is expected that £248,623 will have been spent by end of 1876-77. For other works in progress, the grants for which will not suffice for completion in 1876-77, £27,604 has been given, the estimated cost being £262,068, and the probable outlay to end of 1876-77 £333,392. The balance of the grant for new works has been devoted to sundry small and minor works.

"On irrigation works, commenced in view to give employment to the distressed, £225,000 have been spent from famine relief funds; the total estimated cost of these works being £467,500.

"In Bengal the principal works under investigation, the expenses connected with which are defrayed from the ordinary revenues, are the Tirthut irrigation scheme and the Hooghly irrigation scheme; the expenditure during the current year on the former has been £8,148. A very promising scheme of irrigation from the Gandak River was prepared this year; it consists in diverting a perennial supply from the River Gandak into some natural beds of streams, which in the ordinary course are dry except in the rainy season.

"In the North-West Provinces the expenditure from the ordinary grant consists almost entirely in minor works and repairs connected with the large canal systems. The subject of drainage has occupied the serious attention of Government, and enquiries have shown that a very large expenditure may prove eventually necessary. During the current year about £65,000 were spent on these works, the cost being shared by Extraordinary funds, Imperial revenues, and Provincial funds. A project for navigable communication between the Ganges Canal and the Agra Canal at Delhi is under consideration by the North-Western Provinces Government.

"In the Panjáb the chief items of expenditure from the ordinary grant are on repairs to the Bafí Doáb and the Western Jamna Canals; a few minor works are in progress and call for no remark.

"In Mysore the grant for the current year is £96,800. Irrigation in this part of India is carried on chiefly from tanks and reservoirs. The principal works in progress are the extension of the North Channel, and the completion of the Seriramdávur dam, the Chikdāwar Sagar Channel, the Sulikerray Series of tanks, the Hussergutta Series of tanks, and various other minor works. There is also a scheme for water-supply to the town and station of Bangalore, at a cost of £56,925, and for the water-supply of the town of Mysore, at a cost of £41,820.

"In British Burma, the principal works under construction are the Irrawaddy embankments, for the protection of the culturable land along the river; one section, 27 miles long, will protect a hundred and twenty thousand acres; £4,500 are entered for expenditure for next year, which will suffice to complete the work at an estimated cost of £12,353. Three other sections previously completed, with an aggregate length of 154 miles, are to be raised and strengthened at an estimated cost of £30,461, and for these works £40,900 have been allotted for expenditure during the coming year. A grant of £1,000 is also made for the reclamation of the Pegu Plain; this sum will suffice to complete the work at a total cost of £21,954; this work is calculated to reclaim 50,000 acres of good land, and to afford protection to the canal from inundation. The Pegu and Sittang navigable Canal, executed from Provincial funds, at a cost of £118,690, will be completed in the coming year, and will, it is hoped, be open to traffic by April or May 1878.

"In Rájputána, the system of irrigation is from tanks dependent for their supply on local rainfall; the proposed expenditure is on completing and maintaining these tanks, and calls for no special remarks.

"The aggregate construction outlay on irrigation works, ordinary and extraordinary, throughout India, up to the end of the year 1875-76, as booked in the registers of the Public Works Department, amounts to £16,554,690, of which the expenditure shown for Madras and Bombay is open to correction, the accounts not having been completely adjusted.

"The expenditure in Burma has been altogether on flood embankments and protective works; the works in Oudh and the Central Provinces have been abandoned. In the three Provinces, Bengal, the North-West, and Punjab, the aggregate outlay has been £12,348,057, and in these only can a comparison be usefully made of expenditure and returns.

"On the financial results of irrigation works I have already spoken.

"The irrigation from the Orissa, Midnapur, and Tidal Canal is of very slow growth, and it is feared that the income from this source will never, under the present system, yield an adequate return on the Capital that has been invested. The Soane Canal and the Agra Canal have only recently been brought into operation, and there is a fair prospect of their eventually proving profitable undertakings, both directly and indirectly; the condition of the Ganges and Eastern and Western Jumna Canals is very prosperous, and the Bafí Doáb Canal is now yielding a fair income.

"It will be premature for me here now to do more than to allude to the proposals for a future localization of irrigation works. I have from my arrival in India felt that the success of some, if not of all these works, would be better secured if they were the outcome of local sacrifice and self-denial rather than of Government munificence alone, and that local interests and local duties should call this class of improvement into existence. Indeed, without ignoring

altogether the responsibilities of the State towards the land, resting on the assurance of those who know India better than I do, and who understand the relations of the landholders to the cultivator, I would wish to see no work of irrigation commenced till those who expected the benefit had either subscribed the Capital or had given a guarantee for the interest of the work which has to be undertaken from the Loan funds. I am inclined to draw a distinction between lands, such as those in Sind, in Burmah, and in Bengal too to some small extent, which need protection from flood. I will not dwell further on this matter, leaving time to thoroughly work out what is needed to effect a change in policy, from which, if care and caution are exercised to give it effect in its earlier stages, I, for one, believe infinite benefit will ultimately arise, though, for the moment, extreme advocates for irrigation may not acquiesce in the chances of very rapid development.

"Early in last year, with the assent of Lord Northbrook, I suggested such a course in reference to a very extensive scheme put forward for the protection of Behar against the recurrence of the disasters of 1874, and for the mitigation of the normal misery of that overcrowded district. The response I received from the then Government of Bengal gave but little hope that any means could be relied upon beyond the usual one of the work being undertaken by the Indian Treasury. I trust that the present Government of Bengal will be able to show that its predecessor was deceived.

"I am also now in communication with the Government of the Panjáb on a project lately submitted by it, in order to ascertain if the work can be undertaken on the conditions we are now seeking to establish.

"The extension to Local Governments of administrative control, with a simultaneous increase of their responsibilities, cannot fail, if guarantees are taken for the continuity of a fixed and stable policy (the difficulty of all personal government subject to a short tenure), to result in greater local efficiency even if it does not secure greater economy and thrift in outlay.

"Of the application of the same principle of local management to Railways, I confess I do not myself entertain a favourable opinion, unless, indeed, full powers on questions of principle are reserved in the hands of a central authority; for the essential feature of Railway success—I mean financial success—is an arrangement for the public service at once simple, rapid, certain, and this can only be secured by unity and harmony in administration. To localize entirely the control of Railways would increase their cost in management, and re-introduce the worst features of the early European system, which all Railway administrators are now hoping to see followed by a more automatic system.

"I hope to see this principle thoroughly recognised in this country at no distant date, and the whole Railway system of India guided by one authority, whilst the improving and increasing revenue is devoted to the further development of the system itself.

"It is possible, perhaps, whilst enlisting the co-operation of the Local Government, in aiding the sources and development of Railway traffic, not to weaken Railway administration; if this can be secured, the experiment is, however, worth a trial.

"I have now, My Lord, to ask the Council's attention for a few minutes to the prospect of our State Railways.

"The length of State Railways open for traffic, under construction, and under survey at the close of 1876 was 2,720 miles, of which 170 miles are either Provincial or the property of foreign States, leaving 2,550 miles chargeable to Imperial Public Works Extraordinary. Of this length about 800 miles are now open for traffic, and 1,100 miles are under construction. On the remainder, construction operations have not yet been commenced.

"During the past year the increase to the open mileage has not been large, the additional length permanently opened being only 128 miles, distributed over the Rajpootana, Punjab, Northern, Tirhut, Holkar, and Nimuch lines. The Rajpootana line was opened throughout.

"On the Indus Valley Railway 110 miles have been temporarily opened between Multan and Chuni Gote for the goods traffic of the Flotilla.

"During the ensuing year a much greater addition to the open mileage is expected, which will make up the aggregate length to about 1,500 miles, thus maintaining the projected average of 300 miles a year since the date of first opening. The chief additions will be on the Indus Valley, Northern Bengal

and Rangoon and Irrawaddy Valley Lines, on which it is expected that 660 miles will be opened for public traffic.

"The total Imperial extraordinary expenditure up to the close of 1875-76 was £11,785,492.

"The estimated expenditure during the current year 1876-77 is £2,788,000, and the estimate for the ensuing year is £2,728,000, which will raise the total expenditure at the close of 1877-78 to about £17,300,000.

"The grant for the coming year provides for steady progress on the lines already under construction and for a commencement of the extension of the Panjáb Northern Railway to Ráwalpindi, and of the Western Rájputána Railway.

"It has been necessary in the present state of the finances to restrict the grant for the latter to only £100,000. And, for the same reason, other lines on which a small commencement should be made, so as to carry forward the extension of our railways with regularity, must I fear be postponed.

"These are the Chattísgarh Line from Nágpur, and the Nímuch-Nasirabad link of the Central Indian system. The extension of the Northern Bengal Railway to the foot of the hills, a distance of about 30 miles, is also a work which, I still trust, may be pushed on if our prospects brighten in the coming autumn.

"In the course of the last month the earth-works of two railways, the claims of which had already been before the Government, have been authorised as famine relief works. These are the Dhond and Munmar, forming a chord above the Gháts between the north-east and south-east lines of the Great Indian Peninsula Railway, and which, if existing, would be especially valuable in the present crisis; and an extension of the Madras Railway from Bellary to Hubli. This last line when carried out will not be complete without an outlet on the western coast.

"As in the case of the famine of 1874, when the construction of certain lines had to be anticipated, so now these lines must be accepted as divergences from the fixed programme of our railway-scheme.

"With an annual appropriation of three millions approximately for railways, we ought to be prepared to put in hand about 400 miles of line yearly. As respects future extensions therefore, it may be mentioned that we have surveys in progress for lines in Burma towards the frontier;—from Assam on the east to Tírhut on the west;—from Ráwalpindi to Pesháwar; and from Sukkur towards the western frontier.

"The receipts from the open lines are for the current year estimated at about £370,000, with a mean open mileage of 742 distributed over eight different lines.

"The nett receipts are estimated at £105,000.

"The State Railway system is burdened with several small detached lines, such as the Nalhati, Calcutta and South-Eastern and Wardah Valley. The last will, it is hoped, prove particularly valuable as a mineral branch. It also serves the cotton mart of Hingunghât. Of others, such as the Panjáb Northern, Holkar, Nímuch and Tírhut, small sections only are as yet opened for traffic. The open mileage of these seven lines aggregates only 360 miles. This want of continuity is unavoidable, but so long as it lasts the traffic cannot be large, and the expenses of working must be disproportionately high.

I have already stated that portions of the Northern Panjáb and Indus Valley Railways are now open for traffic, and the rapid development of trade, especially on the former, even with the very limited rolling-stock available, already shows nett receipts in excess of working expenses which justify these works being classed as Extraordinary.

"And this consideration leads me to refer to the change which seems to be proposed in carrying out the policy for Extraordinary works, by which no works so classed will be aided by loan money unless they are likely to be *fully* remunerative, and instead of its being required, as formerly laid down by the Secretary of State, that no loan money spent on a work shall be treated as Extraordinary, except where the yield will cover the interest on the *loan*, it will be required that no loan money shall be spent on a work except where the yield will cover the interest on the *whole cost*. Heretofore the policy has really been to combine the employment of Loan Funds with that of surplus ordinary revenue, so as on the one hand to expedite the progress of the works, and on

the other to keep down the real interest for borrowed money, in order to avoid burdening the future.

"Thus, when a work has been considered reasonably certain to pay say 3 per cent. on its total cost, or even 2 per cent., it has been thought proper to allow of its inclusion in the category of Extraordinary works in expectation that so much of its cost would be defrayed by ordinary revenue, that the remaining portion defrayed by borrowed money would have its interest covered by the yield; and this has prevented the progress of the work being retarded to only such a pace as would have been possible from the exclusive employment of the current revenues.

"Further, it is to be considered that the system of Extraordinary State Railways is mainly a system for constructing railways by the use of funds raised by Government direct, instead of by the use of funds raised by Guaranteed Companies.

"There is no more unsoundness, so far as I can see, in the financial policy that would commit the State to the liability for interest on funds raised by itself, than to the policy that commits it to liability for interest raised by Guaranteed Companies; and I think that no one will venture to deny that the liability so incurred has been fully justified, and that the policy was a sound one.

"Next year the gross receipts from a mean open mileage of 1,230, distributed over 11 different lines, are expected to amount to £675,000, and the nett receipts to a little over £190,000.

"The receipts per mile open per week average about £10 only. This is a small figure compared with the earnings of some of the trunk lines, but its increase depends on the gradual completion of a system.

"For example, the only State line of considerable length as yet open throughout is the Rájputána Railway 400 miles long. The last section of this line was opened in February 1876, and in the same half-year the nett receipts from a gross traffic, £13 per mile per week, returned 5 per cent. per annum on the capital outlay.

"I have seen it stated that the State lines have been constructed at a much greater cost than the Guaranteed lines, and their average mileage cost has been criticised. It is unnecessary to enter into the details of such a question on this occasion, but the fullest information will be published hereafter. For the present I think it sufficient to say that the comparative outlay on particular works, and the several conditions under which they have been undertaken and constructed, can be accounted for, and that their cost compares favourably with the lines of other countries. Whether the sums advanced under the guarantee had been excessive or the reverse, the Companies in India owe their prosperity to the fact that they obtained their capital at a moderate rate of interest in virtue of the Government guarantee.

"It has been more than once asserted that the policy which was inaugurated by Lord Hardinge, and to which Lord Dalhousie gave life and vigour, was a policy which has led to great loss and extravagance. My Lord, such loss and extravagance, if there has been either one or the other, are absolutely insignificant when compared with what has been realised by the Americans, and by other nations who have not enjoyed the credit which India could always command, and who from this want of sufficient means were forced to adopt a cheaper and less durable type of road. The heavier outlay had to be incurred at last, and the final cost of the railroads in those countries will be found to exceed, eventually the first and permanent outlay upon our Indian lines.

"The special standard gauge of India was, without doubt, an error into which I myself fell when introducing railways into Australia in 1855 and subsequent years, but I believed then with those who also advised the Government of India that the battle of the gauges would result in a compromise, and that the 5 feet 6 inches gauge would be the universal standard.

"The result of this controversy subsequently led in this country to the unfortunate break of gauge by the further adoption of the metre gauge; and, although, no doubt, this latter gives on its first cost a better return than is secured on the outlay on a wider gauge, still I question whether a more extended working will secure as large a proportion of profits as the traffic develops.

"Had the early founders of the Indian railways adopted the 4 feet 8½ inch standard gauge of England, I am confident that our lines would long since have been paying a handsome subsidy to the Indian Treasury, that the extent of our railway system would have been far greater, and that we should not have been afflicted with the curse of a break of gauge.

"The Guaranteed Railway system in India was extended during the year ending 31st December 1876, by the opening of a portion of the South Indian Railway in Madras, and by the completion of a short branch of the Bombay, Baroda and Central India Railway in Bombay.

"The total number of miles open at the end of 1876 was 5,899, against 5,693 miles at the close of 1875.

"Disasters to bridges occurred in Bombay and the Panjáb. Twenty-five spans of the Narbada Bridge on the Bombay, Baroda and Central India Railway were swept away by floods, and three spans of the Sutlej Bridge on the Sindh and Panjáb line were destroyed, both accidents causing temporary stoppage of traffic upon the damaged sections.

"It is estimated that the total capital withdrawals for expenditure on Guaranteed Railway and the Madras Irrigation and Canal Companies, to 31st March 1877, will be £95,788,000, which includes a sum of £372,000, the balance of a loan of £600,000 obtained for works by the Madras Irrigation and Canal Company from the Secretary of State.

Divided thus—

Expenditure in England	...	...	£ 42,628,000
" in India	...	...	53,160,000

"Deducting the capital invested in the Madras Irrigation and Canal Company, the nett expenditure on Guaranteed Railways will be £94,416,000.

"The amount of capital, which it is estimated will be remaining in the hands of Government, belonging to Guaranteed Railway Companies, on the 31st March 1877, is £420,631, which may be distributed over the various railways as follows :—

E. I. Railway, Main Line, at their credit	...	...	69,227
Ditto Jabalpur Line (debit)	...	...	159,836
Eastern Bengal Railway (debit)	...	...	71
Madras Railway (credit)	...	...	132,626
South Indian Railway (debit)	...	...	43,090
Bombay, Baroda and Central India Railway (debit)	...	...	5,230
Great Indian Peninsula Railway (debit)	...	...	48,507
Oudh and Rohilkhand Railway (debit)	...	...	101,671
Sindh, Panjáb and Delhi Railway (credit)	...	...	577,283
Total credits to railways	...	...	779,136
Debits to railways	...	...	358,505
Nett credit	...	...	420,631

"Taking into consideration a sum of £514,400, which the Secretary of State estimates will be received on account of capital during the year 1877-78, it is estimated that, looking at the Guaranteed Railways as a whole, all the funds belonging to them will be exhausted, and a further sum of £343-1-11 expended.

"The details of these figures are—

E. I. Railway, Main Line (debit)	...	...	£ 109,773
Ditto Jabalpur Line (debit)	...	...	152,961
Eastern Bengal Railway (debit)	...	...	16,471
Madras Railway (credit)	...	...	50,443
South Indian Railway (debit)	...	...	337,840
Bombay, Baroda and Central India Railway (debit)	...	...	90,230
Great Indian Peninsula Railway (debit)	...	...	310,524
Oudh and Rohilkhand Railway (credit)	...	...	80,629
Sindh, Panjáb and Delhi Railway (credit)	...	...	543,616
Total credits	...	...	674,688
Total debits	...	...	1,017,799
Nett	...	...	343,111

"It will be seen from the above that some provision of funds will have to be made to meet expenditure.

"The gross earnings for 1876-77 were estimated for the Budget at £7,888,000, they are now expected to reach £9,499,000, this large increase is due principally to the following exceptional causes.

"The impetus given to the grain traffic by the famine in the Madras and Bombay Presidencies; the activity in the export trade of grain, created in some measure by the adverse rate of exchange, and further stimulated by the reduction in the rates for long carriage of grain on the East Indian Railway; and the Imperial Assemblage at Delhi.

"The working expenses for the Budget of 1876-77 were estimated at £4,238,000, they are now likely to amount to £4,937,000. The net traffic receipts were estimated at £3,650,060, they will now probably amount to £4,562,000.

"The moiety of surplus profits payable to share-holders was reckoned at £179,000 for the Budget-Estimate of 1876-77, it will now amount to £274,000.

"The gross interest payable under guarantee is expected to be £4,708,000 against the Budget-Estimate of £4,730,000, from which, if the amount of net traffic receipts, less the moiety repayable to shareholders, be deducted, the remainder £420,000 will represent the loss to the State for the year against the Budget-Estimate of £1,259,000.

"The gross earnings for the Budget year 1877-78 are estimated at £8,553,300, which is less than the amount expected to be realized during 1876-77 by £945,700, owing to the abnormally heavy traffic in food grains going to the famine districts, to the increased exportations by the fall in the rate of exchange, and to the exceptional receipts of the Delhi Assemblage in the latter year.

"The gross receipts budgetted for next year amount in the gross to a little more than was put down in the Budget for the current year and than the actuals for the year 1875-76. If, however, the sums set against each railway are examined, it will be seen that there is a fair increase expected on all railways except two,—the Great Indian Peninsula and Sindh, Panjāb and Delhi Railways,—whose receipts are taken at £134,000 less than 1875-76. The decrease in the former is trifling, but that on the Sindh, Panjāb and Delhi amounts to nearly £400,000, the cause being that in the year 1875-76 a large sum which had been debited to Revenue was written back to the debit of Capital, and consequently increased out of all normal proportion the gross earnings. The normal actuals of 1875-76 might, therefore, be considered as about £7,884,000, and the Budget is some £670,000 more than this.

"Unfortunately, the working expenses are not affected in the same way, but have to be set down for a progressive traffic, and in some cases to provide for the inevitable heavy repairs which must follow the unprecedented rush of grain traffic caused principally by the wants of the famine districts of Bombay and Madras, and partly by the expansion of the export trade of wheat and seeds. If, as may be hoped, this trade becomes a permanent and prosperous one, we may look for considerable and steady enhancement of receipts, but the carrying resources of both the Great Indian Peninsula and East Indian Railways have been severely strained, and on the latter railway it has been determined to build more rolling-stock to enable them to carry all that is offered.

"But building rolling-stock takes time, and probably the coming official year will have run nearly its whole length before the necessary additional carrying accommodation is provided.

"A further fact has to be borne in mind, namely, that while, in consequence of the enormous traffic which has been carried during this official year, very large surplus-profits in excess of the guaranteed interest have been earned, the payment to the shareholders of the moiety of these heavy surplus-profits falls in the next official year, and this tends to put next year's transactions in a comparatively unfavorable light.

"The estimated loss to the State during 1877-78 compares as follows :—

	1875-76.	1876-77.	1877-78.
	£	£	£
Guaranteed interest	4,688,000	4,708,000	4,766,000
Deduct—			
Nett receipts	3,713,000	4,288,000	3,716,000
Loss	975,000	420,000	1,000,000

"But of the sum of £1,000,000 shown as the nett charge against the State for 1877-78, an amount of £250,000 may at least be taken as representing the excess moiety of surplus-profits earned during the preceding year, but paid to shareholders in that year, so that if each official year could have been made to bear the burden of its own moiety of surplus-profits, 1876-77 would have cost the State about £670,000 and 1877-78 about £750,000.

"In order to form an opinion of the different undertakings paying or falling short of the guarantee, a table of average receipts per mile per week and probable ratio of expenses to gross average receipts has been prepared, based upon the Regular Estimate for the year 1876-77 :—

NAMES OF RAILWAYS.	Length. Miles.	Cost per mile. Rs.	Interest at 5 per cent on Capital cost per mile per week.	Estimated average gross earnings per mile per week.	Probable percentage of expenses to gross earnings.	Probable cost of work- ing.	Probable net profit per mile per week.	PROBABLE PRO- FIT AND LOSS.		EFFECT OF GOVERN- MENT GUARANTEE.	
								Above guar- antee.	Below guar- antee.	Half gains above guarantee	Below guarantee.
				1876-77							
East Indian, Main Line	1,270½	2,32,402	223	Rs. 520	33	172	348	125	...	41,59,187	...
Ditto, Jubbulpore	223½	1,65,774	159	274	47	129	145	...	14	...	1,82,744
Eastern Bengal	168	2,13,976	205	468	57	280	196	...	4	...	73,941
Madras	857½	1,24,764	124	176	73	129	47	...	77	...	34,36,432
South Indian*	477½	81,844	78	88	63	55	...	...	...	...	...
Bombay, Baroda & Cen- tral India	417½	2,03,695	196	293	44	129	164	...	45	...	11,18,520
Great Indian Peninsula	1,278½	195,572	188	390	43	168	222	34	...	11,34,191	6,93,552
Oudh and Rohilkhand	542½	1,04,558	100	119	64	76	43	...	57	...	16,06,352
Sindh and Panjab	663½	1,72,977	166	232	64	119	84	...	83	...	24,61,508
										52,83,381	99,87,152
										52,83,381	52,83,381
										Net deficit	46,63,771
										Exchange—£	420,000

* System still incomplete.

"These results are approximate only because the receipts towards the close of the year are necessarily only estimated, and an analysis of accounts has not been made. But they are sufficiently accurate to show which of the undertakings are profitable, and to which of them attention must be directed to endeavour to foster traffic and produce better results for the future.

"There are two methods open for the purpose of producing better financial results on railways in India: the first by measures to promote traffic, the second by means of more economical working.

"These two methods, however, really must work in unison. Cheap working of railways will induce cheap freight-charges, and cheap freight-charges will undoubtedly promote traffic; but no economy of this nature can be true, if the efficiency of the railway is affected by the measures taken to introduce it.

"It is only necessary to glance at the table of expenses and receipts to observe that some of the most expensive and efficient lines in India pay the but at the same time the fact must not be lost sight of, that these lines 'reams of traffic into which the feeders run; and though expen-
Borments may be necessary in the one case, they become superfluous
Great Efficiency for the extent of traffic is an absolute need and real
Oudh railways.

Sindh, P
tion of traffic by the lowering of rates and fares within certain
'ance with the original railway contracts, in the hands of the

Railway Companies, and in some cases it is not always apparent that the interests of the Public and of the shareholders are for the time being indetical. The Government of India may be said to have a life interest in the railways, whilst the shareholders are tenants for a term only, and circumstances may occur which place reforms and reductions of rates in the light of too far distant benefits to recompense the present holders of the railway stock.

"In order to promote the most healthy discussion of all matters connected with railway administration in India, not only as regards the older Guaranteed Railways, but also for the benefit of the new State lines, a Railway Conference was convened during the past year, from which it was hoped substantial results would accrue. The extent of the calamity in Madras and Bombay rendered it necessary, however, for all railway men to be at their posts, and for a time this gathering has had to be postponed.

"I am pleased, however, to be able to report that one very important enquiry has been satisfactorily completed. I refer to the matter of military transport by rail. Enquiries have been conducted by Committees of Officers during the past cold seasons, in regard to the capacities of our stock and the arrangements provided on the Continent for the transport of sick and wounded, &c., have been reported on by an Officer who visited the Exhibition at Brussels in August last for this purpose.

"With this information before us it is hoped that steps may be shortly taken to give practical effect to the suggestions that have been offered, so that the full advantage of our railway-system may be realized in the assistance it will give to the Army at all times.

"The traffic, both passenger and goods, on lines in India, has had an upward tendency of late years, and which I will state in detail—

YEAR.	Mean miles of Railway open.	PASSENGER.		GOODS.		REMARKS.
		Passenger carried over one mile of Railway.	Average number of passenger per mean mile open.	Gross tons of goods booked.	Average tons per mean mile open.	
		Millions.				
1872	...	5,123	1,133½	221,291	Not obtained.	
1873	...	5,399	1,243½	230,277	4,016,191	744
1874	...	5,604	1,213½	216,607	5,135,998	916
1875	...	5,640	1,334½	236,639	4,472,802	795
1876	...	5,841	1,382½	236,275	5,766,526	986

"Reductions in fares and the increased comfort of travellers will doubtless induce larger traffic receipts, in the same manner that reduced freight rates and a liberal classification will bring about increased goods traffic; but these reforms must be dependent in a measure upon decreased expenses. Decreased working cost of railway is dependent upon many causes, but the chief agent in effecting economy, and one with which the Government of this country has greatly to do, is the cost of fuel.

"Of late the East Indian Railway coal yield at Karharbáli has greatly increased, and the expense of getting coal has decreased to perhaps a minimum of 5s. per ton. The Company has also reduced its carrying charge from one-fifth to one-sixth of a pie per maund per mile, and now the Bengal coal is carried as far north as Lahore, as far west as Jabalpur and Ajmer, and is used on the Oudh and Rohilkhund system of lines.

"It is not too much to say that the cost of coal limits, so far as railway carriage is concerned, the horizon of the paying export of the products of India.

"Cheap coal will render possible long inland carriage of Indian grains to the sea-ports far beyond sea export. The movement of products will produce return trade, and thus the question of the development of the Indian coal industry becomes one of national as well as of railway importance.

"The prime cost of getting coal at the pit's mouth affects the matter but little. Taking the present East Indian Railway ruling rates of 5s. a ton for

getting, and one-sixth of a pie per maund for carriage, it may be assumed that the cost of getting is equal to 100 miles of carriage only, and therefore to distribute coal cheaply throughout India, new coal measures in different parts of the land must be worked, and connecting lines of railway must be made.

"It is an imperative duty to foster this subject. A commencement has been made in the Nerbada Valley, and a coal line to the Warora Collieries has been opened during the past year, and the use of the coal from these fields is extending in Western India.

"But much remains to be done. Excellent coal has been found in Assam, which will afford a supply to Northern, and ultimately to North-Eastern, Bengal. Coal has been found in the valley of the Godáviri, which may, when connecting lines of railway have been made, afford a profitable supply to Madras and for the southern portion of the Great Indian Peninsula system of Railways.

"The manufacture of iron generally follows the discovery and use of coal in all countries, and India is not an exception to this rule. During the past year an Iron Manufacturing Company in Bengal has assumed a definite form, and good results have been obtained from experiments with ore in England. I am also in hope that we may be able to start iron-works at no distant date in connection with the coal of the Warda Valley.

"To railways this industry is as important almost as the discovery and cheap distribution of coal. Maintenance of works as well as original construction will be cheaply carried out, and Government, in giving aid to the Iron Manufacturing Company, has confidence that no truer principles of political economy can be exercised in India than those of supplying Indian wants from Indian markets.

"The cessation of all action by State agency in India for material progress and development is strongly advocated by certain eminent public men. The facts and figures I have given, are, My Lord, not exaggerated or cooked, and I think that they tend to show that the administration of these matters by the State has not been wholly mismanaged, and I venture to think that, compared with any number of similar enterprises undertaken solely by private agency and directed by the keenest self-interest, the result will not be given against the Public Works of India.

"Not many months ago I saw a very strong attack calling in question the construction of railways in Southern India, and asserting that it had been premature. It is true that they have not paid as yet the full guaranteed interest, but I venture to think that the part they are at this present moment playing in taking food to the famishing, and otherwise perishing millions of Southern India is, in money saving value alone, beyond its debt to the public Treasury of India for arrears, setting aside the preservation of human lives, a view it is possible the authors would not recognise.

Having described the material operations and the financial positions of the Public Works in India, I would ask, My Lord, to be permitted to say a few words in reference to those who are entrusted with the control and direction of those operations, the magnitude and variety of which can best be comprehended by the statement—dry and hard although from its very nature it must be which I have just made.

"Of the Officers more directly responsible to Government, I can only say, that I believe them trustworthy and in every way well qualified for their position. I am confident that no nation in the world possesses a body of more able, conscientious, and honourable workers than are the Engineers of India; and, My Lord, I should be deceiving myself and deceiving you if I did not here publicly record my thorough conviction that this body has claims to consideration at the hands of the Government and public of India.

"From the nature of its original composition and development, the present organization does not tend to timely retirement and to such a rapid flow of promotion as is desirable, and it is under this condition of things, with remedies deferred and incentives to work withheld, that the man is disheartened and his energy damped.

"It may be years before the disheartening effect of the prejudicial influences I have noticed is fully felt in the moral and discipline of such a zealous body

of men; but where the interests of the Government and country, and the very lives, I may say of the people, are dependent on the labours of this section of our Indian community no grievance should be allowed to remain.

“There is another subject on which much has been said and written, and that is the employment of Natives and the displacement of Europeans on our Railways. On this point I wish clearly to say that the views of the Government of India, if I understand them aright, are that, without discouraging Europeans, every encouragement will be given to the efficient training of Natives for all kinds of suitable work on our lines; not on the grounds of its being a possibly cheaper course—a matter of minor importance when safety of life or limb is at stake, but on the ground that this system will open up to the Natives of India a means by which they can gain strength and self-reliance, and may supplement, rather than supplant, Europeans.

“To show how large has been the field of fresh industrial occupation thus extended to the people of both races, I would, My Lord, call attention to the following facts:—At the end of last September, the length of our open lines aggregated some 6,600 miles. Without taking into consideration the number employed upon the lines under construction, there was engaged in the higher or general administration, such as Agency, Audit, Pay, Stores, Medical, &c., an establishment of 305 Europeans, 240 East Indians, and 8,059 Natives. On Traffic and Telegraphs there were 861 Europeans, 1,038 East Indians, and 22,759 Natives. In the Engineers’ Branch, 327 were Europeans, 227 East Indians, and 40,670 were Natives. In the Locomotive and Carriage Establishments, 1,539 Europeans, 1,215 East Indians, and 29,766 Natives. Thus making a total of 3,032 Europeans, 2,750 East Indians, and 1,01,251 Natives, and besides this nearly all of the 784 Railway Stations are in charge of educated Natives as Station Masters. These figures, My Lord, speak for themselves, and testify that on our Railways there is a large field open for the employment of Natives. The advantage to the bulk being in their constant intercourse during daily work with an industrious and pains-taking class of the European community, and to the more fairly educated in habits of order and independence which their duties of more or less responsibility are sure to inculcate.

“I have, I fear, gone into such detail that possibly the great characteristics and leading features of Indian Public Works, in which the State has assumed the position that in other countries is taken by private or associated enterprise, may have been lost; and I would venture before concluding the more especially to draw attention to them because this year the wave of our revenue receipts has topped over that of annual liabilities or expenditure for interest on total outlay. It is possible, doubtless, that this is due to exceptional circumstances, but I believe that even giving full credit for those circumstances, the next year and those following it will find these relations unchanged.

“In dealing with the Budget for Extraordinary Works the actual proposed outlay is not the point to be considered so much as the state of the revenue and liabilities.

“The practical mode of dealing with them is to compare the whole revenue of all remunerative works with the interest on all Extraordinary outlay.

“I will state more fully what I mean.

“The account stands thus—

	£
The real cost to the State of the Ordinary Public Works Department is	2,105,000
(This is an outlay not of a remunerative character.)	
To this should be added the grant from Imperial to Provincial funds for Public Works	1,400,000
Making the whole cost to the State of Public Works other than those which are meant to be remunerative	3,500,000
The interest annually payable on Guaranteed Capital is	4,710,000
The interest payable on the up-to-date capital of extraordinary works is	1,170,000
Total	5,880,000

“Against this there is a total revenue of £5,985,000 made up as under—

	£	£
Direct irrigation	5,000	5,985,000
Railway... ..	3,670,000	
Enhanced land in Madras, Bombay, North- Western Provinces, and Panjáb	2,310,000	
In Madras the Irrigation outlay is a Public Works charge, while virtually none of the Revenue due to Irrigation (which is undeniably enormous, at least £2,000,000 is cre- dited to Public Works), but to Land Revenue, leaving a gain to the State of	105,000	

“Even supposing that this gain did not exist, that the indirect revenue from Irrigation were less than what we claim it to be, this account shows that the annual outlay of the State for interest on the capital of Guaranteed Railways and of Extraordinary Works is met by the nett profits from our remunerative Public Works; and that, therefore, as matters stand at present, these remunerative works are no burden at all on the tax-payer, even though interest is included on outlay which has as yet given no returns, although these returns are certain yet to come.

“I think, then, we may assume that, whatever they may have been in the past, these works can hardly in any sense now be considered as burdens, conferring as they do incalculable benefits upon the country by increasing enormously its prospective wealth and prosperity. In fact, in the aggregate, they now meet all the annual liabilities we have incurred upon them.

“You have, My Lord, in Council, already conveyed to Colonel Dickens, the late Secretary of the Public Works Department, a public recognition of his services to the State. But I seize this occasion to acknowledge the great personal obligation I owe to him for the cordial aid and co-operation which he has afforded me, and which with his experience has lightened my labours in connection with the Public Works of India.”

His Honour THE LIEUTENANT-GOVERNOR OF BENGAL said, that the hon'ble member who had preceded him had remarked that any discussion on the general policy of the Financial Statement would be out of order, and that it was not permissible to discuss anything but the Bills before the Council without the consent of the President. This in his opinion was a misapprehension; for the Bills were the outcome of the Financial Statement, and therefore it was quite open to discuss the measures set forth without enquiring into the details of the Bills.

He had no remarks to make about the Bills in their present state, but he did wish to say that he had, in common with those who had preceded him listened to the statement with great interest, and he desired to join with them in congratulating the hon'ble gentleman in charge of the Financial Department on the frankness and clearness with which he had explained the position of Government. On the whole, the financial position of the country, though at first sight it might seem gloomy and discouraging, was not, he thought, altogether unsatisfactory. It seemed to be the case that, if India could only be secured against a recurrence of the calamities by which she was now so frequently visited, her ordinary revenue would amply meet her expenditure. But these visitations had now become so chronic, that it was absolutely necessary to take the probability of their recurrence into consideration in making a forecast of the finance of coming years; and he thought therefore, that the Government of India had followed the only course open to it in determining to permanently increase its revenue to the extent necessary to meet these extraordinary calls without periodically upsetting the whole of the financial arrangements of the country. Nothing was so bad for the country as the doubt and uncertainty arising from a state of things under which works sanctioned, and actually in course of construction, were suddenly stopped in the middle of the year, and the whole machinery of administration thrown out of gear by the necessity for retrenchment, in consequence of some unforeseen call upon Government.

The necessities of the Government of India at the present time had, as his hon'ble friend had explained, thrown upon the Local Governments, and especially upon the Government of Bengal, very heavy burdens; but entirely

recognising as an undeniable fact that Government had no alternative between perpetual financial difficulty, and a permanent increase of its revenues, and their re-establishment on a safe basis, he readily agreed to accept his share of the responsibility of raising an increased revenue, and felt sure that the urgency of the case would be fully recognised by the people of Bengal, and that he would receive the cordial co-operation of the officers of the Bengal Government, and of the people themselves, in giving effect to the measures involved in the change of system which had been explained to the Council. Bengal had, in her own calamity, much reason to be thankful for the ready aid offered to her in the time of her need, and would not grudge her contribution in aid of other provinces now suffering from a similar trouble.

If, in the face of the frequently recurring casualties which might at any time arise, and which might take the shape of drought, floods, war or other national calamity, the Government was to keep its head above water at all, he believed that the transfer of its liabilities for the interest on extraordinary works to the provinces for whose benefit, protection, or development these works had been undertaken, was the best and most appropriate solution of the question. He believed that the principle of making each province pay for its own extraordinary works of the third of the classes into which his hon'ble friend had divided works of this description, was thoroughly sound, and he was confident that it would at once secure greater caution in the adoption of schemes intended to be reproductive, and at the same time give a great impetus to the prosecution of really sound and substantial schemes. It would be a great security to the Local Government in working out large schemes, to feel that each province practically had the matter in its own hands, and that works once undertaken and progressing would not be liable to be stopped in consequence of financial difficulty in a totally different part of the country. He took it for granted that it was intended that, if a provincial Government showed that it was able to meet the interest on its loans, there would be no difficulty made in assigning to it such money as it wanted for approved schemes, so far as the borrowing powers of the Government would permit.

He entirely agreed in the principle which his hon'ble friend had enunciated in respect to the propriety of making the maintenance of such works as irrigation and canals a charge upon the people for whose direct and immediate benefit they were constructed, so far as this could be done. If they were to keep up a supply of water for the use of the people of particular parts of the country specially exposed to droughts, and to make this water always available to them to use or leave unused, as the seasons may make it convenient to them, they must make them pay for the certainty of a sufficient quantity of water for agricultural purposes which was thus assured to them. They could not close their works and dismiss their establishments in wet years, and open them again in dry years. The works must be permanently constructed on a scale involving the expenditure of a large amount of capital, and a large establishment must always be maintained to protect and preserve the works, and meet any demands for water that are made on them. Obviously the only proper way of meeting the interest on the capital thus locked up, and the expenses of this establishment, was by levying a fixed but moderate rate on all lands protected and secured from risk by the works, and to which they were prepared to turn on water whenever it was demanded. Ordinarily, no doubt, the whole cost of such works should fall upon that part of the country only which was benefited by it. Unfortunately, Bengal was peculiarly situated in respect to some of her irrigation-works. It inherited two great schemes, the Orissa and Soane schemes, from a private Company. The whole works were on an extravagant and wasteful scale, and though in the course of a few years the Soane scheme might, with a compulsory rate, be made to pay its own way, the Orissa works never could pay. Under these peculiar circumstances they could not saddle the people of the districts concerned with the whole cost of the works, but must make them pay all that they could afford to pay, and recover the rest from the province at large. Though it was unfair that the people of one province should pay for works of this class constructed in another province, the same objection did not exist to the imposition of a general rate on a province in aid of certain districts

of the same province. The whole province must be treated as a unit, and it was no doubt true that a whole province benefited by anything which was done to improve a large portion of it. If it were not for these irrigation-works, the time might well come again, as it had come before, when the whole of Bengal might be called upon to suffer for the misfortunes of Orissa and Bihár; and therefore the whole of Bengal may very well be called upon to pay a light tax as an insurance against such risk.

The case of railways was different to that of canals, and he did not go quite so far here as his hon'ble friend seemed disposed to do. He did not think that railways should be a charge upon the districts through which they passed. In the first place, no railways should be undertaken by Local Governments, unless they would pay directly in some form or another, and for the future there should be no permanent charges on the revenue for the outlay incurred on their account. But if the liability for paying the first cost of a railway were thrown upon the district through which it ran, no railways would in future be made. The people of a district through which a railway passed benefited, no doubt, by the rise in prices which resulted from improved facilities of communication with large markets; but the people of the province at large also gained, and might be held liable for their share of the guarantee of interest. For instance, the new Northern Bengal Railway would bring into market the tobacco of Rungpore at a much lower cost than had hitherto been incurred for boats and cart-carriage. Part of the benefit of this would go to the producer in the shape of the increase of price which the dealers would be able to give under the stimulus of competition; but part would go to the consumers who would have their tobacco laid down at a lower cost. Therefore, while he would enforce as much as possible the liability of districts for irrigation-works and works of direct benefit on the land, he would make the whole province pay the cost of making railways and works of indirect benefit. The onus of expenditure which the Government of India had shifted from its own shoulders to those of Bengal, amounted to twenty-seven and-a-half lakhs of rupees; but he hoped, as his hon'ble friend had said, that he should be able to meet the new liabilities he had thus incurred without any very heavy taxation, and to avoid altogether any new form or method of taxation.

He had to express on his own behalf, and on behalf of Local Governments generally, his acknowledgments for the proof of confidence which had been shown in them in the increased powers of control and administration now conferred on them. He believed that the result of giving Local Governments a more immediate interest in the financial working of the various departments of State would lead to a better understanding between the Supreme and subordinate Governments.

So far it had been a pleasure to him to feel that the views of his hon'ble friend were entirely in accordance with his own. He must now glance at certain expressions of opinion on his part in which he found himself entirely unable to concur. They were, it was true, as he had just explained, only expressions of his own opinion, for they related to no immediate financial results; and it might therefore be thought that it would be better to let them pass. But though they did not take any practical form as applied to the present year's estimates, they did seem to contain a threat as to the future, and at first appeared to pledge the Governor General in Council to a course of action which, he thought, in the interests of the Government as well as the public, called for some explanation. And this explanation had now been given, and with a generosity and sincerity which reflected the highest credit on his hon'ble friend's feelings. He might, he felt sure, take upon himself to say that the explanation of his hon'ble friend would be considered entirely satisfactory by all those who took a different view of the question at issue from his hon'ble friend. He alluded he need hardly say, to his friend's remarks on the abolition of customs-duties, and of cotton-duties especially.

His hon'ble friend had commenced by telling them that their ordinary revenues were just sufficient to meet all ordinary and normal charges, but that it was absolutely necessary to establish a sufficient margin to enable the Government to meet with certainty, not only the charges for famine-relief, but, to quote his own words, "for other demands which cannot be foreseen, but which

will inevitably occur." And to enable the Government to do this, it was explained that very heavy liabilities had been thrown upon the Governments of Bengal and the North-Western Provinces, which those Governments, recognising the emergency of the case, had agreed to bear. Believing that the absolute necessities of the State were, as he had already said, the sole cause of the obligations imposed upon Bengal, he had most loyally accepted that obligation. He need hardly say that he had at first been much startled to find that, though their necessities were as great as his hon'ble friend had represented them to be, he had not hesitated to volunteer an apparent pledge that cotton-duties, representing more than three-quarters of a million, should be abolished on the first opportunity, and had proceeded to suggest a further intention eventually to abolish all customs-duties; that was to say, to give up indirect revenue, regarding which not a single murmur or complaint had been heard, amounting to two-and-a-half millions, and of course, as he presumed, to impose in its place direct taxation to a similar amount; for there was no prospect whatever held out to them of such a reduction of expenditure as would place them in a position to dispense with this enormous sum.

Of course he could not say at the time when his hon'ble friend's statement was made, how far this pledge and this policy were the personal pledge and policy of his hon'ble friend, and an indication of his individual resolve to advance, with all the persistence and ability of which he was the master, a theory of ideal taxation which had possessed his mind, as he was aware, for many years; or how far they were the outcome of a deliberate conclusion of the entire Government. He was delighted to find from the further explanation given to-day, that the former hypothesis was the correct one; for he did not hesitate to say that immense mischief would have been done by an announcement that, while pressing the Local Government to tax the pettiest trader in the North-Western Provinces and throw increased burdens on the peasantry of Bengal, the Government of India had formed a deliberate conception of a financial policy which was not only to comply with the demands of the Manchester mill-owners, but which was to lead up to an eventual abolition of the customs-duties—in fact, to remit the one single form of taxation which pressed upon European residents in India. He was glad now to find that Government had no such intention, and that his hon'ble friend fully recognised the impossibility of taking off any duties so long as they would have to be replaced by fresh taxation.

For his own part THE LIEUTENANT-GOVERNOR believed that there was no form of taxation so sound, so productive, and so little open to objection as the indirect revenue raised by customs-duties. His hon'ble friend had alluded to the huge establishment which the collection of customs involved, and had spoken as if he thought it an irritating and wasteful form of taxation. But there was the simple fact that in the Custom-house of Calcutta alone, a revenue of three-and-a-half millions was collected at a cost of less than three per cent. It was paid by the bulk of the people without their being brought into contact with the tax-collector, and without their even knowing that any tax was raised. The peculiar fitness of customs-duties as a main feature of Indian revenue had most admirably been described by the late Viceroy in his speech on the Tariff Bill in 1875. Lord Northbrook's arguments he believed to be quite unanswerable; at all events, no one had ever attempted to answer them up to the present time.

If the rate of duty was injurious to any particular article of trade, by all means let that be rectified; but he believed that it would be extremely difficult to show that the rate now levied on any article was having a mischievous effect on trade. Of all the customs-duties, the one which was perhaps the least open to objection in practical application, as it appeared to many thinking-men, was the duty on the finer qualities of cotton-goods. It was levied on an article of general use, and was therefore productive; and it was so adjusted that the rich paid a higher rate than the poor. The poor man bought his cheap cloth and paid a low duty; the rich man bought a better cloth and paid a higher duty. He could not regret too much that the question of the conflicting interests of England and India had been brought into the question. It was not, he agreed with his hon'ble friend, a question of different interests; for the only

point of view from which he believed the Government of India could look at the matter was from a purely financial point of view. He hoped the day was far distant when such questions should in this country, as unfortunately had been the case in other countries, be decided in favour of the class or interest, which made the most noise, and could make itself most heard and felt. What had to be considered was this, are these duties financially sound, or unsound? Can the revenue which they produce be spared or not? If they were financially unsound, they defeated their own object, and would fail to bring in the revenue for which they were imposed. If they were not financially unsound, if they continued to bring in more than the revenue they were calculated to bring in, then it was wrong from a financial point of view to modify or remove them so long as revenue was required, or any more objectionable mode of taxation existed, which was certainly the case at present. He was of opinion that sufficient reason had not been given for believing that these duties were financially unsound from this point of view; and it was assuredly the case that Government was not in the position of having more money than it knew what to do with; and therefore it seemed to him impossible for the Government to pledge itself to any course of action in respect to customs-duties.

His hon'ble friend had said that it was seldom wise for Government to go out of its way to pledge itself to measures which it intended to adopt hereafter, and which might turn out after all to be impracticable. In this he thought they would all agree with him, and he firmly believed that this principle had never been more applicable and cogent than in the case of these duties. Though he differed from his hon'ble friend on this point, he could quite understand that he had been carried away into saying things which on fuller reflection he would have left unsaid. This theory of what he dared say he called absolutely free trade, had long been the prevailing idea of his hon'ble friend's mind. He had long been its supporter in India, and he spoke, he knew from honest conviction, and he had no doubt that he was quite unable to understand how anyone of ordinary intelligence could fail to agree with him. But as a matter of fact, he would find that very few did agree with him; and if he found himself in advance of the age, he must be content to adapt his speed to that of the people whom he had to convince, and to satisfy them that he was working for their good.

He had not ventured on these remarks in any hostile spirit, or desire to raise opposition. No doubt the remarks of his hon'ble friend on Thursday had had the effect of creating considerable alarm until they had been explained away by his remarks of to-day. His hon'ble friend had stated last week his belief that an honest Government obtained great advantage from a full examination and discussion of its proposed measures, and the **LIEUTENANT-GOVERNOR** only hoped that the result of this discussion would be to make him reflect very seriously before he attempted to carry his theories into effect. He was glad to have heard from him to-day his repudiation of any desire to sacrifice India's interests to those of any other country, and he was sure that they might feel that the Government of India looked upon the interests of the people of India as its first duty, and that no one really took that view more strongly than his hon'ble friend, whatever he might say in advocating a favourite theory.

The Hon'ble **SIR JOHN STRACHEY** said—"My Lord: In discussing a subject of so much difficulty and complexity as that of our Indian finances, there must, necessarily, be many differences of opinion in matters of detail; but, speaking generally, I think I may congratulate the Government and myself on finding that the principles which I have endeavoured to explain to the Council as those by which our financial policy ought to be governed, have met with so much approval.

"There is, I think, only one point on which I need now take up the time of the Council. This is a point which was specially noticed by my hon'ble friends **Mr. Bullen-Smith** and **Mr. Cowie**, the former of whom, I regret to think, will not much longer take part in our deliberations. If anything could have added to that regret, it would have been the speech which we have heard from him today. Whether he agrees with us or not I always feel that the Government

is fortunate in having as its critic a man of such conspicuous ability and unfailing courtesy, and I feel that we are especially fortunate when, as he has done today, he tells us that he generally approves the principles of our policy.

"No one is more conscious than I am of the weak points in my own Statement, and I have no wish to conceal or deny them. I agree with my hon'ble friends, Mr. Bullen Smith and Mr. Cowie, that one of those weak points is the indefinite character of the announcements which I made on behalf of the Government about the loan operations of the year, and the bills upon the Government of India which will be sold in London; but it is a weak point for which neither this Government nor the Secretary of State is responsible, but which arises from the peculiar circumstances of the case.

"The first great cause of this indefiniteness is the condition that the assent of Parliament must be had before any money can be borrowed in England on behalf of India. Whenever the Secretary of State has no statutory powers of borrowing unused, and this is his present position, it is impossible for him to assume that Parliament will see fit to grant any additional powers for which he may ask, still less can he proclaim to the world beforehand his assumption that Parliament will sanction arrangements which it has not discussed, or even heard of, and which he and the Government of India have settled as if they were an independent power. The English Parliament, wisely jealous of its own authority, is not a body that can be so treated.

"Moreover, the question of borrowing money in England is by no means a question important only to our Indian finances; it is also a political question of the highest moment affecting Imperial interests over which it is the special duty of Parliament to watch.

"Even if this difficulty did not exist, it would be hardly possible, under present circumstances, to pledge the Secretary of State to sell any specified quantity of bills at specified times. Fluctuations in the price of silver might be so serious and might occur so rapidly that it might be in the highest degree inconvenient to carry out the pledges which had been given. It is so impossible to foresee even the near future that, as the Council will have observed, in speaking even of the sales of bills during the next two months, I could do no more than announce the present intentions of the Secretary of State. Even during the last few days we have had strong illustrations of the serious disturbances to which the rates of exchange are now liable. If we were to attempt to foresee the course of these disturbances, and were to make a definite programme to be adhered to under all circumstances, on the assumption that our forecast would turn out correct, I fear that it might turn out that we had given the strongest possible proof of our own incompetency.

"All that I can say is, that my announcements were made after communication with the Secretary of State, and that I cannot doubt that Her Majesty's Government will give great weight to those announcements made on behalf of the Government of India. I will add that it is the desire of the Government of India to conceal none of the demands which it has to make upon the money-market. We know the magnitude of the interests affected by our operations, and recognise our duty to give the earliest and most complete information regarding them; and we entertain no doubt that a policy of perfect frankness is required in the interests as much of the State, as of the influential classes whose business operations must be affected by our transactions.

"It is the object of the Government, *first*, to borrow altogether as little as possible;—*secondly*, when it must borrow, to obtain as much as possible in India, so as to avoid incurring obligations defined by a gold standard. There may be differences of opinion as to how this object may be most effectually attained, and as to the extent of the sacrifices to which it may be expedient for the State to submit in order that its obligations may be measured by its own standard of value.

"I desire to say, further, that the Government of India is quite alive to the fact that the interests of the State in this matter are identical with those of its creditors, and that, whatever may be our measures for the supply of the treasury during the year, the interests of the proprietors of our existing securities will be carefully considered."

His Excellency THE PRESIDENT said :—"There can, I think, be no doubt that not only the various views and opinions to which we have listened in the course of this afternoon, but also the freedom and ability with which they have been expressed, will give great value to the record of our proceedings; and I certainly share most strongly the opinion expressed by my hon'ble friend, Sir John Strachey, that we are all of us specially indebted to our hon'ble friend, Mr. Bullen-Smith, for the excellent speech to which I for one listened, I may say, with the liveliest admiration. But the attention of hon'ble members has now been occupied for almost five hours, and patience has its limits. At any rate I am not so inhuman as to trespass further at this late hour upon the patience of the Council, which is probably well nigh exhausted; what little I have to say on the general subject of our financial policy, and more particularly with reference to the financial measures that have been placed before this Council, I propose to reserve till our meeting next Wednesday, when I trust it will be in our power to pass those measures into law. But perhaps I ought not to omit altogether the opportunity now offered me to corroborate, on behalf of the Government of India, the explanatory statement made to-day by my hon'ble friend the Member in charge of the Financial Department of this Government.

"That statement was made in reference to the impression brought to our notice by my hon'ble friend, Mr. Colvin, in introducing the Bills which will to-day be referred to a Select Committee. Rumours of such an impression had already reached our ears; which were thus enabled to detect the echo of them in the observations of my hon'ble friend, the Mahārājā Narendā Krishna. But those echoes, though not faintly repeated, died away at last, and I hope for ever, in the speech of my hon'ble friend the Lieutenant-Governor of Bengal.

"So far as I understand the character of that impression, it is this, that the Government of India desires or intends—if it be not indeed in a covert conspiracy—to tax the people of Bengal, of Oudh and the North-Western Provinces, in order to enable us to purge our customs-tariff, by removing from it the cotton-duties; nay, more, to render the whole tariff 'fine by degrees, and beautifully less,' till we get rid of it altogether.

"I think then, that I ought to repeat to the Council, with whatever authority my voice can give to it, the assurance already given by my hon'ble friend, Sir John Strachey, that we neither desire, nor intend, nor have we ever desired or intended, anything of the kind. What we do desire and intend is embodied in the two very simple bills introduced by my hon'ble friend Mr. Colvin; and it amounts to no more than this: we desire to give the earliest possible practical effect, an effect which shall operate as widely as it is at present in our power to extend its operation, to the principle that Local Governments shall be responsible, financially, for the maintenance and management of works which are of special local utility.

"Now between this principle and any part of the Customs-tariff there is no connection whatever that I am able to recognise. I do not wish to make at the present moment any observations on the cotton-duties, further than this, that if the present import-duties on cotton-goods were not five, but fifty per cent.; if the whole of our sea-customs revenue amounted to many more millions than it amounts to now, the principle to which I have referred would still, in our sincere belief, be an equally salutary principle, and its application would be equally necessary to place our finances in a sounder and better position than they now hold.

"It is undoubtedly true that the Secretary of State has intimated to us in the Despatch which was quoted by my hon'ble friend, Sir John Strachey, that however urgent might be the purgation of our tariff by the removal or gradual reduction of those duties, still, in his opinion, such a measure ought not to be contemplated by means of increased direct taxation for the purpose of effecting it. But before the Secretary of State had expressed that opinion, it had been expressed by the Government of India itself, and the Government of India which then expressed that opinion still holds it and still desires to act on it.

“There is I think no occasion for me to make any further observations on that particular subject at the present moment, and I will therefore now merely put to the Council the motion which is before it.”

The Motion was put and agreed to.

NORTH WESTERN PROVINCES LICENSE BILL.

The Hon'ble MR. COLVIN, also moved that the Bill for the licensing of certain trades and dealings in the North-Western Provinces be referred to a Select Committee.

The Motion was put and agreed to.

MILITARY LUNATICS BILL.

Major General the Hon'ble SIR E. B. JOHNSON moved that the Bill to facilitate the admission of Military Lunatics into Asylums, be published in the *Gazette of India* in English, and in the Local Gazettes in English and in such other languages as the Local Government directs.

The Motion was put and agreed to.

The following Select Committees were named :—

On the Bill to amend the law relating to assignments from the General Provincial Fund established under the North-Western Provinces Local Rates Act, 1871—The Hon'ble Sir Arthur Hobhouse, the Hon'ble Sir J. Strachey and the Hon'ble Messrs. Cowie, Bullen-Smith and Cockerell and the Mover.

On the Bill for the licensing of certain trades and dealings in the North-Western Provinces—The Hon'ble Sir Arthur Hobhouse, the Hon'ble Sir J. Strachey and the Hon'ble Messrs. Cowie, Bullen Smith and Cockerell and the Mover.

The Council adjourned to Wednesday, the 28th March 1877.

WHITLEY STOKES,

GAZETTE, }
The 21st March 1877. A

Secretary to the Government of India,
Legislative Department.

GOVERNMENT OF INDIA.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS
FOR THE WEEK ENDING THE 29th MARCH 1877.

GENERAL REMARKS.—In Madras during the week three inches of rain fell in Madura, and about half an inch in Kistna, North Arcot, and Salem; slight rain is also reported from Coimbatore and Tinnevely. No rain fell in any of the other districts. There is no improvement in general prospects. The number of relief labourers amounted to 663,266, being rather more than five thousand in excess of the numbers employed on relief works during the preceding week. The numbers fell off in Kurnool, Bellary, and Nellore, but increased in Cuddapah, North Arcot, Salem, and Madura. In Bellary the decrease is reported at nearly 21,000, and is assigned to cholera, to the return of people to their villages for the festival of the new year, and to the stoppage of some works. Upwards of 99,000 people were gratuitously fed by the State during the week. In Mysore showers of rain have fallen at Bangalore and in Coorg. About 70,000 persons were employed on relief works, and 46,861 gratuitously fed. There has been no rain in Bombay, and there is no change in the condition of the distressed districts. From the Central Provinces a little rain is reported in five districts, Chhindwara, Jubbulpore, Seoni, Mandla, and Wardha. The *rabi* crops have been generally reaped with a good outturn, and are being threshed. Prospects are good. In Central India also crops are excellent, though damaged by hail in some places. In Rajputana prospects are generally very good, except in Ulwar, where much damage has been done by hail. In the Punjab the prospects of the harvest are good generally. In Peshawur, where alone was there any rain in the week, the crops have been damaged by hail. No rain has fallen in the North-Western Provinces and Oudh, except a little at Agra: prospects appear generally favourable. In Bengal slight rain has fallen in some districts. The *rabi* crops are being harvested with a good outturn, and spring sowings are being made under favourable conditions. Reports are good from Burma.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras— Kistna (Mar. 26th)	0.50 in Sat- tenapalli; none elsewhere; 1.92 reported on the 28th.	Dry crops under wells good; prices slightly risen in seven taluks; cholera—seizures 422, deaths 200; fever abating; small-pox and cattle disease continue; markets fairly supplied; prices, seers of 80 rupees weight—rice 8.68, <i>cholum</i> 11.40, <i>raggi</i> 13.08, <i>cumboo</i> 11.20; imports by sea—rice 2.23 tons, by land—rice 58.47 tons, <i>cholum</i> 39.06, <i>raggi</i> 7.81, <i>cumboo</i> 7.81; number on relief works 3,299; number gratuitously fed by Government 380, by people, 1,043.
Kurnool („ 29th)	Nil	White <i>cholum</i> and paddy under irrigation; canal in fair condition in Ramalkota taluk; the limited extent of crops under wells in other taluks in pretty fair state; cholera, small-pox and fever prevalent; cattle reported to be dying for want of fodder; cholera—seizures 103, deaths 87; 2nd sort rice per rupee in Imperial seers 7.09, <i>cholum</i> 8.74, <i>cumboo</i> 9.33, <i>raggi</i> 9.98; number on relief works 187,383, gratuitously relieved 39,532, including children under 7 years of age; import of Government grain 155 tons in the district; private import 197 tons; the rise in the prices of rice and <i>cholum</i> was chiefly in Markapur and Ramalkota taluks, respectively, and is due to decrease in import; the falling off in numbers is chiefly in the Cumbum division, and is attributed to concentration of labour, enforcement of task-work, and hot weather; coolie emigration to East Coast Canal is progressing.
Cuddapah („ 27th)	Nil	Average prices, seers per rupee—2nd sort rice 7.87, <i>cholum</i> 9.03, <i>raggi</i> 11.2, <i>cumboo</i> 8.76; people on relief works 74,824, gratuitously fed 3,249; 657 deaths from cholera; 995 cattle have died from want of fodder and disease.
Bellary („ 27th)	Nil	Average prices—2nd sort rice 7.38, <i>cholum</i> , or great millet, 9.06, Jubbulpore <i>cholum</i> at Bellary 11.33, <i>raggi</i> , or lesser millet, 9.26, <i>cumboo</i> 8.7 seers of 80 <i>talas</i> ; imports, 4,320 tons, accounts from two railway stations only; 209,349 persons on relief works; decrease as compared with revised return for previous week 20,807; this is owing to the prevalence of cholera, and to some coolies having gone to their villages on account of the new year's festival, and some roads having been stopped in the Alur taluk; 33,472 persons gratuitously fed; increase as compared with revised return for previous week 7,774; this is chiefly owing to the payment of wages at 3 pies to the children of coolies on relief works; 3,549 persons gratuitously fed by private charity aided by Government grant; cholera in all 15 taluks; small-pox and fever also prevalent; cattle still perishing from want of fodder; supply of drinking water diminishing, but not exhausted.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—continued.		
Nellore (Mar. 27th)	<i>Nil</i>	Average prices—2nd sort rice 7'88 seers per rupee, <i>cholum</i> 10'3, <i>raggi</i> 11'94, <i>cumboo</i> 9'80; imports on behalf of Government,—rice 2½ tons, on behalf of merchants, 170 tons, <i>raggi</i> 1 cwt.; number on relief works, including canal coolies, 67,045; the decrease is the result of reduced wages, task-work, and non-employment of able-bodied people who are on their way to the canal, or who refuse to go there; number fed gratuitously 6,969; health of man—141 deaths from cholera against 230 last week, several deaths from other diseases; cholera, small-pox, dysentery and fever prevail throughout the district; small-pox very prevalent in Vellore, Gudur and Udayagiri taluks; most wells dried up; slight earthquake at Adimurtipuram, in Kavali taluk, at 9 o'clock on the morning of the 23rd, lasting for a few seconds, and passing from west to east; prospects of cattle bad, a large number have perished for want of fodder.
Chingleput („ 27th)	...	Average prices—second sort rice 9'59, <i>raggi</i> 11'03, <i>cumboo</i> 10'78, <i>cholum</i> 10'78; imports of grain—197'31 tons; number on relief works 10,259; number gratuitously fed 6,011; pasture nil; water very scarce; cholera, fever, and small-pox prevail.
North Arcot („ 27th)	Average of 2 stations. 0'53	Average prices in Government seers—2nd sort rice per rupee 8'4, <i>cholum</i> 10'1, <i>raggi</i> 10'1, <i>cumboo</i> 8'7, wheat 5'9; relief work coolies 23,245; persons gratuitously fed 2,089; health of man, cholera still prevalent, fever and small-pox in some places; health of cattle, pasture scarce, cattle dying of starvation in some parts.
South Arcot („ 27th)	...	Rice second sort 9½ seers, <i>cumboo</i> 11½, <i>raggi</i> 12, <i>cholum</i> 13½; grain imports nil; number employed in head assistant's division 1,071; report not received from Deputy Collector, Tahsildars and Deputy Tahsildar Superintendents; cholera deaths reported 204 out of 273 seizures; cattle disease in some villages; pasture and water deficient.
Salem („ 27th)	0'44	Prices of grain, seers of 80 tolas—rice 7½, <i>raggi</i> 9½, <i>cumboo</i> 8½, <i>cholum</i> 9½; import of all grains 1,550; number on relief works 50,280; number gratuitously fed 3,440; ditto private 380; health—cholera in all taluks.
Coimbatore („ 27th)	Callyal 20; in Sattiamangalum 9; Villages 1; Anamallay and adjacent villages of Pollachy a good fall.	Prices nearly stationary; rice second sort 7'87, <i>cholum</i> 9'29, <i>raggi</i> 9'86, <i>cumboo</i> 10'48; imports estimated—rice 663 tons, other grains 201; cholera prevalent in all taluks, attacks 714, deaths 503; cattle poor, fodder and water scarce, no cultivation except to a small extent in Palladam taluk and under wells; on relief works 24,480, gratuitously fed 2,291; no apparent change in the appearance of coolies.
Tanjore („ 27th)	<i>Nil</i>	Prices—rice 9½ seers, <i>raggi</i> 11½, <i>cumboo</i> 10½, <i>cholum</i> 11; imports, rice 528 tons, other grains 80; relief works none; deaths from cholera 211; cattle healthy and fodder available.
Madura („ 28th)	At Pariacolum 3.	Rice 8½ seers per rupee, <i>cholum</i> 10, <i>raggi</i> 10½, <i>cumboo</i> 11½; imports—rice 1,102 tons, other grains 76; number on relief works, 9,590; charitable relief, 1,263; public health generally good, but cholera and small-pox prevailing still; total deaths 447; some wandering country people emigrate to other places; cattle doing poorly; pasture and water scarce; cattle disease in Madura and Tirumangalum taluks.
Trichinopoly („ 28th)	<i>Nil</i>	Second sort rice 8 seers, <i>cholum</i> 16½, <i>raggi</i> 10½, <i>cumboo</i> 10½; imports of grain for week ending Saturday 100 tons; no relief work; gratuitously fed on 24th instant by public subscription 1,337; cholera 263 attacks 130 deaths; small-pox 390 seizures, 40 deaths; pasture scanty; cattle disease slight in Udayapalayam taluk and Turayur division; cattle elsewhere healthy.
Tinnevely („ 27th)	...	Slight rain in four taluks; improvement in pasture and supply of drinking water; import of grain—rice 1,185, <i>cholum</i> 4, and <i>cumboo</i> 209 tons; number on relief works, 2,441; number gratuitously fed, 417; rest same as last week; increase in number on relief works owing to return of emigrants.
Malabar („ 27th)	<i>Nil</i>	Markets well supplied; imports by sea and land—rice 5,465, <i>raggi</i> 275, <i>cholum</i> 706 tons; exports—rice 1,946, <i>raggi</i> 382 tons; prices of rice slightly fallen in Ponani and Kottayam; slight rise in Kurumkanad, elsewhere stationary, highest 7½ Indian seers in Wynad, lowest 10½ in Calicut, average 9½ Indian seers per rupee; <i>raggi</i> 11½ Indian seers per rupee in Wynad, average elsewhere 13½ Indian seers; small-pox in eight taluks, cholera in five; deaths from latter 102; cattle healthy; pasture failing except Cochin; 1,196 coolies on Kolathur roads.
Bombay—(Mar. 29th)		
Sind (Mar. 28th).		
Kurrachee ...	...	River at Kotri on 19th, 5 feet 4 inches, being 1 inch more than last year; freshet from Gaj on 12th filling all tanks and watering much ground for cultivation; hail on 12th and 13th did a little damage to crops; 34 cases of small-pox still in Kurrachee; 2 fresh ones on 18th; measles in Kohistan; weather cloudy and cool.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—continued.		
Shikárpur ...	...	Wheat being reaped; <i>rabi</i> outturn good; small-pox in Shikárpur, Sukkur and Rohri Divisions; measles in 5; cattle disease in 7 talukas; river high for time of year.
Hyderabad ...	...	<i>Rabi</i> reaping going on; canal clearances resumed; weather cloudy and sultry; blight in wheat in parts of Kandwa taluka; elsewhere crops fine; cattle disease prevalent; small-pox continues, type not virulent.
Upper Sind Frontier ...	...	Weather fair; some <i>rabi</i> crops being reaped; no change in others.
<i>Gowárat (Mar. 28th).</i>		
Ahmedabad ...	...	Weather cloudy and close.
Kaira ...	...	No change.
Surat ...	...	No change.
Broach ...	...	No change.
<i>Khandesh and Násik (Mar. 28th).</i>		
Khandesh ...	...	Small-pox continues; no change in the state of the weather.
Násik ...	...	No change.
<i>Konkan (Mar. 28th).</i>		
Tanna ...	...	Land under preparation for next monsoon crops; small-pox in 4 talukas.
<i>Deccan (Mar. 28th).</i>		
Poona ...	...	Cholera throughout Collectorate, except Khed, Sirur and Junnar talukas; cattle disease in Haveli.
Ahmednagar ...	...	Cholera in two talukas; cases 13, deaths 13.
Sholapur ...	...	No change.
Satara ...	...	73 deaths from cholera; small-pox in two talukas.
<i>Southern Mahratta Country (Mar. 28th).</i>		
Belgaum ...	...	314 deaths from cholera.
Dharwar ...	...	802 deaths from cholera; cattle disease in Nawalgund taluka.
Kanara ...	...	Cholera prevalent; 84 deaths.
Kalédgi ...	...	Cholera continues; 72 deaths in 4 talukas.
<i>Kattywar and Gackwar's Territory (Mar. 28th).</i>		
Rajkot ...	...	Small-pox in Nawanager and Kotrasungaiar; whooping cough in Rajkot; weather hot.
Wadhwan ...	...	No change, except small-pox in Limri taluka.
Baroda ...	...	No change.
		<i>General Remarks.</i> —Small-pox in Sind, Khandesh, Tanna, Satara and part of Kattywar; cholera continues in Deccan and Southern Mahratta Country; no change in famine districts.
Bengal—		
Chittagong ...	54	Weather seasonably warm, with southwest monsoons; the cold-weather crops are thriving; tobacco is being cut; <i>pania aous</i> is progressing in some parts, while the seed is being sown in others; cholera is reduced to a very few cases; small-pox reported from the Sudder station.
Noakholly ...	Nil	Weather, mornings foggy and cool; midday temperature has been higher than that of the previous week; high winds since the evening of the 21st instant; pulses, chillies, &c., are progressing fairly; ploughing for the early rice is going on actively everywhere; cholera has abated considerably throughout the district, except in the low parts of the Begumgunge station, Dalal Bazar, and Baumnee.
Chittagong Hill Tracts...	Nil	Weather hot at noon; pleasant mornings; the hill people are still cutting their <i>jooms</i> ; the tobacco plants are thriving well; cholera is prevalent.
Hill Tipperah ...	75	Weather generally cloudy; with occasional rain and storm; the prospects of the crops are satisfactory, except those of poppy, which is said to have been damaged by the rains.
Backergunge ...	03	Weather fine; the prospects of the crops are good; cholera and fever are reported, but not in a bad form, from thanas Backergunge, Mendigunge, Gournadi, Boramuddin and Matharia; the health of the rest of the district is good; the cattle are reported healthy everywhere.
Furreedpore ...	24	Weather occasionally cloudy; the heat is rapidly increasing; the prospects of the crops are satisfactory; health is good.
	38 at Madaripore.	
Dacca ...	146	Weather very cool and cloudy; state of the crops is very favourable.
Mymensingh ...	02	Weather cloudy and unsettled; state and prospects of the crops are favourable.
Tipperah ...	225	Weather stormy during the latter part of the week; a good deal of rain fell on the 21st instant; the spring rice is the only crop of importance now on the ground, and it is getting on well.
24. Pergunnahs ...	02	Weather warm and seasonable; no crops on the ground; public health is generally good; five cholera cases reported from Diamond Harbour.
Jessore ...	03	Weather hot, clear, dry and windy; the cold-weather crops are gathered in; the prospects of other crops are good.
Nudda ...	Nil	Weather generally close and hot; slight and partial rain fell on the night of the 16th instant; the small quantity of the cold-weather crops now remaining on the ground is promising; indigo and sugar-cane are fair.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—continued.		
Moorshedabad	<i>Nil</i>	Weather hot and close; the <i>rabi</i> crops are being harvested, with good outturn; the general prospects are favourable; health is generally good.
Pubna	07	Weather fine and seasonable; the state and prospects of the crops are generally good; the sowing of <i>aman dhan</i> will shortly be commenced; some cholera cases have been reported both from Doolai and Serajgunge.
Rajshahye	<i>Nil</i>	Weather warm and occasionally cloudy; the harvesting of the cold-weather crops and the sowings of rice and sesamum are going on; the seedlings of the spring rice are healthy and vigorous; lands are being prepared for the sowings of jute.
Bogra	<i>Nil</i>	Weather fine and sultry; the <i>rabi</i> crops are cut or are being cut; jute is sown in many places; everything is doing well.
Dinagapore	<i>Nil</i>	Weather seasonable; state and prospects of wheat and pulses now on the ground are good; the land is being prepared for the autumn rice.
Rungpore	<i>Nil</i> 14 at Gai- banda. 75 at Bag- dogra.	Weather getting warm; the outturn of the <i>rabi</i> crops is good; land is being ploughed for the sowings of the early rice.
Cooch Behar	41 10.37 at Dinhatta.	Weather getting much warmer; there was one heavy shower with thunder on the night of the 16th instant. The Deputy Commissioner says that he does not understand the very heavy fall at Dinhatta in one day, and that enquiry is being made as to whether the return is accurate. The rain has been good for the early sowings, but has a little damaged the tobacco crop; the general prospects are good; public health is satisfactory.
Jalpaiguri	Few drops.	There was strong west wind during the week; the nights are still very cool; no change in the condition of the crops; tobacco is being cut, and is likely to yield a good outturn on the whole.
Darjeeling	<i>Nil</i>	Weather cold; there was high wind during the week. Wheat and barley are now being gathered, and a good outturn is expected; <i>bhoota</i> (Indian-corn) and potatoes are being sown.
Midnapore	25	Slight rain has fallen in the interior of the district, but none at head quarters during the week; there was a violent hailstorm at Ghattal and Daspore on the 16th instant, which has done much mischief to the mango blossoms; state and prospects of the crops are good.
Howrah	01	State and prospects of the crops are very fair.
Hooghly	Return not received.	Weather very warm; the rice lands are still being ploughed; sugar-cane is being planted; the harvesting of wheat and barley still continues; there is a good deal of cholera in the district.
Burdwan	<i>Nil</i> 016 at Bood Bood.	The <i>rabi</i> crops are being harvested. Cholera is prevalent in Culna and elsewhere.
Bankoora	<i>Nil</i>	Weather dry and hot; no change to report; the prospects of the crops continue favourable.
Beerbhoom	<i>Nil</i>	Weather bright and dry; the state and prospects of the crops continue good.
Sonthal Pergunnahs	<i>Nil</i> 39 at Godda. 1.29 at Deoghur.	Weather getting warmer; the month has been very free from the blustering dusty wind that comes before the hot wind of April; the <i>rabi</i> harvest is good; ploughing is going on; cholera reported near the town of Deoghur.
Bhagalpur	<i>Nil</i>	Weather seasonable; the westerly winds setting in; the <i>rabi</i> harvest is giving a good outturn; general health is very good.
Monghyr	Return not received: previous week 11.24 at Begu Serai, 4 at Jamui.	Weather fair; the prospects of the crops continue good; the <i>rabi</i> crops are being gathered all over the district.
Purneah	<i>Nil</i> 11 at Kis- sengunge, 15 at Arrareah.	Weather seasonable; the crops are all good.
Maldah	<i>Nil</i>	Weather generally fair; it has become almost hot since the last three days of the week, the highest heat being 92° on the 22nd instant; the wind was variable, but it blew generally from the north-west in the morning; rain is threatening; the crops are as good as before; cholera is increasing principally to the north-west, and 31 deaths reported.
Durbhunga	<i>Nil</i>	Weather, the mornings and evenings are cool, and the days are hot; state and prospects of the crops are quite satisfactory.
Mozufferpore	<i>Nil</i>	Weather seasonable, but getting hotter daily; the harvesting of the <i>rabi</i> crops is going on, and the outturn is expected to be good; health of the district is good.
Sarun	<i>Nil</i>	Weather daily getting warmer, the wind blowing from the west; the <i>rabi</i> crops are being harvested, and the outturn is expected to be good; the indigo sowing is going on; opium is still being gathered, and the weighments will shortly commence; general health is good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—concluded.		
Chumparun ...	<i>Nil</i>	Weather clear, getting warm in the middle of the day; mornings and evenings cool; the harvesting of the <i>rabi</i> crops continues; the prospects continue good.
Patna ...	·01	Weather partly clear and partly cloudy; the harvesting of the <i>rabi</i> crops is in fair progress with good outturn; sporadic cases of cholera and small-pox are reported throughout the district.
Gya ...	<i>Nil</i> 10 at Nowada.	Weather fair, and not over-hot, considering the time of year; the maximum reading of the thermometer in the shade was 95°4'; the reaping of the <i>rabi</i> crops continues; and the prospects are favourable; small-pox is reported from Rajauli, in Nowada, otherwise the public health is good.
Shahabad ...	Slight rain	Weather getting hot; the <i>rabi</i> crops are somewhat damaged by the recent rain, especially wheat in the low lands by mildew; peas, musoor, wheat and barley are being harvested.
Hazáribágh ...	<i>Nil</i>	Weather seasonable, but becoming very warm; the prospects of the crops are very fair indeed; the injury from the rain and wet last week was less than anticipated; general health is good.
Lohardugga ...	<i>Nil</i>	Weather seasonable; the hail storm mentioned in the last week's return appears to have been very local, there being no reports of damage from the remainder of the district; health is good.
Manbhoom ...	<i>Nil</i>	Weather seasonable; nothing particular to report about the crops; ploughing here and there is being undertaken; as is usual at this season, reports of cholera and diseases of choleraic type are being received from several parts of the district.
Singbhoon ...	·07	Weather seasonable; no crops to report; <i>mowah</i> and mango will not be as plentiful as was first thought; the district is reported healthy.
Balasore ...	·28	Weather hot and dry, with occasional storms; the ground is under preparation for next season's crops; sporadic cholera is frequent and fatal.
Cuttack ...	<i>Nil</i>	Weather hot and dry; no change to report since last week; most of the <i>rabi</i> crops are gathered with good outturn.
Pooree ...	Few drops.	Weather fair; <i>dalia</i> paddy has begun to ripen; ploughing is still going on; the exportation of rice still continues, and the prices of food-grains are almost stationary; miscellaneous crops are growing well; cholera is very violent both in town and country. <i>General Remarks.</i> —Rain is reported to have fallen in some of the districts of Bengal during the week; the harvesting of the cold-weather crops is in fair progress with good outturn; the spring rice is doing well; ploughing for the autumn rice is going on in some places, while the seed is being sown in others; tobacco is being cut, and is likely to yield a good outturn; sugarcane is being planted, and indigo and jute are being sown.
N. W. Provinces—		
Benares (Mar. 28th) ...	...	Harvest being gathered; prospects good.

Bhurtpore („ 29th)	...	Crop prospects and general health continue favourable.

G. H. M. BATTEN,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

TELEGRAM TO SECRETARY OF STATE REGARDING FAMINE IN WESTERN
AND SOUTHERN INDIA.

Dated 30th March 1877.

*From—Calcutta,
From—Viceroy in Council.*

*To—London,
To—Secretary of State for India.*

No despatch this week owing to press of Legislative business. Temple has spent ten days in Bombay, Deccan, and telegraphs thus :—

“Have visited parts of Sholapur, Kaládgi, Ahmednagar and Poona districts with local officers. Have inspected 35,000 relief labourers, person by person, and 6,000 children, besides 4,000 villagers not on relief. In these districts the labourers are doing well on present rate of wage; care is taken to restrict relief to the really necessitous; charitable relief organisation good for most part, but village inspection needs completeness, especially Kaládgi. Cannot hear of any present case of starvation in these districts. Of those persons who in beginning emigrated to territories, some are returning, but many are still absent. More than three quarters of total relief labourers are on large works under Engineers, who exact full task-work, and enforce excellent discipline. Projects are really good and useful. Supply of grain ample; prices moderate. Officers do not expect, but are quite prepared, to deal with great or sudden increase of number. Land revenue remission half my previous estimate. Some signs of reviving hope among people. District authorities, under directions of local Government, have been firm and steady in resisting clamour and agitation.” Message ends.

He has now returned to the Madras Presidency, and telegraphs thus from Gooty :—

“Dr. Townsend, Sanitary Commissioner to Government of India, is with me. He thinks well of physical condition of many thousands relief labourers on reduced wages inspected in districts of Sholapur and Bellary. When in telegram of 15th March I said relief works, Madras Presidency, well controlled, I referred to test of admission and restriction of numbers; but respecting task-work control still defective, and compares unfavourably with Bombay. Cause is that in Bombay relief works chiefly under Engineering Department, but in Madras chiefly under Civil Officers. Professional agency exists in Madras districts and helps the Civil Officers, but is not adequately employed in exacting task-work. Efforts made to collect relief labourers for East Coast Canal and for Railway from Bellary towards Dharwar. Numbers continue decreasing slightly on works, but increasing on charitable relief, which is right. Village inspection and relief decidedly improving, though far from perfect. Prices stationary. Import traffic slightly diminished. Showers which have fallen do not effect material good, but inspire hope and quiet public mind.” Message ends.

We have sanctioned commencement of earthwork of Conjeveram and Chingleput Railway as a relief work on same terms as Bellary-Hubli line, if Madras Government think necessary. In Madras Presidency increase of twenty-three thousand charitably relieved and of seven thousand on works. In Bombay Presidency no increase in total relieved, only slight variations in details. In Mysore further increase of eleven thousand seven hundred, chiefly in charitably relieved.

No. 1904.—Mr. W. Wells is appointed to officiate as Assistant Commissioner of Paper Currency, Bombay.

ACCOUNTS.

The 25th March 1877.

No. 1807.—The following Resolution is published for general information :—

Read—

Letter to the Government of the North-Western Provinces, No. 852, dated 10th February 1877, and reply from that Government, No. 278, dated 28th February 1877.

Letter to the Chief Commissioner of Oudh, No. 1445, dated 8th March 1877.

Read also—

Resolution No. 1709, dated 22nd March 1877, defining the rules and conditions under which Local Governments are henceforth to administer the Revenues and Services surrendered to their particular use and management.

OBSERVATIONS.—In letter No. 852, dated 10th February 1877, the Governor General in Council proposed, upon certain conditions, to make over certain Revenues and Services to the particular management of the Government of the North-Western Provinces. The Government of the North-Western Provinces has now cordially accepted these proposals. With the anticipated concurrence of the Chief Commissioner of Oudh, certain Revenues and Services have also, by letter No. 1445, dated 8th instant, been made over to his use and management for the year 1877-78.

2. It has been since ascertained that the expenditure for stationery in the North-Western Provinces and Oudh has, including the Accountant General's Office, been as follows :—

STATIONERY.				STAMPS.			GRAND TOTAL.
	N.-W. Provinces.	Oudh.	Total.	N.-W. Provinces.	Oudh.	Total.	
1871-72	49,967	17,016	66,983	Earlier figures include bi-color stamps for Court-fees.			
1872-73	64,855	20,239	85,094				
1873-74	67,776	12,965	80,741				
1874-75	43,920	12,380	56,300	29,576	4,577		
1875-76	69,806	21,098	90,904	24,254	5,556		
	2,96,324	83,698	3,80,022	53,830	10,133	63,963	
Average	59,265	16,739	76,004	26,915	5,067	31,982	1,07,986

3. The Governor General in Council will, therefore, make over to the Local Governments the duty of providing stationery and stamps for the public service in the North-Western Provinces and Oudh, with grants for these Services of Rs. 86,000 for the North-Western Provinces and Rs. 22,000 for Oudh.

RESOLUTION.—Subject to the conditions stated in Resolution No. 1709, dated 22nd March 1877, the following Revenues will for the year 1877-78 belong to the Governments of the North-Western Provinces and of Oudh :—

Under I—*Land Revenue* :—Collections from the Terai and Bhabar Estates* and the Dudhi Estate* in Mirzapore and from Stone Quarries.

* Whenever hereafter the special management of these estates may cease, the arrangement now made about them will be reconsidered.

The whole of the following heads :—

IV.—Excise.

LX.—Stamps.

XIII.—Law and Justice.

XIV.—Police.

XVI.—Education.

XX.—Miscellaneous, excepting “Gain by Exchange,” “Premium on Bills,” “Unclaimed Bills,” and any item exceeding Rs. 10,000 which cannot be classed under one of the sub-divisions of this head now existing in the public accounts of the North-Western Provinces and Oudh.

Public Works Receipts appertaining to the Public Works charges for which the Government of the North-Western Provinces and Oudh are responsible as detailed below.

2. The Governments of the North-Western Provinces and of Oudh will be responsible during 1877-78 for all charges recorded in the public accounts under the following heads :—

3.—*Refunds of all the assigned revenues.*

4.—*Land Revenue*, excepting Settlements, allowances to district and village officers, and special temporary compensation to Covenanted Civil Servants in the North-Western Provinces.

6.—*Excise.*

10.—*Stamps.*

11.—*Administration* (excepting Account and Currency Offices).

16.—*Law and Justice*, excepting special temporary compensation to Covenanted Civil Servants in the North-Western Provinces.

17.—*Police.*

19.—*Education.*

21.—*Medical* (excepting the pay of Medical Officers in charge of civil stations).

22.—*Stationery and Printing.*

28.—*Miscellaneous*, excepting Remittance of Treasure and any item exceeding Rs. 10,000 which cannot be classified under any sub-division of this head now existing in the public accounts of the North-Western Provinces and Oudh.

Under *Public Works Ordinary*;—*Roads and Miscellaneous Public Improvements*, *Civil Buildings* (except Opium and Post Office and Telegraph Buildings) and *Tools and Plant*;—also the whole Public Works Establishment of the Public Works Department excepting that in the Military Works and Irrigation Branches;—the Imperial Government paying towards their cost 20 per cent. on the outlay from imperial funds on works and repairs executed by the establishment.

3. The Governments of the North-Western Provinces and Oudh must surrender to the Imperial Treasury half of any sum by which the net revenue from *Excise*, *Stamps*, and *Law and Justice* (omitting *Jails* and *Registration*), deducting *Refunds* under these heads, and Charges under 6—*Excise*, and 10—*Stamps*, exceeds Rs. 83,75,000; and the Government of India will, on its part, bear half of any deficiency in the revenue below that sum. Half of any such excess will accordingly be deducted from, and half of any such deficiency will be added to, the balances of the Governments of the North-Western Provinces and Oudh in the Imperial Treasury.

4. If the expenditure in the North-Western Provinces and Oudh upon the Services thus enumerated exceeds the enumerated revenues plus any provincial contributions in support of the enumerated Services which the Government of the North-Western Provinces or Oudh may direct by less than Rs. 83,66,000,* the difference will be added to, and if such excess expenditure is more than Rs. 83,66,000 the difference will be deducted from, the balances of the Governments of the North-Western Provinces and Oudh in the Imperial Treasuries.

5. The net amount due from the reserved Imperial revenues will be subject to reconsideration if there should be any new legislation intended to increase or reduce any of the assigned revenues.

6. As the North-Western Provinces and Oudh are now administered by one Government, it is deemed convenient thus to combine the arrangements

	Rs.
* Oudh ...	18,30,000
North-Western Provinces ...	65,36,000
	<u>83,66,000</u>

These Receipts have aggregated the following sums:

	Rs.
1872-73	10,84,000
1873-74	10,18,000
1874-75	10,42,000
1875-76	11,01,000
1876-77 Regular Estimate	10,91,000
1877-78 First Estimate	10,84,000

The Governor General in Council will make them over* for an annual payment of Rs. 10,84,000.

10. Of the revenue recorded under *XVIII, Miscellaneous*, the Governor General in Council desires to retain as Imperial only the items "*Premium on Bills*," "*Unclaimed Bills of Exchange*," "*Sale of Durbar Presents*," and any item exceeding Rs. 10,000 which cannot be classified under some sub-division of this Head now existing in the Public Accounts of Bengal. The remainder of the revenue under this Head has been as follows:—

	Rs.
1872-73	8,41,000
1873-74	10,27,000
1874-75	7,12,000
1875-76	7,73,000
1876-77 Regular Estimate	7,71,000
1877-78	7,92,000

The Governor General in Council will assess the revenue transferred under this Head at Rs. 7,92,000.

11. If there should be any new legislation intended to increase or reduce any of the Assigned Revenues, the amount due to the Imperial Revenues will be subject to reconsideration. Subject to this proviso, the following Revenues will be surrendered to the Government of Bengal, for five years, for provincial uses, on its undertaking to make good to the Imperial Revenues in—

	Rs.
1877-78	1,91,07,000
1878-79	1,91,82,000
1879-80	1,98,57,000
1880-81	2,02,32,000
1881-82	2,06,07,000

Revenues to be surrendered to the Government of Bengal for Provincial uses, 1877-78.

- IV.—Excise on Spirits and Drugs.*
- VI.—Customs ("Sea Customs Miscellaneous," and "Warehouses and Wharf Rents").*
- VII.—Salt: "Rents of Warehouses," "Fines and Forfeitures," and "Miscellaneous".*
- IX.—Stamps.*
- XIII.—Law and Justice.*
- XIV.—Marine: "Pilotage Receipts," "Registration and other Fees," and "Miscellaneous".*
- XVI.—Miscellaneous (all except "Premium on Bills," "Unclaimed Bills," and any item exceeding Rs. 10,000 which cannot be classified under any subdivision of this Head now existing in the Public Accounts in Bengal).*

12. As regards EXPENDITURE, the Governor General in Council will, for the future, reserve as Imperial only those Grants which, for some particular reason, it seems inconvenient to transfer to provincial management and responsibility. The following Services with the Grants as at present settled for 1877-78, are accordingly made over to the management and responsibility of the Government of Bengal.

13. *Refunds of all the Assigned Revenues.*—The actual expenditure has been as follows:

	Rs.
1872-73	4,31,000
1873-74	4,97,000
1874-75	5,52,000
1875-76	5,12,000
1876-77	4,63,000

The Grant for 1877-78 is, the average of the five years, Rs. 4,91,000.

14. *Land Revenue*.—The Governor General in Council will make over the expenditure which is recorded under this Head in the Accounts for “*Collectors’ and Deputy Commissioners’ &c., Establishments*” and “*Charges on account of Land Revenue Collections*.” The expenditure on these Services in the past has been as follows:

	Rs.
1872-73	21,79,000
1873-74	22,04,000
1874-75	22,89,000
1875-76	22,42,000
1876-77 Regular Estimate	22,68,000

The Grant for 1877-78 is Rs. 22,62,000.

15. The expenditure in managing the *Excise Revenue* has been—

	Rs.
1872-73	2,94,000
1873-74	2,90,000
1874-75	2,93,000
1875-76	2,90,000
1876-77 Regular Estimate	2,93,000

The Grant is Rs. 2,92,000 and this sum will be made over for this service.

16. The expenditure on *Customs Establishments* has been—

	Rs.
1872-73	6,52,000
1873-74	6,65,000
1874-75	6,52,000
1875-76	6,69,000
1876-77 Regular Estimate	6,80,000

The Grant is Rs. 6,93,000 which will be made over for this service.

17. Of the *Salt* expenditure the “*Inland Customs Establishment, Behar*,” will be reserved as Imperial, and the expenditure now recorded under the Head of “*Salaries, Establishments and Contingencies*” transferred: past figures are as follows:

	Rs.
1872-73	39,000
1873-74	37,000
1874-75	34,000
1875-76	37,000
1876-77 Regular Estimate	39,000

The Grant is Rs. 39,000.

18. The expenditure on the collection of the *Stamp Revenue* has been—

	Rs.
1872-73	2,93,000
1873-74	2,25,000
1874-75	2,16,000
1875-76	2,39,000
1876-77 Regular Estimate	2,35,000

The Grant is Rs. 2,38,000.

19. The Government of India will make the whole of the expenditure under *Administration* provincial, excepting the Charges for—

The Account Office,
The Allowance to Bank of Bengal,
The Stationery Office,
Stationery purchased in the Country.

Deducting these items, the past expenditure has been as follows:

	Rs.
1872-73	12,69,000
1873-74	12,99,000
1874-75	13,09,000
1875-76	12,54,000
1876-77	12,62,000

The Grant is Rs. 12,61,000.

made over being in 1877-78 Rs. 1,91,07,000, and the Net Consolidated Allotment Rs. 2,39,39,000, the net expenditure from the reserved Imperial Revenues will be Rs. 48,32,000. If less than the following sum in each year is spent, the difference will be added to the *Balance of the Government of Bengal in the Imperial Treasury*; if more, the difference will be taken from that *Balance*.

To be provided from the Reserved Imperial Revenue.

In	Rs.
1877-78	48,32,000
1878-79	44,57,000
1879-80	40,82,000
1880-81	37,07,000
1881-82	33,32,000

23. The conditions under which the Government of Bengal will administer the extended trust thus committed to it are defined in the Resolution of the Governor General in Council in this Department, No. 1709, dated 22nd March 1877.

29. It will be necessary for the Government of Bengal to revise the estimates received with your letter No. 568, dated 22nd February 1877.

The 28th March 1877.

Comdg. 2-17th Regiment.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 5th March 1877.

GOVERNMENT SIMLA PASSENGER DAK.

From the 10th March to the 15th April 1877, arrangements have been made for booking Express Carriage Daks from Umballa to Kalka at the Calcutta Post Office* under certain rules and conditions, of which a printed copy can be obtained on application to the Post Master, Calcutta.

2. The charge for an Express Carriage Dak from Umballa to Kalka will be Rs. 30. Two ordinary vans carrying mails will also leave the Umballa Post Office—one in the morning at or about 6 A.M., and the other in the evening at or about 6 P.M. In each of these vans four seats will be available for passengers (if the weight of the mails admit) at a charge of Rs. 6 per seat.

A. M. MONTEATH,

Director Genl. of the Post Office of India.

The 12th March 1877.

Some difficulty has been experienced in making known to the public in Great Britain the conditions under which overland parcels can be sent out to India, and it is thought that the following notice respecting the conditions may be useful to persons in India who may have occasion to order parcels to be sent to them from Great Britain.

2. Particular attention is drawn to the *N. B.* at the foot of the Notice, which contains the first notice of an important reduction in the rate of charge for parcels containing books.

PARCEL POST FROM GREAT BRITAIN TO INDIA.

1. Persons wishing to send parcels to any part of British India, can do so through the *Indian Parcel Post Agency*—established under authority of the Director General of the Post Office of India—at 122, Leadenhall Street, E. C., and (Branch Office) at 25, Cockspur Street, S. W.

2. The charge for parcels is 1s. per lb. or frac-
tion of a lb. (*prepayment optional*), covering trans-
it from London to destination in India. Insur-
ance may be effected, if desired, at the rate (to be
prepaid) of 1s. up to 3l. value, 2s. 6d. up to 10l.
value, and 5s. up to 20l. value. Indian Customs
duty (if chargeable) will be realized from the
addressee.

3. The maximum weight, size, and value of a
parcel are—weight 50 lbs., size 2 feet long by 1
foot broad and 1 foot deep, value 20l.

1. The following are *forbidden contents*:—
Jewellery, watches, precious stones, liquids, or
articles of a dangerous or damaging nature.

5. *Mode of packing and address*:—Parcels must
be entirely closed and securely packed and fasten-
ed; a covering of cloth or water-proof sewn
at the edges being recommended. The Indian
address should be legibly written, with the super-
scription, "By Indian Parcel Post."

6. A letter of advice, stating name and address
on parcel, contents and value for Custom House
clearance, with legible signature and address of
sender, should be sent to the Office (see clause 1),
with each parcel, accompanied by payment, if it be
desired to prepay or insure the parcel.

7. A receipt will be given (by the Company) for each parcel received from the country, and for other parcels, if required.

8. *Parcels from the country* (including all those not booked by the sender or their messengers or agents in person at the London Offices) may be forwarded to the Office in London (see address below) by railway, or any other means available; but the parcel with the Indian address, as in clause 5, should in such case be enclosed in an *outer covering*, bearing the address, "Indian Parcel Post Agency, 122, Leadenhall Street, London, E. C." The charges for carriage to the above address are additional to charges for transit or insurance under clause 2, and may be prepaid to the local carrying agent, or left to be paid on delivery in London, and subsequently collected from the addressee. The letter of advice (see clause 6), with any payment desired for transit or insurance (payment by post should be by cheque or money order, payable to A. M. Bethune), should be sent to the same address by letter post, and the receipt will in such case be forwarded by post.

N.B.—(With effect from 1st May 1877) Parcels containing books (or articles treated as books under the British Inland Book Post rules) will be charged at half the rates *viz.*, 6d. per pound.

E. R. DOUGLAS,
for *Dir. Genl. of the Post Office of India.*

The 30th March 1877.

Mails for Ceylon, Straits, Hong-Kong and the United States of America, for transmission per Steamer from Bombay, will be closed at the General Post Office on Saturday, the 31st March 1877, at 7 P. M.

Mails for Akyab and Kyauk-Phyoo, for transmission per Steamer *Mahratta*, will be closed at the General Post Office on Sunday, the 1st April 1877, at 7 P. M.

Mails for Rangoon and Moulmein, for transmission per Steamer *Arabia*, will be closed at the General Post Office on Sunday, the 1st April 1877, at 7 P. M.

Mails for Persian Gulf, for transmission per Steamer from Bombay, will be closed at the General Post Office on Tuesday, the 3rd April 1877, at 7 P. M.

Mails for Madras only, for transmission per P. & O. Steamer *Nepaul*, will be closed at the General Post Office on Tuesday, the 3rd April 1877, at 7 P. M.

Mails for Madras, Ceylon and the intermediate ports, for transmission per Steamer *Madura*, will be closed at the General Post Office on Wednesday, the 4th April 1877, at 7 P. M.

Owing to the state of the tides, the P. & O. Steamer will leave Calcutta on the 4th instead 5th April 1877, but she will be required to remain at Madras until the contract date for leaving that Port, *viz.*, 10th April 1877. Mail for Galle will close at the General Post Office on Wednesday, the 4th April 1877, at 7 P. M., and be forwarded by Railway to Madras, so as to catch the P. & O. Steamer there.

The next Overland Mail *via* Bombay will close at the General Post Office on Friday, the 6th April 1877, by which mails for Mauritius, St. Denis, Réunion, Zanzibar, Mozambique, Delagoa Bay, Natal, Cape of Good Hope, the Comoro Islands and Madagascar can be forwarded.

2. Book-post and pattern packets must be posted on the 5th April 1877.

N. B.—The Letter Box will close at 7 P. M. precisely, after which hour overland letters, fully prepaid and bearing an extra postage stamp of two (2) annas on each cover, will be received up to 7-30 P. M., or bearing an extra postage stamp of four (4) annas on each cover up to 8 P. M.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The first part of the "Indian Law Reports," published under the authority of the Governor General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 40
„ MADRAS SERIES ...	„ 8	„ 9
„ BOMBAY SERIES ...	„ 8	„ 9
„ ALLAHABAD SERIES ...	„ 8	„ 9
Complete set ...	„ 45	„ 50

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
„ „ MADRAS SERIES ...	„ 1	0

NOTICE.

Pursuant to a decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in Suit No. 232 of 1876 (wherein Albert Birmingham Miller, Official Assignee of the Court for the Relief of Insolvent Debtors at Calcutta, and Assignee of the Estate and Effects of William DeMonte Sinaes, an insolvent, is plaintiff, and Frederick John Fergusson, the Official Trustee of Bengal, is defendant), and dated the 30th day of November 1876, the creditors of the late firm of Messrs. Joseph Barretto and Sons, of the Town of Calcutta, Merchants and Agents, who have executed a certain Trust Deed for the benefit of creditors, dated the 10th day of March 1827, and expressed to be made between Luis Joseph Barretto and Edward Brightman, surviving members

of the said firm of Messrs. Joseph Barretto and Sons, of the 1st part, John Palmer, William Amslie, George Ballard, William Melville and Robert Browne, of the 2nd part, and the several persons, creditors of the said Luis Joseph Barretto and Edward Brightman who, by themselves or their respective Attorneys, should execute the said Indenture of the 3rd part, and all other persons claiming to be interested in the said Trust Deed are, on or before Saturday, the 28th day of July 1877, to send to the Office of the Registrar of this Court, in its Original Side, their names, addresses, and descriptions, the full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them, or

in default thereof, they will be peremptorily excluded from the benefit of the said decree.

Every creditor holding any security may produce or transmit the same to the Registrar with particulars of his claim, or shall produce the same before the Judge for the time being exercising Original Jurisdiction in the Court House on Saturday, the 11th day of August 1877 at 11 of the clock in the forenoon, being the time appointed for adjudicating on the claims.

49. or to contracts with Native seamen and menial servants.
50. Emigration Agent and his subordinates and Protector of Emigrants to be deemed public servants.
51. Indian Emigration Act, 1871, not to apply to Straits Settlement.
52. Repeal of Act XIV of 1872.

THE FIRST SCHEDULE.

THE SECOND SCHEDULE.

An Act to regulate the Emigration of Native Labourers from the Presidency of Fort Saint George to the Straits Settlements.

WHEREAS it is expedient to regulate emigration under engagements to labour from the Presidency of Fort Saint George to the Straits Settlements; It is hereby enacted as follows:—

I.—PRELIMINARY.

Short title. I. This Act may be called "The Straits Settlements Emigration Act, 1877:"

Local extent. It extends only to the territories under the government of the Governor of Fort Saint George in Council;

Commencement. And it shall come into force on such date as the Governor of Fort St. George in Council, with the previous sanction of the Governor General in Council, may,

by notification in the *Fort St. George Gazette* direct.

Interpretation-clause.

2. In this Act, unless there be something repugnant in the subject or context—

"Emigrate" denotes the departure of any Native of India out of the said territories, under an engagement to labour in the said Settlements:

"Emigrant" means a person who "emigrates" within the meaning of the above definition

"Magistrate" means a Magistrate of a District, a Magistrate of a division of a district, or any other person appointed by the Governor of Fort St. George in Council to perform the functions of a Magistrate under this Act:

"Vessel" includes anything made for the conveyance by water of human beings or property.

3. It shall not be lawful to emigrate except from such ports as may from time to time be declared by the Governor of Fort St. George in Council, by a notification in the *Fort Saint George Gazette*, to be ports from which emigration under this Act shall be lawful.

The Local Government may, at any time, by a like notification, revoke any such notification.

II.—EMIGRATION AGENTS.

4. The Government of the Straits Settlements may, from time to time, appoint such persons as the Governor of Fort St. George in Council approves, to act as Emigration Agents at such ports as aforesaid.

Any Emigration Agent so appointed may be suspended or removed by the Government of the Straits Settlements.

III.—PROTECTORS OF EMIGRANTS.

5. The Governor of Fort St. George in Council shall direct such persons as he thinks fit to act as Protectors of Emigrants under this Act at such ports and for such local areas as may be assigned to them respectively, and may, with the sanction of the Governor General in Council, assign to such persons such establishment as the Governor of Fort St. George in Council thinks fit.

6. Every Protector of Emigrants, in addition to any special duties assigned to him by this Act, shall, so far as is in his power, protect and aid all emigrants with his advice or otherwise, and cause all the provisions of this Act to be duly complied with.

He may also inspect on arrival all vessels bringing return emigrants to the port at which he is Protector, and inquire into the treatment received by such emigrants both during the period of their service in the Straits Settlements and also during the voyage, and shall make a report thereon to the Governor of Fort St. George in Council.

Such Protector shall also aid and advise such return emigrants, so far as he reasonably can, when called upon by them to do so.

IV.—EMIGRATION DEPÔT.

7. Every Emigration Agent shall establish a suitable depôt for emigrants at the port at which he is Agent. Such depôt may be licensed by the local Protector of Emigrants after being inspected and approved of by him.

For every such license the Emigration Agent shall pay to the Protector of Emigrants a fee of fifteen rupees.

8. The Protector of Emigrants may, at any time, examine into the state of the depôt and the manner in which the emigrants are therein lodged, fed, clothed and otherwise provided for and attended to, and shall do so at least once a year.

And he may at any time cancel the license, if he considers that the depôt for which it was granted is unhealthy, or has in any respect become unsuitable for the purpose for which it was established, or if the local Emigration Agent fails to comply with any of the requirements of this Act.

The Emigration Agent and all persons in charge of, or employed in, the depôt, shall give the Protector every facility for making such inspections as he may deem necessary or proper, and shall afford him all such information respecting the depôt and the emigrants as he may require.

9. The Emigration Agent shall provide at the depôt such medical aid and comforts as the Protector may from time to time direct.

V.—RECRUITERS OF LABOURERS.

10. Each Protector of Emigrants shall license many fit persons as he deems necessary, to be recruiters of labourers for the Straits Settlements; and no person shall engage or attempt to engage any Native of India to emigrate, or shall otherwise act or be employed as a recruiter of labourers, except under a license from a Protector of Emigrants.

11. No such license shall be in force for a longer period than one year; and in case of misconduct on the part of any recruiter, the Protector of Emigrants who granted it may cancel his license before the expiration of the period for which it was granted.

12. Every such license shall specify the local limits within which the person licensed may recruit labourers, and shall be in the form set forth in the first schedule hereto annexed.

For every such license the recruiter shall pay to the Protector a fee of five rupees.

13. No recruiter shall engage, or attempt to engage, labourers in any district without having first exhibited his license to a Magistrate in such district, and obtained the countersignature of such Magistrate thereupon.

No Magistrate shall countersign a recruiter's license unless and until he has satisfied himself, by such enquiry as he thinks fit, that the licensee is not by character or from any other cause unfitted to be a recruiter under this Act.

If any Magistrate who has countersigned a license afterwards finds reason to think that the licensee is by character or other cause unfitted to be a recruiter under this Act, he may require the licensee to produce the license and may cancel his signature; or he may, if he thinks fit, impound the license and send it to the Emigration Agent for cancellation.

Every Magistrate refusing to countersign a recruiter's license or cancelling his signature as aforesaid, shall, without delay, report his refusal or cancellation and the grounds of it to the Protector of Emigrants who has authority to cancel the recruiter's license.

VI.—CONTRACTS WITH EMIGRANTS.

14. No contract made by a recruiter with a Native of India to emigrate shall be enforceable by the recruiter or his principal unless it—

(a) is expressed in writing;

(b) is executed by the recruiter on behalf of some principal in the Straits Settlements;

(c) states the terms, if any, agreed on as to the redemption of the recruit's engagement for employment, or of the unexpired term of such engagement;

(d) the term of the recruit's employment, the nature of the services to be performed by him, and the rate of wages to be paid in respect of the same are registered in the manner provided in section eighteen.

But nothing contained in this section shall be deemed to prevent such Native from insisting, if he thinks fit, that such contract shall be performed.

15. Every such contract shall—

(a) contain an engagement for employment to be provided by such principal for a definite term not exceeding three years; and

(b) specify the nature of the services to be performed by such recruit and the rates of wages (not less than twelve cents a day for an able-bodied male adult) payable in respect of the same.

16. Save as provided by section fourteen, clause (c), every agreement entered into by a Native of India in the territories subject to the Governor of Fort Saint George in Council, to pay money to any person in the Straits Settlements, in consideration of pecuniary or other assistance given to such Native to emigrate, shall be illegal and void.

Every contract not containing the particulars required by section fifteen shall be illegal and void.

17. Every recruit who has entered into such a contract as aforesaid shall be brought by the recruiter before the Civil Surgeon of the district or such other medical officer as the Local Government appoints in this behalf or, in default of such appointment, before such medical officer as the Magistrate directs.

Medical examination of intending emigrants.

The medical officer shall thereupon examine the recruit, and shall either reject him or shall certify that he is in a fit state of health and able in point of physical condition to proceed to the Straits Settlements and to work there.

If it is intended that any persons shall accompany the recruit as his dependents, the recruiter shall also bring them before the medical officer for the purpose of obtaining certificates that they are in a fit state of health and able in point of physical condition to perform the journey to the Straits Settlements; and the medical officer shall examine such persons and shall give or refuse certificates according to his opinion as to their fitness and ability.

Certificates shall be in the form set forth in the second schedule hereto annexed; and the recruiter shall pay to the medical officer such fee for each person so examined as the Local Government may from time to time prescribe.

18. Every certified recruit and every accompanying dependent shall appear with the recruiter before a Magistrate in the district within which the contract with the recruit was entered into.

The Magistrate shall thereupon inspect the instrument of contract and the medical certificate of the recruit, and shall, apart from the recruiter, examine the recruit with reference to his contract.

If it appears on such examination that the recruit understands the nature of the contract he has entered into, and that he is willing to fulfil the same, the Magistrate shall register

(a) the name, the father's name and the age of such recruit:

(b) the name of the village or place in which he resides:

(c) the port of embarkation to which it is intended he shall proceed:

(d) the name of his employer:

(e) the term of his employment, the nature of the services to be performed by him and the rate of wages to be paid in respect of the same.

The recruit shall thereupon be deemed an emigrant under this Act.

If the Magistrate thinks that the recruit does not understand the nature of the contract into which he has entered, or has been induced to enter into it by fraud or misrepresentation, or finds that the contract is not in accordance with section fifteen, he shall refuse to register the particulars specified as aforesaid, and record his reasons for such refusal.

19. On the appearance of any person claiming to be dependent on an emigrant, the Magistrate, after inspecting the medical certificate, shall, apart from the recruiter, examine such person if able to give intelligent answers to questions as to his dependence upon the emigrant whom he is about to accompany, and as to his willingness to accompany such emigrant.

If the Magistrate is satisfied that such dependence and willingness exist, he shall register the dependent as a dependent on such emigrant.

But if the Magistrate sees reason to doubt the existence of such dependence or willingness, he may refuse to register the alleged dependent, and, if so, shall record his reasons for such refusal.

20. The Magistrate shall furnish to every emigrant an authenticated copy on substantial paper of the matters registered under sections 18 and 19.

21. A copy of every entry made in the registry book by a Magistrate, shall be forthwith forwarded by such Magistrate to the Emigration Agent and to the Protector of Emigrants.

22. The registration required by sections 18 and 19 shall, in the case of emigrants recruited in any local area for which a Protector of Emigrants has been appointed, be effected before him instead of a Magistrate; and such Protector shall furnish to the emigrant one copy of the matters so registered, and another copy of the same matters to the Emigration Agent.

23. For the registration of every recruit under section 18, the recruiter shall pay to the Magistrate or to the Protector of Emigrants, as the case may be, such fee not exceeding one rupee, as may be from time to time directed by the Local Government.

VII.—ARRIVAL AT DEPÔT AND PROCEDURE THEREON.

24. The arrival of each emigrant at the depôt shall immediately be reported by the person in charge of the depôt to the Emigration Agent, and by such Agent to the Protector of Emigrants.

The Emigration Agent may institute such examination of the emigrants as he thinks fit in order to satisfy himself of their fitness to emigrate.

25. The Protector of Emigrants shall, within forty-eight hours after the arrival at the depôt of each emigrant not registered by himself, question such emigrant as to the mode in which he has been treated on his journey to the depôt, and shall at the same time examine the emigrant's contract and the copy of the register furnished to him under section 20.

If, for any reason, further enquiry is necessary, he shall make such enquiry forthwith.

26. If in the opinion of the Protector of Emigrants the examination and enquiry made under section 25 disclose no valid reason against the fulfilment of the contract, and the emigrant has not become physically unfit for emigration, the Protector and the Emigration Agent shall countersign the emigrant's copy of the register and the Emigration Agent shall make out and deliver to the emigrant an embarkation-pass signed by the Emigration Agent, and countersigned by the Protector, stating the name and the age of the emigrant and the name of his father, certifying that he has been duly registered for emigration to the Straits Settlements and mentioning the port of debarkation.

27. If the Protector of Emigrants considers

When the emigrant to be sent back to the place of registration. that any emigrant is physically unfit to emigrate, and that he has not dishonestly represented himself as physically fit;

or that any such irregularity has occurred in the recruitment of any such emigrant, as makes it just to vacate the contract;

or if the Emigration Agent refuses without the consent of the Protector to countersign the emigrant's copy of the register as required by section 26, or to be bound by the contract;

the Protector of Emigrants may order the Emigration Agent, or the recruiter with whom the contract was made, forth-

with to pay to him such reasonable sum as is necessary to enable such emigrant to return to the place where his name was registered under section 18; and may take any steps he thinks necessary for the conveyance of such emigrant to such place;

and any emigrant who from his state of health is in the opinion of the Protector of Emigrants physically unfit to undertake such return, shall be entitled to be fed, lodged and attended to at the port of embarkation at the expense of the Emigration Agent until he is reported by the Protector of Emigrants fit to undertake such return to such place.

28. If a dependent has accompanied such emi-

grant, the Protector of Emigrants may order the Emigration Agent or recruiter to pay such sum as is necessary to enable him to return to the place at which his name was registered under section 19, as well as to feed or lodge him during the detention (if any) of the emigrant at the depôt.

29. If the Protector of Emigrants has reason

to think that any dependent is in such a state of health that his journey to the Straits Settlements, or his detention in the depôt, would be dangerous to himself or others, he shall so certify to the Emigration Agent, and thereupon the emigrant to whom such dependent is attached shall be entitled, if he so wishes, to return as if he himself had been found under section 27 to be physically unfit to emigrate.

If the emigrant still desires to emigrate, then the dependent shall be kept and returned to the place at which he was registered as if he were an emigrant falling under section 27.

30. If upon the arrival of any emigrant or

dependent at the depôt, it appear that, during the journey thither, he has suffered any ill-treatment, or the recruiter has failed to provide him with proper and sufficient food and lodging, the Protector of Emigrants may order the Emigration Agent to pay him a reasonable sum by way of compensation.

31. On failure of the Emigration Agent or of

such recruiter for twenty-four hours to comply with an order of the Protector for the payment of any sum ordered to be paid

under any of the four last preceding sections, the Protector may pay the same to, or on behalf of, the emigrant.

Every sum so paid shall be recoverable by the Protector, with six per cent. per annum interest from the date of payment, from the Emigration Agent, or from such recruiter.

No further proof shall be required by any Court in any such case than that the Protector gave such Emigration Agent or recruiter an order to pay such money, and that the Emigration Agent or recruiter for a space of twenty-four hours made default in complying therewith.

32. Whenever the Emigration Agent refuses,

Suits against Emigration Agent for breach of contract. without the consent of the Protector, to countersign an emigrant's copy of the register as required by section 26, or is chargeable with a breach of any duty which any contract with an emigrant expressly or by implication imposes upon him, the Protector may, if he thinks fit, institute a suit on behalf of the emigrant against the Emigration Agent for the recovery of damages for the breach of such contract.

In every such suit the contract entered into by the recruiter shall be deemed to have been entered into by, and to be binding on, the Emigration Agent.

VIII.—EMIGRANT VESSELS.**33. No Master or other person in charge of a**

Emigrants not to be received on board vessels other than those licensed under Native Passengers Act. vessel shall receive on board any emigrant unless such vessel has been licensed, under the law for the time being in force relating to the carriage by sea of Native passengers, to carry passengers for the intended voyage and unless the Master of such vessel has obtained a certificate from the Protector of Emigrants authorizing him to receive on board the number of emigrants specified therein.

No such certificate shall be granted by the

Protector not to grant certificate unless satisfied that vessel has been licensed and has provisions on board. Protector of Emigrants unless he has satisfied himself that the vessel has been licensed as aforesaid, and that provisions and water for the number of emigrants to be specified in the certificate according to the scale prescribed under such law have been actually put on board such vessel.

34. On embarkation, every emigrant shall

Emigrant to give his pass to Master. deliver to the Master of the vessel the embarkation pass granted to him under section 26, and the Master shall not receive any emigrant on board unless he delivers up such pass.

35. The Emigration Agent shall be personally

Emigration Agent to be present at embarkation. present at the embarkation of all emigrants, and shall see that the Master duly examines the passes of the emigrants, and shall himself also examine such passes.

The Emigration Agent shall not permit any emigrant to remain on board who has not a pass

36. The Master of every vessel carrying emigrants shall, after the embarkation of the emigrants, and before the departure of the vessel, give to the Emigration Agent a list of all emigrants on board, signed by himself and mentioning the port of debarkation; and shall retain a counterpart of such list signed by the Emigration Agent.

A copy of such list signed by the Emigration Agent and Master shall be sent to the Protector of Emigrants before the vessel sails.

IX.—SUPPLEMENTARY POWERS.

37. Whenever the Governor General in Council has reason to believe that proper measures have not been taken for the protection of emigrants and the enforcement of the engagements entered into with them immediately upon their arrival at the Straits Settlements, or during their residence therein, the Governor General in Council may, by a notification published in the *Gazette of India*, declare that emigration under this Act to the said Settlements shall cease from a day to be specified in such notification.

When any notification has been published under this section, emigration under this Act and the making of contracts to emigrate to the Straits Settlements shall be unlawful from the day specified in such notification.

38. Such notification may be revoked in like manner by the Governor General in Council, and thereupon emigration to the said Settlements shall again be allowed from a day to be specified in the notification.

From the day so specified all the provisions of this Act authorizing emigration to the said Settlements shall be revived and have the same effect as if such emigration had not been suspended, except as to acts done, offences committed, and proceedings commenced, during the time of such suspension.

X.—OFFENCES.

39. Whoever, except under and in conformity with the provisions of this Act, engages or attempts to engage any Native of India to emigrate,

or whoever engages, or attempts to engage, any Native of India to enter into any such contract as is hereby declared illegal,

or, not being a recruiter duly licensed under this Act, acts or is employed as a recruiter of labourers for the Straits Settlements,

or being a recruiter duly licensed under this Act, removes or attempts to remove any person whom he engages in any district from such district until the particulars required by section 18 have been duly registered,

shall be punished with imprisonment, which may extend to six months, or with fine not exceeding five hundred rupees, or with both.

40. Whoever, by means of intoxication, violence, fraud, or false pretences, causes or induces or

any Native of India to emigrate or to enter into any contract to emigrate, or into any such contract as is hereby declared illegal, or to proceed to the said Settlements without having entered into any contract, shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both; and any police-officer may for such offence arrest him without warrant.

41. Whoever, without lawful authority, issues any written order to the police to assist himself or any other person to procure labourers to proceed to the said Settlements, or falsely represents that such labourers are required by the Government, or are to be engaged on behalf of the Government, shall be liable to imprisonment for a term not exceeding six months, or to fine not exceeding five hundred rupees, or to both.

42. Any Master of a vessel not licensed as provided in section thirty-three who knowingly receives on board, for conveyance to the said Settlements, any emigrant or person who has entered into a contract hereby declared illegal,

and any Master of a vessel licensed as aforesaid, who knowingly receives any emigrant as aforesaid without having previously obtained a certificate under the said section, or in excess of the number specified in such certificate

shall be liable for each emigrant or person so received to imprisonment for a term which may extend to three months, or to fine not exceeding two hundred rupees, or to both, and the vessel shall be liable to be forfeited.

43. Any Master of a vessel who receives on board such vessel any emigrant for the said Settlements and fails to comply with the requirements of sections 34 and 36, shall be liable to a fine not exceeding two hundred rupees.

44. Any Master of a vessel landing any emigrant or dependent at any port other than the port of debarkation specified in embarkation-pass and list, unless in case of stress of weather or other unavoidable accident, shall be liable for every emigrant or dependent so landed to a fine not exceeding two hundred rupees, or to imprisonment for a term which may extend to one month, or to both.

45. Any Master of a vessel who having cleared such vessel for the said Settlements, takes on board any emigrant not entered in the list mentioned in section 36, shall be liable to a fine not exceeding two hundred rupees for every emigrant so taken on board.

46. All prosecutions under sections 42, 43, 44 and 45 shall be instituted by the Emigration Agent, or by the Protector of Emigrants, or by an officer appointed for the purpose by the Local Government.

47. All the powers vested by law in the officers of Customs in regard to the searching and detention of vessels, or otherwise, for the purposes of this Act.

exercised by such officers for the prevention and detection of the illegal embarkation of emigrants on board vessels bound for the said Settlements and of other offences against this Act.

XI.—MISCELLANEOUS.

48. Nothing in this Act shall apply to any vessels in the service of the Lords Commissioners of the Admiralty, or to any of Her Majesty's vessels.

49. Nothing in this Act shall apply to any contract with, or the emigration of, any Native seaman, or other person who of his own free will contracts to navigate or serve on board of any vessel, or who embarks on board such vessel in pursuance of such contract, or any person who contracts to serve as a menial servant only and who embarks as such menial servant.

50. The Emigration Agent and all persons employed by him and the Protector of Emigrants shall be deemed to be public servants within the meaning of the Indian Penal Code.

51. The Indian Emigration Act, 1871, shall not apply to the Straits Settlements, unless and until the Governor General in Council, by notification in the *Gazette of India*, declares it so to apply.

52. Act No. XIV of 1872 (*to exempt the Straits Settlements from the Indian Emigration Act, 1871*) is hereby repealed.

THE FIRST SCHEDULE.

(See section 12.)

Office of the Protector of Emigrants at the Port of

A. B. described in the Roll annexed is hereby licensed under the Straits Settlements Emigration Act, 1877, to be a recruiter of labourers.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 14th March 1877, and is hereby promulgated for general information :—

ACT No. VI OF 1877.

An Act for postponing the day on which the Opium Act, 1876, is to come into force.

WHEREAS the Opium Act, No. XXIII of 1876, section one, enacts that the said

Preamble. Act shall come into force on the first day of April 1877 : And whereas it is expedient to postpone the day on which such Act shall come into force ; It is hereby enacted as follows :—

1. The said Act No. XXIII of 1876 shall come into force, not on the first day of April 1877, but on such day as the Governor General in Council may, by notification in the *Gazette of India*, direct in this behalf.

WHITLEY STOKES,
Secy. to the Govt. of India.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 28th March 1877, and is hereby promulgated for general information :—

ACT No. VII of 1877.

An Act to amend the law relating to assignments from the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871.

WHEREAS it is expedient to authorise the Local Government of the North-Western Provinces to provide out of the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871, for payment of certain charges incurred or to be incurred on account of canals and railways in the North-Western Provinces; It is hereby enacted as follows :—

1. Section 10 of the said Act shall be repealed, and in lieu thereof the following section shall be substituted :—

"10. The Lieutenant-Governor may from time to time assign from such Fund such amount as he thinks fit, to be applied in payment of charges incurred or to be incurred on account of such canals and railways as he, with the previous sanction of the Governor General in Council, may declare to be works of general provincial utility, and he shall from time to time allot from such Fund an amount to be applied in each district for expenditure on all or any of the following purposes :—

(a) the construction, repair and maintenance of roads and communications;

(b) the maintenance of the rural police and district post;

(c) the construction and repair of school-houses, the maintenance and inspection of schools, the training of teachers, and the establishment of scholarships;

(d) the construction and repair of hospitals, dispensaries, lunatic asylums, markets, wells and tanks; the payment of all charges connected with the purposes for which such buildings or works have been constructed, and any other local works likely to promote the public health, comfort or convenience;

Provided that the amount assigned in respect of such canals and railways shall not exceed ten per cent. of the total sum levied under this Act in the year in which the assignment was made, and that the amount allotted to be applied in each district for expenditure on all or any of the purposes mentioned in clauses (a), (b), (c) and (d) of this section shall be at least ninety per cent. of the total sum levied under this Act in such district in the year in which the allotment was made."

2. In Section 12 of the said Act, for the word "assignment" in each of the places where it occurs, the word "allotment" shall be substituted, and for the word "re-allotted" the word "re-assigned" shall be substituted.

And in section 13 of the said Act, for the word "assignment" the word "allotment" shall be substituted,

And in Section 14 of the same Act, for the word "amount," in each of the places where it occurs, the word "allotment" shall be substituted.

WHITLEY STOKES,

Secy. to the Govt. of India.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 28th March 1877, and is hereby promulgated for general information :—

ACT No. VIII of 1877.

An Act for the licensing of certain trades and dealings in the North-Western Provinces.

WHEREAS it is expedient that persons carrying on certain trades and dealings in the North-Western Provinces should take out licenses and pay for the same; It is hereby enacted as follows :—

1. This Act shall be called "The North-Western Provinces License Act, 1877."

It extends to the provinces under the government of the Lieutenant-Governor of the North-Western Provinces; but nothing herein contained applies to persons earning their livelihood solely by agriculture.

And it shall come into force at once.

2. In this Act "Collector" means the Chief Officer in charge of the revenue-administration of a District.

3. Every person who, on and after the first day of April 1877, falls under any of the heads specified in the schedule hereto annexed, and carries on (whether on behalf of himself or any other person) his trade or dealing, shall take out a license under this Act, and shall pay for the same the annual fee mentioned in the same schedule as payable by persons of the class to which he belongs.

4. Every license under this Act shall be granted by the Collector of the district in which the person requiring such license carries on his trade or dealing: provided that, if such person carries on his trade or dealing in more than one district in the North-Western Provinces, the license shall be granted by the Collector of the district in which his principal place of business is situate.

Every such license shall be signed by the Collector granting it, or by such officer as he may appoint in this behalf.

5. Every such license shall specify—

(a) the date of the grant thereof;

(b) the name, father's name, caste, and trade or dealing of the licensee;

(c) the fee paid for the license :

(d) the place or places where the licensee intends to carry on his trade or dealing for the ensuing year ; and

(e) the term for which the license shall remain in force,
and shall be received in evidence as *prima facie* proof of all matters contained therein.

6. Every such license shall have effect and continue in force from the day of the date thereof till the first day of January next after the day of the granting thereof.

7. Every person to whom any such license has been granted and who desires to continue to carry on his trade or dealing after the expiration thereof, shall take out a fresh license for that purpose for the following year, to expire on the day appointed in the last preceding section, and shall renew the same so long as he desires to continue to carry on such trade or dealing.

List of Licensees.

8. As soon as may be after the first day of April 1877 and the first day of January in every subsequent year, the Collector shall prepare a list of the persons to be licensed under this Act in the district or place aforesaid. Such list shall state—

(a) the trade or calling of each of the persons therein named ;

(b) the class under which he is charged ; and

(c) the fee to be paid for his license.

Such list shall be in the language of the district, shall be filed in the office of the Collector, and shall be open to public inspection at all reasonable times, without any payment.

9. The Collector shall from time to time determine under which of the classes mentioned in the said schedule every person to whom a license may be granted by him as aforesaid shall be charged, and shall amend the said list accordingly.

The list or such part or parts thereof as the Collector thinks fit shall be published in the principal muhallas or ganjes of all towns, and in the chaupál, or other public place, in all villages concerned, together with a notification that if any person mentioned in such list continues his trade or dealing, payment of the amount specified in the list as payable by him must be made in the year 1877 within thirty days of such publication in that year and within thirty days next after the first day of January in each succeeding year.

10. Any person mentioned in such list and objecting to the class under which he is charged may, within thirty days after such publication or within such further time as the Collector may in each case think fit, apply by petition to the Collector in order to establish his right to have his name transferred to another class or altogether removed from the list.

11. The Collector shall fix a day for the hearing of the petition, and on the day so fixed, or on such subsequent day as he may from time to time direct, shall hear the same and pass such order thereon as he thinks fit :

Provided that if in the judgment of the Collector the nett annual earnings of the petitioner are less than two hundred rupees, the petitioner's name shall be removed from the list, and the fee, if any, paid by him shall be returned.

There shall be no appeal from an order under this section.

12. The Collector may in his discretion remit the whole or any part of the fee payable under this Act by any person who has carried on his trade or dealing for a portion of the year only.

13. A person or firm carrying on several trades or businesses and coming under more than one of the designations in the said schedule shall be chargeable only under one of the said designations at the discretion of the Collector ; and in the case of a firm, payment by any one of the partners shall for the purposes of this Act be considered payment by the firm.

14. If after expiry of the period mentioned in the notification published under section ten, for payment of the amount specified therein, any person (whether he is or is not mentioned in the said list) carries on his trade or calling without having taken out a license as required by this Act, he shall be liable, by order of the Collector, to pay twice the fee with which he would otherwise have been chargeable under this Act, and on receipt of such payment, the Collector shall grant him a license.

All sums due under this section and all fees payable under this Act shall be recoverable as if they were arrears of land-revenue.

15. Every person required by this Act to take out a license, who without reasonable excuse neglects or refuses to produce and show his license when required so to do by an officer generally or specially empowered in writing by the Collector to make such requisition, shall, on conviction before a Magistrate, be liable to a fine not exceeding one hundred rupees.

No person shall be proceeded against for any such offence except at the instance of the Collector, and there shall be no appeal from any sentence under this section.

16. Courts of Wards and receivers and managers appointed by any Court in British India, shall be chargeable under this Act in respect of any trade or dealing of which the income is officially in their possession or under their control.

17. When any trustee, guardian, curator, committee or agent is charged under this Act in such capacity, or when any Court of Wards or receiver or manager appointed by any Court is charged under this Act, every Court and person so charged may, from time to time, out of the money coming to its or his possession as such trustee, guardian, curator, committee or agent, or as such Court of Wards, receiver or manager retain so much as is sufficient to pay the fee charged.

Every such person or Court is hereby indemnified for every retention and payment made in pursuance of this Act.

• *Municipalities.*

18. The Collector may require any Municipal Committee constituted under Act No. XV of 1873 to furnish, within a period to be specified under the orders of the Local Government, returns showing the names and numbers of persons chargeable under this Act resident within the limits of such Municipality, together with the class under which they respectively fall and the fees payable by them respectively.

If the Municipal Committee fails within the period prescribed to make such returns, or if it make such returns, and the Collector has reason to doubt their accuracy, he may at any time cause a return showing the names, numbers, and classes aforesaid to be prepared in such manner as may be prescribed by the Local Government.

19. When the return mentioned in section 18 has been furnished or prepared, notice shall be served on the Municipality, calling on it to pay to the Collector within a period to be specified in the notice, a sum calculated on such return in accordance with the provisions of this Act.

Any Municipality may appropriate any part of its revenues to the payment of the sum leviable from it under this section, or raise such further sums in addition to its existing revenue as may be needful for such payment: provided that such further sums be raised in accordance with the said Act No. XV of 1873.

Miscellaneous.

20. All taxes raised and penalties recovered under this Act shall be paid to the credit of the Local Government, or as such Government from time to time directs.

21. All or any of the powers and duties conferred and imposed by this Act on a Collector may, subject to the orders of the Collector of the District, be exercised and performed by an Assistant Collector or such other officer as the Local Government from time to time appoints in this behalf.

22. Every person shall be legally bound to furnish information to any officer or person exercising any of the powers of a Collector under this Act when required by him to do so.

23. The Local Government may, from time to time, with the previous sanction of the Governor General in Council,

(a) exempt from the operation of this Act any portion of the territories subject to such Government, or any class of trade or dealings falling under the said schedule;

(b) make rules consistent with this Act, (1) for regulating the time and manner of collecting the fees charged under this Act, (2) for providing in any case or class of cases for serving notices on persons charged under this Act, and (3) generally for the guidance of officers in matters connected with the enforcement of this Act.

49. Language of plaintiff.
50. Particulars to be contained in plaintiff.
In money suits.
Where plaintiff sues as a representative.
Defendant's interest and liability to be shown.
Grounds of exemption from limitation-law.
51. Plaintiff to be subscribed and verified.
52. Contents of verification.
Verification to be signed and attested.
53. When the plaintiff may be rejected, returned for amendment, or amended.
Proviso.
Attestation of amendment.
54. When the plaintiff shall be rejected.
55. Procedure on rejecting a plaintiff.
56. When rejection of plaintiff does not preclude presentation of fresh plaintiff.
57. When the plaintiff shall be returned to be presented to the proper Court.
Procedure on returning plaintiff.
58. Procedure on admitting plaintiff.
Concise statements.
Register of suits.
59. Production of document on which plaintiff sues.
Delivery of document or copy.
List of other documents.
60. Statement in case of documents not in his possession or power.
61. Suits on lost negotiable instruments.
62. Production of shop-book.
Original entry to be marked and returned.
63. Inadmissibility of document not produced when plaintiff filed.

CHAPTER VI.

OF THE ISSUE AND SERVICE OF SUMMONS.

Issue of Summons.

64. Summons.
65. Copy of statement annexed to summons.
66. Court may order defendant or plaintiff to appear in person.
67. No party to be ordered to appear in person unless resident within 50 or, where there is a railway, 200 miles.
68. Summons to be either to settle issues or for final disposal.
69. Fixing day for appearance of defendant.
70. Summons to order defendant to produce documents required by plaintiff or relied on by defendant.
71. On issue of summons or final disposal, parties to be directed to produce their witnesses.

Service of Summons.

SECTIONS.

72. Delivery of summons for service.
73. Mode of service.
74. Service on several defendants.
75. Service to be on defendant in person, when practicable, or on his agent.
76. Service on agent by whom defendant carries on business.
77. Service on agent in charge, in suits for immoveable property.
78. When service may be on male member of defendant's family.
79. Person served to sign acknowledgment.
80. Procedure when defendant refuses to accept service, or cannot be found.
81. Endorsement of time and manner of service.
82. Examination of serving officer.
Substituted service.
83. Effect of substituted service.
84. When service is substituted, time for appearance to be fixed.
85. Service of summons when defendant resides within jurisdiction of another Court and has no agent to accept service.
86. Service within Presidency-towns and Rangoon of process issued by Mufassal Courts.
87. Service on defendant in jail.
88. Procedure if jail be in a different district.
89. Service when defendant resides out of British India and has no agent to accept service.
90. Service through British Resident or agent of Government.
91. Substitution of letter for summons.
92. Mode of sending such letter.

Service of Process.

93. Process to be served at expense of party issuing it.
Costs of service.
94. Notices and orders in writing how served.

Postage.

95. Postage.

CHAPTER VII.

OF THE APPEARANCE OF THE PARTIES AND CONSEQUENCE OF NON-APPEARANCE.

96. Parties to appear on day fixed in summons for defendant to appear and answer.
97. Dismissal of suit where summons not served in consequence of plaintiff's failure to pay fee for issuing it.
Proviso.
98. If neither party appear, suit to be dismissed.
99. In such case plaintiff may bring fresh suit; or Court may restore the suit to its file.
100. Procedure if only plaintiff appear
when summons was duly served,
when summons not duly served,
when summons served, but not in due time.
101. Procedure where defendant appears on day of adjourned hearing, and assigns good cause for previous non-appearance.
102. Procedure where defendant only appears.
Decree against plaintiff by default bars fresh suit.

SECTIONS.

103. Procedure where defendant residing out of British India does not appear.
104. Procedure in case of non-attendance of one or more of several plaintiffs.
105. Procedure in case of non-attendance of one or more of several defendants.
106. Consequence of non-attendance, without sufficient cause shown, of party ordered to appear in person.
107. Court to receive written declaration in support of cause shown for failure to appear.
108. Setting aside decree *ex parte* against defendant.
109. No decree to be set aside, without notice to opposite party.

CHAPTER VIII.

OF WRITTEN STATEMENTS AND SET-OFF.

110. Written statements.
111. Particulars of set-off to be given in written statement.
Enquiry.
Effect of set-off.
Relinquishment of portion of claim for purpose of set-off.
112. No written statement to be received after first hearing unless called for by Court.
Court may at any time call for written statement.
113. Procedure when party fails to present written statement called for by Court.
114. Frame of written statements.
115. Written statements to be subscribed and verified.
116. Rejection of argumentative, prolix or irrelevant written statements.
Attestation of amendments.
Effect of rejection.

CHAPTER IX.

OF THE EXAMINATION OF THE PARTIES BY THE COURT.

117. Ascertainment from each party whether allegations in written statements are admitted or denied.
118. Oral examination of party or companion of himself or his pleader.
119. Substance of examination to be written.
120. Consequence of refusal or inability of pleader to answer.

CHAPTER X.

OF DISCOVERY AND OF THE ADMISSION, INSPECTION, PRODUCTION, IMPOUNDING AND RETURN OF DOCUMENTS.

121. Power to deliver interrogatories.
122. Service of interrogatories.
123. Inquiry into propriety of exhibiting interrogatories.
124. Service of interrogatories on officer of corporation or company.
125. Power to strike out interrogatories as irrelevant, &c.
126. Time for filing affidavit in answer.
127. Procedure where a party omits to answer sufficiently.

SECTIONS.

128. Power to demand admission of genuineness of documents.
129. Application for order for discovery of document.
Affidavit in answer to such order.
130. Power to order production of documents during suit.
131. Notice to produce for inspection documents referred to in plaint, &c.
Consequence of non-compliance with such notice.
132. Party receiving such notice to deliver notice when and where inspection may be had.
133. Application for order of inspection.
134. Application to be founded on affidavit.
135. Power to order issue or question on which right to discovery depends to be first determined.
136. Consequences of failure to answer or give inspection.
137. Court may send for papers from its own records or from other Courts.
138. Documentary evidence to be in readiness at first hearing.
139. Effect of non-production of documents.
140. Documents to be received by Court.
Rejection of irrelevant or inadmissible documents.
141. No documents to be placed on record unless proved.
Proved documents to be marked and filed.
Entries in shop-books.
142. Rejected documents to be marked, and returned, unless detained by Court.
143. Court may order any document to be impounded.
144. After lapse of time for appeal, document admitted in evidence may be returned.
When document may be returned before time limited.
Document not be returned in certain cases.
Receipt to be given for returned document.
145. Provisions as to documents applied to material objects.

CHAPTER XI.

OF THE SETTLEMENT OF ISSUES.

146. Framing of issues.
147. Allegations from which issues may be framed.
148. Court may examine witnesses or documents before framing issues.
149. Power to amend, add and strike out issues.
150. Questions of fact or law may by agreement be stated in the form of an issue.
151. Court if satisfied that the agreement was executed in good faith may give judgment.

CHAPTER XII.

DISPOSAL OF THE SUIT AT THE FIRST HEARING.

152. If parties are not at issue on any question of law or fact.
153. If one of several defendants be not at issue with the plaintiff.
154. If parties are at issue on questions of law or fact.
Court may determine issue and pronounce judgment.

SECTIONS.

155. If either party fails to produce his evidence, Court may pronounce judgment.
Procedure where Court cannot pronounce judgment at first hearing.

CHAPTER XIII.

OF ADJOURNMENTS.

156. Court may grant time, or adjourn hearing.
Costs of adjournment.
157. Procedure if parties fail to appear on day fixed.
158. Court may proceed notwithstanding either party fails to produce his evidence.

CHAPTER XIV.

OF THE SUMMONING AND ATTENDANCE OF WITNESSES.

159. Summons to attend to give evidence or produce documents.
160. Expenses of witnesses to be paid into Court on applying for summons.
Scale of expenses.
161. Tender of expenses to witness.
162. Procedure where insufficient sum paid in.
Expenses if witness detained more than one day.
163. Time, place, and purpose of attendance to be specified in summons.
164. Summons to produce document.
165. Power to require persons present in Court to give evidence.
166. Summons how served.
167. Time for serving summons.
168. Attachment of property ~~of~~ absconding witness.
169. If witness appears, attachment may be withdrawn.
170. Procedure if witness fails to appear.
171. Court may of its own accord summon as witnesses strangers to suit.
172. Persons summoned to give evidence must attend.
173. When they may depart.
174. Consequences of non-attendance.
Consequences of refusal to give evidence or produce documents.
175. Procedure when witness absconds.
176. Person summoned to attend in person if so required.
177. Consequence of refusal of party to give evidence when called on by the Court.
178. Rules as to witnesses to apply to parties summoned.

CHAPTER XV.

OF THE HEARING OF THE SUIT AND EXAMINATION OF WITNESSES.

179. Statement and production of evidence by party having right to begin.
Rules as to right to begin.
180. Statement and production of evidence by other party.
Reply by party beginning.
181. Witnesses to be examined in open Court.

SECTIONS.

182. How evidence shall be taken in appealable cases.
183. When witness may require his deposition to be interpreted.
184. Memorandum when evidence is not taken down by Judge.
185. When evidence may be taken in English.
186. Any particular question and answer may be taken down.
187. Questions objected to.
188. Remarks on demeanour of witnesses.
189. Memorandum of evidence in unappealable cases.
190. Judge unable to make such memorandum to record reason of his inability.
191. Power to deal with evidence taken down by Judge removed before conclusion of suit.
192. Power to examine witness immediately.
193. Court may recall and examine witness.

CHAPTER XVI.

OF AFFIDAVITS.

194. Power to order any point to be proved by affidavit.
195. When evidence may be given by affidavit.
196. Matters to which affidavits shall be confined.
197. Oath of declarant by whom to be administered.

CHAPTER XVII.

OF JUDGMENT AND DECREE.

198. Judgment when pronounced.
199. Power to pronounce judgment written by Judge's predecessor.
200. Language of judgment.
201. Translation of judgment.
202. Judgment to be dated and signed.
203. Judgments of Small Cause Courts.
Judgments of other Courts.
204. Court to state its decision on each issue.
Exception.
205. Date of decree.
206. Contents of decree.
Power to amend decree.
207. Decree for recovery of portion of immoveable property.
208. Decree for delivery of moveable property.
209. In suits for money, decree may order certain interest to be paid on principal sum adjudged.
210. Payment by instalments.
When Court may order payment by instalments.
211. In suits for land, Court may decree payment of mesne profits with interest.
212. Court may determine amount of mesne profits prior to passing decree, or may reserve enquiry.
213. Administration-suit.
214. Suit to enforce right of pre-emption.
215. Suit for dissolution of partnership.
216. If set-off be allowed.
Effect of decree.
217. Certified copies of decree and judgment to be furnished.

CHAPTER XVIII.

OF COSTS.

SECTIONS.

- 218. Costs of applications.
- 219. Judgment to direct by whom costs are to be paid.
- 220. Power of Court as to costs.
- 221. Costs may be set-off against sum admitted or found to be due.
Saving of Pleader's lien.
- 222. Interest on costs.
Payment of costs out of subject-matter.

CHAPTER XIX.

OF THE EXECUTION OF DECREES.

—Of the Court by which Decrees may be executed.

- 223. Court by which decree may be executed.
- 224. Procedure when Court desires that its own decree shall be executed by another Court.
- 225. Court receiving copies of decree, &c., to file same without proof.
- 226. Execution of decree or order by Court to which it is sent.
- 227. Execution by High Court of decree transmitted by other Court.
- 228. Appeal from orders for execution of decrees of other Courts.
- 229. Decrees of Courts established by Government of India in Native States.

B.—Of Application for Execution.

- 230. Application for execution.
- 231. Application by joint decree-holder.
- 232. Application by transferee of decree.
- 233. Transferee to hold subject to equities enforceable against original holder.
- 234. If judgment-debtor die before execution, application may be made against his representative.
- 235. Contents of application for execution of decree.
- 236. Application for attachment of immoveable property to be accompanied with inventory.
- 237. Application for attachment of moveable property to be accompanied with inventory.
- 238. When application must be accompanied by extract from Collector's register.

C.—Of staying Execution.

- 239. When Court may stay execution.
- 240. Power to require security from, or impose conditions upon, judgment-debtor.
- 241. Liability of judgment-debtor discharged to be retaken.
- 242. Order of Court passing decree or of Appellate Court to be binding upon Court applied to.
- 243. Stay of execution pending suit between decree-holder and judgment-debtor.

D.—Questions for Court executing Decree.

- 244. Questions to be decided by Court executing decree.

E.—Of the mode of executing Decrees.

- 245. Procedure on receiving application for execution of decree.
Procedure on admitting application.

SECTIONS.

- 246. Cross-decrees.
- 247. Cross-claims under same decree.
- 248. Notice to show cause why decree should not be executed.
Proviso.
- 249. Procedure after issue of notice.
- 250. Warrant when to issue.
- 251. Date, signature, seal and delivery.
- 252. Decree against representative of deceased for money to be paid out of deceased's property.
- 253. Decree against surety.
- 254. Decree for money.
- 255. Decree for mesne profits or other matter, amount of which to be subsequently ascertained.
- 256. Power to direct immediate execution of decree for money not exceeding rupees 1,000.
- 257. Modes of paying money under decree.
- 258. Payment of money out of Court to decree-holder.
- 259. Decrees for specific moveables, or recovery of wives.
- 260. Decree for specific performance or restitution of conjugal rights.
- 261. Decree for execution of conveyances, or endorsement of negotiable instruments.
- 262. Form and effect of execution of conveyance by Court.
- 263. Decree for immoveable property.
- 264. Delivery of immoveable property when in occupancy of tenant.
- 265. Partition of estate or separation of share.

F.—Of Attachment of Property.

- 266. Property liable to attachment and sale in execution of decree.
- 267. Power to summon and examine persons as to property liable to be seized.
- 268. Attachment of debt, share and other property not in possession of judgment-debtor.
- 269. Attachment of moveable property in possession of defendant.
Power to make rules for maintenance of attached live-stock.
- 270. Attachment of negotiable instruments.
- 271. Seizure of property in house.
Seizure of property in zanánás.
- 272. Attachment of property deposited in Court or with Government officer.
Proviso.
- 273. Attachment of decree for money.
Attachment of other decrees.
Decree-holders to give information.
- 274. Attachment of immoveable property.
- 275. Order for withdrawal of attachment after satisfaction of decree.
- 276. Private alienation of property after attachment to be void.
- 277. Court may direct coin or currency-notes attached to be paid to party entitled.
- 278. Investigation of claims to and objections to attachment of attached property.
Postponement of sale.
- 279. Evidence to be adduced by claimant.
- 280. Release of property from attachment.
- 281. Disallowance of claim to release of property attached.
- 282. Continuance of attachment subject to claim of incumbrancer.

SECTIONS.

- 283. Saving of suits to establish right to attached property.
- 284. Power to order property attached to be sold and proceeds be paid to person entitled.
- 285. Property attached in execution of decrees of several Courts.

*G.—Of Sale and Delivery of Property.**(a). General Rules.*

- 286. Sales by whom conducted and how made.
- 287. Proclamation of sales by public auction. Rules to be made by High Court.
- 288. Indemnity of Judges, &c.
- 289. Mode of making proclamation.
- 290. Time of sale.
- 291. Power to adjourn sale.
Stoppage of sale on tender of debt and costs, or on proof of payment.
- 292. Officers concerned in execution-sales not to bid for or buy property sold.
- 293. Defaulting purchaser answerable for loss by re-sale.
- 294. Decree-holder not to bid for or buy property without permission.
If decree-holder purchase, amount of decree may be taken as payment.
- 295. Proceeds of execution sale to be divided rateably among decree-holders.
Proviso where property is sold subject to mortgage.

(b). Rules as to Moveable Property.

- 296. Rules as to negotiable securities and shares in public companies.
- 297. Payment for moveable property sold.
- 298. Irregularity not to vitiate sale of moveable property, but any person injured may sue.
- 299. Delivery of moveable property belonging to defendant actually seized.
- 300. Delivery of moveable property to which judgment-debtor is entitled subject to lien.
- 301. Delivery of debts and of shares in public companies.
- 302. Transfer of negotiable instruments and shares.
- 303. Vesting order in case of other property.

(c). Rules as to Immoveable Property.

- 304. Sales of land by Court not inferior to a District Court.
- 305. Postponement of sale of land to enable defendant to raise amount of decree.
Certificate to judgment-debtor.
- 306. Deposit by purchaser of immoveable property.
- 307. Time for payment in full.
- 308. Procedure in default of payment.
- 309. Notification on re-sale of immoveable property.
- 310. Co-sharer of a share of undivided estate sold in execution to have preference in bidding.
- 311. Sale of land not set aside on ground of irregularity unless in case of substantial injury.
- 312. Effect of objection being disallowed and of its being allowed.
- 313. Power to apply to set aside the sale.

SECTIONS.

- 314. Confirmation of sale.
- 315. If sale set aside, price to be returned to purchaser.
- 316. Certificate to purchaser of immoveable property.
Certificate to state name of actual purchaser.
- 317. Benámi purchaser not recognized.
- 318. Delivery of immoveable property in occupancy of judgment-debtor.
- 319. Delivery of immoveable property in the occupancy of tenant.
- 320. Power to prescribe rules for transferring to Collector execution of decrees and sale of land.
Power to prescribe rules as to transmission, execution and re-transmission of decrees.
- 321. Power of Collector as to sale of land in execution of decree.
- 322. Powers of Collector as to execution of certain money-decrees so transferred.
- 323. Procedure of Collector.
- 324. Sale by Collector.
- 325. Sale, &c., to be reported to Court by Collector.
Application of balance.
- 326. When Court may authorize Collector to stay public sale of land.
- 327. Local rules as to sales of land in execution of decrees for money.

(II).—Of Resistance to Execution.

- 328. Procedure in case of obstruction to execution of decree.
- 329. Procedure in case of obstruction by judgment-debtor or at his instigation.
- 330. Procedure when obstruction continues.
- 331. Procedure in case of obstruction by claimant in good faith, other than judgment-debtor.
- 332. Procedure in case of person dispossessed of property disputing right of decree-holder to be put into possession.
- 333. Orders passed under sections 331 and 332 to have force of decrees, and to be subject to appeal.
- 334. Resisting or obstructing purchasers in obtaining possession of immoveable property.
- 335. Obstruction by claimant other than defendant.

(I).—Of Arrest and Imprisonment.

- 336. Place of judgment-debtor's imprisonment. Arrest in houses.
Proviso.
- 337. Warrant for arrest to direct judgment-debtor to be brought up.
- 338. Scales of subsistence allowances.
- 339. Judgment-debtor's subsistence-money.
- 340. Subsistence money to be added to amount of decree.
- 341. Release of judgment-debtor.
- 342. Imprisonment not to exceed six months.
When not to exceed six weeks.
- 343. Endorsement on warrant.

CHAPTER XX.

OF INSOLVENT JUDGMENT-DEBTORS.

- 344. Power to apply to be declared an insolvent.

SECTIONS.

- 345. Contents of application.
- 346. Subscription and verification of application.
- 347. Service on decree-holder of copy of application and notice.
- 348. Power to serve other creditors.
- 349. Powers of Court as to applicant under arrest.
- 350. Procedure at hearing.
- 351. Declaration of insolvency and appointment of Receiver.
- 352. Creditors to prove their debts. Schedule to be framed.
- 353. Applications by creditors.
- 354. Effect of order appointing Receiver.
- 355. Receiver to give security and collect assets.
Discharge of insolvent.
- 356. Duty of Receiver.
His right to remuneration.
Delivery of surplus.
- 357. Effect of discharge.
- 358. When Court may declare insolvent absolved from further liability.
- 359. Procedure in case of dishonest applicant.
- 360. Investment of other Courts with powers of District Courts.
Transfer of cases.

PART II. OF INCIDENTAL PROCEEDINGS.

CHAPTER XXI.

OF THE DEATH, MARRIAGE AND INSOLVENCY OF PARTIES.

- 361. No abatement by party's death, if cause of action survive.
- 362. Proceeding in case of death of one of several plaintiffs or defendants, if cause of action survive.
- 363. Proceeding in case of death of one of several plaintiffs where cause of action survives to survivors and representative of deceased.
- 364. Proceeding where no application made by representative of deceased plaintiff.
- 365. Proceeding in case of death of sole, or sole surviving, plaintiff.
- 366. Abatement where no application by representative of deceased plaintiff.
- 367. Proceeding in case of dispute as to representative of deceased plaintiff.
- 368. Procedure in case of death of one of several defendants, or of sole or sole surviving defendant.
- 369. Suit not abated by marriage of female party.
- 370. When plaintiff's bankruptcy or insolvency bars suit.
Procedure when assignee fails to continue suit or give security.
- 371. Effect of abatement on parties' rights.
Application to set aside abatement or dismissal.
- 372. Procedure in case of assignment pending the suit.

CHAPTER XXII.

OF THE WITHDRAWAL AND ADJUSTMENT OF SUITS.

- 373. Power to allow plaintiff to withdraw with liberty to bring fresh suit.

SECTIONS.

- 374. Limitation-law not affected by first suit.
- 375. Compromise of suits.

CHAPTER XXIII.

OF PAYMENT INTO COURT.

- 376. Deposit by defendant of amount in satisfaction of claim.
- 377. Notice of deposit.
- 378. Interest on sum deposited not allowed to plaintiff after receipt of notice.
- 379. Procedure where plaintiff accepts deposit as satisfaction in part.
Procedure where he accepts it as satisfaction in full.

CHAPTER XXIV.

OF REQUIRING SECURITY FOR COSTS.

- 380. When security for costs may be required from plaintiff at any stage of suit.
- 381. Procedure where requisition is not complied with.
- 382. Residence out of British India.

CHAPTER XXV.

OF COMMISSIONS.

A.—Commissions to examine Witnesses.

- 383. Cases in which Court may issue commission to examine witness.
- 384. Order for commission may be made either on application of parties or by Court of its own accord.
- 385. When witness resides within Court's jurisdiction.
- 386. When witness resides beyond Court's jurisdiction in British India.
When witness is within local limits of ordinary original civil jurisdiction of a High Court.
- 387. When witness is not within British India.
- 388. Court to examine witness pursuant to commission.
- 389. Commission when executed to be returned to Court issuing it with depositions of witnesses.
- 390. When depositions may be read in evidence.
- 391. Provisions as to execution and return of commissions to apply to commissions issued by Foreign Courts.

B.—Commissions for Local Investigations.

- 392. Commission to make local investigations.
- 393. Procedure of Commissioner.
Report and depositions to be evidence in suit.
Commissioner may be examined in person.

C.—Commissions to examine Accounts.

- 394. Commission to examine or adjust accounts.
- 395. Court to give Commissioner necessary instructions.
Proceedings of Commissioner receivable in evidence.
Power to make further enquiry.

D.—Commission to make Partition.

- 396. Commission to make partition of non-revenue-paying immoveable property.

E.—General Provisions.

SECTIONS.

- 397. Expenses of commission to be paid into Court.
- 398. Commissioner may examine parties and witnesses and call for papers.
- 399. Attendance, examination and punishment of witnesses before Commissioner.
- 400. Procedure *ex parte* where parties do not appear.

PART III.**OF SUITS IN PARTICULAR CASES.****CHAPTER XXVI.**

SUITS BY PAUPERS.

- 401. Suits may be brought *in formâ pauperis*.
- 402. What suits excepted.
- 403. Application to be in writing.
Contents of application.
- 404. Presentation of application.
- 405. Rejection of application.
- 406. Examination of applicant.
If presented by agent, Court may order applicant to be examined by commission.
- 407. Rejection of application.
- 408. Notice of day for receiving evidence of applicant's pauperism.
- 409. Procedure at hearing.
- 410. Procedure if application admitted.
- 411. Costs when pauper succeeds.
Recovery of court-fees.
- 412. Procedure when pauper fails.
- 413. Refusal to allow applicant to sue as pauper to bar subsequent application of like nature.
- 414. Dispaupering.
- 415. Costs.

CHAPTER XXVII.

SUITS BY OR AGAINST GOVERNMENT OR PUBLIC OFFICERS.

- 416. Suits by or against Secretary of State in Council.
- 417. Persons authorized to act for Government.
- 418. Plaints in suits by Secretary of State in Council.
- 419. Agent of Government to receive process.
- 420. Appearance and answer by Secretary of State in Council.
- 421. Attendance of person able to answer questions relating to suit against Government.
- 422. Service on public officers.
- 423. Extension of time to enable officer to make reference to Government.
- 424. Notice previous to suing Secretary of State in Council or public officer.
- 425. Arrests in such suits.
- 426. Application where Government undertakes defence.
- 427. Procedure where no such application made.
Defendant not liable to arrest before judgment.
- 428. Exemption of public officers from personal appearance.
- 429. Procedure where decree is against Government or a public officer.

CHAPTER XXVIII.

SUITS BY ALIENS AND BY OR AGAINST FOREIGN AND NATIVE RULERS.

SECTIONS.

- 430. When aliens may sue.
- 431. When a foreign State may sue.
- 432. Persons specially appointed by Government to prosecute or defend for Princes or Chiefs.
- 433. Suits against Sovereign Princes, &c.
Sovereign Princes, &c., exempt from arrest.
When their property may be attached.
- 434. Execution in British India of decrees or Courts of Native States.

CHAPTER XXIX.

SUITS BY AND AGAINST CORPORATIONS AND COMPANIES.

- 435. Subscription and verification of plaint.
- 436. Service on Corporation or Company.

CHAPTER XXX.

SUITS BY AND AGAINST TRUSTEES, EXECUTORS AND ADMINISTRATORS.

- 437. Representation of beneficiaries in suits concerning property vested in trustees, &c.
- 438. Joinder of executors and administrators.
- 439. Husband of married executrix not to join.

CHAPTER XXXI.

SUITS BY AND AGAINST MINORS AND PERSONS OF UNSOUND MIND.

- 440. Minor must sue by next friend.
Costs.
- 441. Applications to be made by next friend or guardian *ad litem*.
- 442. Plaint filed without next friend to be taken off the file.
Costs.
- 443. Guardian *ad litem* to be appointed by the Court.
- 444. Order obtained without next friend or guardian may be discharged.
Costs.
- 445. Who may be next friend.
- 446. Removal of next friend.
- 447. Retirement of next friend.
Application for appointment of new next friend.
- 448. Stay of proceedings on death or removal of next friend.
- 449. Application for appointment of new next friend.
- 450. Course to be followed by minor plaintiff or applicant on coming of age.
- 451. Where he elects to proceed.
- 452. Where he elects to abandon.
- 453. Making and proving applications under sections 451, 452.
- 454. When minor co-plaintiff.
Costs.
- 455. When suit unreasonable or improper.
Costs.
- 456. Petition for appointment of guardian *ad litem*.

SECTIONS.

457. Who may be guardian *ad litem*.
 458. Guardian neglecting his duty may be removed.
 Costs.
 459. On death or removal of guardian *pendente lite*, new guardian to be appointed.
 460. When decree to be enforced against heir or representative.
 461. Before decree, next friend or guardian *ad litem* not to receive money without leave of Court and giving security.
 462. Next friend or guardian *ad litem* not to compromise without leave of Court.
 Compromise without leave voidable.
 463. Application of sections 440 to 462 to persons of unsound mind.
 464. Wards of Court.

CHAPTER XXXII.

SUITS BY AND AGAINST MILITARY MEN.

465. Officers or soldiers who cannot obtain leave may authorize any person to sue or defend for them.
 466. Person so authorized may act personally or appoint pleaders.
 467. Service on person so authorized, or on his pleader, to be good service.
 468. Service on officers and soldiers.
 469. Execution of warrant of arrest in cantonments, &c.

CHAPTER XXXIII.

INTERPLEADER.

470. When interpleader-suit may be instituted.
 471. Plaint in such suit.
 472. Payment of thing claimed into Court.
 473. Procedure at first hearing.
 474. When agents and tenants may institute interpleader-suits.
 475. Charge of plaintiff's costs.
 476. Procedure where a defendant is suing stakeholder.
 Costs.

PART IV.

PROVISIONAL REMEDIES.

CHAPTER XXXIV.

OF ARREST AND ATTACHMENT BEFORE JUDGMENT.

A.—Arrest before Judgment.

477. When plaintiff may apply that security be taken.
 478. Order to bring up defendant to show cause why he should not give security.
 479. If defendant fail to show cause, Court may order him to make deposit or give security.
 480. Procedure in case of application by surety to be discharged.
 481. Procedure where defendant fails to give security or find fresh security.
 482. Subsistence of defendant arrested.

B.—Attachment before Judgment.

483. Application before judgment for security from defendant to satisfy decree, and in default, for attachment of property.
 Contents of application.

SECTIONS.

484. Court may call on defendant to furnish security or show cause.
 485. Attachment if cause not shown or security not furnished.
 Withdrawal of attachment.
 486. Mode of making attachment.
 487. Investigation of claims to property attached before judgment.
 488. Removal of attachment when security furnished.
 489. Attachment not to affect rights of strangers, or bar the decree-holder from applying for sale.
 490. Property attached under this chapter, not to be re-attached in execution of decree.

C.—Compensation for improper Arrests or Attachments.

491. Compensation for obtaining arrest or attachment on insufficient grounds.
 Proviso.

CHAPTER XXXV.

OF TEMPORARY INJUNCTIONS AND INTERLOCUTORY ORDERS.

A.—Temporary Injunctions.

492. Cases in which temporary injunction may be granted.
 493. Injunction to restrain repetition or continuance of breach.
 494. Before granting injunction, Court may direct notice to be given to opposite party.
 495. Injunction to corporation binding on its members and officers.
 496. Order for injunction may be discharged, varied or set aside.
 497. Compensation to defendant for issue of injunction on insufficient grounds.
 Proviso.

B.—Interlocutory Orders.

498. Power to order interim sale of perishable articles.
 499. Power to make order for detention, &c., of subject-matter and to authorize entry, taking of samples and experiments.
 500. Application for such orders to be after notice.
 501. When party may be put in immediate possession of land, the subject of suit.
 502. Deposit of money, &c., in Court.

CHAPTER XXXVI.

APPOINTMENT OF RECEIVERS.

503. Power of Court to appoint Receivers.
 Receiver's liabilities.
 504. When Collector may be appointed Receiver.
 505. Courts empowered under this chapter.

PART V.

OF SPECIAL PROCEEDINGS.
CHAPTER XXXVII.

REFERENCE TO ARBITRATION.

506. Parties to suit may apply for order of reference.

SECTIONS.

- 507. Nomination of arbitrator.
When Court to nominate arbitrator.
- 508. Order of reference.
- 509. When reference is to two or more, order to provide for difference of opinion.
- 510. Death, incapacity, &c., of arbitrators or umpire.
- 511. Appointment of umpire by Court.
- 512. Powers of arbitrator or umpire appointed under sections 509, 510, 511.
- 513. Summoning witnesses.
Punishment for default, &c.
- 514. Extension of time for making award.
- 515. When umpire may arbitrate in lieu of arbitrators.
- 516. Award to be signed and filed.
- 517. Arbitrators or umpire may state special case.
- 518. Court may, on application, modify or correct award in certain cases.
- 519. Order as to costs of arbitration.
- 520. When award or matter referred to arbitration may be remitted.
- 521. Grounds for setting aside award.
- 522. Judgment to be according to award.
Decree to follow.
- 523. Agreement to refer to arbitration may be filed in Court.
Application to be numbered and registered.
Notice to show cause against filing it.
- 524. Provisions of this chapter applicable to proceedings under order of reference.
- 525. Filing award in matter referred to arbitration without intervention of Court.
Application to be numbered and registered.
Notice to parties to arbitration.
- 526. Filing and enforcement of such award.

CHAPTER XXXVII.

OF PROCEEDINGS ON AGREEMENT OF PARTIES.

- 527. Power to state case for Court's opinion.
- 528. When value of subject-matter must be stated.
- 529. Agreement to be filed and numbered as a suit.
- 530. Parties to be subject to Court's jurisdiction.
- 531. Hearing and disposal of the case.

CHAPTER XXXIX.

OF SUMMARY PROCEDURE ON NEGOTIABLE INSTRUMENTS.

- 532. Institution of summary suits upon bills of exchange, &c.
Payment into Court of sum mentioned in summons.
- 533. Defendant showing defence on merits to have leave to appear.
- 534. Power to set aside decree.
- 535. Power to order bill to be deposited with officer of Court.
- 536. Recovery of cost of noting non-acceptance of dishonoured bill.
- 537. Procedure in suits under this chapter.
- 538. Power to extend this chapter.

CHAPTER XL.

OF SUITS RELATING TO PUBLIC CHARITIES.

- 539. When suit relating to public charities may be brought.

PART VI.
OF APPEALS.

CHAPTER XLI.

OF APPEALS FROM ORIGINAL DECREES.

SECTIONS.

- 540. Appeal to lie from all original decrees, except when expressly prohibited.
- 541. Form of appeal.
Memorandum to be accompanied by copy of decree and judgment.
Memorandum of appeal.
- 542. Appellant confined to grounds set out.
- 543. Rejection of memorandum or grounds of objection.
- 544. One of several plaintiffs or defendants may obtain reversal of whole decree if it proceed on ground common to all.

Of staying and executing Decrees under Appeal.

- 545. Execution of decree not stayed solely by reason of appeal.
Stay of execution of appealable decree before time for appealing has expired.
Security required before making order to stay execution.
- 546. Security in case of order for execution of decree appealed against.
- 547. No such security to be required from Government or public officers.

Of Procedure in Appeal from Decrees.

- 548. Registry of memorandum of appeal.
- 549. Appellate Court may require appellant to give security for costs.
When appellant resides out of British India.
- 550. Appellate Court to give notice to Court whose decree is appealed against.
Transmission of papers to Appellate Court.
Copies of exhibits in Court whose decree is appealed against.
- 551. Power to confirm decision of lower Court without sending it notice.
- 552. Day for hearing appeal.
- 553. Publication and service of notice of day for hearing appeal.
Appellate Court may itself cause notice to be served.
- 554. Contents of notice.

Procedure on Hearing.

- 555. Right to begin.
- 556. Dismissal of appeal for appellant's default.
Hearing appeal *ex parte*.
- 557. Dismissal of appeal where notice has not been served in consequence of appellant's failure to deposit cost of notice.
Proviso.
- 558. Re-admission of appeal dismissed for default.
- 559. Power to adjourn hearing, and direct persons appearing interested to be made respondents.
- 560. Re-hearing on application of respondent against whom *ex parte* decree is made.
- 561. Upon hearing respondent may object to decree as if he had preferred separate appeal.
Form of notice, and provisions applicable thereto.

SECTIONS.

- 562. Remand of case by Appellate Court.
- 563. When further evidence barred.
- 564. Limit to remand.
- 565. When evidence on record sufficient, Appellate Court shall determine case finally.
- 566. When Appellate Court may frame issues and refer them for trial to Court whose decree is appealed against.
- 567. Finding and evidence to be put on record. Objections to finding. Determination of appeal.
- 568. Production of additional evidence in Appellate Court.
- 569. Mode of taking additional evidence.
- 570. Points to be defined and recorded.

Of the Judgment in Appeal.

- 571. Judgment when and where pronounced.
- 572. Language of judgment.
- 573. Translation of judgment.
- 574. Contents of judgment. Date and signature. ●
- 575. Decision when appeal is heard by two or more Judges.
- 576. Dissent to be recorded.
- 577. What judgment may direct.
- 578. No decree to be reversed or modified for error or irregularity not affecting merits or jurisdiction.

Of the Decree in Appeal.

- 579. Contents of decree. Judge dissenting from judgment need not sign decree.
- 580. Copies of Judgment and decree to be furnished to parties.
- 581. Certified copy of decree to be sent to Court whose decree is appealed against.
- 582. Appellate Court to have same powers as Courts of original jurisdiction.
- 583. Execution of decree of Appellate Court.

CHAPTER XLII.

OF APPEALS FROM APPELLATE DECREES.

- 584. Second appeals to High Court. Grounds of second appeal.
- 585. Second appeal only on grounds mentioned in section 584.
- 586. No second appeal in certain suits.
- 587. Provisions as to second appeals.

CHAPTER XLIII.

OF APPEALS FROM ORDERS.

- 588. Orders appealable.
- 589. Court which shall hear appeals.
- 590. Procedure in appeals from orders.
- 591. No appeal, before decree, from order passed in course of suit; but if decree appealed against, error or defect therein may be set forth.

CHAPTER XLIV.

OF PAUPER APPEALS.

- 592. Who may appeal as pauper. Procedure on application for admission of appeal.
- 593. Enquiry into pauperism. Proviso.

CHAPTER XLV.

OF APPEALS TO THE QUEEN IN COUNCIL.

SECTIONS.

- 594. 'Decree' defined.
- 595. When appeals lie to Queen in Council.
- 596. Value of subject-matter.
- 597. Bar of certain appeals.
- 598. Application to Court whose decree is complained of.
- 599. Time within which application must be made.
- 600. Certificate as to value or fitness.
- 601. Effect of refusal of certificate.
- 602. Security and deposit required on grant of certificate.
- 603. Admission of appeal and procedure thereon.
- 604. Revocation of acceptance of security.
- 605. Power to order further security or payment.
- 606. Effect of failure to comply with order.
- 607. Refund of balance of deposit.
- 608. Powers of Court pending appeal.
- 609. Increase of security found inadequate.
- 610. Procedure to enforce orders of Queen in Council.
- 611. Appeal against order relating to execution.
- 612. Power to make rules. Publication of rules.
- 613. Legalization of existing rules.
- 614. Recorder of Rangoon.
- 615. Construction of Bengal Regulation III of 1828, section 4, clause 5.
- 616. Saving of Her Majesty's pleasure, and of rules for conduct of business before Judicial Committee.

PART VII.

CHAPTER XLVI.

OF REFERENCE TO AND REVISION BY THE HIGH COURT.

SECTIONS.

- 617. Reference of question to High Court.
- 618. Court may pass decree contingent upon opinion of High Court.
- 619. Judgment of High Court to be transmitted, and case disposed of accordingly.
- 620. Costs of reference to High Court.
- 621. Power to alter, &c., decrees of Court making reference.
- 622. Power to call for record of cases decided by Small Cause Courts, or, on appeal, by subordinate Courts.

PART VIII.

CHAPTER XLVII.

OF REVIEW OF JUDGMENT.

- 623. Application for review of judgment.
- 624. To whom applications for review may be made.
- 625. Form of applications for review.
- 626. Application when rejected. Application when granted. Proviso.
- 627. Application for review in Court consisting of two or more Judges.
- 628. Application when rejected.

SECTIONS.

629. Order of Court final.
630. Registry of application granted, and order for re-hearing.

PART IX.

CHAPTER XLVIII.

SPECIAL RULES RELATING TO THE CHARTERED HIGH COURTS.

631. This part to apply only to certain High Courts.
632. Application of Code to High Courts.
633. High Court to record judgments according to its own rules.
634. Power to order execution of decree before ascertainment of costs, and execution for costs subsequently.
635. Attorneys not to address Court except when authorized.
636. Process of High Courts may be served by attorneys in suit.
637. Non-judicial acts may be done by Registrar.
638. Sections not applying to High Court in original civil jurisdiction Code not to affect High Court in exercise of insolvent jurisdiction.
639. Power to frame forms.

PART X.

CHAPTER XLIX.

MISCELLANEOUS.

640. Exemption of certain women from personal appearance.
641. Local Government may exempt certain persons from personal appearance.
List of names of persons exempted to be kept in Subordinate Court
Costs of commission rendered necessary by claiming privilege.
642. Persons exempt from arrest.
643. Procedure in case of certain offences relating to documents.
644. Use of forms in fourth schedule.
Payment of subordinate Courts.
summons Registrars of Small Cause Courts
533. Defendant's cases.
534. Power to set aside proceedings.
535. Power to order affidavits as evidence.
536. Recovery of costs be attached is outside the area of dishonor
537. Procedure in suits in to all civil process for
538. Power to extend this Code

CHAPTER XL. OF WITNESSES.

- OF SUITS RELATING TO PUBLIC CHARACTER.
539. When suit relating to public character of property may be brought.

THE FIRST SCHEDULE.—A.—Statute repealed.
B.—Acts repealed.
C.—Regulation repealed.

THE SECOND SCHEDULE.—Chapters and sections extending to Mufassal Courts of Small Causes.

THE THIRD SCHEDULE.—Bombay enactments.

THE FOURTH SCHEDULE.—Forms.

An Act to Consolidate and amend the Laws relating to the Procedure of the Courts of Civil Judicature.

WHEREAS it is expedient to consolidate and amend the laws relating to the procedure of the Courts of Civil Judicature; It is hereby enacted as follows:—

PRELIMINARY.

1. This Act may be cited as "The Code of Civil Procedure;" and it shall come into force on the first day of October 1877.

This section and Section 3 extend to the whole of British India. The other sections extend to the whole of British India except the Scheduled Districts as defined in Act No. XIV of 1874.

2 In this Act, unless there be something repugnant in the subject or context) —

"chapter" means a chapter of this Code;
"district" means the local limits of the jurisdiction of a principal civil Court of original jurisdiction hereinafter called a 'District Court'; and includes the local limits of the ordinary original civil jurisdiction of a High Court; every Court of a grade inferior to that of a District Court and every Court of Small Causes shall, for the purposes of this Code, be deemed to be subordinate to the High Court and the District Court;

"pleader" means every person entitled to appear and plead for another in Court, and includes an advocate, a vakil and an attorney of a High Court;

"Government Pleader" includes also any officer appointed by the Local Government to perform all or any of the functions expressly imposed by this Code on the Government Pleader.

"Collector" means every officer performing the duties of a Collector of land-revenue;

"judgment" means the statement given by the Judge as the grounds of the order or decree by which a suit or other judicial proceeding is determined;

"decree" means the formal order of the Court in which the result of the decision of the suit or other judicial proceeding is embodied. An order on appeal, remanding a suit for re-trial, is not within this definition;

"Judge" means the presiding officer of a Court;

"judgment-debtor" means any person against whom a decree or order has been made:

"decree-holder" means any person in whose favour a decree or any order capable of execution has been made, and includes any person to whom such decree or order is transferred:

"written" includes printed and lithographed, and "writing" includes print and lithography:

"signed" includes "marked" when the person making the mark is unable to write his name:

"foreign Court" means a court situate beyond the limits of British India and not having authority in British India nor established by the Governor General in Council:

"foreign judgment" means the judgment of a foreign Court:

"public officer" means a person falling under any of the following descriptions (namely):—

Every Judge;

Every covenanted servant of Her Majesty;

Every commissioned officer in the military or naval forces of Her Majesty while serving under Government;

Every officer of a Court of Justice whose duty it is, as such officer, to investigate or report on any matter of law or fact, or to make, authenticate or keep any document, or to take charge or dispose of any property, or to execute any judicial process, or to administer any oath, or to interpret, or to preserve order in the Court, and every person specially authorized by a Court of Justice to perform any of such duties;

Every person who holds any office by virtue of which he is empowered to place or keep any person in confinement;

Every officer of Government whose duty it is, as such officer, to prevent offences, to give information of offences, to bring offenders to justice, or to protect the public health, safety or convenience;

Every officer whose duty it is, as such officer, to take, receive, keep or expend any property on behalf of Government, or to make any survey, assessment or contract on behalf of Government, or to execute any revenue process, or to investigate, or to report on any matter affecting the pecuniary interests of Government, or to make, authenticate or keep any document relating to the pecuniary interests of Government, or to prevent the infraction of any law for the protection of the pecuniary interests of Government, and every officer in the service or pay of Government, or remunerated by fees or commission for the performance of any public duty.

And in any part of British India in which this Code operates, "Government" includes the Government of India as well as the Local Government.

3. The enactments specified in the first schedule hereto annexed are hereby repealed to the extent mentioned in the third column of the same schedule.

But when in any Act, Regulation or Notification passed or issued prior to the day on which this Code comes into force, reference is made to Act VIII of 1859, Act XXIII of 1861, or the 'Code of Civil Procedure,' or to any other Act hereby repealed, such reference shall, so far as may be practicable, be read as applying to this Code or the corresponding part thereof;

Nothing herein contained shall affect the procedure prior to decree in any suit instituted or appeal presented before this Code comes into force.

4. Save as provided in the second paragraph of section 3, nothing herein contained shall be deemed to affect the following enactments (namely):—

The Central Provinces Courts Act, 1865:

The Panjáb Courts Act, 1865:

Act No. XXVII of 1867:

The Oudh Civil Courts Act, 1871:

The Panjáb Appeals Act, 1873:

The Burma Courts Act, 1875:

or any local law prescribing a special procedure for suits between landlord and tenant,

or any local law providing for the partition of immoveable property.

And where under any of the said Acts concurrent civil jurisdiction is given to the Commissioner and the Deputy Commissioner, the Local Government may declare which of such officers shall for the purposes of this Code be deemed to be the District Court.

5. The chapters and sections of this Code specified in the second schedule hereto annexed extend (so far as they are applicable) to Courts of Small Causes constituted under Act No. XI of 1865. The other chapters and sections of this Code do not extend to such Courts. And nothing herein contained shall be deemed to enlarge the powers which such Courts now possess for the purposes of effecting attachments or executing decrees.

6. Nothing in this Code affects the jurisdiction or procedure—

(a) of Military Courts of Request;

(a) of Military Courts of Request;

(b) of a single officer duly appointed in the Presidency of Bombay to try small suits in military bázars at cantonments and stations occupied by the troops of that Presidency; or

(c) of Village Munsifs and Village Panchayats in Madras

(c) of Village Munsifs or Village Panchayats under the provisions of the Madras Code;

(d) of the Recorder of Rangoon sitting as an Insolvent Court, Maulmain, Akyab or Bassein,

or shall operate to give any Court jurisdiction over suits of which the amount or value of the subject-matter exceeds the pecuniary limits (if any) of its ordinary jurisdiction.

7. With respect to—

Saving of certain Bombay laws. (a) the jurisdiction exercised by certain jâgirdârs and other authorities invested with powers under the provisions of Bombay Regulation XIII of 1830 and Act XV of 1840 in the cases therein mentioned; and

(b) cases of the nature defined in the enactments specified in the third schedule hereto annexed,

the procedure in such cases and in the appeals to the Civil Courts allowed therein, shall be according to the rules laid down in this Code, except where those rules are inconsistent with any specific provisions contained in the enactments mentioned or referred to in this section.

8. Save as provided in sections 3, 25, 86, 223, 225, 886 and chapter XXXIX, this

Presidency Small Cause Courts. Code shall not extend to any suit or proceeding in any Court of Small Causes established in the towns of Calcutta, Madras and Bombay.

But the Local Government may, by notification published in the official Gazette, extend to any such Court this Code or any part thereof, except so far as relates to appeals and reviews of judgment.

Division of Code.

9. This Code is divided into ten Parts as follows:—

- The first Part: Suits in General.
- The second Part: Incidental Proceedings.
- The third Part: Suits in particular Cases.
- The fourth Part: Provisional Remedies.
- The fifth Part: Special Proceedings.
- The sixth Part: Appeals.
- The seventh Part: Reference to and Revision by the High Court.
- The eighth Part: Review of Judgment.
- The ninth Part: Special Rules relating to the Chartered High Courts.
- The tenth Part: Certain Miscellaneous Matters.

PART I. OF SUITS IN GENERAL.

CHAPTER I.

OF THE JURISDICTION OF THE COURTS AND RES JUDICATA.

No person exempt from jurisdiction by reason of descent or place of birth. 10. No person shall, by reason of his descent or place of birth, be in any civil proceeding exempted from the jurisdiction of any of the Courts.

11. The Courts shall (subject to the provisions Courts to try all civil suits unless specially barred.) herein contained) have jurisdiction to try all suits of a civil nature excepting suits of which their cognizance is barred by any enactment for the time being in force.

Explanation.—A suit in which the right to property or to an office is contested is a suit of a civil nature, notwithstanding that such right may depend entirely on the decision of questions as to religious rites or ceremonies.

12. Except where a suit has been stayed under section 20, the Court shall not try any suit in which the matter in issue is also directly and substantially

in issue in a previously instituted suit for the same relief between the same parties, or between parties under whom they or any of them claim, pending in the same or any other Court, whether superior or inferior, in British India having jurisdiction to grant such relief, or in any Court beyond the limits of British India established by the Governor General in Council and having like jurisdiction, or before Her Majesty in Council.

Explanation.—The pendency of a suit in a foreign Court does not preclude the Courts in British India from trying a suit founded on the same cause of action.

13. No Court shall try any suit or issue, in which the matter directly and substantially in issue has been heard and finally decided by a Court of competent jurisdiction, in a former suit between the same parties, or between parties under whom they or any of them claim, litigating under the same title.

Explanation I.—The matter above referred to must in the former suit have been alleged by one party and either denied or confessed, expressly or impliedly, by the other.

Explanation II.—Any matter which might and ought to have been made ground of defence or attack in such former suit shall be deemed to have been a matter directly and substantially in issue in such suit.

Explanation III.—Any relief claimed in the plaint, which is not expressly granted by the decree, shall, for the purpose of this section, be deemed to have been refused.

Explanation IV.—A decision is final within the meaning of this section when it is such as the Court making it could not alter (except on review) on the application of either party or reconsider of its own motion. A decision liable to appeal may be final within the meaning of this section until the appeal is made.

Explanation V.—Where persons litigate *bona fide* in respect of a private right claimed in common for themselves and others, all persons interested in such right shall, for the purpose of this section, be deemed to claim under the persons so litigating.

Explanation VI.—Where a foreign judgment is relied on, the production of the judgment duly authenticated is presumptive evidence that the Court which made it had competent jurisdiction, unless the contrary appear on the record; but such presumption may be removed by proving the want of jurisdiction.

When foreign judgment no bar to suit in British India. 14. No foreign judgment shall operate as a bar to a suit in British India—

(a) if it has not been given on the merits of the case:

(b) if it appears on the face of the proceedings to be founded on an incorrect view of international law or of any law in force in British India:

(c) if it is in the opinion of the Court before which it is produced contrary to natural justice:

(d) if it has been obtained by fraud:

(e) if it sustains a claim founded on a breach of any law in force in British India.

CHAPTER II.

OF THE PLACE OF SUING.

15. Every suit shall be instituted in the Court of the lowest grade competent to try it.

Suits to be instituted where subject-matter situate.

- 16.** Subject to the pecuniary or other limitations prescribed by any law, suits—
- (a) for the recovery of immoveable property,
 - (b) for the partition of immoveable property,
 - (c) for the foreclosure or redemption of a mortgage of immoveable property,
 - (d) for the determination of any other right to or interest to or in immoveable property,
 - (e) for compensation for wrong to immoveable property,
 - (f) for the recovery of moveable property actually under distraint or attachment,
- shall be instituted in the Court within the local limits of whose jurisdiction the property is situate:

Provided that suits to obtain relief respecting, or compensation for wrong to, immoveable property held by or on behalf of the defendant may, when the relief sought can be entirely obtained through his personal obedience, be instituted either in the Court within the local limits of whose jurisdiction the property is situate, or in the Court within the local limits of whose jurisdiction he actually and voluntarily resides, or carries on business, or personally works for gain.

Explanation.—In this section 'property' means property situate in British India.

17. Subject to the limitations afore-said, all other suits shall be instituted in a Court within the local limits of whose jurisdiction—

- (a) the cause of action arises, or
- (b) all the defendants, at the time of the commencement of the suit, actually and voluntarily reside, or carry on business, or personally work for gain; or
- (c) any of the defendants, at the time of the commencement of the suit, actually and voluntarily resides, or carries on business, or personally works for gain: provided that either the leave of the Court is given, or the defendants who do not reside, or carry on business, or personally work for gain as aforesaid acquiesce in such institution.

Explanation I.—Where a person has a permanent dwelling at one place and also a lodging at another place for a temporary purpose only, he shall be deemed to reside at both places in respect of any cause of action arising at the place where he has such temporary lodging.

Explanation II.—A Corporation or Company shall be deemed to carry on business at its sole or principal office in British India or, in respect of any cause of action arising at any place where it has also a subordinate office, at such place.

Illustrations.

(a.) A is a tradesman in Calcutta. B carries on business in Delhi. B, by his agent in Calcutta, buys goods of A, and requests A to deliver them to the East Indian Railway Company. A delivers the goods accordingly in Calcutta. A may sue B for the price of the goods either in Calcutta, where the cause of action has arisen, or in Delhi, where B carries on business.

(b.) A resides at Simla, B at Calcutta, and C at Delhi. A, B and C being together at Benares, B and C make a joint promissory note payable on demand, and deliver it to A. A may sue B and C at Benares, where the cause of action arose. He may also sue them at Calcutta, where B resides, or at Delhi, where C resides; but in each of these cases, if the non-resident defendant objects, the suit cannot be maintained without the leave of the Court.

18. In suits for compensation for wrong done to person or moveable property, if the wrong was done within the local limits of the jurisdiction of one Court and the defendant resides, or carries on business, or personally works for gain within the local limits of the jurisdiction of another Court, the plaintiff may at his option sue in either of the said Courts.

Illustrations.

(a.) A, residing in Delhi, beats B in Calcutta. A may sue B either in Calcutta or in Delhi.

(b.) A, residing in Delhi, publishes in Calcutta statements defamatory of B. B may sue A either in Calcutta or in Delhi.

(c.) A, travelling on the line of a Railway Company whose principal office is at Howrah, is upset and injured at Allahabad by negligence imputable to the Company. He may sue the Company either at Howrah or at Allahabad.

19. If the suit be to obtain relief respecting, or compensation for wrong to, immoveable property situate within the limits of a single district, but within the jurisdiction of different Courts, the suit may be instituted in the Court within whose jurisdiction any portion of the property is situate; provided that, in respect of the value of the subject-matter of the suit, the entire claim be cognizable by such Court.

If the immoveable property be situate within the limits of different districts, the suit may be instituted in any Court, otherwise competent to try it, within whose jurisdiction any portion of the property is situate.

20. If a suit which may be instituted in more than one Court is instituted in a Court within the local limits of whose jurisdiction the defendant or all the defendants does not or do not actually and voluntarily reside, or carry on business, or personally work for gain, the defendant or any defendant may, after giving notice in writing to the other parties of his intention to apply to the Court to stay proceedings, apply to the Court accordingly;

and if the Court, after hearing such of the parties as desire to be heard, is satisfied that justice is more likely to be done by the suit being instituted in some other Court, it may stay proceedings either finally or till farther order, and make such order as it thinks fit as to the costs already incurred by the parties or any of them.

In such case, if the plaintiff so requires, the Court shall return the plaint with an endorsement thereon of the order staying proceedings.

Every such application shall be made at the earliest possible opportunity, and in all cases before the issues are settled; and any defendant not so applying shall be deemed to have acquiesced in the institution of the suit.

21. Where the Court, under section 20, stays

Remission of court-fee where suit instituted in another Court. proceedings, and the plaintiff re-institutes his suit in another Court, the plaintiff shall not be chargeable with any court-fee; provided that the proper fee has been levied on the institution of the suit in the former Court, and that the plaintiff has been returned by such Court.

22. Where a suit may be instituted in more

Procedure where Courts in which suit may be instituted are subordinate to the same appellate Court. Courts than one, and such Courts are subordinate to the same appellate Court, any defendant, after giving notice in writing to the other parties of his intention to apply to such Court to transfer the suit to another Court, may apply accordingly; and the appellate Court, after hearing the other parties, if they desire to be heard, shall determine in which of the Courts having jurisdiction the suit shall proceed.

23. Where such Courts are subordinate to different appellate Courts,

Procedure where they are not so subordinate. but are subordinate to the same High Court, any defendant, after giving notice in writing to the other parties of his intention to apply to the High Court to transfer the suit to another Court having jurisdiction, may apply accordingly. If the suit is brought in any Court subordinate to a District Court, the application, together with the objections, if any, filed by the other parties, shall be submitted through the District Court to which such Court is subordinate. The High Court may, after considering the objections, if any, of the other parties, determine in which of the Courts having jurisdiction the suit shall proceed.

24. Where such Courts are subordinate to different High Courts,

Procedure where they are subordinate to different High Courts. any defendant may, after giving notice in writing to the other parties of his intention to apply to the High Court within whose jurisdiction the Court in which the suit is brought is situate, apply accordingly.

If the suit is brought in any Court subordinate to a District Court, the application, together with the objections, if any, filed by the other parties, shall be submitted through the District Court to which such Court is subordinate,

and such High Court shall, after considering the objections, if any, of the other parties, determine in which of the several Courts having jurisdiction the suit shall proceed.

25. The High Court or District Court may, on

Transfer of suits. the application of any of the parties, after giving notice to the parties and hearing such of them as desire to be heard, or of its own motion, without giving such notice, withdraw any suit whether pending in a Court of first instance or in a Court of appeal subordinate to such High Court or District Court, as the case may be, and try the suit itself, or transfer it for trial to any other such subordinate Court competent to try the same in respect of its nature and the amount or value of its subject-matter.

For the purposes of this section, the Courts of Additional and Assistant Judges shall be deemed to be subordinate to the District Court.

The Court trying any suit withdrawn under this section from a Court of Small Causes shall, for the purposes of such suit, be deemed to be a Court of Small Causes.

CHAPTER III.**OF PARTIES AND THEIR APPEARANCES, APPLICATIONS AND ACTS.****26. All persons may be joined as plaintiffs in**

Persons who may be joined as plaintiffs. whom the right to any relief claimed is alleged to exist, whether jointly, severally, or in the alternative, in respect of the same cause of action. And judgment may be given for such one or more of the plaintiffs as may be found to be entitled to relief, for such relief as he or they may be entitled to, without any amendment. But the defendant, though unsuccessful, shall be entitled to his costs occasioned by so joining any person who is not found entitled to relief, unless the Court in disposing of the costs of the suit otherwise directs.

27. Where a suit has been instituted in the

Court may substitute name of the wrong person as or add plaintiff for or to plaintiff suing. plaintiff, or where it is doubtful whether it has been instituted in the name of the right plaintiff, the Court may, if satisfied that the suit has been so commenced through a *bonâ fide* mistake, and that it is necessary for the determination of the real matter in dispute so to do, order any other person or persons to be substituted or added as plaintiff or plaintiffs upon such terms as the Court thinks just.

28. All persons may be joined as defendants

Persons who may be joined as defendants. against whom the right to any relief is alleged to exist, whether jointly, severally or in the alternative, in respect of the same matter. And judgment may be given against such one or more of the defendants as may be found to be liable, according to their respective liabilities, without any amendment.

29. The plaintiff may, at his option, join as

Joinder of parties liable on same contract. parties to the same suit all or any of the persons severally, or jointly and severally, liable on any one contract, including parties to bills of exchange, hundis and promissory notes.

30. Where there are numerous parties having

One party may sue defend on behalf of all in same interest. the same interest in one suit, one or more of such parties may, with the permission of the Court, sue or be sued, or may defend in such suit, on behalf of all parties so interested. But the Court shall in such case give, at the plaintiff's expense, notice of the institution of the suit to all such parties either by personal service or (if from the number of parties or any other cause such service is not reasonably practicable), then by public advertisement, as the Court in each case may direct.

31. No suit shall be defeated by reason of the

Suit not to fail by misjoinder of parties, and reason of misjoinder. the Court may in every suit deal with the matter in controversy so far as regards the rights and interests of the parties actually before it.

Nothing in this section shall be deemed to enable plaintiffs to join in respect of distinct causes of action.

32. The Court may, on or before the first hearing, upon the application of either party, and on such terms as the Court thinks just, order that the name of any party, whether as plaintiff or as defendant, improperly joined, be struck out; and the Court may at any time, either upon or without such application, and on such terms as the Court thinks just, order that any plaintiff be made a defendant or that any defendant be made a plaintiff, and that the name of any person who ought to have been joined whether as plaintiff or defendant or whose presence before the Court may be necessary in order to enable the Court effectually and completely to adjudicate upon and settle all the questions involved in the suit, be added.

No person shall be added as a plaintiff, or as the next friend of a plaintiff, without his own consent thereto.

No one to be added as plaintiff or as next friend without his consent.

Any person on whose behalf a suit is instituted or defended under section 30 may apply to the Court to be made a party to such suit.

Parties to suits instituted or defended under section 30.

All parties whose names are so added as defendants shall be served with a summons in manner hereinafter mentioned, and (subject to the provisions of the Indian Limitation Act, section 22) the proceedings as against them shall be deemed to have begun only on the service of such summons.

Defendants added to be served.

The Court may give the conduct of the suit to such plaintiff as it deems proper.

33. Where a defendant is added, the plaintiff, if previously filed, shall, unless the Court direct otherwise, be amended in such manner as may be necessary, and an amended copy of the summons shall be served on the new defendant and the original defendants.

34. All objections for want of parties, or for joinder of parties who have no interest in the suit, or for misjoinder as co-plaintiffs or co-defendants, shall be taken at the earliest possible opportunity, and in all cases before the first hearing; and any such objection not so taken shall be deemed to have been waived by the defendant.

35. When there are more plaintiffs than one, any one or more of them may be authorized by any other of them to appear, plead or act for such other in any proceeding under this Code: and in like manner when there are more defendants than one, any one or more of them may be authorized by any other of them to appear, plead or act for such other in any such proceeding.

Each of several plaintiffs or defendants may authorize any other to appear, &c., for him.

The authority shall be in writing, signed by the party giving it, and shall be filed in Court.

Recognized Agents and Pleadors.

36. Any appearance, application or act in or to any Court, required or authorized by law to be made or done by a party to a suit or appeal in such Court, may, except when otherwise expressly provided by any

law for the time being in force, be made or done by the party in person, or by his recognized agent, or by a pleader duly appointed to act on his behalf:

Provided that any such appearance shall be made by the party in person if the Court so direct.

37. The recognized agents of parties by whom such appearances, applications and acts may be made or done are—

(a) persons holding general powers-of-attorney from parties not resident within the local limits of the jurisdiction of the Court within which limits the appearance, application or act is made or done, authorizing them to make and do such appearances, applications and acts on behalf of such parties;

(b) mukhtárs duly certificated under any law for the time being in force, and holding special powers-of-attorney authorizing them to do, on behalf of their principals, such acts as may legally be done by mukhtárs;

(c) persons carrying on trade or business for and in the names of parties not resident within the local limits of the jurisdiction of the Court within which limits the appearance, application or act is made or done, in matters connected with such trade or business only, where no other agent is expressly authorized to make and do such appearances, applications and acts.

Nothing in the former part of this section applies to the territories now administered respectively by the Lieutenant Governor of the Panjáb, and the Chief Commissioners of Oudh and the Central Provinces; but in those territories the recognized agents of parties by whom such appearances, applications and acts may be made and done shall be such persons as the Local Government may from time to time, by notification in the official Gazette, declare in this behalf.

38. Processes served on the recognized agent of a party to a suit or appeal shall be as effectual as if the same had been served on the party in person, unless the Court otherwise directs.

The provisions of this Code for the service of process on a party to a suit shall apply to the service of process on his recognized agent.

39. The appointment of a pleader to make or do any appearance, application or act as aforesaid shall be in writing, and such appointment shall be filed in court.

When so filed, it shall be considered to be in force until revoked with the leave of the Court, by a writing signed by the client and filed in Court, or until the client or the pleader dies, or all proceedings in the suit are ended so far as regards the client.

No advocate of any High Court established by Royal Charter shall be required to present any document empowering him to act.

40. Processes served on the pleader of any party or left at the office or ordinary residence of such pleader, relative to a suit or appeal, and whether the same be for the personal appearance of the party or not, shall be presumed to be duly communicated and made known to the party whom the pleader represents; and, unless the Court otherwise directs, shall be as effectual for all purposes in relation to the suit or appeal as if the same had been given to or served on the party in person.

41. Besides the recognized agents described in section 37, any person residing within the jurisdiction of the Court may be appointed an agent to accept service of process.

Such appointment may be special or general and shall be made by an instrument in writing signed by the principal, and such instrument, or, if the appointment be general, a duly attested copy thereof, shall be filed in Court.

CHAPTER IV.

OF THE FRAME OF THE SUIT.

42. Every suit shall, as far as practicable, be so framed as to afford ground for a final decision upon the subjects in dispute, and so to prevent further litigation concerning them.

43. Every suit shall include the whole of the claim arising out of the cause of action; but a plaintiff may relinquish any portion of his claim in order to bring the suit within the jurisdiction of any Court.

If a plaintiff omit to sue for, or intentionally relinquish, any portion of his claim, he shall not afterwards sue for the portion so omitted or relinquished.

A person entitled to more than one remedy in respect of the same claim may sue for all or any of his remedies; but if he omits (except with the leave of the Court obtained before the first hearing) to sue for any of such remedies, he shall not afterwards sue for the remedy so omitted.

Illustration.

A lets a house to B at a yearly rent of Rs. 1,200. The rent for the whole of the years 1874 and 1875 is due and unpaid. A sues B only for the rent due for 1875. A shall not afterwards sue B for the rent due for 1876.

44. Rule a.—No cause of action shall, unless with the leave of the Court, be joined with a suit for the recovery of immovable property, or to obtain a declaration of title to immovable property, except—

(a) claims in respect of mesne profits or arrears of rent in respect of the property claimed,

(b) damages for breach of any contract under which the property or any part thereof are or is held, and

(c) claims by a mortgagee to enforce any of his remedies under the mortgage.

Rule b.—No claim by or against an executor, administrator or heir as such, shall be joined with claims by or against him personally, unless the last mentioned claims are alleged to arise with reference to the estate in respect of which the plaintiff or defendant sues or is sued as executor, administrator or heir.

45. Subject to the rules contained in section 44, the plaintiff may unite in the same suit several causes of action, and any plaintiffs having causes of action against the same defendant or defendants, may unite such causes of action in the same suit.

But if it appear to the Court that any such causes of action cannot be conveniently tried or disposed of together, the Court may, at any time before the first hearing, of its own motion or on the application of the defendant, order separate trials of any such causes of action to be had, or make such other order as may be necessary or expedient for the separate disposal thereof.

When causes of action are united, the jurisdiction of the Court as regards the suit shall depend on the amount or value of the aggregate subject-matters at the date of instituting the suit, whether or not an order has been made under the second paragraph of this section.

46. Any defendant alleging that the plaintiff has united in the same suit several causes of action which cannot be conveniently disposed of in one suit may at any time before the first hearing, or, where issues are settled, before any evidence is recorded, apply to the Court for an order confining the suit to such of the causes of action as may be conveniently disposed of in one suit.

If, on the hearing of such application, it appears to the Court that the causes of action are such as cannot all be conveniently disposed of in one suit, the Court may order any of such causes of action to be excluded, and may direct the plaint to be amended accordingly, and may make such order as to costs as may be just.

Every amendment made under this section shall be attested by the signature of the Judge.

CHAPTER V.

OF THE INSTITUTION OF SUITS.

48. Every suit shall be instituted by presenting a plaint to the Court or such officer as it appoints in this behalf.

49. The plaint must be distinctly written in the language of the Court; provided that if such language is not English, the plaint may (with the permission of the Court) be written in English; but in such case, if the defendant so require, a translation of the plaint into the language of the Court shall be filed in court.

Particulars to be contained in plaint.

50. The plaint must contain the following particulars

(a) the name of the Court in which the suit is brought;

(b) the name, description and place of abode of the plaintiff;

(c) the name, description and place of abode of the defendant, so far as they can be ascertained:

(d) a plain and concise statement of the circumstances constituting the cause of action, and where and when it arose;

(e) a demand of the relief which the plaintiff claims; and

(f) if the plaintiff has allowed a set-off or relinquished a portion of his claim, the amount so allowed or relinquished.

If the plaintiff seek the recovery of money, the plaintiff must state the precise amount, so far as the case admits.

In a suit for mesne profits: and in a suit for the amount which will be found due to the plaintiff on taking unsettled accounts between him and the defendant the plaintiff need only state approximately the amount sued for.

When the plaintiff sues in a representative character, the plaintiff should shew, not only that he has an actual existing interest in the subject-matter, but that he has taken the steps necessary to enable him to institute a suit concerning it.

Illustrations.

(a) A sues as B's executor. The plaintiff must state that A has proved B's will.

(b) A sues as C's administrator. The plaintiff must state that A has taken out administration to C's estate.

(c) A sues as guardian of D, a Muhammadan minor. A is not D's guardian according to Muhammadan law and usage. The plaintiff must state that A has been specially appointed D's guardian.

The plaintiff must shew that the defendant is or claims to be interested in the subject-matter, and that he is liable to be called upon to answer the plaintiff's demand.

Illustration.

A dies leaving B his executor, C his legatee, and D a debtor to A's estate. C sues D to compel him to pay his debt in satisfaction of C's legacy. The plaintiff must shew that B has causelessly refused to sue D, or that B and D have colluded for the purpose of defrauding C, or other such circumstances rendering D liable to C.

If the cause of action arose beyond the period ordinarily allowed by any law for instituting the suit, the plaintiff must shew the ground upon which exemption from such law is claimed.

51. The plaintiff shall be subscribed by the plaintiff and his pleader (if any), and shall be verified at the foot by the plaintiff or, with the permission of the Court, by some other person proved to the satisfaction of the Court to be acquainted with the facts of the case.

52. The verification must be to the effect that the same is true to the knowledge of the person making it, except as to matters stated on information and belief, and that as to those matters he believes it to be true.

The verification shall be signed by the person making it, and when he makes it out of court he shall sign it in the presence of a witness, who shall also sign it.

The Court shall examine such witness as to the fact of the signature, unless the person making the verification is present.

53. The plaintiff may, at the discretion of the Court, and at or before the first hearing, be rejected, returned for amendment within a time to be fixed by the Court, or amended then and there, upon such terms as to the payment of costs occasioned by the amendment as the Court thinks fit,

(a) if it do not state correctly and without prolixity the several particulars hereinbefore required to be specified therein; or

(b) if it contain any particulars other than those so required; or

(c) if it be not subscribed and verified as hereinbefore required; or

(d) if it do not disclose a cause of action; or

(e) if it is not framed in accordance with section 42; or

(f) if it is wrongly framed by reason of non-joinder or misjoinder of parties, or because the plaintiff has joined causes of action which ought not to be joined in the same suit:

Provided that a plaintiff cannot be altered so as to convert a suit of one character into a suit of another and inconsistent character.

Attestation of amendment.

When a plaintiff is amended, the amendment shall be attested by the signature of the Judge.

When the plaintiff shall be rejected.

54. The plaintiff shall be rejected in the following cases:—

(a) if the relief sought is undervalued, and the plaintiff, on being required by the Court to correct the valuation within a time to be fixed by the Court, fails to do so:

(b) if the relief sought is properly valued, but the plaintiff is written upon paper insufficiently stamped, and the plaintiff, on being required by the Court to supply the requisite stamp-paper within a time to be fixed by the Court, fails to do so:

(c) if the suit appear from the statement in the plaint to be barred by any positive rule of law:

(d) if the plaintiff having been returned for amendment within a time fixed by the Court is not amended within such time.

55. When a plaintiff is rejected, the Judge shall record with his own hand an order to that effect with the reason for such order.

56. The rejection of the plaint on any of the grounds hereinbefore mentioned shall not of its own force preclude the plaintiff from presenting a fresh plaint in respect of the same cause of action.

When the plaint shall be returned to be presented to the proper Court.

57. The plaint shall be returned to be presented to the proper Court in the following cases :

(a) If a suit has been instituted in a Court whose grade is lower or higher than that of the Court competent to try it, where such Court exists, or where no option as to the selection of the Court is allowed by law :

(b) If, in a suit relating to immoveable property, but not coming under the proviso to section 16, it appear that no part of such property is situate within the local limits of the jurisdiction of the Court to which the plaint is presented :

(c) If, in any other case, it appear that the cause of action did not arise, and that none of the defendants are dwelling or carrying on business, or personally working for gain, within such local limits.

On returning a plaint, the Judge shall, with his own hand, endorse thereon the date of its presentation and return, the name of the party presenting it, and a brief statement of the reason for returning it.

58. The plaintiff shall endorse on the plaint, or annex thereto, a memorandum of the documents (if any) which he has filed along with it; and if the plaint be admitted, shall present as many copies on plain paper of the plaint as there are defendants, unless the Court by reason of the length of the plaint or the number of the defendants, or for any other sufficient reason, permit him to present a like number of concise statements of the nature of the claim made, or of the relief or remedy required in the suit, in which case he shall present such statements.

If the plaintiff sues, or the defendant or any of the defendants is sued, in a representative capacity, such statements shall show in what capacity the plaintiff or defendant sues or is sued.

The plaintiff may, by leave of the Court, amend such statements so as to make them correspond with the plaint.

The chief ministerial officer of the Court shall sign such memorandum and copies or statements if, on examination, he finds them to be correct.

The Court shall also cause the particulars mentioned in section 50 to be entered in a book to be kept for the purpose and called the Register of civil suits. Such entries shall be numbered in every year according to the order in which the plaint is admitted.

59. If a plaintiff sue upon a document in his possession or power, he shall produce it in Court when the plaint is presented, and shall at the same time deliver the document or a copy thereof to be filed with the plaint.

If he rely on any other documents (whether in his possession or power or not) as evidence in support of his claim, he shall enter such documents in a list to be added or annexed to the plaint.

60. In the case of any such document not in his possession or power, he shall, if possible, state in whose possession or power it is.

61. In case of any suit founded upon a bill of exchange or other negotiable instrument, if it be proved that the instrument is lost, and if an indemnity be given by the plaintiff, to the satisfaction of the Court, against the claims of any other person upon such instrument, the Court may make such decree as it would have made if the plaintiff had produced the instrument in Court when the plaint was presented, and had at the same time delivered a copy of the instrument to be filed with the plaint.

62. If the document on which the plaintiff sues be an entry in a shop-book or other book in his possession or power, the plaintiff shall produce the book at the time of filing the plaint, together with a copy of the entry on which he relies.

The Court, or such officer as it appoints in this behalf, shall forthwith mark the document for the purpose of identification; and after examining and comparing the copy with the original and attesting the copy if found correct, shall return the book to the plaintiff and cause the copy to be filed.

63. A document which ought to be produced in Court by the plaintiff when the plaint is presented, or to be entered in the list to be added or annexed to the plaint, and which is not produced or entered accordingly, shall not, without the leave of the Court, be received in evidence on his behalf at the hearing of the suit.

Nothing in this section applies to documents produced for cross-examination of the defendant's witnesses, or in answer to any case set up by the defendant, or handed to a witness merely to refresh his memory.

CHAPTER VI.

OF THE ISSUE AND SERVICE OF SUMMONS.

Issue of Summons.

64. When the plaint has been registered; and the copies or concise statements required by section 58 have been filed, a summons may be issued to each defendant to appear and answer the claim on a day to be therein specified, or as soon thereafter as may be practicable,

(a) in person, or

(b) by a pleader duly instructed and able to answer all material questions relating to the suit, or

(c) by a pleader accompanied by some other person able to answer all such questions.

Every such summons shall be signed by the Judge or such officer as he appoints, and shall be sealed with the seal of the Court:

Provided that no such summons shall be issued when the defendant has appeared at the presentation of the plaint and admitted the plaintiff's claim.

65. Every such summons shall be accompanied with one of the copies or concise statements mentioned in section 58.

Copy or statement annexed to summons.

66. If the Court see reason to require the Court may order personal appearance of the defendant or plaintiff to appear in person. order him to appear in person in Court on the day therein specified.

If the Court see reason to require the personal appearance of the plaintiff on the same day, it may make an order for such appearance.

67. No party shall be ordered to appear in person unless he resides

No party to be ordered to appear in person unless resident within 50 or, where there is a railway, 200 miles.

(a) within the local limit of the Court's ordinary original jurisdiction, or

(b) without such limits and at a place less than fifty, or, where there is railway-communication for five-sixths of the distance between the place where he resides and the place where the Court is situate, two hundred miles from the Court-house.

68. The Court shall determine, at the time of issuing the summons, whether it shall be for the settlement of issues only, or for the final disposal of the suit; and the summons shall contain a direction accordingly:

Summons to be either to settle issues or for final disposal.

Provided that, in every suit cognizable by Courts of Small Causes, the summons shall be for the final disposal of the suit.

69. The day for the appearance of the defendant shall be fixed by the Court with reference to its current business, the place of residence of the defendant and the time necessary for the service of the summons; and the day shall be so fixed as to allow the defendant sufficient time to enable him to appear and answer on such day.

What shall be deemed 'sufficient time' must be determined with reference to the circumstances of the case.

70. The summons to appear and answer shall order the defendant to produce any document in his possession or power, containing evidence relating to the merits of the plaintiff's case, or upon which the defendant intends to rely in support of his case.

Summons to order defendant to produce documents required by plaintiff or relied on by defendant.

71. When the summons is for the final disposal of the suit, it shall direct the defendant to produce, on the day fixed for his appearance, the witnesses upon whose evidence he intends to rely in support of his case.

On issue of summons or final disposal, parties to be directed to produce their witnesses.

Service of Summons.

72. The summons shall be delivered to the proper officer of the Court, to be served by him or one of his subordinates.

Delivery of summons for service.

73. Service of the summons shall be made by delivering or tendering a copy thereof signed by the Judge or such officer as he appoints in this behalf, and sealed with the seal of the Court.

Mode of service.

74. When there are more defendants than one, service of the summons shall be made on each defendant:

Service on several defendants.

Provided that, if the defendants are partners, and the suit relates to a partnership-transaction or to an actionable wrong in respect of which relief is claimable from the firm, the service may be made, unless the Court directs otherwise, either (a) on one defendant for himself and for the other defendants, or (b) on any person having the management of the business of the partnership at the principal place, within the local limits of the Court's ordinary original civil jurisdiction, of such business.

75. Whenever it may be practicable, the service shall be made on the defendant in person, unless he have an agent empowered to accept the service, in which case service on such agent shall be sufficient.

Service to be on defendant in person, when practicable, or on his agent.

76. In a suit relating to any business or work against a person who does not reside within the local limits of the jurisdiction of the Court from which the summons issues, service on any manager or agent, who, at the time of service, personally carries on such business or work for such person within such limits, shall be deemed good service.

Service on agent by whom defendant carries on business.

For the purpose of this section, the master of a ship is the agent of his owner or charterer.

77. In a suit to obtain relief respecting, or compensation for wrong to, immovable property, if the service cannot be made on the defendant in person, and the defendant have no agent empowered to accept the service, it may be made on any agent of the defendant in charge of the property.

Service on agent in charge, in suits for immovable property.

78. If in any suit the defendant cannot be found and if he have no agent empowered to accept the service of the summons on his behalf, the service may be made on any adult male member of the family of the defendant who is residing with him.

When service may be on male member of defendant's family.

Explanation.—A servant is not a member of the family within the meaning of this section.

79. When the serving-officer delivers or tenders a copy of the summons to the defendant personally, or to an agent or other person on his behalf, he shall require the signature of the person to whom the copy is so delivered or tendered to an acknowledgment of service endorsed on the original summons.

Person served to sign acknowledgment.

80. If the defendant or other person refuse to sign the acknowledgment or to receive the copy of the summons,

Procedure when defendant refuses to accept service,
or if the serving-officer cannot find the defendant, and there is no agent empowered to accept the service

of the summons on his behalf, nor any other person on whom the service can be made,

the serving-officer shall affix a copy of the summons on the outer door of the house in which the defendant ordinarily resides and then return the original to the Court from which it issued, with an endorsement thereon stating that he has so affixed the copy and the circumstances under which he did so.

81. The serving-officer shall, in all cases in which the summons has been served under section 79, endorse or cause to be endorsed on the original summons, the time when and the manner in which the summons was served.

82. When a summons is returned under section 80, the Court shall examine the serving-officer on oath touching his proceedings and may make such further enquiry in the matter as it thinks fit; and shall either declare that the summons has been duly served or order such service as it thinks fit.

Where the Court is satisfied that there is reason to believe that the defendant is keeping out of the way for the purpose of avoiding the service, or that for any other reason the summons cannot be served in the ordinary way, the Court shall order the summons to be served by affixing a copy thereof in some conspicuous place in the Court-house, and also upon some conspicuous part of the house, if any, in which the defendant is known to have last resided, or in such other manner as the Court thinks fit.

83. The service substituted by order of the Court, shall be as effectual as if it had been made on the defendant personally.

84. Whenever service is substituted by order of the Court, the Court shall fix such time for the appearance of the defendant as the case may require.

85. If the defendant resides within the jurisdiction of any Court other than the Court in which the suit is instituted, and has no agent resident within the local limits of the jurisdiction of the latter Court empowered to accept the service of the summons, such Court shall send the summons, either by one of its officers or by post, to any Court, not being a High Court, having jurisdiction at the place where the defendant resides, by which it can be conveniently served, and shall fix such time for the appearance of the defendant as the case may require.

The Court to which the summons is sent shall, upon receipt thereof, proceed as if it had been

issued by such Court and shall then return the summons to the Court from which it originally issued, together with the record (if any) made under this paragraph.

86. Whenever any process issued by any Court established beyond the limits of the towns of Calcutta, Madras, Bombay and Rangoon is to be served within any such town, it shall be sent to the Court of Small Causes within whose jurisdiction the process is to be served,

and such Court of Small Causes shall deal with such process in the same manner as if the process had been issued by itself,

and shall then return the process to the Court from which it issued.

87. If the defendant be in jail, the summons shall be delivered to the officer in charge of the jail in which the defendant is confined, and such officer shall cause the summons to be served upon the defendant.

The summons shall be returned to the Court from which it issued, with a statement of the service endorsed thereon and signed by the officer in charge of the jail and by the defendant.

88. If the jail in which the defendant is confined is not in the district in which the suit is instituted, the summons may be sent by post or otherwise to the officer in charge of such jail, and such officer shall cause the summons to be served upon the defendant, and shall return the summons to the Court from which it issued, with a statement of the service endorsed thereon, and signed as provided in section 87.

89. If the defendant resides out of British India, and has no agent in British India empowered to accept the service, the summons shall be addressed to the defendant at the place where he is residing, and forwarded to him by post if there be postal communication between such place and the place where the Court is situate.

90. If there be a British Resident or Agent of Government in or for the territory in which the defendant resides, the summons may be sent to such Resident or Agent, by post or otherwise, for the purpose of being served upon the defendant; and if the Resident or Agent return the summons with an endorsement under his hand that the summons has been served on the defendant in manner hereinbefore directed, such endorsement shall be conclusive evidence of the service.

91. The Court may, notwithstanding anything hereinbefore contained, substitute for the summons letter signed by the Judge or such officer as he appoints in this behalf, when the defendant is, in the opinion of the Court, of a rank which entitles him to such mark of consideration

The letter shall contain all the particulars required to be stated in the summons, and, subject to the provisions contained in section 92, shall be treated in all respects as a summons.

92. When a letter is so substituted for a summons, it may be sent to the defendant by post or by a special messenger selected by the Court, or in any other manner which the Court thinks fit; unless the defendant has an agent empowered to accept service of summons, in which case the letter may be delivered or sent to such agent.

Service of Process.

93. Every process issued under this Code shall be served at the expense of the party on whose behalf it is issued, unless the Court otherwise directs.

The court-fee leviable for such service shall be levied before the process is issued.

94. All notices and orders required by this Code to be given to or served on any person shall be in writing, and shall be served in the manner hereinbefore provided for the service of summons.

Postage.

95. Postage, where chargeable on any notice, summons or letter issued under this Code and forwarded by post, and the fee for registering the same, shall be paid before the communication is forwarded.

CHAPTER VII.

OF THE APPEARANCE OF THE PARTIES AND CONSEQUENCE OF NON-APPEARANCE.

96. On the day fixed in the summons for the defendant to appear and answer, the parties shall be in attendance at the Court-house in person or by their respective pleaders, and the suit shall then be heard, unless the hearing be adjourned to a future day fixed by the Court.

97. If on the day so fixed for the defendant to appear and answer, it be found that the summons has not been served upon him in consequence of the failure of the plaintiff to pay the court-fee leviable for such service, the Court may order that the suit be dismissed :

Provided that no such order shall be passed, although the summons has not been served upon the defendant, if, on the day fixed for him to appear and answer, he attends in person or by a duly authorized agent, when he is allowed to appear by agent.

98. If on the day fixed for the defendant to appear and answer, or on any other subsequent day to which the hearing of the suit is adjourned, neither party appears, the suit shall be dismissed, unless

the Judge, for reasons to be recorded under his hand, otherwise directs.

99. Whenever a suit is dismissed under section 97 or section 98, the plaintiff may (subject to the law of limitation) bring a fresh suit; or if, within the period of thirty days from the date of the order dismissing the suit, he satisfies the Court that there was a sufficient excuse for his not paying the court-fee required within the time allowed for the service of the summons or for his non-appearance, as the case may be, the Court shall pass an order to set aside the dismissal and appoint a day for proceeding with the suit.

100. If the plaintiff appears and the defendant does not appear, the procedure shall be as follows :
(a) if it is proved that the summons was duly served, the Court may proceed *ex parte* :

(b). If it is not proved that the summons was duly served, the Court shall direct a second summons to be issued and served on the defendant :

(c) If it is proved that the summons was served on the defendant, but not in sufficient time to enable him to appear and answer on the day fixed in the summons, the Court shall postpone the hearing of the suit to a future day to be fixed by the Court, and shall direct notice of such day to be given to the defendant.

If it is owing to the plaintiff's default that the summons was not served in sufficient time, the Court shall order him to pay the costs occasioned by such postponement.

101. If the Court has adjourned the hearing of the suit *ex parte*, and the defendant, at or before such hearing, appears and assigns good cause for his previous non-appearance, he may, upon such terms as the Court directs as to costs or otherwise, be heard in answer to the suit, as if he had appeared on the day fixed for his appearance.

102. If the defendant appears and the plaintiff does not appear, the Court shall dismiss the suit, unless the defendant admits the claim, or part thereof, in which case the Court shall pass a decree against the defendant upon such admission, and where part only of the claim has been admitted, shall dismiss the suit so far as it relates to the remainder.

103. When a suit is wholly or partially dismissed under this section, the plaintiff shall be precluded from bringing a fresh suit in respect of the same cause of action. But he may apply for an order to set the dismissal aside; and if it be proved that he was prevented by any sufficient excuse from appearing when the suit was called on for hearing, the Court shall set aside the dismissal upon such terms as

to costs or otherwise as it thinks fit, and shall appoint a day for proceeding with the suit.

No order shall be made under the second paragraph of this section unless the plaintiff has served the defendant with notice in writing of his application.

104. If, on the day fixed for the hearing of a suit against a defendant residing out of British India, who has no agent empowered to accept service of summons, or on any day to which the hearing has been adjourned, the defendant does not appear, the plaintiff may apply to the Court for permission to proceed with his suit, and the Court may direct that the plaintiff be at liberty to proceed with his suit in such manner and subject to such conditions as the Court thinks fit.

105. If there be more plaintiffs than one, and one or more of them appear, and the others do not appear, the Court may, at the instance of the plaintiff or plaintiffs appearing, permit the suit to proceed in the same way as if all the plaintiffs had appeared, and pass such order as it thinks fit.

106. If there be more defendants than one, and one or more of them appear, and the others do not appear, the suit shall proceed, and the Court shall, at the time of passing judgment, make such order as it thinks fit with respect to the defendants who do not appear.

107. If a plaintiff or defendant who has been ordered to appear in person under the provisions of section 66 or section 436, does not appear in person, or shew sufficient cause to the satisfaction of the Court for failing so to appear, he shall be subject to all the provisions of the foregoing sections applicable to plaintiffs and defendants, respectively, who do not appear.

Of setting aside Decrees ex parte.

108. In any case in which a decree is passed *ex parte* against a defendant under section 100, he may apply to the Court by which the decree was made for an order to set it aside;

and if it be proved to the satisfaction of the Court that the defendant was prevented by any sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order to set aside the decree upon such terms as to costs, payment into Court, or otherwise, as it thinks fit, and shall appoint a day for proceeding with the suit.

109. No decree shall be set aside on any such application as aforesaid, unless notice thereof in writing has been served on the opposite party.

CHAPTER VIII.

OF WRITTEN STATEMENTS AND SET-OFF.

110. The parties may, at any time before or at the first hearing of the suit, tender written statements of their respective cases, and the Court shall receive such statements and place them on the record.

111. If in a suit for the recovery of money the defendant claims to set-off against the plaintiff's demand any ascertained sum of money legally recoverable by him from the plaintiff, and if in such claim of the defendant against the plaintiff both parties fill the same character as they fill in the plaintiff's suit, the defendant may, at the first hearing of the suit, but not afterwards, unless permitted by the Court, tender a written statement containing the particulars of the debt sought to be set-off.

The Court shall thereupon inquire into the same, and if it find that the case fulfils the requirements of the former part of this section, and that the amount claimed to be set-off does not exceed the pecuniary limits of its jurisdiction, the Court shall set-off the one debt against the other.

Such set-off shall have the same effect as a plaintiff in a cross-suit, so as to enable the Court to pronounce a final judgment in the same suit, both on the original and on the cross-claim; but it shall not affect the lien upon the amount decreed of any pleader in respect of the costs payable to him under the decree.

Illustrations.

(a) A bequeaths Rs. 2,000 to B, and appoints C his executor and residuary legatee. B dies and D takes out administration to B's effects. C pays Rs. 1,000 as surety for D. Then D sues C for the legacy. C cannot set-off the debt of Rs. 1,000 against the legacy, for neither C nor D fills the same character with respect to the legacy as they fill with respect to the payment of the Rs. 1,000.

(b) A dies intestate and in debt to B. C takes out administration to A's effects, and B buys part of the effects from C. In a suit for the purchase-money by C against B, the latter cannot set-off the debt against the price, for C fills two different characters, one as the vendor to B, in which he sues B, and the other as representative to A.

(c) A sues B on a bill of exchange. B alleges that A has wrongfully neglected to insure B's goods and is liable to him in compensation which he claims to set-off. The amount not being ascertained cannot be set-off.

(d) A sues B on a bill of exchange for Rs. 500. B holds a judgment against A for Rs. 1,000. The two claims being both definite pecuniary demands may be set-off.

(e) A sues B for compensation on account of a trespass. B holds a promissory note for Rs. 1,000 from A and claims to set-off that amount against any sum that A may recover in the suit. B may do so, for as soon as A recovers, both sums are definite pecuniary demands.

(f) A and B sue C for Rs. 1,000. C cannot set-off a debt due to him by A alone.

(g) A sues B and C for Rs. 1,000. B cannot set-off a debt due to him alone by A.

(h) A owes the partnership firm of B and C Rs. 1,000. B dies leaving C surviving. A sues C for a debt of Rs. 1,500 due in his separate character. C may set-off the debt of Rs. 1,000.

112. Except as provided in the last preceding

No written statement to be received after first hearing unless called for by Court.

section, no written statement shall be received after the first hearing of the suit:

Court may at any time call for written statement.

Provided that the Court may at any time require a written statement, or additional written statement, from any of the parties, and fix a time for presenting the same:

Provided also that a written statement, or an additional written statement, may, with the permission of the Court, be received at any time for the purpose of answering written statements so required and presented.

113. If any party from whom a written state-

Procedure when party fails to present written statement called for by Court.

ment is so required fails to present the same within the time fixed by the Court, the Court may pass a decree against him, or make such other order in relation to the suit as it thinks fit.

114. Written statements shall be as brief as

Frame of written statements.

the nature of the case admits, and shall not be argumentative, but shall be confined as much as possible to a simple narrative of the facts which the party by whom or on whose behalf the written statement is made believes to be material to the case, and which he either admits or believes he will be able to prove.

Every such statement shall be divided into paragraphs, numbered consecutively, and each paragraph containing as nearly as may be a separate allegation.

115. Written statements shall be subscribed and

Written statements to be subscribed and verified.

verified in the manner hereinbefore provided for subscribing and verifying plaints, and no written statement

shall be received unless it be so subscribed and verified.

The provisions of section 52 as to examining witnesses as to the fact of signature shall apply in the case of written statements.

116. If it appear to the Court that any written

Rejection of argumentative, prolix or irrelevant written statements.

statement, whether called for by the Court or spontaneously tendered, is argumentative or prolix, or contains matter irrelevant to the suit, the

Court may amend it then and there, or may, by an order to be endorsed thereon, reject the same, or return it to the party by whom it was made for amendment within a time to be fixed by the Court, imposing such terms as to costs or otherwise as the Court thinks fit.

When any amendment is made under this sec-

Attestation of amendments.

tion, the Judge shall attest it by his signature.

When a statement has been rejected under this

Effect of rejection.

section, the party making it shall not present another

written statement, unless it be expressly called for or allowed by the Court.

CHAPTER IX.**OF THE EXAMINATION OF THE PARTIES BY THE COURT.****117. At the first hearing of the suit, the Court**

Ascertainment from each party whether allegations in written statements are admitted or denied.

shall ascertain from the defendant or his pleader whether he admits or denies the allegations of fact made in the plaint and shall ascertain

from each party or his pleader whether he admits or denies such allegations of fact as are made in the written statement (if any) of the opposite party, and as are not expressly or by necessary implication admitted or denied by the party against whom they are made. The Court shall record such admissions and denials.

118. At the first hearing of the suit, or at any

Oral examination of each party or companion of himself or his pleader.

subsequent hearing, any party appearing in person or present in Court, or any

person able to answer any material questions relating to the suit by whom such party or his pleader is accompanied, may be examined orally by the Court, and the Court may, if it thinks fit, put in the course of such examination questions suggested by either party.

119. The substance of the examination shall be

Substance of examination to be written.

reduced to writing by the Judge, and shall form part of the record.

120. If the pleader of any party who appears

Consequence of refusal or inability of pleader to answer.

by a pleader refuses or is unable to answer any material question relating to the

suit which the Court is of opinion that the party whom he represents ought to answer, and is likely to be able to answer if interrogated in person, the Court may postpone the hearing of the suit to a future day, and direct that such party shall appear in person on such day.

If such party fails without lawful excuse to appear in person on the day so appointed, the Court may pass a decree against him, or make such order in relation to the suit as it thinks fit.

CHAPTER X.**OF DISCOVERY AND OF THE ADMISSION, INSPECTION, PRODUCTION, IMPOUNDING AND RETURN OF DOCUMENTS.****121. Any party may at any time by leave of the**

Power to deliver interrogatories.

Court, deliver through the Court interrogatories in writing for the examination of

the opposite party, or where there are more opposite parties than one, any one or more of such parties, with a note at the foot thereof stating which of such interrogatories each of such persons is required to answer:

Provided that no party shall deliver more than one set of interrogatories to the same person without the permission of the Court, and that no defendant shall deliver interrogatories for the examination of the plaintiff unless such defendant has previously tendered a written statement and such statement has been received and placed on the record.

122. Interrogatories delivered under section 121 shall be served on the pleader (if any) of the party interrogated or in the manner hereinbefore provided for the service of summons, and the provisions of sections 79, 80, 81 and 82 shall, in the latter case, apply so far as may be practicable.

123. The Court, in adjusting the costs of the inquiry into propriety of exhibiting interrogatories, shall, at the instance of any party, inquire or cause inquiry to be made into the propriety of delivering such interrogatories; and if it thinks that such interrogatories have been delivered unreasonably, vexatiously or at improper length, the costs occasioned by the said interrogatories and the answers thereto shall be borne by the party in fault.

124. If any party to a suit be a body corporate or a joint stock company, whether incorporated or not, or any other body of persons empowered by law to sue or be sued, whether in his own name or in the name of any officer or other person, any opposite party may apply to the Court for an order allowing him to deliver interrogatories to any member or officer of such corporation, company or body, and an order may be made accordingly.

125. Any party called upon to answer interrogatories, whether by himself or by any such member or officer, may refuse to answer any interrogatory on the ground that it is irrelevant, or is not *bona fide* for the purposes of the suit, or that the matter inquired after is not sufficiently material at that stage of the suit, or on any other like ground.

126. Interrogatories shall be answered by affidavit to be filed in Court within ten days from the service thereof or within such further time as the Judge may allow.

127. If any person interrogated omits or refuses to answer, or answers insufficiently, any interrogatory, the party interrogating may apply to the Court for an order requiring him to answer or to answer further, as the case may be. And an order may be made requiring him to answer or to answer further either by affidavit or by *vide voce* examination as the Judge may direct: Provided that the Judge shall not require an answer to any interrogatory which in his opinion need not have been answered under section 125.

128. Either party may, by a notice through the Court, within a reasonable time not less than ten days before the hearing, require the other party to admit (saving all just exceptions to the admissibility of such document in evidence) the genuineness of any document material to the suit.

The admission shall also be made in writing, signed by the other party or his pleader and filed in Court.

If such notice be not given, no costs of proving such document shall be allowed, unless the Judge otherwise orders.

If such notice is not complied with within four days after its being served, and the Judge thinks it reasonable that the admission should have been made, the party refusing shall bear the expense of proving such document, whatever may be the result of the suit.

129. The Court may, at any time during the pendency therein of any suit, order any party to the suit to declare by affidavit all the documents which are or have been in his possession or power relating to any matter in question in the suit, and any party to the suit may, at any time before the first hearing, apply to the Court for a like order.

Every affidavit made under this section shall specify which, if any, of the documents therein mentioned the declarant objects to produce, together with the grounds of such objection.

130. The Court may, at any time during the pendency therein of any suit, order the production by any party thereto of such of the documents in his possession or power relating to any matter in question in such suit or proceeding as the Court thinks right; and the Court may deal with such documents when produced in such manner as appears just.

131. Every party to a suit may at any time before or at the hearing thereof give notice through the Court to any other party in whose plaint, written statement or affidavits reference is made to any document, to produce such document in the presence of such officer as the Court appoints in this behalf, for the inspection of the party giving such notice or of his pleader, and to permit such party or pleader to take copies thereof.

No party failing to comply with such notice shall afterwards be at liberty to put any such document in evidence on his behalf in such suit, unless he satisfies the Court that such document relates only to his own title, or that he had some other and sufficient cause for not complying with such notice.

132. The party to whom such notice is given shall, within ten days from the receipt thereof, deliver through the Court to the party giving the same a notice stating a time within three days from such delivery at which the documents or such of them as he does not object to produce, may be inspected at his pleader's office or some other convenient place, and stating which, if any, of the documents he objects to produce, and on what grounds.

133. If any party served with notice under section 131 omits to give notice under section 132 of the time for inspection, or objects to give inspection, or names an incon-

venient place for inspection, the party desiring it may apply to the Court for an order of inspection.

134. Except in the case of documents referred to in the plaint, written statement, or affidavit of the party against whom the application is made, or disclosed in his affidavit of documents, such application shall be founded upon an affidavit shewing (a) of what documents inspection is sought, (b) that the party applying is entitled to inspect them, and (c) that they are in the possession or power of the party against whom the application is made.

135. If the party from whom discovery of any kind or inspection is sought, objects to the same or any part thereof, and if the Court is satisfied that the right to such discovery or inspection depends on the determination of any issue or question in dispute in the suit, or that for any other reason it is desirable that any such issue or question should be determined before deciding upon the right to the discovery or inspection, the Court may order that the issue or question be determined first and reserve the question as to the discovery or inspection.

136. If any party fail to comply with any order under this chapter to answer interrogatories or for discovery or inspection, which has been duly served, he shall, if a plaintiff, be liable to have his suit dismissed for want of prosecution, and if a defendant, to have his defence, if any, struck out, and to be placed in the same position as if he had not appeared and answered;

and the party interrogating or seeking discovery or inspection may apply to the Court for an order to that effect, and the Court may make such order accordingly.

Any party failing to comply with any order under this chapter to answer interrogatories or for discovery or inspection which has been served personally upon him, shall also be deemed guilty of an offence under section 188 of the Indian Penal Code.

137. The Court may, of its own accord, and may, in its discretion, upon the application of any of the parties to a suit, send for, either from its own records or from any other Court, the record of any other suit or proceeding, and inspect the same.

Every application made under this section shall (unless the Court otherwise directs) be supported by an affidavit of the applicant or his pleader, shewing how the record is material to the suit in which the application is made, and that the applicant cannot without unreasonable delay or expense obtain a duly authenticated copy of the record or of such portion thereof as the applicant requires, or that the production of the original is necessary for the purposes of justice.

Nothing contained in this section shall be deemed to enable the Court to use in evidence any document which under the Indian Evidence Act would be inadmissible in the suit.

138. The parties or their pleaders shall bring with them and have in readiness at the first hearing of the suit, to be produced when called for by the Court, all the documentary evidence of every description in their possession or power, on which they intend to rely, and which has not already been filed in Court, and all documents which the Court at any time before such hearing has ordered to be produced.

139. No documentary evidence in the possession or power of any party the production of which has been called for under section 138, and which has not been produced, shall be received at any subsequent stage of the proceedings unless good cause be shewn to the satisfaction of the Court for the non-production thereof. And the Judge receiving any such evidence shall record his reasons for so doing.

140. The Court shall receive the documents respectively produced by the parties at the first hearing, provided that the documents produced by each party be accompanied by an accurate list thereof prepared in such form as the High Court may from time to time direct.

The Court may at any stage of the suit reject any document which it considers irrelevant or otherwise inadmissible, recording the grounds of such rejection.

141. No document shall be placed on the record unless it has been proved or admitted in accordance with the law of evidence for the time being in force. Every document so proved or admitted shall be endorsed with the number and title of the suit, the name of the person producing it, and the date on which it was produced. The Judge shall then endorse with his own hand a statement that it was proved against or admitted by (as the case may be) the person against whom it is used. The document shall then be filed as part of the record:

Provided that, if the document be an entry in a shop-book or other book, the party on whose behalf such book is produced may furnish a copy of the entry, which may be endorsed as aforesaid, and shall be filed as part of the record, and the Court shall mark the entry and shall then return the book to the person producing it.

All documents produced at the first hearing and not so proved or admitted shall be returned to the parties respectively producing them.

142. When a document so proved or admitted is relied on as evidence by either party, but the Court considers it inadmissible, it shall be further endorsed with the addition of the word "rejected," and the endorsement shall be signed by the Judge.

The document shall then be returned to the party and returned, unless detained by Court. who produced it.

143. Notwithstanding anything contained in sections 62, 141 and 142, the Court may, if it see sufficient cause, direct any document or book produced before it in any suit to be impounded and kept in the custody of an officer of the Court, for such period and subject to such conditions as the Court thinks fit.

144. In suits in which an appeal is not allowed, when the suit has been disposed of, and in suits in which an appeal is allowed, when the time for preferring an appeal from the decree has elapsed, or, if an appeal has been preferred, then after the appeal has been disposed of, any person, whether a party to the suit or not, desirous of receiving back any document produced by him in the suit, and placed on the record, shall, unless the document is impounded under section 143, be entitled to receive back the same:

Provided that a document may be returned at any time before either of such events, if the person applying for such return delivers to the proper officer a certified copy of such document to be substituted for the original:

Provided also that no document shall be returned which, by force of the decree, has become void or useless.

On the return of a document which has been admitted in evidence, a receipt shall be given by the party receiving it, in a receipt-book to be kept for the purpose.

145. The provisions herein contained as to documents shall, so far as may be, apply to all other material objects producible as evidence.

CHAPTER XI.

OF THE SETTLEMENT OF ISSUES.

146. Issues arise when a material proposition of fact or law is affirmed by the one party and denied by the other.

Material propositions are those propositions of law or fact which a plaintiff must allege in order to shew a right to sue.

Each material proposition affirmed by one party and denied by the other must form the subject of a distinct issue.

Issues are of two kinds: (a) issues of fact, (b) issues of law.

At the first hearing of the suit, the Court shall, after reading the plaint and the written statements, if any, and after such examination of the parties as may appear necessary, ascertain upon what material propositions of fact or of law the parties are at variance, and shall thereupon proceed to frame and record the issues on which the right decision of the case appears to the Court to depend.

When issues both of law and of fact arise in the same suit, and the Court is of opinion that the

case may be disposed of on the issues of law only, it shall try those issues first, and for that purpose may, if it thinks fit, postpone the settlement of the issues of fact until after the issues of law have been determined.

Nothing in this section requires the Court to frame and record issues when the defendant at the first hearing of the suit makes no defence.

147. The Court may frame the issues from all or any of the following materials:—

(a) allegations made on oath by the parties, or by any persons present on their behalf, or made by the pleaders of such parties or persons;

(b) allegations made in the plaint or in the written statements (if any) tendered in the suit, or in answer to interrogatories delivered in the suit;

(c) the contents of documents produced by either party.

148. If the Court be of opinion that the issues cannot be correctly framed without the examination of witnesses or documents, some person not before the Court, or without the inspection of some document not produced in the suit, it may adjourn the framing of the issues to a future day, to be fixed by the Court, and may (subject to the rules contained in the Indian Evidence Act) compel the attendance of any person or the production of any document by the person in whose hands it may be, by summons or other process.

149. The Court may at any time before passing a decree amend, add, or strike out issues, or frame additional issues on such terms as it thinks fit, and all such amendments or additional issues as may be necessary for determining the controversy between the parties shall be so made or framed.

The Court may also, at any time before passing a decree, strike out any issues that appear to it to be wrongly framed or introduced.

150. When the parties to a suit are agreed as to the question of fact or of law to be decided between them, they may state the same in the form of an issue, and enter into an agreement in writing

(a) that upon the finding of the Court in the affirmative or the negative of such issue, a sum of money specified in the agreement, or to be ascertained by the Court, or in such manner as the Court may direct, shall be paid by one of the parties to the other of them, or that one of them be declared entitled to some right or subject to some liability specified in the agreement,

(b) that upon such finding some property specified in the agreement and in dispute in the suit shall be delivered by one of the parties to the other of them, or as that other may direct, or

(c) that upon such finding one or more of the parties shall do or abstain from doing some particular act, specified in the agreement, and relating to the matter in dispute.

Court if satisfied that the agreement was executed in good faith may pronounce judgment.

151. If the Court be satisfied, after making such inquiry as it deems proper,

(a) that the agreement was duly executed by the parties,

(b) that they have a substantial interest in the decision of such question as aforesaid, and

(c) that the same is fit to be tried and decided, it may proceed to record and try the issue, and state its finding or opinion thereon in the same manner as if the issue had been framed by the Court;

and may, upon the finding or decision on such issue, pronounce judgment according to the terms of the agreement;

and upon the judgment so given, decree shall follow and may be executed in the same way as if the judgment had been pronounced in a contested suit.

CHAPTER XII.

DISPOSAL OF THE SUIT AT THE FIRST HEARING.

152. If at the first hearing of a suit it appears that the parties are not at issue on any question of law or of fact, the Court may at once pronounce judgment.

153. Where there are more defendants than one, and any one of the defendants is not at issue with the plaintiff, the Court may at once pronounce judgment for or against such defendant, and the suit shall proceed only against the other defendants.

154. When the parties are at issue on some question of law or of fact, and issues have been framed by the Court as hereinbefore provided, if the Court be satisfied that no further argument or evidence than the parties can at once supply is required upon such of the issues as may be sufficient for the decision of the suit, and that no injustice will result from proceeding with the suit forthwith, the Court may proceed to determine such issues,

and if the finding thereon is sufficient for the decision, may pronounce judgment accordingly, whether the summons has been issued for the settlement of issues only or for the final disposal of the suit:

Provided that, where the summons has been issued for the settlement of issues only, the parties or their pleaders are present and none of them object.

If the finding is not sufficient for the decision, the Court shall postpone the further hearing of the suit, and shall fix a day for the production of such further evidence, or for such further argument as the case requires.

155. If the summons has been issued for the final disposal of the suit, and either party fails to produce his evidence, Court may pronounce judgment.

relies, the Court may at once pronounce judgment, or may if it thinks fit, after framing and recording

Procedure where Court cannot pronounce judgment at first hearing. issues under section 146, adjourn the suit for the production of such evidence as may be necessary to its decision upon such issues.

CHAPTER XIII.

OF ADJOURNMENTS.

156. The Court may, if sufficient cause be shewn, at any stage of the suit, grant time to the parties, or to any of them, and may from time to time adjourn the hearing of the suit.

In all such cases the Court shall fix a day for the further hearing of the suit, and may make such order as it thinks fit with respect to the costs occasioned by the adjournment:

Provided that, when the hearing of evidence has once begun, the hearing of the suit shall be continued from day to day until all the witnesses in attendance have been examined, unless the Court finds the adjournment of the hearing to be necessary for reasons to be recorded by the Judge with his own hand.

157. If, on any day to which the hearing of the suit is adjourned, the parties or any of them fail to appear, the Court may proceed to dispose of the suit in one of the modes directed in that behalf by chapter VII, or make such other order as it thinks fit.

158. If any party to a suit to whom time has been granted fails to produce his evidence, or to cause the attendance of his witnesses, or to perform any other act necessary to the further progress of the suit, for which time has been allowed, the Court may, notwithstanding such default, proceed to decide the suit forthwith.

CHAPTER XIV.

OF THE SUMMONING AND ATTENDANCE OF WITNESSES.

159. The parties may, after the summons has been delivered for service on the defendant, whether it be for the settlement of issues only, or for the final disposal of the suit, obtain, on application to the Court or to such officer as it appoints in this behalf, before the day fixed for such settlement or disposal, as the case may be, summonses to persons whose attendance is required either to give evidence or to produce documents.

160. The party applying for a summons shall before the summons is granted and within a period to be fixed by the Court, pay into court such a sum of money as appears to the Court to be sufficient to defray the travelling and other expenses of the person summoned, in passing to and from the Court in which he is required to attend, and for one day's attendance.

If the Court be subordinate to a High Court, regard shall be had, in fixing the scale of such expenses, to the rules (if any) laid down by competent authority.

161. The sum so paid into court shall be tendered to the person summoned, at the time of serving the summons if it can be served personally.

162. If it appear to the Court or to such officer as it appoints in this behalf that the sum paid into court is not sufficient to cover such expenses, the Court may direct such further sum to be paid to the person summoned as appears to be necessary on that account; and, in case of default in payment, may order such sum to be levied by attachment and sale of the moveable property of the party obtaining the summons; or the Court may discharge the person summoned without requiring him to give evidence; or may both order such levy and discharge such person as aforesaid.

If it be necessary to detain the person summoned for a longer period than one day, the Court may from time to time order the party at whose instance he was summoned, to pay into Court such sum as is sufficient to defray the expenses of his detention for such further period, and in default of such deposit being made, may order such sum to be levied by attachment and sale of the moveable property of the party at whose instance he was summoned; or the Court may discharge the person summoned without requiring him to give evidence; or may both order such levy and discharge such person as aforesaid.

163. Every summons for the attendance of a person to give evidence or produce a document shall specify the time and place at which he is required to attend, and also whether his attendance is required for the purpose of giving evidence or to produce a document, or for both purposes; and any particular document which the person summoned is called on to produce, shall be described in the summons with reasonable accuracy.

164. Any person may be summoned to produce a document, without being summoned to give evidence; and any person summoned merely to produce a document shall be deemed to have complied with the summons, if he cause such document to be produced instead of attending personally to produce the same.

165. Any person present in court may be required by the Court to give evidence or to produce any document then and there in his actual possession or power.

166. Every summons to a person to give evidence or produce a document shall be served as nearly as may be in manner hereinbefore prescribed for the service of summons on the defendant; and the rules contained in chapter VI as to proof of service shall apply in the case of all summonses served under this section.

167. The service shall in all cases be made a sufficient time before the time specified in the summons for the attendance of the person summoned, to allow him a reasonable time for preparation and for travelling to the place at which his attendance is required.

168. If the serving-officer certify to the Court that the summons for the attendance of a person, either to give evidence or to produce a document, cannot be served, the Court shall examine the serving-officer on oath touching the non-service

and upon being satisfied that such evidence or production is material, and that the person for whose attendance the summons has been issued is absconding or keeping out of the way for the purpose of avoiding the service of the summons, may issue a proclamation requiring him to attend to give evidence, or produce the document, at a time and place to be named therein; and a copy of such proclamation shall be affixed on the outer door of the house in which he ordinarily resides.

If he does not attend at the time and place named in such proclamation, the Court may in its discretion, at the instance of the party on whose application the summons was issued, make an order for the attachment of the property of the person whose attendance is required, to such amount as the Court thinks fit, not exceeding the amount of the costs of attachment and of the fine which may be imposed under section 170:

Provided that no Court of Small Causes shall make an order for the attachment of immoveable property.

169. If, on the attachment of his property, such person appears and satisfies the Court that he did not abscond or keep out of the way to avoid service of the summons, and that he had not notice of the proclamation in time to attend at the time and place named therein, the Court shall direct that the property be released from attachment, and shall make such order as to the costs of the attachment as it thinks fit.

170. If such person does not appear, or appearing, fails to satisfy the Court that he did not abscond or keep out of the way to avoid service of the summons, and that he had not notice of the proclamation in time to attend at the time and place named therein, the Court may impose upon him such fine not exceeding five hundred rupees as the Court thinks fit, having regard to his condition in life and all the circumstances of the case, and may order the property attached, or any part thereof, to be sold for the

purpose of satisfying all costs incurred in consequence of such attachment, together with the amount of the said fine, if any :

Provided that if the person whose attendance is required pays into court the costs and fine as aforesaid, the Court shall order the property to be released from attachment.

171. Subject to the rules of this Code as to attendance and appearance and to the provisions of the Indian Evidence Act, if the Court at any time thinks it necessary to examine any person other than a party to the suit, and not named as a witness by a party to the suit, the Court may, of its own motion, cause such person to be summoned as a witness to give evidence, or to produce any document in his possession, on a day to be appointed, and may examine him as a witness or require him to produce such document.

172. Subject as last aforesaid, whoever is summoned to appear and give evidence in a suit must attend at the time and place named in the summons for that purpose, and whoever is summoned to produce a document must either attend to produce it, or cause it to be produced, at such time and place.

173. No person so summoned and attending shall depart unless and until—
(a) he has been examined or has produced the document and the Court has risen, or (b) he has obtained the Court's leave to depart.

174. If any person on whom a summons to give evidence or produce a document has been served fails to comply with the summons, or if any person so summoned and attending departs in contravention of section 173, the Court may order him to be arrested and brought before the Court :

Provided that no such order shall be made when the Court has reason to believe that the person so failing had a lawful excuse for such failure.

When any person so brought before the Court fails to satisfy it that he had a lawful excuse for not complying with the summons, the Court may sentence him to fine not exceeding five hundred rupees.

Explanation.—Non-payment or non-tender of a sum sufficient to defray the expenses mentioned in section 160 shall be deemed a lawful excuse within the meaning of this section.

If any person so apprehended and brought before the Court cannot, owing to the absence of the parties or any of them, give the evidence or produce the document which he has been summoned to give or produce, the Court may require him to give reasonable bail or other security for his appearance at such time and place as it thinks fit, and on such bail or security being given, may release him.

175. If any person so failing to comply with a summons absconds or keeps out of the way, so that he cannot be apprehended and brought before the Court, the provisions of sections 168, 169 and 170 shall, *mutatis mutandis*, apply.

176. No one shall be bound to attend in person summoned to person to give evidence or attend in person if so to be examined in Court required, unless he resides—

(a) within the local limits of its ordinary original jurisdiction, or

(b) without such limits and at a place less than fifty or (where there is railway communication for five-sixths of the distance between the place where he resides and the place where the Court is situate) two hundred miles distant from the Court-house.

177. If any party to a suit present in Court refuses, without lawful excuse, when required by the Court, to give evidence, or to produce any document then and there in his actual possession or power, the Court may in its discretion either pass a decree against him, or make such other order in relation to the suit as the Court thinks fit.

178. Whenever any party to a suit is required to give evidence or to produce a document, the rules as to witnesses contained in this Code shall apply to him so far as they are applicable.

CHAPTER XV.

OF THE HEARING OF THE SUIT AND EXAMINATION OF WITNESSES.

179. On the day fixed for the hearing of the suit, or on any other day to which the hearing is adjourned, the party having the right to begin shall state his case and produce his evidence in support of the issues which he is bound to prove.

Explanation.—The plaintiff has the right to begin unless where the defendant admits the facts alleged by the plaintiff and contends that either in point of law or on some additional facts alleged by the defendant the plaintiff is not entitled to any part of the relief which he seeks, in which case the defendant has the right to begin.

180. The other party shall then state his case and produce his evidence (if any). The party beginning is then entitled to reply.

Where there are several issues, the burden of proving some of which lies on the other party, the party beginning may, at his option, either produce his evidence on those issues or reserve it by way of answer to the evidence produced by the other

of the decree, in addition to any interest adjudged on such principal sum for any period prior to the institution of the suit, with further interest at such rate as the Court deems reasonable on the aggregate sum so adjudged, from the date of the decree to the date of payment, or to such earlier date as the Court thinks fit.

210. In all decrees for the payment of money, the Court may for any sufficient reason order that the amount shall be paid by instalments, with or without interest.

And after the passing of any such decree the Court may, on the application of the judgment-debtor, and with the consent of the decree-holder, order that the amount decreed be paid by instalments on such terms as to the payment of interest, the attachment of the property of the defendant, or the taking of security from him, or otherwise, as it thinks fit:

Save as provided in this section and section 206, no decree shall be altered at the request of parties.

211. When the suit is for land or other property yielding rent or other profit, the Court may provide in the decree for the payment of rent or mesne profits in respect of such property from the institution of the suit until the delivery of possession to the party in whose favour the decree is made, or until the expiration of three years from the date of the decree (whichever event first occurs), with interest thereupon at such rate as the Court thinks fit.

Explanation.—‘Mesne profits’ of property mean those profits which the person in wrongful possession of such property actually received, or might with ordinary diligence have received, therefrom.

212. When the suit is for immoveable property and for mesne profits which have accrued on the property during a period prior to the institution of the suit, and the amount of such profits is disputed, the Court may either determine the amount by the decree itself, or may pass a decree for the property and direct an inquiry into the amount of mesne profits, and dispose of the same on further orders.

213. When the suit is for an account of any property and for its due administration under the decree of the Court, the Court, before making the decree, shall order such accounts and inquiries to be taken and made, and give such other directions as it thinks fit.

In the administration by the Court of the property of any person who dies after this Code comes into force, if such property proves to be insufficient for the payment in full of his debts and liabilities, the same rules shall be observed as to the respective rights of secured and unsecured creditors and as to debts and liabilities proveable, and as to the valuation of annuities and future and contingent liabilities respectively, as may be in force for the time being with respect to the estates of persons adjudged insolvent;

And all persons who in any such case would be entitled to be paid out of such property may come in under the decree for its administration, and make such claims against the same as they may respectively be entitled to by virtue of this Code.

Applications under section 265 of the Indian Contract Act, 1872, shall be deemed to be suits within the meaning of this section.

214. When the suit is to enforce a right of pre-emption in respect of a particular sale of property, and the Court finds for the plaintiff, if the amount of purchase-money has not been paid into Court, the decree shall specify a day on or before which it shall be so paid, and shall declare that on payment of such purchase-money, together with the costs (if any) decreed against him, the plaintiff shall obtain possession of the property, but that if such money and costs are not so paid, the suit shall stand dismissed with costs.

215. When the suit is for the dissolution of a partnership, the Court, before making its decree, may pass an order fixing the day on which the partnership shall stand dissolved, and directing such accounts to be taken and other acts to be done as it thinks fit.

216. If the defendant has set-off the amount of a debt against the claim of the plaintiff, and such set-off has been allowed, the decree shall state what amount is due to the plaintiff and what amount (if any) is due to the defendant, and shall be for the recovery of any sum which appears to be due to either party.

The decree of the Court with respect to any sum awarded to the defendant shall have the same effect, and be subject to the same rules in respect of appeal or otherwise, as if such sum had been claimed by the defendant in a separate suit against the plaintiff.

217. Certified copies of the judgment and decree shall be furnished to the parties on application to the Court, and at their expense.

CHAPTER XVIII.

OF COSTS.

218. When disposing of any application under this Code, the Court may give to either party the costs of such application, or may reserve the consideration of such costs for any future stage of the proceedings.

219. The judgment shall direct by whom the costs of each party are to be paid, whether by himself or by any other party to the suit, and whether in whole or in what part or proportion.

220. The Court shall have full power to give and apportion costs of every application and suit in any manner it thinks fit, and the fact that the Court

has no jurisdiction to try the case is no bar to the exercise of such power :

Provided if the Court directs that the costs of any application or suit shall not follow the event, the Court shall state its reasons in writing.

221. The Court may direct that the costs payable to one party by another shall be set-off against a sum admitted or is found to be due. which is admitted or is found in the suit to be due from the former to the latter,

but such direction shall not affect the lien upon the amount decreed of any pleader in respect of the costs payable to him under the decree.

222. The Court may give interest on costs at any rate not exceeding six per cent. per annum and may direct that costs, with or without interest, be paid out of or charged upon the subject-matter of the suit.

CHAPTER XIX.

OF THE EXECUTION OF DECREES.

A.—Of the Court by which Decrees may be executed.

223. A decree may be executed either by the Court which passed it or by the Court to which it is sent for execution under the provisions hereinafter contained.

The Court which passed a decree may, on the application of the decree-holder, send it for execution to another Court,

(a) if the person against whom the decree is passed actually and voluntarily resides or carries on business, or personally works for gain, within the local limits of the jurisdiction of such other Court, or

(b) if such person has not property within the local limits of the jurisdiction of the Court which passed the decree sufficient to satisfy such decree and has property within the local limits of the jurisdiction of such other Court, or

(c) if the decree direct the sale of immoveable property situate outside the district within which the Court which passed it is situate, or

(d) if the Court which passed the decree considers for any other reason, which it shall record in writing, that the decree should be executed by such other Court.

The Court which passed a decree may of its own motion send it for execution to any Court subordinate thereto.

The Court to which a decree is sent under this section for execution shall certify to the Court which passed it, the fact of such execution, or where the former Court fails to execute the same, the circumstances attending such failure.

If the decree has been passed in a case cognizable by a Court of Small Causes and the Court which passed it wishes it to be executed in Calcutta, Madras, Bombay or Rangoon, such Court may send to the local Court of Small Causes the copies and certificate respectively mentioned in

clauses (a), (b) and (c) of section 224; and such Court of Small Causes shall thereupon execute the decree as if it had been passed by itself.

If the Court to which a decree is to be sent for execution is situate within the same district as the Court which passed such decree, such Court shall send the same directly to the former Court. But if the Court to which the decree is to be sent for execution is situate in a different district, the Court which passed it shall send it to the District Court of the district in which the decree is to be executed.

224. The Court sending a decree for execution under section 223 shall send therewith

(a) a copy of the decree;

(b) a certificate setting forth that satisfaction of the decree has not been obtained by execution within the jurisdiction of the Court by which it was passed, or, where the decree has been executed in part, the extent to which satisfaction has been obtained and what part of the decree remains unexecuted; and

(c) a copy of any order for the execution of the decree, and if no such order has been made, a certificate to that effect.

225. The Court to which a decree is so sent shall cause such copies and certificate to be filed, without any further proof of the decree or order for execution, or of the copies thereof, or of the jurisdiction of the Court which passed it, unless the former Court, for any special reasons to be recorded under the hand of the Judge, requires such proof.

226. When such copies are so filed, the decree or order may, if the Court to which it is sent be the District Court, be executed by such Court or by any subordinate Court which it directs to execute the same.

227. If the Court to which the decree is sent for execution be a High Court, the decree shall be executed by such Court in the same manner as if it had been made by such Court in the exercise of its ordinary original civil jurisdiction.

228. The Court executing a decree sent to it under this chapter shall have the same powers in executing such decree as if it had been passed by itself. All persons disobeying or obstructing the execution of the decree shall be punishable by such Court in the same manner as if it had passed the decree. And its orders in executing such decree shall be subject to the same rules in respect of appeal, as if the decree had been passed by itself.

229. A decree of any Court established by the authority of the Governor General in Council in the territories of any Native Prince or State in India, which cannot be executed within the jurisdiction of the Court by which it was made, may be executed in manner herein provided within the jurisdiction of any Court in British India.

B.—Of Application for Execution.

230. When the holder of a decree desires to enforce it, he shall apply to the Court which passed the decree or to the officer, if any, appointed in this behalf, or if the decree has been sent under the provisions hereinbefore contained to another Court, then to such Court or to the proper officer thereof.

The Court may in its discretion refuse execution at the same time against the person and property of the judgment-debtor.

Where an application to execute a decree for the payment of money or delivery of other property has been made under this section and granted, no subsequent application to execute the same decree shall be granted unless the Court is satisfied that on the last preceding application due diligence was used to procure complete satisfaction of the decree; and the order of the Court granting any such subsequent application shall be conclusive evidence that due diligence was used to procure such satisfaction.

And no such subsequent application shall be granted after the expiration of twelve years from any of the following dates (namely) —

(a) the date of the decree sought to be enforced, or of the decree (if any) on appeal affirming the same, or

(b) where the decree or any subsequent order directs the payment of money or the delivery of property by instalments,—the date of the default in paying or delivering the instalment in respect of which the applicant seeks to enforce the decree.

Nothing in this section shall prevent the Court from granting an application for execution of a decree after the expiration of the said term of twelve years, where the judgment-debtor has by fraud or force prevented the execution of the decree at some time within twelve years immediately before the date of the application.

Notwithstanding anything herein contained, proceedings may be taken to enforce any decree within three years after the passing of this Code, unless when the period prescribed for taking such proceedings by the law in force immediately before the passing of this Code shall have expired before the completion of the said three years.

231. If a decree has been passed jointly in favour of more persons than one, any one or more of such persons, or his or their representatives, may apply for the execution of the whole decree for the benefit of them all, or, where any of them has died, for the benefit of the survivors and the representative in interest of the deceased.

If the Court sees sufficient cause for allowing the decree to be executed on an application so made, it shall pass such order as it deems necessary for protecting the interests of the persons who have not joined in the application.

232. If a decree be transferred by assignment in writing or by operation of law from the decree-holder to any other person, the transferee may apply for its execution to the Court which passed it; and if that Court thinks fit, the decree may be executed in the same manner

and subject to the same conditions as if the application were made by such decree-holder :

Provided that where the decree has been transferred by assignment, notice in writing of such application shall be given to the transferor and the judgment-debtor, and the decree shall not be executed until the Court has heard their objections (if any) to such execution.

Provided also that where a decree against several persons has been transferred to one of them, it shall not be executed against the others.

233. Every transferee of a decree shall hold the same subject to the equities (if any) which the judgment-debtor might have enforced against the original decree-holder.

Transferee to hold subject to equities enforceable against original holder.

234. If a judgment-debtor dies before the decree has been fully executed, the holder of the decree may apply to the Court which passed it to execute the same against the legal representative of the deceased.

Such representative shall be liable only to the extent of the property of the deceased which has come to his hands and has not been duly disposed of; and for the purpose of ascertaining such liability, the Court executing the decree may of its own motion, or on the application of the decree-holder, compel the said representative to produce such accounts as it thinks fit.

235. The application for the execution of a decree shall be in writing, verified in manner hereinbefore provided for the verification of plaints, and shall contain in a tabular form the following particulars (namely) —

- (a) the number of the suit;
- (b) the names of the parties;
- (c) the date of the decree;
- (d) whether any appeal has been preferred from the decree;
- (e) whether any and what adjustment of the matter in dispute has been made between the parties subsequently to the decree;
- (f) whether any and what previous applications have been made for execution of the decree and with what result;
- (g) the amount of the debt or compensation, with the interest, if any, due upon the decree, or other relief granted thereby;
- (h) the amount of costs, if any, awarded;
- (i) the name of the person against whom the enforcement of the decree is sought; and
- (j) the mode in which the assistance of the Court is required, whether by the delivery of property specifically decreed, by the arrest and imprisonment of the person named in the application, or by the attachment of his property, or otherwise as the nature of the relief sought may require.

236. If the application be for the attachment

Application for attachment of moveable property to be accompanied with inventory.

of any moveable property belonging to the judgment-debtor but not in his possession, the decree-holder shall

annex to the application an inventory of the property to be attached, containing a reasonably accurate description of the same.

237. If the application be for the attachment

Further particulars when application is for attachment of immoveable property.

of any immoveable property belonging to the judgment-debtor, it shall contain at

the foot a description of the property sufficient to identify it, and also a specification of the judgment-debtor's share or interest therein to the best of the belief of the applicant and so far as he has been able to ascertain the same.

Every such description and specification shall be verified in manner hereinbefore provided for the verification of plaints.

238. If the property be land registered in the

When application must be accompanied by extract from Collector's register.

Collector's office, the application for attachment shall be accompanied by an authenticated extract from the

register of such office, specifying the persons registered as proprietors of, or as possessing any transferable interest in, the land or its revenue, or as liable to pay revenue for such land, and the shares of the registered proprietors.

*C.—Of staying Execution.***239. The Court to which a decree has been**

When Court may stay execution.

sent for execution under this chapter, shall upon sufficient cause being shewn, stay the

execution of such decree for a reasonable time, to enable the judgment-debtor to apply to the Court by which the decree was made, or to any Court having appellate jurisdiction in respect of the decree or the execution thereof, for an order to stay the execution, or for any other order relating to the decree or execution which might have been made by such Court of first instance or appellate Court if execution had been issued thereby, or if application for execution had been made thereto ;

and in case the property or person of the judgment-debtor has been seized under an execution, the Court which issued the execution may order the restitution or discharge of such property or person pending the result of the application for such order.

240. Before passing an order under section 239,

Power to require security from, or impose conditions upon, judgment-debtor.

to stay execution, or for the restitution of property or the discharge of the judgment-debtor, the Court may

require such security from, or impose such conditions upon, the judgment-debtor as it thinks fit.

241. No discharge under section 239 of the

Liability of judgment-debtor discharged to be retaken.

property or person of a judgment-debtor, shall prevent it or him from being retaken in execution of the decree sent for execution.

242. Any order of the Court by which the

Order of Court passing decree or of Appellate Court to be binding upon Court applied to.

decree was passed or of such Court of appeal as aforesaid, in relation to the execution of such decree shall be binding upon the Court to which the decree was sent for execution.

243. If a suit be pending in any Court against

Stay of execution pending suit between decree-holder and judgment-debtor.

the holder of a decree of such Court, on the part of the person against whom the decree was passed, the Court

may (if it think fit) stay execution on the decree, either absolutely or on such terms as it thinks fit, until the pending suit has been decided.

*D.—Questions for Court executing decree.***244. The following questions shall be deter-**

Question to be decided by Court executing decree.

mined by order of the Court executing a decree and not by separate suit (namely) —

(a) questions regarding the amount of any mesne profits as to which the decree has directed inquiry ;

(b) questions regarding the amount of any mesne profits or interest which the decree has made payable in respect of the subject-matter of a suit between the date of its institution and the execution of the decree, or the expiration of three years from the date of the decree ;

(c) any other questions arising between the parties to the suit in which the decree was passed, or their representatives, and relating to the execution of the decree.

Nothing in this section shall be deemed to bar a separate suit for mesne profits accruing between the institution of the first suit and the execution of the decree therein, where such profits are not dealt with by such decree.

*E.—Of the mode of executing Decrees.***245. The Court, on receiving an application for**

Procedure on receiving application for execution of decree.

the execution of a decree, shall ascertain whether it contains the particulars men-

tioned in section 235, or such of them as may be applicable to the case, and whether it is accompanied by the inventory mentioned in section 236 ; and if such particulars or inventory are or is wanting, it shall reject the application or return it for amendment or for the addition of the inventory, as the case may be, or amend it then and there. Every amendment made under this section shall be attested by the signature of the Judge.

When the application is admitted, the Court

Procedure on admitting application.

shall enter in the register of the suit a note of the application and the date on

which it was made, and shall order execution of the decree according to the nature of the application :

Provided that, in the case of a decree for money, the value of the property attached shall as nearly as may be correspond with the amount for which the decree has been made.

246. If cross-decrees between the same parties for the payment of money be produced to the Court, execution shall be taken out only by the party who holds a decree for the larger sum, and for so much only as remains after deducting the smaller sum, and satisfaction for the smaller sum shall be entered on the decree for the larger sum as well as satisfaction on the decree for the smaller sum.

If the two sums be equal, satisfaction shall be entered upon both decrees.

Explanation I.—The decrees contemplated by this section are (a) decrees made by the same Court, (b) decrees sent to the same Court for execution, and (c) decrees of which one is made by the Court and the other is sent to the same Court for execution; but not (d) decrees of which one is made by one Court and the other is made by another Court and not sent for execution to the former Court.

Explanation II.—This section applies where either party is an assignee of one of the decrees and as well in respect of judgment-debts due by the original assignor as by the assignee himself.

Explanation III.—This section does not apply unless

(e) both decrees are capable of execution at the same time;

(f) the decree-holder in one of the suits in which the decrees have been made is the judgment-debtor in the other and each party fills the same character in both suits; and

(g) the sums due under the decrees are definite.

Illustrations.

(a) A holds a decree against B for Rs. 1,000. B holds a decree against A for the payment of Rs. 1,000 in case A fails to deliver certain goods at a future day. B cannot treat his decree as a cross-decree under this section.

(b) A and B, co-plaintiffs, obtain a decree for Rs. 1,000 against C, and C obtains a decree for Rs. 1,000 against B. C cannot treat his decree as a cross-decree under this section.

(c) A obtains a decree against B for Rs. 1,000. C, who is a trustee for B, obtains a decree on behalf of B against A for Rs. 1,000. B cannot treat C's decree as a cross-decree under this section.

247. When two parties are entitled under the same decree to recover from each other sums of different amounts, the party entitled to the smaller sum shall not take out execution against the other party; but satisfaction for the smaller sum shall be entered on the decree.

When the amounts are equal, neither party shall take out execution, but satisfaction for each sum shall be entered on the decree.

248. The Court shall issue a notice to the party against whom execution is applied for, requiring him to shew cause, within a period to be fixed by the Court, why the decree should not be executed against him,

(a) if more than one year has elapsed between the date of the decree and the application for its execution, or

(b) if the enforcement of the decree be applied for against the legal representative of a party to the suit in which the decree was made:

Proviso.

Provided that no such notice shall be necessary

in consequence of more than one year having elapsed between the date of the decree and the application for execution, if the application be made within one year from the date of any decree passed on appeal from the decree sought to be executed or of the last order against the party against whom execution is applied for passed on any previous application for execution, or

in consequence of the application being against the legal representative of the judgment-debtor, if upon a previous application for execution against the same person, the Court has ordered execution to issue against him.

Explanation.—In this section the phrase "the Court" means the Court by which the decree was passed, unless the decree has been sent to another Court for execution, in which case it means such other Court.

249. If the person to whom notice is issued under the last preceding section does not appear, or does not shew cause to the satisfaction of the Court why the decree should not be executed, the Court shall order the decree to be executed.

If he offers any objection to the enforcement of the decree, the Court shall consider such objection and pass such order as it thinks fit.

250. When the preliminary measures (if any) Warrant when to required by the foregoing provisions have been taken, the Court, unless it sees cause to the contrary, shall issue its warrant for the execution of the decree.

251. Such warrant shall be dated the day on which it is issued, signed by the Judge or such officer as the Court appoints in this behalf, sealed with the seal of the Court, and delivered to the proper officer to be executed.

And a day shall be specified in such warrant on or before which it must be executed, and the proper officer shall endorse thereon the day and manner in which it was executed, or if it was not executed, the reason why it was not executed, and shall return it with such endorsement to the Court from which it issued.

252. If the decree be against a party as the legal representative of a deceased person, and the decree be for money to be paid out of the property of the deceased, it may be executed by the attachment and sale of any such property.

If no such property can be found, and the judgment-debtor fails to satisfy the Court that he has duly applied such property of the deceased as is proved to have come into his possession, the decree may be executed against the judgment-debtor to the extent of the property not duly applied by

him, in the same manner as if the decree had been against him personally.

253. Whenever a person has, before the passing of a decree in an original suit, become liable as surety for the performance of the same or of any part thereof, the decree may be executed against him to the extent to which he has rendered himself liable, in the same manner as a decree may be executed against a defendant :

Provided that such notice in writing as the Court in each case thinks sufficient has been given to the surety.

254. Every decree or order directing a party to pay money, as compensation, or costs, or as the alternative to some other relief granted by the decree or order, or otherwise, may be enforced by the imprisonment of the judgment-debtor, or by the attachment and sale of his property in manner hereinafter provided, or by both.

255. If the decree be for mesne profits or any other matter the amount of which in money is to be subsequently determined, the property of the judgment-debtor may, before the amount due from him under the decree has been ascertained, be attached as in the case of an ordinary decree for money.

256. When a decree is passed for a sum of money only, and the amount decreed does not exceed the sum of one thousand rupees, the Court may, when passing the decree, on the oral application of the decree-holder, order immediate execution thereof by the issue of a warrant directed either against the person of the judgment-debtor if he is within the local limits of the jurisdiction of the Court, or against his moveable property within the same limits.

Power to direct immediate execution of decree for money not exceeding Rs. 1,000.

257. All money payable under a decree shall be paid as follows (namely)—

(a) into the Court whose duty it is to execute the decree; or

(b) out of Court to the decree-holder; or

(c) otherwise as the Court which made the decree directs.

258. If the money is paid out of Court or the decree is otherwise adjusted to the satisfaction of the decree-holder, he shall certify the payment or adjustment to the Court whose duty it is to execute the decree; and no satisfaction of a decree in part or in whole by such payment or adjustment shall be recognized by such Court unless the payment or adjustment be certified as aforesaid. Where the decree-holder fails to certify as aforesaid, the judgment-debtor may apply to such Court for an order directing the decree-holder to certify as aforesaid, and the Court, after hearing the decree-holder, may make such order, and if the decree-holder disobeys the same, may refuse further to execute the decree.

259. If the decree be for any specific moveable, or for any share in a specific moveable, or for the recovery of a wife, it may be enforced by the seizure, if practicable, of the moveable or share, and by the delivery thereof to the party to whom it has been adjudged, or to such person as he appoints to receive delivery on his behalf, or by the imprisonment of the judgment-debtor, or by attaching his property and keeping the same under attachment until the further order of the Court, or by both imprisonment and attachment, if necessary.

No attachment under this section shall remain in force for more than six months, at the end of which time, if the judgment-debtor has not obeyed the decree, the property attached may be sold, and out of the proceeds the Court may award to the decree-holder such compensation as it thinks fit, and pay the balance, if any, to the judgment-debtor on his application.

260. When the party against whom a decree for the specific performance of a contract, or for restitution of conjugal rights, or for the performance of any other particular act, has been made, has had an opportunity of obeying the decree or injunction and has wilfully failed to obey it, the decree may be enforced by his imprisonment, or by the attachment of his property, or by both.

No attachment under this section shall remain in force for more than one year, at the end of which time, if the judgment-debtor has not obeyed the decree, the property attached may be sold and out of the proceeds the Court may award to the decree-holder such compensation as it thinks fit and may pay the balance, if any, to the judgment-debtor on his application.

261. If the decree be for the execution of a conveyance, or for the endorsement of a negotiable instrument, and the judgment-debtor neglects or refuses to comply with the decree, the decree-holder may prepare the draft of a conveyance or endorsement in accordance with the terms of the decree, and deliver the same to the Court.

The Court shall thereupon cause the draft to be served on the judgment-debtor in manner hereinbefore provided for serving a summons, together with a notice in writing stating that his objections, if any, thereto shall be made within such time (mentioning it) as the Court fixes in this behalf.

The decree-holder may also tender a duplicate of the draft to the Court for execution upon the proper stamp-paper, if a stamp is required by law.

On proof of such service, the Court, or such officer as it appoints in this behalf, shall execute the duplicate so tendered, or may, if necessary, alter the same, so as to bring it into accordance with the terms of the decree, and execute the duplicate so altered :

Provided that if any party object to the draft so served as aforesaid, his objections shall, within

the time so fixed, be stated in writing and argued before the Court, and the Court shall thereupon pass such order as it thinks fit, and execute, or alter and execute, the duplicate in accordance therewith.

262. The execution of a conveyance or the endorsement of a negotiable instrument by the Court under the last preceding section may be in the following form: "*O. H.*, Judge of the Court of (or as the case may be), for *A. B.*, in a suit by *E. F.*, against *A. B.*," or in such other form as the High Court may from time to time prescribe, and shall have the same effect as the execution of the conveyance or endorsement of the instrument by the party ordered to execute or endorse the same.

263. If the decree be for the delivery of any immovable property, possession thereof shall be delivered over to the party to whom it has been adjudged, or to such person as he appoints to receive delivery on his behalf, and, if need be, by removing any person bound by the decree who refuses to vacate the property.

264. If the decree be for the delivery of any immovable property in the occupancy of a tenant or other person entitled to occupy the same, the Court shall order delivery to be made by affixing a copy of the warrant in some conspicuous place on the property, and proclaiming to the occupant by beat of drum, or in such other mode as is customary, at some convenient place, the substance of the decree in regard to the property:

Provided that if the occupant can be found, a notice in writing containing such substance shall be served upon him, and in such case no proclamation need be made.

265. If the decree be for the partition or for the separate possession of a share of an undivided estate paying revenue to Government, the partition of the estate or the separation of the share shall be made by the Collector.

F.—Of Attachment of Property.

266. The following property is liable to attachment and sale in execution of a decree, (namely) lands, houses or other buildings, goods, money, bank-notes, cheques, bills of exchange, hundis, promissory notes, Government securities, bonds or other securities for money, debts, shares in the capital or joint-stock of any railway, banking or other public Company or Corporation, and, except as hereinafter mentioned, all other saleable property, moveable or immovable, belonging to the judgment-debtor or over which, or the profits of which, he has a disposing power which he may exercise for his own benefit, and whether the same be held in the name of the judgment-debtor or by another person in trust for him or on his behalf:

Provided that the following particulars shall not be liable to such attachment or sale (namely)—

(a) the necessary wearing apparel of the judgment-debtor, his wife and children:

- (b) tools of artisans, implements of husbandry and such cattle as may in the opinion of the Court be necessary to enable the judgment-debtor to earn his livelihood as an agriculturist:
- (c) the materials of houses and other buildings belonging to and occupied by agriculturists:
- (d) books of account:
- (e) mere rights to sue for damages:
- (f) any right of personal service:
- (g) stipends allowed to military and civil pensioners of Government, and political pensions
- (h) one moiety of the salary of a public officer or of the servant of a Railway Company:
- (i) the pay and allowances of persons to whom the Native Articles of War apply:
- (j) the wages of labourers and domestic servants:
- (k) an expectancy of succession by survivorship or other merely contingent or possible right or interest
- (l) a right to future maintenance.

Explanation.—The particulars mentioned in clauses (g), (h), (i) and (j) are exempt from attachment or sale whether before or after they are actually payable:

Provided also that nothing in this section shall be deemed:

- (a) to exempt the materials of houses and other buildings from attachment or sale in execution of decrees for rent, or
- (b) to affect the statute for the time being in force for punishing mutiny and desertion and for the better payment of the Army and their quarters.

267. The Court may of its own motion or on the application of the decree-holder, summon any person whom it thinks necessary, and examine him in respect to any property liable to be seized in satisfaction of the decree, and may require the person summoned to produce any document in his possession or power relating to such property, and before issuing the summons of its own motion, shall declare the person on whose behalf the summons is so issued.

268. In the case of (a) a debt not secured by a negotiable instrument, (b) a share in the capital of any public company or corporation, (c) other moveable property not in the possession of the judgment-debtor, except property deposited in, or in the custody of, any Court, the attachment shall be made by a written order prohibiting,

(a) in the case of the debt, the creditor from recovering the debt and the debtor from making payment thereof until the further order of the Court:

(b) in the case of the share, the person in whose name the share may be standing, from transferring the same or receiving any dividend thereon:

(c) in the case of the other moveable property except as aforesaid, the person in possession of the same from giving it over to the judgment-debtor.

A copy of such order shall be fixed up in some conspicuous part of the Court-house, and another copy of the same shall be sent in the case of the debt to the debtor, in the case of the share to the proper officer of the company or corporation, and in the case of the other moveable property (except as aforesaid) to the person in possession of the same.

A debtor prohibited under clause (a) of this section may pay the amount of his debt into court, and such payment shall discharge him as effectually as payment to the party entitled to receive the same.

No attachment under this section shall remain in force for more than six months; at the end of which time, if the judgment-debtor has not obeyed the decree, the property attached may be sold, and out of the proceeds the Court may award to the decree-holder such compensation as it thinks fit, and pay the balance, if any, to the judgment-debtor on his application.

269. If the property be moveable property in the possession of the judgment-debtor, other than the property mentioned in the first proviso to section 266, the attachment shall be made by actual seizure, and the attaching officer shall keep the property in his own custody or in the custody of one of his subordinates, and shall be responsible for the due custody thereof:

Provided that when the property seized is subject to speedy and natural decay, or when the expense of keeping it in custody will exceed its value, the proper officer may sell it at once.

The Local Government may from time to time make rules for the maintenance of tenance and custody, while attached live-stock, under attachment, of live-stock and other moveable property, and the officer attaching property under this section shall, notwithstanding the provisions of the former part of this section act in accordance with such rules.

270. If the property be a negotiable instrument not in deposit in a Court, the attachment shall be made by actual seizure, and the instrument shall be brought into court and held subject to the further orders of the Court.

271. If the person executing any process under this Code directing or authorizing seizure of moveable property, has gained access to a house or other building, he may unfasten and open the door of any room in which he has reason to believe any such property to be:

Provided that if the room be in the actual occupancy of a woman, who according to the customs of the country does not appear in public, the person executing the process shall give notice to her that she is at liberty to withdraw; and after allowing a reasonable time for such woman to withdraw, and giving her every reasonable facility for withdrawing, he may enter such room for the purpose of seizing the property, using at the same time every precaution, consistent with these provisions, to prevent its clandestine removal.

272. If the property be deposited in, or be in the custody of, any Court or public officer, the attachment shall be made by a notice to such Court or officer, requesting that such property, and any interest or dividend becoming payable thereon may be held subject to the further orders of the Court from which the notice issues:

Provided that, if such property is deposited in, or is in the custody of, a Court, any question of title or priority arising between the decree-holder and any other person, not being the judgment-debtor, claiming to be interested in such property by virtue of any assignment, attachment or otherwise, shall be determined by such Court.

273. If the property be a decree for money passed by the Court which passed the decree sought to be executed, the attachment shall be made by an order of the Court directing the proceeds of the former decree to be applied in satisfaction of the latter decree.

If the property be a decree for money passed by any other Court, the attachment shall be made by a notice in writing to such Court under the hand of the Judge of the Court which passed the decree sought to be executed, requesting the former Court to stay the execution of its decree until such notice is cancelled by the Court from which it was sent. The Court receiving such notice shall stay execution accordingly, unless and until

(a) the Court which passed the decree sought to be executed cancels the notice, or

(b) the holder of the decree sought to be executed applies to the Court receiving such notice to execute its own decree.

On receiving such application, the Court shall proceed to execute the decree and apply the proceeds in satisfaction of the decree sought to be executed.

In the case of all other decrees the attachment shall be made by a notice in writing, under the hand of the Judge of the Court which passed the decree sought to be executed to the holder of the decree sought to be attached, prohibiting him from transferring or charging the same in any way; and, when such decree has been passed by any other Court, also by sending to such Court a like notice in writing to abstain from executing the decree sought to be attached until such notice is cancelled by the Court from which it was sent. Every Court receiving such notice shall give effect to the same until it is so cancelled.

The holder of any decree attached under this section shall be bound to give the Court executing the same such information and aid as may reasonably be required.

274. If the property be immoveable, the attachment shall be made by an order prohibiting the judgment-debtor from transferring or charging the property in any way, and all persons from receiving the same from him by purchase, gift or otherwise.

The order shall be proclaimed at some place on or adjacent to such property by beat of drum or

other customary mode, and a copy of the order shall be fixed up in a conspicuous part of the property and of the Court-house.

When the property is land paying revenue to Government, a copy of the order shall also be fixed up in the office of the Collector of the District in which the land is situate.

275. If the amount decreed with costs and all charges and expenses resulting from the attachment of any property be paid into Court, or if satisfaction of the decree be otherwise made through the Court, or if the decree is set aside or reversed, an order shall be issued, on the application of any person interested in the property, for the withdrawal of the attachment.

276. When an attachment has been made by actual seizure or by written order duly intimated and made known in manner aforesaid, any private alienation of the property attached, whether by sale, gift, mortgage or otherwise, and any payment of the debt or dividend or a delivery of the share to the judgment-debtor during the continuance of the attachment, shall be void as against all claims enforceable under the attachment.

277. If the property attached is coin or currency-notes, the Court may, at any time during the continuance of the attachment, direct that such coin or notes, or a part thereof sufficient to satisfy the decree, be paid over to the party entitled under the decree to receive the same.

278. If any claim be preferred to, or any objection be made to the attachment of, any property attached in execution of a decree, on the ground that such property is not liable to such attachment, the Court shall proceed to investigate the claim or objection with the like power as regards the examination of the claimant or objector, and in all other respects, as if he was a party to the suit:

Provided that no such investigation shall be made where the Court considers that the claim or objection was designedly or unnecessarily delayed.

If the property to which the claim or objection applies has been advertised for sale, the Court ordering the sale may postpone it pending the investigation of the claim or objection.

279. The claimant or objector must adduce evidence to show that at the date of the attachment he had some interest in, or was possessed of, the property attached.

280. If upon the said investigation the Court is satisfied that, for the reason stated in the claim or objection, such property was not, when attached, in the possession of the judgment-debtor or of some person in trust for him, or in the occupancy of a tenant or other person paying rent to him, or that, being in the possession of the judgment-debtor at such time, it was

so in his possession, not on his own account or as his own property, but on account of or in trust for some other person, or partly on his own account and partly on account of some other person, the Court shall pass an order for releasing the property wholly or to such extent as it thinks fit, from attachment.

281. If the Court is satisfied that the property was, at the time it was attached, in possession of the judgment-debtor as his own property and not on account of any other person, or was in the possession of some other person in trust for him, or in the occupancy of a tenant or other person paying rent to him, the Court shall disallow the claim.

282. If the Court is satisfied that the property is subject to a mortgage or lien in favour of some person not in possession, and thinks fit to continue the attachment, it may do so, subject to such mortgage or lien.

283. The party against whom an order under section 280, 281 or 282 is passed may institute a suit to establish the right which he claims to the property in dispute, but subject to the result of such suit, if any, the order shall be conclusive.

284. Any Court may order that any property which has been attached, or such portion thereof as may seem necessary to satisfy the decree, shall be sold, and that the proceeds of such sale, or a sufficient portion thereof, shall be paid to the party entitled under the decree to receive the same.

285. Where property not in the custody of any Court has been attached in execution of decrees of more Courts than one, the Court which shall receive or realize such property and shall determine any claim thereto and any objection to the attachment thereof shall be the Court of highest grade, or where there is no difference in grade between such Courts, the Court under whose decree the property was first attached.

G.—Of Sale and Delivery of Property.

(a) General Rules.

286. Sales in execution of decrees shall be conducted by an officer of the Court or by any other person whom the Court may appoint, and, except as provided in section 296, shall be made by public auction in manner hereinafter mentioned.

287. When any property is ordered to be sold by public auction in execution of a decree, the Court shall cause a proclamation of the intended sale to be made in the language of such Court. Such proclamation shall state the time and place of sale; and shall specify as fairly and accurately as possible—

(a) the property to be sold;

(b) the revenue assessed upon the estate or part of the estate, when the property to be sold is an interest in an estate or a part of an estate paying revenue to Government;

- (c) any incumbrance to which the property is liable;
- (d) the amount for the recovery of which the sale is ordered; and
- (e) every other thing which the Court considers material for the purchaser to know in order to judge of the nature and value of the property.

For the purpose of ascertaining the matters so to be specified, the Court may summon any person whom it thinks necessary, and examine him in respect to any such matters, and require him to produce any document in his possession or power relating thereto.

The High Court shall, as soon as may be after Rules to be made by this Code comes into force, High Court. make rules for the guidance

of the Courts in exercise of their duties under this section. The High Court may from time to time alter any rules so made. All such rules shall be published in the local official Gazette and shall thereupon have the force of law. As regards his own Court and the Court of Small Causes at Rangoon the Recorder of Rangoon shall be deemed to be a 'High Court' within the meaning of this paragraph.

Nothing in this section shall apply to cases in which the execution of the decree has been transferred to the Collector.

288. No Judge or other public officer shall be Indemnity of Judges, answerable for any error, &c. misstatement or omission in any proclamation under section 287 unless the same has been committed or made dishonestly.

289. The proclamation shall be made, in manner prescribed by section 274, Mode of making proclamation. on the spot where the property is attached.

If the Court so direct, such proclamation shall also be published in the local official Gazette and in some local newspaper, and the costs of such publication shall be deemed to be costs of the sale.

290. Except in the case of property mentioned in the proviso to section 269, Time of sale no sale under this chapter shall, without the consent in writing of the judgment-debtor, take place until after the expiration of at least thirty days in the case of immovable property, and of at least fifteen days in the case of moveable property, calculated from the date on which the notification has been affixed in the court-house of the Judge ordering the sale.

291. The officer conducting any sale under this chapter may in his discretion Power to adjourn sale. adjourn the sale, recording his reasons for such adjournment: Provided that when the sale is made in or within the precincts of the Court-house no such adjournment shall be made without the leave of the Court. Every such sale shall be stopped if, before the lot is knocked down, the debt and costs (including the costs of the sale) are tendered to such officer, or proof is given to his satisfaction that the amount of such debt and costs has been paid into the Court that ordered the sale.

292. No officer having any duty to perform in connection with any sale Officers concerned in execution-sales not to bid for or buy property sold. under this chapter shall either directly or indirectly

bid for, acquire, or attempt to acquire, any interest in any property sold at such sale.

293. The deficiency of price (if any) which may happen on a re-sale under Defaulting purchaser answerable for loss by this Code by reason of the purchaser's default, and all re-sale. expenses attending such re-sale, shall be certified to the Court by the officer holding the sale,

and shall, at the instance of either the judgment-creditor or the judgment-debtor, be recoverable from the defaulter under the rules contained in this chapter for the execution of a decree for money.

294. No holder of a decree in execution of Decree-holder not to bid for or buy property without permission. which property is sold, shall, without the express permission of the Court, bid for or purchase the property.

When a decree-holder purchases with such permission, the purchase-money and the amount due on the decree may, if he so desires, be set-off against one another, and the Court executing the decree shall enter up satisfaction of the decree in whole or in part accordingly.

295. Whenever assets are realized by sale or Proceeds of execution-sale to be divided rateably among decree-holders. otherwise in execution of a decree, and more persons than one have, prior to the realization, applied to the Court by which such assets are held for execution of decrees for money against the same judgment-debtor, and have not obtained satisfaction thereof, the assets, after deducting the costs of the realization, shall be divided rateably among all such persons:

Provided that, when any property is sold subject to a mortgage or charge, the mortgagee or incumbrancer shall not be entitled to share in any surplus arising from such sale:

Provided also that when any property liable to be sold in execution of a decree is subject to a mortgage or charge, the Court may, with the assent of the mortgagee or incumbrancer, order that the property be sold free from the mortgage or charge giving to the mortgagee or incumbrancer the same right against the proceeds of the sale as he had against the property sold.

If all or any of such assets be paid to a person not entitled to receive the same, any person so entitled may sue such person to compel him to refund the assets.

Nothing in this section affects any right of the Government.

(b).—Rules as to Moveable Property.

296. If the property to be sold be a negotiable instrument or a share Rules as to negotiable securities and shares in public Companies. in any public Company or Corporation, the Court may, instead of directing the sale to be made by public auction, authorize the sale of such instrument or share through a broker at the market-rate of the day.

297. In the case of other moveable property, the price of each lot shall be paid for at the time of sale, or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and sold.

On payment of the purchase-money, the officer holding the sale shall grant a receipt for the same, and the sale shall become absolute.

298. No irregularity in publishing or conducting the sale of moveable property shall vitiate the sale; but any person sustaining any injury by reason of such irregularity at the hand of any other person may institute a suit against him for compensation, or (if such other person be the purchaser) for the recovery of the specific property and for compensation in default of such recovery.

299. When the property sold is a negotiable instrument or other moveable property of which actual seizure has been made, the property shall be delivered to the purchaser.

300. When the property sold is any moveable property to which the judgment-debtor is entitled subject to the possession of some other person, the delivery thereof to the purchaser shall be made by giving notice to the person in possession prohibiting him from delivering possession of the property to any person except the purchaser.

301. When the property sold is a debt not secured by a negotiable instrument, or is a share in any public Company, the delivery thereof shall be made by a written order of the Court prohibiting the creditor from receiving the debt or any interest thereon, and the debtor from making payment thereof to any person except the purchaser, or prohibiting the person in whose name the share may be standing from making any transfer of the share to any person except the purchaser, or receiving payment of any dividend or interest thereon, and the Manager, Secretary or other proper officer of the Company from permitting any such transfer or making any such payment to any person except the purchaser.

302. If the endorsement or conveyance of the party in whose name a negotiable instrument or a share in any public Company is standing, is required to transfer such instrument or share, the Judge may endorse the instrument or the certificate of the share, or may execute such other document as may be necessary.

The endorsement or execution shall be in the following form or to the like effect :—“ *A. B. by C. D., Judge of the Court of (or as the case may be) ; in a suit by E. F. against A. B.*”

Until the transfer of such instrument or share, the Court may, by order, appoint some person to receive any interest or dividend due thereon, and to sign a receipt for the same; and any endorsement made or document executed or receipt signed as aforesaid shall be as valid and effectual for all purposes as if the same had been made or executed or signed by the party himself.

303. In the case of any moveable property not hereinbefore provided for, the Court may make an order vesting such property in the

purchaser or as he may direct; and such property shall vest accordingly.

(c.)—*Rules as to Immoveable Property.*

304. Sales of immoveable property in execution of a decree may be ordered by any Court other than a Court of Small Causes.

305. When an order for the sale of immoveable property has been made, if the judgment-debtor can satisfy the Court that there is reason to believe that the amount of the decree may be raised by mortgage or lease or private sale of such property, or some part thereof, or of any other immoveable property of the judgment-debtor, the Court may on his application postpone the sale of property comprised in the order for sale for such period as it thinks proper, to enable him to raise the amount.

In such case the Court shall grant a certificate to the judgment-debtor authorizing him, within a period to be mentioned therein, to make the proposed mortgage, lease or sale: provided that all moneys payable under such mortgage, lease or sale, shall be paid into Court and not to the judgment-debtor.

Where such certificate has been granted and so long as it remains in force, the provisions of section 248 shall not apply.

306. On every sale of immoveable property under this chapter, the person declared to be the purchaser shall pay immediately after such declaration a deposit of twenty-five per centum on the amount of his purchase-money to the officer conducting the sale, and, in default of such deposit, the property shall forthwith be put up again and sold.

307. The full amount of purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

308. In default of payment within the period mentioned in the last preceding section, the deposit, after defraying the expenses of the sale, shall be forfeited to Government, and the property shall be re-sold, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may subsequently be sold.

309. Every re-sale of immoveable property in default of payment of the purchase-money within the period allowed for such payment, shall be made after the issue of a fresh notification in the manner and for the period hereinbefore prescribed for the sale.

310. When the property sold in execution of a decree is a share of undivided immoveable property, and two or more persons, of whom one is a co-sharer,

respectively advance the same sum at any bidding at such sale, such bidding shall be deemed to be the bidding of the co-sharer.

311. The decree-holder or any person whose immoveable property has been sold under this chapter may apply to the Court to set aside the sale on the ground of a material irregularity in publishing or conducting it;

but no sale shall be set aside on the ground of irregularity unless the applicant proves to the satisfaction of the Court that he has sustained substantial injury by reason of such irregularity.

312. If no such application as is mentioned in the last preceding section be made, or if such application be made and the objection be disallowed, the Court shall pass an order confirming the sale as regards the parties to the suit and the purchaser.

If such application be made, and if the objection be allowed, the Court shall pass an order setting aside the sale.

No suit to set aside on the ground of such irregularity an order passed under this section shall be brought by the party against whom such order has been made.

313. The purchaser at any such sale may apply to the Court to set aside the sale, on the ground that the person whose property purported to be sold had no saleable interest therein, and the Court may make such order as it thinks fit: provided that no order to set aside a sale shall be made, unless the judgment-debtor and the decree-holder have had opportunity of being heard against such order.

314. No sale of immoveable property shall become absolute until it has been confirmed by the Court.

If sale set aside, price to be returned to purchaser.

315. When a sale of immoveable property is set aside under section 312 or 313,

or when it is found that the judgment-debtor had no saleable interest in the property which purported to be sold and the purchaser is for that reason deprived of it,

the purchaser shall be entitled to receive back his purchase-money (with or without interest as the Court may direct) from any person to whom the purchase-money has been paid.

The repayment of the said purchase-money and of the interest (if any) allowed by the Court may be enforced against such person under the rules provided by this Code for the execution of a decree for money.

316. When a sale of immoveable property has become absolute in manner aforesaid, the Court shall grant a certificate stating the name of the person who, at the time of sale, is declared to be the purchaser and the date of such sale.

317. No suit shall be maintained against the certified purchaser on the ground that the purchase was made on behalf of any other person, or on behalf of some one through whom such other person claims.

Nothing in this section shall bar a suit to obtain a declaration that the name of the certified purchaser was inserted in the certificate fraudulently or without the consent of the real purchaser.

318. When the property sold is in the occupancy of the judgment-debtor or of some person on his behalf, or of some person claiming under a title created by the judgment-debtor subsequently to the attachment of such property, and a certificate in respect thereof has been granted under section 316, the Court shall, on application by the purchaser, order delivery to be made by putting the purchaser or any person whom he may appoint to receive delivery on his behalf in possession of the property, and, if need be, by removing any person who refuses to vacate the same.

319. When the property sold is in the occupancy of a tenant or other person entitled to occupy the same, and a certificate in respect thereof has been granted under section 316, the Court shall order delivery thereof to be made by affixing a copy of the certificate of sale in some conspicuous place on the property, and proclaiming to the occupant by beat of drum or in such other mode as may be customary, at some convenient place, that the interest of the judgment-debtor has been transferred to the purchaser.

320. The Local Government may, with the sanction of the Governor General in Council, declare by notification in the official Gazette that in any local area the execution of decrees in cases in which a Court has ordered any immoveable property to be sold, or the execution of any particular kind of such decrees,

or the execution of decrees ordering the sale of any particular kind of, or interest in, immoveable property,

shall be transferred to the Collector; and rescind or modify any such declaration.

The Local Government may also from time to time prescribe rules for the transmission of the decree from the Court to the Collector, and for regulating the procedure of the Collector and his subordinates in executing the same, and for retransmitting the decree from the Collector to the Court.

321. Whenever the execution of a decree has been so transferred, the Collector may—

(a) sell the property comprised in the decree by public auction and either in one or more lots as he thinks fit:

(b) fix a reasonable reserved price for each lot:

(c) adjourn the sale for a reasonable time, whenever he deems the adjournment necessary for the purpose of obtaining a fair price for the property, recording his reasons for such adjournment:

(d) buy in the property offered for sale and re-sell the same.

322. Whenever the execution of a decree not being a decree directing the sale of immoveable property in pursuance of a contract specifically affecting the same, but being a decree for money in satisfaction of which the Court has ordered the sale of immoveable property, has been so transferred, the Collector may either proceed as the Court would proceed under section 305, or if he has reason to believe that the judgment-debts of the judgment-debtor can be discharged without a sale of the whole of such property, the Collector may (notwithstanding any order under section 303, but subject to such rules as may from time to time be made in this behalf by the Chief Controlling Revenue Authority) raise the amount necessary to discharge such debts with interest thereon according to the decree, or, if the decree makes no provision as to interest, then with interest (if any) at such rate as he thinks fit,

(a) by letting in perpetuity, or for a term, on payment of a premium equivalent to such amount, the whole or any part of the judgment-debtor's immoveable property: or

(b) by mortgaging the whole or any part of such property: or

(c) by selling part of such property: or

(d) by letting on farm or managing by himself or another the whole or any part of such property for any term not exceeding twenty years from the date of the order of sale; or

(e) partly by one of such modes and partly by another or others of them.

For the purpose of managing under this section the whole or any part of such property, the Collector may exercise all the powers of its owner.

323. In the case of a decree for money, if the Collector proposes to proceed under section 322, he shall publish a notice in the language of the district, calling upon all persons holding decrees against the judgment-debtor to notify the same in writing to the Collector within sixty days from the date of such publication.

Such notice shall be published by being posted in the court-house of the Court which made the order under section 304, and at such other places (if any) as the Collector thinks fit.

So long as any letting or management under section 322 continues, the judgment-debtor and his representative in interest shall be incompetent to mortgage, charge, lease or alienate the property so let or managed, or any part thereof.

324. If on the expiration of the letting or management, the amount necessary to discharge such debts in full with the interest (if any) payable thereon has not been raised, the Collector shall notify the fact in writing to the judgment-debtor or his representative, stating at the same time that, if the balance necessary to discharge such debts and interest is not paid to the Collector within six weeks of the date of such notice, the Collector will proceed to sell the said property; and if on the expiration of the said six weeks the said balance

is not so paid, the Collector shall sell such property accordingly.

325. Whenever the Collector sells any property pursuant to the said order of sale or exercises any of the powers conferred upon him by section 321 or 322, he shall inform the Court which made such order of the fact of such sale or exercise, and shall render accounts to such Court of his receipts and payments in respect of the said property, and shall hold the balance at the disposal of such Court.

Such balance (after deducting therefrom any debts due or liabilities incurred to Government by the judgment-debtor) shall be applied rateably in discharging the claims of all the decree-holders who have complied with the said notice; and no other person making any claim against the property so let or managed, or against such proceeds, shall be entitled to be paid thereout.

326. When, in any local area in which no declaration under section 320 is in force, the property attached consists of land or of a share in land, and the Collector represents to the Court that the public sale of the land or share is objectionable, and that satisfaction of the decree may be made within a reasonable period by a temporary alienation or management of the land or share, the Court may authorize the Collector to provide for such satisfaction in the manner recommended by him, instead of proceeding to a sale of the land or share. The provisions of sections 322 to 325 (both inclusive) shall in such case apply to the Collector.

327. The Local Government may from time to time, with the sanction of the Governor General in Council, make special rules for any local area imposing conditions in respect of sale of any class of interests in land in execution of decrees for money, where such interests are so uncertain or undetermined as in the opinion of the Local Government to make it impossible to fix their value:

and if, when this Code comes into operation in any local area, any special rules as to sale of land in execution of decrees are in force therein, the Local Government may continue such rules in force, or may from time to time, with the sanction of the Governor General in Council, modify the same.

All rules so made or continued, and all such modifications of the same, shall be published in the local official Gazette, and shall thereupon have the force of law.

II.—Of Resistance to Execution.

328. If in the execution of a decree for the possession of property, the officer charged with the execution of the warrant is resisted or obstructed by any person, the decree-holder may complain to the Court at any time within one month from the time of such resistance or obstruction.

The Court shall fix a day for investigating the complaint, and shall summon the party against whom the complaint is made to answer the same.

329. If the Court is satisfied that the obstruction or resistance was occasioned by the judgment-debtor or by some person at his instigation, the Court shall inquire into the matter of the complaint, and pass such order as it thinks fit.

Procedure in case of obstruction by judgment-debtor or at his instigation.

330. If the Court is satisfied that the resistance or obstruction was without any just cause, and that the complainant is still resisted or obstructed in obtaining possession of the property by the judgment-debtor or some other person at his instigation, the Court may, at the instance of the decree-holder and without prejudice to any penalty to which such judgment-debtor or other person may be liable, under the Indian Penal Code or any other law, for such resistance or obstruction, commit the judgment-debtor or such other person to jail for a term which may extend to thirty days, and direct that the decree-holder be put into possession of the property.

331. If the resistance or obstruction has been occasioned by any person other than the judgment-debtor claiming in good faith to be in possession of the property on his own account or on account of some person other than the judgment-debtor, the claim shall be numbered and registered as a suit between the decree-holder as plaintiff and the claimant as defendant ;

and the Court shall, without prejudice to any proceedings to which the claimant may be liable under the Indian Penal Code or any other law for the punishment of such resistance or obstruction, proceed to investigate the claim in the same manner and with the like power as if a suit for the property had been instituted by the decree-holder against the claimant under the provisions of the Specific Relief Act, 1877, section 9,

and shall pass such order as it thinks fit for executing or staying execution of the decree.

332. If any person other than the defendant is dispossessed of any property in execution of a decree, and such person disputes the right of the decree-holder to dispossess him of such property under the decree, on the ground that the property was *bona fide* in his possession on his own account or on account of some person other than the judgment-debtor, and that it was not comprised in the decree, or that, if it was comprised in the decree, he was not a party to the suit in which the decree was passed, he may apply to the Court.

Procedure in case of person dispossessed of property disputing right of decree holder to be put into possession.

If, after examining the applicant, it appears to the Court that there is probable cause for making the application, the application shall be numbered and registered as a suit between the applicant as plaintiff and the decree-holder as defendant, and the Court shall proceed to investigate the matter in dispute in the same manner and with the like power as if a suit for the property had been instituted by the applicant against the decree-holder under the provisions of the Specific Relief Act, 1877, section 9,

and shall pass such order as it thinks fit for executing or staying execution of the decree.

In hearing applications under this section, the Court shall confine itself to the grounds of dispute above specified.

Nothing in this section or section 330 applies to a person to whom the judgment-debtor has transferred the property after the institution of the suit in which the decree is made.

333. The order passed under either of section 331 and 332 shall be in the nature of, and shall have the same force as, a decree in a suit, and shall be subject to the same conditions as to appeal or otherwise.

334. If the purchaser of any immoveable property sold in execution of a decree be resisted or obstructed by the judgment-debtor or any one on his behalf in obtaining possession of the property, the provisions of this chapter relating to resistance or obstruction to a decree-holder in obtaining possession of the property adjudged to him, shall be applicable.

335. If it appear that the resistance or obstruction was occasioned by any person other than the judgment-debtor, not in possession of the property sold, but claiming a right thereto as proprietor, mortgagee, lessee or under any other title, the Court, on the complaint of the purchaser, shall enquire into the matter of the resistance or obstruction, and pass such order thereon as it thinks fit.

The party against whom such order is passed may institute a suit to establish the right which he claims to the present possession of the property, but subject to the result of such suit, if any, the order shall be conclusive.

1.—Of Arrest and Imprisonment.

336. A judgment-debtor may be arrested in execution of a decree at any hour and on any day, and shall as soon as practicable be brought before the Court, and his imprisonment may be in the civil jail of the district in which the Court ordering the imprisonment is situated, or, when such jail does not afford suitable accommodation, in any other place which the Local Government may appoint for the confinement of persons ordered to be imprisoned by the Courts of such district :

Provided that no house shall be entered after sunset and before sunrise for the purpose of making an arrest under this section :

Provided also that when the decree in execution of which a judgment-debtor is arrested is a decree for money and the judgment-debtor pays the amount of the decree and the costs of the arrest to the officer arresting him, such officer shall at once release him.

The Local Government may, by notification published in the official Gazette, direct that whenever a judgment-debtor is arrested in execution of a decree for money and brought before the Court under this section, the Court shall inform him that he may apply under chapter XX to be declared an insolvent, and that he will be discharged if he has not committed any act of bad faith regarding the subject of his application and if he places all his property in possession of a receiver appointed by the Court.

If after such publication the judgment-debtor express his intention so to apply, and if he furnish sufficient security that he will appear when called upon, and that he will within one month apply under section 344 to be declared an insolvent, the Court shall release him from arrest :

But if he fails so to apply, the Court may either direct the security to be realised or commit him to jail in execution of the decree.

337. Every warrant for the arrest of the judgment-debtor shall direct

• Warrant for arrest to direct judgment-debtor to be brought up.

the officer entrusted with its execution to bring him before the Court with all convenient speed, unless the amount which he has been ordered to pay, together with the interest thereon and the costs, if any, to which he is liable, be sooner paid.

338. The Local Government may from time to time prescribe scales, graduated according to rank, race and nationality, of monthly allowances payable for the subsistence of judgment-debtors.

Scales of subsistence-allowances.

339. No judgment-debtor shall be arrested in

Judgment-debtor's subsistence-money.

execution of a decree unless and until the decree-holder pays into court such sum as, having regard to the scales so fixed, the Judge thinks sufficient for the subsistence of the judgment-debtor from his arrest until he can be brought before the Court.

When a judgment-debtor is committed to jail in execution of a decree, the Court shall fix for his subsistence such monthly allowance as he may be entitled to according to the said scales, or where no such scales have been fixed, as it considers sufficient with reference to the class to which he belongs.

The monthly allowance fixed by the Court shall be supplied by the party on whose application the decree has been executed, to the proper officer of the Court by monthly payments in advance before the first day of each month.

The first payment shall be made for such portion of the current month as remains unexpired before the judgment-debtor is committed to jail.

340. Sums disbursed by the decree-holder for

Subsistence-money to be added to amount of decree.

the subsistence of the judgment-debtor in jail shall be deemed to be costs on the suit:

Provided that the judgment-debtor shall not be detained in jail or arrested on account of any sum so disbursed.

Release of judgment-debtor.

341. The judgment-debtor shall be discharged from jail,

(a) on the decree being fully satisfied, or

(b) at the request of the person on whose application he has been imprisoned, or

(c) on such person omitting to pay the allowance as hereinbefore directed, or

(d) if the judgment-debtor be declared an insolvent, as hereinafter provided, or

(e) when the term of his imprisonment as limited by section 342 is fulfilled :

Provided that in the first, second, third and fourth cases mentioned in this section, the judgment-debtor shall not be discharged without the order of the Court.

A judgment-debtor discharged under this section is not thereby discharged from his debt, but

he cannot be re-arrested under the decree in execution of which he was imprisoned.

342. No person shall be imprisoned in execu-

tion of a decree for a longer period than six months;

or for a longer period than six weeks if the

When not to exceed six weeks. decree be for the payment of a sum of money not exceeding

fifty rupees.

343. The officer entrusted with the execution

Endorsement on warrant. of the warrant shall endorse thereupon the day on, and

the manner in, which it was executed ; and if the latest day specified in the warrant for the return thereof has been exceeded, the reason of the delay ; or if it was not executed, the reason why it was not executed, and shall return the warrant with such endorsement to the Court.

If the endorsement is to the effect that such officer is unable to execute the warrant, the Court shall examine him on oath touching his alleged inability, and may, if it think fit, summon and examine witnesses as to such inability and shall record the result.

CHAPTER XX.

OF INSOLVENT JUDGMENT-DEBTORS.

344. Any person arrested or imprisoned in execu-

tion of a decree for money may apply in writing to be declared an insolvent.

Such application shall be made to the District Court which ordered his arrest or imprisonment, or when the District Court did not make such order, then to the District Court to which the Court that made the order is subordinate.

Contents of application. **345.** The application shall set forth—

(a) the fact of such person's arrest or imprisonment, the Court by whose order he was arrested or imprisoned, and the place in which he is in custody ;

(b) the amount, kind and particulars of his property, and the value of any such property not consisting of money ;

(c) the place or places in which such property is to be found ;

(d) his willingness to put it at the disposal of the Court ;

(e) the amount and particulars of all pecuniary claims against him ; and

(f) the names and residences of his creditors, so far as they are known to or can be ascertained by him.

346. The application shall be subscribed and

Subscription and verification of application. verified by the applicant in manner hereinbefore prescribed for subscribing and verifying plaints.

347. The Court shall fix a day for hearing the

Service on decree-holder of copy of application and notice. application, and shall cause a copy thereof, with a notice in writing of the time and

place at which it will be heard, to be stuck up in Court and served at the applicant's expense on the holder of the decree in execution of which he was arrested or imprisoned, or on the pleader of such decree-holder, and on the other creditors (if any) mentioned in the application.

The Court may, if it thinks fit, publish at the applicant's expense the application in such official Gazettes and public newspapers as it thinks fit.

348. The Court may also, if it thinks fit, cause a like copy and notice to be served on any other person alleging himself to be a creditor of the applicant and applying for leave to be heard on the application.

349. Where the applicant is under arrest, the Court may, pending the hearing under section 350, order him to be immediately committed to jail; or leave him in the custody of the officer to whom the service of the warrant was entrusted.

350. On the day so fixed, or on any subsequent day to which the Court may adjourn the hearing, the Court shall examine the applicant, in the presence of the persons on whom such notice has been served or their pleaders, as to his then circumstances and as to his future means of payment, and shall hear the said decree-holder, the other creditors mentioned in the application and the other persons (if any) alleging themselves to be creditors, in opposition to the applicant's discharge; and may, if it thinks fit, grant time to the said decree-holder and other creditors or persons to adduce evidence showing that the applicant is not entitled to be declared an insolvent.

351. If the Court is satisfied—

(a) that the statements in the application are substantially true;

(b) that the applicant has not, with intent to defraud his creditors, concealed, transferred or removed any part of his property since the institution of the suit in which was passed the decree in execution of which he was arrested or imprisoned or at any subsequent time;

(c) that he has not, knowing himself to be unable to pay his debts in full, recklessly contracted debts or given an unfair preference to any of his creditors by any payment or disposition of his property;

(d) that he has not committed any other act of bad faith regarding the matter of the application,

the Court may declare him to be an insolvent, and may also, if it think fit, make an order appointing a receiver of his property, or if it does not appoint such receiver, may discharge the insolvent.

352. The creditors mentioned in the application and the other persons (if any) alleging themselves to be creditors of the insolvent, shall then produce evidence of the amount and particulars of their respective pecuniary claims against him; and the Court shall by order determine the persons who have proved themselves to be the insolvent's creditors and their respective debts; and shall frame a schedule of such persons and debts; and the declaration under section 351 shall be deemed to be a decree in favour of each of the said creditors for their said respective debts.

A copy of every such schedule shall be stuck up in the court-house.

Nothing in this section shall be deemed to entitle a partner in an insolvent firm or, when he has died before the insolvency, his legal represent-

ative, to prove in competition with the creditors of the firm.

353. Any creditor of the insolvent who is not mentioned in such schedule may, within three months from its publication, apply to the Court for permission to produce evidence of the amount and particulars of his pecuniary claims against the insolvent, and in case the applicant proves himself to be a creditor of the insolvent, for an order directing his name to be inserted in the schedule as a creditor for the debt so proved.

Any creditor mentioned in the schedule may within three months from the publication of the schedule apply to the Court for an order altering the schedule so far as regards the amount, nature, or particulars of his own debt, or to strike out the name of another creditor, or to alter the schedule so far as regards the amount, nature, or particulars of the debt of another creditor.

In the case of any application under this section, the Court, after causing such notices as it thinks fit to be served, at the applicant's expense, on the insolvent and the other creditors and hearing their objections, if any, may comply with or reject the application.

354. Every order under section 351 shall be published in the local official Gazette and shall operate to vest in the Receiver all the insolvent's property (except the particulars specified in the first proviso to section 266), whether set forth in his application or not.

355. The Receiver so appointed shall give such security as the Court may direct and shall possess himself of all such property, except as aforesaid;

and on his certifying that the insolvent has placed him in possession thereof, or has done everything in his power for that purpose, the Court may discharge the insolvent from arrest or imprisonment, as the case may be, upon such conditions (if any) as the Court thinks fit.

356. The Receiver shall proceed under the direction of the Court—

(a) to convert the property into money;

(b) to pay thereout debts, fines and penalties (if any) due by the insolvent to Government;

(c) to pay the said decree-holder's costs;

(d) to distribute the balance among the scheduled creditors rateably according to the amounts of their respective debts, and without any preference;

and such Receiver may retain as a remuneration for the performance of his duties a commission, to be fixed by the Court, not exceeding the rate of five per centum upon the amount of the balance so distributed (the amount of the commission so retained being deemed a distribution), and shall deliver the surplus, if any, to the insolvent or his legal representative.

357. An insolvent discharged under section 355 shall not be arrested or imprisoned on account of any of the scheduled debts. But (subject to the provisions of section 358) his

property, whether previously or subsequently acquired (except the particulars specified in the first proviso to section 266 and except the property vested in the Receiver), shall, by order of the Court, be liable to attachment and sale until the decrees against him held by the scheduled creditors are fully satisfied or become incapable of being executed.

358. If the aggregate amount of the scheduled debts is two hundred rupees

When Court may declare insolvent absolved from further liability. or a less sum, the Court may declare the insolvent discharged as aforesaid absolved from further liability in respect of such debts.

359. Whenever, at the hearing under section

Procedure in case of 350, it is proved that the dishonest applicant. applicant has

(a) been guilty, in his application, of any concealment or of wilfully making any false statement as to the debts due by him, or respecting the property belonging to him, whether in possession or in expectancy, or held for him in trust;

(b) fraudulently concealed, transferred or removed any property; or

(c) committed any other act of bad faith regarding the matter of the application,

the Court shall, at the instance of any of his creditors, sentence him to imprisonment for a term which may extend to one year from the date of committal.

Or the Court may, if it think fit, send him to the Magistrate to be dealt with according to law.

360. The Local Government may, by notification in the official Gazette,

Investment of other Courts with powers of District Courts. invest any Court other than a District Court with the

powers conferred on District Courts by sections

Transfer of cases. 344 to 359 (both inclusive), and the District Judge may

transfer to any Court situate in his district and so invested any case instituted under section 344.

Any Court so invested may entertain any application under section 344 by any person arrested in execution of a decree of such Court.

PART II.

OF INCIDENTAL PROCEEDINGS.

CHAPTER XXI.

OF THE DEATH, MARRIAGE AND INSOLVENCY OF PARTIES.

361. The death of a plaintiff or defendant

No abatement by party's death, if cause of action survive. shall not cause the suit to abate if the cause of action survives.

Illustrations.

(a) A covenants with B and C to pay an annuity to B during C's life. B and C sue A to compel payment. B dies before the decree: the cause of action survives to C, and the suit does not abate.

(b) In the same case, all the parties die before decree. The cause of action survives to the representative of the survivor of B and C, and he may continue the suit against A's representative.

(c) A sues B for libel. A dies. The cause of action does not survive and the suit abates.

(d) A, a member of a Hindú joint family under the Mitáksharā law, institutes a suit for partition of the family property. A dies leaving B, a minor son, his heir. The cause of action survives to B, and the suit does not abate.

362. If there be more plaintiffs or defendants

Proceeding in case of death of one of several plaintiffs or defendants, if cause of action survive. than one, and any of them dies, and if the cause of action survives to the surviving plaintiff or plaintiffs alone, or

against the surviving defendant or defendants alone, the Court shall cause an entry to that effect to be made on the record, and the suit shall proceed at the instance of the surviving plaintiff or plaintiffs, or against the surviving defendant or defendants.

363. If there be more plaintiffs than one, and

Proceeding in case of death of one of several plaintiffs where cause of action survives to survivors and representative of deceased. any of them dies, and if the cause of action does not survive to the surviving plaintiff or plaintiffs alone, but survives to him or them and the legal representative of

the deceased plaintiff jointly, the Court may, on the application of such legal representative, enter his name on the record in the place of such deceased plaintiff, and the suit shall proceed at the instance of the surviving plaintiff or plaintiffs and such legal representative.

364. If no application be made to the Court

Proceeding where no application made by representative of deceased plaintiff. by any person claiming to be the legal representative of a deceased plaintiff, the suit shall proceed at the instance of the surviving plaintiff or plaintiffs;

and the legal representative (if any) of the deceased plaintiff shall be made a party and shall be interested in and bound by the decree passed in the suit, in the same manner as if the suit had proceeded at his instance conjointly with the surviving plaintiff or plaintiffs.

365. In case of the death of a sole plaintiff

Proceeding in case of death of sole, or sole surviving, plaintiff. or sole surviving plaintiff, the Court may, where the cause of action survives, on the application of the legal representative of the deceased, enter his name in the place of such plaintiff on the record, and the suit shall thereupon proceed.

366. If no such application be made to the

Abatement where no application by representative of deceased plaintiff. Court by any person claiming to be the legal representative of the deceased plaintiff, the Court may pass an order that the suit shall abate, and award to the defendant the costs which he may have incurred in defending the suit, to be recovered from the estate of the deceased plaintiff;

or the Court may, if it think proper, on the application of the defendant, and upon such terms as to costs or otherwise as it thinks fit, pass such other order as it thinks fit for bringing in the legal representative of the deceased plaintiff, or for proceeding with the suit in order to a final determination of the matter in dispute, or for both those purposes.

Explanation.—A certificate of heirship, or a certificate to collect debts, does not of itself constitute the person holding it the legal representative of the deceased. But when the person holding any such certificate obtains thereby property belonging to the deceased, he may be treated as a legal representative liable in respect of such property.

367. If any dispute arise as to who is the legal representative of a deceased plaintiff, the Court may either stay the suit until the fact has been determined in another suit, or decide at or before the hearing of the suit who shall be admitted to be such legal representative for the purpose of prosecuting the suit.

368. If there be more defendants than one, and any of them die before decree and the cause of action does not survive against the surviving defendant or defendants alone,

and also in case of the death of a sole defendant, or sole surviving defendant, where the right to sue survives,

the plaintiff may make an application to the Court, specifying the name, description and place of abode of any person whom he alleges to be the legal representative of the deceased defendant, and whom he desires to be made the defendant in his stead.

The Court shall thereupon enter the name of such representative on the record in the place of such defendant,

and shall issue a summons to such representative to appear on a day to be therein mentioned to defend the suit ;

and the case shall thereupon proceed in the same manner as if such representative had originally been made a defendant and had been a party to the former proceedings in the suit :

Provided that the person so made defendant may object that he is not the legal representative of the deceased defendant, or may make any defence appropriate to his character as such representative.

369. The marriage of a female plaintiff or defendant shall not cause the suit to abate, but the suit may notwithstanding be proceeded with to judgment, and where the decree is against a female defendant, it may thereupon be executed against her alone.

If the case is one in which the husband is by law liable for the debts of his wife, the decree may, with the permission of the Court, be executed against the husband also ; and in case of judgment for the wife, execution of the decree may with such permission be issued upon the application of the husband, where the husband is by law entitled to the subject-matter of the decree.

370. The bankruptcy or insolvency of a plaintiff in any suit which his assignee or the receiver appointed under section 351 might maintain for the benefit of his creditors shall not bar the suit, unless such assignee or receiver declines to continue the suit and to give security for the costs thereof within such time as the Court may order.

If the assignee or receiver neglect or refuse to continue the suit and to give such security within the time so ordered, the defendant may apply for the dismissal of the suit on the ground of the plain-

tiff's bankruptcy or insolvency, and the Court may dismiss the suit and award to the defendant the costs which he has incurred in defending the same, to be proved as a debt against the plaintiff's estate.

371. When a suit abates or is dismissed under this chapter, no fresh suit shall be brought on the same cause of action.

But the person claiming to be the legal representative of the deceased bankrupt or insolvent plaintiff, may apply for an order to set aside the order for abatement or dismissal ; and if it be proved that he was prevented by any sufficient cause from continuing the suit, the Court shall set aside the abatement or dismissal upon such terms as to costs or otherwise as it thinks fit.

372. In other cases of assignment, creation or devolution of any interest pending the suit, the suit may, with the leave of the Court, given either with the consent of all parties or after service of notice in writing upon them, and hearing their objections, if any, be continued by or against the person to whom such interest has come, either in addition to or in substitution for the person from whom it has passed, as the case may require.

CHAPTER XXII.

OF THE WITHDRAWAL AND ADJUSTMENT OF SUITS.

373. If, at any time after the institution of the suit, the Court is satisfied on the application of the plaintiff (a) that the suit must fail by reason of some formal defect, or (b) that there are sufficient grounds for permitting him to withdraw from the suit or to abandon part of his claim with liberty to bring a fresh suit for the subject-matter of the suit or for the part so abandoned, the Court may grant such permission on such terms as to costs or otherwise as it thinks fit.

If the plaintiff withdraw from the suit, or abandon part of his claim, without such permission, he shall be liable for such costs as the Court may award, and shall be precluded from bringing a fresh suit for the same matter.

Nothing in this section shall be deemed to authorize the Court to permit one of several plaintiffs to withdraw without the consent of the others.

374. In any fresh suit instituted on permission granted under the last preceding section, the plaintiff shall be bound by the law of limitation in the same manner as if the first suit had not been brought.

375. If a suit be adjusted by any lawful agreement or compromise, or if the defendant satisfy the plaintiff in respect to the matter of the suit, such agreement, compromise or satisfaction shall be recorded, and the Court shall pass a decree in accordance therewith so far as it relates to the suit, and such decree shall be final.

CHAPTER XXIII. OF PAYMENT INTO COURT.

376. The defendant in any suit to recover a debt or damages, may, at any stage of the suit, deposit in Court such sum of money as he considers a satisfaction in full of the claim.

Deposit by defendant of amount in satisfaction of claim.

377. Notice of the deposit shall be given by the defendant to the plaintiff, and the amount of the deposit shall (unless the Court otherwise directs) be paid to the plaintiff on his application.

Notice of deposit.

378. No interest shall be allowed to the plaintiff on any sum deposited by the defendant from the date of the receipt of such notice, whether the sum deposited be in full of the claim or fall short thereof.

Interest on sum deposited not allowed to plaintiff after receipt of notice.

379. If the plaintiff accept such amount only as satisfaction in part of his claim, he may prosecute his suit for the balance; and if the Court decides that the deposit by the defendant was a full satisfaction of the plaintiff's claim, the plaintiff must pay the costs of the suit incurred after the deposit and the costs incurred previous thereto, so far as they were caused by excess in the plaintiff's claim.

If the plaintiff accept such amount as satisfaction in full of his claim, he shall present to the Court a statement to that effect, and such statement shall be filed and the Court shall pass judgment accordingly, and in directing by whom the costs of each party are to be paid, the Court shall consider which of the parties is most to blame for the litigation.

Procedure where he accepts it as satisfaction in full.

Illustrations.

(a) A owes B Rs. 100. B sues A for the amount, having made no demand for payment and having no reason to believe that the delay caused by making a demand would place him at a disadvantage. On the plaint being filed, A pays the money into Court. B accepts it in full satisfaction of his claim, but the Court should not allow him any costs, the litigation being presumably groundless on his part.

(b) B sues A under the circumstances mentioned in illustration (a). On the plaint being filed, A disputes the claim. Afterwards A pays the money into Court. B accepts it in full satisfaction of his claim. The Court should also give B his costs of suit, A's conduct having shown that the litigation was necessary.

(c) A owes B Rs. 100 and is willing to pay him that sum without suit. B claims Rs. 150 and sues A for that amount. On the plaint being filed, A pays Rs. 100 into Court and disputes only his liability to pay the remaining Rs. 50. B accepts the Rs. 100 in full satisfaction of his claim. The Court should order him to pay A's costs.

CHAPTER XXIV.

OF REQUIRING SECURITY FOR COSTS.

380. If, at the institution or at any subsequent stage of a suit, it appears to the Court that a sole plaintiff is, or (when there are more plaintiffs than one)

When security for costs may be required from plaintiff at any stage of suit.

that all the plaintiffs are, residing out of British India, and that such plaintiff does not, or that no one of such plaintiffs does, possess any sufficient immoveable property within British India independent of the property in suit, the Court may, either of its own motion or on the application of

any defendant, order the plaintiff or plaintiffs, within a time to be fixed by the order, to give security for the payment of all costs incurred and likely to be incurred by any defendant.

381. In the event of such security not being furnished within the time so fixed, the Court shall dismiss the suit unless the plaintiff or plaintiffs be permitted to withdraw therefrom under the provisions of section 373.

382. Whoever leaves British India under such circumstances as to afford reasonable probability that he will not be forthcoming whenever he may be called upon to pay costs shall be deemed to be residing out of British India, within the meaning of section 380.

Residence out of British India.

CHAPTER XXV.

OF COMMISSIONS.

A.—Commissions to examine Witnesses.

383. Any Court may in any suit issue a commission for the examination on interrogatories or otherwise of persons resident within the local limits of its jurisdiction, who are exempted under this Code from attending the Court, or who are from sickness or infirmity unable to attend it.

Cases in which Court may issue commission to examine witness.

384. Such order may be made by the Court either of its own motion, or on the application, supported by affidavit, of any party to the suit or of the witness to be examined.

Order for commission may be made either on application of parties or by Court of its own accord.

385. The commission for the examination of a person who resides within the local limits of the jurisdiction of the Court issuing the same, may be issued to any person whom the Court thinks fit to execute the same.

When witness resides within Court's jurisdiction.

386. Any Court may in any suit issue a commission for the examination of—

When witness resides beyond Court's jurisdiction, but in British India.

(a) any person resident beyond the local limits of its jurisdiction;

(b) persons who are about to leave such limits before the date on which they are required to be examined in Court; and

(c) civil and military officers of Government who cannot, in the opinion of the Judge, attend the Court without detriment to the public service.

Such commission shall ordinarily be issued to any Court not being a High Court, within the local limits of whose jurisdiction such person resides, and which can most conveniently execute the same:

Provided that if he resides beyond the local limits of the jurisdiction of the Court issuing the commission and within the towns of Calcutta, Madras, Bombay or Rangoon, the commission shall be issued to the Court of Small Causes within whose jurisdiction he resides:

When witness is within local limits of ordinary original civil jurisdiction of a High Court.

Provided also that, under special circumstances, the commission may be directed to any person whom the Court issuing the commission thinks fit to appoint.

The Court on issuing any commission under this section shall direct whether the commission shall be returned to itself or to any subordinate Court.

387. When any Court to which application is made for the issue of a commission for the examination of a person residing at any place not within British India is satisfied that his evidence is necessary, the Court may issue such commission.

388. Every Court receiving a commission for the examination of any person shall examine him pursuant thereto.

389. After the commission has been duly executed, it shall be returned, together with the evidence taken under it, to the Court out of which it issued, unless the order for issuing the commission has otherwise directed, in which case the commission shall be returned in terms of such order; and the commission and the return thereto, and the evidence taken under it, shall (subject to the provisions of the next following section) form part of the record of the suit.

390. Evidence taken under a commission shall not be read as evidence in the suit without the consent of the party against whom the same is offered, unless

(a) the person who gave the evidence is beyond the jurisdiction of the Court, or dead, or unable from sickness or infirmity to attend to be personally examined, or exempted from personal appearance in Court, or

(b) the Court in its discretion dispenses with the proof of any of the circumstances mentioned in the last preceding clause, and authorizes the evidence of any person being read as evidence in the suit, notwithstanding proof that the cause for taking such evidence by commission has ceased at the time of reading the same.

391. The provisions hereinbefore contained as to the execution and return of commissions shall apply to commissions issued by foreign Courts.

(a) Courts situate beyond the limits of British India and established by the authority of Her Majesty or of the Governor General in Council, or

(b) Courts situate in any part of the British Empire other than British India, or

(c) Courts of any foreign country for the time being in alliance with Her Majesty.

B.—Commissions for Local Investigations.

392. In any suit or proceeding in which the Court deems a local investigation to be requisite or proper for the purpose of elucidating any matter in dispute, or of ascertaining the market-value of any property, or the amount of any mesne profits or damages or annual nett profits, and the same cannot be conveniently conducted by the Judge in person, the Court may issue a commission to such person as it thinks fit, directing him to make such investigation and to report thereon to the Court:

Provided that, when the Local Government has made rules as to the persons to whom such commission shall be issued, the Court shall be bound by such rules.

393. The Commissioner, after such local inspection as he deems necessary, and after reducing to writing the evidence taken by him, shall return such evidence, together with his report in writing, subscribed with his name, to the Court.

The report of the Commissioner and the evidence taken by him (but not the evidence without the report) shall be evidence in the suit and shall form part of the record; but the Court, or any of the parties to the suit may, with the permission of the Court, examine the Commissioner personally in open Court touching any of the matters referred to him or mentioned in his report, or as to the manner in which he has made the investigation.

C.—Commissions to examine Accounts.

394. In any suit in which an examination or adjustment of accounts is necessary, the Court may issue a commission to such person as it thinks fit directing him to make such examination or adjustment.

395. The Court shall furnish the Commissioner with such part of the proceedings and such detailed instructions as appear necessary,

and the instructions shall distinctly specify whether the Commissioner is merely to transmit the proceedings which he may hold on the inquiry, or also to report his own opinion on the point referred for his examination.

The proceedings of the Commissioner shall be received in evidence in the suit, unless the Court has reason to be dissatisfied with them, in which case the Court shall direct such further inquiry as is requisite.

D.—Commission to make Partition.

396. In any suit in which the partition of immoveable property not paying revenue to Government appears to the Court to be necessary, the Court, after ascertaining the several parties interested in such property and their several rights therein, may issue a commission to such persons as it thinks fit to make a partition according to such rights.

The Commissioners shall ascertain and inspect the property, and shall divide the same into as many shares as may be directed by the order under which the commission issues, and shall allot such shares to the parties, and may, if authorized thereto by the said order, award sums to be paid for the purpose of equalizing the value of the shares.

The Commissioners shall then prepare and sign a report, or (if they cannot agree) separate reports, appointing the share of each party, and dis-

tinguishing each share (if so directed by the said order) by metes and bounds. Such report or reports shall be annexed to the commission and transmitted to the Court: and the Court, after hearing any objections which the parties may make to the report or reports shall either quash the same and issue a new commission, or (where the Commissioners agree in their report) pass a decree in accordance therewith.

E.—General Provisions.

397. Before issuing any commission under this chapter, the Court may order such sum (if any) as it thinks reasonable for the expenses of the commission to be paid into Court by the party at whose instance or for whose benefit the commission is issued.

398. Any Commissioner appointed under this chapter may, unless otherwise directed by the order of appointment, examine parties and witnesses and call for papers.

(a) examine the parties themselves and any witness whom they or any of them may produce, and any other person whom the Commissioner thinks proper to call upon to give evidence in the matter referred to him:

(b) call for and examine documents and other things relevant to the subject of inquiry:

(c) at any reasonable time enter upon or into any land or building mentioned in the order.

399. The provisions of this Code relating to the summoning, attendance and examination of witnesses and to the remuneration of, and penalties to be imposed upon, witnesses, shall apply to persons required to give evidence or to produce documents under this chapter, whether the commission in execution of which they are so required has been issued by a Court situate within, or by a Court situate beyond, the limits of British India.

400. Whenever a commission is issued under this chapter, the Court shall direct that the parties to the suit shall appear before the Commissioner in person or by their agents or pleaders.

If the parties do not so appear, the Commissioner may proceed *ex parte*.

PART III. OF SUITS IN PARTICULAR CASES.

CHAPTER XXVI.

SUITS BY PAUPERS.

401. Subject to the following rules, any suit may be brought by a pauper.

Explanation.—A person is a 'pauper' when he is not possessed of sufficient means to enable him to pay the fee prescribed by law for the plaint in such suit, or, where no such fee is prescribed, when he is not entitled to property worth one hundred rupees other than his necessary wearing apparel and the subject-matter of the suit.

402. No suit shall be brought by a pauper to recover compensation for loss of caste, libel, slander, abusive language or assault.

403. The application for permission to sue by a pauper shall be in writing, and shall contain the particulars required by section 50 in regard to plaintiffs in suits, a schedule of any moveable or immoveable property belonging to the petitioner, with the estimated value thereof, shall be annexed thereto; and it shall be subscribed and verified in the manner hereinbefore prescribed for the subscription and verification of plaints.

404. Notwithstanding anything contained in section 36, the application shall be presented to the Court by the applicant in person unless he is exempted from appearing in Court under section 640 or 641, in which case the application may be presented by a duly authorized agent, who can answer all material questions relating to the application, and who may be examined in the same manner as the party represented by him might have been examined had such party attended in person.

405. If the application be not framed or presented in the manner prescribed by sections 403 and 404, the Court shall reject it.

406. If the application be in proper form and duly presented, the Judge shall examine the petitioner, or his agent when the applicant is allowed to appear by agent, regarding the merits of the claim and the property of the applicant.

When the application is presented by an agent, the Court may, if it thinks fit, order that the applicant be examined by a commissioner in the manner in which the examination of an absent witness may be taken under the provisions of this Code.

407. If it appear to the Court upon such examination

(a) that the applicant is not a pauper, or
(b) that he has, within the two months next before the presentation of the application, disposed of any property fraudulently or with a view to obtain the benefit of this chapter, or
(c) that his allegations do not show a right to sue in such Court, or

(d) that he has entered into any agreement with reference to the subject-matter of the proposed suit under which any other person has obtained an interest in such subject-matter, the Court shall reject the application.

408. If upon such examination the Court sees no reason to refuse the application on any of the grounds stated in section 407, it shall fix a day (of which at least ten days' previous notice shall be given to the opposite party and the Government Pleader) for receiving such evidence as the applicant may adduce in proof of his pauperism, and

for hearing any evidence which may be adduced in disproof thereof.

409. On the day so fixed, or as soon thereafter as may be convenient, the Court shall examine the witnesses (if any) produced by either party, and may cross-examine the applicant or his agent, and shall make a memorandum of the substance of their evidence.

The Court shall also hear any argument which the parties may desire to offer on the question whether, on the face of the application and of the evidence (if any) taken by the Court as herein provided, the applicant is or is not subject to any of the prohibitions specified in section 407.

The Court shall then either allow or refuse to allow the applicant to sue as a pauper.

410. If the application be granted, it shall be numbered and registered, and shall be deemed the plaint in the suit, and the suit shall proceed in all other respects as a suit instituted under chapter V, except that the plaintiff shall not be liable to any court-fee (other than fees payable for service of process) in respect of any petition, appointment of a pleader, or other proceeding.

411. If the plaintiff succeed in the suit, the Court shall calculate the amount of court-fees which would have been paid by the plaintiff if he had not been permitted to sue as a pauper; and such amount shall be a first charge on the subject-matter of the suit, and shall also be recoverable by the Government from any party ordered by the decree to pay the same, in the same manner as costs of suit are recoverable under this Code.

412. If the plaintiff fails in the suit, or if he is dispaupered, the Court shall order the plaintiff, or any person made under section 32 co-plaintiff to the suit, to pay the court-fees which would have been paid by the plaintiff if he had not been permitted to sue as a pauper; and, if it find that the suit was frivolous or vexatious, it may also punish the plaintiff with fine not exceeding one hundred rupees, or with imprisonment for a term which may extend to a month, or with both.

413. Refusal to allow the applicant to sue as a pauper shall be a bar to any subsequent application of the like nature by him in respect of the same right to sue; but the applicant shall be at liberty to institute a suit in the ordinary manner in respect of such right, provided that he first pays the costs (if any) incurred by Government in opposing his application for leave to sue as a pauper.

414. The Court may, on motion by the defendant, or by the Government Pleader, of which one week's notice in writing has been given to the plaintiff, order the plaintiff to be dispaupered—

(a) if he is guilty of vexatious or improper conduct in the course of the suit;

(b) if it appears that his means are such that he ought not to continue to sue as a pauper, or

(c) if he has entered into any agreement with reference to the subject-matter of the suit, under which any other person has obtained an interest in such subject-matter.

415. The costs of an application for permission to sue as a pauper and of an inquiry into pauperism are costs in the suit.

CHAPTER XXVII.

SUITS BY OR AGAINST GOVERNMENT OR PUBLIC OFFICERS.

416. Suits by or against the Government shall be instituted by or against (as the case may be) the Secretary of State in Council.

417. Persons being *ex-officio* or otherwise authorized to act for Government in respect of any judicial proceeding, shall be deemed to be the recognized agents by whom appearances, acts and applications under this Code may be made or done on behalf of Government.

418. In suits by the Secretary of State for India in Council, instead of inserting in the plaint the name and description and place of abode of the plaintiff, it shall be sufficient to insert the words "The Secretary of State for India in Council."

419. The Government Pleader in any Court shall be the agent of the Government for the purpose of receiving processes against the said Secretary of State in Council issuing out of such Court.

420. The Court, in fixing the day for the said Secretary of State in Council to answer to the plaint, shall allow a reasonable time for the necessary communication with the Government through the proper channels, and for the issue of instructions to the Government Pleader to appear and answer on behalf of the said Secretary of State in Council or the Government, and may extend the time at its discretion.

421. The Court may also in any case in which the Government Pleader is not accompanied by any person on the part of the said Secretary of State in Council, who may be able to answer any material questions relating to the suit, direct the attendance of such a person.

422. Where the defendant is a public officer, the Court may send a copy of the summons to the head of the office in which the defendant is employed, for the purpose of being

served on him, if it appear to the Court that the summons may be most conveniently so served.

423. If the public officer on receiving the sum-

Extension of time to enable officer to make reference to Government.

mons considers it proper to make a reference to the Government before answering to the plaintiff, he may apply to

the Court to grant such extension of the time fixed in the summons as may be necessary to enable him to make such reference and to receive orders thereon through the proper channel ;

and the Court upon such application may extend the time for so long as appears to be requisite.

424. No suit shall be instituted against the said

Notice previous to suing Secretary of State in Council or public officer.

Secretary of State in Council or against a public officer until the expiration of two

months next after notice in writing has been in the case of the Secretary of State in Council delivered to, or left at the office of, a Secretary to the Local Government or the Collector of the District, and, in the case of a public officer, delivered to him or left at his office, stating the cause of action and the name and place of abode of the intending plaintiff ; and the plaintiff must contain a statement that such notice has been so delivered or left.

425. No warrant of arrest shall be issued in

Arrests in such suits.

such suit without the consent in writing of the District Judge.

426. If the Government undertake the defence

Application where Government undertakes defence.

of a suit against a public officer, the Government Pleader, upon being furnished with authority to appear

and answer to the plaintiff, shall apply to the Court, and upon such application the Court shall cause a note of his authority to be entered in the register.

427. If such application is not made by the

Procedure where no such application made.

Government Pleader on or before the day fixed in the notice for the defendant to

appear and answer to the plaintiff, the case shall

Defendant not liable to arrest before judgment.

proceed as in a suit between private parties, except that the defendant shall not be

liable to arrest, nor his property to attachment, otherwise than in execution of a decree.

428. In a suit against a public officer the

Exemption of public officers from personal appearance.

Court shall exempt the defendant from appearing in person when he satisfies the

Court that he cannot absent himself from his duty without detriment to the public service.

429. When the decree is against the said Secre-

Procedure where decree is against Government or a public officer.

tary of State in Council or against a public officer, a time shall be specified in the

decree within which it shall be satisfied ; and if the decree is not satisfied within the time so specified, the Court shall report the case for the orders of the Local Government.

Execution shall not issue on any such decree unless it remains unsatisfied for the period of

three months computed from the date of the report.

CHAPTER XXVIII.

SUITS BY ALIENS AND BY OR AGAINST FOREIGN AND NATIVE RULERS.

430. Alien enemies residing in British India

When aliens may sue. with the permission of the Governor General in Council

and alien friends may sue in the Courts of British India as if they were subjects of Her Majesty.

No alien enemy residing in British India without such permission, or residing in a foreign country, shall sue in any of such Courts.

Explanation.—Every person residing in a foreign country, the Government of which is at war with the United Kingdom of Great Britain and Ireland and carrying on business in that country without a license in that behalf under the hand of one of Her Majesty's Secretaries of State or of a Secretary to the Government of India, shall, for the purpose of the second paragraph of this section, be deemed to be an alien enemy residing in a foreign country.

431. A foreign State may sue in the Courts

When a foreign State of British India, provided may sue. that—

(a) it has been recognized by Her Majesty or the Governor General in Council, and

(b) the object of the suit is to enforce the private rights of the head or of the subjects of the foreign State.

The Court shall take judicial notice of the fact that a foreign State has not been recognized by Her Majesty or by the Governor General in Council.

432. Persons specially appointed by order of

Persons specially appointed by Government to prosecute or defend for Princes or Chiefs.

Government at the request of any Sovereign Prince or ruling Chief, whether in subordinate alliance with the

British Government or otherwise, and whether residing within or without British India, to prosecute or defend any suit on his behalf, shall be deemed to be the recognized agents by whom appearances, acts and applications under this Code may be made or done on behalf of such Prince or Chief.

433. Any such Prince or Chief, and any am-

Suits against Sovereign Princes, &c.

bassador or envoy of a foreign State may, with the

consent of Government certified by the signature of one of its Secretaries (but not without such consent) be sued in any competent Court not subordinate to a District Court ;

Such consent shall not be given unless—

(a) the Prince, Chief, ambassador or envoy has instituted a suit in such Court against the person desiring to sue him, or

(b) the Prince, Chief, ambassador or envoy by himself or another trades within the local limits of the jurisdiction of such Court ; or

(c) the subject-matter of the suit is immoveable property situate within the said local limits and in the possession of the Prince, Chief, ambassador or envoy.

No such Prince, Chief, ambassador or envoy shall be arrested under this Code; and no decree shall be executed against the property of any such Prince, Chief, ambassador or envoy unless with consent of Government certified as aforesaid.

Sovereign Princes, &c., exempt from arrest.

When their property may be attached.

434. The Governor General in Council may from time to time, by notification in the *Gazette of India*,

Execution in British India of decrees of Courts of Native States.

(a) declare that the decrees of any Courts situate in the territories of any Native Prince or State in alliance with Her Majesty, and not established by the authority of the Governor General in Council, may be executed in British India as if they had been made by the Courts of British India, and

(b) cancel any such declaration.

So long as such declaration remains in force, the said decrees may be executed accordingly.

CHAPTER XXIX.

SUITS BY AND AGAINST CORPORATIONS AND COMPANIES.

435. In suits by a Corporation, or by a Company authorized to sue and be sued in the name of an officer or of a trustee, the plaintiff may be subscribed and verified on behalf of the Corporation or Company by any director, secretary, or other principal officer of the Corporation or Company, who is able to depose to the facts of the case.

Subscription and verification of plaintiff.

436. When the suit is against a Corporation, or against a Company authorized to sue and be sued in the name of an officer or of a trustee, the summons may be served

Service on Corporation or Company.

(a) by leaving it at the registered office (if any) of the Corporation or Company, or

(b) by sending it by post in a letter addressed to such officer or trustee at the office (or if there be more offices than one, at the principal office in British India) of the Corporation or Company, or

(c) by giving it to any director, secretary or other principal officer of the Corporation or Company,

and the Court may require the personal appearance of any director, secretary or other principal officer of the Corporation or Company who may be able to answer material questions relating to the suit.

CHAPTER XXX.

SUITS BY AND AGAINST TRUSTEES, EXECUTORS AND ADMINISTRATORS.

437. In all suits concerning property vested in a trustee, executor or administrator, the trustee, executor or administrator shall represent the persons beneficially interested in such property; and it shall not ordinarily be necessary to make such persons parties to the suit. But the Court may, if it think fit, order them or any of them to be made such parties.

Representation of beneficiaries in suits concerning property vested in trustees, &c.

438. When there are several executors or administrators, they shall all be made parties to a suit against one or more of them :

Joinder of executors and administrators.

Provided that executors who have not proved their testator's will, and executors and administrators beyond the local limits of the jurisdiction of the Court, need not be made parties.

439. Unless the Court directs otherwise, the husband of a married administratrix or executrix shall not be a party to a suit by or against her.

Husband of married executrix not to join.

CHAPTER XXXI.

SUITS BY AND AGAINST MINORS AND PERSONS OF UNSOUND MIND.

440. Every suit by a minor shall be instituted in his name by an adult person, who in such suit shall be called the next friend of the minor, and may be ordered to pay any costs in the suit as if he were the plaintiff.

Minor must sue by next friend.

Costs.

441. Every application to the Court on behalf of a minor (other than an application under section 451) shall be made by his next friend, or his guardian for the suit.

Applications to be made by next friend or guardian ad litem.

442. If a plaintiff be filed by or on behalf of a minor, without a next friend, the defendant may apply to have the plaintiff taken off the file, with costs to be paid by the pleader or other person by whom it was presented. Notice of such application shall be given to such person by the defendant; and the Court, after hearing his objections, if any, may make such order in the matter as it thinks fit.

Plaint filed without next friend to be taken off the file.

Costs.

443. Where the defendant to a suit is a minor, the Court, on being satisfied of the fact of his minority, shall appoint a proper person to be guardian for the suit for such minor, to put in the defence for such minor, and generally to act on his behalf in the conduct of the case.

Guardian ad litem to be appointed by the Court.

A guardian for the suit is not a guardian of person or property within the meaning of the Indian Majority Act, 1875, section 3.

444. Every order made in a suit or on any application before the Court, in or by which a minor is in any way concerned or affected, without such minor being represented by a next friend or guardian for the suit, as the case may be, may be discharged, and, if the pleader of the party at whose instance such order was obtained knew, or might reasonably have known, the fact of such minority, with costs to be paid by such pleader.

Order obtained without next friend or guardian may be discharged.

Costs.

445. Any person being of sound mind and full age may act as next friend of a minor, provided his interest is not adverse to that of such minor, and he is not a defendant in the suit.

Who may be next friend.

446. If the interest of the next friend of a minor is adverse to that of such minor, or if he is so connected with a defendant whose interest is adverse to that of the minor, as to make it unlikely that the minor's interest will be properly protected by him, or if he does not do his duty, or, pending the suit, ceases to reside within British India, or for any other sufficient cause, application may be made on behalf of the minor or by a defendant for his removal; and the Court (if satisfied of the sufficiency of the cause assigned) may order the next friend to be removed accordingly.

447. Unless otherwise ordered by the Court, a next friend shall not retire at his own request without first procuring a fit person to be put in his place, and giving security for the costs already incurred.

The application for the appointment of a new next friend shall be supported by affidavit showing the fitness of the person proposed, and also that he has no interest adverse to the minor.

448. On the death or removal of the next friend of a minor, further proceedings shall be stayed until the appointment of a next friend in his place.

449. If the pleader of such minor omits, within reasonable time, to take steps to get a new next friend appointed, any person interested in the minor or the matter at issue may apply to the Court for the appointment of one, and the Court may appoint such person as it thinks fit.

450. A minor plaintiff, or a minor not a party to a suit on whose behalf an application is pending coming of age must elect whether he will proceed with the suit or application.

451. If he elects to proceed with it, he shall apply for an order discharging the next friend, and for leave to proceed in his own name.

The title of the suit or application shall in such case be corrected so as to read thenceforth thus :

"A. B. late a minor by C. D., his next friend, but now of full age."

452. If he elects to abandon the suit or application, he shall, if a sole plaintiff, or sole applicant, apply for an order to dismiss the suit or application on repayment of the costs incurred by the defendant or respondent, or which may have been paid by his next friend.

453. Any application under section 451 or section 452 may be made *ex parte*; and it must be proved by affidavit that the late minor has attained his full age.

454. A minor co-plaintiff on coming of age, and desiring to repudiate the suit must apply to have his name struck out as co-plaintiff; and the Court, if it find that he is not a necessary party, shall dismiss him from the suit on such terms as to costs or otherwise as it thinks fit.

Notice of the application shall be served on the next friend, as well as on the defendant; and it must be proved by affidavit that the late minor has attained his full age. The costs of all parties of such application and of all or any proceedings theretofore had in the suit shall be paid by such persons as the Court directs.

If the late minor be a necessary party to the suit, the Court may direct him to be made a defendant.

455. If any minor on attaining majority can prove to the satisfaction of the Court that a suit instituted in his name by a next friend was unreasonable or improper, he may, if a sole plaintiff, apply to have the suit dismissed.

Notice of the application shall be served on all the parties concerned: and the Court, upon being satisfied of such unreasonableness or impropriety, may grant the application, and order the next friend to pay the costs of all parties in respect of the application and of anything done in the suit.

456. An order for the appointment of a guardian for the suit may be obtained upon application in the name of the minor. Such application must be supported by an affidavit verifying the fact that the proposed guardian has no interest in the matters in question in the suit adverse to that of the minor, and that he is a fit person to be so appointed.

457. A co-defendant of sound mind and of full age may be appointed guardian for the suit, if he has no interest adverse to that of the minor; but neither a plaintiff, nor a married woman, can be so appointed.

458. If the guardian for the suit of a minor defendant does not do his duty, or if other sufficient ground be made to appear, the Court may remove him, and may order him to pay such costs as may have been occasioned to any party by his breach of duty.

459. If the guardian for the suit dies pending such suit or is removed by the Court, the Court shall appoint a new guardian in his place.

460. When the enforcement of a decree is applied for against the heir or representative, being a minor, of a deceased party, a guardian for the suit of such minor shall be appointed by the Court, and the decree-holder shall serve on such guardian notice of such application.

461. No sum of money or other thing shall be received or taken by a next friend or guardian for the suit at any time on behalf of a minor, at any time before decree or order, unless he has first obtained the leave of the Court, and given security to its satisfaction that such money or other thing shall be duly accounted for, to, and held for the benefit of, such minor.

462. No next friend or guardian for the suit shall, without the leave of the Court, enter into any agreement or compromise on behalf of a minor, with reference to the suit in which he acts as next friend or guardian.

Any such agreement or compromise entered into without the leave of the Court shall be voidable against all parties other than the minor.

463. The provisions contained in sections 440 to 462 (both inclusive) shall, *mutatis mutandis*, apply in the case of persons of unsound mind, adjudged to be so under Act No. XXXV of 1858, or under any other law for the time being in force.

464. Nothing in sections 442 to 462 applies to any minor or person of unsound mind, for whose person or property a guardian or manager has been appointed by the Court of Wards or by the Civil Court under any local law.

CHAPTER XXXII.

SUITS BY AND AGAINST MILITARY MEN.

465. When any officer or soldier actually serving the Government in a military capacity is a party to a suit, and cannot obtain leave of absence for the purpose of prosecuting or defending the suit in person, he may authorize any person to sue or defend in his stead.

The authority shall be in writing and shall be signed by the officer or soldier in the presence of (a) his commanding officer or of the next subordinate officer, if the party be himself the commanding officer, or (b) where the officer or soldier is serving in military staff employment, the head or other superior officer of the office in which he is employed. Such commanding or other officer shall countersign the authority which shall be filed in Court.

When so filed, the countersignature shall be sufficient proof that the authority was duly executed, and that the officer or soldier by whom it was granted could not obtain leave of absence for the purpose of prosecuting or defending the suit in person.

Explanation.—In this chapter the expression 'commanding officer' means the officer in actual command for the time being of any regiment, corps, detachment or depôt, to which the officer or soldier belongs.

466. Any person authorized by an officer or soldier to prosecute or defend a suit in his stead may prosecute or defend it in person in the same manner as the officer or soldier could do if present; or he may appoint a pleader to prosecute or defend the suit on behalf of such officer or soldier.

467. Processes served upon any person authorized by an officer or soldier, as in section 465, or upon any pleader appointed as aforesaid by such person to act for, or on behalf of, such officer or soldier, shall be as effectual as if they had been served on the party in person or on his pleader.

468. When an officer or soldier is a defendant, the Court shall send a copy of the summons to his commanding officer for the purpose of being served on him.

The officer to whom such copy is sent, after causing it to be served on the person to whom it is addressed, if practicable, shall return it to the Court with the written acknowledgment of such person endorsed thereon.

If from any cause the copy cannot be so served, it shall be returned to the Court by which it was sent, with information of the cause which has prevented the service.

469. If, in the execution of a decree, a warrant of arrest is to be executed within the limits of a cantonment, garrison, military station or military bazar, the officer charged with the execution of such warrant shall deliver the same to the commanding officer.

The commanding officer shall back the warrant with his signature, and the person named therein is within the limits of his command shall cause him to be arrested and delivered to the officer so charged.

CHAPTER XXXIII.

INTERPLEADER.

470. When two or more persons claim adversely to one another the same payment or property from another person, whose only interest therein is that of a mere stakeholder and who is ready to render it to the right owner, such stakeholder may institute a suit of interpleader against all the claimants for the purpose of obtaining a decision as to whom the payment or property should be made or delivered, and of obtaining indemnity for himself:

Provided that if any suit is pending in which the rights of all parties can properly be decided, the stakeholder shall not institute a suit of interpleader.

471. In every suit of interpleader the plaintiff must, in addition to the other statements necessary for complaints, state—

(a) that the plaintiff has no interest in the thing claimed otherwise than as a mere stakeholder;

(b) the claims made by the defendants severally; and

(c) that there is no collusion between the plaintiff and any of the defendants.

472. When the thing claimed is capable of being paid into court or placed in the custody of the Court, the plaintiff must so pay or place it before he can be entitled to any order in the suit.

473. At the first hearing the Court may

(a) declare that the plaintiff is discharged from all liability to the defendants in respect of the thing claimed, award him his costs, and dismiss him from the suit:

or, if it thinks that justice or convenience so require,

(b) retain all parties until the final disposal of the suit:

and, if it finds that the admissions of the parties or other evidence enable it,

(c) adjudicate the title to the thing claimed; or else it may

(d) direct the defendants to interplead one another by filing statements and entering into evidence for the purpose of bringing their respective claims before the Court.

474. Nothing in this chapter shall be taken

When agents and tenants may institute interpleader-suits. to enable agents to sue their principals, or tenants to sue their landlords, for the purpose of compelling them to interplead with any persons other than persons making claim through such principals or landlords.

Illustrations.

(a) A deposits a box of jewels with B as his agent. C alleges that the jewels were wrongfully obtained from him by A, and claims them from B. B cannot institute an interpleader-suit against A and C.

(b) A deposits a box of jewels with B as his agent. He then writes to C for the purpose of making the jewels a security for a debt due from himself to C. A afterwards alleges that C's debt is satisfied, and C alleges the contrary. Both claim the jewels from B. B may institute an interpleader-suit against A and C.

475. When the suit is properly instituted, the Court may provide for the plaintiff's costs by giving him a charge on the thing claimed or in some other effectual way.

476. If any of the defendants in an interpleader-suit is actually suing the stakeholder in respect of the subject of such suit, the Court in which the suit against the stakeholder is pending shall, on being duly informed by the Court which passed the decree in the interpleader-suit in favour of the stakeholder, that such decree has been passed, stay the proceedings as against him; and his costs in the suit so stayed may be provided for in such suit; but if, and so far as, they are not provided for in that suit, they may be added to his costs incurred in the interpleader-suit.

PART IV.

PROVISIONAL REMEDIES.

CHAPTER XXXIV.

OF ARREST AND ATTACHMENT BEFORE JUDGMENT.

A.—Arrest before Judgment.

477. If at any stage of any suit, other than a When plaintiff may apply that security be taken. suit for the possession of immovable property, the plaintiff satisfies the Court by affidavit—

that the defendant, with intent to avoid or delay the plaintiff, or to avoid any process of the Court, or to obstruct or delay the execution of any decree that may be passed against him,

(a) has absconded or left the jurisdiction of the Court, or

(b) is about to abscond or to leave the jurisdiction of the Court, or

(c) has disposed of or removed from the jurisdiction of the Court his property or any part thereof, or

that the defendant is about to leave British India under circumstances affording reasonable probability that the plaintiff will or may thereby be obstructed or delayed in the execution of any decree that may be passed against the defendant in the suit,

the plaintiff may apply to the Court that security be taken for the appearance of the defendant to answer any decree that may be passed against him in the suit.

478. If the Court, after examining the applicant, and making such further investigation as it thinks fit, is satisfied Order to bring up defendant to show cause why he should not give security.

that the defendant, with any such intent as aforesaid,

(a) has absconded or left the jurisdiction of the Court, or

(b) is about to abscond or to leave the jurisdiction of the Court, or

(c) has disposed of or removed from the jurisdiction of the Court his property or any part thereof, or

that the defendant is about to leave British India under the circumstances last aforesaid,

the Court may issue an order for bringing the defendant before the Court to show cause why he should not give security for his appearance.

479. If the defendant fail to show such cause, the Court shall order him either to deposit in court money or other property sufficient to answer the claim against him, or to give security for his appearance at any time when called upon while the suit is pending, and until execution or satisfaction of any decree that may be passed against him in the suit.

The surety shall bind himself, in default of such appearance, to pay any sum of money which the defendant may be ordered to pay in the suit.

480. The surety for the appearance of the defendant may at any time apply to the Court in which he became such surety to be discharged from his obligation.

On such application being made, the Court shall summon the defendant to appear, or, if it thinks fit, may issue a warrant for his arrest in the first instance.

On the appearance of the defendant pursuant to the summons or warrant, or on his voluntary surrender, the Court shall direct the surety to be discharged from his obligation, and shall call upon the defendant to find fresh security.

481. If the defendant fail to comply with any order under section 479 or section 480, the Court may commit him to jail until the decision of the suit, or, if judgment be given against the defendant, until the execution of the decree: Provided that no person shall be imprisoned under this section in any case for a longer period than six months, nor for a longer period than six weeks when the amount or value of the subject-matter of the suit does not exceed fifty rupees.

482. The provisions of section 339 as to allowances payable for the subsistence of judgment-debtors shall apply to all defendants arrested under this chapter.

B.—Attachment before Judgment.

483. If at any stage of any suit the plaintiff satisfies the Court by affidavit that the defendant, with intent to obstruct or delay the execution of any decree that may be passed against him,

(a) is about to dispose of the whole or any part of his property, or to remove the same from the jurisdiction of the Court in which the suit is pending, or

(b) has quitted the jurisdiction of the Court, leaving therein property belonging to him,

the plaintiff may apply to the Court to call upon the defendant to furnish security to satisfy any decree that may be passed against him in such suit, and, on his failing to give such security, to direct that any portion of his property shall be attached until the further order of the Court.

The application shall, unless the Court otherwise directs, specify the property required to be attached and the estimated value thereof.

484. If the Court, after examining the application, and making any further investigation which it thinks fit, is satisfied that the defendant is about to dispose of or remove his property, with intent to obstruct or delay the execution of any decree that may be passed against him in the suit, the Court may require him, within a time to be fixed by the Court, either to furnish security in such sum as may be specified in the order, to produce and place at the disposal of

the Court, when required, the said property or the value of the same, or such portion thereof as may be sufficient to satisfy the decree, or to appear and show cause why he should not furnish security.

The Court may also in the order direct the conditional attachment of the whole or any portion of the property specified in the application.

485. If the defendant fail to show cause why he should not furnish security, or fail to furnish the security required within the time fixed by the Court, the Court may order that the property specified in the application, or such portion thereof as appears sufficient to satisfy any decree which may be passed in the suit, shall be attached.

If the defendant show such cause or furnish the required security, and the property specified in the application or any portion of it has been attached, the Court shall order the attachment to be withdrawn.

486. The attachment shall be made in the manner herein provided for the attachment of property in execution of a decree for money.

487. If any claim be preferred to the property attached before judgment, such claim shall be investigated in the manner hereinbefore provided for the investigation of claims to property attached in execution of a decree for money.

488. When an order of attachment before judgment is passed, the Court which passed the order shall remove the attachment whenever the defendant furnishes the security required, together with security for the costs of the attachment, or when the suit is dismissed.

489. Attachment before judgment shall not affect the rights, existing prior to the attachment, of persons not parties to the suit, nor bar any person holding a decree against the defendant from applying for the sale of the property under attachment in execution of such decree.

490. Where property is under attachment by virtue of the provisions of this chapter, and a decree is given in favour of the plaintiff, it shall not be necessary to re-attach the property in execution of such decree.

C.—Compensation for improper Arrests or Attachments.

491. If in any suit in which an arrest or attachment has been effected, it appear to the Court that such arrest or attachment was applied for on insufficient grounds,

or if the suit of the plaintiff fails, and it appears to the Court that there was no probable ground for instituting the suit,

the Court may, on the application of the defendant, award against the plaintiff in its decree such amount, not exceeding one thousand rupees, as

it deems a reasonable compensation to the defendant for the expense or injury caused to him by the arrest or attachment :

Provided that the Court shall not award under this section a larger amount than it might decree in a suit for compensation.

An award under this section shall bar any suit for compensation in respect of such arrest or attachment.

CHAPTER XXXV.

OF TEMPORARY INJUNCTIONS AND INTERLOCUTORY ORDERS.

A.—Temporary Injunctions.

492. If in any suit it be proved by affidavit or otherwise that any property in dispute in a suit is in danger of being wasted, damaged or alienated by any party to the suit, or wrongfully sold in execution of a decree, or

(b) that the defendant threatens, or is about to remove or dispose of his property with intent to defraud his creditors,

the Court may by order grant a temporary injunction to restrain such act, or give such other order for the purpose of staying and preventing the wasting, damaging, alienation, sale, removal or disposition of the property as the Court thinks fit, or refuse such injunction or other order.

493. In any suit for restraining the defendant from committing a breach of contract or other injury, whether Compensation be claimed in the suit or not, the plaintiff may, at any time after the commencement of the suit, and either before or after judgment, apply to the Court for a temporary injunction to restrain the defendant from committing the breach of contract or injury complained of, or any breach of contract or injury of a like kind arising out of the same contract or relating to the same property or right.

The Court may by order grant such injunction on such terms as to the duration of the injunction, keeping an account, giving security, or otherwise, as the Court thinks fit, or refuse the same.

In case of disobedience, an injunction granted under this section or section 492 may be enforced by the imprisonment of the defendant for a term not exceeding six months, or the attachment of his property, or both.

No attachment under this section shall remain in force for more than one year, at the end of which time if the defendant has not obeyed the injunction, the property attached may be sold, and out of the proceeds the Court may award to the plaintiff such compensation as it thinks fit and may pay the balance, if any, to the defendant.

494. The Court shall in all cases, except where it appear that the object of granting the injunction would be defeated by the delay, before granting an injunction, direct notice of the application for the same to be given to the opposite party.

495. An injunction directed to a corporation or public company is binding not only on the corporation, or company itself, but also on all members and officers of the corporation or company whose personal action it seeks to restrain.

496. Any order for an injunction may be discharged, or varied, or set aside by the Court, on application made thereto by any party dissatisfied with such order.

497. If it appears to the Court that the injunction was applied for on insufficient grounds, or

if, after the issue of the injunction, the suit is dismissed or judgment is given against the plaintiff by default or otherwise, and it appears to the Court that there was no probable ground for instituting the suit,

the Court may, on the application of the defendant, award against the plaintiff in its decree such sum, not exceeding one thousand rupees, as it deems a reasonable compensation to the defendant for the expense or injury caused to him by the issue of the injunction :

Provided that the Court shall not award under this section a larger amount than it might decree in a suit for compensation.

An award under this section shall bar any suit for compensation in respect of the issue of the injunction.

B.—Interlocutory Orders.

498. The Court may, on the application of any party to a suit, order the sale, by any person named in such order, and in such manner and on such terms as it thinks fit, of any moveable property being the subject of such suit, which is subject to speedy and natural decay.

499. The Court may, on the application of any party to a suit, and on such terms as it thinks fit,

(a) make an order for the detention, preservation or inspection of any property being the subject of such suit ;

(b) for all or any of the purposes aforesaid, authorize any person to enter upon or into any land or building in the possession of any other party to such suit, and

(c) for all or any of the purposes aforesaid, authorize any samples to be taken, or any observation to be made or experiment to be tried, which may seem necessary or expedient for the purpose of obtaining full information or evidence.

The provisions hereinbefore contained as to execution of process shall apply, *mutatis mutandis*, to persons authorized to enter under this section.

500. An application by the plaintiff for an order under section 498 or section 499 may be made after notice in writing to the defendant at any time after service of the summons.

An application by the defendant for a like order may be made after notice in writing to the plaintiff, and at any time after the applicant has appeared.

501. When land paying revenue to Government, or a tenure liable to sale, is the subject of a suit, if the party in possession of such land or tenure neglects to pay the Government revenue, or the rent due to the proprietor of the tenure, as the case may be, and such land or tenure is consequently ordered to be sold, any other party to the suit claiming to have an interest in such land or tenure may upon payment of the revenue or rent due previously to the sale (and with or without security at the discretion of the Court), be put in immediate possession of the land or tenure;

and the Court in its decree may award against the defaulter the amount so paid, with interest thereupon at such rate as the Court thinks fit, or may charge the amount so paid, with interest thereupon at such rate as the Court orders, in any adjustment of accounts which may be directed in the decree passed in the suit.

502. When the subject-matter of a suit is money or some other thing capable of delivery, and any party thereto admits that he holds such money or other thing as a trustee for another party, or that it belongs or is due to another party, the Court may order the same to be deposited in court or delivered to such last-named party, with or without security, subject to the further direction of the Court.

CHAPTER XXXVI.

APPOINTMENT OF RECEIVERS.

503. Whenever it appears to the Court to be necessary for the realization, preservation or better custody or management of any property, moveable or immoveable, the subject of a suit, or under attachment, the Court may by order

(a) appoint a receiver of such property, and, if need be,

(b) remove the person in whose possession or custody the property may be from the possession or custody thereof;

(c) commit the same to the custody or management of such receiver; and

(d) grant to such receiver such fee or commission on the rents and profits of the property by way of remuneration, and all such powers as to bringing and defending suits, and for the realization, management, protection, preservation and improvement of the property, the collection of the rents and profits thereof, the application and disposal of such rents and profits, and the execution of instruments in writing, as the owner himself has, or such of those powers as the Court thinks fit.

Every receiver so appointed shall

(e) give such security (if any) as the Court thinks fit duly to account for what he shall receive in respect of the property,

(f) pass his accounts at such periods and in such form as the Court directs,

(g) pay the balance due from him thereon as the Court directs, and

(h) be responsible for any loss occasioned to the property by his wilful default or gross negligence.

Nothing in this section authorizes the Court to remove from the possession or custody of property under attachment any person whom the parties to the suit, or some or one of them, have or has not a present right so to remove.

504. If the property be land paying revenue to Government, or land of which the revenue has been assigned or redeemed, and the Court considers that the interests of those concerned will be promoted by the management of the Collector, the Court may appoint the Collector to be receiver of such property.

505. The powers conferred by this chapter shall be exercised only by High Courts and District Courts. Provided that whenever the Judge of a Court subordinate to a District Court considers it expedient that a receiver should be appointed in any suit before him, he shall nominate such person as he considers fit for such appointment, and submit such person's name, with the grounds for the nomination, to the District Court, and the District Court shall authorize such Judge to appoint the person so nominated or pass such other order as it thinks fit.

PART V.

OF SPECIAL PROCEEDINGS.

CHAPTER XXXVII.

REFERENCE TO ARBITRATION.

506. If all the parties to a suit desire that any matter in difference between them in the suit be referred to arbitration, they may, at any time before judgment is pronounced, apply, in person or by their respective pleaders specially authorized in writing in this behalf, to the Court for an order of reference.

Every such application shall be in writing and shall state the particular matter sought to be referred.

507. The arbitrator shall be nominated by the parties in such manner as may be agreed upon between them.

If the parties cannot agree with respect to such nomination, or if the person whom they nominate refuses to accept the arbitration and the parties desire that the nomination shall be made by the Court, the Court shall nominate the arbitrator.

508. The Court shall, by order, refer to the arbitrator the matter in difference which he is required to determine, and shall fix such time as it thinks reasonable for the delivery of the award, and specify such time in the order.

When once a matter is referred to arbitration, the Court shall not deal with it in the same suit, except as hereinafter provided.

509. If the reference be to two or more arbitrators, provision shall be made in the order for a difference of opinion among the arbitrators.

When reference is to two or more, order to provide for difference of opinion.

- (a) by the appointment of an umpire, or
- (b) by declaring that the decision shall be with the majority if the major part of the arbitrators agree, or
- (c) by empowering the arbitrators to appoint an umpire, or
- (d) otherwise, as may be agreed between the parties; or, if they cannot agree, as the Court determines.

If an umpire is appointed, the Court shall fix such time as it thinks reasonable for the delivery of his award in case he is required to act.

510. If the arbitrator, or, where there are more arbitrators than one, any of the arbitrators, or the umpire, dies, or refuses, or neglects, or becomes incapable to act, or leaves British India under circumstances showing that he will probably not return at an early date, the Court may in its discretion either appoint a new arbitrator or umpire in the place of the person so dying, or refusing, or neglecting, or becoming incapable to act, or leaving British India, or make an order superseding the arbitration, and in such case shall proceed with the suit.

511. Where the arbitrators are empowered by the order of reference to appoint an umpire and fail to do so, any of the parties may serve the arbitrators with a written notice to appoint an umpire; and if, within seven days after such notice has been served, or such further time as the Court may in each case allow, no umpire be appointed, the Court, upon the application of the party who has served such notice as aforesaid, may appoint an umpire.

512. Every arbitrator or umpire appointed under section 509, 510 or 511 shall have the like powers as if his name had been inserted in the order of reference.

Powers of arbitrator or umpire appointed under sections 509, 510, 511.

513. The Court shall issue the same processes to the parties and witnesses whom the arbitrators or umpire desire to examine, as the Court may issue in suits tried before it.

Summoning witnesses.

Persons not attending in accordance with such process, or making any other default, or refusing to give their evidence, or guilty of any contempt to the arbitrator or umpire during the investigation of the matters referred, shall be subject to the like disadvantages, penalties and punishments by order of the Court on the representation of the arbitrator or umpire, as they would incur for the like offences in suits tried before the Court.

Punishment for default, &c.

514. If from the want of the necessary evidence or information, or from any other cause, the arbitrators cannot complete the award within the period specified in the order, the Court may, if it think fit, either grant a further time, and from time to time enlarge the period for the delivery of the award, or make an order superseding the arbitration, and in such case shall proceed with the suit.

Extension of time for making award.

515. When an umpire has been appointed, he may enter on the reference in the place of the arbitrators.

When umpire may arbitrate in lieu of arbitrators.

- (a) if they have allowed the appointed time to expire without making an award, or
- (b) when they have delivered to the Court or to the umpire a notice in writing, stating that they cannot agree.

516. When an award in a suit has been made, the persons who made it shall sign it and cause it to be filed in Court, together with any depositions and documents which have been taken and proved before them; and notice of the filing shall be given to the parties.

Award to be signed and filed.

517. Upon any reference by an order of Court, the arbitrators or umpire may, with the consent of the Court, state the award as to the whole or any part thereof in the form of a special case for the opinion of the Court; and the Court shall deliver its opinion thereon; and such opinion shall be added to and form part of the award.

Arbitrators or umpire may state special case.

518. The Court may, by order, modify or correct an award, (a) where it appears that a part of the award is upon a matter not referred to arbitration, provided such part can be separated from the other part and does not affect the decision on the matter referred, or

Court may, on application, modify or correct award in certain cases.

- (b) where the award is imperfect in form, or contains any obvious error which can be amended without affecting such decision.

519. The Court may also make such order as it thinks fit respecting the costs of the arbitration, if any question arise respecting such costs and the award contain no sufficient provision concerning them.

Order as to costs of arbitration.

520. The Court may remit the award or any matter referred to arbitration to the reconsideration of the same arbitrators or umpire, upon such terms as it thinks fit,

When award or matter referred to arbitration may be remitted.

- (a) where the award has left undetermined any of the matters referred to arbitration, or where it determines any matter not referred to arbitration;
- (b) where the award is so indefinite as to be incapable of execution;
- (c) where an objection to the legality of the award is apparent upon the face of it.

521. An award remitted under section 520 becomes void on the refusal of the arbitrators or umpire to reconsider it. But no award shall be set aside except on one of the following grounds (namely)—

(a) corruption or misconduct of the arbitrator or umpire;

(b) either party having been guilty of fraudulent concealment of any matter which he ought to have disclosed, or of wilfully misleading or deceiving the arbitrator or umpire;

(c) the award having been made after the issue of an order by the Court superseding the arbitration and restoring the suit;

and no award shall be valid unless made within the period allowed by the Court.

522. If the Court sees no cause to remit the award or any of the matters referred to arbitration for reconsideration in manner aforesaid, and if no application has been made to set aside the award, or if the Court has refused such application,

the Court shall, after the time for making such application has expired, proceed to give judgment according to the award,

or, if the award has been submitted to it in the form of a special case, according to its own opinion on such case:

Upon the judgment so given a decree shall follow, and shall be enforced in manner provided in this Code for the execution of decrees. No appeal shall lie from such decree except in so far as the decree is in excess of, or not in accordance with, the award.

523. When any persons agree in writing that any difference between them shall be referred to the arbitration of any person named in the agreement or to be appointed by any Court having jurisdiction in the matter to which the agreement relates, the parties thereto, or any of them, may apply that the agreement be filed in Court.

The application shall be in writing and shall be numbered and registered as a suit between one or more of the parties interested or claiming to be interested as plaintiff or plaintiffs, and the others or other of them as defendants or defendant, if the application have been presented by all the parties, or, if otherwise, between the applicant as plaintiff and the other parties as defendants.

On such application being made, the Court shall direct notice thereof to be given to any of the parties to the agreement other than the applicants, requiring such parties to show cause, within the time specified in the notice, why the agreement should not be filed.

If no sufficient cause be shown, the Court may cause the agreement to be filed, and shall make an order of reference thereon, and may also nominate

the arbitrator when he is not named therein and the parties cannot agree as to the nomination.

524. The foregoing provisions of this chapter, so far as they are consistent with any agreement so filed, shall be applicable to all proceedings under an order of reference made by the Court under section 523, and to the award of arbitration and to the enforcement of the decree founded thereupon.

525. When any matter has been referred to arbitration without the intervention of a Court of Justice, and an award has been made thereon, any person interested in the award may apply to the Court of the lowest grade having jurisdiction over the matter to which the award relates, that the award be filed in Court.

The application shall be in writing and shall be numbered and registered as a suit between the applicant as plaintiff and the other parties as defendants.

The Court shall direct notice to be given to the parties to the arbitration other than the applicant, requiring them to show cause, within a time specified, why the award should not be filed.

526. If no ground such as is mentioned or referred to in section 520 or 521, be shown against the award, the Court shall order it to be filed, and such award shall then take effect as an award made under the provisions of this chapter.

CHAPTER XXXVIII.

OF PROCEEDINGS ON AGREEMENT OF PARTIES.

527. Parties claiming to be interested in the decision of any question of fact or law, may enter into an agreement in writing stating such question in the form of a case for the opinion of the Court, and providing that, upon the finding of the Court with respect to such question,

(a) a sum of money fixed by the parties or to be determined by the Court, shall be paid by one of the parties to the other of them; or

(b) some property, moveable or immoveable, specified in the agreement, shall be delivered by one of the parties to the other of them; or

(c) one or more of the parties shall do, or refrain from doing, some other particular act specified in the agreement.

Every case stated under this section shall be divided into consecutively numbered paragraphs, and shall concisely state such facts and documents as may be necessary to enable the Court to decide the question raised thereby.

528. If the agreement is for the delivery of any property, or for the doing, or the refraining from doing, any particular act, the estimated value of the property to be

delivered, or to which the act specified has reference, shall be stated in the agreement.

529. The agreement, if framed in accordance with the rules hereinbefore contained, may be filed in the Court which would have jurisdiction to entertain a suit, the amount or value of the subject-matter of which is the same as the amount or value of the subject-matter of the agreement.

The agreement, when so filed, shall be numbered and registered as a suit between one or more of the parties claiming to be interested, as plaintiff or plaintiffs, and the other or others of them as defendant or defendants; and notice shall be given to all the parties to the agreement other than the party or parties by whom it was presented.

530. When the agreement has been filed, the parties to it shall be subject to the jurisdiction of the Court, and shall be bound by the statements contained therein.

531. The case shall be set down for hearing as a suit instituted under chapter V, the provisions of which shall apply to such suit so far as the same are applicable.

If the Court is satisfied, after an examination of the parties, or taking such evidence as it thinks fit,

(a) that the agreement was duly executed by them, and

(b) that they have a *bona fide* interest in the question stated therein, and

(c) that the same is fit to be decided,

it shall proceed to pronounce judgment thereon, in the same way as in an ordinary suit, and upon the judgment so given a decree shall follow, and shall be enforced in the manner provided in this Code for the execution of decrees.

CHAPTER XXXIX.

OF SUMMARY PROCEDURE ON NEGOTIABLE INSTRUMENTS.

532. In any Court to which this section applies all suits upon bills of exchange, hundis or promissory notes may, in case the plaintiff desires to proceed under this chapter, be instituted by presenting a plaint in the form prescribed by this Code; but the summons shall be in the form contained in the fourth schedule hereto annexed, No. 172, or in such other form as the High Court may from time to time prescribe.

In any case in which the plaint and summons are in such forms respectively, the defendant shall not appear or defend the suit unless he obtains leave from a Judge as hereinafter mentioned so to appear and defend;

and in default of his obtaining such leave or of appearance and defence in pursuance thereof, the plaintiff shall be entitled to a decree for any sum not exceeding the sum mentioned in the summons, together with interest at the rate specified (if any)

to the date of the decree, and a sum for costs to be fixed by a rule of the High Court, unless the plaintiff claim more than such fixed sum, in which case the costs shall be ascertained in the ordinary way, and such decree may be enforced forthwith.

The defendant shall not be required to pay into Court the sum mentioned in the summons, or to give security therefor, unless the Court thinks his defence not to be *prima facie* sustainable, or feels reasonable doubt as to its good faith.

Explanation.—This section is not confined to cases in which the bill, hundi or note sued upon, together with mere lapse of time, is sufficient to establish a *prima facie* right to recover.

533. The Court shall, upon application by the defendant, give leave to appear and to defend the suit, upon the defendant paying into Court the sum mentioned in the summons or upon affidavits satisfactory to the Court, which disclose a defence or such facts as would make it incumbent on the holder to prove consideration, or such other facts as the Court may deem sufficient to support the application, and on such terms as to security, framing and recording issues, or otherwise, as the Court thinks fit.

534. After decree, the Court may, under special circumstances, set aside the decree, and if necessary stay or set aside execution, and may give leave to appear to the summons and to defend the suit, if it seem reasonable to the Court so to do, and on such terms as the Court thinks fit.

535. In any proceeding under this chapter the Court may order the bill, hundi or note on which the suit is founded to be forthwith deposited with an officer of the Court, and may further order that all proceedings shall be stayed until the plaintiff gives security for the costs thereof.

536. The holder of every dishonoured bill of exchange or promissory note shall have the same remedies for the recovery of the expenses incurred in noting the same for non-acceptance or non-payment, or otherwise, by reason of such dishonour, as he has under this chapter for the recovery of the amount of such bill or note.

537. Except as provided by sections 532 to 536 both inclusive, the procedure in suits under this chapter shall be the same as the procedure in suits instituted under chapter V.

538. Sections 532 to 537 (both inclusive) apply only to—

- (a) the High Courts of Judicature at Fort William, Madras and Bombay
- (b) the Court of the Recorder of Rangoon;
- (c) the Courts of Small Causes in Calcutta, Madras and Bombay;
- (d) the Court of the Judge of Karachi; and

(e) any other Court having ordinary original civil jurisdiction to which the Local Government may, by notification in the official Gazette, apply them.

In case of such application the Local Government may direct by whom any of the powers and duties incident to the provisions so applied shall be exercised and performed, and make any rules which it thinks requisite for carrying into operation the provisions so applied.

Within one month after such notification has been published, such provisions shall apply accordingly, and the rules so made shall have the force of law.

The Local Government may from time to time alter or cancel any such notification.

CHAPTER XL.

OF SUITS RELATING TO PUBLIC CHARITIES.

539. In case of any alleged breach of any express or constructive trust created for public charitable purposes, or whenever the direction of the Court is deemed necessary for the administration of any such trust, the Advocate General acting *ex-officio*, or two or more persons having a direct interest in the trust and having obtained the consent in writing of the Advocate General, may institute a suit in the High Court or the District Court within the local limits of whose civil jurisdiction the whole or any part of the subject-matter of the trust is situate, to obtain a decree—

- (a) appointing new trustees of the charity;
- (b) vesting any property in the trustees of the charity;
- (c) declaring the proportions in which its objects are entitled;
- (d) authorizing the whole or any part of its property to be let, sold, mortgaged or exchanged;
- (e) settling a scheme for its management; or granting such further or other relief as the nature of the case may require.

The powers conferred by this section on the Advocate General may (where there is no Advocate General) be exercised by the Government Advocate or (where there is no Government Advocate) by such officer as the Local Government may appoint in this behalf.

PART VI. OF APPEALS.

CHAPTER XLI.

OF APPEALS FROM ORIGINAL DECREES.

540. Unless when otherwise expressly provided in this Code or by any other law for the time being in force, an appeal shall lie from the decrees, or from any part of the decrees, of the Courts exercising original jurisdiction to the Courts authorized to hear appeals from the decisions of those Courts.

541. The appeal shall be made in the form of a memorandum in writing presented by the appellant,

and shall be accompanied by a copy of the Memorandum to be decree appealed against and accompanied by copy of (unless the appellate Court dispenses therewith) of the decree and judgment, of the judgment on which it is founded.

Such memorandum shall set forth, concisely and under distinct heads, the grounds of objection to the decree appealed against, without any argument or narrative, and such grounds shall be numbered consecutively.

542. The appellant shall not, without the leave of the Court, urge or be heard in support of any other ground of objection, but the Court in deciding the appeal shall not be confined to the grounds set forth by the appellant:

Provided that the Court shall not rest its decision on any ground not set forth by the appellant, unless the respondent has had sufficient opportunity of contesting the case on that ground.

543. If the memorandum of appeal be not drawn up in the manner hereinbefore prescribed, it may be rejected, or be returned to the appellant for the purpose of being amended within a time to be fixed by the Court, or be amended then and there.

When the Court rejects under this section any memorandum, it shall record the reasons for such rejection.

When a memorandum of appeal is amended under this section the Judge, or such officer as he appoints in this behalf, shall attest the amendment by his signature.

544. Where there are more plaintiffs or more defendants than one in a suit, and the decree appealed against proceeds on any ground common to all the plaintiffs or to all the defendants, any one of the plaintiffs or of the defendants may appeal against the whole decree, and the Appellate Court may reverse or modify the decree in favour of all the plaintiffs or defendants as the case may be.

Of staying and executing Decrees under Appeal.

545. Execution of a decree shall not be stayed by reason only of an appeal having been preferred against the decree; but the Appellate Court may for sufficient cause order the execution to be stayed:

If an application be made for stay of execution of an appealable decree before the expiry of the time allowed for appealing therefrom, the Court which passed the decree may for sufficient cause order the execution to be stayed:

Provided that no order shall be made under this section unless the Court making it is satisfied—

(a) that substantial loss may result to the party applying for stay of execution unless the order is made;

(b) that the application has been made without unreasonable delay; and

(c) that security has been given by the applicant for the due performance of such decree or order as may ultimately be binding upon him.

Security required before making order to stay execution.

546. If an order is made for the execution of a decree against which an appeal is pending, the Court which passed the decree shall, on sufficient cause being shown by the appellant, require security to be given for the restitution of any property which may be taken in execution of the decree, or for the payment of the value of such property, and for the due performance of the decree or order of the Appellate Court, or the Appellate Court may for like cause direct the Court which passed the decree to take such security.

And when an order has been passed for the sale of immoveable property in execution of a decree for money and an appeal is pending against such decree, the sale shall on the application of the judgment-debtor be stayed until the appeal is disposed of, on such terms as to giving security or otherwise as the Court which passed the decree thinks fit.

547. No such security as is mentioned in sections 545 and 546 shall be required from the Secretary of State for India in Council, or (when Government has undertaken the defence of the suit) from any public officer sued in respect of an act alleged to be done by him in his official capacity.

Of Procedure in Appeal from Decrees.

548. When a memorandum of appeal is admitted, the Appellate Court or the proper officer of that Court shall endorse thereon the date of presentation, and shall register the appeal in a book to be kept for the purpose. Such book shall be called the Register of Appeals.

Registry of memorandum of appeal.

Register of appeals.

549. The Appellate Court may, at its discretion, either before the respondent is called upon to appear and answer or afterwards on the application of the respondent, demand from the appellant security for the costs of the appeal, or of the original suit, or of both:

Provided that the Court shall demand such security in all cases in which the appellant is residing out of British India, and is not possessed of any sufficient immoveable property within British India independent of the property (if any) to which the appeal relates.

If such security be not furnished within such time as the Court orders, the Court shall reject the appeal.

550. When the memorandum of appeal is registered, the Appellate Court shall send notice of the appeal to the Court against whose decree the appeal is made.

Appellate Court to give notice to Court whose decree is appealed against.

If the appeal be from a Court the records of which are not deposited in the Appellate Court, the Court receiving such notice shall send with all practicable despatch all material papers in the suit, or such papers as may be specially called for by the Appellate Court.

Either party may apply, in writing to the Court, against whose decree the appeal is made, specifying any of such papers in such Court of which he requires copies to be made; and copies of such papers shall be made at the expense of the applicant, and shall be deposited accordingly.

551. The Appellate Court may, if it thinks fit, after fixing a time for hearing the appellant or his pleader, and hearing him accordingly if he appears at such time, confirm the decision of the Court against whose decree the appeal is made, without sending notice of the appeal to such Court and without serving notice on the respondent or his pleader; but in such case the confirmation shall be notified to the same Court.

552. The Appellate Court, unless where it confirms, under section 551, the decision of the lower Court, shall fix a day for hearing the appeal.

Day for hearing appeal.

Such day shall be fixed with reference to the current business of the Court, the place of residence of the respondent, and the time necessary for the service of the notice of appeal, so as to allow the respondent sufficient time to appear and answer the appeal on such day.

553. Notice of the day so fixed shall be stuck up in the appellate court-house, and a like notice shall be sent by the Appellate Court to the Court against whose decree the appeal is made, and shall be served on the respondent or on his pleader in the Appellate Court in the manner provided in chapter VI for the service on a defendant of a summons to appear and answer; and all rules applicable to such summons and to proceedings with reference to the service thereof, shall apply to the service of such notice.

Instead of sending the notice to the Court against whose decree the appeal is made, the Appellate Court may itself cause notice to be served. The Court may itself cause the notice to be served on the respondent or his pleader under the rules above referred to.

554. The notice to the respondent shall declare that, if he does not appear in the Appellate Court on the day so fixed, the appeal will be heard *ex parte*.

Contents of notice.

Procedure on Hearing.

555. On the day so fixed, or on any other day to which the hearing may be adjourned, the party having the right to begin shall be heard in support of or against the appeal, as the case may be. The other party shall then be heard, and the party

Right to begin.

having the right to begin shall then be entitled to reply.

Explanation.—If the appeal is from the whole decree, or if there are cross-appeals, the party having the right to begin is the party who had the right to begin on the hearing in the Court whose decree is appealed from.

If the appeal is from only a portion of the decree, and there is no cross-appeal, the appellant has the right to begin.

556. If on the day so fixed, or any other day to which the hearing may be adjourned, the appellant does not attend in person or by his pleader, the appeal shall be dismissed for default.

Dismissal of appeal for appellant's default.

If the appellant attends and the respondent does not attend, the appeal shall be heard *ex parte* in his absence.

Hearing appeal *ex parte*.

557. If on the day so fixed, or any other day to which the hearing may be adjourned, it is found that the notice to the respondent has not been served in consequence of the failure of the appellant to deposit, within the period fixed by the Court, the sum required to defray the cost of issuing the notice, the Court may order that the appeal be dismissed:

Dismissal of appeal where notice has not been served in consequence of appellant's failure to deposit cost of notice.

Provided that no such order shall be passed, although the notice has not been served upon the respondent, if on the day fixed for hearing the appeal the respondent appears in person or by a pleader, or by a duly authorized agent.

Proviso.

558. If an appeal be dismissed under section 556 or section 557, the appellant may apply to the Appellate Court for the re-admission of the appeal; and if it be proved that he was prevented by any sufficient cause from attending when the appeal was called on for hearing or from depositing the sum so required, the Court may re-admit the appeal on such terms as to costs or otherwise as the Court thinks fit to impose upon him.

Re-admission of appeal dismissed for default.

559. If it appear to the Court at the hearing that any person who was a party to the suit in the Court against whose decree the appeal is made, but who has not been made a party to the appeal, is interested in the result of the appeal, the Court may adjourn the hearing to a future day to be fixed by the Court, and direct that such person be made a respondent.

Power to adjourn hearing, and direct persons appearing interested to be made respondents.

560. When an appeal is heard *ex parte* in the absence of the respondent, and judgment is given against him, he may apply to the Appellate Court to re-hear the appeal; and if it be proved that the respondent was prevented by sufficient cause from attending when the appeal was called on for hearing, the Court may re-hear the appeal on such terms as to costs or otherwise as the Court thinks fit to impose upon him.

Re-hearing on application of respondent against whom *ex parte* decree is made.

561. Any respondent, though he may not have appealed against any part of the decree, may upon the hearing not only support the decree on any of the grounds decided against him in the Court below, but take any objection to the decree which he could have taken by way of appeal, provided he has given to the appellant or his pleader seven days' notice of such objection.

Such objection shall be in the form of a memorandum, and the provisions of section 541, so far as they relate to the form and contents of the memorandum of appeal, shall apply thereto.

Form of notice, and provisions applicable thereto.

562. If the Court against whose decree the appeal is made has disposed of the suit upon a preliminary point so as to exclude any evidence of fact which appears to the Appellate Court essential to the determination of the rights of the parties, and the decree upon such preliminary point is reversed in appeal, the Appellate Court may, if it thinks fit, by order remand the case, together with a copy of the order in appeal, to the Court against whose decree the appeal is made, with directions to re-admit the suit under its original number in the register and proceed to investigate the suit on the merits.

The Appellate Court may, if it think fit, direct what issue or issues shall be tried in any case so remanded.

563. When a case is remanded with directions to take any evidence so excluded the Court to which the case is remanded shall not take any other evidence in the case, except evidence tendered to contradict the evidence so taken.

When further evidence barred.

564. The Appellate Court shall not remand a case for a second decision, except as provided in section 562.

Limit to remand.

565. When the evidence upon the record is sufficient to enable the Appellate Court to pronounce judgment, the Appellate Court shall, after re-settling the issues, if necessary, finally determine the case notwithstanding that the judgment of the Court against whose decree the appeal is made has proceeded wholly upon some ground other than that on which the Appellate Court proceeds.

When evidence on record sufficient, Appellate Court shall determine case finally.

566. If the Court against whose decree the appeal is made has omitted to frame or try any issue, or to determine any question of fact, which appears to the Appellate Court essential to the right decision of the suit upon the merits, and the evidence upon the record is not sufficient to enable the Appellate Court to determine such issue or question, the Appellate Court may frame issues for trial, and may refer the same for trial to the Court against whose decree the appeal is made, and in such case shall direct such Court to take the additional evidence required.

When Appellate Court may frame issues and refer them for trial to Court whose decree is appealed against.

and such Court shall proceed to try such issue, and shall return to the Appellate Court its finding thereon together with the evidence.

567. Such finding and evidence shall become part of the record in the suit; and either party may, within a time to be fixed by the Appellate Court, present a memorandum of objections to the finding.

After the expiration of the period fixed for presenting such memorandum, the Appellate Court shall proceed to determine the appeal.

568. The parties to an appeal shall not be entitled to produce additional evidence, whether oral or documentary, in the Appellate Court. But if

(a) the Court against whose decree the appeal is made refused to admit evidence which ought to have been admitted, or,

(b) the Appellate Court requires any document to be produced or any witness to be examined to enable it to pronounce judgment or for any other substantial cause,

the Appellate Court may allow such evidence to be produced, or document to be received, or witness to be examined.

Whenever additional evidence is admitted by an Appellate Court, the Court shall record on its proceedings the reason for such admission.

569. Whenever additional evidence is allowed to be received, the Appellate Court may either take such evidence, or direct the Court against whose decree the appeal is made, or any other subordinate Court, to take such evidence and to send it when taken to the Appellate Court.

570. In all cases where additional evidence is directed or allowed to be taken, the Appellate Court shall specify the points to which the evidence is to be confined, and record on its proceedings the points so specified.

Of the Judgment in Appeal.

571. The Appellate Court, after hearing the parties or their pleaders and referring to any part of the proceedings, whether on appeal or in the Court against whose decree the appeal is made, to which reference may be considered necessary, shall pronounce judgment in open Court, either at once or on some future day, of which notice shall be given to the parties or their pleaders.

572. The judgment shall be written in English; provided that if English is not the mother-tongue of the Judge, and he is not able to write an intelligible judgment in English, the judgment shall be written in his mother-tongue or in the language of the Court.

573. When the language in which the judgment is written is not the language of the Court, the judgment shall, if any party

so require, be translated into such language, and the translation, after it has been ascertained to be correct, shall be signed by the Judge or such officer as he appoints in this behalf.

574. The judgment of the Appellate Court shall state—

(a) the points for determination;

(b) the decision thereupon;

(c) the reasons for the decision, and

(d) when the decree appealed against is reversed or varied, the relief to which the appellant is entitled,

and shall at the time that it is pronounced be signed and dated by the Judge or by the Judges concurring therein.

575. When the appeal is heard by a Bench of two or more Judges, the appeal shall be decided in accordance with the opinion of such Judges or of the majority (if any) of such Judges.

If there be no such majority which concurs in a judgment varying or reversing the decree appealed against, such decree shall be affirmed:

Provided that if the Bench hearing the appeal is composed of two Judges belonging to a Court consisting of more than two Judges, and the Judges composing the Bench differ in opinion on a point of law, the appeal may be referred to one or more of the other Judges of the same Court, and shall be decided according to the opinion of the majority (if any) of all the Judges who have heard the appeal, including those who first heard it.

When there is no such majority which concurs in a judgment varying or reversing the decree appealed against, such decree shall be affirmed.

The High Court may from time to time make rules consistent with this Code to regulate references under this section.

576. When the appeal is heard by more Judges than one, any Judge dissenting from the judgment of the Court shall state in writing the decision or order which he thinks should be passed on the appeal, and he may state his reasons for the same.

577. The judgment may be for confirming, or for varying or reversing the decree of the Court against which the appeal is made, or, if the parties to the appeal agree as to the form which the decree in appeal shall take, or as to the order to be passed in appeal, the Appellate Court may pass a decree or order accordingly.

578. No decree shall be reversed or substantially varied, nor shall any case be remanded in appeal, on account of any error, defect or irregularity, whether in the decision or in any order passed in the suit, or otherwise, not affecting the merits of the case or the jurisdiction of the Court.

Of the Decree in Appeal.

579. The decree of the Appellate Court shall bear date the day on which the judgment was pronounced.

Contents of decree.

The decree shall contain the number of the appeal, and the memorandum of appeal, including the names and description of the appellant and respondent, and shall specify clearly the relief granted or other determination of the appeal.

The decree shall also state the amount of costs incurred in the appeal, and by what parties and in what proportions such costs and the costs in the suit are to be paid.

The decree shall be signed and dated by the Judge or Judges who passed it :

Provided that where there are more Judges than one, if there be a difference of opinion among them, it shall not be necessary for any Judge dissenting from the judgment of the Court to sign the decree.

Judge dissenting from judgment need not sign decree.

580. Certified copies of the judgment and decree in appeal shall be furnished to the parties on application to the Court and at their expense.

Copies of judgment and decree to be furnished to parties.

581. A copy of the judgment and of the decree, certified by the Appellate Court or such officer as it appoints in this behalf, shall be sent to the Court which passed the decree appealed against, and shall be filed with the original proceedings in the suit, and an entry of the judgment of the Appellate Court shall be made in the register of civil suits.

Certified copy of decree to be sent to Court whose decree is appealed against.

582. The Appellate Court shall have the same powers in appeals under this chapter as are vested by this Code in Courts of original jurisdiction in respect of suits instituted under chapter V.

Appellate Court to have same powers as Courts of original jurisdiction.

The provisions hereinbefore contained shall apply to appeals under this chapter so far as such provisions are applicable.

583. When a party entitled to any benefit (by way of restitution or otherwise) under a decree passed in an appeal under this chapter desires to obtain execution of the same, he shall apply to the Court which passed the decree against which the appeal was preferred; and such Court shall proceed to execute the decree passed in appeal, according to the rules hereinbefore prescribed for the execution of decrees in suits.

Execution of decree of Appellate Court.

CHAPTER XLII.

OF APPEALS FROM APPELLATE DECREES.

584. Unless when otherwise provided in this Code or by any other law, from all decrees passed in appeal by any Court subordinate to a High Court, an appeal shall lie to the

Second appeals to High Court.

High Court on any of the following grounds, (namely)—

(a) the decision being contrary to some specified law or usage having the force of law;

Grounds of second appeal.

(b) the decision having failed to determine some material issue of law or usage having the force of law;

(c) a substantial error or defect in the procedure as prescribed by this Code or any other law, which may have produced error or defect in the decision of the case upon the merits.

585. No second appeal shall lie except on the grounds mentioned in section 584.

Second appeal only on grounds mentioned in section 584.

586. No second appeal shall lie in any suit of the nature cognizable in Courts of Small Causes, when the amount or value of the subject-matter of the original suit does not exceed five hundred rupees.

No second appeal in certain suits.

587. The provisions contained in chapter XLI shall apply as far as may be to appeals under this chapter, and to the execution of decrees passed in such appeals.

Provisions as to second appeals.

CHAPTER XLIII.

OF APPEALS FROM ORDERS.

588. An appeal shall lie from the following orders under this Code and from no other such orders :—

Orders appealable.

- (a) orders under section 20, staying proceedings in a suit,
- (b) orders under section 32, striking out or adding the name of any person as plaintiff or defendant,
- (c) orders under section 44, adding a cause of action,
- (d) orders under section 47, excluding a cause of action,
- (e) orders rejecting or returning plaints under section 53, clause (d), or section 54, clauses (b) and (d), or section 57, clauses (b) and (c),
- (f) orders rejecting applications under section 102 (in cases open to appeal) for an order to set aside the dismissal of a suit,
- (g) orders under section 120 where a party fails to appear in person,
- (h) orders under section 168 for attachment of property,
- (i) orders under section 176 where a party refuses to give evidence or produce a document called for by the Court,
- (j) orders under section 244, as to questions relating to the execution of decrees, of the same nature with appealable orders made in the course of a suit,

- (k) orders under section 258 compelling decree-holders to certify,
- (l) orders under section 261 as to objections to draft-conveyances or draft-endorsements,
- (m) orders under section 312 for confirming or setting aside a sale,
- (n) orders in insolvency matters under section 351, 352, 353 or 357,
- (o) orders rejecting applications under section 370 for dismissal of the suit,
- (p) orders disallowing objections under section 372,
- (q) orders as to interpleader-suits under section 473, 475 or 476,
- (r) orders under section 479, 480, 481, 485, 492, 493, 496, 503,
- (s) orders under section 514 superseding an arbitration,
- (t) orders under section 518 modifying an award,
- (u) orders under any of the provisions of this Code, imposing fines, or for the imprisonment of any person, except when such imprisonment is in execution of a decree,
- (v) refusals under section 558 to re-admit, or under section 560 to re-hear, an appeal,
- (w) orders under section 562 remanding a case.

The orders passed in appeals under this section shall be final.

589. An appeal from any order specified in section 588, clause (u), shall lie to the High Court.

When an appeal from any other order is allowed by this chapter, it shall lie to the Court to which an appeal would lie from the decree in the suit in relation to which such order was made or, when such order is passed by a Court (not being a High Court) in the exercise of appellate jurisdiction, then to the High Court.

590. The procedure prescribed in chapter XLI shall, so far as may be, apply to appeals from orders under this Code, or under any special or local law in which a different procedure is not provided.

591. Except as provided in this chapter, no appeal shall lie from any order passed by any Court on the exercise of its original or appellate jurisdiction; but if any decree be appealed against, any error, defect or irregularity in any such order, affecting the decision of the case, may be set forth as a ground of objection in the memorandum of appeal.

CHAPTER XLIV.

OF PAUPER APPEALS.

592. Any person entitled under this Code or any other law to prefer an appeal, who is unable to pay the fee required for the petition of appeal, may, on presenting an application

accompanied by a memorandum of appeal, be allowed to appeal as a pauper, subject to the rules contained in chapters XXVI, XLI, XLII and XLIII, in so far as those rules are applicable:

Provided that the Court shall reject the application unless upon a perusal thereof and of the judgment and decree against which the appeal is made, it seems reason to think that the decree appealed against is contrary to law or to some usage having the force of law, or is otherwise erroneous or unjust.

593. The inquiry into the pauperism of the applicant may be made either by the Appellate Court or by the Court against whose decision the appeal is made under the orders of the Appellate Court:

Provided that, if the applicant was allowed to sue or appeal as a pauper in the Court against whose decree the appeal is made, no further enquiry in respect of his pauperism shall be necessary, unless the Appellate Court sees special cause to direct such enquiry.

CHAPTER XLV.

OF APPEALS TO THE QUEEN IN COUNCIL.

594. In this chapter, unless there be something repugnant in the subject or context, the expression 'decree' defined. 'decree' includes also judgment and order.

595. Subject to such rules as may, from time to time, be made by Her Majesty in Council regarding appeals from the Courts of British India, and to the provisions hereinafter contained—

an appeal shall lie to Her Majesty in Council

(a) from any final decree passed on appeal by a High Court or other Court of final appellate jurisdiction,

(b) from any final decree passed by a High Court in the exercise of original civil jurisdiction, and

(c) from any decree, when the case, as hereinafter provided, is certified to be a fit one for appeal to Her Majesty in Council.

596. In each of the cases mentioned in clauses (a) and (b) of section 595,

the amount or value of the subject-matter of the suit in the Court of first instance must be ten thousand rupees or upwards, and the amount or value of the matter in dispute on appeal to Her Majesty in Council must be the same sum or upwards,

or the decree must involve, directly or indirectly, some claim or question to, or respecting, property of like amount or value,

and where the decree appealed from affirms the decision of the Court immediately below the Court passing such decree, the appeal must involve some substantial question of law.

597. Notwithstanding anything contained in Bar of certain appeals. section 595,

no appeal shall lie to Her Majesty in Council from the judgment of one Judge of a High Court established under the twenty-fourth and twenty-fifth of Victoria, chapter 104, or of one Judge of a Division Court, or of two or more Judges of such High Court, or of a Division Court constituted by two or more Judges of such High Court, wherever such Judges are equally divided in opinion, and do not amount in number to a majority of the whole of the Judges of the High Court at the time being;

and no appeal shall lie to Her Majesty in Council from any decree which, under section 586, is final.

598. Whoever desires to appeal under this Application to Court chapter to Her Majesty in Council whose decree is complained of. must apply by petition to the Court whose decree is complained of.

599. Such application must ordinarily be Time within which made within six months application must be from the date of such decree.

But if that period expires when the Court is closed, the application may be made on the day that the Court re-opens.

600. Every petition under section 598 must Certificate as to value state the grounds of appeal, and pray for a certificate, either that, as regards amount or value and nature, the case fulfils the requirements of section 596, or that it is otherwise a fit one for appeal to Her Majesty in Council.

Upon receipt of such petition, the Court may direct notice to be served on the opposite party to show cause why the said certificate should not be granted.

601. If such certificate be refused, the petition shall be dismissed: Effect of refusal of certificate.

Provided that, if the decree complained of be a final decree passed by a Court other than a High Court, the order refusing the certificate shall be appealable, within thirty days from the date of the order, to the High Court to which the former Court is subordinate.

602. If the certificate be granted, the applicant Security and deposit shall, within six months required on grant of certificate. from the date of the decree complained of, or within six weeks from the grant of the certificate, whichever is the later date,

(a) give security for the costs of the respondent, and

(b) deposit the amount required to defray the expense of translating, transcribing, indexing and transmitting to Her Majesty in Council a correct copy of the whole record of the suit, except

(1) formal documents directed to be excluded by any order of Her Majesty in Council in force for the time being;

(2) papers which the parties agree to exclude;

(3) accounts, or portions of accounts, which the officer empowered by the Court for that purpose considers unnecessary, and which

the parties have not specifically asked to be included, and

(4) such other documents as the High Court may direct to be excluded:

and when the applicant prefers to print in India the copy of the record, except as aforesaid, he shall also, within the time mentioned in the first clause of this section, deposit the amount required to defray the expense of printing such copy.

603. When such security has been completed and deposit made to the satisfaction of the Court, the Court may Admission of appeal and procedure thereon.

(a) declare the appeal admitted, and

(b) give notice thereof to the respondent, and shall then

(c) transmit to Her Majesty in Council, under the seal of the Court, a correct copy of the said record, except as aforesaid, and

(d) give to either party one or more authenticated copies of any of the papers in the suit on his applying therefor and paying the reasonable expenses incurred in preparing them.

604. At any time before the admission of the appeal, the Court may, upon Revocation of acceptance of security. cause shown, revoke the acceptance of any such security, and make further directions thereon.

605. If at any time after the admission of the appeal, but before the transmission of the copy of the record, except as aforesaid, to Her Majesty in Council, such security appears inadequate, Power to order further security or payment.

or further payment is required for the purpose of translating, transcribing, printing, indexing or transmitting the copy of the record, except as aforesaid,

the Court may order the appellant to furnish, within a time to be fixed by the Court, other and sufficient security, or to make, within like time, the required payment.

606. If the appellant fail to comply with such Effect of failure to comply with order. order, the proceedings shall be stayed,

and the appeal shall not proceed without an order in this behalf of Her Majesty in Council, and in the meantime execution of the decree appealed against shall not be stayed.

607. When the copy of the record, except as aforesaid, has been transmitted to Her Majesty in Council, the appellant may obtain a refund of the balance, if any, of the amount which he has deposited under section 602. Refund of balance of deposit.

608. Notwithstanding the admission of any appeal under this chapter, the decree appealed against shall be unconditionally enforced, unless the Court admitting the appeal otherwise directs. Powers of Court pending appeal.

But the Court may, if it think fit, on any special cause shown by any party interested in the suit, or otherwise appearing to the Court—

(a) impound any moveable property in dispute or any part thereof, or

(b) allow the decree appealed against to be enforced, taking such security from the respondent as the Court thinks fit for the due performance of any order which Her Majesty in Council may make on the appeal, or

(c) stay the execution of the decree appealed against, taking such security from the appellant as the Court thinks fit for the due performance of the decree appealed against, or of any order which Her Majesty in Council may make on the appeal, or

(d) place any party seeking the assistance of the Court under such conditions, or give such other direction respecting the subject-matter of the appeal as it thinks fit.

609. If at any time during the pendency of the appeal, the security so furnished by either party appears inadequate, the Court may, on the application of the other party, require further security.

In default of such further security being furnished as required by the Court, if the original security was furnished by the appellant, the Court may, on the application of the respondent, issue execution of the decree appealed against as if the appellant had furnished no such security.

And if the original security was furnished by the respondent, the Court shall, so far as may be practicable, stay all further execution of the decree, and restore the parties to the position in which they respectively were when the security which appears inadequate was furnished, or give such other direction respecting the subject-matter of the appeal as it thinks fit.

610. Whoever desires to enforce or to obtain execution of any order of Her Majesty in Council shall apply by petition, accompanied by a certified copy of the decree or order made in appeal and sought to be enforced or executed, to the Court from which the appeal to Her Majesty was preferred.

Such Court shall transmit the order of Her Majesty to the Court which made the first decree appealed from, or to such other Court as Her Majesty by her said order may direct, and shall (upon the application of either party) give such directions as may be required for the enforcement or execution of the same; and the Court to which the said order is so transmitted shall enforce or execute it accordingly, in the manner and according to the rules applicable to the execution of its original decrees.

When any monies expressed to be payable in British currency are payable in India under such order, the amount so payable shall be estimated according to the rate of exchange for the time being fixed by the Secretary of State for India in Council, with the concurrence of the Lords Commissioners of Her Majesty's Treasury, for the adjustment of financial transactions between the Imperial and the Indian Governments.

611. The orders made by the Court which enforce or execute the order of Her Majesty in Council relating to such enforcement, or execution, shall be appealable in the same manner and subject to the same rules as the orders of such Court relating to the enforcement or execution of its own decrees.

612. The High Court may, from time to time, make rules consistent with this Act to regulate—

(a) the service of notices under section 600, (b) the grant or refusal of certificates under sections 601 and 602, Courts of final appellate jurisdiction subordinate to the High Court,

(c) the amount and nature of the security required under sections 602, 605 and 609,

(d) the testing of such security,

(e) the estimate of the cost of transcribing the record,

(f) the preparation, examination and certifying of such transcript,

(g) the revision and authentication of translations,

(h) the preparation of indices to transcripts of records, and of lists of the papers not included therein,

(i) the recovery of costs incurred in British India in connection with appeals to Her Majesty in Council,

and all other matters connected with the enforcement of this chapter.

All such rules shall be published in the local official Gazette, and shall thereupon have the force of law in the High Court and the Courts of final appellate jurisdiction subordinate thereto.

613. All rules heretofore made and published by any High Court relating to appeal to Her Majesty in Council and in force immediately before the passing of this Act, shall, so far as they are consistent with this Act, be deemed to have been made and published hereunder.

614. In sections 595 and 612, the expression 'High Court' shall be deemed to include also the Recorder of Rangoon, but not so as to empower him to make rules binding on Courts other than his own Court.

615. The rules and restrictions referred to in Bengal Regulation III of 1828, section IV, clause 5, shall be deemed to be the rules and restrictions applicable to appeals under this Code from the decisions of the High Court of Judicature at Fort William in Bengal.

616. Nothing herein contained shall be understood—

(a) to bar the full and unqualified exercise of Her Majesty's pleasure in receiving or rejecting appeals to Her Majesty in Council, or otherwise howsoever, or

(b) to interfere with any rules made by the and of rules for conduct of business before Judicial Committee. . . time being in force, for the presentation of appeals to Her Majesty in Council, or their conduct before the said Judicial Committee.

And nothing in this chapter applies to any matter of criminal or admiralty or vice-admiralty jurisdiction, nor to appeals from orders and decrees of Prize Courts.

PART VII.

CHAPTER XLVI.

OF REFERENCE TO AND REVISION BY THE HIGH COURT.

617. If before or on the hearing of a suit or appeal in which the decree is final, or if in the execution of any such decree, any question of law or usage having the force of law, or the construction of a document which construction may affect the merits, arises, on which the Court trying the suit or appeal or executing the decree entertains reasonable doubt, the Court may, either of its own motion or on the application of any of the parties, draw up a statement of the facts of the case and the point on which doubt is entertained, and refer such statement with its own opinion on the point for the decision of the High Court.

618. The Court may either stay the proceedings or proceed in the case, notwithstanding such reference, and may pass a decree or order contingent upon the opinion of the High Court on the point referred ;

but no execution shall be issued, property sold, or person imprisoned in any case in which such reference is made until the receipt of a copy of the judgment of the High Court upon such reference.

619. The High Court shall hear the parties to the case in which the reference is made, in person or by their respective pleaders, and shall decide the point so referred, and shall transmit a copy of its judgment under the signature of the Registrar, to the Court by which the reference was made, and such Court shall, on the receipt thereof, proceed to dispose of the case in conformity with the decision of the High Court.

620. Costs, if any, consequent on a reference for the opinion of the High Court, shall be costs in the case.

621. When a case is referred to the High Court under this chapter, the High Court may return the case for amendment, and may alter, cancel or set aside any decree or order which

the Court making the reference has passed in the case out of which the reference arose, and make such order as it thinks fit.

622. The High Court may call for the record of any case in which no appeal lies to the High Court, if the Court by which the case was decided appears to have exercised a jurisdiction not vested in it by law, or to have failed to exercise a jurisdiction so vested, and may pass such order in the case as the High Court thinks fit.

PART VIII.

CHAPTER XLVII.

OF REVIEW OF JUDGMENT.

623. Any person considering himself aggrieved —

(a) by a decree or order from which an appeal is hereby allowed, but from which no appeal has been preferred ;

(b) by a decree or order from which no appeal is hereby allowed ; or

(c) by a judgment on a reference from a Court of Small Causes ;

and who from the discovery of new and important matter or evidence which, after the exercise of due diligence, was not within his knowledge or could not be produced by him at the time when the decree was passed or order made, or on account of some mistake or error apparent on the face of the record, or for any other sufficient reason, desires to obtain a review of the decree passed or order made against him,

may apply for a review of judgment to the Court which passed the decree or made the order or to the Court, if any, to which the business of the former Court has been transferred.

A party who is not appealing from a decree may apply for a review of judgment notwithstanding the pendency of an appeal by some other party, except when the ground of such appeal is common to the applicant and the appellant, or when being a respondent, he can present to the Appellate Court the case on which he applies for the review.

624. Except upon the ground of the discovery of such new and important matter or evidence as aforesaid, or of some clerical error apparent on the face of the decree, no application for a review of judgment, other than that of a High Court, shall be made to any Judge other than the Judge who delivered it.

625. The rules hereinbefore contained as to the form of making appeals shall apply, *mutatis mutandis*, to applications for review.

626. If it appears to the Court that there is not sufficient ground for a review, it shall reject the application.

If the Court be of opinion that the application for the review should be granted, it shall grant the same, and the Judge shall record with his own hand his reasons for such opinion:

Proviso.

Provided that—

(a) no such application shall be granted without previous notice to the opposite party to enable him to appear and be heard in support of the decree a review of which is applied for; and

(b) no such application shall be granted on the ground of discovery of new matter, or evidence which the applicant alleges was not within his knowledge, or could not be adduced by him when the decree or order was passed, without strict proof of such allegation.

627. If the Judge or Judges, or any one of the Judges, who passed the decree or order, a review of which is applied for, continues or continue attached to the Court at the time when the application for a review is presented and is not or are not precluded by absence or other cause, for a period of six months next after the application, from considering the decree or order to which the application refers, such Judge or Judges or any of them shall hear the application, and no other Judge or Judges of the Court shall hear the same.

628. If the application for a review be heard by more than one Judge and the Court be equally divided, the application shall be rejected.

If there be a majority the decision shall be according to the opinion of the majority.

629. An order of the Court for rejecting the application shall be final, but whenever such application is admitted, the admission may be objected to on the ground that it was

(a) in contravention of the provisions of section 624,

(b) in contravention of the provisions of section 626, or

(c) after the expiration of the period of limitation prescribed therefor and without sufficient cause.

Such objection may be made at once by an appeal against the order granting the application, or may be taken in any appeal against the final decree or order made in the suit.

Where the application has been rejected in consequence of the failure of the applicant to appear, he may apply for an order to have the rejected application restored to the file, and if it be proved to the satisfaction of the Court that he was prevented by any sufficient cause from appearing when such application was called on for hearing, the Court may order it to be restored to the file upon such terms as to costs or otherwise as it thinks fit, and shall appoint a day for hearing the same.

No order shall be made under this section unless the applicant has served the opposite party with notice in writing of the latter application.

No application to review an order passed on review or on an application for a review shall be entertained.

630. When an application for a review is granted, a note thereof shall be made in the register and the Court may at once re-hear the case or make such order in regard to the re-hearing as it thinks fit.

PART IX.

CHAPTER XLVIII.

SPECIAL RULES RELATING TO THE CHARTERED HIGH COURTS.

631. This chapter applies only to High Courts which are or may hereafter be established under the twenty-fourth and twenty-fifth of Victoria, chapter 104 (*An Act for establishing High Courts of Judicature in India*).

632. Except as provided in this Chapter the provisions of this Code apply to such High Courts.

633. The High Court shall take evidence, and record judgments and orders in such manner as it by rule from time to time directs.

634. Whenever a High Court considers it necessary that a decree made in the exercise of its ordinary original civil jurisdiction should be enforced before the amount of the costs incurred in the suit can be ascertained by taxation, the Court may order that the decree shall be executed forthwith, except as to so much thereof as relates to the costs;

and, as to so much thereof as relates to the costs, that the decree may be executed as soon as the amount of the costs shall be ascertained by taxation.

635. Nothing in this Code shall be deemed to authorize any person on behalf of another to address the Court in the exercise of its ordinary original civil jurisdiction or to examine witnesses, except when the Court shall have in the exercise of the power conferred by its charter authorized him so to do, or to interfere with the power of the High Court to make rules concerning advocates, vakils and attorneys.

636. Notices to produce documents, summonses to witnesses, and every other judicial process, issued in the exercise of the ordinary or extraordinary original civil jurisdiction of the High Court, and of its matrimonial, testamentary and intestate jurisdictions, except summonses to defendants issued under section 65, writs of execution, and notices under section 553, may be served by the attorneys in the suit, or by persons employed by them, or by such other persons as the High Court by any rule or order from time to time directs.

637. Any non-judicial or quasi-judicial act which

Non-judicial acts may be done by Registrar. this Code requires to be done by a Judge, and any act which may be done by a

Commissioner appointed to examine and adjust accounts under section 394, may be done by the Registrar of the Court or by such other officer of the Court as the Court may direct to do such act.

The High Court may from time to time by rule declare what shall be deemed to be non-judicial and quasi-judicial acts within the meaning of this section.

638. The following portions of this Code shall

Sections not applying to High Court in original civil jurisdiction. not apply to the High Court in the exercise of its ordinary or extraordinary original civil jurisdiction, namely, sections 16 and 17, sections 54, clauses (a) and (b), 57, 119, 160, 182 to 185 (both inclusive), 187, 189, 190, 191, 192 (so far as relates to the manner of taking evidence), 198 to 206 (both inclusive), 261, and so much of section 409 as relates to the making of a memorandum,

and section 579 shall not apply to the High Court in the exercise of its appellate jurisdiction.

Code not to affect High Court in exercise of insolvent jurisdiction. Nothing in this Code shall extend or apply to any High Court in the exercise of its jurisdiction as an Insolvent Court.

639. The High Court may from time to time

Power to frame forms. frame forms for any proceeding in such Court, and may make rules as to the books, entries and accounts to be kept by its officers.

PART X.**CHAPTER XLIX.****MISCELLANEOUS.****640. Women, who according to the customs**

Exemption of certain women from personal appearance. and manners of the country ought not to be compelled to appear in public, shall be exempt from personal appearance in court.

But nothing herein contained shall be deemed to exempt such women from arrest in execution of civil process.

641. The Local Government may, by notification

Local Government may exempt certain persons from personal appearance. in the official Gazette, exempt from personal appearance in court any person whose rank, in the opinion of such Government, entitles him to the privilege of exemption, and may, by like notification, withdraw such privilege.

The names and residences of the persons so exempted shall from time to time be forwarded to the

List of names of persons exempted to be kept in subordinate Court. High Court by the Local Government, and a list of such persons shall be kept in

such Court, and a list of such persons as reside within the local limits of the jurisdiction of each Court, subordinate to the High Court, shall be kept in such subordinate Court.

When any person so exempted claims the

Costs of commission rendered necessary by claiming privilege. privilege of such exemption, and it is consequently necessary to examine him by commission, he shall pay the costs of that commission, unless the party requiring his evidence pays such costs.

642. No Judge, Magistrate or other judicial

Persons exempt from arrest. officer shall be liable to arrest under this Code while going to, presiding in, or returning from his Court.

And, except as hereinafter provided, the parties to a suit and their pleaders and recognized agents shall be exempt from arrest under this Code while going to or attending a Civil Court for the purpose of such suit and while returning from such Court. Witnesses acting in obedience to a summons shall be similarly exempt.

643. When in a case pending before any

Procedure in case of certain offences. Court, there appears to the Court sufficient ground for sending for investigation to the Magistrate a charge of any such offence as is described in section 193, 196, 199, 200, 205, 206, 207, 208, 209, 210, 453, 471, 474, 475, 476 or 477 of the Indian Penal Code, which may be made in the course of any other suit or proceeding or with respect to any document offered in evidence in the case, the Court may cause the person accused to be detained till the rising of the Court, and may then send him in custody to the Magistrate, or take sufficient bail for his appearance before the Magistrate.

The Court shall send to the Magistrate the evidence and documents relevant to the charge, and may bind over any person to appear and give evidence before such Magistrate.

The Magistrate shall receive such charge and proceed with it according to law.

644. Subject to the power conferred on the

Use of forms in fourth schedule. High Court by section 639 and by the twenty-fourth and twenty-fifth of Victoria, chapter 104, section 15, the forms set forth in the fourth schedule hereto annexed, with such variation as the circumstances of each case require, shall be used for the respective purposes therein mentioned.

645. The language which, when this Code

Language of subordinate Courts. comes into force, is the language of any Court subordinate to a High Court, shall continue to be the language of such subordinate Court until the Local Government otherwise orders ;

but it shall be lawful for the Local Government from time to time to declare what language shall be the language of every such Court.

646. Whenever the Registrar of a Court of

Power of Registrar of Small Cause Courts to state cases. Small Causes has any doubt upon any question of law or usage having the force of law, or as to the construction of a document which construction may

affect the merits of the decision, he may state a case for the opinion of the Judge; and all the provisions herein contained relative to the stating of a case by the Judge shall apply, *mutatis mutandis*, to the stating of a case by the Registrar.

647. The procedure herein prescribed shall be followed, as far as it can be made applicable, in all proceedings in any Court of civil jurisdiction other than suits and appeals.

The High Court may from time to time make rules to provide for the admission, in such proceedings, of affidavits as evidence of the matters to which such affidavits respectively relate; and such rules, on being published in the local official Gazette, shall have the force of law.

648. If any person to be arrested or any property to be attached under this Code, resides or is situate outside the District within which the Court issuing the warrant of arrest or making the order of attachment is situate, such Court shall send to the District Court within the local limits of whose jurisdiction such person or property resides or is situate, a copy of the warrant or order, together with the probable amount of the costs of the arrest or attachment.

The District Court shall, on receipt of such copy and amount, cause the arrest or attachment to be made by its own officers or by a Court subordinate to itself, and shall inform the Court which issued or made such warrant or order of the arrest or attachment,

and the Court making any arrest under this section shall send the person arrested to the Court by which the warrant of arrest was issued.

649. The rules contained in chapter XIX shall apply to the execution of any judicial process for the arrest of a person or the sale of property or payment of money, which may be desired or ordered by a Civil Court in any civil proceeding.

650. The provisions of chapters XIV and XV relating to witnesses shall apply to all persons required to give evidence, or to produce documents in any proceeding under this Code.

651. Whoever offers any resistance or illegal obstruction to the lawful apprehension of himself under this Code, or under the warrant of any Court of Civil Judicature, or escapes or attempts to escape from any custody in which he is lawfully detained under this Code or under such warrant, shall, on conviction before a Magistrate, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

652. The High Court may from time to time make rules consistent with this Code to regulate any matter connected with the procedure of the Courts of Civil Judicature subject to its superintendence. All such rules shall be published in the local official Gazette, and shall thereupon have the force of law.

THE FOURTH SCHEDULE.

(See section 644.)

FORMS OF PLEADINGS AND DECREES.

A.—PART I. PLAINTS.

No. 1.

FOR MONEY LENT.

IN THE COURT OF AT

Civil Suit No.

A. B. of

against

C. D. of

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18, at , he lent the defendant rupees repayable on demand [or on the day of].
2. That the defendant has not paid the same, except rupees paid on the day of 18.

[If the plaintiff claims exemption from any law of limitation, say:—

3. The plaintiff was a minor [or insane] from the day of till the day of].
4. The plaintiff prays judgment for rupees, with interest at per cent. from the day of 18.

[NOTE.—The object of stating when the debt is to be repaid is merely to fix a date for interest. If, therefore, interest is not claimed, the statement may be omitted.]

No. 2.

FOR MONEY RECEIVED TO PLAINTIFF'S USE.

(Title.)

A. B., and G. H., the above-named plaintiffs, state as follows:—

1. That on the day of 18, at , the defendant received rupees [or a cheque on the Bank for Rs.] from one E. F. for the use of the plaintiffs.
2. That the defendant has not paid [or delivered] the same accordingly.
3. The plaintiffs pray judgment for rupees, with interest at per cent. from the day of 18.

No. 3.

FOR PRICE OF GOODS SOLD BY A FACTOR.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18, at , he and E. F., since deceased, delivered to the defendant [one thousand barrels of flour, five hundred maunds of rice, or as the case may be] for sale upon commission.
2. That on the day of 18 [or, on some day unknown to the plaintiff, before the day of 18], the defendant sold the said merchandise for rupees.
3. That the commission and expenses of the defendant thereon, amount to rupees.
4. That on the day of 18, the plaintiff demanded from the defendant the proceeds of the said merchandise.
5. That he has not paid the same.

[Demand of judgment.]

No. 4.

FOR MONEY RECEIVED BY DEFENDANT THROUGH THE PLAINTIFF'S MISTAKE OF FACT.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff agreed to buy and the defendant agreed to sell bars of silver at annas per tola of fine silver.
2. That the plaintiff procured the said bars to be assayed by one *E. F.*, who was paid by the defendant for such assay, and that the said *E. F.* declared each of the said bars to contain 1,500 tolas of fine silver, and that the plaintiff accordingly paid the defendant Rs. annas therefor.
3. That each of the said bars did contain only 1,200 tolas of fine silver.
4. That the defendant has not repaid the sum so overpaid.

[*Demand of judgment.*]

[NOTE.—A demand of repayment is not necessary, but it may affect the question of interest or the costs.]

No. 5.

FOR MONEY PAID TO A THIRD PARTY AT THE DEFENDANT'S REQUEST.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , at the request [or by the authority] of the defendant, the plaintiff paid to one *E. F.* rupees.
2. That, in consideration thereof, the defendant promised [or became bound] to pay the same to the plaintiff on demand [or as the case may be.]
3. That [on the day of 18 , the plaintiff demanded payment of the same from the defendant, but] he has not paid the same.

[*Demand of judgment.*]

[NOTE.—If the request or authority is implied, the plaint should state facts raising the implication.]

No. 6.

FOR GOODS SOLD AT A FIXED PRICE AND DELIVERED.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , *E. F.* of deceased sold and delivered to the defendant [one hundred barrels of flour, or, the goods mentioned in the schedule hereto annexed, or, sundry goods].
2. That the defendant promised to pay rupees for the said goods on delivery [or on the day of some day before the plaint was filed].
3. That he has not paid the same.
4. That the said *E. F.* in his lifetime made his will, whereby he appointed the plaintiff executor thereof.
5. That on the day of 187 the said *E. F.* died.
6. That on the day of probate of the said will was granted to the plaintiff by the Court of .
7. The plaintiff as executor as aforesaid [*Demand of judgment.*]

[NOTE.—If a day was fixed for payment it should be stated as furnishing a date for the commencement of interest.]

No. 7.

GOODS SOLD AT A REASONABLE PRICE AND DELIVERED.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , plaintiff sold and delivered to the defendant [sundry articles of house furniture] but no express agreement was made as to the price.
2. That the same were reasonably worth rupees.
3. That the defendant has not paid the same.

[*Demand of judgment.*]

[NOTE.—The law implies a promise to pay so much as the goods are reasonably worth.]

No. 8.

FOR GOODS DELIVERED TO A THIRD PARTY AT DEFENDANT'S REQUEST AT A FIXED PRICE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , plaintiff sold to the defendant [*one hundred barrels of flour*] and, at the request of the defendant, delivered the same to one *E. F.*
2. That the defendant promised to pay to the plaintiff rupees therefor.
3. That he has not paid the same.

[Demand of judgment.]

No. 9.

FOR NECESSARIES FURNISHED TO THE FAMILY OF DEFENDANT'S TESTATOR WITHOUT HIS EXPRESS REQUEST, AT A REASONABLE PRICE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , plaintiff furnished to [*Mary Jones*] the wife of *James Jones* deceased, at her request, sundry articles of [*food and clothing*], but no express agreement was made as to the price.
2. That the same were necessary for her.
3. That the same were reasonably worth rupees.
4. That the said *James Jones* refused to pay the same.
5. That the defendant is the executor of the last will of the said *James Jones*.

[Demand of judgment.]

No. 10.

FOR GOODS SOLD AT A FIXED PRICE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff sold to *E. F.* of deceased [*all the crops then growing on his farm in*].
2. That the said *E. F.* promised to pay the plaintiff rupees for the same.
3. That he did not pay the same.
4. That the defendant is administrator of the estate of the said *E. F.*

[Demand of judgment.]

No. 11.

FOR GOODS SOLD AT A REASONABLE PRICE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , *E. F.* of sold to the defendant [*all the fruit growing in his orchard in*], but no express agreement was made as to the price.
2. That the same was reasonably worth rupees.
3. That the defendant has not paid the same.
4. That on the day of the High Court of Judicature at Fort William duly adjudged the said *E. F.* to be a lunatic and appointed the plaintiff committee of his estate with the usual powers for the management thereof.
5. The plaintiff as committee as aforesaid [Demand of judgment.]

[NOTE.—When the lunatic's estate is not subject to the ordinary original jurisdiction of a High Court, for paragraphs 4 and 5 substitute the following:—]

4. That on the day of the Civil Court of duly adjudged the said *E. F.* to be of unsound mind and incapable of managing his affairs and appointed the plaintiff Manager of his estate.
5. The plaintiff as Manager as aforesaid [Demand of judgment.]

No. 12.

FOR GOODS MADE AT DEFENDANT'S REQUEST, AND NOT ACCEPTED.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , *E. F.* of agreed with the plaintiff that the plaintiff should make for him [*six tables and fifty chairs*], and that the said *E. F.* should pay for the same upon delivery thereof rupees.
2. That the plaintiff made the said goods, and on the day of 18 offered to deliver the same to the said *E. F.*, and has ever since been ready and willing so to do.
3. That the said *E. F.* has not accepted the said goods or paid for the same.
4. That on the day of the High Court of Judicature at Fort William duly adjudged the said *E. F.* to be a lunatic and appointed the defendant committee of his estate.
5. The plaintiff prays judgment for rupees with interest from the day of , at the rate of per cent. per annum, to be paid out of the estate of the said *E. F.* in the hands of the defendant.

No. 13.

FOR DEFICIENCY UPON A RE-SALE [GOODS SOLD AT AUCTION].

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , plaintiff put up at auction sundry [*articles of merchandise*], subject to the condition that all goods not paid for and removed by the purchaser thereof, within [*ten days*] after the sale, should be re-sold by auction on his account of which condition the defendant had notice.
2. That the defendant purchased [*one crate of crockery*] at the said auction at the price of rupees.
3. That the plaintiff was ready and willing to deliver the same to the defendant on the said day and for [*ten days*] thereafter, of which the defendant had notice.
4. That the defendant did not take away the said goods purchased by him, nor pay therefor, within [*ten days*] after the sale, nor afterwards.
5. That on the day of 18 , at , the plaintiff re-sold the said [*crate of crockery*], on account of the defendant, by public auction, for rupees.
6. That the expenses attendant upon such re-sale amounted to rupees.
7. That the defendant has not paid the deficiency thus arising, amounting to rupees.

[Demand of judgment.]

NOTE to § 4. Unless the seller agreed to deliver, the purchaser must fetch the goods. See Act IX of 1872, sec. 93.]

No. 14.

FOR THE PURCHASE-MONEY OF LANDS CONVEYED.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff sold [and conveyed] to the defendant [the house and compound No. , in the city of or, a farm known as , in or, a piece of land lying, &c.]
2. That the defendant promised to pay the plaintiff rupees for the said [house and compound, or farm, or land].
3. That he has not paid the same.

[Demand of judgment.]

NOTE.—Where there has been no actual conveyance, say, in § 1, "sold to the defendant the house, &c., and placed him in possession of the same."

No. 15.

1. That on the day of 18 , at , the defend-
ant by his bond became bound to the plaintiff in the sum of rupees to be paid by
the defendant to the plaintiff, subject to a condition that if the defendant should pay to the
plaintiff rupees half yearly on the day of and the day of
in every year during the life of the plaintiff, the said bond should be void.
2. That afterwards, on the day of 187 , the sum of rupees for
of the said half-yearly payments of the said annuity, became due to the plaintiff and is still
unpaid.

[Demand of judgment.]

No. 29.

PAYEE AGAINST MAKER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of , 18 , at , the defendant
by his promissory note now overdue, promised to pay to the plaintiff rupees
[days] after date.
2. That he has not paid the same [except rupees, paid on the day of
18].

[Demand of judgment.]

[NOTE.—Where the note is payable after notice, for paras. 1 and 2 substitute—]

1. That on the day of at the defendant by his promissory
note promised to pay to the plaintiff rupees months after notice.
2. That notice was afterwards given by the plaintiff to the defendant to pay the same
months after the said notice.
3. That the said time for payment has elapsed, but the defendant has not paid the same.

[Where the note is payable at a particular place, say—]

- 1.—That on the day of 187 at the defendant by his promis-
sory note now overdue promised to pay to the plaintiff [at Messrs. *A. and Co.*,
Madras] rupees months after date.
- 2.—That the said note was duly presented for payment [at Messrs. *A. and Co.*] aforesaid,
but has not been paid.

Written statement of the Defendant.

In the Court, &c.

C. D., the above-named defendant, states as follows:—

1. The defendant made the note sued upon under the following circumstances: The
plaintiff and defendant had for some years been in partnership as indigo manufacturers, and
it had been agreed between them that they should dissolve partnership, that the plaintiff
should retire from the business, that the defendant should take over the whole of the partner-
ship assets and liabilities and should pay the plaintiff the value of his share in the assets
after deducting the liabilities.

2. The plaintiff thereupon undertook to examine the partnership books and enquire into the state of the partnership assets and liabilities; and he did accordingly examine the said books and make the said enquiries, and he thereupon represented to the defendant that the assets of the firm exceeded Rs. 1,00,000 and that the liabilities of the firm were less than Rs. 30,000, whereas the fact was that the assets of the firm were less than Rs. 50,000 and the liabilities of the firm largely exceeded the assets.

3. The misrepresentations mentioned in the second para. of this statement induced the defendant to make the note now sued on, and there never was any other consideration for the making of such note.

No. 30.

FIRST INDORSEE AGAINST MAKER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant, by his promissory note, now overdue, promised to pay to the order of E. F. [or to E. F. or order] rupees [days after date].

2. That the said E. F. indorsed the same to the plaintiff.

3. That the defendant has not paid the same.

[Demand of judgment.]

No. 31.

SUBSEQUENT INDORSEE AGAINST MAKER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. [As in the preceding form.]

2. That the same was, by the indorsement of the said E. F. and of G. H. and I. J. [or and others] transferred to the plaintiff.

[Demand of judgment.]

No. 32.

FIRST INDORSEE AGAINST FIRST INDORSER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That E. F., on the day of 18 , at , by his promissory note, now overdue, promised to pay to the defendant or order rupees by his months after date.

2. That the defendant indorsed the same to the plaintiff.

3. That on the day of 18 the same was duly presented for payment, but was not paid.

[Or state facts excusing want of presentment.]

4. That the defendant had notice thereof.

5. That he has not paid the same.

[Demand of judgment.]

No. 33.

SUBSEQUENT INDORSEE AGAINST FIRST INDORSER; THE INDORSEMENT BEING SPECIAL.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the defendant indorsed to one E. F. a promissory note, now overdue, made [or purporting to have been made] by one G. H., on the day of 18 , at , to the order of the defendant, for the sum of rupees [payable days after date].

2. That the same was by the indorsement of the said E. F., [and others] transferred to the plaintiff. [Or, that the said E. F. indorsed the same to the plaintiff.]

3, 4 and 5. [Same as 3, 4 and 5 of the preceding form.]

[Demand of judgment.]

No. 34.

SUBSEQUENT INDORSEE AGAINST HIS IMMEDIATE INDORSEER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the defendant indorsed to him a promissory note, now overdue, made [or purporting to have been made] by one *E. F.*, on the day of 18 , at , to the order of one *G. H.*, for the sum of rupees [payable days after date], and indorsed by the said *G. H.* to the defendant.
- 2, 3 and 4. [As in No. 33.]

[Demand of judgment.]

No. 35.

SUBSEQUENT INDORSEE AGAINST INTERMEDIATE INDORSEER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That a promissory note, now overdue, made [or purporting to have been made] by one *E. F.*, on the day of 18 , at , to the order of one *G. H.*, for the sum of rupees [payable days after date], and indorsed by the said *G. H.* to the defendant, was by the indorsement of the defendant [and others] transferred to the plaintiff
- 2, 3 and 4. [As in No. 33.]

[Demand of judgment.]

No. 36.

SUBSEQUENT INDORSEE AGAINST MAKER, FIRST AND SECOND INDORSEER.

[*Demand of judgment.*]

No. 47.

PAYEE AGAINST DRAWER FOR NON-ACCEPTANCE OF A FOREIGN BILL.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant by his bill of exchange drawn in Calcutta, required one *E. F.* to pay to the plaintiff in [London] pounds sterling, [sixty days] after sight thereof.
2. That on the day of 18 , the same was presented to the said *E. F.* for acceptance, and was dishonoured, and was thereupon duly protested.
3. That the defendant had due notice thereof.
4. That he has not paid the same.

[5. That the value of pounds sterling, at the time of the service of notice of protest on the defendant, was rupees annas.]

Wherefore the plaintiff demands judgment against the defendant for rupees, with [ten per centum] compensation and interest from the day of 18 .

No. 48.

PAYEE AGAINST ACCEPTOR.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , one *E. F.* by his bill of exchange, now overdue, directed to the defendant, required the defendant to pay to the plaintiff rupees after date [or days after sight] thereof.
2. That on the day of 18 , the defendant accepted the said bill.
3. That he has not paid the same.

[*Demand of judgment.*]

No. 49.

ON A MARINE [OPEN] POLICY, ON VESSEL LOST BY PERILS OF THE SEA.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff was the owner of [or, had an interest in] the ship at the time of its loss, as hereafter mentioned.
2. That on the day of 18 , at , the defendants, in consideration of rupees to them paid [or, which the plaintiff then promised to pay], executed to him a policy of insurance upon the said ship, a copy of which is hereto annexed; [or, whereby they promised to pay to the plaintiff, within days after proof of loss and interest, all loss and damage accruing to him by reason of the destruction or injury of the said ship, during its next voyage from to , whether by perils of the sea or by fire, or by other causes therein mentioned, not exceeding rupees].
3. That the said vessel, while proceeding on the voyage mentioned in the said policy, was on the day of 18 , totally lost by the perils of the sea [or, otherwise].
4. That the plaintiff's loss thereby was rupees.
5. That on the day of 18 , he furnished the defendants with proof of his loss and interest, and otherwise duly performed all the conditions of the said policy on his part.
6. That the defendants have not paid the said loss.

[Demand of judgment.]

No. 50.

ON CARGO, LOST BY FIRE:—VALUED POLICY.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff was the owner of [or, had an interest in] [one hundred bales of cotton] on board the ship at the time of its loss as hereafter mentioned.
2. That on the day of 18 , at , the defendant, in consideration of rupees which the plaintiff then paid [or, promised to pay], executed to him a policy of insurance upon the said goods, a copy of which is hereto annexed; [or, whereby it promised to pay to the plaintiff rupees in case of the total loss, by fire or other causes mentioned, of the said goods before their landing at ; or, in case of partial loss, such damage as the plaintiff might sustain thereby, provided the same should exceed per centum of the whole value of the goods].
3. That on the day of 18 , at , while proceeding on the voyage mentioned in the said policy, the said goods were totally destroyed by fire.

4 and 5. [As in paragraphs 5 and 6 of the last preceding Form.]

Demand of judgment.]

No. 51.

ON FREIGHT:—VALUED POLICY.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff had an interest in the freight to be earned by the ship [] on her voyage from to , at the time of her loss as hereafter mentioned, and that a large quantity of goods was shipped upon freight in her at that time.
2. That on the day of 18 , at , the defendant in consideration of rupees to it paid, executed to the plaintiff a policy of insurance upon the said freight, a copy of which is hereto annexed [or state its tenor, as before].
3. That the said vessel, while proceeding upon the voyage mentioned in the said policy, was, on the day of 18 , totally lost by [the perils of the sea].
4. That the plaintiff has not received any freight from the said vessel, nor did she earn any on the said voyage, by reason of her loss as aforesaid.
- 5 and 6. [As in Form No. 50.]

[Demand of judgment.]

No. 52.

FOR A LOSS BY GENERAL AVERAGE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That plaintiff was the owner of [or, had an interest in] [one hundred bales of cotton] shipped on board a vessel called the Y. Z., from [] to [], at the time of the loss hereafter mentioned.
2. That on the [] day of [] 18 [], at [], in consideration of [] rupees [which the plaintiff then promised to pay], the defendant executed to the plaintiff a policy of insurance upon his said goods, a copy of which is hereto annexed [or state its tenor, as before.]
3. That on the [] day of [] 18 [], while proceeding on the voyage mentioned in the said policy, the said vessel was so endangered by perils of the sea, that the master and crew thereof were compelled to, and did, cast into the sea a large part of her rigging and furniture.
4. That the plaintiff was, by reason thereof, compelled to, and did, pay a general average loss of [] rupees.
5. That on the [] day of [] 18 [], he furnished the defendant with proof of his loss and interest, and otherwise duly performed all the conditions of the said policy on his part.
6. That the defendant has not paid the said loss.

[Demand of judgment.]

No. 53.

FOR A PARTICULAR AVERAGE LOSS.

(Title.)

A. B., the above named plaintiff, states as follows:—

- 1 and 2. [*As in the preceding Form.*]
3. That on the day of 18 , while on the high seas, the sea-
water broke into the said ship, and damaged the said [cotton] to the amount of rupees.
- 4 and 5. [*As in paragraphs 5 and 6 of the preceding Form.*]

[Demand of judgment.]

No. 54.

ON A FIRE INSURANCE POLICY.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff [was the owner of, or] had an interest in a [dwelling-house, known as No. , street, in the city of ,] at the time of its destruction [or, injury] by fire as hereinafter mentioned.
2. That on the day of 18 , at , in consideration of rupees [to it paid], the defendant executed to the plaintiff a policy of insurance on the said [premises], a copy of which is hereto annexed [or state its tenor].
3. That on the day of 18 , the said [dwelling-house] was totally destroyed [or, greatly damaged] by fire.
4. That the plaintiff's loss thereby was rupees.
5. That on the day of 18 , he furnished the defendant with proof of his said loss and interest, and otherwise duly performed all the conditions of the said policy on his part.
6. That the defendant has not paid the said loss.

[Demand of judgment.]

No. 55.

AGAINST SURETIES FOR PAYMENT OF RENT.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , one street, *E. F.* hired from the plaintiff, for the term of years, the [house No.], at the annual rent of rupees, payable [monthly].
2. That [at the same time and place] the defendant agreed, in consideration of the letting of the said premises to the said *E. F.*, to guarantee the punctual payment of the said rent.
3. That the rent aforesaid for the month of 18 , amounting to rupees, has not been paid.
[If, by the terms of the agreement, notice is required to be given to the surety, add:—]
4. That on the day of 19 , the plaintiff gave notice to the defendant of the non-payment of the said rent, and demanded payment thereof.
5. That he has not paid the same.

[Demand of judgment.]

B.—PLAINTS FOR COMPENSATION FOR BREACH OF CONTRACT.

No. 56.

FOR BREACH OF AGREEMENT TO CONVEY LAND.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff and defendant entered into an agreement, under their hands, of which a copy is hereto annexed.

[Or That on, &c., the defendant agreed with the plaintiff that, in consideration of a deposit of rupees then paid, and of the further sum of ten thousand rupees payable as hereafter mentioned, he would, on the day of 18 , at , execute to the plaintiff a sufficient conveyance of [the house No. street, in the city of free from all incumbrances; and the plaintiff agreed to pay ten thousand rupees for the same on delivery thereof.]

2. That on the day of 18 , the plaintiff demanded the conveyance of the said property from the defendant and tendered rupees to the defendant [or, that all conditions were fulfilled, and all things happened and all times elapsed necessary to entitle the plaintiff to have the said agreement performed by the defendant on his part.]

3. That the defendant has not executed any conveyance of the said property to the plaintiff [or that there is a mortgage upon the said property, made by to , for rupees, registered in the office of , on the day of 18 , and still unsatisfied, or any other defect of title].

4. That the plaintiff has thereby lost the use of the money paid by him as such deposit as aforesaid and of other moneys provided by him for the completion of the said purchase, and has lost the expenses incurred by him in investigating the title of the defendant and in preparing to perform the agreement on his part, and has incurred expense in endeavouring to procure the performance thereof by the defendant.

The plaintiff prays judgment for rupees compensation.

No. 57.

FOR BREACH OF AGREEMENT TO PURCHASE LAND.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff and defendant entered into an agreement, under their hands, of which a copy is hereto annexed.

[Or that on the day of 18 , at , the plaintiff and defendant mutually agreed that the plaintiff should sell to the defendant, and that the defendant should purchase from the plaintiff, forty bighás of land in the village of .

for rupees].

2. That on the day of 18 , at , the plaintiff being then the absolute owner of the said property [and the same being free from all incumbrances, as was made to appear to the defendant], tendered to the defendant a sufficient instrument of conveyance of the same [or, was ready and willing, and offered to convey the same to the defendant by a sufficient instrument,] on the payment by the defendant of the said sum.

3. That the defendant has not paid the same.

[Demand of judgment.]

No. 58.

Another Form.

FOR NOT COMPLETING A PURCHASE OF IMMOVEABLE PROPERTY.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That by an agreement dated the day of 187 , it was agreed by and between the plaintiff and the defendant that the plaintiff should sell to the defendant and the defendant should purchase from the plaintiff a house and land at the price of rupees, upon the terms and conditions following (that is to say)—

(a) That the defendant should pay the plaintiff a deposit of rupees in part of the said purchase-money on the signing of the said agreement, and the remainder on the day of 187 , on which day the said purchase should be completed.

(b) That the plaintiff should deduce and make a good title to the said premises on or before the day of 187 , and on payment of the said remainder of the said purchase-money as aforesaid should execute to the defendant a proper conveyance of the said premises, to be prepared at the defendant's expense.

2. That all conditions were fulfilled, and all things happened and all times elapsed necessary to entitle the plaintiff to have the said agreement performed by the defendant on his part, yet the defendant did not pay the plaintiff the remainder of the said purchase-money as aforesaid on his part.

3. That the plaintiff has thereby lost the expense which he incurred in preparing to perform the said agreement on his part, and has been put to expense in endeavouring to procure the performance thereof by the defendant.

[*Demand of judgment.*]

No. 59.

FOR NOT DELIVERING GOODS SOLD.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the plaintiff and defendant mutually agreed that the defendant should deliver [one hundred barrels of flour] to the plaintiff [on the day of 18 ,] and that the plaintiff should pay therefor rupees on delivery.

2. That on the [said] day, the plaintiff was ready and willing, and offered, to pay the defendant the said sum upon delivery of the said goods.

3. That the defendant has not delivered the same, whereby the plaintiff has been deprived of the profits which would have accrued to him from such delivery.

[*Demand of judgment.*]

No. 60.

FOR BREACH OF CONTRACT TO EMPLOY.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the plaintiff and defendant mutually agreed that the plaintiff should serve the defendant as [an accountant, or in the capacity of foreman, or as the case may be], and that the defendant should employ the plaintiff as such, for the term of [one year], and pay him for his services rupees [monthly].

2. That on the day of 18 , the plaintiff entered upon the service of the defendant as aforesaid, and has ever since been, and still is, ready and willing to continue in such service during the remainder of the said year, whereof the defendant always had notice.

3. That on the day of 18 , the defendant wrongfully discharged the plaintiff, and refused to permit him to serve as aforesaid, or to pay him for his services.

[*Demand of judgment.*]

No. 61.

FOR BREACH OF CONTRACT TO EMPLOY, WHERE THE EMPLOYMENT NEVER TOOK EFFECT.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. [*As in last preceding Form.*]
2. That on the day of 18 , at , the plaintiff offered to enter upon the service of the defendant, and has ever since been ready and willing so to do.
3. That the defendant refused to permit the plaintiff to enter upon such service, or to pay him for his services.

[*Demand of judgment.*]

No. 62.

FOR BREACH OF CONTRACT TO SERVE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the plaintiff and defendant mutually agreed that the plaintiff should employ the defendant at [an annual] compensation of rupees, and that the defendant should serve the plaintiff as [an artist] for the term of [one year].
2. That the plaintiff has always been ready and willing to perform his part of the said agreement [and on the day of 18 offered so to do].
3. That the defendant [entered upon the service of the plaintiff on the above-mentioned day, but afterwards, on the day of 18 , he] refused to serve the plaintiff as aforesaid.

[*Demand of judgment.*]

No. 63.

AGAINST A BUILDER FOR DEFECTIVE WORKMANSHIP.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the plaintiff and defendant entered into an agreement, of which a copy is hereto annexed :

[*Or state the tenor of the contract.*]

- [2. That the plaintiff duly performed all the conditions of the said agreement on his part.]
3. That the defendant [built the house referred to in the said agreement in a bad and unworkmanlike manner].

[*Demand of judgment.*]

No. 64.

BY THE MASTER AGAINST THE FATHER OR GUARDIAN OF AN APPRENTICE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the defendant entered into an agreement, under his hand and seal,* a copy of which is hereto annexed :

[*Or state the tenor of these covenants.*]

2. That after the making of the said agreement the plaintiff received the said [apprentice] into his service as such apprentice for the term aforesaid, and has always performed and been ready and willing to perform all things in the said agreement on his part to be performed.

3. That on the day of 18 , the said [apprentice] wilfully absented himself from the service of the plaintiff, and continues so to do.

[*Demand of judgment.*]

* The form given in Act XIX of 1850 requires the seal of the father or guardian.

No. 65.

BY THE APPRENTICE AGAINST THE MASTER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant entered into an agreement with the plaintiff and his father, *E. F.*, under their hands and seals, a copy of which is hereto annexed.

2. That after the making of the said agreement the plaintiff entered into the service of the defendant with him after the manner of an apprentice to serve for the term mentioned in the said agreement, and has always performed all things in the said agreement contained on his part to be performed.

3. That the defendant has not [instructed the plaintiff in the business of , or state any other breach, such as cruelty, failure to provide sufficient food, or other ill-treatment.]

[Demand of judgment.]

No. 66.

ON A BOND FOR THE FIDELITY OF A CLERK.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , plaintiff employed one *E. F.* as a clerk.

2. That on the day of 18 , at , the defendant agreed with the plaintiff, that if the said *E. F.* should not faithfully perform his duties as a clerk to the plaintiff, or should fail to account to the plaintiff for all moneys, evidences of debt, or other property received by him for the use of the plaintiff, the defendant would pay to the plaintiff whatever loss he might sustain by reason thereof, not exceeding rupees.

[Or, 2. That at the same time and place, the defendant bound himself to the plaintiff, by a writing under his hand, in the penal sum of rupees, conditioned that if the said *E. F.* should faithfully perform his duties as clerk and cashier to the plaintiff, and should justly account to the plaintiff for all moneys, evidences of debt, or other property which should be at any time held by him in trust for the plaintiff, the same should be void, but not otherwise.]

[Or, 2. That at the same time and place, the defendant executed to the plaintiff a bond, a copy of which is annexed.]

3. That between the day of 18 and the day of 18 , the said *E. F.* received money and other property, amounting to the value of rupees, for the use of the plaintiff, for which he has not accounted to him, and the same still remains due and unpaid.

[Demand of judgment.]

No. 67.

BY TENANT AGAINST LANDLORD, WITH SPECIAL DAMAGE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant, by an instrument in writing, let to the plaintiff [the house No. street,] for the term of years, covenanting with the plaintiff that he, the plaintiff, and his legal representatives should quietly enjoy possession thereof for the said term.

2. That all conditions were fulfilled and all things happened necessary to entitle the plaintiff to maintain this suit.

3. That on the day of during the said term, one *E. F.*, who was the lawful owner of the said house, lawfully evicted the plaintiff therefrom, and still withholds the possession thereof from him.

4. That the plaintiff was thereby [prevented from continuing the business of a tailor at the said place, was compelled to expend rupees in moving, and lost the custom of *G. H.* and *I. J.* by such removal.]

[Demand of judgment.]

No. 68.

FOR BREACH OF WARRANTY OF MOVEABLES.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant warranted a steam-engine to be in good working order, and thereby induced the plaintiff to purchase the same of him, and to pay him rupees therefor.

2. That the said engine was not then in good working order, whereby the plaintiff incurred expense in having the said engine repaired, and lost the profits which would otherwise have accrued to him while the engine was under repair.

[Demand of judgment.]

No. 69.

ON AN AGREEMENT OF INDEMNITY.

(Title.)

A. B., the above named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff and defendant, being partners in trade under the firm of *A. B.* and *C. D.*, dissolved the said partnership, and mutually agreed that the defendant should take and keep all the partnership property, pay all debts of the firm, and indemnify the plaintiff against all claims that might be made upon him on account of any indebtedness of the said firm.

2. That the plaintiff duly performed all the conditions of the said agreement on his part.

3. That on the day of 18 [a judgment was recovered against the plaintiff and defendant by one *E. F.*, in the High Court of Judicature at , upon a debt due from the said firm to the said *E. F.*, and on the day of 18] the plaintiff paid rupees [in satisfaction of the same].

4. That the defendant has not paid the same to the plaintiff.

[Demand of judgment.]

No. 70.

BY SHIP-OWNER AGAINST FREIGHT OR FOR NOT LOADING.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the plaintiff and defendant entered into an agreement, a copy of which is hereto annexed.

[Or, 1. That on , at , the plaintiff and defendant agreed by charter party that the defendant should deliver to the plaintiff's ship at , on the day of 18 , five hundred tons of merchandise, which she should carry to , and there deliver, on payment of freight; and that the defendant should have days for loading, days for discharge, and days for demurrage, if required, at rupees per day.]

2. That at the time fixed by the said agreement the plaintiff was ready and willing and offered to receive [the said merchandise, or, the merchandise mentioned in the said agreement] from the defendant.

3. That the period allowed for loading and demurrage has elapsed, but the defendant has not delivered the said merchandise to the said vessel.

Wherefore, the plaintiff demands judgment for rupees for demurrage and rupees additional for compensation.

C.—PLAINTS FOR COMPENSATION UPON WRONGS.

No. 71.

FOR TRESPASS ON LAND.

(Title.)

A. B., the above-named plaintiff, states as follows:—

That on the day of 18 , at , the defendant entered upon certain land of the plaintiff, known as [and depastured the same with cattle, trod down the grass, cut the timber, and otherwise injured the same].

[Demand of judgment.]

No. 72.

FOR TRESPASS IN ENTERING A DWELLING-HOUSE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That the defendant entered a dwelling-house of the plaintiff called _____, and made a noise and disturbance therein for a long time, and broke open the doors of the said dwelling-house, and removed, took and carried away the fixtures and goods of the plaintiff therein, and disposed of the same to the defendant's own use, and expelled the plaintiff and his family from the possession of the said dwelling-house, and kept them so expelled for a long time.

2. That the plaintiff was thereby prevented from carrying on his business, and incurred expense in procuring another dwelling-house for himself and family.

[Demand of judgment.]

No. 73.

FOR TRESPASS ON MOVEABLES.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the _____ day of _____ 18____, at _____, the defendant broke open ten barrels of rum belonging to the plaintiff, and emptied their contents into the street [or seized and took the plaintiff's goods, that is to say, iron, rice and household furniture, or as the case may be], and carried away the same and disposed of them to his own use :

[or, seized and took the plaintiff's cows and bullocks, and impounded them and kept them impounded for a long time.]

2. That the plaintiff was thereby deprived of the use of the cows and bullocks during that time, and incurred expense in feeding them and in getting them restored to him; and was also prevented from selling them at _____ fair, as he otherwise would have done, and the said cows and bullocks are diminished in value to the plaintiff [otherwise state the injury according to the facts].

[Demand of judgment.]

No. 74.

FOR THE CONVERSION OF MOVEABLE PROPERTY.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the _____ day of _____ 18____, plaintiff was in possession of certain goods described in the schedule hereto annexed [or of one thousand barrels of flour].

2. That on that day, at _____, the defendant converted the same to his own use, and wrongfully deprived the plaintiff of the use and possession of the same.

[Demand of judgment.]

The Schedule.

No. 75.

AGAINST A WAREHOUSEMAN FOR REFUSAL TO DELIVER GOODS.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the _____ day of _____ 18____, at _____, the defendant, in consideration of the payment to him of _____ rupees [or, rupees per barrel, per month, &c.], agreed to keep in his godown [one hundred barrels of flour], and to deliver the same to the plaintiff on payment of the said sum.

2. That thereupon the plaintiff deposited with the defendant the said [hundred barrels of flour].

3. That on the day of 18 , the plaintiff requested the defendant to deliver the said goods, and tendered him rupees [*or*, the full amount of storage due thereon], but the defendant refused to deliver the same.

4. That the plaintiff was thereby prevented from selling the said goods to *E. F.*, and the same are lost to the plaintiff.

[*Demand of judgment.*]

No. 76.

FOR PROCURING PROPERTY BY FRAUD.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the defendant, for the purpose of inducing the plaintiff to sell him certain goods, represented to the plaintiff that [he, the defendant, was solvent, and worth rupees over all his liabilities].

2. That the plaintiff was thereby induced to sell [and deliver] to the defendant [dry goods] of the value of rupees.

3. That the said representations were false [*or, state the particular falsehoods*], and were then known by the defendant to be so.

4. That the defendant has not paid for the said goods. [*Or, if the goods were not delivered*] That the plaintiff, in preparing and shipping the said goods and procuring their restoration, expended rupees.

[*Demand of judgment.*]

No. 77.

FOR FRAUDULENTLY PROCURING CREDIT TO BE GIVEN TO ANOTHER PERSON.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the defendant represented to the plaintiff, that one *E. F.* was solvent and in good credit, and worth rupees over all his liabilities [*or*, that *E. F.* then held a responsible situation and was in good circumstances, and might safely be trusted with goods on credit].

2. That the plaintiff was thereby induced to sell to the said *E. F.* [rice] of the value of rupees [on month's credit].

3. That the said representations were false and were then known by the defendant to be so, and were made by him with intent to deceive and defraud the plaintiff [*or*, to deceive and injure the plaintiff].

4. That the said *E. F.* [did not pay for the said goods at the expiration of the credit aforesaid, *or*,] has not paid for the said rice, and the plaintiff has wholly lost the same by reason of the premises.

[*Demand of judgment.*]

No. 78.

FOR POLLUTING THE WATER UNDER THE PLAINTIFF'S LAND.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That he is, and at all the times hereinafter mentioned was, possessed of certain land called and situate in , and of a well therein, and of water in the said well, and was entitled to the use and benefit of the said well and of the said water therein, and to have certain springs and streams of water which flowed and ran into the said well to supply the same to flow or run without being fouled or polluted.

2. That on the day of 18 , the defendant wrongfully fouled and polluted the said well and the said water therein and the said springs and streams of water which flowed into the said well.

3. That by reason of the premises the said water in the said well became impure and unfit for domestic and other necessary purposes, and the plaintiff and his family are deprived of the use and benefit of the said well and water.

[*Demand of judgment.*]

No. 79.

FOR CARRYING ON A NOXIOUS MANUFACTURE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the plaintiff is, and at all the times hereinafter mentioned was, possessed of certain lands called _____ situate in _____.

2. That ever since the _____ day of _____ 18____, the defendant has wrongfully caused to issue from certain smelting works carried on by the defendant large quantities of offensive and unwholesome smoke and other vapours and noxious matter, which spread themselves over and upon the said lands, and corrupted the air, and settled on the surface of the said lands.

3. That thereby the trees, hedges, herbage and crops of the plaintiff growing on the said lands were damaged and deteriorated in value, and the cattle and live stock of the plaintiff on the said lands became unhealthy, and divers of them were poisoned and died.

4. That by reason of the premises the plaintiff was unable to depasture the said lands with cattle and sheep, as he otherwise might have done, and was obliged to remove his cattle, sheep and farming stock therefrom, and has been prevented from having so beneficial and healthy a use and occupation of the said lands as he otherwise would have had.

[Demand of judgment.]

No. 80.

FOR OBSTRUCTING A WAY.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff is, and at the time hereafter mentioned was, possessed of [a house in the town of _____].

2. That he was accustomed to pass [with vehicles, or, on foot] along a certain way leading from his said house to [the highway].

3. That on the _____ day of _____ 18____, the defendant obstructed the said way, so that the plaintiff could not pass [with vehicles, or, on foot, or, in any manner] along the said way [and has ever since obstructed the same].

4. [State special damage, if any.]

• [Demand of judgment.]

Another Form.

1. That the defendant wrongfully dug a trench and heaped up earth and stones in the public highway leading from _____ to _____ so as to obstruct it.

2. That thereby the plaintiff, while lawfully passing along the said highway, fell over the said earth and stones [or, into the said trench] and broke his arm, and suffered great pain, and was prevented from attending to his business for a long time, and incurred expense for medical attendance.

[Demand of judgment.]

No. 81.

FOR DIVERTING A WATER-COURSE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the plaintiff is, and at the time hereinafter mentioned was, possessed of a mill situated on a [stream], known as the _____, in the village of _____, district of _____.

2. That by reason of such possession the plaintiff was entitled to the flow of the said stream for working the said mill.

3. That on the _____ day of _____ 18____, the defendant, by cutting the bank of the said stream, diverted the water thereof, so that less water ran into the plaintiff's mill.

4. That by reason thereof, the plaintiff has been unable to grind more than _____ sacks per day, whereas, before the said diversion of water, he was able to grind _____ sacks per day.

[Demand of judgment.]

No. 82.

FOR OBSTRUCTING A RIGHT TO USE WATER FOR IRRIGATION.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That the plaintiff is, and was at the time hereinafter mentioned, possessed of certain lands situate, &c., and entitled to take and use a portion of the water of a certain stream for irrigating the said lands.

2. That on the day of the defendant prevented the plaintiff from taking and using the said portion of the said water as aforesaid, by obstructing and diverting the said stream.

[Demand of judgment.]

No. 83.

FOR WASTE BY A LESSEE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , the defendant hired from him the [house No. street] for the term of

2. That the defendant occupied the same under such hiring.

3. That during the period of such occupation, the defendant greatly injured the premises [defaced the walls, tore up the floors, and broke down the doors; or otherwise specify the injuries as far as possible].

The plaintiff prays judgment for rupees compensation.

No. 84.

FOR ASSAULT AND BATTERY.

(Title.)

A. B., the above-named plaintiff, states as follows :—

That on the day of 18 , at , the defendant assaulted and beat him.

The plaintiff prays judgment for rupees compensation.

No. 85.

FOR ASSAULT AND BATTERY, WITH SPECIAL DAMAGE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , at , the defendant assaulted and beat the plaintiff, until he became insensible.

2. That the plaintiff was thereby disabled from attending to his business for [six weeks thereafter], and was compelled to pay rupees for medical attendance, and has been ever since disabled [from using his right arm]. [Or otherwise state the damage, as the case may be.]

[Demand of judgment.]

No. 86.

FOR ASSAULT AND FALSE IMPRISONMENT.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant assaulted the plaintiff and imprisoned him for days [or hours]; [state special damage, if any, thus:—]

2. That by reason thereof the plaintiff suffered great pain of body and mind and was exposed and injured in his credit and circumstances, and was prevented from carrying on his business and from providing for his family by his personal care and attention, and incurred expense in obtaining his liberation from the said imprisonment, [or otherwise as the case may be].

[Demand of judgment.]

No. 87.

FOR INJURIES CAUSED BY NEGLIGENCE ON A RAILROAD.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , the defendants were common carriers of passengers by railway between and .

2. That on that day the plaintiff was a passenger in one of the carriages of the defendants on the said road.

3. That while he was such passenger, at [or, near the station of] ; or, between the stations of and , a collision occurred on the said railway, caused by the negligence and unskillfulness of the defendants' servants, whereby the plaintiff was much injured [having his leg broken, his head cut, &c., and state the special damage, if any, as], and incurred expense for medical attendance, and is permanently disabled from carrying on his former business as a salesman.

[Demand of judgment.]

Or thus:—2. That on that day the defendants by their servants so negligently and unskillfully drove and managed an engine and a train of carriages attached thereto upon and along the defendants' railway which the plaintiff was then lawfully crossing, that the said engine and train were driven and struck against the plaintiff, whereby, &c., as in § 3.

No. 88.

FOR INJURIES CAUSED BY NEGLIGENT DRIVING.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. The plaintiff is a shoe-maker, carrying on business at . The defendant is a merchant of .

2. On the [23rd May 1875], the plaintiff was walking eastward along Chowringhee, in the city of Calcutta, at about three o'clock in the afternoon. He was obliged to cross Harington street, which is a street running into Chowringhee at right angles. While he was crossing this street, and just before he could reach the foot-pavement on the further side thereof, a carriage of the defendant's drawn by two horses, under the charge and control of the defendant's servants, was negligently, suddenly, and without any warning, turned at a rapid and dangerous pace out of Harington Street into Chowringhee. The pole of the carriage struck the plaintiff, and knocked him down, and he was much trampled by the horses.

3. By the blow and fall and trampling the plaintiff's left arm was broken, and he was bruised and injured on the side and back, as well as internally, and in consequence thereof the plaintiff was for four months ill and in suffering, and unable to attend to his business, and incurred heavy medical and other expenses, and sustained great loss of business and profits.

The plaintiff claims rupees damages.

(Title.)

Written Statement of Defendant.

1. The defendant denies that the carriage mentioned in the plaint was the defendant's carriage, or that it was under the charge or control of the defendant's servants. The carriage belonged to [Messrs. E. F. and G. H.] of Street, Calcutta, livery stable-keepers employed by the defendant to supply him with carriages and horses; and the person under whose charge and control the said carriage was, was the servant of the said Messrs. E. F. and G. H.

2. The defendant does not admit that the said carriage was turned out of Harington Street either negligently, suddenly, or without warning, or at a rapid or dangerous pace.

3. The defendant says, that the plaintiff might and could, by the exercise of reasonable care and diligence, have seen the said carriage approaching him, and avoided any collision with it.

4. The defendant does not admit the statements of the third paragraph of the plaint.

No. 89.

FOR LIBEL; THE WORDS BEING LIBELLOUS IN THEMSELVES.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18, at , the defendant published in a newspaper, called the [or, in a letter addressed to E. F.], the following words concerning the plaintiff:—

[Set forth the words used.]

2. That the said publication was false and malicious.

[Demand of judgment.]

NOTE.—If the libel was in a language not the language of the Court, set out the libel verbatim in the foreign language in which it was published, and then proceed thus:—“Which said words, being translated into the language, have the meaning and effect following, and were so understood by the persons to whom they were so published, that is to say, [here set out a literal translation of the libel in the language of the Court.]”

No. 90.

FOR LIBEL; THE WORDS NOT BEING LIBELLOUS IN THEMSELVES.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the plaintiff [is, and] was, on and before the day of 18 merchant, doing business in the city of

2. That on the day of 18, at , the defendant published in a newspaper, called the [or, in a letter addressed to E. F., or otherwise show how published], the following words concerning the plaintiff:—

["A. B., of this city, has modestly retired to foreign lands. It is said that creditors to the amount of rupees are anxiously seeking his address."]

3. That the defendant meant thereby that [the plaintiff had absconded to avoid his creditors, and with intent to defraud them].

4. That the said publication was false and malicious.

[Demand of judgment.]

No. 91.

FOR SLANDER; THE WORDS BEING ACTIONABLE IN THEMSELVES.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18, at , the defendant falsely and maliciously spoke, in the hearing of E. F. [or, sundry persons], the following words concerning the plaintiff: "He is a thief".

2. That, in consequence of the said words, the plaintiff lost his situation as in the employ of

[Demand of judgment.]

No. 92.

FOR SLANDER; THE WORDS NOT BEING ACTIONABLE IN THEMSELVES.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant falsely and maliciously said to one *E. F.* concerning the plaintiff: ["He is a young man of remarkably easy conscience"].
2. That the plaintiff was then seeking employment as a clerk, and the defendant meant, by the said words, that the plaintiff was not trustworthy as a clerk.
3. That, in consequence of the said words, [the said *E. F.* refused to employ the plaintiff as a clerk].

[Demand of judgment.]

No. 93.

FOR MALICIOUS PROSECUTION.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , at , the defendant obtained a warrant of arrest from [a magistrate of the said city, *or, as the case may be,*] on a charge of , and the plaintiff was arrested thereon, and imprisoned for [days, *or,* hours, and gave bail in the sum of rupees to obtain his release].
2. That in so doing, the defendant acted maliciously and without reasonable or probable cause.
3. That on the day of 18 , the said magistrate dismissed the complaint of the defendant, and acquitted the plaintiff.
4. That many persons, whose names are unknown to the plaintiff, hearing of the said arrest, and supposing the plaintiff to be a criminal, have ceased to do business with him; *or,* that, in consequence of the said arrest, the plaintiff lost his situation as clerk to one *E. F.*, *or,* that by reason of the premises the plaintiff suffered pain of body and mind, and was prevented from transacting his business, and was injured in his credit, and incurred expense in obtaining his release from the said imprisonment and in defending himself against the said complaint.

[Demand of judgment.]

D.—PLAINTS IN SUITS FOR SPECIFIC PROPERTY.

No. 94.

BY THE ABSOLUTE OWNER FOR THE POSSESSION OF IMMOVEABLE PROPERTY.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That *X. Y.* was the absolute owner of [the estate, *or,* the share of the estate, called , situate in the District of , the Government revenue of which is rupees and the estimated value rupees , *or,* of the house No. , street in the town of Calcutta, the estimated value of which is rupees].
2. That on the day of 18 , *Z* illegally dispossessed the said *X. Y.* of the said estate [*or* share *or* house].
3. That the said *X. Y.* has since died intestate, leaving the plaintiff the said *A. B.* his heir him surviving.
4. That the defendant withholds the possession of the estate [*or* share *or* house] from the plaintiff.

The plaintiff prays judgment:

- (1) For the possession of the said premises;
- (2) For rupees compensation for withholding the same.

Another Form.

A. B., the above-named plaintiff, states as follows :—

1. On the day of , the plaintiff, by an instrument in writing, let to the defendant a house and premises No. 52, Russell Street, in the for a term of five years from the day of , at the monthly rent of rupees 300.

2. By the said instrument the defendant covenanted to keep the said house and premises in good and tenantable repair.

3. The said instrument also contained a clause of re-entry, entitling the plaintiff to re-enter upon the said house and premises, in case the rent thereby reserved, whether demanded or not, should be in arrear for twenty-one days, or in case the defendant should make default in the performance of any covenant upon his part to be performed.

4. On the day of 187 a month's rent became due, and on the day of 187 another month's rent became due; on the day of 187 both had been in arrear for twenty-one days, and both are still due.

5. On the same day of 187 the house and premises were not and are not now in good or tenantable repair, and it would require the expenditure of a large sum of money to re-instate the same in good and tenantable repair, and the plaintiff's reversion is much depreciated in value. The plaintiff claims :

- (1) Possession of the said house and premises;
- (2) Rupees for arrears of rent;
- (3) Rupees compensation for the defendant's breach of his covenant to repair;
- (4) Rupees for the occupation of the house and premises from the day of 187 to the day of recovering possession.

No. 95.

BY THE TENANT.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That one *E. F.* is the absolute owner of [a piece of land in the town of Calcutta, , bounded as follows :], the estimated value of which is rupees .

2. That on the day of 18 , the said *E. F.* let the said premises to the plaintiff for years, from .

3. That the defendant withholds the possession thereof from the plaintiff.

[*Demand of judgment.*]

No. 96.

FOR MOVEABLE PROPERTY WRONGFULLY TAKEN.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , plaintiff owned [or was possessed of] one hundred barrels of flour, the estimated value of which is rupees .

2. That on that day, at , the defendant took the same.

The plaintiff prays judgment :

- (1) For the possession of the said goods, or for rupees in case such possession cannot be had;
- (2) For rupees compensation for the detention thereof.

No. 97.

FOR MOVEABLES WRONGFULLY DETAINED.

(*Title.*)

A. B., the above-named plaintiff, states as follows :—

1. That on the day of 18 , plaintiff owned [or, state facts showing a right to the possession] the goods mentioned in the schedule hereto annexed [or describe the goods], the estimated value of which is rupees .

2. That from that day until the commencement of this suit, the defendant has detained the same from the plaintiff.

3. That before the commencement of this suit, to wit, on the day of 18 , the plaintiff demanded the same from the defendant, but he refused to deliver them.

The plaintiff prays judgment :

- (1) For the possession of the said goods, or for rupees, in case such possession cannot be had;
- (2) For rupees compensation for the detention thereof.

The schedule.

No. 98.

AGAINST A FRAUDULENT PURCHASER AND HIS TRANSFERRE WITH NOTICE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1 That on the day of 18 , at , the defendant [*C. D.*], for the purpose of inducing the plaintiff to sell him certain goods, represented to the plaintiff that [he was solvent, and worth rupees over all his liabilities].

2. That the plaintiff was thereby induced to sell and deliver to the said *C. D.* [one hundred boxes of tea], the estimated value of which is rupees.

3. That the said representations were false, and were then known by the said *C. D.* to be so. [Or, That at the time of making the said representations, the said *C. D.* was insolvent, and knew himself to be so.]

4. That the said *C. D.* afterwards transferred the said goods to the defendant *E. F.*, without consideration [or who had notice of the falsity of the representation].

The plaintiff prays judgment:

- (1) For the possession of the said goods, or for rupees, in case such possession cannot be had;
- (2) For rupees compensation for the detention thereof.

E.—PLAINTS IN SUITS FOR SPECIAL RELIEF.

No. 99.

FOR RESCISSION OF A CONTRACT ON THE GROUND OF MISTAKE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , the defendant represented to the plaintiff that a certain piece of ground belonging to the defendant, situated at , contained [ten bighás].

2. That the plaintiff was thereby induced to purchase the same at the price of rupees in the belief that the said representation was true, and signed an instrument of agreement, of which a copy is hereto annexed. But no conveyance of the same has been executed to him.

3. That on the day of 18 , the plaintiff paid the defendant rupees as part of such purchase-money.

4. That the said piece of ground contained in fact only [five bighás].

The plaintiff prays judgment:

- (1) For rupees, with interest from the day of 18 ;
- (2) That the said agreement of purchase be delivered up and cancelled.

No. 100.

FOR AN INJUNCTION RESTRAINING WASTE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff is the absolute owner of [*describe the property*].

2. That the defendant is in possession of the same under a lease from the plaintiff.

3. That the defendant has [cut down a number of valuable trees, and threatens to cut down many more for the purpose of sale] without the consent of the plaintiff.

The plaintiff prays judgment, that the defendant be restrained by injunction from committing or permitting any further waste on the said premises.

[*Pecuniary compensation might also be prayed.*]

No. 101.

FOR ABATEMENT OF A NUISANCE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff is, and at all the times hereinafter mentioned was, the absolute owner of [the house No. street, Calcutta].
2. That the defendant is, and at all the said times was, the absolute owner of [a plot of ground in the same street].
3. That on the day of 18 , the defendant erected upon his said lot a slaughter-house, and still maintains the same; and from that day until the present time has continually caused cattle to be brought and killed there [and has caused the blood and offal to be thrown into the street opposite the said house of the plaintiff].
4. That [the plaintiff has been compelled, by reason of the premises, to abandon the said house, and has been unable to rent the same].

The plaintiff prays judgment, that the said nuisance be abated.

No. 102.

FOR AN INJUNCTION AGAINST THE DIVERSION OF A WATER-COURSE.

(Title.)

A. B., the above-named plaintiff, states as follows :—

[As in No. 81.]

The Plaintiff prays judgment, that the defendant be restrained by injunction from diverting the water as aforesaid.

No. 103.

• FOR RESTORATION OF MOVEABLE PROPERTY, THREATENED WITH DESTRUCTION, AND FOR AN INJUNCTION.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That plaintiff is, and at all times hereinafter mentioned ~~was~~, the owner of [a portrait of his grandfather, which was executed by an eminent painter], and of which no duplicate exists [or state any facts showing that the property is of a kind that cannot be replaced by money].
2. That on the _____ day of _____ 18____, he deposited the same for safe-keeping with the defendant.
3. That on the _____ day of _____ 18____, he demanded the same from the defendant, and offered to pay all reasonable charges for the storage of the same.
4. That the defendant refuses to deliver the same to the plaintiff, and threatens to conceal, dispose of, cut or injure the same if required to deliver it up.
5. That no pecuniary compensation would be an adequate compensation to the plaintiff for the loss of the said [painting].

The plaintiff prays judgment:

- (1) That the defendant be restrained by injunction from disposing of, injuring, or concealing the said [painting];
- (2) That he return the same to the plaintiff.

No. 104.

INTERPLEADER.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That before the date of the claims hereinafter mentioned, one *G. H.* deposited with the plaintiff [describe the property] for [safe keeping].
2. That the defendant, *C. D.*, claims the same [under an alleged assignment thereof to him from the said *G. H.*]

3. That the defendant, *E. F.*, also claims the same [under an order of the said *G. H.* transferring the same to him].

4. That the plaintiff is ignorant of the respective rights of the defendants.

5. That he has no claim upon the said property, and is ready and willing to deliver it to such persons as the Court shall direct.

6. That this suit is not brought by collusion with either of the defendants.

The plaintiff prays judgment:

(1) That the defendants be restrained, by injunction, from taking any proceedings against the plaintiff in relation thereto;

(2) That they be required to interplead together concerning their claims to the said property;

[(3) That some person be authorized to receive the said property pending such litigation];

(4) That upon delivering the same to such [person], the plaintiff be discharged from all liability to either of the defendants in relation thereto.

No. 105.

ADMINISTRATION BY CREDITOR.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. *E. F.*, late of , was at the time of his death, and his estate still is, indebted to the plaintiff in the sum of [here insert nature of debt and security, if any].

2. The said *E. F.* made his Will, dated the day of and thereof appointed *C. D.* executor [or, devised his estate in trust, &c., or, died intestate, as the case may be].

3. The said Will was proved by the said *C. D.* [or, letters of administration were granted, &c.].

4. The defendant has possessed himself of the moveable [and immoveable, or, the proceeds of the immoveable] property of the said *E. F.*, and has not paid the plaintiff his said debt.

5. The said *E. F.* died on or about the day of

6. The plaintiff prays that an account may be taken of the moveable [and immoveable] property of the said *E. F.*, deceased, and that the same may be administered under the decree of the Court.

No. 106.

ADMINISTRATION BY SPECIFIC LEGATEES.

(Title.)

[Alter Form 105 thus:—]

[Omit paragraph 1 and commence paragraph 2] *E. F.*, late of , duly made his last Will, dated the day of and thereof appointed *C. D.* executor, and by such Will bequeathed to the plaintiff [here state the specific legacy].

For paragraph 4, substitute—

The defendant is in possession of the moveable property of the said *E. F.*, and, amongst other things, of the said [here name the subject of the specific bequest].

For the commencement of paragraph 6 substitute—

The plaintiff prays that the defendant may be ordered to deliver to him the said [here name the subject of the specific bequest] or that, &c.

No. 107.

ADMINISTRATION BY PECUNIARY LEGATEES.

(Title.)

[Alter Form 105 thus:—].

[Omit paragraph 1 and substitute for paragraph 2] *E. F.*, late of , duly made his last Will, dated the day of , and thereof appointed *C. D.* executor, and by such Will bequeathed to the plaintiff a legacy of rupees

In paragraph 4, substitute "legacy" for "debt."

Another Form.

Between *E. F.* *Plaintiff,*
 and
G. H. *Defendant.*

A. B., the above-named plaintiff, states as follows :—

1. *A. B.* of *K* in the duly made his last Will, dated the [first day of March 1873], whereby he appointed the defendant and *M. N.* [who died in the testator's life-time] executors thereof, and bequeathed his property, whether moveable or immoveable, to his executors in trust, to pay the rents and income thereof to the plaintiff for his life; and after his decease, and in default of his having a son who should attain twenty-one, or a daughter who should attain that age or marry, upon trust as to his immoveable property for the person who would be the testator's heir-at-law, and as to his moveable property for the persons who would be the testator's next-of-kin if he had died intestate at the time of the death of the plaintiff, and such failure of his issue as aforesaid.

2. The testator died on the [first day of July 1873], and his Will was proved by the defendant on the [fourth of October 1873]. The plaintiff has not been married.

3. The testator was at his death entitled to moveable and immoveable property; the defendant entered into the receipt of the rents of the immoveable property and got in the moveable property; he has sold some part of the immoveable property.

The plaintiff claims—

(1) To have the moveable and immoveable property of *A. B.* administered in this Court, and for that purpose to have all proper directions given and accounts taken.

(2) Such further or other relief as the nature of the case may require.

Between *E. F.* *Plaintiff,*
 and
G. H. *Defendant.*

Written Statement of Defendant.

1. *A. B.*'s Will contained a charge of debts; he died insolvent; he was entitled at his death to some immoveable property which the defendant sold, and which produced the nett sum of rupees and the testator had some moveable property which the defendant got in, and which produced the nett sum of rupees.

2. The defendant applied the whole of the said sums and the sum of rupees which the defendant received from rents of the immoveable property in the payment of the funeral and testamentary expenses and some of the debts of the testator.

3. The defendant made up his accounts and sent a copy thereof to the plaintiff on the [tenth of January 1875], and offered the plaintiff free access to the vouchers to verify such accounts, but he declined to avail himself of the defendant's offer.

4. The defendant submits that the plaintiff ought to pay the costs of this suit. •

No. 108.

EXECUTION OF TRUSTS.

IN THE COURT OF

AT

Civil Regular No.

A. B. of ... *Plaintiff,*

against

C. D. of the beneficiary [or, one

of the beneficiaries], ... *Defendant.*

A. B., the above-named plaintiff, states as follows :—

1. That he is one of the trustees under an instrument of settlement bearing date on or about the day of made upon the marriage of the said *E. F.* and *G. H.* the father and mother of the defendant [or, an instrument of assignment of the estate and effects of *E. F.* for the benefit of *C. D.*, the defendant, and other the creditors of *E. F.*].

2. The said *A. B.* has taken upon himself the burden of the said trust, and is in possession of [or, of the proceeds of] the moveable and immoveable property conveyed [or assigned] by the before-mentioned deed.

3. The said *C. D.* claims to be entitled to a beneficial interest under the before-mentioned deed.

4. The plaintiff is desirous to account for all the rents and profits of the said immoveable property [and the proceeds of the sale of the said, or of part of the said, immoveable property, or moveable, or the proceeds of the sale of, or of part of, the said moveable, property, or the profits accruing to the plaintiff as such trustee in the execution of the said trust]; and he prays that the Court will take the accounts of the said trust, and also that the whole of the said trust estate may be administered in the Court for the benefit of the said *C. D.*, the defendant, and all other persons who may be interested in such administration, in the presence of the said *C. D.* and such other persons so interested as the Court may direct, or that the said *C. D.* may shew good cause to the contrary.

N. B.—Where the suit is by a beneficiary, the plaint may be modelled, mutatis mutandis, on the plaint by a legatee.]

No. 109.

FORECLOSURE OR SALE.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. By an instrument of mortgage bearing date on or about the _____ day of _____ 18____, a house with the garden and appurtenances, situated within the jurisdiction of this Court, were conveyed [or assigned] by the defendant to him the plaintiff, his heirs [or executors, administrators,] and assigns, for securing the principal sum of Rs. _____ together with interest thereon after the rate of Rs. _____ per centum per annum, subject to redemption upon payment by the said defendant of the said principal and interest at a day long since past.

2. There is now due from the defendant to the plaintiff the sum of Rs. _____ for principal and interest on the said mortgage.

3. The plaintiff prays (a) that the Court will order the defendant to pay him the said sum of Rs. _____, with such further interest as may accrue between the filing of the plaint and the day of payment, and also the costs of this suit, on some day to be named by the Court, and in default that the equity of redemption of the said mortgaged premises may be foreclosed and the plaintiff placed in possession of the same premises; or (b) that the said premises may be sold, and the proceeds applied in and towards the payment of the amount of the said principal, interest and costs; and (c) that if such proceeds shall not be sufficient for the payment in full of such amount, the defendant do pay to the plaintiff the amount of the deficiency with interest thereon at the rate of six per cent. per annum until realization, and (d) that for that purpose all proper directions may be given and accounts taken by the Court.

No. 110.

REDEMPTION.

(Title.)

[Alter Form 109 thus:—]

Transpose parties and also the facts in paragraph 1.

or paragraph 2, substitute—

2. There is now due from the plaintiff to the defendant, for principal and interest on the said mortgage, the sum of Rs. _____ which the plaintiff is ready and willing to pay to the defendant, of which the defendant, before filing this plaint, had notice.

For paragraph 3, substitute—

The plaintiff prays that he may redeem the said premises and that the defendant may be ordered to re-convey [or re-assign] the same to him upon payment of the said sum of Rs. _____ and interest, with such costs (if any), as the Court may order upon a day to be named by the Court, and that the Court will give all proper directions for the preparation and execution of such re-conveyance [or assignment], and doing such other acts as may be necessary to put him into possession of the said premises, freed from the said mortgage.

No. 111.

SPECIFIC PERFORMANCE. (No. 1).

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. By an agreement dated the _____ day of _____ and signed by the above-named defendant, *C. D.*, he the said *C. D.* contracted to buy of [or sell to] him certain immoveable property, therein described and referred to, for the sum of Rs. _____

2. He has applied to the said *C. D.* specifically to perform the said agreement on his part, but he has not done so.

3. The said *A. B.* has been and still is ready and willing specifically to perform the agreement on his part, of which the said *C. D.* has had notice.

4. The plaintiff prays that the Court will order the said *A. B.* specifically to perform the said agreement, and to do all acts necessary to put the said *A. B.* in full possession of the said property [or to accept a conveyance and possession of the said property] and to pay the costs of the suit.

[*N. B.*—In suit for delivery up, to be cancelled, of any agreement, omit paragraphs 2 and 3, and substitute a paragraph stating generally the grounds for requiring the agreement to be delivered up to be cancelled, such as that the plaintiff signed it by mistake, under distress, or by the fraud of the defendant, and alter the prayer according to the relief sought.]

No. 112.

SPECIFIC PERFORMANCE. (No. 2).

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That on the day of 18 , the defendant was absolutely entitled to certain immoveable property described in the agreement hereto annexed.

2. That on the same day, the plaintiff and defendant entered into an agreement, under their hands, a copy of which is hereto annexed.

3. That on the day of 18 , the plaintiff tendered rupees to the defendant, and demanded a conveyance of the said property.

4. That on the day of 18 , the plaintiff again demanded such conveyance. [Or, that the defendant refused to convey the same to the plaintiff.]

5. That the defendant has not executed such conveyance.

6. That the plaintiff is still ready and willing to pay the purchase-money of the said property to the defendant.

The plaintiff prays judgment:

(1) That the defendant execute to the plaintiff a sufficient conveyance of the said property [following the terms of the agreement]

(2) For rupees compensation for withholding the same.

No. 113.

PARTNERSHIP.

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. He and the said *C. D.*, the defendant, have been for the space of years [or months] last past carrying on business together at within the jurisdiction of this Court, under certain articles of partnership in writing, signed by them respectively, [or, under a certain deed sealed and executed by them respectively, or, under a verbal agreement between them, the said plaintiff and defendant].

2. Divers disputes and differences have arisen between the plaintiff and defendant as such partners, whereby it has become impossible to carry on the said business in partnership with advantage to the partners.

3. The plaintiff desires to have the said partnership dissolved, and he is ready and willing to bear his share of the debts and obligations of the partnership according to the terms of the said articles [or deed, or agreement].

4. The plaintiff prays the Court to decree a dissolution of the said partnership, and that the accounts of the said partnership trading may be taken by the Court, and the assets thereof realized, and that each party may be ordered to pay into Court any balance due from him upon such partnership-account, and that the debts and liabilities of the said partnership may be paid and discharged, and that the costs of the suit may be paid out of the partnership-assets, and that any balance remaining of such assets, after such payment and discharge, and the payment of the said costs, may be divided between the plaintiff and defendant, according to the terms of the said articles [or deed, or agreement], or that, if the said assets shall prove insufficient, he the plaintiff and the said defendant may be ordered to contribute in such proportions as shall be just to a fund to be raised for the payment and discharge of such debts, liabilities and costs. And to give such other relief as the Court shall think fit.

This plaint was filed by

Plunder for the plaintiff,

of

or by

[*N. B.*—In suits for winding-up of any partnership, omit the prayer for dissolution: but instead thereof insert a paragraph stating the fact of the partnership having been dissolved.]

No. 128.

DECREE FOR SALE IN A SUIT BY A MORTGAGEE OR PERSON ENTITLED TO A LIEN.

(Title.)

It is ordered that it be referred to the Registrar [or Taxing Officer] to take an account of what is due to the plaintiff for principal and interest on the mortgage [or lien] mentioned in the plaint, and to tax the plaintiff's costs of this suit, and that the Registrar do certify to the Court on the day of what he shall find to be due for principal and interest as aforesaid, and for costs; And upon the defendant paying into Court what shall be certified to be due to the plaintiff for principal and interest as aforesaid, together with the said costs, within six months after the Registrar [or Taxing Officer] shall have presented his certificate; it is ordered that the plaintiff do reconvey the said mortgaged premises free and clear from all incumbrances done by him, or any claiming by, from, or under him, and do deliver up to the Registrar [or Taxing Officer] all deeds and writings in his custody or power relating thereto, and that upon such reconveyance being made, and deeds and writings being delivered up, the Registrar [or Taxing Officer] shall pay out to the plaintiff the said sum so paid in as aforesaid for principal, interest and costs; but in default of the defendant paying into Court such principal, interest and costs as aforesaid by the time aforesaid, then it is ordered that the said mortgaged premises [or the premises subject to the said lien] be sold with the approbation of the Registrar [or Taxing Officer]. And it is ordered that the money to arise by such sale be paid into Court, to the end that the same may be duly applied in payment of what shall be found due to the plaintiff for principal, interest and costs as aforesaid, and that the balance (if any) shall be paid to the defendant.

No. 129.

FINAL DECREE FOR FORECLOSURE.

(Title.)

Whereas it appears to the Court that the defendant has not paid into Court the sum which was on the day of last certified by the Registrar to be due to the Plaintiff for principal and interest upon the mortgage in the plaint mentioned, and for costs, pursuant to the order made in this suit on the day of last, and that the period of six months has elapsed since the said day of .

It is ordered that the Defendant do stand absolutely debarred and foreclosed of and from all equity of redemption of, in, and to, the said mortgaged premises.

No. 180.

PRELIMINARY ORDER—ADMINISTRATION SUIT.

Section 213 of the Code of Civil Procedure.

(Title.)

It is ordered that the following accounts and inquiries be taken and made; that is to say:—

In creditor's suit—

1. That an account be taken of what is due to the Plaintiff and all other the creditors of the deceased.

In suits by legatees—

2. An account be taken of the legacies given by the testator's will.

In suits by next-of-kin—

An inquiry be made and account taken of what, or of what share, if any, the plaintiff is entitled to as next-of-kin [or one of the next-of-kin] of the intestate.

[After the first paragraph, the Order will, where necessary, order, in a creditor's suit, inquiry and accounts for legatees, heirs-at-law, and next-of-kin. In suits by claimants other than creditors, after the first paragraph in all cases, an order to inquire and take an account of creditors, will follow the first paragraph, and such of the others as may be necessary will follow, omitting the first formal words. The form is continued as in a creditor's suit.]

3. An account of the funeral and testamentary expenses.

4. An account of the moveable property of the deceased come to the hands of the Defendant, or to the hands of any other person by his order or for his use.

5. An inquiry what part (if any) of the moveable property of the deceased is outstanding and undisposed of.

6. And it is further ordered, that the Defendant do, on or before the _____ day of _____ next, pay into Court all sums of money which shall be found to have come to his hands, or to the hands of any person by his order or to his use.

7. And that if the Registrar shall find it necessary for carrying out the objects of the suit to sell any part of the moveable property of the deceased, that the same be sold accordingly, and the proceeds paid into Court.

8. And that, Mr. E. F. be Receiver in the suit [or proceeding], and receive and get in all outstanding debts and outstanding moveable property of the deceased, and pay the same into the hands of the Registrar [and shall give security by bond for the due performance of his duties to the amount of _____ rupees].

9. And it is further ordered, that if the moveable property of the deceased be found insufficient for carrying out the objects of the suit, then the following further inquiries be made, and accounts taken, that is to say,—

(a) an inquiry what immovable property the deceased was seized of or entitled to at the time of his death;

(b) an inquiry what are the incumbrances (if any) affecting the immovable property of the deceased, or any part thereof;

(c) an account, so far as possible, of what is due to the several incumbrancers, and to include a statement of the priorities of such of the incumbrancers as shall consent to the sale hereinafter directed.

10. And that the immovable property of the deceased, or so much thereof as shall be necessary to make up the fund in Court sufficient to carry out the object of the suit, be sold with the approbation of the Judge, free from incumbrances (if any) of such incumbrancers as shall consent to the sale, and subject to the incumbrances of such of them as shall not consent.

11. And it is ordered, that G. H. shall have the conduct of the sale of the immovable property, and shall prepare the conditions and contracts of sale subject to the approval of the Registrar, and that in case any doubt or difficulty shall arise the papers shall be submitted to the Judge to settle.

12. And it is further ordered, that, for the purpose of the inquiries hereinbefore directed, the Registrar shall advertise in the newspapers according to the practice of the Court, or shall make such inquiries in any other way which shall appear to the Registrar to give the most useful publicity to such inquiries.

13. And it is ordered, that the above inquiries and accounts be made and taken, and that all other acts ordered to be done be completed before the _____ day of _____ and that the Registrar do certify the result of the inquiries, and the accounts, and that all other acts ordered are completed, and have his certificate in that behalf ready for the inspection of the parties on the _____ day of _____

14. And, lastly, it is ordered, that this suit [or matter] stand adjourned for making final decree to the _____ day of _____

[Such part only of this order is to be used as is applicable to the particular case.]

No. 181.

FINAL DECREE IN AN ADMINISTRATION SUIT BY A LEGATEE.

Section 213 of the Code of Civil Procedure.

1. It is ordered that the defendant do on or before the _____ day of _____ pay into Court the sum of Rs. _____, the balance by the said certificate found to be due from the said defendant on account of the estate of _____ the testator, and also the sum of Rs. _____ for interest, at the rate of Rs. _____ per centum per annum, from the _____ day of _____ to the _____ day of _____ amounting together to the sum of Rs. _____

2. Let the Registrar [*or Taxing Officer*] of the said Court tax the costs of the plaintiff and defendant in this suit, and let the amount of the said costs, when so taxed, be paid out of the said sum of Rs. ordered to be paid into Court as aforesaid, as follows:—

(a.)—The costs of the plaintiff to Mr. , his attorney [*or pleader*], and the costs of the defendant to Mr. , his attorney [*or pleader*].

(b.)—And (*if any debts are due*), with the residue of the said sum of Rs. after payment of the plaintiff's and defendant's costs as aforesaid, let the sums found to be owing to the several creditors mentioned in the schedule to the Registrar's certificate, together with subsequent interest on such of the debts as bear interest, be paid; and after making such payments, let the amount coming to the several legatees mentioned in the schedule, together with subsequent interest (to be verified as aforesaid), be paid to them.

3. And if there should then be any residue, let the same be paid to the residuary legatee.

DECREE IN AN ADMINISTRATION SUIT BY A LEGATEE, WHERE AN EXECUTOR IS HELD PERSONALLY LIABLE FOR THE PAYMENT OF LEGACIES.

Section 213 of the Code of Civil Procedure.

1. Declare that the defendant is personally liable to pay the legacy of Rs. bequeathed to the plaintiff;

2. And it is ordered, that an account be taken of what is due for principal and interest on the said legacy;

3. And it is also ordered, that the defendant do within weeks after the date of the Registrar's certificate, pay to the plaintiff the amount of what the Registrar shall certify to be due for principal and interest;

4. And it is ordered, that the defendant do pay the plaintiff his costs of suit, the same to be taxed in case the parties differ.

FINAL DECREE IN AN ADMINISTRATION SUIT BY NEXT-OF-KIN.

Section 213 of the Code of Civil Procedure.

1. Let the Registrar of the said Court tax the costs of the plaintiff and defendant in this suit, and let the amount of the said plaintiff's costs, when so taxed, be paid by the defendant to the plaintiff out of the sum of Rs. , the balance by the said certificate found to be due from the said defendant on account of the personal estate of *E. F.*, the intestate, within one week after the taxation of the said costs by the said Registrar, and let the defendant retain for her own use out of such sum her costs, when taxed.

2. And it is ordered, that the residue of the said sum of Rs. , after payment of the plaintiff's and defendant's costs as aforesaid, be paid and applied by defendant as follows:—

(a.)—Let the defendant, within one week after the taxation of the said costs by the Registrar as aforesaid, pay one-third share of the said residue to the plaintiffs, *A. B.*, and *C.*, his wife, in her right, as the sister and one of the next-of-kin of the said *E. F.*, the intestate.

(b.)—Let the defendant retain for her own use one other third share of the said residue, as the mother, and one other of the next-of-kin of the said *E. F.*, the intestate.

(c.)—And let the defendant, within one week after the taxation of the said costs by the Registrar as aforesaid, pay the remaining one-third share of the said residue to *G. H.*, as the brother and the other next-of-kin of the said *E. F.*, the intestate.

No. 132.

ORDER—DISSOLUTION OF PARTNERSHIP.

Section 215 of the Code of Civil Procedure.

(Title.)

It is declared that the partnership in the plaint mentioned between the plaintiff and defendant ought to stand dissolved as from the day of , and it is ordered that the dissolution thereof as from that day be advertised in the Gazette, &c.

And it is ordered that be the Receiver of the partnership-estate and effects in this suit, and do go in all the outstanding book-debts and claims of the partnership.

And it is ordered that the following accounts be taken:—

1. An account of the credits, property and effects now belonging to the said partnership;

2. An account of the debts and liabilities of the said partnership;

3. An account of all dealings and transactions between the plaintiff and defendant, from the foot of the settled account exhibited in this suit and marked (A), and not disturbing any subsequent settled accounts.

And it is ordered that the goodwill of the business heretofore carried on by the plaintiff and defendant as in the plaint mentioned, and the stock-in-trade, be sold on the premises, and that the Registrar may, on the application of any of the parties, fix a reserved bidding for all or any of the lots at such sale, and that either of the parties is to be at liberty to bid at the sale.

And it is ordered that the above accounts be taken and all the other acts required to be done be completed before the day of , and that the Registrar do certify the result of the accounts, and that all other acts are completed, and have his certificate in that behalf ready for the inspection of the parties on the day of .

And, lastly, it is ordered that this suit stand adjourned for making a final decree to the day of .

ORDER OF REFERENCE TO ARBITRATION BY COURT, WITH CONSENT.

Section 508 of the Code of Civil Procedure.

(Title.)

- UPON reading a petition of the plaintiff, filed this day, and on the consent of
 for the defendant, and upon hearing for the plaintiff and
 of all the parties, that all matters in difference in this suit, including all dealings and trans-
 actions between all parties, be referred to the final determination of

, who is to make
 his award in writing and submit the same to this Court, together with all proceedings,
 depositions, and exhibits in this suit, within one month from the date hereof. And it is
 ordered further, by and with the like consent, that the said arbitrator is to be at liberty to
 examine the parties and their witnesses upon oath or affirmation, which he is empowered to
 administer, and that the said arbitrator shall have all such powers or authorities as are vested
 in arbitrators under the Code of Civil Procedure, including therein power to call for all books
 of account that he may consider necessary. And it is further ordered, by and with the like
 consent, that the costs of this suit, together with the costs of reference to arbitration, up
 to and including the award of the said arbitrator, and the enforcement thereof, do abide
 the result of the finding of the said arbitrator. And it is further ordered, by and with the
 like consent, that the said arbitrator be at liberty to appoint a competent accountant to
 assist him in the investigation of the several matters referred to him as aforesaid, and that
 the remuneration of such accountant and other charges attending thereto be in the discre-
 tion of the said arbitrator.

PART V.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st March 1877

No. 8 of 1877.

A Bill to facilitate the admission of Military Lunatics into Asylums.

WHEREAS it is expedient to facilitate the admission of European Military Lunatics into Asylums, and to amend the law now in

force with regard to the admission thereto of Native Military Lunatics; It is hereby enacted as follows:—

1. This Act may be called the "Military Lunatics Act, 1877:"

It extends to the whole of British India and, so far as regards subjects of Her Majesty, to the dominions of Native Princes and States in India in alliance with Her Majesty;

And it shall come into force on the passing thereof.

2. Act XXI of 1872 (to facilitate the admission of Native Military Lunatics into Asylums) shall be repealed.

3. Whenever any European officer, Warrant-officer, Non-commissioned officer, soldier or other person subject to the provisions of the Act for punishing Mutiny and Desertion and for the better payment of the Army and their

quarters for the time being in force has been declared a lunatic, in accordance with the provisions of the military regulations of the Presidency to which he belongs, and has been ordered to be forwarded to any one of the Presidency-towns, and it appears to one of the Surgeons General, either of the British Forces or of the Indian Medical Service, according to the Presidency and the service to which the said lunatic belongs, that it is inexpedient that he should be removed to England, or that he should be detained in military custody until he can be conveniently sent to England, such Surgeon General may, if he think fit, make an order under his hand for the reception of the said lunatic into the Lunatic Asylum at Bhowanipur, Madras, or Bombay, or such other Lunatic Asylum as may be duly authorized for the purpose by the Governor-General in Council;

and the officer in charge of such asylum shall receive the lunatic in the asylum, and detain him therein until he is discharged therefrom, in accordance with the local military regulations in force for the time being, or until the Surgeon General applies for his transfer to the military authorities in view to his removal to England.

4. Whenever any Native officer, Non-commissioned officer or soldier appears to be insane, the officer commanding the regiment or detachment to which he belongs shall report the case to the general officer commanding the division or district or force in which such regiment or detachment is serving.

5. Such general officer shall thereupon cause the said Native to be examined by a committee composed of at least two medical officers, or (if this be impracticable) by a regimental committee comprising the officer in command of the wing or squadron to which the Native

belongs and the medical officer in charge of the corps or detachment of which such wing or squadron forms part.

6. If the said committee or regimental committee (as the case may be) are satisfied that the Native is insane, the officer commanding the division or district or force may, if he thinks fit, make an order under his hand for the reception of the said Native into a Lunatic Asylum, and shall then send him thither under military escort; and the officer in charge of such asylum shall receive the Native into the asylum and detain him therein until he is discharged therefrom in accordance with the local military regulations in force for the time being.

7. Whenever it appears to the officer in charge of a Lunatic Asylum that the discharge of a military lunatic, whether European or Native, is necessary either on account of his recovery, or for any other purpose, such person shall be brought before the visitors of the asylum, and on the visitors recording their opinion that the discharge should be made, the general officer commanding the division, district or force, or other officer authorized to order the admission of military lunatics into asylums, shall forthwith direct him to be discharged, and such discharge shall take place in accordance with the local military regulations in force for the time being.

8. The Paymaster of the military circle within which any such asylum is situate shall pay to the officer in charge of such asylum the expense of the lodging, maintenance, clothing and medicine of every lunatic, whether European or Native, received and detained under this Act.

9. All military lunatics heretofore received into Lunatic Asylums shall be deemed to have been so received in accordance with law.

STATEMENT OF OBJECTS AND REASONS.

It appears that at present there is no law whatever under which British soldiers afflicted with mental disease can be admitted into, or when cured) discharged from, Lunatic Asylums in this country; and the primary object of this Bill is to legalize such admission and discharge.

At the same time the opportunity has been taken to amend the law as to the discharge of Native military lunatics. The Bill proposes to repeal Act XXI of 1872 (to facilitate the admission of Native Military Lunatics into Asylums) and re-enact it with the necessary addition.

H. W. NORMAN.

CALCUTTA,
The 2nd March 1877.

WHITLEY STOKES

Secy to the Govt. of India.

[First Publication]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th March 1877, and was referred to a Select Committee:-

No. 10 of 1877.

A Bill to provide for the execution of emergent works in connection with embankments in British Burma.

WHEREAS it is expedient to provide for the execution of emergent works in connection with embankments in British Burma; It is hereby enacted as follows:—

1. This Act may be called "The Burma Embankment Act, 1877."

It extends to all the territories for the time being under the administration of the Chief Commissioner of British Burma; but nothing herein contained applies to embankments belonging to private persons;

And it shall come into force on the passing thereof.

2. In this Act—

"Embankment" means any embankment constructed for the purpose of excluding, regulating or retaining water, and includes all earthen walls, dams, canals, drains, piers, groins, sluices, buildings, water-gauges, bench-marks and other works subsidiary to any such embankment; and

"Embankment-officer," used with reference to an embankment, means the officer appointed by the Chief Commissioner to carry out this Act in respect of such embankment.

3. Whenever it appears probable to the embankment-officer that unless some work is quickly executed in connection with an embankment, loss of life or extensive damage to property will ensue, and that the labourers or materials required for the execution of such work cannot be obtained in the ordinary course in time to enable him to execute such work with the expedition necessary in order to avert such loss or damage, he may, by order under his hand, direct that the provisions of this Act shall be put into operation for the execution of such work; and thereupon

(a) every able-bodied male person belonging to any class of labourers, residing in the neighbourhood of such embankment shall, if required to do so by such officer or any person authorized by him in this behalf be bound to assist such officer in the execution of such work by labouring thereon, after the manner of his class or trade, as such officer or any person authorized by him in this behalf may direct; at

(b) such officer or any person authorized by him in this behalf may enter upon any immovable property in the said neighbourhood and take possession of, appropriate and remove, all trees or bamboos, whether standing or not, and all

timber, mats, rope or other materials found on such property, and use the same for the purposes of such work.

4. All persons labouring in compliance with a requisition made under section three, or whose materials may be taken under that section, shall as soon as may be reasonably practicable be paid by the embankment-officer for their labour or for such materials (as the case may be) at such rates not being less than fifteen per cent. above the market-rates for similar labour or materials for the time being prevailing in the said neighbourhood as the Chief Commissioner may from time to time by written order direct.

5. When from the removal of any trees, bamboos or other materials under section three, any damage over and above the price payable for such materials under section four, results directly to any person, the embankment-officer shall pay to such person such sum as may be agreed upon as compensation for such damage, or in case of dispute

as to the amount so to be paid, as the Deputy Commissioner of the district may award.

6. Where an embankment-officer has been appointed for any embankment, any person who, without the permission of such officer—

Penalties for trespass on embankments, &c.

- (a) grazes any cattle or allows any cattle under his charge to trespass on such embankment, or
- (b) cuts or roots out any trees, shrubs or grass growing on such embankment, or
- (c) obstructs any drain or sluice connected with such embankment,

shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to two hundred rupees, or with both.

7. Every embankment-officer and every officer authorized by an embankment-officer to act under section three, shall be deemed to be a "public servant" within the meaning of the Indian Penal Code.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to legalize and regulate the levying of labour when sudden danger threatens embankment-works in floods, and when such labour cannot be hired. The necessity for provisions of this kind became apparent in the Irrawaddy floods of 1875, when some of the embankments were breached and others overflowed. In some cases the people whose property was threatened with injury came forward cheerfully and prevented further disaster; but in others, where the danger was equally real and of greater extent, but not so immediately apparent, great difficulty was experienced in getting the people whose lives and property were jeopardized to assist in any way in saving the works.

The great losses of life and property that have occurred during the last few years all over the world prove that the works esteemed the most perfect are liable to such sudden and unforeseen failures, and almost universal experience proves that the only remedy possible to apply in such cases consists in the labour of the persons most interested being concentrated on the weaker spots under proper direction.

This Bill will therefore legalize a practice which already obtains imperfectly in Burma, and which is general where embankment-works exist.

In drawing up the details of the Bill, attention has been given to Act No. 1 of 1858 relating to similar works in Madras.

CALCUTTA;
The 12th March 1877. }

A. CLARKE.

WHITLEY STOKES,
Secy. to the Govt. of India.

The following Report of a Select Committee, together with the Bill as settled by them, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th March 1877:—

We, the undersigned Members of the Select Committee to which the Bill for the limitation of suits and for other purposes was referred, have the honour to report that we have considered the Bill and the papers noted in the margin.

From Financial Department, No. 178, dated 5th May 1873.
" Government of Bombay, No. 4418, dated 31st July 1875.
Note by Sir R. Garth, C.J., dated 8th March 1876.
" by Secretary, Legislative Department, dated August 1876.
" by Hon'ble Mr. Hobhouse, dated 22nd October 1876.
From Home Department, No. 1884, dated 18th December 1876.
Observations by Sir R. Garth, C.J., dated 12th January 1877.
Suggestions by Bābu Opendra Nauth Mullick, dated 2nd March 1877.
Remarks by Bābu Abināsh Chandra Bannerjee, Munsif of Agra, dated 7th March 1877.
Note by N. H. Thomson, Esq., dated 23rd March 1877.
From Department of Revenue, Agriculture and Commerce, No. 216, dated 19th March 1877, and enclosures.

2. We have postponed the commencement of the proposed Act to 1st October 1877, the day on which the Code of Civil Procedure is to come into force.

3. We have declared that nothing in the proposed Act shall operate to revive any right to sue which was barred under Act IX of 1871.

4. We have struck out as unnecessary the definition of 'minor.'

5. We have extended to appeals and applications, the provisions of section 13 as to excluding the day on which the right to sue accrued.

6. We have also excluded, in the case of appeals, the time necessary for obtaining a copy of the judgment.

7. In computing the period prescribed for any suit, we think that the time during which the plaintiff has been prosecuting any proceeding (whether it be a suit, an appeal or an appli-

cation for execution) against the same defendant in a Court unable to entertain it should be excluded.

8. We have made a similar alteration in section 17, so as to exclude the time occupied by a judgment-debtor in setting aside an execution-sale.

9. In the Schedule we have made the following substantial amendments :—

10. We have provided (No. 11) for suits by persons against whom orders are passed under sections 280, 281, 282, 335 of the Code of Civil Procedure, to establish their right to, or to the present possession of, property comprised in the order.

11. In the case of suits for the restitution of conjugal rights, we think that the refusal mentioned in the third column should be by a husband or wife of full age and sound mind. It is clear, for instance, that the refusal of a minor wife should not make time run against the husband.

12. We have made the No. (104) relating to suits by managers of the joint estates of undivided families apply as well to Muhammadans as to Hindús. In Lower Bengal, the joint family system prevails among both classes of religionists.

13. We have altered Nos. 125, 123 and 124 as follows :—

115. To obtain a declaration that an adoption is invalid	Six years	When the alleged adoption becomes known to the plaintiff.
116. To obtain a declaration that an adoption is valid	Ditto	When the rights of the adopted son as such are interfered with.
123. By a person excluded from joint family property to enforce a right to share therein	Twelve years	When the exclusion becomes known to the plaintiff.
124. By a Hindú for arrears of maintenance ...	Ditto ...	When the arrears are payable.
125. By a Hindú for a declaration of his right to maintenance	Ditto ...	When the right is denied.

14. We have struck out No. 135 as being comprised in No. 139, and No. 168 as being now useless.

15. We have provided for application for a re-hearing on an appeal heard *ex parte*.

16. We have cut down from 90 to 30 days the time allowed a pauper to apply for leave to appeal.

17. We have provided a general clause for applications for which no period is expressly provided.

18. We have made a few changes in wording and arrangement, and we recommend that the Bill thus amended be passed. But first we think that it should be republished.

ARTHUR HOBHOUSE.

A Bill for the Limitation of Suits, and for other Purposes.

WHEREAS it is expedient to amend the law relating to the limitation of suits, appeals and certain applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:

Preamble.

applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:

PART I.

PRELIMINARY.

- Short title. 1. This Act may be called 'The Indian Limitation Act, 1877.'

It extends to the whole of British India; but nothing contained in sections two and three or in Parts II and III applies—

- (a) to suits under the Indian Divorce Act, or
- (b) to suits under Madras Regulation VI of 1831;

Commencement.

And it shall come into force on the first day of October 1877.

2. On and from that day Act No. IX of 1871 ^{Repeal of Act IX of 1871.} (*An Act for the Limitation of Suits and for other purposes*) shall be repealed.

But all references to such Act shall be read as if made to this Act; and nothing herein or in that Act contained shall be deemed to affect any title acquired, or to revive any right to sue barred, under that Act or under any enactment thereby repealed.

Notwithstanding anything herein contained, any suit mentioned in No. 143, No. 144 or No. 145 of the schedule hereto annexed, may be brought within five years next after the said first day of October 1877, unless where the period prescribed for such suit by the said Act No. IX of 1871, shall have expired before the completion of the said five years.

3. In this Act, unless there be something repugnant in the subject or context—

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or anything growing in, or attached to, or subsisting upon, the land of another:

'bill of exchange' includes also a *hundî*:

'trustee' does not include a *benâmidâr*, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered under the law for the registration of documents in force at the time and place of executing the document referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS AND APPLICATIONS.

4. Subject to the provisions contained in sections five to twenty-six (inclusive), Dismissal of suits, &c., instituted, &c., after every suit instituted, appeal period of limitation. presented, and application made after the period of limitation prescribed therefor by the schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint, stamped in accordance with the law for the time being in force, is presented to the proper officer: in the case of a pauper, when his application for leave to sue as a pauper is filed;

and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a).—A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(b).—An appeal presented after the prescribed period is admitted and registered. The appeal shall, nevertheless, be dismissed.

5. If the period of limitation prescribed for any suit, appeal or application expires on a day when the Court is closed, the suit, appeal or application may be instituted, presented or made on the day that the Court re-opens :

Proviso where Court is closed when period expires.

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

Proviso as to appeals and applications for review.

6. When, by any special or local law now or hereafter in force in British India, a period of limitation is specially prescribed for any suit, appeal or application, nothing herein contained shall affect or alter the period so prescribed.

Different periods of limitation prescribed by local laws.

And nothing herein contained shall affect the periods of limitation prescribed for appeals from, or applications to review, any decree, order or judgment of a High Court in the exercise of its original jurisdiction.

Appeals from decrees of High Courts on original side.

7. If a person entitled to sue be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit within the same period after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the schedule hereto annexed.

Legal disability.

When he is, at the time from which the period of limitation is to be reckoned, affected by two disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

Double and successive disabilities.

When his disability continues up to his death, his representative in interest may institute the suit within the same period after the death as would otherwise have been allowed from the time so prescribed.

When such representative is at the date of the death affected by any disability, the rules contained in the former part of this section shall apply.

Disability of representative.

Nothing in this section shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which the suit must be brought.

Illustrations.

(a). The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accrues. He may institute his suit at any time within three years from the date of his attaining majority.

(b). A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accrues. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c). A right to sue accrues to Z during his minority. After the accrues, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity ceases.

(d). A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y his minor son. Time runs against Y from the date of his attaining majority.

(e). A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accrual A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(f). A right to sue as landlord to recover possession from a tenant accrues to A who is an idiot. A dies three years after the accrues, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against them all: but where no such discharge can be given, time will not run as against any of them until they all are free from disability.

Disability of one joint creditor.

Illustrations.

(a) A incurs a debt to a firm of which B, C and D are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C and D.

(b) A incurs a debt to a firm of which E, F and G are partners. E and F are insane, and G is a minor. Time will not run against any of them until they are all free from disability.

9. When once time has begun to run, no subsequent disability or inability to sue stops it :

Continuous running of time.

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose or

Suits against express trustees and their representatives.

against his representatives, for the purpose of following in his or their hands such property, shall be barred by any length of time.

Explanation.—A purchaser in good faith for value from a trustee is not his representative within the meaning of this section.

11. Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

12. No foreign rule of limitations shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

13. In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence or order appealed against or sought to be reviewed, shall be excluded.

Where a decree is appealed against or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

14. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded, unless service of a summons to appear and answer in the suit can, during such absence, be made under the Code of Civil Procedure, section 89.

15. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant or some person whom he represents, shall be excluded, where the proceeding is founded upon the same cause of action, and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 20, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief, shall be excluded, where the last-mentioned application is made in good faith to a Court which from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction, shall be deemed to be prosecuting a suit within the meaning of this section.

16. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, shall be excluded.

17. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale, shall be excluded.

18. When a person who would, if he were living, have a right to sue, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative in interest of the deceased capable of suing.

When a person against whom, if he were living, a right to sue would have accrued, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative whom the plaintiff may sue.

Nothing in the former part of this section applies to suits for the possession of immoveable property or of an hereditary office.

19. When any person having a right to sue has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed, the time limited for commencing a suit,

(a) against the person guilty of the fraud or accessory thereto, or,

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

20. If before the expiration of the period prescribed for a suit in respect of any property or right a substantial acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

When the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed. But oral evidence of its contents shall not be received unless it has been destroyed wrongfully by the person on whom the acknowledgment would be binding.

EXPLANATION 1.—For the purposes of this section an acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery or performance has not yet come, or is accompanied by a refusal to pay, deliver or perform, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right :

EXPLANATION 2.—In this section means signed either personally or by an agent generally or specially authorised in this behalf.

• **EXPLANATION 3.**—Nothing in this section renders one of several partners or executors chargeable by reason only of a written acknowledgment signed by another of them.

Illustrations.

Z, a bond-debtor, himself writes a letter promising to pay the debt to his creditor A. Z affixes his seal, but does not sign the letter :

Z pays part of the debt, making no written record of the fact of the payment, and promises orally to pay the rest :

Z publishes an advertisement, requesting his creditors to bring in their claims for examination :

In none of these cases is the debt taken out of the operation of this Act.

21. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent generally or specially authorized in this behalf,

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent generally or specially authorized in this behalf,

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made :

Provided that, in the case of part-payment of principal, the debt has arisen from a contract in writing and the fact of the payment appears in the hand-writing of the person making the same, on the instrument, or in his own books, or in the books of the creditor.

Where mortgaged land is in the possession of the mortgagee, the receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party :

Provided that, when a plaintiff dies, and the suit is continued by his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted by the deceased plaintiff :

Provided also, that, when a defendant dies, and the suit is continued against his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted against the deceased defendant.

23. In the case of a suit for the breach of a contract, where there are successive breaches, a fresh right to sue arises, and a fresh period of limitation begins to run, upon every fresh breach.

Nothing in the former part of this section applies to suits for the breach of contracts for the payment of money by instalments, where, on default made in payment of one instalment, the whole becomes due.

Illustration.

(a).—A contracts to pay an annuity to B for his life by quarterly instalments. A fails to pay any of the instalments. Here upon every fresh failure, a fresh right to sue arises and a fresh period of limitation begins to run ; and this Act may bar the remedy on the earlier breaches without affecting the remedy on the later breaches.

24. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh right to sue arises, and a fresh period of limitation begins to run, at every moment of the time during which the breach or the wrong, as the case may be, continues.

Illustrations.

(a).—A, a tenant, covenants with B, his landlord, to keep certain buildings in repair. At every moment of the time during which the buildings continue out of repair and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

(b).—A diverts B's watercourse. At every moment of the time during which the diversion continues and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

25. In the case of a suit for compensation for an act lawful in itself which becomes unlawful in case it causes damage, the period of limitation shall be computed from the time when the damage accrues.

Illustration.

A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation runs from the time of the subsidence.

26. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(a).—A Hindú makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(b).—A Hindú makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

27. Where the access and use of light or air to and for any building have been peaceably and openly enjoyed with, as an easement, and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years

the right to such access and use of light or air, way, watercourse, use of water, or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

EXPLANATION.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a).—A suit is brought in 1881 for obstructing a right of way. The defendant admits the obstruction

but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1860 to 1st January 1880. The plaintiff is entitled to judgment.

(b).—In a like suit also brought in 1881 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1858 to 1878. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(c).—In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

(d).—A diverts B's watercourse and claiming title thereto as an easement, peaceably and openly enjoys the same for twenty years without interruption. At the end of that period A's right to the watercourse becomes absolute and indefeasible.

28. Provided that, when any land or water upon, over, or from which any easement has been enjoyed or derived has been

held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term, shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

29. At the determination of the period hereby limited to any person for instituting a suit for possession of any property, his right to such property shall be extinguished.

30. Where a series of trespassers adverse to one another and to the rightful owner of any immoveable property or hereditary office take and keep possession thereof for several periods each less than the period so limited, but collectively exceeding such period, the person who is in possession of such property or office when the title of the rightful owner would have been extinguished had the trespassers not been adverse to one another, shall have a right to such possession.

Nothing in this section shall operate to bar any right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him.

SCHEDULE.

(See section 4).

FIRST DIVISION : SUITS.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part I.—Thirty days.</i>	
1.—To contest an award of the Board of Revenue under Act No. XXIII of 1863 (<i>to provide for the adjudication of claims to waste-lands</i>).	Thirty days ...	When notice of the award is delivered to the plaintiff.
	<i>Part II.—Ninety days.</i>	
2.—For doing, or for omitting to do, an act in pursuance of any enactment in force for the time being in British India.	Ninety days ...	When the act or omission took place.
	<i>Part III.—Six months.</i>	
3.—Under the Specific Relief Act, 1877, section 9, to recover possession of immoveable property.	Six months ...	When the dispossession occurs.
4.—Under Act No. IX of 1860 (<i>to provide for the speedy determination of certain disputes between workmen engaged in Railway and other public works and their employers</i>), section one.	Ditto ...	When the wages, hire or price of work claimed accrued due.
5.—Under the Code of Civil Procedure, chapter XXXIX (<i>Of summary procedure on negotiable instruments</i>).	Ditto ...	When the instrument sued upon becomes due and payable.
	<i>Part IV.—One year.</i>	
6.—Upon a Statute, Act, Regulation or Bye-law, for a penalty or forfeiture.	One year ...	When the penalty or forfeiture is incurred.
7.—For the wages of a household servant, artisan or labourer not provided for by this schedule, No. 4.	Ditto ...	When the wages sued for accrue due.
8.—For the price of food or drink sold by the keeper of a hotel, tavern or lodging house.	Ditto ...	When the food or drink is delivered.
9.—For the price of lodging ...	Ditto ...	When the price becomes payable.
10.—To enforce a right of pre-emption, whether the right is founded on law, or general usage, or on special contract.	Ditto ...	When the purchaser takes actual possession, under the sale sought to be impeached, of the whole of the property sold.
11.—By a person against whom an order is passed under section 250, 281, 282 or 335 of the Code of Civil Procedure, to establish his right to, or to the present possession of, the property comprised in the order.	Ditto ...	The date of the order.
12.—To set aside any of the following sales :—	Ditto ...	When the sale is confirmed, or would otherwise have become final and conclusive had no such suit been brought..
(a) sale in execution of a decree of a Civil Court;		

SCHEDULE—continued.

FIRST DIVISION: SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part IV.—One year—continued.</i>		
(b) sale in pursuance of a decree or order of a Collector or other officer of revenue;		
(c) sale for arrears of Government revenue, or for any demand recoverable as such arrears;		
(d) sale of a patní taluq sold for current arrears of rent.		
<i>Explanation.</i> —In this clause 'patní' includes any intermediate tenure saleable for current arrears of rent.		
13.—To alter or set aside a decision or order of a Civil court in any proceeding other than a suit.	One year	... The date of the final decision or order in the case by a Court competent to determine it finally.
14.—To set aside any act of an officer of Government in his official capacity, not herein otherwise expressly provided for.	Ditto	... The date of the act.
15.—Against Government to set aside any attachment, lease or transfer of immoveable property by the revenue authorities for arrears of Government revenue.	Ditto	... When the attachment, lease or transfer is made.
16.—Against Government to recover money paid under protest in satisfaction of a claim made by the revenue authorities on account of arrears of revenue or on account of demands recoverable as such arrears.	Ditto	... When the payment is made.
17.—Against Government for compensation for land acquired for public purposes.	Ditto	... The date of determining the amount of the compensation.
18.—Like suit for compensation when the acquisition is not completed.	Ditto	... The date of the refusal to complete.
19.—For false imprisonment	Ditto	... When the imprisonment ends.
20.—By executors, administrators or representatives under Act No. XII of 1855 (to enable the executors, administrators or representatives to sue and be sued for certain wrongs).	Ditto	... The date of the death of the person wronged.
21.—By executors, administrators or representatives under Act No. XIII of 1855 (to provide compensation to families for loss occasioned by the death of a person caused by actionable wrong).	Ditto	... The date of the death of the person killed.
22.—For any other injury to the person	Ditto	... When the injury is committed.
23.—For a malicious prosecution	Ditto	... When the plaintiff is acquitted, or the prosecution is otherwise terminated.
24.—For libel	Ditto	... When the libel is published.
25.—For slander	Ditto	... When the words are spoken.
26.—For loss of service occasioned by the seduction of the plaintiff's servant or daughter.	Ditto	... When the loss occurs.

SCHEDULE—continued.

FIRST DIVISION: SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part IV.—One year—continued.</i>		
27.—For inducing a person to break a contract with the plaintiff.	One year ...	The date of the breach.
28.—For an illegal, irregular or excessive distress.	Ditto ...	The date of the distress.
29.—For wrongful seizure of moveable property under legal process.	Ditto ...	The date of the seizure.
<i>Part V.—Two years.</i>		
30.—Against a carrier for losing or injuring goods.	Two years ...	When the loss or injury occurs.
31.—Against a carrier for delay in delivering goods.	Ditto ...	When the goods ought to be delivered.
32.—Against one who, having a right to use property for specific purposes, perverts it to other purposes.	Ditto ...	When the perversion first becomes known to the person injured thereby.
33.—Under Act No. XII of 1855 (<i>to enable executors, administrators or representatives to sue and be sued for certain wrongs</i>) against an executor, administrator or other representative.	Ditto ...	When the wrong complained of is done.
34.—For the recovery of a wife ...	Ditto ...	When possession is demanded and refused.
35.—For the restitution of conjugal rights ...	Ditto ...	When restitution is demanded and is refused by the husband or wife, being of full age and sound mind.
36.—For compensation for any malfeasance, misfeasance or nonfeasance independent of contract and not herein specially provided for.	Ditto ...	When the malfeasance, misfeasance or nonfeasance takes place.
<i>Part VI.—Three years.</i>		
37.—For obstructing a way or a watercourse.	Three years ...	The date of the obstruction.
38.—For diverting a watercourse	Ditto ...	The date of the diversion.
39.—For trespass upon immoveable property.	Ditto ...	When the trespass takes place.
40.—For infringing copyright or any other exclusive privilege.	Ditto ...	When the infringement takes place.
41.—To restrain waste ...	Ditto ...	When the waste begins.
42.—For compensation for injury caused by an injunction wrongfully obtained.	Ditto ...	When the injunction ceases.
43.—Under the Indian Succession Act, section 320 or 321, to compel a refund by a legatee or a person to whom an executor or administrator has distributed assets.	Ditto ...	The death of the testator or intestate, or (where the legacy or assets has or have been paid or distributed) the expiration of two years next after such payment or distribution, whichever event first occurs.
44.—By a ward who has attained majority, to set aside a sale by his guardian.	Ditto ...	The date of the sale.
45.—To contest an award under any of the following Regulations of the Bengal Code:— VII of 1822, IX of 1825, and IX of 1833.	Ditto ...	The date of the final award or order in the case.

SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—contd.</i>		
46.—By a party bound by such award to recover any property comprised therein.	Three years ...	The date of the final award or order in the case.
47.—By any person bound by an order respecting the possession of property made under the Code of Criminal Procedure, chapter XL, or the Bombay Mámlatdárs' Act, or by any one claiming under such person, to recover the property comprised in such order.	Ditto ...	The date of the final order in the case.
48.—For specific moveable property lost, or acquired by theft, or dishonest misappropriation or conversion, or for compensation for wrongfully taking or detaining the same.	Ditto ...	When the person having the right to the possession of the property first learns in whose possession it is.
49.—For other specific moveable property, or for compensation for wrongfully taking or injuring or wrongfully detaining the same.	Ditto ...	When the property is wrongfully taken or injured, or when the detainer's possession becomes unlawful.
50.—For the hire of animals, vehicles, boats or household furniture.	Ditto ...	When the hire becomes payable.
51.—For the balance of money advanced in payment of goods to be delivered.	Ditto ...	When the goods ought to be delivered.
52.—For the price of goods sold and delivered, where no fixed period of credit is agreed upon.	Ditto ...	The date of the delivery of the goods.
53.—For the price of goods sold and delivered to be paid for after the expiry of a fixed period of credit.	Ditto ...	When the period of credit expires.
54.—For the price of goods sold and delivered to be paid for by a bill of exchange, no such bill being given.	Ditto ...	When the period of the proposed bill elapses.
55.—For the price of trees or growing crops sold by the plaintiff to the defendant where no fixed period of credit is agreed upon.	Ditto ...	The date of the sale.
56.—For the price of work done by the plaintiff for the defendant at his request, where no time has been fixed for payment.	Ditto ...	When the work is done.
57.—For money payable for money lent ...	Ditto ...	When the loan is made.
58.—Like suit when the lender has given a cheque for the money.	Ditto ...	When the cheque is paid.
59.—For money lent under an agreement that it shall be payable on demand.	Ditto ...	When the demand is made.
60.—For money payable to the plaintiff for money paid for the defendant.	Ditto ...	When the money is paid.
61.—For money payable by the defendant to the plaintiff for money received by the defendant for the plaintiff's use.	Ditto ...	When the money is received.
62.—For money payable for interest upon money due from the defendant to the plaintiff.	Ditto ...	When the interest becomes due.

SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VI—Three years—contd.</i>	
63.—For money payable to the plaintiff for money found to be due from the defendant to the plaintiff on accounts stated between them.	Three years ...	When the accounts are stated in writing unless where the debt is made payable at a future time and then when that time arrives.
64.—For compensation for breach of a promise to do anything at a specified time, or upon the happening of a specified contingency.	Ditto ...	At the time specified or upon the contingency happening.
65.—On a single bond where a day is specified for payment.	Ditto ...	The day so specified.
66.—On a single bond where no such day is specified.	Ditto ...	The date of executing the bond.
67.—On a bond subject to a condition ...	Ditto ...	When the condition is broken.
68.—On a bill of exchange or promissory note payable at a fixed time after date.	Ditto ...	When the bill or note falls due.
69.—On a bill of exchange payable at sight, or after sight, but not at a fixed time.	Ditto ...	When the bill is presented.
70.—On a bill of exchange accepted payable at a particular place.	Ditto ...	When the bill is presented at that place.
71.—On a bill of exchange or promissory note payable at a fixed time after sight or after demand.	Ditto ...	When the fixed time expires.
72.—On a bill of exchange or promissory note payable on demand and not accompanied by any writing restraining or postponing the right to sue.	Ditto ...	When the demand is made.
73.—On a promissory note or bond payable by instalments.	Ditto ...	The expiration of the first term of payment, as to the part then payable; and, for the other parts, the expiration of the respective terms of payment.
74.—On a promissory note or bond payable by instalments, which provides that, if default be made in payment of one instalment, the whole shall be due.	Ditto ...	The time of the first default, unless where the payee or obligee waives the benefit of the provision, and then when fresh default is made in respect of which there is no such waiver.
75.—On a promissory note given by the maker to a third person to be delivered to the payee after a certain event should happen.	Ditto ...	The time of the delivery to the payee.
76.—On a dishonoured foreign bill where protest has been made and notice given.	Ditto ...	When the notice is given.
77.—By the payee against the drawer of a bill of exchange which has been dishonoured by non-acceptance.	Ditto ...	The date of the refusal to accept.
78.—By the acceptor of an accommodation-bill against the drawer.	Ditto ...	When the acceptor pays the amount of the bill.
79.—Suit on a bill of exchange or promissory note not herein expressly provided for.	Ditto ...	When the bill or note becomes payable.

SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VI.—Three years—contd.</i>	
80.—By a surety against the principal debtor	Three years ...	When the surety pays the creditor.
81.—By a surety against a co-surety ...	Ditto ...	When the plaintiff pays anything in excess of his own share.
82.—Upon any other contract to indemnify	Ditto ...	When the plaintiff is actually damaged.
83.—By an attorney or vakil for his costs of a suit or a particular business, there being no express agreement as to the time when such costs are to be paid.	Ditto ...	The termination of the suit or business, or (where the attorney or vakil properly discontinues the suit or business), the date of such discontinuance.
84.—For the balance due on a mutual, open and current account, where there have been reciprocal demands between the parties.	Ditto ...	The latest date at which any item is entered in the account by or on behalf of the defendant.
85.—On a policy of insurance when the sum assured is payable immediately after proof of the death or loss has been given to or received by the insurers.	Ditto ...	When proof of the death or loss is given or received, to or by the insurers, whether by or from the plaintiff, or any other person.
86.—By the assured to recover premia paid under a policy voidable at the election of the insurers.	Ditto ...	When the insurers elect to avoid the policy.
87.—Against a factor for an account.	Ditto ...	When the account is demanded, or where no such demand is made, when the agency terminates.
88.—By a principal against his agent for moveable property received by the latter and not accounted for.	Ditto ...	When the account is demanded and refused, or the agency terminates, whichever first happens.
89.—Other suits by principals against agents for neglect or misconduct.	Ditto ...	When the neglect or misconduct becomes known to the plaintiff.
90.—To cancel or set aside an instrument not otherwise provided for.	Ditto ...	When the facts entitling the plaintiff to have the instrument cancelled or set aside become known to him.
91.—To declare the forgery of an instrument issued, or registered, or attempted to be enforced against the plaintiff.	Ditto ...	The date of the issue, registration, or attempt, whichever last happens.
92.—For property which the plaintiff has conveyed while insane.	Ditto ...	When the plaintiff is restored to sanity, and has knowledge of the conveyance.
93.—To set aside a decree obtained by fraud, or for other relief on the ground of fraud.	Ditto ...	When the fraud becomes known to the plaintiff.
94.—For relief on the ground of mistake in fact.	Ditto ...	When the mistake becomes known to the plaintiff.
95.—For money paid upon an existing consideration which afterwards fails.	Ditto ...	The date of the failure.

SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VI.—Three years—contd.</i>	
96.—To make good out of the general estate of a deceased trustee the loss occasioned by a breach of trust.	Three years ...	The date of the trustee's death, or, if the loss has not then resulted, the date of the loss.
97.—For contribution by a party who has paid the whole amount due under a joint decree, or by a sharer in a joint estate who has paid the whole amount of revenue due from himself and his co-sharers.	Ditto ...	The date of the plaintiff's advance in excess of his own share.
98.—By a co-trustee to enforce against the estate of a deceased trustee a claim for contribution.	Ditto ...	When the right to contribution accrues.
99.—For a seaman's wages ...	Ditto ...	The end of the voyage during which the wages are earned.
100.—By a Muhammadan for exigible dower (<i>mu'ajjal</i>).	Ditto ...	When the dower is demanded and refused, or (where during the continuance of the marriage no such demand has been made) when the marriage is dissolved by death or divorce.
101.—By a Muhammadan for deferred dower (<i>mu'wajjal</i>).	Ditto ...	When the marriage is dissolved by death or divorce.
102.—By a mortgagor after the mortgage has been satisfied, to recover surplus collections received by the mortgagee.	Ditto ...	The date of the receipt.
103.—For an account and a share of the profits of a dissolved partnership.	Ditto ...	The date of the dissolution.
104.—By the manager of a joint estate of an undivided family for contribution in respect of a payment made by him on account of the estate.	Ditto ...	The date of the payment.
105.—By a lessor for the value of trees cut down by his lessee contrary to the terms of the lease.	Ditto ...	When the trees are cut down.
106.—For the profits of immoveable property belonging to the plaintiff wrongfully received by the defendant.	Ditto ...	When the profits are received, or, where the plaintiff has been dispossessed by a decree afterwards set aside on appeal, the date of the decree of the appellate Court.
107.—For arrears of rent ...	Ditto ...	When the arrears become due.
108.—By a vendor of immoveable property to enforce his lien for unpaid purchase-money.	Ditto ...	The time fixed for completing the sale, or (where the title is accepted after the time fixed for completion) the date of the acceptance.
109.—For a call by a company registered under any Statute or Act.	Ditto ...	When the call is payable.

SCHEDULE.—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
110.—For specific performance of a contract.	<i>Part VI.—Three years.—continued.</i> Three years.	The date fixed for the performance, or if no such date is fixed, when the plaintiff has notice that performance is refused.
111.—For the rescission of a contract ...	Ditto ...	When the facts entitling the plaintiff to have the contract rescinded first become known to him.
112.—For the breach of any contract, express or implied, not in writing registered, and not herein specially provided for.	Ditto ...	When the contract is broken, or (where there are successive breaches) when the breach sued for occurs, or (where the breach is continuing) when it ceases.
113.—Upon a foreign judgment as defined in the Code of Civil Procedure.	<i>Part VII.—Six years.</i> Six years ...	The date of the judgment.
114.—On a promise or contract in writing registered.	Ditto ...	When the period of limitation would begin to run against a suit brought on a similar promise or contract not registered.
115.—To obtain a declaration that an adoption is invalid.	Ditto ...	When the alleged adoption becomes known to the plaintiff.
116.—To obtain a declaration that an adoption is valid.	Ditto ...	When the rights of the adopted son as such are interfered with.
117.—Suit for which no period of limitation is provided elsewhere in this schedule.	Ditto ...	When the right to sue accrues.
118.—By an auction-purchaser or any one claiming under him to avoid incumbrances or under-tenures in an entire estate sold for arrears of Government revenue, the estate being, by virtue of such sale, freed from incumbrances and under-tenures.	<i>Part VIII.—Twelve years.</i> Twelve years ...	When the sale becomes final and conclusive.
119.—To avoid incumbrances or under-tenures in a <i>patni taluq</i> or other saleable tenure sold for arrears of rent, the taluq or tenure being, by virtue of such sale, freed from incumbrances and under-tenures.	Ditto ...	When the sale becomes final and conclusive.
120.—Upon a judgment obtained in British India, or a recognizance.	Ditto ...	The date of the judgment or recognizance.
121.—For a legacy or for a share of a residue bequeathed by a testator, or for a distributive share of the property of an intestate.	Ditto ...	When the legacy or debt becomes payable.

SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VIII.— Twelve years— continued.</i>	
122.—For possession of an hereditary office ...	Twelve years ...	When the defendant, or some person through whom he claims, took possession of the office adversely to the plaintiff. <i>Explanation.</i> —An hereditary office is possessed when the profits thereof are usually received, or (if there are no profits) when the duties thereof are usually performed.
123.—Suit during the life of a Hindú female by a Hindú entitled to the possession of land on her death to have an alienation made by the female declared to be void except for her life.	Ditto ...	The date of the alienation.
124.—By a Hindú governed by the law of the Mitákshará to set aside his father's alienation of ancestral property.	Ditto ...	When the alienee takes possession of the property.
125.—By a person excluded from joint-family property to enforce a right to share therein.	Ditto ...	When the exclusion becomes known to the plaintiff.
126.—By a Hindú for arrears of maintenance	Ditto ...	When the arrears are payable.
127.—By a Hindú for a declaration of his right to maintenance.	Ditto ...	When the right is denied.
128.—For the resumption or assessment of rent-free land.	Ditto ...	When the right to resume or assess the land first accrued : Provided that no such suit shall be maintained where the land forms part of a permanently-settled estate, and has been held rent-free from the time of the Permanent Settlement.
129.—To establish a periodically recurring right.	Ditto ...	When the plaintiff is first refused the enjoyment of the right.
130.—To enforce payment of money charged upon immoveable property. <i>Explanation.</i> —The allowance and fees respectively called <i>málikána</i> and <i>haggs</i> shall, for the purpose of this clause, be deemed to be money charged upon immoveable property.	Ditto ...	When the money sued for becomes due.

SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VIII.— Twelve years— continued.</i>	
131.—To recover moveable property conveyed or bequeathed in trust, deposited or pawned and afterwards bought from the trustee, depository or pawnee in good faith and for value as property to which the vendor was absolutely entitled.	Twelve years ...	The date of the purchase.
132.—To recover possession of immoveable property conveyed or bequeathed in trust or mortgaged and afterwards purchased from the trustee or mortgagee, in good faith and for value, as property to which the vendor was absolutely entitled.	Ditto ...	The date of the purchase.
133.—Suit instituted in a Court not established by Royal Charter by a mortgagee for possession of immoveable property mortgaged.	Ditto ...	When the mortgagee is first entitled to possession.
134.—By a purchaser at a private sale for possession of immoveable property sold, when the vendor was out of possession at the date of the sale.	Ditto ...	When the vendor is first entitled to possession.
135.—Like suit by a purchaser at a sale in execution of a decree, when the execution-debtor was out of possession at the date of the sale.	Ditto ...	When the execution-debtor is first entitled to possession.
136.—By a purchaser of land at a sale in execution of a decree, for possession of the purchased land, when he never has had possession.	Ditto ...	The date of the sale.
137.—By a landlord to recover possession from a tenant.	Ditto ...	When the tenancy is determined.
138.—By a remainderman, a reversioner (other than a landlord), or a devisee, for possession of immoveable property.	Ditto ...	When his estate falls into possession.
139.—Like suit by a Hindú entitled to the possession of immoveable property on the death of a Hindú female.	Ditto ...	When the female dies.
140.—For possession of immoveable property, when the plaintiff, while in possession of the property, has been dispossessed or has discontinued the possession.	Ditto ...	The date of the dispossession or discontinuance.

SCHEDULE—continued.

FIRST DIVISION: SUITS—continued.

Description of application.	Period of limitation.	Time from which period begins to run.
	<i>Part VIII.— Twelve years— continued.</i>	
141.—Like suit, when the plaintiff has become entitled by reason of any forfeiture or breach of condition.	Twelve years ...	When the forfeiture was incurred or the condition broken.
142.—For possession of immoveable property or any interest therein not hereby otherwise specially provided for.	Ditto ...	When the possession of the defendant, or of some person through whom he claims, became adverse to the plaintiff.
	<i>Part IX.—Thirty years.</i>	
143.—Against a depositary or pawnee to recover moveable property deposited or pawned.	Thirty years ...	The date of the deposit or pawn.
144.—Against a mortgagee to recover possession of immoveable property mortgaged.	Ditto ...	The date of the mortgage : Provided that all claims to redeem, arising under instruments of mortgage of immoveable property situate in British Burma, which have been executed before the first day of May 1863, shall be governed by the rules of limitation in force in that province immediately before the same day.
145.—Before a Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction by a mortgagee to recover from the mortgagor the possession of immoveable property mortgaged.	Ditto ...	When any part of the principal or interest was last paid on account of the mortgage debt.
146.—Any suit in the name of the Secretary of State for India in Council.	Ditto ...	When the right to sue accrued.

SUPPLEMENT TO The Gazette of India.

No. 33.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Wednesday, the 21st February 1877.

PRESENT:

His Excellency the Viceroy and Governor General of India, G.M.S.I.,
presiding.

His Honour the Lieutenant Governor of Bengal.

Major-General the Hon'ble Sir H. W. Norman, K.C.B.

The Hon'ble Sir Arthur Hobhouse, Q.C., K.C.S.I.

The Hon'ble Sir E. C. Bayley, K.C.S.I.

The Hon'ble Sir A. J. Arbuthnot, K.C.S.I.

Colonel the Hon'ble Sir Andrew Clarke, R.E., K.C.M.G., C.B.

The Hon'ble Sir J. Strachey, K.C.S.I.

The Hon'ble T. C. Hope, C.S.I.

The Hon'ble D. Cowie.

The Hon'ble Mahārājā Narendra Krishna.

The Hon'ble J. R. Bullen Smith, C.S.I.

The Hon'ble F. R. Cockerell.

The Hon'ble B. W. Colvin.

The Hon'ble R. A. Dalryell.

The Hon'ble R. E. Egerton, C.S.I.

The Hon'ble Mahārājā Jotindra Mohan Tagore.

LIMITATION OF SUITS BILL.

The Hon'ble Sir ARTHUR HOBHOUSE introduced the Bill for the limitation of suits, and for other purposes, and moved that it be referred to a Select Committee. He said that at the last meeting he had given reasons which the Council thought sufficient for the introduction of some Bill, and had said that he would explain the nature of the Bill when he came to introduce it.

He would first mention that the "other purposes" which were tacked on to the expression "limitation of suits" were to provide for the acquisition of rights by prescription and to ascertain the periods of time within which applications should be made in respect of

of the Act was the limitation of suits; and in order to show the Council the nature of the amendments, he would remind them briefly of the principle upon which the Act was framed.

Now everybody knew what was the nature and object of a Statute of Limitations: its object was to prevent stale claims from being enforced; and its nature was to specify the times at which claims should be considered to be stale claims. For that purpose it was necessary to fix some point of time as a point from which the period of limitation assigned should begin to run. And, secondly, it was necessary to fix what that period should be.

With regard to the second matter, it was a comparatively easy thing to mention the length of time which should run in order to bar a claim. Of course such rules must follow general custom and convenience, and he supposed it would not be possible to frame a satisfactory time-table without considerable previous experience of law-suits. But such rules were in their own nature of an arbitrary kind. There was no reason in the nature of things why a claim which was in full force on the 31st of December should be extinguished on the 1st of January. We could assign no reason except necessity, the tyrant's plea; unless we were to let a claim run on for ever, we must draw a line somewhere. Wherever it was drawn, it must be an abrupt and arbitrary line; and it was just as easy to draw a line of that kind at one point as at another.

But the great difficulty was to fix the time which should be the starting point of the period of limitation. That had been usually done by saying that the suit should be brought within such and such a time from the creation or arising of the cause of action; and so it was done by the law which prevailed in India before the Act which they were now amending, Act IX of 1871. But such enactments as these were pregnant with numerous embarrassments. "Cause of action" was an ambiguous term; and it was found in many cases a matter of much difficulty to say when the cause of action arose. The consequence had been that there had been difficulties, disputes and law-suits innumerable turning on this expression "cause of action." It would not be difficult to state to the Council cases in which such questions were of a refined and subtle nature. But by way of illustration, he would take a case of the simplest kind and of most constant occurrence. Take the case of a bill of exchange payable at a future date, drawn by one man in favour of another; accepted by a third person, and endorsed by a fourth. When did the cause of action arise in favour of the drawee? Was it when the bill was drawn, or when it was accepted, or when it was made payable, or when it was dishonoured, or when it was endorsed, or when notice of dishonour was given to the endorsee? All these events might happen at different times, each entered into the cause of action, and of each it might be contended that it was the cause of action. Again, the cause of action would be varied according as an action on the bill was brought by the drawer, the endorser, or the endorsee. To each of these parties there would be different times at which happened the principal one of those events which together constituted the cause of action. It would be seen therefore that the use of this phrase "cause of action" led to a great deal of dispute when you came to fix the starting-point of limitation.

The principle of the Indian Limitation Act was that for the most part it abandoned the phrase "cause of action," and instead thereof specified a great number of different suits, and took for each suit some definite time or definite event to constitute the starting-point of the period of limitation. He would refer again to the case of a bill of exchange or a promissory note, which was the same thing. In the schedule of our Act no less than fourteen different cases were put relating to suits on bills of exchange or promissory notes, and in each of these cases some definite time or event had been fixed as the starting point for the period of limitation. For instance in No. 68 of the schedule it was said that a suit shall not be brought on a bill of exchange payable at a fixed time after date except within three years after the time when the bill falls due. In No. 69 it was said that a suit shall not be brought on a bill payable at sight except within three years after it has been presented. And so on through the various circumstances attending bills and notes. There were 150 different kinds of suits mentioned in the schedule, in each of which, excepting he thought only one.

some appropriate time or event was fixed as the time from which the period of limitation should be computed.

It was obvious that a law framed on this principle was much more specific and easy to work than one which was constantly referring us back to the cause of action in order to find the starting-point of time. It was also obvious that, inasmuch as the legislator took upon himself work which had previously been done by Courts of Law, he was likely to fall into mistakes by fixing sometimes inconvenient starting-points, and sometimes inconsistent ones for similar cases.

We had no reason to believe but that the existing Act had on the whole adopted convenient and reasonable starting-points, or that it was on the whole consistent and easy to work. But some cases had been brought to his notice, principally by Chief Justice Garth, in which the point fixed was not convenient, and some in which the Act was not altogether consistent with itself. These were the respects in which it was proposed to amend the Act. And it was observed by his predecessor, Sir James Stephen, when the Act was pending before Council, that one of the advantages of constructing the law on this principle was, that it would admit of amendment with great ease. It was obvious that if they were merely to alter a single item in the schedule, they could amend the Act with a less amount of consideration and trouble than if they were changing the whole principle which applied to a numerous class of cases. They had therefore taken the opportunity afforded by the necessity of making a number of alterations in order to bring part of the Act into accord with the Civil Procedure Code, to introduce other amendments which were recommended by Sir Richard Garth, or which had been noted from time to time in the Legislative Department as desirable.

He always felt great difficulty in explaining to the Council a Bill like this, which consisted of a great number of details. It would take a great deal of time, and probably the time would not be well spent, if he went through all the different items in which it was proposed to amend the law. Perhaps it would be better if he were to give two or three instances by way of sample, from which the Council could judge of the bulk, and could see the way in which they proposed to alter the Act.

He would take the 22nd item in the schedule to the Bill which answered to No. 23 of the existing Act. That item said that a suit for malicious prosecution must be brought within one year from the time when the plaintiff was acquitted. But it had been pointed out that the plaintiff might never be acquitted, and in fact no prosecution was so likely to break down as a malicious prosecution. It might be abandoned without the jury or the Judge being called on for a verdict. It was proposed to alter that No. by saying that the time when the period of limitation began to run should commence when the plaintiff was acquitted, or the prosecution was otherwise terminated.

He would take next No. 33 in the schedule to the Bill, which was equivalent to No. 38 of the existing Act, which said that a suit against one who, having a right to use property for specific purposes, perverted it to other uses, must be brought within two years from the time of the perversion. Again it had been pointed out that no cases were so likely to escape notice for considerable periods of time, as the case of a man who had lawful possession of property and had a right to use it for one purpose, but used it for another.

SIR ARTHUR HOBHOUSE said that he might hand his clothes over to the care of his valet, and go upon his travels for a year or two, and that the valet, instead of performing the usual duties of a valet and keeping the clothes clean and tidy, might wear them, and he on his return might find them dirty, patched and threadbare. Or he might leave his plate with his bankers, who instead of locking it up in their strong-room might take a fancy to use it at their entertainments and return it to him battered, dented and spoilt. In such cases the whole period of limitation might elapse before the injured man had any chance of knowing of the wrong done to him, and there was no reason why he should be so deprived of his remedy. It was therefore proposed to alter the law by providing that such a suit might be instituted within two years from the time when the perversion first became known to the person injured.

He would pass on to No. 122, which answered to No. 125 in the existing Act, which said that a suit by a Hindú governed by the law of the Mitáksharā

to set aside his father's alienation of ancestral property must be brought within twelve years of the date of the alienation. There again it had been shown that the alienation was a thing likely to be unknown to the party injured. A father and son, for instance, lived together, and the father executed a mortgage of the ancestral property; there might be no change of possession and nothing might be known to the son of the alienation that had been made. They might perhaps continue to live together, and the father might die twenty years after the alienation, and then it might be found that an alienation had been effected, and the son was barred of his right merely by lapse of time, although he did not know of the act which constituted the alienation. It was proposed to alter that by saying that a suit might be brought within twelve years of the time when the alienee took possession of the property. Change of possession was a fact which must be known and which must call everybody's attention to what had taken place, and it was right enough that if with that notice of an invasion of his property the injured man did not stir to protect it, he should be barred by time.

The next item which he would notice was No. 123, which answered to No. 127 of the existing Act. The Act said that a suit by a Hindú excluded from joint family-property to enforce a right to share therein must be brought within twelve years from the time when the plaintiff claimed and was refused his share. There the starting-point was the claiming of the share; but a man might not choose to claim his share; he might allow his claim to lie by thirty forty or fifty years, seeing himself excluded: and at the end of fifty years, he might claim his share, and from that time the period of limitation would begin to run. He had been informed by the Chief Justice that such a case had recently happened, in which a man saw himself excluded from property for twenty or thirty years, during which time he had stood by and made no claim. At the end of that time he turned up and made a claim, and it was found that the statutory limitation had not run against him. It was proposed to alter that, and to provide that such a suit should be barred by the lapse of twelve years from the date of the exclusion.

He had mentioned cases in which the Bill altered the starting-point of the periods of limitation. There were some other alterations of the same kind. In other cases the Bill altered the length of the period of limitation. Take for instance No. 39 of its schedule, which answered to No. 11 of the existing Act. The Act said that a suit for damages for infringing copy-right or any other exclusive privilege must be brought within one year from the date of the infringement. Now that was a kind of case in which it often took more than a year for the injury to assume sufficient proportions for the injured person to know anything about it, or for him to think it worth while to bring a suit. A piracy may be committed on a book which for a year or more may meet with no success, but after that, by dint of advertising or by some good luck, the piratical work may meet with a great sale, interfere seriously with the genuine one, and make it worth the author's while to protect his rights. In such case he would find that his chance of protection was gone. Therefore it was proposed to fix a limitation of three years for such cases.

The other points in which the Bill altered the periods of time were the last three suits mentioned in the Act, in which the enormous period of sixty years had been allowed. That was a continuation of old law, and was generally felt to be inconvenient. The cases in which this lengthened period of time was allowed were—(1) suits against a mortgagee to recover possession of immoveable property mortgaged; (2) before a Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction by a mortgagee to recover from the mortgagor the possession of immoveable property mortgaged; (3) any suit in the name of the Secretary of State for India in Council. The Bill proposed in these cases to fix the more moderate period of thirty years.

The body of the Act contained some general rules applying to *all* suits mentioned in the schedule, and in one or two of these the Bill proposed to make some addition to the law. Section 7 provided for the case of persons who were under successive disabilities. For instance, at the time when a right to sue accrued, a man might be an infant, and before he attained his majority, he might become a lunatic. Here no point of time had occurred during which such person could bring a suit. The question was whether the starting-point

for the period of limitation should not be after he was free from disabilities. It was not so provided in the existing Act, SIR ARTHUR HOBHOUSE thought, on the sole ground that such consecutive disabilities were exceedingly rare. The attention of the Legislative Department, however, had been called to this omission, and he thought it a sound principle that every man should, if possible, have some time in which he might bring a suit when he was freed from disabilities. They had adopted the rule of the English law, that when two disabilities were concurrent, the period of limitation should not begin to run until both those disabilities ceased.

Section 30 of the Bill provided for the case of a series of trespassers on land adverse to one another and to the rightful owner. A case might happen in which successive squatters occupied land for periods of time sufficient in the aggregate to bar a suit by the owner. Which should retain the property? It was not a case which often happened, but it did sometimes, and so it was necessary to say which of the wrong-doers should have the property. He thought that it was more convenient and more defensible in principle to let the property be retained by the man who was in possession when the rightful title was extinguished. If the successive trespassers had relations with one another which gave to one a right of possession as against another, that right might be enforced. But if they were entire strangers to one another, and all were alike wrong-doers as regards the rightful owner, the possession had better remain where accident placed it at the time when the law said that no suit should be brought by the rightful owner to disturb it. It had been so decided by the late Master of the Rolls a few years ago.

He did not know that he need go further into the details of the amending Bill. He had given specimens of the various kinds of amendments which had been proposed. If any of his hon'ble colleagues wished to go further into the matter, he should be glad of it, and would be happy to postpone his motion to refer the Bill to Committee. He hoped that in that case his hon'ble colleague would read the Bill and the Statement of Objects and Reasons, in which every one of the alterations was specified, and would state his views before the Bill went into Committee. But perhaps the Council would be content to leave the matter in the hands of the Select Committee: if so, they would accept the motion he had to make, that the Bill be referred to a Select Committee.

The Hon'ble MAHÁRÁJÁ JOTÍNDRA MOHAN TAGORE would beg to draw the attention of the Council to one or two points in the Bill. In the first place he would observe that under section 27, any person who had enjoyed the use of light, air or a water-course for twenty years without interruption, acquired thereby an absolute and indefeasible right to the easement. Then, by section 24, in the case of a continuing wrong, a recurring right to sue arose at every moment of the time during which the wrong continued. Suppose the person to whose prejudice this right to easements were exercised felt that he had a continuing wrong, in that case MAHÁRÁJÁ JOTÍNDRA MOHAN TAGORE thought that twenty years' use would not give a prescriptive right; for this section provided that, in the case of a continuing wrong, a fresh period of limitation began to run at every moment of time during which the wrong continued. He might be mistaken, but it appeared to him that the two sections taken together were somewhat inconsistent.

Then with regard to No. 123 of the schedule, which corresponded with No. 127 of the existing Act, and to which the hon'ble and learned mover of the Bill had just alluded, he observed that the period of limitation to enforce his right in the case of a Hindú excluded from joint family-property was proposed to be fixed at twelve years from the date of the exclusion. The existing law provided that the period of limitation should run from the time when the party claimed and was refused his share of the property, but in the present Bill it was proposed to alter the limitation to twelve years from the date of the exclusion. The Mahárájá must confess that this provision might operate very harshly upon a person (a Native of Bengal for instance) who had been living for a long time in the Panjáb; he might not have the opportunity of knowing when he was excluded. His co-sharers might have executed a document excluding him, and registered it, without his having the opportunity of knowing it. It would be very hard therefore if the period of limitation were to run from the date of the exclusion, and not from the time when he claimed and

was refused his share : it was from no wilful negligence that he had no knowledge of his exclusion.

Then again in No. 42 the period of limitation was to run from the date when a sale had been effected by the guardian of a ward. But in other cases the principle had been adopted that the date of limitation in the case of minors and wards should run from the date when they attained their majority. MAHÁRÁJÁ JOTÍNDRA MOHAN TAGORE did not see why there should be an alteration in computing the period of limitation with regard to sales by the guardians of wards.

In other parts of the Bill some discrepancy occurred with regard to the periods of limitation fixed by the Civil Procedure Code and by this Bill. In No. 151, for instance, it was provided that an application for an order under section 258 of the Code, compelling a decree-holder to certify payment or adjustment, should be made within ten days from the time when the payment or adjustment was made. In the Civil Procedure Code it was provided that such applications should be made within eight days. And so in No. 153, for leave to appear and defend a suit under chapter XXXIX of the Code.

Then No. 160 provided that applications under section 364 or 366 of the Civil Procedure Code by persons claiming to be the representatives of deceased plaintiffs should be made within thirty days from the date of the plaintiffs' death. That appeared to MAHÁRÁJÁ JOTÍNDRA MOHAN TAGORE to be too short a time. In most cases thirty days was the time of mourning for Hindús, and unless the time was extended, it might operate harshly : a man could not be expected to come forward and put in his claim within the period of mourning.

These were the points in the Bill to which he would invite the attention of the Council, in order that they might receive the consideration of the Select Committee.

The Hon'ble SIR ARTHUR HOBHOUSE thought it would be most satisfactory, if his hon'ble friend Mahárájá Jotíndra Mohan Tagore consented to it, that he should be placed upon the Select Committee. He had paid great attention to various items in the schedule, and he would have an opportunity to state his views in Committee. It would not be convenient if we entered into a discussion of the various items in the schedule at the present time.

The Motion was put and agreed to.

The Hon'ble SIR ARTHUR HOBHOUSE moved that the Bill be published in the *Gazette of India* in English, and in the local Gazettes in English and in such other languages as the Local Government directs.

The Motion was put and agreed to.

PRESIDENCY MAGISTRATES BILL.

The Hon'ble MR. HOPE presented the final Report of the Select Committee on the Bill to extend certain parts of the Code of Criminal Procedure to the Courts of Police Magistrates in the Presidency Towns.

CIVIL PROCEDURE BILL.

The Hon'ble SIR ARTHUR HOBHOUSE moved that the Hon'ble Mahárájá Jotíndra Mohan Tagore be added to the Select Committee on the Bill to consolidate and amend the laws relating to the Procedure of the Courts of Civil Judicature.

The Motion was put and agreed to.

The following Select Committee was named :—

On the Bill for the limitation of suits, and for other purposes—The Hon'ble Sir E. C. Bayley, the Hon'ble Messrs. Cockerell and Dalyell and the Mahárájá Jotíndra Mohan Tagore and the Mover.

•The Council adjourned to Wednesday the 28th February 1877.

WHITLEY STOKES,

*Secretary to the Government of India,
Legislative Department.*

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

**ACKNOWLEDGMENT OF THE SERVICES OF COLONEL C. H. DICKENS,
C.S.I., R.A.**

No. 183 E—G, dated Fort William, 7th February 1877.

From—Major-Genl. W. A. CROMMELIN, R.E., Secy. to the Govt. of India,

To—Colonel C. H. DICKENS, C.S.I., R.A.

I am commanded to inform you that the Governor General in Council cannot allow you to vacate the office which you have so long filled, of Secretary to Government in the Public Works Department, without expressing to you His Lordship's appreciation of the very able and important services you have rendered to the State.

2. As far back as 1851, in the discharge of your duties as an Executive Engineer, you had attracted the attention of the Supreme Government. This led to your being selected as Assistant Secretary to the Military Board, where, on the organisation of the Department with which you have ever since been connected, the whole labour of codifying the regulations for the guidance of its officers fell upon you. That labour was rendered all the more heavy, not only because the Code had to be evolved from a heterogeneous argglomeration of isolated orders, but also because the constant issue of new regulations, as the Department gradually became developed, involved eventually an almost complete reconstruction of the work.

3. But whilst this Code was in progress, you also disposed of the heavy arrears of the Military Board; and when, on the abolition of that body, the departmental accounts of the several Governments and Administrations in India required re-organisation, the task was entrusted to you, and the reforms were carried into effect by you in a manner which elicited from Lord Canning the encomium: "I wish that every officer, high and low, were actuated by the temper and true public spirit shewn in Captain Dickens's remarks." (May 1860).

4. Since those words were written, the extension of public works in India, more especially the development of the railway system, both by the agency of the State and by private enterprise, has added largely to your responsibilities; and in accepting them, your devotion to the duties which they involved has been no less conspicuous than the exercise of judgment in their administration, as liberal as it was cautious and as comprehensive as it was sound.

5. The periodical forecast of expenditure on projects for the construction of the great reproductive works of India, in order to secure their continuity of economic execution till completion, is a measure which owes its conception to your experience, and which would of itself alone have been sufficient evidence of your administrative capacity.

6. But it is not only in this capacity that you have distinguished yourself; for it was with you that the Behar Irrigation scheme originated, and it was by you that the details of that project were perfected; your report on the re-organisation of the Survey Department, and the formation and training by you, during the trying epoch of the Indian mutiny, of a Battery of Volunteer Artillery, show how varied have been the fields in which you have successfully laboured.

7. The Governor General in Council commands me to convey to you this record of His Lordship's appreciation of your official career, and to express also the regret with which the Government of India views the cessation of your connection with the public service.

**ABSORPTION OF THE SEVERAL SPECIAL DIVISIONS OF THE MILITARY WORKS
BRANCH INTO THE ORDINARY MILITARY DIVISIONS.**

No. 74—76 E—M & C., dated Fort William, 23rd February 1877.

RESOLUTION—By the Govt. of India, P. W. DEPT.

Read the following papers:—

Public Works Department Notification No. 205 of 12th April 1872.

" " Resolution Nos. 1565—83 E—G of 10th September 1874,
and letter from Inspector General of Military Works, No. 6966, dated 4th
November 1876.

RESOLUTION.—In re-organizing the Military Works Branch of the Public Works Department in 1872, it was decided to divide the charges primarily into "Special" and "Ordinary."

2. Three special circles were formed, each under a Superintending Engineer, with a Chief Engineer for their general control.

3. These special circles were intended mainly for the supervision of the construction of important original projects and of new sets of buildings, of which several remained to be carried out, as it was thought that a complete and specially trained staff should be devoted to these works.

4. Under present circumstances it is no longer necessary to retain this arrangement in the circles or charges of Superintending Engineers; but the principle involved is no doubt sound, and should continue to be applied to the Executive charges so far as may be practicable—as in the cases of the Peshawar Works and the Rawul Pindi Arsenal.

5. It is then possible to re-arrange the charges of the Superintending Engineers in such a manner as to meet the very important object of making them conterminous with the Divisional and District Commands of the Army to such extent, at least, that no Commanding Officer will have more than one Superintending Engineer to look to for the control of the Military Works within his Command.

6. In accordance with the new arrangement the Chief Engineer of the Special Branch will no longer be required as such, but an Officer of high standing will still be necessary to aid the Inspector General, and the Officer now called Chief Engineer will be retained with the designation of Deputy Inspector General. The Office Establishment of the Chief Engineer as a separate one will be abolished, but the Inspector General is authorized to take such of its members as he may require to strengthen his own Office, submitting details to the Government of India for formal sanction. Such of the members of the Office as may not be required must be provided for by being drafted to vacancies in other Offices as opportunities may offer, and failing this, their services must be dispensed with, the authorized gratuities being paid to them.

7. Under the new arrangement it will also be possible to supply a want which has long been felt, and to increase the Head-quarter's staff of the Inspector General's Office by the addition to it of an experienced Officer with the pay and rank of Superintending Engineer, whose principal duties will be the preparation of general designs, estimates and standard plans, and the examination and supervision of general working details. This may be done without additional expense, because seeing that this Officer will relieve Superintending Engineers of some of their duties, the number of superintending circles may be reduced from 7 to 6. The Officer in question will require the aid of Assistant Engineers and Draftsmen, but this can be arranged for without any increase of Establishment or expense.

8. The approved re-arrangement of charges is shown in the tabular form appended, and is within the scale of Establishment already authorized.

ORDER.—Ordered, that a copy of this Resolution be forwarded to Financial and Military Departments for information, and to Inspector General, Military Works, with a request that he will take the earliest possible measures for giving effect to the views of the Government of India.

W. A. CROMMELIN, *Major-General, R.E.,*
Secy. to the Govt. of India.

Inspector General.

Deputy Inspector General.

Superintending Engineer (attached to Inspector General's Head Quarters).

DESPATCH FROM H. M.'S GOVERNMENT REGARDING THE SCARCITY IN
• THE DECCAN AND SOUTHERN MAHRATTA COUNTRY.

• No. 5, dated India Office, London, 25th January 1877.

From—Her Majesty's Secretary of State for India,

To—The Government of Bombay.

THE despatch of Your Excellency in Council, dated 5th December, No. 44 of 1876, describing the main course of events regarding the scarcity which has for some months prevailed in the Deccan and Southern Mahratta Country, and the principles by which Your Government has been guided in its endeavours to relieve the existing distress, has been considered in Council.

2. The note which accompanies the despatch states with clearness and precision the condition of the problem with which your Government has to deal, and it cannot be doubted that the situation is one of the gravest character, and that the prospect must naturally call forth the greatest anxiety.

3. The policy of Your Excellency in Council in not interfering with the operations of private trade by becoming yourself, to any extent, a purchaser in the market, has my approval. I am glad to find that its beneficial results are already apparent in the activity of private enterprise, and I am glad to observe that the affected districts are now well supplied with grain. The condition of prices up to the date of the last report is reassuring.

4. With respect to relief works, I have a just confidence that Your Excellency in Council will, as the Government of India states, "exercise the discretion vested in you, so as to prevent any loss of the lives of Her Majesty's subjects without incurring any expenditure of public money in excess of the necessities of the case." With respect to the discussion as to the magnitude of the works to be undertaken, I understand from a telegram of the Government of India, dated 3rd of January, that the Governor-General in Council has, under certain conditions, withdrawn the prohibition previously expressed, and left the entire subject to the exercise of your discretion. Under these circumstances, no remark is at present demanded from me.

5. The measures adopted with respect to the cattle, and the general policy as to gratuitous relief and the transport and importation of grain, have my approval.

6. I will await the result of your deliberations on the subject of the grant of remissions.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

EXPENDITURE ON LARGE PUBLIC WORKS.

No. 10 (Revenue), dated India Office, London, 25th January 1877.

From—The Secretary of State for India,

To—The Government of India.

I DESPATCHED to Your Excellency the following telegram, dated 16th instant, copy of which is given in the margin.

Telegram, 16th January 1877. "Important financial rules were laid down to restrict extraordinary expenditure to works shown to be remunerative. If larger projects, not complying with this condition, nevertheless supply means of giving employment for relief purposes, which should not be neglected, I leave you discretion to authorise work on them if designs are sufficiently matured, taking all possible precautions against future liabilities, and reporting to me your orders. You can, if you consider it expedient, apply this principle to Chingleput Extension Railway, before not allowed."

large public works. I felt assured that, when I left to Your Excellency full discretion in these cases, the necessity for continued caution in undertaking the larger class of works would be apparent to you, and that the grave financial prospects that are before your Government would rather increase than diminish your desire to avoid embarking in any project likely to lead to embarrassment hereafter.

3. It is already manifest that the circumstances are such that a necessity for commencing some works of magnitude may at any instant arise, or, in fact, may already have arisen, and I have complete confidence, in leaving Your Excellency quite unfettered in this respect, that your attention will be carefully directed to guard against preventible future inconvenience or loss, while you vigorously apply all possible remedies to meet the present calamity.

Eleven cents of rain have fallen in Sholapur.

The price of grain has slightly risen in Khandesh, but remains nearly unchanged throughout the remaining eight Collectorates.

The number of people upon Relief Works is 248,902, against 238,219 last week, and there are also 2,521 hill-men and immigrants upon Relief Works in Ratnagiri and Kanara. There is thus an increase of 10,683, as compared with last week, in the nine affected districts, and a decrease of 3,785 in Ratnagiri and Kanara, or a net increase of 6,308 in the number of famine labourers. The local Officers report that the Solapur people—considerable numbers of whom are now finding employment upon the Mhaswad Tank, in the neighbouring Collectorate of Satara—continue, though slowly, to return to the Relief Works they left when more rigorous discipline and task-work were enforced.

2. Government have sanctioned the survey necessary for the extension of the Mutha Canal from Warwand to Patus.

On the 30th of November last, Government submitted to the Government of India an estimate of the cost of Relief Operations, amounting to 140 lakhs of rupees. At that time, a large number of small works were in progress or contemplated, and the maximum monthly average of labourers upon Relief Works was estimated at 900,000; but recent arrangements having enabled Government to concentrate relief labour upon a comparatively small number of large works under efficient supervision where fair tasks can be exacted, and which are some distance from the majority of the villages in the various districts, it is believed that the maximum average of relief labourers during the worst month will not exceed 650,000.

Under these circumstances, Government have reduced their estimate to 116 lakhs, including the cost of charitable relief, extra establishment, tools and plant, &c.

This reduction is exclusively due to the estimated decrease in the number of people seeking relief on works; the average rate of wages used when the original estimate was made, is still retained.

3. Two tables are appended, one, (A), contrasting the number of people upon works under Civil and Public Works Agencies, respectively, from the commencement of December till February 10th; the other, (B), giving the respective numbers of men, women and children upon Relief Works during the same period. The figures shown are averages of the weekly attendance, abstracted from the Weekly Progress Returns, and do not exactly correspond with the figures of the Weekly Statements, which are taken from telegrams sent by the Collectors.

It will be seen that on the 10th February the number upon Civil Works had been reduced to about one-fourth of the total. From table (B) it will be noticed that the women slightly exceed the men in number—a result probably due to a larger emigration of men than of women, with cattle, and in search of labour beyond the limits of the affected districts. The number of children is about one-sixth of the total number of work-people.

4. Two maps accompany this Statement; one, showing, by tints, the comparative intensity of the present distress, and, by figures, the number of people upon Relief Works in the different Collectorates, the price of the staple food-grain, and the expenditure incurred upon Relief Operations: the other, showing the principal Relief Works. These maps are on a reduced scale, that formerly sent being too large to be convenient. The full information required is better shown by using two maps.

5. The following table gives the expenditure by Government upon charity, in the relief of the aged and infirm poor, and in payments made to the young children of labourers employed upon Relief Works: from want of information from all the districts, this return is still incomplete:—

DISTRICT.	Collectors' Discretionary Grant.			Expenditure incurred on account of children under 7 years of age whose parents are upon Relief Works.		
	Average number of persons relieved during the week ending 17th February.	Expenditure during the week.	Total Expenditure up to date.	Average number of Children, and of Women taking care of them.	Expenditure during the week.	Total Expenditure up to date.

6. A table is appended, showing the condition of the affected Native States.

7. With regard to the movement of food-grains, 5,300 tons were exported from Bombay to the Southern Mahratta Ports during the week ending 15th February, and during the same week 3,308 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Nasik-Bhosawul lines, making a total of 8,608 tons for the week.

8. On the whole, the only change is the slight increase in the number of people upon Relief Works.

M. K. KENNEDY, Major-Genl., R. E.,
Secretary to Government.

NOTE.—The totals are not invariably the sum of the men, women and children, as in a few returns these particulars have not been given, the total number of labourers alone having been entered.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

RELIEF REPORTS FOR THE WEEK ENDING FEBRUARY 1877.

Proceedings of the Board of Revenue, dated 19th February 1877.

The Board submit to Government the Relief Reports for the week ending 10th February.

Nellore. • Salem. The usual abstracts and maps of the districts noted in
Chingleput. Coimbatore. the margin accompany.
North Arcot. Bellary.

2. *Prices.*—There is, apparently, a reaction in the Kristna District, the average prices of the then inferior food-grains having slightly risen. That of rice, however, has fallen slightly. The Board noticed, in last Report, a large exportation from the Kistna District into Nellore, where the average prices of the four principal food-grains have again declined. The fall is chiefly in the extreme south and the extreme north, pointing in both cases to importation. There is scarcely any change in Chingleput. In the Ceded Districts, the prices of all grains show tendency to fall, which is most marked in Kurnool. There are some fluctuations in the several taluqs, but of no great importance; the most noticeable in Bellary being a fall in Dharmaveram and a rise in Pennakonda. From Cuddapah, prices for Madanapally, Pulivendala, and Sidhout are wanting. In North Arcot there is little change. The movement of prices noticed last week for the remaining districts, *viz.*, a slight fall in Salem, prices stationary in Coimbatore, and rising in Trichinopoly, Madura, and Tinnevelly, continues, and points to importation from the Southern districts into Coimbatore.

3. *Rainfall.*—Rain is reported from Cuddapah, North Arcot, and Coimbatore. In the first-named district, a heavy shower (1·2 inches) fell at Peelair; but only 0·1 inch was registered at Voilpand, the Cusbah of the taluq, and the same quantity at Royachoti. The rain extended into North Arcot as far south as Narayanaveram (Puttoor Railway Station), where 1·1 inches were registered. In Coimbatore a slight shower fell at Udumalpettah.

4. The grant made up to the 10th February was 80,69,763, and from this sum Rs. 67,07,619 had been expended on relief works. The outlay in the week was Rs. 5,94,007. The grant had been slightly exceeded. The following Statement shows the totals of works according to class, of which details for districts will be found in Abstract 4. The Kurnool District is not included.

				Estimated cost.	Outlay.	
					In the week.	Up to the end of the week.
					Rs.	Rs.
Roads	...	...	...	40,17,644	3,66,468	33,30,679
Irrigation works	...	...	...	4,72,430	28,575	2,80,519
Miscellaneous	...	...	...	5,61,638	39,725	3,56,515
• TOTAL				50,51,712	4,34,768	39,67,713

5. *Numbers on relief works.*—The numbers are compared by districts below :—

				3rd February.	10th February.	
Kistna	...	...	...	3,151	2,874	— 277
Nellore	...	...	...	58,782	57,006	— 1,776
Cuddapah	...	...	...	1,35,526	1,17,769	— 17,757
Bellary	...	...	...	3,11,503	3,44,343	+ 32,840
Kurnool	...	...	...	2,91,211	2,38,734	— 52,477
Chingleput	...	...	...	10,175	12,779	+ 2,604
North Arcot	...	...	...	22,204	21,524	— 680
Trichinopoly	...	...	...	770	647	— 123
Madura	...	...	...	6,335	7,832	+ 1,497
Tinnevelly	...	...	...	1,801	1,338	— 463
Coimbatore	...	...	...	24,132	23,733	— 399
Salem	...	...	...	30,170	39,154	+ 8,984
TOTAL				8,95,760	8,67,733	— 28,027

There is thus a decrease of 28,027 on the whole, and in every district except Bellary, where the increase is very large, Chingleput, Madura and Salem.

6. The *Nellore* taluq return shows again a large decrease in Atmakur and an increase in Kavali, where, according to last report, there was a heavy decrease. Evidently the system of report is at fault. In the other taluqs of the district there is no change of importance. The absence of increase in this district on the whole is probably due to the drafting of coolies to the East Coast Canal, on which there are now 18,045 against less than 5,000 a few weeks ago. The decrease in *Cuddapah* still continues, the numbers being for the last four weeks, 210,550, 170,704, 135,526, and 117,769. The taluq details, as compared with last week, are as follows :—

Jammamadu	...	...	...	11,272	10,539	—	733
Pullivendla	...	...	...	11,653	11,653*	—	...
Proddatur	...	...	...	4,079	2,987	—	1,092
Budwail	...	...	...	9,567	6,788	—	2,779
Cuddapah	...	...	...	6,443	7,712	+	1,269
Sidhaut	...	...	...	5,900	5,901*	+	1
Pullampett	...	...	...	9,471	8,955	—	486
Royachoti	...	...	...	15,987	10,773	—	5,204
Kadiri	...	...	...	14,398	11,874	—	2,524
Voilpaul	...	...	...	17,655	11,316	—	6,339
Madanapalli	...	...	...	29,101	29,241*	+	131
TOTAL				135,526	117,769	—	17,757

For three taluqs* reports are wanting, and the figures of last week are taken. In two of these, as will be seen from the Board's last reports, numbers had been decreasing for three previous weeks, and it is probable that this has continued and that the decrease in the district is greater than that above shewn. The decrease in Kadiri, Royachoti, and Voilpaul amounts to 40,000 in the three weeks since the 20th January. The "weeding" of the gangs has gone great lengths, and Mr. Price's report on the subdivision is anxiously awaited. The re-entertainment of the Mysore coolies under recent orders from Government will probably send the numbers up again. The following are the taluk details for the Bellary District :—

	3rd Feb.	10th Feb.		Present numbers per cent. of population.
Adoni	80,821	88,723	+ 7,902	48.9
Alur	40,202	51,906	+ 11,704	52.8
Gooty	25,176	25,062	— 114	17.3
Tadpatri	12,398	12,833	+ 435	11.0
Anantapur	12,430	16,615	+ 4,185	16.2
Dharmavaram	13,099	9,736	— 3,363	8.1
Pennakonda	8,489	5,620	— 2,869	6.3
Hindupur	2,497	4,999	+ 2,502	5.7
Madaksira	13,517	22,690	+ 9,173	28.6
Raidrug	8,200	3,689	— 4,511	4.2
Bellary	46,049	49,257	+ 3,208	27.0
Hospett	6,634	13,455	+ 6,821	12.4†
Kudligi	19,374	19,819	+ 445	21.3
Harpanhalli	11,007	8,273	— 2,734	9.4
Hadgalli	11,610	11,666	+ 56	13.0
TOTAL	311,503	344,343	+ 32,840	20.6

The enormous numbers in Adoni and Alur, which seem to be steadily increasing, demand the Collector's attention, and are inexplicable to the Board. Mr. Master is requested to report at once the cause of the increase which must, the Board think, be due to the influx of foreign subjects. The Board regret to note an increase in the Bellary taluk. The increase in Hindupur (where, however, the percentage to population is low) and Madaksira, looks as if Mysore coolies were being re-admitted, but there has been a decline in Hindupur, Pennakonda and Raidrug. No explanation of any of the variations is given in the return. The Collector will enjoin upon the Tahsildars the necessity of furnishing such explanation with these reports. The Board hope that the increase of numbers in Bellary is not to be ascribed to relaxation of efforts to restrict relief to those who are fit subjects for it.

The enormous decrease in Kurnool cannot be explained until the detailed figures are

* Pulivendla, Sidhaut, and Madanapalli. The figures are incorrectly given for the last two taluqs. Hence apparent increase.

† Sundar State included.

received. The increase in *Chingleput* occurs in the Madrantakum and Chingleput taluks. In *Salem*, it is chiefly in the subdivision. No less than 3,378 coolies are employed in Ahtur. The Collector will furnish without delay the report called for as regards works in this taluk. The variations in the numbers in other districts do not call for remark.

7. *Rules of Wages*.—There is little to notice under this head. The scale prescribed in the orders of January last (2 annas, 1 anna 4 pies, and 10 pies) has been enforced almost everywhere, but grain wages are still paid unnecessarily in a few places, *viz.*, Jummalamadugu and Prodattur in Cuddapah, Satter in Tinnevelly, Hindupur and Bellary, in the Bellary District. The Collector of Tinnevelly has been repeatedly ordered to discontinue grain wages in Satter and will report why he has not done so. The maximum of money wage in the district is 1 anna 6 pies.

8. *Gratuitous Relief*.—The following table shows the numbers in each district as compared with last report:—

	3rd Feb.	10th Feb.	
Kistna	455	Not reported.	— 455
Nellore	9,539	5,406	— 4,133
Cuddapah	1,623	1,723	+ 100
Bellary	28,129	14,386	— 13,743
Kurnool	3,674	3,567	— 107
Chingleput	8,081	4,419	+ 1,338
North Arcot	...	324	+ 324
Madura	296	557	+ 261
Tinnevelly	92	71	— 21
Coimbatore	93	1,809	+ 1,716
Salem	6,157	4,536	— 1,627
TOTAL	53,139	36,792	— 16,347

9. The decrease in Bellary when this form of relief has hitherto been too lavishly given is satisfactory. In Hindupur, where some fraud was discovered, the numbers have fallen from 8,630 to 677, and in Adoni, where there were 2,606, there are none according to the present report. In Gooty also there has been a large decrease. In *Nellore* the numbers have fallen 50 per cent. in the Atmakur and Kavali taluks where 7,521 persons were in receipt of it on the 3rd February. The Collector of Coimbatore is requested to report why the numbers have suddenly sprung up. In Udumalpetta 1,600 persons are now receiving gratuitous relief, though there were none in the previous week. The decrease in Salem is due to the camp system. The outlay on gratuitous relief during the week was Rs. 20,024 against Rs. 26,777 in the previous week.

10. The total outlay to date is reported as follows. The Presidency and the East Coast Canal and Special Establishments being excluded:—

	In the week.	Up to the end of the week.
Relief Works	5,94,007	67,07,619
Gratuitous Relief	20,024	2,12,472
	6,14,031	69,20,091

11. The usual Statement of grants sanctioned for relief expenditure by Collectors to the date of these Proceedings accompanies. The total is Rs. 80,94,763.

12. Statements showing the strength and cost of Special Establishments have been received from some districts and are abstracted below:—

	Number.	Pay per mensem.
		Rs.
Salem*	191	5,674
Madura†	56	1,049
Tinnevelly	34	349
Bellary	1,072	17,009‡
	1,353	24,081

* Includes four special superior officers drawing Rs. 1,880 and a contingent from the survey party.

† No superior officers. Mr. Special Assistant Turner, being omitted, a survey contingent is included.

‡ Includes five superior officers drawing Rs. 1,430.

A return has been received from Coimbatore, but it is not intelligible.

**IRRIGATION REVENUE REPORT OF THE NORTH-WESTERN PROVINCES
FOR 1875-76.**

Nos. 24—39 I.—Fort William, 5th February 1877.

Read—

Letter No. 1824A of the 4th December 1876, from the Government of the North-Western Provinces, forwarding the Irrigation Revenue Report of those Provinces for 1875-76, together with a Resolution reviewing it.

OBSERVATIONS.—This report, which has been punctually submitted, is one of considerable interest, and shows satisfactory results.

2. The Capital Account has been increased during the year under review by Rs. 40,38,381, and at the close of the year the total capital expended amounted to Rs. 4,93,95,259, of which Rs. 3,98,56,800 was on completed works paying revenue, and of the balance, Rs. 95,16,459 was on incomplete works which at present yield no return, and Rs. 2,21,970 on works now abandoned.

3. There appears to be a slight error in the figures given in the 3rd para. of the Chief Engineer's Review detailing the expenditure of the year under the heads "Ordinary" and "Extraordinary." The figures given are "Ordinary" Rs. 3,41,461, "Extraordinary" Rs. 36,96,920. They should have been "Ordinary" Rs. 3,41,451, "Extraordinary" Rs. 36,96,930, according to the figured statements; but as in these returns the outlay of Rs. 65 on the Eastern Ganges Canal has been erroneously classed as Extraordinary, a further alteration is necessary, and the corrected totals will stand thus—"Ordinary" Rs. 3,41,561, "Extraordinary" Rs. 36,96,865.

4. The net profit on the year's transactions was Rs. 24,25,894, including indirect returns, giving a profit of 6·08 per cent. on the capital sunk on works in operation, including the Agra Canal, which has barely commenced irrigation; and a profit of 4·91 per cent. on the entire capital sunk, including works under construction and abandoned.

5. In the 4th para. of the Chief Engineer's Review the income assessed by Canal Officers for the year is said to be Rs. 29,85,606. This sum is less by Rs. 4,803 than that shown in the Examiner's abstract at page xxiii; no explanation of the discrepancy, which occurs in the item of water-rate, Rohilkhund Canals, is given, but the Chief Engineer's figures are assumed to be correct.

6. The net income for the year based on the return of realisations after meeting the year's charge for interest shows a sum of Rs. 5,92,757 available for reduction of accumulated interest charges on works in operation; or, allowing for interest on works under construction, the accumulated interest charges for the entire Department are reduced this year by Rs. 2,19,897. If the calculation were based on assessments instead of realisations, the result shown would be more favorable by upwards of a lakh of rupees.

7. In the 12th para. of the Chief Engineer's Review it is stated that the interest charges on works in operation were Rs. 2,10,713 in excess of the direct assessments. The term "direct assessments" was probably written by mistake instead of "net direct revenue."

8. The attention of the North-Western Provinces Government is invited to the necessity for adding to the Capital Account of each canal such portions of the outlay on drainage works as may appertain to it: these sums have been placed under the heading "Other Works" pending the receipt of orders, and as orders have since been issued, adjustments should be effected as early as possible.

9. The receipts from irrigation works are shown to be still expanding, but it is also apparent that the working expenses have been expanding in a larger ratio, causing a slight falling off from the percentages of profit realised in the preceding year. The Government of India trusts that the necessity for careful watch over this portion of the expenditure will be kept in view.

10. The area irrigated is also increasing on the whole, and the Government of India notice with satisfaction that for the year under review the area is the largest recorded since the famine in 1868-69.

11. With reference to para. 7 of the Resolution by His Honor the Lieutenant-Governor, and to para. 57 of the Chief Engineer's Review, the Government of India desire that the Hindun Dasnah Navigation Project should receive early consideration.

12. The views of His Honor the Lieutenant-Governor regarding the assessment of owner's rate on canal irrigated lands, referred to in the concluding paragraph of the Resolution, will be awaited.

ORDER.—Ordered, that copies of this Resolution and of the Report be forwarded to the Secretary of State and to the Financial and Revenue Agriculture and Commerce Departments for information.

Ordered also, that copies of the Resolution be forwarded to the Government of the North-

PUBLIC WORKS DEPARTMENT,
IRRIGATION BRANCH.

No. C. 283A., dated Camp, 22nd November 1876.

RESOLUTION—By His Honor the Lieutenant-Governor, N. W. Provinces.

Read—

Review of Irrigation Revenue Report, North-Western Provinces, for 1875-76, by the Officiating Chief Engineer.

His Honor has read with much interest the Officiating Chief Engineer's review of the operations of the Irrigation Department in the North-Western Provinces during 1875-76, and has much pleasure in expressing his entire satisfaction with the results exhibited in it. To all the Superintending Engineers concerned but especially to Major Moncrieff, Superintending Engineer of the Ganges Canal, Sir G. Couper offers his thanks for the manner in which they have discharged their duties.

2. With reference to Colonel Brownlow's remarks in para. 36 of his review, His Honor observes that there is no present intention of recommending any increase in water-rates beyond the limit of the rates approved by the Government of India for the Agra Canal, but that the propriety of extending these rates to the Ganges and Eastern Jumna Canals may advantageously be considered.

3. The attention of the Board of Revenue should be drawn to the increase of uncollected balances of water-rate on the Ganges Canal at the close of the year under review.

4. His Honor will reserve his opinion upon the advisability of modifying or maintaining the existing rates for water-power employed on a large scale (alluded to in para. 46 of the Chief Engineer's review) until he has been furnished with more detailed information on the subject, but endorses most fully the recommendations made in paras. 47 and 66 of the review, that the very useful mill for crushing sugar-cane designed by Lieutenant Clibborn should be extensively introduced, and the driving power employed also to work "rice-huskers" where such an application of it appears likely to yield profitable returns. The attention of the Superintending Engineers of the 1st and 2nd Circles should be especially turned to this subject.

The Superintending Engineer of the 2nd Circle should also lose no time in submitting proposals for economizing the available water-power of the Dehra Dun.

5. The establishment of a Government boat train on a moderate scale does not seem in any way objectionable on the Agra Canal, where no private interests can be injured by it, and where it would advantageously familiarise the native traders with canal navigation; but His Honor is opposed to any interference with the action of private carriers by establishing a Government train on the Ganges Canal.

6. While approving generally of the arguments advanced by Colonel Brownlow in para. 55 of his review, Sir G. Couper would like to see the question of the best size of boat and of the nature and amount of navigation rates more fully discussed. There should, however, be uniform rates for navigation on the Ganges and Agra Canals, in view of the necessity that exists for making a navigable connection between the two channels at the earliest possible date.

7. His Honor took occasion in his Resolution on the Progress Report for 1875-76 to press upon the Government of India the importance of establishing navigable communication between the two canals, and would now point to the striking confirmation of the soundness of this recommendation afforded by the fact, noticed in para. 57 of Colonel Brownlow's review, that 100,000 maunds of salt were carted from the Delhi and Ghaziabad Railway Stations to the Ganges Canal at Muradnagar and Darga for shipment to Cawnpore. It appears to Sir George Couper that the early execution of the still-water canal from the Ganges Canal to the Hindun Dam at Ghaziabad would confer a benefit, not only on the Canal Department but on the whole community, by cheapening and improving the carriage of salt.

8. His Honor will have no objection to recommend the Traffic Manager to the Government of India for an increase of salary when the navigation on the Agra Canal begins to take shape and bring in revenue.

9. Colonel Brownlow's recommendation in para. 85 of his review to let the Agra Canal rates stand unaltered, accepting, if necessary, slow progress at first in the spread of irrigation, is approved.

10. Under the rules issued in notification, Irrigation Department, North-Western Provinces, No. C 879W., dated 7th September 1875, the owners' rate on canal-irrigated lands is assessed at one-third of the water-rate, provided that it shall nowhere exceed half the difference of the rates of rent on dry and irrigated land. But after careful consideration of the subject, Sir George Couper is unable to accept this method of assessment as sound. The assumption that the owners' rate, which is part of the rent, must necessarily vary with the water-rate, which is part of the cost of production, involves us in many difficulties and anomalies which need not be discussed in detail here. Nor is His Honor prepared to accept half the difference between wet and dry revenue rates on the land as necessarily a just limit to the amount of owners' rate. A certain proportion of this difference may fairly be taken in excess of the half share claimable by Government to represent the interest upon capital which, but for the canal, would necessarily have been sunk in wells, the expenditure upon maintaining these wells, and a premium upon the first-class policy of insurance against drought represented by irrigation from a canal. The fairest and most accurate method of assessing owners' rate should have regard to the rent-rates of each kind of soil; but this would require much time and labour, and, taking all circumstances into consideration, Sir G. Couper is inclined to believe that, in the adoption of an all-round rate, based on a rough average of the difference between the wet and dry revenue rates of the land, will be found the true solution of the question. It must, however, undergo further enquiry and consideration before it can be submitted for the final orders of the Government of India.

HENRY A. BROWNLOW, *Lieut.-Col., R.E.,*
Offg. Secy. to Govt., N.-W. P., Irrigation Branch.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

FAMINE IN SOUTHERN AND WESTERN INDIA.

No. 13, dated 2nd March 1877.

*From—The Government of India,**To—Her Majesty's Secretary of State for India.*

WE proceed to lay before you a summary of the matters which have engaged our attention in connexion with the famine in Southern and Western India during the past week.

2. In our last despatch we informed your Lordship that, on the recommendation of Sir Richard Temple, concurred in by the Government of Madras, we had sanctioned the commencement of the earth-works of a Railway from Bellary to Hubli in the Bombay district of Dhárwár, which forms a section of a line projected some years ago to connect the Madras Railway at Bellary with the port of Kárwár in North Kanara. The commencement of this line, as a relief work, was recommended by the Government of Madras at an early stage of the famine in that Presidency; but we declined to sanction it on grounds similar to those which influenced us in refusing our assent to the commencement of the Dhond and Munmar Railway when first proposed by the Government of Bombay, *viz.*, that we did not consider it expedient to sanction large and expensive works, the ultimate cost of which would greatly exceed the expense involved for providing labour for the distressed poor. At the time at which the proposal was made, the 27th October, it was not too late to look for rain from the North-East Monsoon, which would have materially altered the aspect of affairs in Madras.

3. More recently the Bombay Government, in their letter of the 23rd January, enclosed in our despatch of the 9th ultimo, recommended the line as one which would afford a useful relief work to their southern districts as well as to the Madras district of Bellary. The principal questions connected with the line are discussed in Sir Richard Temple's minute* of the 16th ultimo, and in the memorandum* annexed to it. The entire length of the line from Bellary to Kárwár is 236 miles. It would pass through the cotton-growing tracts of Bellary, Dhárwár, and North Kanara. It would also serve a great part of the Belgaum district and the southern talukas of Kaládgi. The average cost of the line is estimated at about £7,000 a mile, or somewhat more than a million and a half for the whole line. The estimated cost of that portion of the work which could be done by unskilled labour is Rs. 16,06,000, but it is stated that a proportion of the labourers on the relief works in Bellary and in Dhárwár are of the Wuddah tribe, whose ordinary employment is working in stone; that considerable gangs of stone-workers could be found in the Ceded Districts and in Dhárwár; that there is a large quantity of stone-work to be done at the Tungabhadra bridge, and heavy cuttings in rock, laterite, and gravel. The estimated cost of the stone-work at the ordinary rates is Rs. 3,62,000. The estimated cost of the work which could be done by relief labour during the present season is, at the estimated rates in ordinary years, Rs. 14,60,000, and, allowing for the expensiveness of relief labour, Rs. 19,00,000 is the sum which would be diverted to this work from comparatively unremunerative works.

4. It is doubtful, however, whether during the present season it would be possible to organize large relief gangs and transport them into Kanara in time to make any serious impression on the heavy cuttings of the Ghât section of the line. The traffic is estimated to yield about four per cent. on the capital. As your Lordship is aware, the Secretary of State in 1873 declined to sanction the line, entertaining doubts as to whether the export of cotton from India, on which the line would depend for two-fifths of its whole traffic, would be maintained. Sir Richard Temple was not in favor of undertaking the line as a whole, on the ground that other lines were politically

* Enclosures in our despatch of 23rd February 1877.

and generally more important than the Bellary and Kárwár line, and that there seemed to be much doubt as to the capabilities and the need for future expenditure on the Kárwár harbour; but inasmuch as useful work was wanted for 350,000 labourers in Bellary, and that there would soon be no useful work left for them to do, he recommended that they should be employed in constructing the earth-work on the section from Bellary to Hubli, which is the cheaper and easier section of the line, and which, according to an opinion expressed to him by the Bellary cotton-dealers, would bring a great deal of cotton traffic upon the Madras and Great Indian Peninsula Guaranteed Railways.

5. Sir Richard Temple had already satisfied himself that there was no other work of magnitude in or near the Bellary district which could be organized for the relief of distress. The only other one which had been suggested, was a high level canal from the Tungabhadra, projected some years ago, which, if practicable, would unquestionably be a most valuable work, bringing under irrigation a very considerable tract of land in the Bellary district; but the cost of the work would be very considerable, involving the construction of a costly reservoir in Mysore; and he had not been able to satisfy himself that this was a project which ought to be undertaken.

6. In these circumstances we thought it right, as stated in our despatch of last week, to sanction the earth-work of the Railway from Bellary to Hubli as a relief work, on the understanding that the Government of India are not pledged to the ultimate completion of the line.

7. With your Lordship's permission, sanction has been accorded to doubling the line from Ambatur, near Madras, to Arconum on the Madras Railway. Arconum is the point at which the north-western branch of the Madras Railway leaves the main line, and consequently up to this point the Railway, with its single line of rails, has had to carry the traffic, not only of the western districts, which are traversed by the main line, but that of the two branches to Bangalore and to Raichore, where the Madras line and the Great Indian Peninsula join. It is to be hoped that the doubling of the line to Arconum will greatly diminish the difficulties now experienced in carrying into the interior the large stores of grain which have been recently imported into Madras.

8. Another step which has been taken with the same object, is the equalisation of the through rate for grain from the port of Negapatam in Tanjore to Bangalore, and the suspension of port dues at Negapatam in the case of vessels importing grain equal to a quarter of their whole cargo. A telegram from the Madras Government, dated the 23rd ultimo, notifying these measures, which has been communicated to the Calcutta Chamber of Commerce, and published in the Calcutta newspapers, is enclosed. As the freights from Calcutta to Negapatam are the same as from Calcutta to Madras, it may be expected that these measures will lead to some of the grain from Calcutta, Burma, &c., which in the ordinary course would be sent to Madras, being shipped to Negapatam, whence it will find its way by the Great Southern of India Railway to Bangalore, and also probably to the distressed districts in the south of the Madras Presidency.

9. From a telegram addressed to us by Sir Richard Temple on the 24th ultimo, we were gratified to learn that he had "received favourable accounts of coming spring crops from wells in most parts of the Cuddapah district which mitigate anxiety." We have since received the following telegram from Mr. Bernard, dated from Madras, yesterday, containing Sir Richard Temple's weekly bulletin:—

"Sir Richard Temple is visiting Nellore. He sends following for mail: favourable points, same as per last bulletin, regarding activity, internal trade, food supply, condition of people, and energy of Government officers. Price of millet cheaper in Bellary, whither large importations continue from north. Railway despatches of rice from Madras are short, and accumulation of stocks there great. Good deal grain coming from Beypore. Further arrangement for strengthening railway at Madras proposed. Doubling line to Arconum progressing. Ten more miles double line will shortly open. Numbers on works reduced in all districts, except Nellore and Salem, which Sir Richard will now

visit. Spring crops irrigated from wells and river channels in Cuddapah, North Arcot, and some other places surpassing expectation; will yield food for those neighbourhoods for two months. Tinnevely district doing very well; large saving on estimated expenditure will accrue there." The intelligence contained in this telegram is on the whole satisfactory.

10. We enclose for your Lordship's information a further correspondence which has passed with the Government of Bombay regarding that part of our instructions to Sir Richard Temple, in which we endeavoured to define the duty of the Government in times of famine. A strike having recently occurred among the labourers on the relief works at Sholapur, owing to a reduction in the rate of wages, the Government of Bombay enquired what course they were to take in the event of the strike continuing; in which case they apprehended that, before the majority who were comparatively strong were brought to reason, some of the weakly might be reduced to a condition of great prostration and might die out of reach of assistance. We had previously, as stated in our despatch of the 16th ultimo, paragraph 8, been in correspondence with the Government of Bombay by telegraph regarding the strike, and had expressed our concurrence in their opinion, that it would be very mischievous to yield to a strike on relief works attributable to combination, and that relief wages should not be raised if the Government of Bombay were satisfied that the rates were sufficient. In replying to their subsequent representation, we observed that, while we were fully prepared to support the Government of Bombay in its refusal to yield to the demands which had been made, the most efficient measures that were practicable should be taken to guard against the danger which they pointed out, and to give relief in each individual case in which it was necessary. We remarked that when a man was obviously in danger of dying from starvation no efforts should be spared to save him, although he may have been misled into joining a strike; but that if after all such efforts had been made, the case anticipated, as possible, by the Government of Bombay should occur, and persons to whom no relief could be given should die out of reach of assistance, the misfortune will be much regretted, but it will throw no discredit on the Government or its officers. It is obviously impossible for the Government, in carrying out its humane policy, to guard against every one of the numerous risks to life which arise in time of famine, or to save every one from the consequences of his own ignorance or folly. We trust that there will be no further misapprehension as to the precise meaning of our instructions on this point.

11. We have sanctioned a special grant of five lakhs of rupees to enable the Government of Bombay to make advances to Municipalities and Local Fund Committees who, being in a position to carry out relief works, consent to pledge their revenues as security for advances made to meet the present emergency.

12. The Government of Bombay have drawn our attention to a passage in our despatch to your Lordship's address under date the 9th February, which does not sufficiently describe the extent to which Sir Richard Temple's suggestions had been anticipated by the Local Government. We said, in the 5th paragraph of the despatch in question, that the Government of Bombay had anticipated the most important of the suggestions made by Sir Richard Temple, *viz.*, the reduction of grain wages. We ought to have framed our remark in terms of more general application; for, as the Government of Bombay observe, the suggestions made by Sir Richard Temple had been anticipated, not only as regards reduction of wages, but also as regards the rejection of persons not really in need of relief, and in reference to a more rigid exaction of task work. In the same letter, a copy of which has been sent to your Lordship by the Local Government, referring to a remark made by us in the same despatch, that we were not then aware whether anything had been done in either Presidency, in the direction of closing small works, the Government of Bombay state that, as soon as they had been put in a position to do so, by receiving sanction for the prosecution of large works, they proceeded with all practicable expedition to close as many as possible of the small and more scattered works that had previously been in progress, and over which a proper control could not be effectually maintained. We have noticed that, since the

beginning of January, when the restrictions on large works were removed, the Government of Bombay have sanctioned provisionally a very considerable number of small works; but we feel sure that when they accorded these sanctions, the Government of Bombay had satisfied themselves as to their necessity, and we entertain no doubt whatever as to the earnestness of the efforts which that Government is making to prevent all needless expenditure. The last weekly return shows that the number of persons employed on relief labour under Civil Agency, most of whom probably were on small works, had diminished from 136,629 on the 13th January to 63,659 on the 10th February.

13. According to the latest return the number employed upon the relief works in the nine distressed districts of Bombay was 248,902 against 238,219, the number for the previous week. In Ratnagiri and Kanara, where hill-men and immigrants are employed upon relief works, there was a decrease of 3,785. There was thus a net increase of 6,808 in the number of famine labourers in Bombay, which seems to be principally attributable to the gradual cessation of the strike, already alluded to, in the Sholapur District. In Madras there has been a considerable further diminution in the number of relief labourers. The number stated in our last despatch was 767,281, which has fallen to 713,921.

Telegram, dated 23rd February 1877.

<i>From—Madras,</i>	<i>To—Calcutta,</i>
<i>From—Revenue Additional Secy.</i>	<i>To—Revenue Additional Secy.</i>

PLEASE inform Calcutta Chamber of Commerce that railway through rate for grain from Negapatam to Bangalore is equalised with rate from Madras to Bangalore. Port dues at Negapatam suspended in case of vessels importing grain equal quarter of whole cargo.

Telegram, dated 24th February 1877.

<i>From—Tirupetty,</i>	<i>To—Calcutta.</i>
<i>From—SIR RICHARD TEMPLE,</i>	<i>To—Revenue Addl. Secy.</i>

I YESTERDAY received favourable accounts of coming spring crops from wells in most parts of Cuddapah district which mitigate anxiety.

No. 78, dated Goondacal, 19th February 1877.

From—The Private Secretary to Sir Richard Temple,
To—The Secretary to the Government of India.

I AM directed by Sir Richard Temple to submit, for the information of the Government of India, copy of a minute recorded by him regarding the question of the port of landing for the supply of grain destined for Mysore.

Minute by Sir Richard Temple, dated Goondacal, 19th February 1877.

I DESIRE that Captain Bisset will be good enough to enquire from the Mysore traders regarding the question of the sea-borne grain destined for Mysore being sent from the port of Negapatam by the South of India Railway to Bangalore, instead of being sent from the port of Madras by the Madras Railway Company's line.

2. When I visited Bangalore, I understood that the Government of Madras preferred that the grain should be sent from Negapatam rather than from Madras, in order to relieve the unavoidably over-burdened Madras line. I therefore urged this view upon the Chief Commissioner of Mysore, and upon the native traders assembled at Bangalore. I explained to them the merits of the Negapatam route, and the convenience which would result if they could, consistently with their trading interests, adopt that course. They did not give me a clear answer at the time, though they promised that they would consider the matter. My impression, however, was, that they felt considerable doubt, and that they might prove unwilling to change from Madras to Negapatam, partly because the freight to Negapatam might be higher, and the conveniences of that port less, partly also because they already had their agencies established at Madras. By this time, however, they will be able to form a more definite answer. I therefore shall be glad if Captain Bisset will proceed to Bangalore and learn, as exactly as may be possible, how the matter stands. He could ascertain whether, in the event of the Negapatam project failing, the grain could be brought from the Western Coast.

3. With a view to prepare himself for the discussion with the Mysore traders, he should first visit Negapatam, in order that he may be able to explain to them what the advantages of that port are.

4. The Chief Commissioner of Mysore (to whom a copy of this minute will be forwarded) will, I am sure, give him every assistance.

R. TEMPLE.

No. 91E.—325, dated 12th February, 1877.

From—The Secretary to the Government of Bombay,

To—The Secretary to the Government of India, Dept. of Rev., Agri. and Comms.

I have the honour to acknowledge your letter No. 116, dated 2nd instant, which was received in Bombay on the 7th idem; a copy of this letter, published in the *Gazette of India* of the 3rd instant, had reached this Government, in that form on the day previous to the receipt of the original.

2. From this communication His Excellency in Council learns that, when he issued the orders contained in Government Resolution No. 30 E.—158, dated 25th January 1877, he had “seriously misunderstood” the views of the Government of India, as expressed in their instructions to Sir Richard Temple, and His Excellency in Council is so fully sensible of the responsibility cast upon this Government for correctly interpreting all orders of the Government of India in the present crisis, that he feels compelled first to call attention to certain prominent passages in the Instructions to Sir Richard Temple.

3. In the 2nd para. of those Instructions you observe—

“Even for an object of such paramount importance as the preservation of life, it is obvious that there are limits which are imposed upon us by the facts with which we have to deal. If the estimate of the local Governments are to be accepted, the relief of the existing scarcity in the Madras and Bombay Presidencies, including loss of revenue, will not cost less than six and a half millions sterling. Considering that the revenues are barely sufficient to meet the ordinary expenditure of the Empire, and that heavy additional taxation is both financially and politically impracticable, we must plainly admit that the task of saving life, irrespective of the cost, is one which it is beyond our power to undertake. The simple fact is this, that the recurrence of a few famines, such as that from which the country is now suffering, or such as that which occurred three years ago in Behar, would, if measures of relief were carried on upon that principle, go far to render the future Government of India impossible. The embarrassment of debt, and the weight of taxation, consequent on the expenditure thereby involved, would soon become more fatal to the country than famine itself.”

And in the 3rd para. you add—

“If relief works are carried on upon wrong principles; if labour is not strictly exacted from all who are physically able to work; if proper supervision is wanting, and people find that they can obtain, almost for the asking, and in return for next to no work at all, wages in money or in grain, there is hardly any limit to the numbers who even in prosperous times may be attracted to them.”

4. This Government, therefore, came to the conclusion that, in the opinion of the Government of India, there was a limit, in respect of cost, beyond which, even for the preservation of life, the measures of Government could not go; and, further, that with the object of keeping the expenditure within that limit, and thus enabling the Government to give the largest amount of relief to the population, it was the duty of this Government to exact labour strictly from all who were physically able to work; and they, therefore, ordered that a person refusing to perform work, which he was capable of doing, should not, while persisting in that refusal, be relieved at the public expense.

5. In the 4th para. of your letter of the 2nd instant, the idea of limiting the efforts which the Government should make for the preservation of life by any consideration of cost, is, however, entirely discarded, and you announce the determination of the Governor General in Council, “which he thought had already been made sufficiently clear,” to be, that “no one shall die of starvation if it be in the power of the Government to prevent it.” The Government of India then rules as follows:—

“We say that human life shall be saved at any cost and at any effort; no man, woman, or child shall die of starvation.”

From these words it is to be understood that there are no limits to the responsibility of the State either as regards the efforts it may make, or the outlay it may incur, with the object of preventing people from dying of starvation.

6. The test case taken by this Government was that of a man “who wilfully and deliberately refuses to render the reasonable equivalent demanded by the Government for the means of subsistence which it is ready to afford him;” and in modification of the previous orders, which were, that no person was to be permitted “through obstinacy to die of starvation,” it was, in accordance with what was, at the time, believed to be the intention of the Government of India, ordered, that no relief should be given to “an individual refusing to perform work which he is capable of doing.” Your 5th paragraph, however, contains the following instructions:—

“Under almost all circumstances, which, if the Government of India is rightly informed, are likely to hold good in the distressed districts of the Bombay Presidency, where the population is almost wholly agricultural, and accustomed to field and other manual labour, the rule laid down by the Government of Bombay appears quite proper. That rule is that ‘in the case of an individual refusing to perform work which he is capable of doing, on the terms fixed by Government, no relief shall be afforded him at the public expense during the continuance of such refusal.’”

7. This sentence, I am to submit, seems practically to confirm, and to accord approval to, the orders issued by this Government, which, earlier in the letter, the Government of India hold to have indicated a "serious misunderstanding" of the intentions of the Government of India; and His Excellency in Council, I am to state, feels himself, therefore, in some difficulty. It is true that your letter goes on to state that "the result of such refusal will certainly, in the case of agricultural labourers, not be death from starvation;" but the question is, should there be such obstinacy, is the individual to be allowed to die?

8. The Governor General in Council expresses his disbelief "that any one ever died of starvation through obstinacy," and the Governor in Council would be glad to think that His Excellency is right in this opinion; but there is some reason to apprehend that instances of the nature referred to are not so unlikely to happen as is assumed. Recent reductions in relief wages have been made in this Presidency, with a view of giving full effect to the policy first announced by the Government of India, orders regarding the exaction of moderate tasks on relief works have been reiterated, and measures have been taken for transferring able-bodied people from the Civil to the Public Works Department works. The immediate effect has been, that large numbers of people have left the works, declining to submit to the reduction of wages, or to perform the required tasks, or to accept the work tendered. There are other influences at work to sustain them in this movement, and the people are, many of them, voluntarily, suffering great privations.

9. Some of those who are on strike are comparatively strong and robust, and able, for a time, to endure privation, but others are weakly; they appear to be acting in bodies, and in concert, and the fear is, that before the majority, who are comparatively strong, are brought to reason, some of the weakly will be reduced to a condition of great prostration. They wander about, and may die out of reach of assistance. The Government, therefore, is placed in this dilemma: if they give way to the people, they cannot successfully carry out the policy of the Government of India—in which they concur—of strictly limiting expenditure: and if they do not give way, some deaths may occur. Feeling, therefore, that their rule has been approved by the Government of India, under what they cannot but hold to be too sanguine a view of the case, they will, until otherwise instructed, act upon the positive injunction contained in your 4th para., "that no one shall die of starvation if it be in the power of the Government to prevent it."

10. As regards the cases put in your 5th para. of the respectable class of women who cannot appear in public, and of those who have caste prejudices, I am to observe that this Government endeavoured to guard themselves as regards both. It was stated in their Resolution which the Government of India review, that the orders would apply to those only who refused *a reasonable equivalent*, or who refused to perform work *which he is capable of doing*, and in the Summary No. XI., for the week ending the 26th January 1877, it was stated as follows: "It is scarcely necessary to add that Government never require people to do work forbidden by their caste rules." This Government had no intention to compel women to appear in public, whose habit it is not to do so; or to demand from any individual work or service which his caste prejudices would render it impossible for him to perform.

11. His Excellency in Council, I am to say in conclusion, is fully sensible of the privations to which large masses of the people are now subjected, and from which the utmost efforts of the Government can only partially relieve them. He will persevere in his endeavours to enforce economy without a sacrifice of life, and he is confident that the District Officers will continue to afford their assistance with the praiseworthy energy and ability they have up to this time exhibited.

No. 240, dated 27th February 1877.

From—The Additional Secretary to the Government of India,

To—The Secretary to the Government of Bombay.

I AM directed to acknowledge the receipt of your letter No. 91E.-325, dated 12th February 1877.

2. The first seven paragraphs do not appear to the Governor-General in Council to require particular notice. He regrets that his instructions to Sir Richard Temple in respect of the necessity of preventing, to the utmost of our power, the loss of life from starvation, should not have been correctly understood by the Government of Bombay; and he would regret it the more if, as the Government of Bombay appears to think, the misunderstanding arose from some obscurity of expression, or inconsistency in the language which was used. It may, however, be observed that the interpretation placed upon the

instructions by Sir Richard Temple to whom they were addressed has been from the first in complete accordance with the intentions of the Government of India; and His Excellency in Council fails to perceive the obscurity by which the Government of Bombay thinks that it has been misled. These, however, are matters of little practical importance, and as the Governor-General in Council has never attached any blame to the Government of Bombay for the misapprehension which has arisen, it is needless to continue what would be a merely verbal discussion.

3. The 8th and 9th paragraphs of your letter refer to a more important and practical question. It appears that the Government of Bombay has most wisely determined to take active measures for carrying out the decision that relief shall be given to those persons only who require it; that certain reductions in the amount of relief wages have been made, and orders regarding the exaction of moderate tasks on relief works have been issued. The result has been a strike among the labourers, who, it is presumed, prefer to obtain good wages for doing little or nothing to obtaining reduced wages and having real work to perform. Large numbers of people have left the works; "they appear to be acting in bodies, and in concert, and the fear is that before the majority, who are comparatively strong, are brought to reason, some of the weakly will be reduced to a condition of great prostration. They wander about and may die out of reach of assistance."

4. The Government of Bombay wishes to know what, in the opinion of this Government, ought to be done under these circumstances, and it is understood that while the determination is being strictly adhered to that the orders which were given shall be enforced, measures are at the same time being taken to carry out the injunction that "no one shall die of starvation if it be in the power of the Government to prevent it."

5. You have already been informed by telegraph that the action of the Government of Bombay is entirely approved by the Governor-General in Council. The Government of Bombay may confidently rely on the support of the Government of India in its refusal to yield to the demands that have been made, and in its determination to introduce a more satisfactory system. At the same time the change must be carried out with care and caution, and His Excellency in Council has no doubt that this is being done. The most efficient measures that are practicable should be taken to guard against the danger pointed out in your letter, and to give relief in each individual case in which it is necessary. When a man is obviously in danger of dying from starvation, it is evident that we cannot refuse to save him because he has been misled into joining a strike, or has neglected to comply with certain orders or conditions. If, however, after all practicable efforts have been made, the case anticipated as possible by the Government of Bombay should occur, and some of the more weakly should "wander about and die out of reach of assistance," the misfortune will be much regretted, but it will throw no discredit on the Government or its officers. In carrying out the humane policy which has been adopted, the Government does not pretend that it can guard against every one of the numerous risks to life which arise in time of famine, or that it can save every one from the consequences of his own ignorance or folly.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS
FOR THE WEEK ENDING THE 1st MARCH 1877.

GENERAL REMARKS.—In Madras showers are reported from Malabar, Kistna, and one taluk of Kurnool: the total number on relief works reported is 713,821, showing a decrease of about 60,000 on last week; the decreases are 35,000 in Bellary, 12,000 in Cuddapah, 10,000 in Kurnool, and 7,000 in Nellore: there is an increase of 4,700 in Salem and 700 in Coimbatore. No rain fell in Mysore: number on relief works 21,266. A light shower is reported from Belgaum and another at Amednagar: there is no change elsewhere in the Bombay Presidency. Showers have fallen in several districts of the Central Provinces: prospects are favourable. The *rabi* harvest has ended in Berar. In Central India a shower fell at Indore: prospects here and in Rajputana are good. In Bengal rain has fallen in Behar and in a few other districts: reports are favourable. In the North-Western Provinces the rain was confined to Benares. A few showers fell in parts of Oudh. In the Punjab light rain has been almost general. From all these provinces and from Assam and Burma the accounts of the crops are good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras— Kistna (Feb. 27th)	89	Castor, cotton, <i>varagu</i> , and gram being harvested, outturn from $\frac{1}{4}$ to $\frac{3}{4}$; <i>raggi</i> being still planted, it is doing well; prices almost stationary; cholera, seizures 1,374, deaths 622 in 9 taluks; fever, small-pox, and cattle-disease prevalent; pasture failing throughout the district, and dry fodder difficult to get in Narsarowpet, Nandiguma, and Vinukonda taluks; markets fairly supplied; rice 9'69, <i>cholum</i> 12'38, <i>raggi</i> 13'97, <i>cumboo</i> 10'42; imports by sea—rice 83'75 tons; by land—rice 42'70, <i>cholum</i> 18'91, <i>raggi</i> 2'45, <i>cumboo</i> 1'73 (seers of Rs. 80 weight); number on relief works 3,247; number fed gratuitously by Government 154, by people 878.
Kurnool (.. 27th)	...	A few showers of rain in some villages of Nandikotkur taluk, and none elsewhere; <i>raggi</i> , white <i>cholum</i> , and <i>varagu</i> in good condition under the irrigation canal and wells; cholera continues, except in Nandikotkur; seizures 64, deaths 62; cattle reported to be dying for want of fodder, and suffering from rinderpest; experiment commenced yesterday to feed cattle with prickly pear; 2nd sort rice per rupee, in imperial seers, 6'97, <i>cholum</i> 8'29, <i>cumboo</i> or <i>sajju</i> 9'09, <i>raggi</i> 9'35; number on relief works 203,453; gratuitously fed 3,538; decrease in number of coolies due partly to weeding and partly to enforcement of task-work; the slight fall in prices due to steady import of grain and harvest under canal.
Cuddapah (.. 27th)	Nil	Average prices, seers per Rupee, 2nd sort rice 7'10, <i>cholum</i> 8'96, <i>raggi</i> 10'18, <i>cumboo</i> 8'40; people on relief works 67,728; gratuitously fed 1,705; cholera deaths 770; number of cattle died from want of fodder and disease 598 and 589, respectively.
Bellary (.. 27th)	Nil	Average prices, 2nd sort rice, 7'31, <i>cholum</i> , or great millet, 8'65. Jubbulpore <i>cholum</i> at Bellary 11'33, <i>raggi</i> or lesser millet 8'73. <i>cumboo</i> 8'25; import, tons 4,714; accounts from 3 railway stations only; 2,69,213 persons on relief works; decrease on last week 35,240, owing to reduction of rates of wages, removal of coolies supposed to be fairly well to do, desertion on account of task-work and prevalence of cholera; 14,708 gratuitously fed; 4,171 gratuitously fed by private charity aided by Government grant; cholera in all 15 taluks; small pox and fever also prevalent; cattle still perishing from want of fodder; supply of drinking water diminishing, but not exhausted.
Nellore*	...	Average prices, 2nd sort rice, 8'12 seers per rupee, <i>cholum</i> 9'50, <i>raggi</i> 10'43, <i>cumboo</i> 9'12; imports on behalf of Government, rice 299 tons; on behalf of merchants, rice 978 tons, <i>cholum</i> , 1 cwt., <i>raggi</i> 42½ tons, <i>cumboo</i> , 5 cwts., <i>varagu</i> 5 cwts.; number on relief works, including canal coolies, 66,278, several deserted on account of reduced wages, and task-work being required from them; hence decrease in number of coolies; number fed gratuitously 8,666; decrease is due to more efficient supervision; 483 deaths from cholera; cholera, small-pox, dysentery are prevalent throughout the district, but chiefly in the taluks of Nellore, Kanigiri, and Gudur; in some villages water is not procurable even for drinking purposes; prospects of cattle very bad; large numbers have perished for want of fodder.

* Each ounce of rainfall given in the rainfall column opposite Nellore in the report published at page 315 of the Supplement to the Gazette of India, February 24th, 1877, represents one-tenth of an inch.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—continued.		
Chingleput (Feb. 27th)	<i>Nil</i>	Average prices, 2nd sort rice, 9'32, <i>raggi</i> 10'91, <i>cholum</i> 10'80; number on relief works 8,137; number gratuitously fed 4,819; public health—cholera, small-pox, and fever prevail throughout the district; pasture <i>nil</i> ; water very scarce.
North Arcot („ 27th)	<i>Nil</i>	For week ending 23rd February, average prices in Government seers, second sort rice, per rupee 7'9, <i>cholum</i> 9'3, <i>raggi</i> 9'7, <i>cumboo</i> 8'8; relief work coolies 18,572; persons gratuitously fed 557; cholera still prevalent; fever and small-pox in some parts; cattle dying of starvation in some parts.
South Arcot („ 27th)	...	Rice, second sort, 8½ seers, <i>cumboo</i> 10½, <i>raggi</i> 11½, <i>cholum</i> 11½; rice imported 1,420 tons; number employed in Deputy Collector's Division 730; gratuitously fed 147; cholera attacks 58, deaths 42; cattle disease in few villages; pasture deficient.
Salem („ 27th)	<i>Nil</i>	Prices of grain—seers of 80 tolas rice 7 ⅞, <i>raggi</i> 9 ⅞, <i>cumboo</i> 8½, <i>cholum</i> 9½; import of all grains 1,010 tons; number on relief works 41,400; number gratuitously fed 3,100, ditto private 1,050; cholera in all taluks; labour number rise 13 per cent., due to better organization of relief works under Department Public Works.
Coimbatore („ 27th)	<i>Nil</i>	Prices stationary; rice, second sort, 7'62, <i>cholum</i> 9'62, <i>raggi</i> 10'11, <i>cumboo</i> 10'34; imports—rice 366 tons, other grains 312; cholera prevailing in all taluks, chiefly in Sattiamungalum and Oodoomulpetta; attacks 876, deaths 678; cattle poor; fodder and water scarce; no cultivation, except to a small extent under wells; number on relief works 22,900; gratuitously fed 1,297; no loss of physique reported except from Oodoomulpetta.
Tanjore („ 27th)	<i>Nil</i>	Prices—seers per rupee, rice 8½, <i>raggi</i> 12½, <i>cumboo</i> 11, <i>cholum</i> 10½; no import of rice; no relief works; 223 deaths from cholera; cattle generally healthy.
Madura („ 27th)	<i>Nil</i>	Rice 2nd sort 7½ seers per rupee, <i>cholum</i> 11½, <i>raggi</i> 9½, <i>cumboo</i> 10½; import of rice 727 tons; other grains 58; cholera in Ramnad, Melur, Pulni, Dindigul, Periakolum, Tiruvadaunai and Mudukolattur; total deaths 278; scarcity of water increasing; cattle want fodder; number on relief works 9,478; charitable relief 451; small-pox in Mudukolattur and Periakolum to a certain extent; cattle disease in some parts of Tirumangalum.
Trichinopoly („ 27th)	<i>Nil</i>	Second sort rice 7½ seers, <i>cholum</i> 16½, <i>raggi</i> 10½, <i>cumboo</i> 10½; import of grains for week ending Saturday, 116 tons; number on relief works on 24th instant, 489; gratuitously fed on same date by public subscription, 1,209; cholera, 140 attacks and 86 deaths; small-pox, 168 attacks and 25 deaths; cattle healthy; pasture scanty; <i>cholum</i> rising, owing to large consumption and little import.
Tinnevely („ 27th)	<i>Nil</i>	Average prices per rupee—second sort rice 7½ seers of 80 tolas, <i>cholum</i> 9, <i>cumboo</i> 12, and <i>raggi</i> 12; import of grain—rice 890, <i>cholum</i> 7, and <i>cumboo</i> 24 tons; number on relief works 1,295; number gratuitously fed 138; cholera increasing; cattle healthy; decrease in number on relief works owing to harvest in river valley; no freshes; standing crops drooping; pasture scanty; water supply insufficient; prices stationary; cattle healthy.
Malabar („ 27th)	Below 1'0	Showers in north-east and south; markets well supplied; imports by sea and land—rice 3,910, <i>raggi</i> 297, <i>cholum</i> 439, tons; exports—rice 1,218, <i>raggi</i> 744, <i>cholum</i> 104, tons; price of rice fallen slightly in 5 taluks, stationary in 4, and slightly risen in Palghat; highest 7½ Indian seers; Wynaad, lowest 10½; Chirakal average 9½ Indian seers per rupee; <i>raggi</i> 10½ Indian seers per rupee in Wynaad; average elsewhere 13 Indian seers; cholera in all taluks; 102 deaths from small-pox in 7 taluks; cattle healthy; pasture failing; 901 coolies on Kolathur roads.
Bombay—(Mar. 1st)		<i>General Remarks.</i> —General prospects unchanged.
<i>Sind. (Feb. 28th).</i>		
Kurrachee ...	...	Small-pox as before, 6 fresh cases in Kurrachee on 14th, and 41 recovering on 16th; last death on 6th; Baghar commenced flowing on 16th.
Shikárpur ...	...	No change.
Hyderabad ...	...	Small-pox decreasing in city; only 2 fresh cases and 2 deaths; but spreading in Tando, Alahyar, and Moro talukas; <i>rabi</i> crops flourishing.
Upper Sind Frontier ...	...	Weather warm; <i>rabi</i> prospects good.
<i>Guzerat (Feb. 28th).</i>		
Ahmedabad ...	...	<i>Rabi</i> harvesting going on.
Kaira ...	...	No change.
Surat ...	...	No change, except small-pox at Surat.
<i>Khandesh and Násik. (Feb. 28th).</i>		
Khandesh ...	...	Weather cloudy; small-pox and fever continue.
Násik ...	...	Small-pox decreasing.
<i>Konkan (Feb. 28th).</i>		
Tanna ...	...	Reaping of <i>rabi</i> nearly completed; condition of crops middling; small-pox prevalent in two, and fever in almost all, talukas.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—continued.		
<i>Deccan (Feb. 28th).</i>		
Poona ...	... '02	Small-pox in Sirur taluka; cholera in Sirur and Bhimthari.
Ahmednagar ...	...	Slight cholera in the district.
Sholapur ...	...	Small-pox in Khatau; 23 deaths from cholera.
Satara ...	...	
<i>Southern Mahratta Country (Feb. 28th).</i>		
Belgaum ...	'08	Deaths from cholera, 200.
Dharwar ...	...	Cholera prevails; deaths 512.
Kanara ...	...	Deaths from cholera, 40.
Kaládgi ...	...	Cholera continues; 144 deaths.
<i>Kattywar and Gackwar's Territory (Feb. 28th).</i>		
Rájkot ...	...	Public health good.
Wadhwan ...	...	State of weather and health same as before.
Baroda ...	...	No change.
		<i>General Remarks.</i> —Small-pox continues in Sind, Khandesh, Tanna, and parts of the Deccan; it has also broken out in Surat; cholera prevalent in Southern Mahratta Country.
Bengal—		
Chittagong ...	Nil	Weather fair; the cold weather crops promise well; the late rain has had the effect of partially abating cholera.
Noakholly ...	Nil	Weather seasonable; heat gradually increasing; the reaping of the <i>amun</i> crops has been completed; the cold weather crops, such as pulses, &c., have suffered much from the rain which fell during the first part of this month; the cultivators are busy in preparing their lands for the early rice; cholera has much abated throughout the district.
Chittagong Hill Tracts...	Nil	Weather very cold throughout the whole week; heavy fogs up to 9 o'clock in the morning; the tobacco plants are thriving well; the outturn of the mustard crop has been an average one; the hill people are engaged in cutting their <i>jooms</i> for cultivation; cholera is still prevalent in the northern part of the district.
Hill Tipperah ...	Nil	Weather seasonable; state and prospects of the crops are good.
Backergunge ...	Nil	Weather—the 20th and 21st instant were much warmer; there is nothing special to report regarding the state of the crops; no where does cholera exist in an epidemic form, but isolated cases are reported from many parts of the district.
Furreedpore ...	Nil	The weather was abnormally cold during the early part of the week, but has now become suddenly warm; the prospects of the crops are good; no special sickness reported.
Dacca ...	Nil	Weather seasonable; state and prospects of the crops are very good.
Mymensingh ...	Nil	Weather fair, and has become very appreciably warmer; the prospects of <i>boro dhan</i> are good; this is the only crop now on the ground worth mentioning.
Tipperah ...	Nil	Weather fine, clear, and dry; the cold weather crops are being harvested; <i>boro dhan</i> , or spring rice, is thriving well.
24-Pergunnahs ...	Nil	Weather getting warmer; the <i>amun</i> or late rice has all been cut and gathered; the cold weather crops have been more or less damaged by the late rains; public health is better.
Jessore ...	Nil	Weather fine; the prospects and present outturn of the cold weather crops are good; early cultivation for rice and indigo has begun.
Nuddea ...	'12	Weather cloudy and warm; there is no change in the prospects of the crops, which are fair.
Moorsheadabad ...	Nil	Weather cloudy; perceptibly warmer; no change to report about the prospects of the crops; <i>boro dhan</i> is doing well, and the land is being got ready for <i>aous</i> ; prices are steady; the public health is good on the whole, though cholera begins here and there.
Pubna ...	Nil	Weather still rather cold for the season; state and prospects of the crops continue to be satisfactory.
Rajshahye ...	Nil	Weather clear; it is gradually getting warmer; mornings and evenings are still cool; the prospects of the <i>rabi</i> crops continue good; <i>til</i> is being sown; public health is good; cholera has almost disappeared.
Bogra ...	Nil	Weather fair; state and prospects of the crops are very good.
Dinagepore ...	Nil	Weather generally fine and getting warm; the prospects of the cold weather crops are on the whole fair.
Rungpore ...	Nil	Weather getting warm; the crops are good; ground is being prepared for the cultivation of early rice.
Cooch Behar ...	Nil	Weather just beginning to be warm; there was a slight shower of rain on the night of the 18th instant; mustard is being cut; fields are being prepared for <i>bitri dhan</i> ; the late rains have proved very seasonable; the prospects of tobacco continue favourable.
Jalpaiguri ...	Nil	Weather—days are unusually hot for the time of the year; land is being prepared for the cultivation of early rice; mustard is coming into market; it has yielded a good harvest; other crops are doing favourably; public health is good.
Darjeeling ...	Nil	Weather cold and cloudy during the week; no crops of importance are on the ground; land is being prepared for sowing.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—continued.		
Midnapore ...	<i>Nil</i>	Weather getting warmer, but still pleasant; state and prospects of the crops are good.
Howrah ...	<i>Nil</i>	Weather seasonable; the hot weather may be said to have begun; no crops on the ground.
Hooghly ...	<i>Nil</i>	Weather getting warm; lands are being ploughed; potatoes are still being gathered; vegetables are doing well; public health is normal.
Burdwan ...	<i>Nil</i>	The prospects of the crops are good; fever and cholera are prevalent in Jehanabad; public health is otherwise fair.
Bankoora ...	<i>Nil</i>	Weather dry and gradually getting hot; the prospects of the cold weather crops continue favourable; there were a few sporadic cases of cholera during the week.
Beerbhoom ...	<i>Nil</i>	Weather bright and warm; the prospects of the crops continue good.
Sonthal Pergunnahs ...	21	Weather getting warmer; the <i>rabi</i> crops are reported not to have been damaged by the late rain; ploughing is in progress.
Bhágálpur ...	17	Weather very fine, except on the 22nd, when it rained; the crops are all excellent; the general health is very good, with the exception of a few cases of cholera and small-pox.
Monghyr ...	40 at Banka	Weather fair; the prospects of the crops continue good.
Purneah ...	02 at Soopole.	Weather getting hot; west wind blowing; state and prospects of the crops are good.
Maldah ...	Few drops	Weather fair, except on the 19th and 22nd instant, when it was cloudy, with a few drops of rain on the latter date, which were not appreciable by rain-gauge; north-east wind blew during the cloudy days, west and south-west at other times; the maximum heat was 73°, and the minimum 55°; the weather is getting warmer at midday; the crops are in excellent condition, as before; 18 deaths from cholera reported.
Durbhunga ...	05	Weather seasonable; prospects of the <i>rabi</i> crops are good.
Mozufferpore ...	22	Weather growing warm; there is no change in the prospects of the crops; public health is good.
Sarun ...	34	Weather clear and cold; there was a fall of rain on the morning of the 22nd instant; the sky appears to be settling; wind blowing from the west; the <i>rabi</i> crops are fast reaching maturity, and the prospects are everywhere favourable; the late rain, if general throughout the district, must have slightly injured grain, wheat, and <i>rahar</i> ; poppy, too, must have suffered, as the opium from the capsules was washed away by the rain; mustard and peas are being harvested; general health is good.
Chumparun ...	08	Weather cloudy; hot during the middle of the day; cool at night; the late rain has not done any material injury to the existing <i>rabi</i> crops; which are still in very good condition.
Patna ...	20	Weather clear after slight rain on the morning of the 21st instant at sunder station; heavy rain fell towards the south of the district; prospects of the <i>rabi</i> crops are good; health is excellent.
Gya ...	64	Some rain fell all over the district nearly; cool in the mornings and evenings; beginning to get warm in the day time; the late rain injured the poppy crop, but not so much as was originally supposed; wheat and barley suffered to a small extent, but have revived; mango trees are late in coming into flower; public health is good.
Shahabad ...	1-06	Weather now clear; the <i>rabi</i> crops are reported generally to be promising, but the rain has done some damage.
Hazáribágh ...	<i>Nil</i>	Weather fine and seasonable; no change to report; the prospects are all very good; health of the district is good.
Lohardugga ...	14	Weather seasonable; the prospects of the crops continue favourable; general health is good.
Manbhoom ...	<i>Nil</i>	Weather fair; days are getting warm; sugarcane is being cut and pressed with an average outturn; there are no other crops now on the ground save patches of barley here and there over the district.
Singbhoom ...	<i>Nil</i>	Weather seasonable; the prospects of the <i>rabi</i> crops are favourable; the district is reported healthy.
Balasore ...	<i>Nil</i>	Weather warm; settled fair; no crops on the ground; a few cases of cholera reported here and there.
Cuttack ...	1-05 at Bhadrak.	Weather fine and warm; state and prospects of the crops are good.
Poorce ...	<i>Nil</i>	Weather fair; some of the <i>dalia</i> paddy crop is in the ear; the state of the other crops is good; ploughing for 1877 has commenced and is in good progress; the late rains had the effect of lowering the market to some extent; the selling price of common rice at present is 18 seers and 6 chittacks per rupee; exportation is going on; cholera has made its appearance in the city in consequence of influx of pilgrims for the Dole Jatra.
		<i>General Remarks.</i> —Slight rain is reported to have fallen in almost all the Behar province, and in Nuddea, Lohardugga, and parts of Balasore; it has somewhat injured the poppy crop in Gya and Sarun; the cold weather crops are ripe, and are being gathered in places; spring rice is doing well, and the ploughing for the autumn rice is progressing.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects

CONTROL OF STATE RAILWAYS.

Nos. 91—93 E—R., dated 28th February 1877.

RESOLUTION—By the Government of India, P. W. DEPT.

Read again—

Despatch to Secretary of State, No. 138 R, dated 22nd October 1873.

„ from „ „ „ „ 7 P W, „ 29th January 1874.

RESOLUTION.—In 1873, when the appointment of a Director of State Railways was resolved on, there were in all India—

				Miles.
State Railways open for traffic	...	...	...	160
„ „ under construction	...	...	...	1,213
„ „ under survey	...	...	...	1,294
Total				2,667

On 31st March 1876 there were—

				Miles.
Open for traffic	...	...	...	849
Under construction	...	...	...	1,294
Under survey	...	...	...	1,239
Total				3,382

Of this, the following shows what constituted the charge of the Director of State Railways—

				Miles.
Open for traffic	...	...	...	666
Under construction	...	...	...	1,124
Under survey	...	...	...	1,079
Total				2,869

2. The appointment of one Director was from the commencement regarded as provisional, and as work increased, it was intended to break up the control into several agencies or directions. This was represented to Her Majesty's Government when sanction to the appointment of the first Director was asked for.

3. It appears to the Governor General in Council that the time has now arrived when the control should be divided. The amount of business of multifarious kinds that has to be transacted by the Director has continuously and rapidly increased. The works are spread over a vast area. Complex questions connected with the working of the open lines frequently arise. The work connected with stores is most onerous. In order therefore to prevent the confusion that would arise from unduly deferring the change, the Government of India has resolved to anticipate the time when the direction of State Railways will inevitably outgrow the powers of one officer, and to allow the business to develop in permanent channels.

4. With this end in view it has been determined to divide the charge of the present Director of State Railways into four, in the following way :

A.—DIRECTOR OF STATE RAILWAYS (CENTRAL SYSTEM) : *Head-Quarters (for the present), Agra.*

- (a) The Rajpootana Railway.
- (b) The Holkar Railway.
- (c) The Ncemuch Railway with extension to Nusseerabad.
- (d) The Sindia Railway.
- (e) The Western Rajpootana Railway.

Total length of lines when complete, 1,166 miles.

B.—DIRECTOR OF STATE RAILWAYS (WESTERN SYSTEM) : *Head-Quarters, Rawal Pindi.*

- (f) Indus Valley Railway.
- (g) Punjab Northern Railway, including surveys for extension.

Total length of lines, 873 miles.

C.—DIRECTOR OF STATE RAILWAYS (NORTH-EASTERN SYSTEM) : *Head-Quarters, Darjeeling.*

- (h) Northern Bengal Railway.
- (i) Assam Surveys.
- (l) Tirhoot Railway.
- (m) Tirhoot Surveys, East.
- (n) Tirhoot Surveys, West.
- (o) Calcutta and South-Eastern Railway.
- (p) Nalhati Railway.

Total length about 830 miles when complete.

D.—DIRECTOR OF STORES : *Head-Quarters, with the Government of India.*

The three Directors of State Railways will have rank and pay as Chief Engineers, one of each class. The Director of Stores will rank as a Superintending Engineer.

5. The sanctioned number of superior officers in the State Railway Establishment under the present Director is—

Chief Engineer 1st class	...	...	...	1	The Director has the rank and pay of this class.
" " 2nd "	...	...	...	1	
" " 3rd "	...	...	...	1	
Superintending Engineers, 1st grade	...	4	} ...	11	
" " 2nd "	...	3			
" " 3rd "	...	4			
Total	...	14			

The number of Superintending Engineers now employed on the several Railways under the Director is—

Punjab Northern	...	...	...	1
Indus Valley	...	...	...	3
Holkar and Neemuch	...	...	...	1
Sindia	...	...	...	1
Western Rajpootana	...	...	...	1
Northern Bengal	...	...	...	1
Tirhoot	...	...	...	1
Total				9

Besides one Chief Engineer on the Indus Valley and one on the Punjab Northern.

6. At present two of the sanctioned posts may be reduced, and by substituting two Directors on the same salaries for the Chief Engineers of the 2nd and 3rd class hitherto employed on the Indus Valley and Punjab Northern lines, and placing Superintending Engineers in charge of the now reduced works on these Railways, the *personnel* of superior officers for the new arrangement will be provided as follows :—

				SUPERINTENDING ENGINEERS.		TOTAL.
				DIRECTORS.	Employed as Engineers-in-Chief.	
					Not employed as Engineers-in-Chief.	
A	...	...	...	1	3	5
B	...	...	...	1	2	6
C	...	...	...	1	2	3
D	...	...	...	1	...	1
TOTAL				4	7	15

That is to say, the present Director and two Chief Engineers and eleven Superintending Engineers will be replaced by three Directors and eleven Superintending Engineers, of whom seven will hold the position of Engineers-in-Chief. So far there is no excess over sanctioned expenditure.

The creation of the post of Director of Stores is covered by the sanction for a Superintending Engineer for State Railway Stores at Calcutta.

7. The powers of the Directors of State Railways will be the same as those conferred on the present Director, and they will eventually submit printed abstracts of their proceedings to the Government of India monthly. For the present, and till further orders, the abstract of their proceedings should be submitted in manuscript and weekly. The functions of the Director of Stores will be defined hereafter.

8. The corresponding changes in the Accounts Branch will be that one Examiner will be placed in charge of the accounts of the Railways under each Director, and will be aided by Deputy and Assistant Examiners as required. The organization to be adopted in the first instance is shown in the following table :—

Systems.	Railways.	PRESENT.			PROPOSED.		
		Examiners.	Deputy Examiners.	Assistant Examiners.	Examiners.	Deputy Examiners.	Assistant Examiners.
Western	Punjab Northern ...	1	...	1	}	1	3
	Indus Valley ...	1	2	...			
Central...	Rajpootana ...	1	2	...	}	1	4
	Sindia ...	...	...	...			
	Holkar and Neemuch ...	1	...	...			
	Western Rajpootana ...	1	...	...			
North-Eastern	Tirhoot ...	1	...	...	}	1	1
	Northern Bengal ...	1	...	...			
Stores ...		...	1	...	...	1	
		5	5	3	3	9	1

That is, the number of superior Accounts Officers will remain the same, but four Deputy Examiners will be substituted for four Examiners resulting in some saving of charge.

9. Office Establishments may be employed by the Directors within the limits of the following sums, subject to detailed review and sanction hereafter:—

						Monthly.
						Rs.
Director, Central	System	...	...	...	...	2,000
"	Western	"	...	...	...	1,000
"	North-Eastern	"	...	...	...	1,000
"	of Stores	...	...	...	...	600
TOTAL						4,600
Establishment of the present Director of State Railways						3,111
INCREASE						1,489

10. In addition to this increase the Directors of the Western and North-Eastern Systems will each require an Assistant, while the present Assistant Director will become the Assistant Director of the Central System. Putting down their pay at the average of an Executive Engineer, there will be an increase of Rs. $720 \times 2 =$ Rs. 1,440 per mensem.

11. The establishment of the Examiners will be fixed tentatively by the Accountant General within the amounts at present sanctioned under that head.

12. The foregoing arrangements will be carried into effect from the commencement of the next official year. The Director of State Railways has prepared the budget estimates of his charge for 1877-78 to suit the new Systems.

13. The following officers are nominated Directors under the new arrangement, and will be provisionally gazetted in due course:—

Director of the Central System—Colonel E. C. S. Williams, R.E.

Director of the Western System—Colonel F. W. Peile, R.E., Assoc. Inst. C. E. (on furlough, Mr. A. Grant to act).

Director of the North-Eastern System—Mr. A. Grant, M. Inst. C.E. (Lieutenant-Colonel F. S. Stanton, R.E., Assoc. Inst. C. E., to act).

Director of Stores—Major R. C. B. Pemberton, R.E., Assoc. Inst. C. E.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Director of State Railways for information and guidance.

Also to the Financial Department for information.

And to Home Department for publication in the *Supplement to the Gazette of India*.

W. A. CROMMELIN, *Major-Genl., R.E.,*
Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

DESPATCH FROM THE SECRETARY OF STATE APPROVING OF THE ARRANGEMENTS MADE TO MEET THE FAILURE OF FODDER.

No. 9 (Revenue), dated India Office, London, 8th February 1877.

From—The Secretary of State for India,

To—The Government of Bombay.

The despatch of Your Excellency in Council, dated 8th January, No. 1 of 1877 (Public Works Department), forwarding a summary relating to the progress of the scarcity and the measures adopted to relieve distress during the fortnight ending 5th January, has been considered by me in Council.

2. The number of persons employed on the relief works has increased by 34,931, but it is satisfactory to find, on the other hand, that the price of grain has again fallen, and that the public health, except in the district of Belgaum, is generally good.

3. Your arrangements to meet a serious failure of fodder, which is anticipated in the eastern districts during the next two months, have my approval.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

DESPATCH FROM H. M.'S GOVERNMENT REGARDING THE FAMINE IN
WESTERN AND SOUTHERN INDIA.

No. 13, dated India Office, London, 31st January 1877.

From—Her Majesty's Secretary of State for India.

To—The Government of India.

The accounts contained in the latest despatches which have reached me on the subject of the prevailing scarcity in Western and Southern India clearly indicate its increasing gravity, and the magnitude of the task which has devolved both upon Your Excellency's Government and the Governments of Madras and Bombay.

2. In leaving to Your Excellency the widest discretion as to the measures of relief which must be undertaken at this juncture, Her Majesty's Government in no way desire to decline their full share of responsibility for the policy adopted, and the results by which it may be followed, but they feel that this duty can be best discharged in an emergency such as this by giving every confidence to the Indian Executive, and by supporting to the utmost the humane and enlightened efforts of those whose knowledge of facts and local experience render them most competent to deal with the various questions which arise from day to day, and which, in the majority of cases, call for prompt and practical decision.

3. In dealing, therefore, with the many grave questions which at such a time have forced themselves on my consideration, I have abstained from instructions or suggestions which, under less urgent circumstances, it might have been my duty to make, for I have felt it right to avoid every expression of opinion on the part of Her Majesty's Government which might in any degree have the effect of embarrassing Your Excellency's Government in the execution of the arduous task before it, and lead to hesitation and delay at a moment when action and decision are of paramount importance.

4. I have followed this course the more readily on this occasion, from my reliance on Your Excellency's ability to deal with the difficult questions which have already arisen, and must continue to arise, in connection with the work of relief, and also from my confidence in the devotion of all those who in different places, and in the discharge of different duties, are serving the Crown to the utmost of their power. The unhappily too recent experience of famine administration acquired by many distinguished officers in India has, in one sense, given to Your Excellency an exceptional advantage, by affording you the means of discriminating between conflicting theories and obligations, so that whilst on the one hand, adhering to principles the value of which has practically been tested, you may, on the other, avoid the repetition of any mistakes which subsequent inquiry and a larger knowledge have disclosed.

5. But, while abstaining from any attempt to trench upon Your Excellency's full liberty of action in matters which can only be dealt with in India itself, I may remind you that it is of the highest importance that the Government of India should obtain, in their acts and decisions, the concurrence and support of Her Majesty's Government, as the authority which is finally responsible to Parliament for the administration of Her Majesty's Indian Empire, and that, for this purpose, regular and full communications are quite essential, even though the necessity of attending to this duty should make some addition to the heavy labours of those engaged in the work of relief.

6. You may, nevertheless, rest assured that so far as I can, consistently with the objects which I have now indicated, avoid imposing any burden on the already heavily taxed machinery of Indian administration, I will do so.

7. There are several questions of principle to which the present calamity has given a character of urgency, and which are among the gravest which can arise in connection with British rule in India. It is, for example, the duty of Her Majesty's Government, in concert with the Government of India, to adopt a policy by which some provision can be made for meeting what, unhappily, our experience shows are periodically recurring calamities, without causing grave financial embarrassments to the State, or throwing upon the people of India fiscal burdens which are beyond their power to bear.

8. Your Excellency has transmitted to me by telegraph a more or less condensed statement of the instructions issued to Sir R. Temple. It would be obviously premature for me to express any conclusive opinion on these instructions until I am in possession of the full

text of the document, but it is not too soon for me to approve the general principles, as I understand them, on which Your Excellency proposes to proceed. I need raise no question of detail as to the best system of relief operations, the limits of State interference with private trade, the means of transport, or the distribution of famine charges, all of them matters of the gravest importance, and all of them referred to in your telegrams of the 5th, 16th, and 21st instant. I will only say that I feel assured that, in common with successive Governments, both in England and India, on similar occasions to this, the principal aim which Your Excellency's Government has before it, as undoubtedly it is that of Her Majesty's Government, is the saving of life and the protection of the people from the extremity of suffering by famine; and it has been a source of unqualified satisfaction to learn your belief that this end may be attained without disastrous expenditure. At the same time I recognize with Your Excellency the concurrent obligation of regarding the general interest of that vast Empire which Providence has placed under British rule in the East as the great end for which, as a whole, each separate part of your policy must be framed. And duly appreciating the heavy responsibility thus placed upon you not to permit the extremely grave dangers of the future to be outweighed by the immediate and more obvious difficulties of the present, I trust that, by the careful and firm action of your Government, the balance between the various requirements of such a position will be truly maintained, so that while the lasting interests of the generations to come are guarded, your earnest endeavours will be successfully directed to the protection of the existing population from the evils that now threaten them.

9. I agree, therefore, with Your Excellency in deprecating an indiscriminate distribution of relief, which can only swell the amount of distress and ultimately demoralize the persons relieved. Whatever relief is given by the State should, as far as possible, in my opinion, as I understand also in yours, be given in combination with, and in return for, some kind at least of labour which, whilst it serves as a test of the necessity of the relief, may tend to keep alive in the mind of the people a sense of self-respect, and a reliance on their ability to work for their livelihood. I am, consequently, fully alive to the necessity on every ground, financial, political, and moral, of exercising as rigid a test in all relief operations as is possible, and though on occasions such as these, where the extent of those operations is so vast and complicated, the difficulty is unusually great, I have no doubt that Your Excellency will know how to maintain an even course between the conflicting obligations of a care for human life, on the one hand, and a strict and even severe administration of relief, on the other.

10. Famine administration has, unfortunately, become in India a subject of more than occasional importance, and in the working out of the instructions issued to Sir R. Temple, I hope that fresh and valuable light will be thrown upon the serious problems involved. Her Majesty's Government will await with anxious interest your reports as to the measure of success which attends the application of these rules to the conditions of the existing scarcity, as well as the expression of Your Excellency's own opinion as experience is gained of the results of the operations which you are now conducting.

11. I have only to add that to the financial measures which it will be necessary to adopt in order to enable the fiscal system of India to meet this heavy liability, I shall be prepared to give immediate attention whenever I am placed in possession of the conclusions of Your Excellency's Government on this important question, and of the details connected with the subject which you will doubtless forward.

12. Whether it will be possible, by new fiscal arrangements, to obtain the necessary financial equilibrium, and whether any reduction in some branches of expenditure is still a possible resource, are matters which will, I know, receive your most careful consideration, and on which I shall await the expression of Your Excellency's deliberate opinion.

13. On a review of what I have now written, I am aware that it may be open to the charge of suggesting nothing new, nothing that has not already passed through Your Excellency's mind, and how much it dwells on the gravest difficulties, without attempting the task of precisely defining lines and limits of duty in such an emergency as this. But, in spite of the possibility of such a construction being placed on my words, I have yet felt bound to put them on record, as the strongest proof which I can give of the desire of Her Majesty's Government to bear their full share in the responsibilities now pressing on all the Queen's servants entrusted with the administration of Her Majesty's Indian Empire.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

RELIEF REPORTS FOR THE WEEK ENDING 17th FEBRUARY 1877.

Proceedings of the Board of Revenue, Madras, dated 23rd February 1877.

The relief reports for the week ending 17th February are herewith submitted for the information of Government.

2. *Prices.*—Looking at the district averages it will be noticed that the price of rice in all districts except Nellore and Madura, where there is a fractional fall, shows a tendency to

rise. That of cholera has fallen but very slightly in seven districts, but risen in the others. The low quotations in Madura (15.59 seers) and Trichinopoly (19.6 seers) are due to Ivunga cholera, an inferior kind, being included in the former, and to the latter being for a single taluq (Perambalur) in which the crops have been to a great extent saved. Ragi has fallen appreciably in Kistna and slightly in Nellore, Cuddapah and Tinnevely, but the price is stationary or rising in other districts. That of cumbu may be said to be stationary in all districts. The range of prices as between taluq and taluq in the same district is sometimes very great. Thus, taking rice, the price varies from 5.94 seers (Pennakonda and Dharmavaram) to 7.83 seers (Bellary) in the Bellary District; in Nellore from 7 seers in Rapur and Udayagiri to 10.5 in Ongole; and in Coimbatore from 6.8 in Caroor to 9 in Pollachy. The report from the Madanapally taluq is again wanting. The Collector will instruct the Sub-Collector to forward it in future to the Board's Office direct.

8. *Rainfall.*—The rainfall in Kistna is reported to have averaged 89 inches. There was a general fall over the Nellore District north of the Pennair, varying from one inch at Nellore itself to 1.15 inches at Kavali. This rain will do much to improve the water-supply and the prospects of the cattle. In Kurnool also there has been 0.15 inches rain in Markapur. In Coimbatore, there was half an inch in Collegal, and a shower at Coimbatore; and in Tinnevely slight rain in Ottapidaram and Nanguneri.

4. *Grants and outlay.*—The grants to the 17th instant were Rs. 80,69,763, against which, according to the reports, the total outlay has been Rs. 72,37,162. In Kurnool and Coimbatore the grant has been exceeded, and further funds will have to be placed at the Collector's disposal. The Board, however, would observe, with reference to these returns of outlay, that owing to the way in which the information is collected they are necessarily incomplete and inaccurate, that the errors are always on the side of defect, and that they have now probably accumulated to the extent of four or five lakhs. The classified accounts of outlay which have been ordered will enable the Board to apply the necessary correction and to keep future returns nearer the truth. The outlay on relief works during the week was Rs. 4,81,478, and the following is the classification so far as particulars can be had:—

			In the week.	Up to the week.
Roads	...	...	3,14,525	36,43,805
Irrigation works	...	...	16,901	2,76,809
Miscellaneous...	...	...	32,411	3,88,762
			<u>3,63,837</u>	<u>43,09,376</u>

5. *Numbers on relief works.*—The numbers again show a considerable decrease as is apparent from the following figures:—

				10th February.	17th February.		
Kistna	...	...	...	3,564	3,014	—	550
Nellore	...	...	...	57,006	54,949	—	2,057
Cuddapah	...	...	...	117,769	80,389	—	37,380
Bellary	...	...	...	341,343	307,509	—	36,834
Kurnool	...	...	...	238,734	214,299	—	24,435
Chingleput	...	...	...	12,779	12,595	—	184
North Arcot	...	...	...	21,524	18,519	—	3,005
Trichinopoly	...	...	...	647	556	—	91
Madura	...	...	...	7,832	7,749	—	83
Tinnevely	...	...	...	1,338	1,114	—	224
Coimbatore	...	...	...	23,733	22,152	—	1,581
Salem	...	...	...	39,154	36,430	—	2,724
			TOTAL	868,423	759,275	—	109,148

6. Every district shows a decrease, and those in the Ceded Districts and Kurnool amount to 98,649 out of 109,148. Besides the numbers above given, there were 19,102 coolies at

work on the East Coast Canal, to which considerable numbers have been transferred from the Nellore district works. There have not been much change in any taluq of that district, except those noted in the margin, and for these changes no cause is assigned in the reports. The increase in Atmakur, however, appears to be due to works being recommended and the falling off in the other cases to drafts to the Canal.

7. The Cuddapah figures, compared by taluqs, are as follows:—

	10th February.	17th February.	
Jammalamadugu	10,539	9,630	— 909
Pulivendla	11,653	10,232	— 1,421
Proddatur	2,987	1,253	— 1,734
Cuddapah	7,712	7,120	— 592
Budwail	6,788	8,857	+ 2,069
Sidhout	5,901	5,409	— 492
Pullumpett	8,985	8,555	— 430
Kadiri	11,874	4,592	— 7,282
Royachoti	10,773	2,569	— 8,204
Madanapalli	29,241	18,753	— 10,488
Voilpad	11,316	3,419	— 7,897
TOTAL	117,769	80,389	— 37,380

The decrease is thus mainly in the four sub-division taluqs, where the numbers have fallen in a month from 119,051 to 29,333 or 75 per cent. The fall in the present week is very great. The report of the Collector's visit to the sub-division must be awaited for full explanation of the causes. The increase in Budwail does not surprise the Board. Parts of the taluq, which is a poor one, have suffered very heavily, and the present number is only 9·5 per cent. of the population.

8. Bellary.—The following are the taluq details:—

Adoni	...	...	...	88,723	87,985	— 738
Alur	...	...	...	51,906	46,593	— 5,313
Gooty	...	...	...	25,062	23,330	— 1,732
Tadpatri	...	...	...	12,833	11,175	— 1,658
Anantapur	...	...	...	16,615	8,997	— 7,618
Dharmavaram	...	...	...	9,736	5,251	— 4,485
Pennakonda	...	...	...	5,620	3,529	— 2,091
Hindupur	...	...	...	4,999	1,733	— 3,266
Madaksira	...	...	...	22,690	13,697	— 8,993
Raidrug	...	...	...	3,689	7,336	+ 3,647
Bellary	...	...	...	49,257	49,266	+
Hospett	...	...	...	13,455	20,256*	+ 6,801
Kudligi	...	...	...	19,819	15,439	— 4,380
Hudgalli	...	...	...	11,666	5,600	— 6,066
Harpanhalli	...	...	...	8,273	7,322	— 951
TOTAL	...	...	...	344,343	307,509	— 36,834

* Includes 3,075 in Sundur State.

In Adoni the enormous numbers still continue, but in Alur, a reduction of 5,313 has been effected. In all taluqs there has been decrease except Raidrug, Bellary and Hospett. In the latter taluq it is partly nominal owing to the inclusion of figures for Sundur (3,075) which have hitherto been omitted altogether. In Anantapur, Madaksira and Hadgalli, the decrease is very great. In the first-named taluq it seems to be due to closure of works.

9. The decrease in *Kurnool* is ascribed in the Collector's telegram to weeding and the enforcement of task-work. In North Arcot the decline is in the Vellor and Arcot taluqs, and in Salem numbers have decreased, in Ahtur from 3,378 to 705, and in Dharampuri from 7,640 to 3,206, but have increased in Salem and Trichingode from 8,349 and 4,505 to 10,184 and 6,306 respectively. The falling off in Ahtur is doubtless due to the reaction after the first rush to the works which are then newly opened. The figures in the other districts do not call for particular remark.

10. *Rates of wages.*—The new scale ordered in G. O., 31st January 1877, No. 329, had not yet begun to take effect. The scale is a complicated one, and several points had to be settled before it could be practically applied. On these, instructions were given in G. O., 12th February 1877, No. —. The only place where the new rates appear to have been started, was the Chittoor taluq of North Arcot, where the rates were 1 anna 5 pies, 1 anna 2 pies, and 8½ pies. The price of 2nd sort rice having been 8 seers per rupee, the rates appear to be in accordance with Scale II in the G. O. quoted. The Collector of Coimbatore was awaiting instructions on the points above referred to. None of the other reports mention the new scale, and it is apparent that the 2 anna, 1 anna 4 pie and 10 pie scale had not, even yet, been fully introduced. In Salem, piece-work rates are largely in force; and in Tinnevely the highest money rate is 1 anna 8 pies. In Chingleput some high rates were being paid on a relief work in the charge of the Superintendent, Government Farms; but separate orders have been issued on this subject. It will, the Board think, take at least a fortnight to introduce the new scale, and the time must be counted from the receipt by Collectors of G. O., 12th February 1877, No. —.

11. *Gratuitous Relief.*—The numbers are compared below by districts:—

DISTRICTS.				10th February.	17th February.		
Kistna	...	...	...	41	430	+	389
Nellore	...	...	...	5,406	9,025	+	3,619
Cuddapah	...	...	...	1,723	1,723	..	
Bellary	...	...	...	14,386	10,011	—	4,372
Kurnool	...	...	...	3,567	4,026	+	459
Chingleput	...	...	...	4,419	4,095	—	324
North Arcot	...	...	...	824	619	+	295
Madura	...	...	...	557	197	—	360
Tinnevely	...	...	...	71	93	+	22
Coimbatore	...	...	...	1,809	1,573	—	236
Salem	...	...	...	4,530	3,193	—	1,037
TOTAL.				36,833	35,288	—	1,545

There is a small decrease on the whole, which, however, would have been greater, but for an increase in the Nellore district. Gratuitous relief is now spread over nearly the whole district, but it is strange that there is none in Udayagiri, the most poverty-stricken taluq of all. The Board are awaiting a report from the Collector as to the administration of this form of relief. The further decrease in Bellary is satisfactory, and shows that the relief is being brought within due bounds. The camp system in Salem has rapidly reduced the numbers, but the Collector thinks that the relief afforded is insufficient, and that a village system of some kind must be again resorted to. A report on the subject is before the Board. The

camps in North Arcot have as yet been scarcely started. The bulk of those fed in Coimbatore is still in Udumalpetta, but the Collector's report called for on the point has not come to hand.

The cost of gratuitous relief during the week was Rs. 14,831, and the total outlay on works and gratuitous relief, Rs. 72,09,609 and Rs. 2,27,553 respectively.

12. The present reports for the first time mention advances under the Land Improvement Act for the construction of wells, under the recent orders prescribing a simplified procedure in lieu of that laid down in the rules. The following particulars appear :—

DISTRICT.	Taluq.	Number.	Amount.
Cuddapah	Cuddapah*	48	Rs. 4,080
	Pulivendla*	...	690
	Sidhout*	...	200
	Jammalamadugu†	...	100
			5,070
Nellore		...	4,105
Bellary		...	635
			9,810

* By Tahsildars.

† By Collector.

The commencement of these operations is satisfactory. Collectors will in future give the number and amount of advances by taluqs as already ordered.

13. Returns of establishments employed have come from six districts, as shown below :—

	RELIEF.		PAYMENT OF WAGES.		AMOUNTS.		TOTAL.	
	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.
		Rs.		Rs.		Rs.		Rs.
Bellary	1,089	17,653(a)	213	3,007	81	1,646	1,383	22,306
Kurnool	388	15,665(b)	83	852	63	772	534	17,289
Salem	...	(Fide return sent with report for 10th)					191	5,674
Madura	39	1,677(c)	1	15	2	27	42	1,719
Tinnevely	18	177	2	16	...	...	20	193
Coimbatore	40	1,157(d)	1	7	4	47	45	1,211

(a) Includes eight European officers and Deputy Collectors drawing Rs. 2,762 and two Assistant Engineers drawing Rs. 700.

(b) Includes 14 European officers and Deputy Collectors drawing Rs. 7,667.

(c) Includes Special Assistant Collector for relief duty.

(d) Includes one Special European officer (of Survey Department) drawing Rs. 425.

The Board hope that the returns from all districts will be complete by next week.

14. The usual memorandum showing grants sanctioned by the Board to the 22nd instant accompanies. The total is Rs. 80,99,763.

(True Extract)

H. E. STOKES.

Secretary.

Proceedings to Additional Secretary to Government, Revenue Department, with original reports and their enclosures and six maps (to be returned) and five statements.

Copy to Kistna, Nellore, Bellary, Cuddapah, Kurnool, Chingleput, North Arcot, South Arcot, Tanjore, Trichinopoly, Madura, Tinnevely, Coimbatore and Salem.

No. 1.

Average number of Government seers of 80 talahs per rupee of different grains, and rainfall in certain districts of the Madras Presidency, for the week ending Saturday, the 17th February 1877.

Districts.	RICE, 2ND SORT.			CHOLU.			RAGI.			CUMBOO OR SAZZA.			WHEAT.			Horse-GRAM.			RAINFALL.

* Such as digging and repairing wells, prickly-pea clearances, &c.

A little rain has fallen in Ahmednagar and Belgaum.

There is no change calling for remark in the price of grain, as jowari continues to average 23 lbs. the rupee throughout the nine affected districts.

The number of people upon relief works in the affected districts is 258,855, and there are also 4,198 hill-men and immigrants upon relief works in Ratnagiri and Kanara. There is thus an increase of 9,953 in the nine affected districts, and of 1,677 in Ratnagiri and Kanara, or a total increase of 11,630 during the week.

2. The Government of India have expressed their appreciation of the taluka reports prepared by the local Officers of this Government, abstracts of which accompanied statement No. XIII.

It may be advisable to notice the machinery available in this Presidency for the distribution of charitable aid to indigent persons unable, on account of sickness, age, or infirmity, to obtain their livelihood upon the relief works, or who, from any cause, are prevented seeking relief on those works.

In every village there is one, and in many villages there are two, patels or hereditary headmen, who, as far back as last November, were ordered to relieve all cases of distress, whether of their own villagers or of travellers. They are assisted by the kulkarni, or hereditary village accountant, and have at their disposal the hereditary village police and messengers. There are, also, Police posts at some of the larger villages, and the officers of the Police, as well as those of the Public Works Department, are able to give most valuable assistance.

In some of the worst districts, the villages of a taluka have been divided into groups, and each group placed under the charge of a Circle Inspector, whose duty it is to visit all his villages at least twice a week.

The chief executive officer of the taluka is the Mamlatdar, who has a strong office establishment intimately acquainted with the taluka, and in seriously affected districts, an extra, or Relief Mamlatdar has been appointed: these Mamlatdars are immediately subordinate to the Assistant or Deputy Collector, who, in famine districts, has charge sometimes of only one, and seldom of more than two, Talukas; the immediate superior of the Assistant or Deputy is the Collector, and the heads of the chain of local organization are the three Revenue Commissioners, between whom the nine famine districts are divided.

3. Tables (A) and (B) are appended as before. A mistake for the week ending 27th January has been corrected, and information regarding the immigrants and hill-men in Ratnagiri and Kanara has been added. It may be noticed that, on the latest date for which information is furnished, the number of people upon civil relief works was not much in excess of one-fifth of the total.

4. Maps are not sent this week, as they would only repeat the information contained in those which accompanied the last statement.

5. The following table gives the expenditure by Government upon charity in the relief of the aged and infirm poor; and in payments made to the young children of labourers employed upon relief works:—

DISTRICT.	Collectors' Discretionary Grant.			Expenditure incurred on account of children under 7 years of age whose parents are upon Relief Works.		
	Average number of persons relieved during the Week ending 24th February.	Expenditure during the Week.	Total Expenditure up to date.	Average number of Children, and of Women taking care of them.	Expenditure during the Week.	Total Expenditure up to date.
	No.	Rs.	Rs.		Rs.	Rs.
Khandesh	*	*	518	862	81	341
Nasik	10	7	184	4,507	657	2,597
Ahmednagar	†	†	4,938	3,605	317	1,672
Poona	2,604	1,041	7,224	9,907	946	11,901
Sholapur	1,120	1,108	14,760	8,540	798	3,539
Satara	25	13	1,198	7,242	787	3,252
Kaladgi	335	196	928	†	†	†
Belgaum	473	187	1,999	722	73	428
Dharwar	†	†	2,367	235	28	28
TOTAL	4,567	2,552	31,116	35,620	3,687	23,848

* No expenditure has been incurred.

† Return not received.

The allowance of a quarter of an anna per head, per diem, for children under seven years of age, whose parents or guardians are employed upon the relief works, is paid both by the Civil and Public Works Departments, so that, assuming that there are 26 working days in the month, and that grain is selling at 16 lbs. the rupee (and it is seldom so dear as this), a family, consisting of a husband, wife, and four children, two over, and two under, seven years, can earn Rs. 7-11-6 monthly on the former, and Rs. 9-12 on the latter, *c. g.*—

		Man.	Woman.	2 Children over 7 years.	2 Children under 7 years.		Rs.	A.	P.
Civil Agency	... As.	1½	1½	1½	½ = 4½	× 26 =	7	11	6
Public Works Agency	,,	2	1½	2	½ = 6	× 26 =	9	12	0

This amount for a family is not less than the earnings of some peons or lower class of servants who frequently have as large a family to support.

7. With regard to the movements of food-grains 4,917 tons were exported from Bombay to the Southern Mahratta Ports during the week ending 22nd February, and during the same week 4,199 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Nasik-Bhosawal lines, making a total of 9,116 tons for the week.

8. On the whole, the increase in the number of persons upon relief works is not excessive, and the grain supply continues to be satisfactory.

M. K. KENNEDY, Major-General, R. E.,
Secretary to Government.

NOTE.—The totals are not invariably the sum of the men, women and children, as in a few returns these particulars have not been given, the total number of labourers alone having been entered. These figures are for the nine distressed Districts only. The people upon Relief Works in Ratnagiri and Kanara are shown in Table A.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

CONDITION OF THE PROVINCE OF MYSORE FOR THE WEEK ENDING
17th FEBRUARY 1877.

No. 12028-174, dated Bangalore, 26th February 1877.

From—The Officiating Secretary to the Chief Commissioner of Mysore,

To—The Additional Secretary to the Government of India.

I AM desired by the Chief Commissioner to submit, for the information of Government, the periodical return for the week ending midnight of 17th instant, and to explain that all statistical returns for the province have been directed to be made up in this manner for the convenience of systematic comparative analysis. The present return of area affected differs from that previously submitted, but at first there was no definite rule for determining what this was, and the present figures may be taken to represent it more accurately than those furnished heretofore, which were necessarily based on the reports sent in by the amildars of taluks.

2. The whole of the province is unfortunately affected, though the severity of the calamity is felt more in the eastern and central parts than in the western. There is generally a sufficiency of grain, and the prices, it will be seen, are fairly steady; but the great want is money and water. With regard to the former, relief works have been judiciously apportioned over the provinces so as to enable those capable of work to get a fair day's wage for a fair day's labor, and relief kitchens, that have been similarly opened, are accessible to those who, unfortunately, are unable to do so.

3. As regards gratuitous relief, measures are in progress for carrying out the system of house-to-house inspection advocated by Sir R. Temple, with the object of preventing, as far as human agency can effect it, the mortality that might possibly otherwise occur among those who are, from any cause, unable or unwilling to seek relief at the works and feeding kitchens. A copy of the Chief Commissioner's orders No. 11381-226, dated 9th February 1877, on this subject was communicated to you with my letter No. 11672-165, dated 16th instant.

4. The tanks in the neighbourhood of Bangalore are all dry, as well as in many other parts of the province, and should no rain fall so as partially to fill them and keep up the spring level in the wells, the suffering will be intensified during next month, when, according to the doctrine of averages, which, however, is not to be always implicitly relied on, no rain is to be expected, though rain usually falls during the month of April in the shape of so-called mango showers. Exceptional falls have, however, occurred in March and notably so in the years 1853 and 1863; when $6\frac{1}{2}$ and $5\frac{1}{2}$ inches, respectively, were registered. Should such rain providentially fall in our present need, not only will actual distress be greatly alleviated, but the confidence that will be inspired will have the most beneficial influence, and grain that is now confidently believed to be stored for consumption in case of greater necessity, will then be brought forward for sale.

There is, moreover, I am to add, an expectancy of rain on the part of the agricultural population, and though this is difficult of explanation, the fact remains that they have for some time past (1) been cultivating small patches wherever water was available; (2), sinking new and deepening old wells; (3), carefully ploughing such lands as admitted of such impression; and (4), collecting with more than their usual diligent care manure of all kinds, and spreading it in readiness on their fields.

5. The result of the special arrangements that the Chief Commissioner has directed to

	Rs.
District Fund Budget	1,85,323
Special relief works	1,19,269
	<u>3,04,592</u>
Imperial Public Works Irrigation Budget	3,56,234

Civil Budget petty constructing and repairs	76,831
Municipal Budget	1,19,713
	<u>1,96,544</u>
TOTAL	16,93,903

be made to ensure accuracy and a thoroughly uniform system of working relief operations of all kinds, for the public benefit, throughout the province, will be observable in the return for the week ending midnight of the 3rd March; and Government, I am instructed to add, may rest assured that the fullest information will be afforded without any unnecessary delay, and that the strictest economy, consistent with the imperative duty of relieving, under very careful supervision, the sufferings of the people in the present crisis, will be effectually observed.

6. The totals of the general expenses are up to the 31st December 1876 are marginally given.

SECRETARY OF STATE'S APPROVAL OF FAMINE POLICY OF GOVERNMENT.

No. 18 (Revenue), dated India Office, London, 8th February 1877.

*From—The Secretary of State for India,**To—The Government of India.*

THE despatch of Your Excellency in Council dated 5th January, No. 1 of 1877, on the subject of the scarcity in Western and Southern India, has been considered by me in Council.

2. I approve of, and accord my sanction to, the appointment temporarily of the Honourable Mr. Hope as an Additional Secretary to the Government of India in the Department of Revenue, Agriculture, and Commerce.

3. I consider that Your Lordship in Council has, under the explanations offered, exercised a just discretion in permitting the Government of Bombay to concentrate all its correspondence on the subject of the famine and relief operations in its Public Works Department.

4. I also approve of the proceedings of your Government in permitting the Government of Bombay to undertake the construction of large works, and I shall await the more complete explanation, which you doubtless will furnish in due course, of the arrangements under which you propose to require that any excess expenditure beyond the actual requirements of the scarcity shall be met from provincial resources.

5. I have already expressed, by telegraph, my approval of the special mission of Sir Richard Temple.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

FAMINE IN THE PRESIDENCIES OF MADRAS AND BOMBAY.

No. 14, dated 9th March 1877.

*From—The Government of India,**To—Her Majesty's Secretary of State for India.**

THE subject which has most particularly engaged our attention during the past week in connexion with the famine in the Presidencies of Madras and Bombay, is the insufficiency of the means at present available for transporting grain from Madras to the interior, and more especially to the north-western districts of Cuddapah, Bellary and Kurnool. The stock of grain at Madras awaiting removal by rail, including, we understand, some 26,000 tons of Government grain, is very large. Much of it is lying on the beach in bags exposed to the weather, and will be seriously damaged if rain should fall before it is removed. At present the Madras Railway is not able to carry more than 700 tons a day. It is of great importance that the carrying power of the railway should be increased with as little delay as possible, and with this view Sir Richard Temple has suggested, in a Minute which we enclose, that the working of the Raichore section of the Madras Railway should, for a time, be made over to the Great Indian Peninsula Railway Company. On the 3rd instant we communicated to the Madras Government our concurrence in this proposal; but it now appears that there are difficulties in the way of its being carried out, owing, it is stated, to the rolling-stock of the Great Indian Peninsula Railway not being more than sufficient to furnish haulage to Raichore. We hope to be able in the course of a few days to make arrangements for the supply of additional rolling-stock from the East Indian and other Railways to the Great Indian Peninsula and Madras Railways. The strain on the railways for some months past has been undoubtedly very great, and the exertions of the railway officials have been most commendable; but still greater efforts will have to be made to avert disaster, and we trust that they will not be unsuccessful.

2. Another matter, which has caused us considerable anxiety, is the distrust which appears to be felt by members of the mercantile community, both at Madras and at Calcutta, in connexion with the purchases of grain made by the Madras Government some time ago. From letters which have appeared in the newspapers, and from information which has reached us from other quarters, there is evidently still an impression that the relations between the Madras Government and the firm which was employed by it to make its purchases, have not entirely ceased, and that there is danger of further similar purchases being made and disarranging the calculations of the trade. Some colour was unfortunately given to the impression in question by a transaction which occurred at Bellary subsequent to the date on which the Madras Government brought to a close the arrangement with the firm alluded to for the purchase of grain. It appears that on the 12th of January, the arrangement with Messrs. Arbuthnot and Company having been terminated on the 5th, the Collector of Bellary purchased some grain for the relief works from a local firm without reference to the local Agent of Messrs. Arbuthnot and Company, and was called upon by the Madras Government to explain why this particular transaction had been concluded without reference to the Government brokers, and it was not until the 29th January that the Government officers at Bellary became aware that Messrs. Arbuthnot and Company were no longer Government brokers. The fact that the firm in question had ceased to act for the Government in that capacity, was not publicly notified by the Madras Government until the 8th February, a delay which was unfortunate, and which not improbably caused mis-

apprehension in the minds of the mercantile community. From orders of the Madras Government which have recently been received, we learn that Messrs. Arbuthnot and Company were employed in issuing supplies of rice from the Government reserve, and in replacing in the reserve an equal quantity which apparently was supplied by them to the Government. In one of Sir Richard Temple's recent minutes the same firm are alluded to under the designation of the Government Grain Agents. We are aware that the Madras Government have no intention of entering into further purchases of grain, similar to those made by them in November last; but it is so important that there should be no grounds whatever for misapprehension, either as to the action or intentions of the Government in this matter, that we have deemed it necessary to request that the Madras Government will lose no time in publicly notifying the quantity of grain now in its hands, both at Madras itself, and in the distressed districts, and its resolution to make no further purchases of grain outside of the distressed districts, unless it is satisfied that the trade is unable to supply the wants of those districts, in which case the grounds of that conclusion, and the exact intentions of the Government, should be publicly made known. We have also instructed the Madras Government to notify that even in the distressed districts, the Government will abstain from making purchases except for the relief of localities which the trade is unable to reach; that all Government grain now in those districts will be removed to places at least sixty miles from the railway, and that no more Government grain will be sent to those districts from Madras so long as private trade is able to supply them.

3. In regard to the reserve of Government grain now at Madras, amounting, as we have said, to 26,000 tons, we have suggested, for the consideration of His Grace the Governor of Madras in Council, the expediency of disposing of this reserve by public sale to the trade. With reference to the large quantity of grain which appears to have accumulated at Madras, belonging to private traders, the retention of a Government reserve would seem to be unnecessary; and its existence is certainly calculated to keep alive the erroneous impressions which have taken possession of the public mind in regard to the probability of the Government again interfering with the grain market. We think that the reserve should be sold to the highest bidders in specified lots at intervals of, say, a fortnight, previous notification being given of the quantities to be sold, and of the dates on which the sales will take place. We feel sure that the adoption of these precautions will effectually dispel any apprehensions of interference on the part of the Government with private trade.

4. Among the enclosures of this despatch will be found a Minute by Sir Richard Temple on the expediency of drafting labourers from the relief works in the Nellore district, and also from the Ceded Districts and Kurnool to the East Coast Navigation Canal, on which some 30,000 persons are now employed, but which will afford useful occupation to 60,000 more. This is one of the few relief works of magnitude at present in progress in the Madras Presidency. It is likely to prove a most useful work, passing, as it does, through the whole length of the Nellore district, connecting the delta of the Kistna river with Madras, and, as Sir Richard Temple observes, opening out "a large field for inland trade between the Presidency town and some of the richest agricultural districts." It is a work which the Madras Government have long desired to carry out to completion, and it would have been completed under the Government of Lord Napier and Ettrick, who gave much attention to the project, had funds been available. It is very desirable that the present opportunity should not be lost. We have no doubt that in this, and in other cases, the difficulty of inducing people to leave their villages for a distant work on which a full day's work will be exacted can be overcome by patience and firmness on the part of the district officers and their subordinates.

5. The following is Sir Richard Temple's telegraphic summary, received yesterday, of the present aspect of affairs in the Madras Presidency :—

“Spring crop coming on in most of the distressed districts, tendency of prices slightly favourable, markets well supplied, but much anxiety about accumulation of grain at Madras. Great delay in doubling line to Arcotum. Number on relief works further decreased by improved carefulness of local officers; task-work more strict from improved supervision. The reduction of wages is being introduced with much hesitation. Since letter reporting my inspection at various times of ninety-seven thousand relief labourers, I have inspected thirty thousand more in districts of Cuddapah, Nellore, North Arcot, Coimbatore and Salem. With some exceptions, physical condition of gangs inspected fairly good. In Nellore relief labourers very reluctant to be transferred from petty village works under lax supervision to Coast Canal under professional control. Local rumours of mortality going on in Nellore district are without foundation. Applicants for charitable relief decreasing, because unwilling to submit to system of relief camps. General prospect tolerably favourable with certain drawbacks only.”

6. The number of persons employed on the relief works in the Madras Presidency, according to the latest returns, was 667,463, showing a decrease of 36,241 below the number of the previous week; 48,091 persons were gratuitously fed against 46,588, the corresponding number for the previous week.

7. In Bombay the number on the relief works during the week ending the 2nd instant was 263,053. As compared with the previous week, there was an increase of 11,630 persons; but the number on the works is enormously below the estimates referred to in the 10th paragraph of our despatch of the 23rd ultimo, which gave the probable number for the 1st March at the respective figures of 750,000, 540,000 and 677,500. In Mysore the number on the works was 63,348.

8. We have been furnished by the Madras Government with a copy of the letter addressed to them by their Sanitary Commissioner, which has been sent by them to Your Lordship, regarding the alleged insufficiency of the reduced rate of wages lately prescribed for the relief works in the Madras Presidency. Sir Richard Temple has proceeded to Madras for the purpose of conferring with the Local Government on this subject. We shall probably be in a position to express our views upon it in our next despatch.

9. We enclose a summary of the returns received from Mysore in reply to our call of the 30th October last, regarding the condition and prospects of the several talukas or sub-divisions of districts in that Province, together with our Resolution reviewing them. As we have already noticed most of the salient facts connected with the famine in Mysore in our despatch of the 23rd ultimo, we need not do more on the present occasion than draw Your Lordship's attention to the papers now sent, which confirm the opinions we had previously formed from Sir Richard Temple's reports that the arrangements for dealing with the famine in that Province have been characterised by zeal, judgment and humanity.

10. When we deputed Sir Richard Temple in January last to visit the famine-stricken tracts and to confer with the local Governments regarding the measures which were being carried out for the relief of distress, we had hoped that his mission would not occupy more than a few weeks; but it now seems probable that the arduous duty on which he is engaged will still occupy him for some time longer. It is impossible to over-estimate the value of the service which Sir Richard Temple is rendering to the State at the present juncture.

No. 82, dated Bellary, 24th February 1877.

*From—The Secretary to Sir Richard Temple,
To—The Secretary to the Government of India.*

By direction of Sir Richard Temple, I have the honour to submit copy of a memorandum by Captain Bisset upon the improvements in the working of the grain traffic, with copy of a covering letter to the Madras Government.

2. The assistance given by the Great Indian Peninsula Railway Company in smoothing the difficulties and assisting the working of the Madras Railway Company is now most satisfactory.

No. 81, dated Bellary, 24th February 1877.

*From—The Secretary to Sir Richard Temple,
To—The Additional Secretary to the Government of Madras.*

By direction of Sir Richard Temple, I have the honour to forward copy of a memorandum by Captain Bisset on the progress of arrangements for improving the grain traffic from Raichore into the ceded districts.

2. With reference to this memorandum, I am to suggest that, if His Grace the Governor in Council be pleased to permit, the Agent of the Madras Railway may be moved—

- (a) to increase the staff in the locomotive sheds, so that the engines of the Madras Railway Company and also those lent to the Company may be kept in first-rate working order, and so that failures of engine may be either prevented or set right ;
- (b) to improve and increase the telegraphic staff and also the station staff, so that telegraphic reports and orders about the movement of trains may be promptly transmitted by day and by night ;
- (c) to expedite the completion of the crossing stations, especially that between Nunchirla and Auspri.

3. Sir Richard Temple understands that some of these matters, as well as the completion of arrangements for watering engines, are engaging the attention of the railway officials. At the same time he considers it desirable to lay his recommendation on the matter before the Government of Madras, so that the improvement which has been effected in the grain traffic may continue, and in order that full work may be got out of the additional engines when they arrive.

4. The need for strengthening the telegraphic staff and for improved arrangements for passing trains is very apparent. But Sir Richard Temple will abstain from expressing a confident opinion whether it would be advisable to extend the block system gradually over the whole of the length of the Madras Railway in the ceded districts.

Memorandum on the progress of the arrangements for improving the delivery of grain from the North to the Madras Railway.

THROUGH booking from the Great Indian Peninsula Railway to the Madras Railway was suspended about the 5th January, resumed on the 23rd January, again suspended on the 4th February, and again resumed on the 29th February. Mr. Conder informs me that, even during the suspensions, goods booked to Madras Railway by the East Indian Railway or by other lines beyond the Great Indian Peninsula Railway's system, were duly forwarded. Mr. Conder explains that the native merchants fully understand and are not discouraged by these alternations; and although I cannot understand this, I cannot suppose that Mr. Conder would accept (as he does) all the difficulties of detention of wagons and shunting of trains at road-side stations without very strong convictions of the superiority of the mode of working which he adheres to; and although I believe that the traders of the ceded districts of Madras would deal more directly with the distant markets if they could reckon more confidently on any regular interval between the despatch and the arrival of their goods, it must be noted that any deficiency of enterprise in the distant markets is made up for by the activity of the trade from Poona, Sholapur, and the Nizam's Dominions.

II. Efforts are made at the Great Indian Peninsular Railway stations to discourage the booking of grain locally to Raichore as an alternative to through booking, the consignors being advised that any suspensions of through booking are temporary, and that the Madras Railway Company's trains from Raichore are occupied with through traffic. But Raichore station can, under present arrangements, receive local grain without inconvenience; and now that this reason can no longer be urged, the argument in favour of getting large quantities of grain as near as possible to the distressed districts cannot but be admitted; and moreover grain has now begun to go from Raichore to Kurnool, and more might be expected to take this route if the road and its arrangements could be improved.

During the first sixteen days of February there have been 1,160 through booked wagons passed through Raichore, against 297 wagons booked locally, and the local booking has not unduly increased and it is now quite manageable.

III. The additional sidings were promptly put in at Raichore station, and they have been found of the greatest assistance, particularly in unloading grain for Raichore.

IV. Crossing stations are being constructed, one near the Tungabhadra river (with special reference to the water-supply), and another between Kosgi and Adoni.

Crossing stations and additional sidings. Additional sidings and grain sheds are ordered at Adoni, where there is now, and where there is likely to be, a heavy traffic.

The crossing stations south of Adoni are not yet in progress, it being considered that the traffic south of Adoni can be passed without further assistance.

I believe that as soon as it is found possible to draw supplies from the north, the demand from the districts south of Gooty will increase much more than it has already done. But in the meantime I fear a temporary check will occur in the traffic as a result of the great fall in the prices of northern grain which has lately taken place, and if the estimates are not altogether wrong, this check will be followed by a more severe pressure than has yet occurred.

Below the junction for Bellary the number of trains may be practicable, but on the line between Raichore and Goondacal junction, I think no means of facilitating the passage of trains should be neglected.

V. The Traffic Manager of the Great Indian Peninsula Railway has now made arrangements to give all the desired assistance to the traffic through Raichore.

The numbers of wagons handed over to the Madras Railway at Raichore are now regulated by the demands* made by the Station Master of the Junction Station; the times of the Great Indian Peninsula Railway are arranged to suit the requirements* of the Madras Railway Company; the wagons are now arranged in station order as much as possible, with the view of reducing the work at, and avoiding difficulties in, the Raichore Station; and the wagons for Raichore itself, and for transshipment at Raichore, are being delivered together and by the trains arriving at the hours most convenient for prompt unloading and transshipment.

VI. The arrangements for mutual accommodation at Raichore junction provide for keeping the Great Indian Peninsula Railway Company informed how many wagons the Madras Railway Company can take and promptly dispose of daily.

VII. It will be noticed from the appended table that the number of wagons moved from Raichore southwards has not been maintained up to the average of the first six days of February.

Since the 6th February two engines have been transferred to Raichore, but the third, promised about the 16th, has not yet arrived. Of the two sent up, one failed on the 11th, and another of those formerly on this section has also failed, so that the power at Raichore is again no greater than before.

But, even with the temporary increase of power from the 6th to the 11th, the average number of wagons worked away during the last ten days is only 102 against 110 a day during the first week of February. It is said that both men and engines were worked at too high pressure during the former period, and this is perhaps the case.

But, possibly, the Locomotive Superintendent may find it possible to arrange for larger shed staff to undertake the necessary shed work to the engines, and to relieve the drivers and firemen from this work so that they may have all their time at home for rest. I learn that many of the Great Indian Peninsula Railway Company's engines are at present worked longer hours, but with reliefs of drivers and firemen, and I see no reason why, with increased running shed establishment to look properly after the engines, this should not be possible on the Madras Railway.

At present a great many of the hours on the road are spent at stations waiting for other trains or crossing orders, and improved regularity of the train service will do much to increase the effective work of both men and engines.

VIII. Reference has already been made to the system under which the movements of the trains on the Madras Railway are regulated, as one of the main causes of this irregularity. The system works very well with few trains, whose irregularities are easily adjusted; but with the multiplication of trains, telegraphic references to and replies from the directing officer increase proportionally, the telegraphic communication fails in the promptitude necessary to prevent serious delays, and in consequence of these delays (which have always a tendency to become cumulative) the train service gets disorganised.

This disorganisation throws an incessant strain on the directing officer. But its consequences are perhaps most severely felt by the train staff, whose working hours are extended to the full limit of endurance.

A change (involving some delay and considerable expense) to the block system is now being made between Raichore and Adoni, but it will not be practicable, even if it is desirable, to introduce this change over the whole line in time to be of present use. I believe that a change to the system in force on most of the other Indian Railways might safely be introduced, length by length, with a few days of special attention by the Telegraph and Traffic officers to each length as the change is made.

But even if this is considered impracticable, I believe that even with the present system an increase to the telegraph staff would afford considerable relief, and I am confident that if the necessary signallers are not available in this presidency, they could be obtained from other parts of India.

* At the present moment one of these officers at Madras has been invalided from incessant work; and at Gooty it has been found necessary to appoint a second officer for this special duty and for work also at Raichore.

† At the present moment one of these officers at Madras has been invalided from incessant work; and at Gooty it has been found necessary to appoint a second officer for this special duty and for work also at Raichore.

The importance of economizing the time of the working staff cannot in my opinion be over-estimated; for, besides considerations of public safety and of humanity to the staff, it has to be remembered that the supply of trained staff is limited, and that upon the vigilance and endurance of the staff during the next four months, the supply of food to the people depends.

IX.—Sufficient watering arrangements are of equal importance with an increase of engines and staff, and there is considerable anxiety about the sufficiency of the supply

Watering arrangements.

in the length from Raichore to Cuddapah. Efforts are now being made to supplement the supply, but it will very probably be necessary to provide a supply of portable tanks to convey water for use on the long trips where no water can be got. Fortunately, there are a number of suitable iron tanks available in Madras.

An addition has been made with great success to the area of the station well at Kosgi, and similar additions are being made at one of the other stations.

It can hardly be hoped that all the enlargements of the wells will be equally successful, but to meet the coming emergency every possible source of water should be, and I believe is being, tried.

X.—It will be seen from the above notes that, although there is a slight difference of opinion on the through-booking question, the General Traffic Manager of the Great Indian Peninsula Railway has done all that he has been asked to do, and in some respects more than he is legally bound to do, to facilitate the through traffic at Raichore.

The Madras Railway Company, with equally good intentions, has much greater difficulties to contend with. It is short of engines, and its traffic and locomotive staff is ordinarily kept very low.

It has never before had to deal with a traffic so large as the present, and it has for the first time to encounter the difficulty of adapting its arrangements to working a heavy traffic.

And it is thus not to be wondered at that from one cause or another, there is not the same facility of expansion on the Madras Railway as there is on lines which have often before had to meet these emergencies.

But with regard to the through traffic from the Great Indian Peninsula Railway, although the mishaps recorded in paragraph 7 have prevented the Madras Railway from working up to the promises made to the Great Indian Peninsula Railway, the advance made has been considerable.

The average number of wagons worked away from Raichore for the first sixteen days of February has been 105 a day, while the daily average of the period from the 4th to the 22nd of January was only 72 wagons. The difference in weight of grain amounts to 200 tons a day, and this increase has been attained without any corresponding sacrifice of the despatches from Madras.

BELLARY;

The 17th February 1877.

W. S. S. BISSET.

Statement showing the daily arrivals of wagons at Raichore Junction, and the daily despatches from the same station southward, obtained through the courtesy of the Traffic Manager, Madras Railway.

MONTH AND DATE.	Number of through booked wagons delivered at Raichore in wagons which can run through.	Number of through booked wagons which have to be transhipped at Raichore.	Number of wagons delivered at Raichore to be unloaded there.	Number of through wagons detained at Raichore.	Number of wagons (through transhipped and local) forwarded from Raichore southwards. No. 83, dated Tripetty, 25th February 1877. .

From—The Medical Officer on SIR RICHARD TEMPLE'S Staff,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit copy of a memorandum of the facts ascertained by him on 20th February regarding the condition and prospects of the Pattikonda taluk of Kurnool.

Memorandum on the condition and prospects of the Pattikonda taluk of Kurnool, as ascertained, by Sir Richard Temple on 20th February 1877.

SIR Richard Temple arrived at Pattikonda from Auspri on the morning of 20th February, and was received by Mr. B. Subba Rao, tehsildar of the taluk, in the absence of Captain Browne, who was away in camp.

2. The Pattikonda taluk has an area of 1,071 square miles, and a population of 173,118. It is situated in the south-west of the Kurnool district, and the soil is pretty evenly divided between red laterite and black cotton soil. The Hindri river, which rises near Maddikera and falls into the Tungabadra near Kurnool, flows through it and is fed by numerous small water-courses from hilly parts of the district. The population is almost wholly agricultural, but there are a good many weavers in some of the larger villages; the chief of which are Kodomuru (Pop. 6,061), Maddikera (8,586), Piapali (5,076) and Pattikonda (4,383).

3. The chief product of the taluk is cholam (jowar), of which one crop is sown in the red soil in April and reaped in September; the other and later crop sown in the black soil in August is harvested in December and January. On the banks of the Hindri a certain amount of irrigation is effected by raising water from the river-bed, but there are no regular irrigation channels from that river. A good many tanks are scattered over the taluk, but are now for the most part dry.

4. Both crops failed almost entirely last year, though some part of the early crop and a good deal of fodder was saved, and fair crops were secured here and there from the irrigated land above-mentioned and near wells. The tehsildar estimates that the average outturn did not exceed one-sixteenth of an average crop. The rains of the previous year, 1875, were unseasonable, a good many of the tanks did not properly fill, and the harvest yielded only about five-eighths of an ordinary crop.

5. Stocks of grain are believed to be low in consequence, but it is difficult to estimate their amount. Trade is very active, and all villages are reported to be fairly well supplied with imported grain, chiefly from the north. Considerable stocks are lying at Auspri ten miles distant, and Sir Richard noticed a long string of carts carrying grain to Pattikonda. The tehsildar believes that private trade will amply provide for all needs. Some 15,000 bags of Government grain are in store at Piapali, and it is intended to establish depôts at Pattikonda and Devnakonda. The average price of cholam, which is the common food of the people, is 9 seers of 84 tolbs per rupee. Second sort rice is now seven seers per rupee, but is little eaten.

6. Relief works were started early and all comers were admitted. In the beginning of January the numbers were 36,000, but since the introduction of task work and the process of discharging those who appeared able to support themselves for a time, they have gradually come down to 23,000. Wages are paid in cash at the rate of 2 annas for a man, 1 anna 4 pies for a woman, and 10 pies for a child; and the nominal task exacted is the breaking and stacking of five cubic yards of road metal per day by each gang of fifty persons. The Madras Government orders of 31st January have not yet been received, and the tehsildar is acting on local orders.

The works now in hand are as follows:—

- 1.—A road from Pattikonda to Devnakonda, 12 miles, occupying 7,105 labourers.
- 2.—A road from Yenigamari to Kurmoor, 30 miles, 6,209 labourers.
- 3.—A road from Kurmoor to Venkatagiri, 15 miles, 6,766 labourers.
- 4.—A road from Rampoor to Garladini, 10 miles, 2,612 labourers.
- 5.—Repairs to the Bondimadugula tank, 50 labourers.
- 6.—Repairs to Pendakallu tank, 24 labourers.

The numbers on No. 1 were 8,000 last week, but the tehsildar himself visited the gangs, and discharged nearly a thousand persons whom he considered on enquiry did not at present need Government aid.

All the gangs on this road (about 7,000 persons in all) were paraded for the inspection of Sir Richard, who spent almost the whole day in enquiring into the condition of the labourers, with a view to shewing the tehsildar the principle on which the process of eliminating undeserving cases should be conducted. The great majority appeared to be really poor, and therefore deserving recipients of State charity, but there were some exceptions found in every gang. Several hundred cases were picked out and investigated, many persons were proved to be in a position to maintain themselves, many were set aside for further enquiry and others were found to be really dependant on relief labour for subsistence. Some few cases were flagrant abuses of Government charity, some few were clear fraud—as the case of a ryot paying Rs. 200 of land revenue, who had been put on the lists by his son, who was the gang maistri.

7. There has been considerable mortality among the cattle: the tehsildar gave it as his opinion that nearly 50 per cent. of the total number in the taluk had perished, but that the deaths have been chiefly confined to old and worn-out beasts, who are left to pick up what

scanty pasture they can from the burnt-up fields. Stored fodder is too valuable to be given to them, and is reserved for the better class of draught and plough cattle, which are still abundant and in fair condition, although a good many have died in some villages. Much jowar straw was saved from the early harvest, and it is expected that there will be sufficient fodder to supply the draught cattle.

8. Drinking water is still everywhere procurable. Some wells are dry, and the water in others is of bad quality, but wells are generally abundant, a good many new ones have been sunk, and water is near the surface in most parts of the taluk. No apprehensions of future failure are entertained.

9. The public health has on the whole been good since the beginning of the scarcity. There were a good many scattered cases of cholera in January, but no serious epidemic, and the disease has now subsided. Small-pox is prevalent in some villages but is not severe, and no cases were seen among the gangs examined by Sir Richard.

10. Crime has increased. Petty thefts are numerous, and twelve dacoities, chiefly grain robberies, have occurred since the beginning of the year.

11. On the whole, Sir Richard was of opinion—

that the great majority of the people were of the poorer classes and really in need of State aid :

that their physical condition was satisfactory :

but that about ten per cent. were clearly and palpably in a position to maintain themselves for some time to come, without the assistance of Government ; and that if task work could be fully enforced, or the gangs thoroughly examined by persons of sufficient local and personal knowledge of the people, a still further percentage would be found in a similar position :

further, that the tehsildar is a competent native officer who has already done much in the direction of system and economy, and who, if judiciously instructed, may do still more to assist in carrying out the orders of Government.

ADONT ;
21st February 1877.

ROBERT HARVEY, M.B.,
Medical Officer on Sir R. Temple's Staff.

No. 64, dated Hyderabad, 1st March 1877.

From—The First Assistant Resident, Hyderabad,

To—The Additional Secretary to the Govt. of India.

I AM directed to forward, for the information of His Excellency the Viceroy and Governor-General in Council, copy of a letter* addressed by order of the Resident to the Hon'ble Sir Richard Temple's Secretary with reference to a Minute† recorded by His Honour

* No. 3540, dated 22nd February 1877.

† No. 70, dated 17th instant (copy enclosed).

on the subject of the retention of His Highness the Nizam's subjects on relief works within the Hyderabad territory during the present famine in some of His Highness' frontier districts and those of the Madras Presidency adjoining them.

2. Sir Richard Meade had hoped ere this to have laid before Government a full report of the state of the Hyderabad districts which are affected by the famine and the arrangements made in them for the relief of the people, but he has found it impossible to get as yet from His Highness' Government the full statistical and other information required for its preparation, though such was promised some weeks ago.

3. The Resident has, however, been in constant communication with the Minister on the general question of the famine in His Highness' territory, and has no reason to doubt that the measures taken by the Government to meet the requirements of the calamity have been judicious and well-considered and suited to the condition of the people and the necessities of the occasion ; and this being the case, he has thought it inadvisable to press the Minister for the prompt submission of information that would probably take some time to collect and prepare.

4. At an interview between the Minister and Sir Richard Meade yesterday, however, the former stated that the required information was now nearly complete and should be forwarded immediately.

No. 3540, dated Hyderabad Residency, 22nd February 1877.

From—The 1st Assistant Resident, Hyderabad,

To—The Secy. to the Honorable Sir R. Temple, Bart., K. C. S. I.

I AM directed to acknowledge your letter No. 70, dated 17th instant, forwarding copy of a minute recorded by Sir R. Temple, regarding the reception of Mysore and Hyderabad laborers upon relief works in the Madras Presidency, and expressing his hope that the Resident will move the Minister to issue directions for the employment and retention within the Hyderabad districts of Nizam's subjects who may desire work.

2. The question thus brought forward has been the subject of frequent conversation and enquiry between Sir R. Meade and the Minister and officials of His Highness' Government for the last four months, and the Resident has every reason to believe that the orders passed by the Minister before he proceeded to Delhi, and also since his return to Hyderabad, have fairly provided for the employment on relief works of the suffering population of all the Hyderabad Districts bordering the Madras Presidency that are affected by the famine.

3. At first, no doubt, many Hyderabad people crossed the frontier and presented themselves at the British relief works; but, so far as Sir R. Meade has been able to ascertain, a large proportion of these persons subsequently returned to Nizam's limits and obtained employment on the works opened therein.

4. On the other hand, considerable numbers of men and cattle in search of the means of subsistence have, from time to time, come into Hyderabad from the British Districts, and within the last fortnight the Minister has brought to the Resident's notice that there had been recently a large arrival of both in the Raichore District.

Sir R. Meade has been further informed by the officers of the Nizam Public Works Department employed on relief works, that, latterly, many labourers from the British Districts have made their appearance on those works, and been provided for on them.

5. It is, however, admitted that many of Hyderabad distressed poor, who left their homes when the pressure began to be first seriously felt, have not returned, and it is not known what has become of them.

6. The Nizam's Government has not, that the Resident is aware of, hitherto taken any steps to prevent sufferers from the famine in the British Districts entering its territory, as already described, in search of subsistence.

7. The Nizam's officials were at first disposed to effect the expulsion of any bodies of such persons that might arrive within their limits, on the ground that their presence would add to the existing difficulties, as well as be dangerous to the peace of the country; but Sir R. Meade urged that on no account should the migration of these people be obstructed or interfered with so long as they committed no offence and did not assemble in bands dangerous to the public peace, and the Minister entirely concurred in this view and issued orders accordingly.

8. It is well known that the practice under native rule has always been for the poorer classes to abandon their homes in times of drought and famine, and to migrate to other parts of the country free from such a calamity.

9. Sir R. Meade's personal experience of the great value of this practice as a means of reducing the number of sufferers in a stricken district, and especially in localities to which food could hardly be transported, leads him to think that the door to its continuance along the Hyderabad and Madras frontier should not be closed by the adoption of any strict rule on either side of the frontier for the retention of the suffering poor within their own limits.

10. It has suggested itself to him, in considering the request contained in your letter under reply, that as a large portion of the Hyderabad territory is fairly off, both as regards food for man and forage for cattle, it is probable that the migration towards it from the Madras and Bombay famine districts will continue, and that, in the interests of these districts and of the British Government, it should be encouraged as much as possible; and as any request to His Highness' Government to prevent its subjects who are in search of work or the means of subsistence from crossing over to seek the same on the British relief works, would probably be understood to warrant its preventing the migration of sufferers from the British Districts into Hyderabad, the Resident proposes to limit his action on your present communication to urging His Highness' Government to increased effort to provide fully, in the matter of relief works, for the employment of the poor in the districts adjoining Kurnool and Bellary, and to instruct its local officials to use their influence to induce the people of those Districts in want of work to take it on the relief works so provided for them.

11. The Resident trusts that Sir R. Temple will concur in the course thus proposed to be taken in this matter.

No. 70, dated Bellary, 17th February 1877.

From—The Secretary to the Honorable Sir Richard Temple, Bart., K. C. S.I.,

To—The Resident, Hyderabad.

By direction of Sir Richard Temple, I have the honor to forward copy of a minute recorded by him regarding the reception of Mysore and Hyderabad laborers upon relief works in the Madras Presidency.

2. Sir Richard Temple would hope that you may see fit to move His Excellency the Minister to direct the Nizam's officers to employ and keep within the Hyderabad districts any persons who may be desiring work. It is understood that His Excellency has already established ample relief works.

Minute by Sir Richard Temple, No. XXXVII, dated Camp Bellary District, 16th February 1877.

I DESIRE to submit to the Government of Madras certain observations on its general order of the 9th February which directs that "coolies" (relief laborers) from Mysore and Hyderabad are to be treated on relief works exactly as our own people.

2. Already many persons of this description have resorted both from Mysore and Hyderabad to the relief works in the Madras Presidency, and after their necessities have been relieved, have been sent back to their own province, Mysore or Hyderabad as the case may be, by which authorities they have been duly received. Both in Mysore and in Hyderabad, relief works are open, and I know that the authorities in both these States are willing and able to take care of their own people, and to avoid casting the burden of supporting them on the British Government.

3. In Mysore the relief operations are entirely under the direction of British officers, just as if they had been in British territory. But as relief has been allowed somewhat more in the Madras Presidency than in Mysore, there is no fear of British subjects resorting to Mysore, while there is every fear of Mysore subjects resorting to Madras Districts. I was distinctly warned of this by the Mysore authorities themselves, who said that many thousands of their people might be resorting to British Districts who all the time might properly be, indeed ought to be, maintained by Mysore. The Chief Commissioner would, I am sure, be glad that such people should be sent back to him. And I know that the Chief Commissioner is as anxious as he is resourceful to provide for all Mysore subjects.

4. If, therefore, in virtue of the Madras Government order cited above, any number of Mysore ryots were to come upon Madras works, an unnecessary expenditure of British money would be incurred upon that which was really the business of the Mysore State, notwithstanding that the Mysore State is anxious to undertake its own duty with its own money.

5. The same remark *mutatis mutandis* applies to the Hyderabad territory.

6. It is true that in 1874 the Bengal Government received in its relief works refugees from Nepal, but then the adjoining Nepalese districts were not under British supervision, and, so far as we knew, did not contain any relief works. It was therefore deemed necessary to receive the poor people. But the case is quite different with the Mysore State, which is administered by our own officers, and also the case is different with the Hyderabad State where ample provisions of relief are known to have been made.

7. I would therefore suggest that the officers in the Madras Districts be directed to receive persons from Mysore or Hyderabad temporarily if seen to be laboring under immediate necessity, but to give the earliest intimation to the nearest local authorities either in Mysore or Hyderabad, as the case may be, in order that these persons may be transferred to their own territory.

RICHARD TEMPLE.

No. 97, dated Madras, 27th February 1877.

From—The Secretary to SIR RICHARD TEMPLE,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit copy of a Minute recorded by him suggesting the issue of further orders to secure that cases of extreme distress may be searched out and relieved in every village of the more distressed districts.

Minute by SIR RICHARD TEMPLE, dated Tripetty, 26th February 1877.

IN my Minute, dated Nundidroog, 8th February, I laid before the Government of Madras my views as to the need for fully utilizing the existing organization in the work of house-to-house visitation, so that all cases of dangerous distress may be searched out and relieved. Since that date I have seen the Madras Government orders of the — February on the same subject. I have also visited the Ceded Districts, Cuddapah, North Arcot and part of Kurnool, with the view of ascertaining how far systematic house-to-house visitation is being carried out, and how far the village headmen discharge the duty of searching out and bringing up every case of dangerous distress.

2. The orders of the Madras Government on this subject have, I believe, reached the village headmen; and Government officers, European and Native, are doing something in this direction. Still the fact remains that, up to the present time, the village headmen have brought forward only a very few cases of persons (in the many taluks I visited there were hardly a score of such cases altogether) who were in extreme need of relief. At the same time, in many of the relief labour gangs I found, side by side with hundreds or thousands of people not as yet in absolute need, a few persons in very poor physical condition, an enquiry into whose cases showed that they were the only bread-winners for whole families of infirm people. There is risk that the weaker members of families in such straits must sooner or later die, unless they are brought upon charitable relief. And there is always the fear that, if cases of this kind come to light, more (possibly worse) cases of the same kind remain undiscovered. And all this may occur side by side and simultaneously with the employment of great gangs of relief labourers whose numbers perhaps exceed the real dimensions of distress.

3. During my visits I have always drawn the attention of the relief officers in charge to the dangerous nature of such cases. And I have explained that the admission of thousands of comparatively well-to-do people to relief gangs without discrimination cannot relieve the few scores of really needy people who may be at home in their villages.

4. I would recommend that the existing orders of the Madras Government (which are doubtless excellent so far as they go) be further explained and enforced, and that a written (or printed) notice of his duties and responsibilities be sent to every village headman in the more distressed districts, that a written acknowledgment be obtained from him, and that a report be demanded of him of his having inspected every household in his village, and of his either having done the needful if he found any person in dangerous straits, or of his having found none such. The intentions of Government will then become really known, and supervising officers of all ranks will be able to enforce the real and careful discharge of their duties by the village officers. It is assumed that they have already been authorized to relieve temporarily any person in this condition at the Government expense. They, therefore, cannot have any motive for concealing the existence of any such case, if it exist. The reports of the village headmen will therefore be evidence of the best kind.

5. With regard to the disposal of necessitous people, when they are brought up to relief officers by the village headmen, I desire to bring to notice that, as yet, no relief camps on the Madras system have been formed in the Ceded Districts. Instead of the relief camp system, there are a number of relief houses (in one taluk as many as seven), at which out-door relief is given under the supervision of village headmen. It may be necessary hereafter, when the pressure on the people is greater, to have several places in each taluk for the distribution of out-door relief. But at present such relief is not required; it may lead to great population and waste, (for instance) such as occurred recently on a large scale at Hindupur in the Bellary district. And I would recommend that, for the present at any rate, the regular relief camp system, such as is enforced at Madras, should be adopted in the Ceded Districts. It is true that a considerable establishment is required, but if Native officers of the army are employed and existing buildings (such as chuttrums) utilised, the cost will not be excessive. And at any rate the expenditure will be less than under the plan of indiscriminate out-door relief under village headmen. Every necessitous person brought up by a village headman would be taken to the nearest relief camp, would be tended and fed there, until he or she was able to do some light work.

6. I suggest that some further orders on the subject of village visitation and the duties of village headmen be issued and carefully enforced at an early date. Systematic house-to-house enquiry is the necessary complement of an economical relief-work system. Indeed, it is the necessary complement of any relief-work system. Even if 70 per cent. of the population of a severely distressed taluk were on the relief works, I should still fear that some cases of extreme and dangerous distress must be left at home in the villages, unless a house-to-house visitation were maintained in the villages.

7. It is clearly cheaper for the public treasury and better for the people that all real cases of extreme distress should be searched out and relieved, while admission to the relief works is allowed with discrimination, than that all comers should be admitted indiscriminately to the relief works while extreme cases of dangerous distress are left unrelieved in the villages or on the high ways. In the Madras Presidency discrimination is now generally exercised in admitting people to relief works; and I earnestly recommend that no pains be spared to secure the discovery and relief of extreme distress, such as must occur in outlying villages, with increased frequency as the season advances.

RICHARD TEMPLE.

Minute by SIR RICHARD TEMPLE, dated Tripetty, 24th February 1877.

IN continuation of my minute of the 13th February, regarding the Government grain transaction in this presidency, I feel obliged to represent to the Government of Madras that there seems to have been some misapprehension, in the Bellary district at least, respecting the time when the arrangements ceased between Government and the firm of Messrs. Arbuthnot and Company.

2. It will be in the recollection of Government that the notification published on the 8th February set forth that these relations ceased on the 5th January.

3. Nevertheless, at Bellary the following circumstances occurred which showed that there must have been some misunderstanding on the subject. On the 12th January the Collector of Bellary bought on account of Government 10,000 bags of rice at Rs. 9-6 per bag from the firm of Harvey and Subapathy. On the same day the Bellary agent of Messrs. Arbuthnot and Company called and asked the Collector why the transaction had been concluded without making reference to him as Government broker. And on that same day the Government of Madras telegraphed to Collector for explanation why this particular transaction had been concluded without reference to the Government brokers.

Again, on the 29th January certain Bellary dealers tendered for the supply of 5,000 bags of rice to the Collector. And their tenders were on that day, with the samples, referred by the Collector to the Bellary agent of Messrs. Arbuthnot and Company for opinion. The Agent,

acting on behalf of his principals, gave an opinion on the samples. And it was not until the evening of the 29th of January that the Government officers at Bellary became aware that Messrs. Arbuthnot and Company were no longer Government brokers, and that it was no longer necessary to consult them regarding local purchases of grain.

4. It is probable that the importance of these circumstances has passed away, now that the cessation of the relations between the Government and the firm has been notified. But to prevent any possible misapprehension it has seemed to me desirable to state what I have learnt.

RICHARD TEMPLE.

Minute by SIR RICHARD TEMPLE, dated Tripetty, 24th February 1877.

In a minute dated 13th February, I repeated my previous recommendation that a part only of the grain purchased by Government should be transported to places distant at least sixty miles from the railway, the residue being kept at Madras as a reserve. No definite reply has been received to this suggestion, which was laid before the Government of Madras, first on the 19th January, and afterwards on the 13th February.

2. I have now had an opportunity of conferring with Major Hicks, and I learn that about 15,000 tons of Government grain have already been delivered at depôts in the interior of the country; that to employ the contractors' carts, which he still retains, 4,000 bags of grain are required by him daily; that only 1,400 bags daily are now being despatched from Madras; that he is offering the use of his carts to local dealers at reduced rates of hire, but that as yet his arrangements are not sufficiently known in the interior to attract the village dealers.

3. It appears to me that the quantity (15,000 tons) already transported into the interior

<i>Note.</i>		Tons.
Madras Government purchases from Calcutta	...	30,000
Purchases in Madras by the Government and its officers ...	...	11,000
		41,000
Already transported to depôts by Major Hicks	...	15,000
Residue which may safely be kept as reserve	...	26,000

is quite enough for all the places that are likely to need such support. And the *26,000 tons remaining may safely be kept as reserve in Madras. But as Major Hicks contracted for the transport of at least 30,000 tons, out of which 15,000 tons have been delivered in the interior, it follows that there is spare carriage at his disposal for the residue, namely, 15,000 tons. Looking at all the circumstances of the case; seeing that the contracts have been made, and the carriage has been collected, I think that the carts employed by Major Hicks' agency had better be maintained under Govern-

ment control and not dispersed. And I recommend that these carts be let out to private traders if not wanted by Government.

4. If the Madras Government should accede to my view that the quantity (15,000 tons) of Government grain already delivered at depôts in the interior is quite enough for the wants of the country requiring such support, then it would be necessary for Major Hicks to take prompt steps, through the local revenue officers, to make his terms known to the petty traders of the interior, who do most of the business of carrying goods from the railway to rural markets of the country. As soon as the local traders can employ all his carts, Major Hicks would cease to receive any Government grain by railway, and so the wagons now occupied by Government grain would be set free for private traders.

RICHARD TEMPLE.

No. 297F., dated Bombay Castle, 13th February 1877.

From—The Secretary to the Government of Bombay,

To—The Additional Secretary to the Government of India.

As requested in your letter No. 149, dated 8th instant, I am directed forward (in manuscript) copies of two reports on the financial ability of Kolhapur and other Southern Mahratta Country States, submitted by the Political Agent, Kolhapur and Southern Mahratta Country, and referred to in this Government Resolution No. 60E.-196 of 29th ultimo. The correspondence has not been printed.

No. 505, dated Kolhapur, 15th December 1876.

From—The Political Agent, Kolhapur and Southern Mahratta Country,

To—The Secretary to the Government of Bombay.

I HAVE the honour to acknowledge receipt of your letter No. 6975 of the 25th November, calling for more specific information than previously given as to the ability of Kolhapur and Southern Mahratta States to cope financially with the necessities of the present time.

2. The States under direct control are—

1. Kolhapur and its four feudatories, all minors.
2. Miraj (Senior branch).
3. Mudhol.
4. Mhysal.

3. Sangli, which is the chief of the Patwardhan Jaghirs, is managed by the Chief and Major West as Joint Administrator.

4. The following States are wholly under their own Chiefs:—

1. Miraj (Junior).
2. Jamkundi.
3. Ramdurg.
4. Kurundwad (Senior).
5. Kurundwad (Junior).

5. The statement A shows the financial condition of Kolhapur and its feudatories, and it will be observed that, with the exception of Bawra, which State had only recently begun to show a surplus, the late Chief having died in debt, all are in a position to meet the present crisis. Should Bawra be in the end driven to straits, Kolhapur can provide whatever may be required.

6. Appended is a report from the State Kharbari, which shows that on a closer investigation the revenue receipts will be considerably in excess of what was at first expected, the addition being partly from a more favourable outturn of the crops in some districts, and again from the high prices of grain and khurbah enabling the ryots to realize more money on lesser crops.

7. Though the present state of things is fair, still there is in many parts of the State considerable distress, particularly among that portion of the population which depends on labour for subsistence; and relief works have been opened wherever it seemed necessary, and other projects have been prepared to be opened as they may be needed, consisting of local roads, tanks, &c. It is thought that in the course of two months there will be a large accession to the number of persons requiring work both in the Ghât districts and to the eastward. At present the ryots are busy getting in their early crops. After that shall have been finished, they will have nothing to do, and will begin to clamour for work. It is impossible now to give any estimate of the numbers who may hereafter have to be employed, but it would hardly exceed 30,000 to 40,000 at the outside, and for that number works have to be held in readiness.

8. What the requirements of the country may be in the next four months it is difficult to say, but as grain is becoming cheaper, the fear that prevailed for the last two months, that people with money would starve for want of grain, no longer exists, that is, so long as the fair weather lasts.

9. On what will happen when once the coast is closed for trade and the whole of this part of the country, as far to the eastward as Mudhol or even Bijapoor, becomes dependent on local stocks either original or imported, no one can tell. It is not believed that the supply will be equal to the demand, and the nearest centre of trade will be Poona, distant from here above 150 miles.

10. I have been unable to ascertain what stock of grain there is in the country, but it is impossible to suppose that it is large. The owners would never have lost such a market as the past two months afforded, and I believe that those who have grain have little more than for their own wants till the next harvest. Large importations by dealers are in progress, but they disappear into the interior as fast as they arrive, and are for the most part purchased in the towns and villages for present consumption. When recently in the districts, I made particular enquiries on this subject, and found that in the small towns and large villages where bazars are held the importations were limited to the week's supply, and this is what will probably continue to be the rate of importations into such places from the coast or large marts nearest to it during the fair season. Directly the rain begins to fall, however, things will change and assume a very serious aspect. The coast and the roads from it will be closed, and all the country beyond the Krishna will become very difficult of access. Carriage, too, will not be obtainable in the same quantity as, apart from the custom of housing carts in the rains, all having bullocks will be able to make fortunes by them in the fields. With such a prospect in view it is well to be prepared, and Kolhapur is laying in a stock for itself and feudatories that it may be prepared for the hard times which people look to, and which to me appear inevitable.

11. The statement B shows the financial condition of the Southern Mahratta Country States under direct management. The first is Miraj (Senior). I was there for some weeks after the scarcity began. It is likely to be a great sufferer by the drought, but fortunately it has a large balance, and is in a position to meet its extraordinary expenditure. There are at the present moment numerous relief works in progress as the weekly returns show, and the number of applicants for work is constantly on the increase. The cause is the utter failure of the khar-rif all round the Miraj mahal, that is, the head-quarter petah; not even any khurbah has been got in many villages, only a little by the river side. The importations of grain into the town are large, but it is an extensive place with a large population and a larger one in mahal villages all depending on its weekly bazar.

12. Mudhol is a compact little State, and has a sufficient balance for all required of it. This State also is a great sufferer. The Khurbari reckons on only two annas in the rupee; and when there recently, I should say from what I saw that it would be hard to expect much more. There are several relief works in progress which will last for a time; others are ready whenever needed. Grain is brought in small quantities not more than enough for immediate consumption. The rates are much the same as those at Kaladgi.

13. Mhysal is but a single village sub-jaghir. It is at present managed by the Assistant Political Agent, though properly it belongs to Sangli. It is believed that it will just meet its expenditure this year, but advances can be made by Miraj to it if ever considered necessary. It is situated near Miraj, and the state of its crops is much the same as in that State.

14. Sangli is next in order to be mentioned, and I regret not to be able to speak more favourably of it. It is most unfortunately placed with heavy previous debts, a loss of half its land revenue for the year, no balances, cash or invested; the position is awkward. It is calculated that there will be a deficit of nearly four lakhs. Several relief works are in progress and others will be prepared. Major West estimated that his extraordinary expenditure for this season would be nearly three lakhs, for he has some very bad outlying districts, and will need to employ large numbers of men there, in fact, is doing so now. Like Miraj, the town of Sangli has a large bazar, and much grain is being imported, sufficient for the wants of the inhabitants of it and the neighbourhood for about 10 or 15 days.

15. The condition of the finances of this State has been before brought to notice, and Government sanctioned some pecuniary assistance being given by Kolhapur. But what has been done is only a temporary measure pending the decision of Government as to the future management. The following is a rough estimate of the position of the State:—

	Rs.	Rs.
Total receipts	...	4,00,000
Ordinary Expenditure	...	5,00,000
Extraordinary Expenditure	...	3,00,000
		8,00,000
Deficit	...	4,00,000

16. I now come to the States wholly under their own Chiefs, and I regret that I cannot supply any figures to show their condition; but I can speak generally about them having recently visited each and discussed its prospects with its Chief.

17. Miraj (Junior) has means, though it is impossible to judge the amount. He is very careful, and will not lay out more than he can help. He has some small works in progress. The crops in his State have suffered a good deal, much the same as in Senior Miraj and Sangli. I do not doubt the Chief will manage his affairs without assistance.

18. Jamkhundi is in much the same state as Mudhol; no kharif crop except by the river-side: most of the villages have been deserted by a large proportion of its inhabitants, who have gone towards the ghats with their cattle. There will be considerable loss of revenue, and some money is being spent on relief works. I ascertained from the Karbhari that there was a sufficiency of money to go on with. He believed that the Chief would not require to ask assistance. The Chief has himself imported and stored a large quantity of grain.

19. Karundwad (Senior) has no money, but he is not so much a sufferer as his neighbours. All round Karundwad itself the land is flourishing, being watered and flooded by two rivers. There will however be some loss on his outlying villages, and as assistance, either in money or grain, will have to be given, the Chief said he should ask to be permitted to put off till next year paying his contribution in lieu of sower service, which amounts to Rs. 9,612-8, but has not yet done so. He has carried out one small relief work near Kurundwar. I do not think any more in that quarter are needed, certainly not for the present. The Chief has imported and advanced some grain on his ryots asking for it.

20. The Karundwad Join, or Chiefs, do not appear to have any cause for anxiety. They expressed none to me beyond general regret for the condition of things. I am not aware that they have any works in progress, but they have imported some grain. I believe they have quite enough means for anything required of them in their *Elaka*.

21. Ramdurg is not in affluent circumstances. He has no cash balance, but he has hitherto managed to raise sufficient to meet the extraordinary charges* in connection with the scarcity.

* Several relief works in progress. He said it was his intention to apply for permission to postpone paying certain dues amounting to Rs. 5,000 into the Dharwar Treasury.

22. An emergent call has been made for more detailed information from all the States, and as soon as it reaches me I shall submit it.

No. 713, dated Kolhapur, 14th December 1876. .

From—The State Kharbhari, Kolhapur,

To—The Political Agent, Kolhapur and Southern Mahratta Country.

WITH reference to Government letter No. 6795, dated 25th November 1876, calling for further particulars regarding the state of Kolhapur district and of its finances, I have the honour to report as follows :—

A closer enquiry into the state of the crops has revealed a much better state of things than was at first anticipated. It now appears that the Kolhapur State proper may fairly realise on the whole two or three annas more than the first calculation, that is, about six lakhs out of nine, which is the average amount of land revenue collections. The crops have no doubt partially failed here and there, but the cultivator has been able to make up his loss to a great extent by the enhanced prices which the surplus produce of his fields fetches in the market. The sale of the karbi and grass grown upon his lands has also given him material help.

2. There is thus no immediate danger of distress occurring among cultivators, who form a large portion of the population, excepting those of the easterly districts of Shirol, Raibág and Katkol, where it has already prevailed, and where relief works have been, and are being, started to counteract its effects. Except the population inhabiting these famished villages, the rest have yet been able to shift for themselves, and things will probably continue to move in the same course till the end of March. In the months of April, May and June, larger number of labourers will apply for employment, and it will be necessary to make provision for them by opening more relief works at appropriate places in the district. During the rainy season they will again return to their agricultural pursuits, and the demand for employment at the relief works will be considerably lessened. But if prices again rise, which is likely to be the case, special measures will have to be adopted for bringing the supplies of corn within the reach of the afflicted people.

3. The population in the whole district is a little more than eight lakhs. Of these, about one tenth (i. e., 80,000) may be supposed to live from hand to mouth. Half of these will manage to shift for themselves by serving their brothers in well-to-do circumstances, and the State should be prepared to make provision for the remaining half, that is, about 40,000 people, in the shape of charity or relief works, the relief being paid either in cash or in kind.

4. Corn has been imported from Bombay and other places in large quantities by private dealers. The policy of strict non-interference has had a very healthy effect upon the Kolhapur market, there being in it at present a far larger quantity of cereals than it ever could command before. The State has also made very large purchases from districts where the season has been more favourable, and this example was followed by the local traders. Hitherto they never ordered out supplies from out-stations, being generally satisfied with the small quantities brought in by itinerant cartmen and occasional wanjaris. But the present distress has given a new impetus as it were to the commercial activity of the people of Kolhapur. The example set by the State in ordering stores of cereals was not lost upon the traders; importations have been made by them, and the market is well supplied with corn. Prices have gone down a little in consequence of these large importations, but this state of things is not to be relied upon. The district of Kolhapur is not favourably situated with respect to its intercourse with Bombay and other places, where the importation of cereals is facilitated by the proximity of the railway line. In the rainy season the coast communication is all closed, and the few local traders are always in a condition to monopolise the grain traffic. Up to the end of May the present rate will probably continue with slight variations, unless the new crops in Guzrat and other exporting districts suddenly change the scale either one way or the other. With the setting in of the rainy season, the traders will again be in a condition to combine and to sell such grain as they hold at famine prices, when it will be necessary for the State to supplement the supplies in the country from the stocks which it has laid in. Under ordinary circumstances the State always requires a large quantity of cereals to feed its large number of dependants, but this year it will have to support an unusually large number of labourers, who will have to be partly paid in kind, and I very much doubt if even the large purchases already made will suffice to meet the extraordinary requirements of these exceptional times.

5. The financial condition of the Kolhapur State and of the States subordinate to it is, as will appear from the annexed statement, on the whole satisfactory. There are surplus funds enough to meet the extraordinary expenditure necessitated by the scarcity.

6. Cattle are still pouring in from the eastern districts, and full freedom of forage is given to the owners in places available for the purpose. People it appears have been making provisions of fodder for the dry season, and I believe no special remedial measures are necessary as far as the wants of the people of Kolhapur in respect to fodder are concerned.

7. The water supply will become more and more scanty as the season advances in the eastern talukas of Alta and Shirol. The distress has already begun to manifest itself, but the great rivers Krishna, Warna and Panchganga are generally within a distance of 5 or 6 miles from almost every village in this part, and the villagers are generally accustomed in the hot season to fetch water from such distances when wells and tanks fail. It does not appear, therefore, that people will leave their villages on account of the water scarcity, though no doubt their resources will be tested to the utmost in procuring this most important element of life. In the western parts of the district which abounds in small rivulets, it will be necessary to construct temporary dams at the intervals of a few miles, and the water thus stored will serve the wants of the villagers as well as of the numerous cattle that have been draughted from the more famished districts in the east.

F. SCHNEIDER,

Political Agent,

Kolhapur and Southern Mahratta Country.

*Extract from the Proceedings of the Government of Bombay, Public Works Department,—
No. 151E-444 (Local), dated 23rd February 1877.*

READ—

A letter from the Collector and Political Agent, Sholapur, No. 811, dated 12th February 1877. With reference to Government Resolution No. 37A-153 Local, dated 25th January 1877, forwards copy of a report on the purchase of grain in the Akalkot State, and observes that no harm can result from what has been done, as the State is so small and so near the large market of Sholapur and the railway. Adds that the trade of the country will not be affected, and the inhabitants of the State will probably get their grain a little cheaper.

RESOLUTION.—The Collector and Political Agent should report whether the State cannot now withdraw from the purchase of grain, and leave the supply in the hands of the regular traders.

2. The State's transactions may be on a small scale, but they are entirely wrong in principle, and if it is not now too late, and if the ordinary retail dealers are prepared to take up and continue the business, no more purchases should be made by the State.

3. If the purchases of grain had been made in the adjoining local market of Sholapur, the arrangement would not have been so objectionable; but it appears that they were made in distant markets, such as Akola, in Berar, and no plan could have been adopted so likely to interrupt the regular flow of trade as that which has been pursued.

No. 91, dated Tripetty, 25th February, 1877.

From—The Private Secretary to SIR R. TEMPLE,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit, for the information of the Government of India, the enclosed copy of a minute recorded by him regarding person-by-person inspection of relief labourers.

Minute by SIR RICHARD TEMPLE, dated Tripetty, February 24th, 1877.

I DESIRE to place on record a statement showing the approximate numbers of the relief labourers who have been carefully inspected person-by-person either by me or by officers deputed by me for that purpose, with a brief general remark on the physical condition of each gang of labourers.

2. It will appear from the abstract annexed that about 97,350 relief labourers have thus been inspected, always in the presence of a local civil officer; and that of this number, the

physical condition of 50,700 may be described as having been good, of 29,850 as middling, and of 16,800 as indifferent. And of this total, some three bodies of labourers, numbering about 1,700, were found to be on strike, *i. e.*, in a state of refusing to accept the terms of pay offered by Government for such work as they could be made to perform.

3. It is my opinion that this inspection of relief labourers is a matter of great importance; by this I do not mean a cursory glance at great masses of persons, but a careful look along the lines of men, women, and children, individual-by-individual, drawn up and arranged by the orders of the gangmen or relief officer. In this way, it is comparatively easy to detect the unfit recipients of relief, and to show the officers by selecting specimens of the well-to-do and needy respectively—the principles which should guide them on their inspections.

4. This work of inspection of gangs of relief labourers was at first, I fear, altogether overlooked by the local officers, but now they are attending to it with their wonted zeal and efficiency.

RICHARD TEMPLE.

Statement showing numbers of relief labourers inspected by SIR RICHARD TEMPLE and officers deputed by him.

C. E. BUCKLAND,

Private Secy. to Sir R. Temple.

No. 87, dated Tirupetty, 24th February 1877.

*From—The Private Secretary to Sir Richard Temple,
To—The Additional Secretary to the Government of India.*

I AM directed by Sir Richard Temple to submit, for the information of the Government of India, the enclosed memoranda (1) on the condition and prospects of the Adoni Taluk, Bellary District, and (2) on the condition of the relief gangs at Goondakul in the Gooty Taluk, Bellary District.

Memorandum on the condition and prospects of the Adoni Taluk of Bellary as ascertained by SIR RICHARD TEMPLE on the 14th and 21st February 1877.

SIR RICHARD TEMPLE visited Adoni on the 14th and again on the 21st February. He met there Mr. Glenny, C. S., Sub-Collector of Gooty, Captain Hamilton, 4th Bengal Cavalry, Taluk Relief Officer, Mr. Oldham, Executive Officer in charge of relief works, and Mr. Pampabatti Rao, Tehsildar. On his first visit he found that the numbers had been very rapidly increasing, and that the orders for the new arrangements, confining relief to those actually in need, had just been received and were on the point of being carried out. He therefore contented himself with inspecting about 15,000 relief labourers on the works near Adoni and explaining to the local officers the views of Government, reserving full inspection and report till he could re-visit the taluk after the new system had been organized.

2. The taluk of Adoni is the most northerly taluk of the Bellary district and has an area of 805 square miles. The population numbers 179,448, 12 per cent. of whom are Mahomedans. The rural population is chiefly agricultural, but there are a number of comparatively large towns in the taluk, and the urban population is largely made up of weavers, artisans of various classes, leather dressers, and other non-agricultural classes of low castes. The population of Mahomedans is very large in some of the towns (Adoni has 40 per cent.), and they are described as for the most poor and thriftless and badly off even in good years. The chief towns are Adoni (population 22,429), Yemigamir (6,243), Koshgi (5,463), Kavutal (3,650), Nagladini (2,124).

3. The taluk is bounded on the north by the Tungabhadra river, from which the Rampur irrigation channel runs through the taluk for 10 miles and waters 965 acres of rice and ragi. This is the only irrigation work with the exception of a few small tanks, all of which failed to fill last year. A few fields near villages are irrigated from wells, and Mr. Glenny is of opinion that wells exist wherever there is room for them, and that cultivation from well irrigation (small though it is) has reached its limit. Black cotton soil prevails almost universally, but there is some red laterite here and there.

4. Considerable quantities of cotton are grown. It is sown in June and picked in February, but the staple product of the taluk is cholam, of which there is an early crop dependent on south-east and a late crop dependant on the north-west monsoon.

5. Both monsoons failed last year, and, except from the irrigated lands, almost no crop was secured. Many villages had absolutely nothing, and the total outturn is estimated by Mr. Glenny at less than a one-anna crop. The harvests of 1875 yielded a ten or twelve-anna crop or from five-eighths to three-fourths of a good crop.

6. From personal enquiries, from inspection of the store pits and the evidence of disinterested persons, Mr. Glenny thinks that there are considerable stocks of grain still in the country, probably amounting to several months' supply; but these will not be produced until the holders see that next season's crops are safe and that danger is at an end. Private trade is most active and is expected to be quite adequate to meet all demands. Large quantities of grain are lying at Adoni and carts are going everywhere. The people live on cholam to the almost complete exclusion of rice. Prices were at one time as high as seven per rupee. On Sir Richard's first visit (14th February) cholam was 8½ to 9½, and several-sort rice 5½ to 7 seers, per rupee; but a considerable fall has occurred in the last few days, and the rates are now 11½ and 8 or 9 seers, respectively. The Bellary seer weighs 2lbs. 2 oz. so that 11½ seers is about 23½lbs. per rupee or 1½lb. for an anna.

7. Relief works were opened about the middle of October. No applicant was refused, and the numbers gradually swelled to 88,000 or more than half the population of the taluk, which was the number on the lists at Sir Richard's first visit. Great exertions have been made by the local officers since that time; it has been discovered that extensive frauds have been practised by the gang-men; that about 5 per cent. of the numbers were men of straw, while many children had been classed as men. Numerous well-to-do people were discovered and turned off. The gangs have been sent to work some distance from their homes, and task-work is being introduced. These measures have resulted in a reduction already estimated at 13,000 persons, some of whom were turned off; the remainder, probably the majority themselves, left the work as soon as task work and discipline were enforced. Very many of the gangs remain to be examined, as the process of enquiry, if conducted with sufficient care to avoid mistakes, is necessarily slow. The scale of task-work to be exacted—it has as yet been little more than nominal—is 16 to 20 cubic yards of earth-work, or 12 to 16 of gravel, according to stiffness of soil and height of lift per day; from a gang of 50 persons. Some gangs are employed in metal-breaking, and 5 cubic yards per gang is the tale demanded. No hammers have as yet been provided and stones are used instead. The Madras Government orders of 31st January were received last week, and No. 2 standard has been adopted, wages being now 1½ anna, 1 anna, and 9 pies for men, women, and children, respectively.

8. The principal works in hand are,—

1. Railway feeder road from Nagladini to Adoni, 30 miles, in 2 divisions, employing 13,228 and 19,517 labourers (on 10th February). This work is under the taluk officer with the tehsildar of Adoni and the deputy tehsildar of Yemigamir to assist him.
2. Madveram road, 27 miles, 13,776 labourers.
3. Alur road, 7 miles, 20,052 labourers.
4. Gooty road, 5 miles, 17,381 labourers.
5. Sirgapa road, 8 miles, 3,003 labourers.
6. Rampur Channel embankment, 1,766 labourers.

The figures are taken from the last return; but, as stated above, a total reduction, estimated at about 13,000, has since been effected chiefly from the gangs on the Alur and Gooty roads.

9. On the occasion of his first visit (February 14th), Sir Richard carefully inspected an aggregate of nearly 15,000 labourers collected from the town of Adoni and the villages around. Many of them were poor people dependent for subsistence on their earnings at the works, but many belonged to a better class of people, who were presumably able to maintain themselves. A large percentage were Mussulmans, many were weavers and artisans, and there were few persons of low caste. Their general physical condition was good, and very few shewed any signs of being insufficiently nourished. On his second visit he saw about 10,000 persons belonging to gangs from the Yemigamir road. The great majority were of extremely low castes, mudigars (chamars) and others, ranking even below pariahs, and regarded as so low and degraded that their better-born countrymen speak of them as persons "who cannot come in our mouths," whose very caste name cannot be mentioned. These are poor people, chiefly leather dressers, and live to a considerable extent on the flesh of the dead cattle whose skins they dress. They are extremely poor, always inured to hardship, and it is believed that very many of them have hitherto abstained from applying for relief under the mistaken notion that there could be no aid for such as they, and that even if Government would give it them the prejudices of their countrymen would prevent it reaching them. The contrast between these gangs and all those previously seen elsewhere was very great. Very many persons were considerably emaciated, and had evidently been insufficiently nourished all their lives; and a few only among them had the fine physique and blooming condition so frequently found in other gangs among the better castes. Sir Richard considers that they were by many degrees the worst he has yet seen, and he carefully explained to the native officials that no prejudices of race or caste, no amount of contempt, and no fear of contamination could justify them in neglecting any person however degraded; that they were expected to do their duty irrespective of persons, and that no such excuse or neglect of it would be accepted by Government, which would visit with exemplary punishment any person guilty of inhumanity to such people. The headmen of villages were warned that they must be specially careful in watching for and immediately relieving them, as it is among them that cases of starvation are most likely to occur.

10. The cattle have so far suffered comparatively little. A good many old ones have died, because the people will not feed such, but the draught cattle are in good case. There are considerable stores of fodder. Many valuable beasts have been sent away to the Nallamalli hills in the Eastern Ghâts, and there is still some pasture on the banks of the Tungabhadra. The brisk demand for carriage keeps the draught cattle constantly employed, and high prices enable their owners to buy fodder, so that no great loss is apprehended.

11. Water is still fairly abundant everywhere and will not fail.

12. The public health has been and still is bad; cholera is extensively prevalent though not in a very fatal form, and bowel complaints and fevers are common. A severe epidemic of small-pox is raging in Adoni and some of the large villages; and Sir Richard observed very many cases among the Adoni gangs during his first visit. Arrangements are in train to isolate the cases in special sheds where the children may not be dangerous to their neighbours, and where gratuitous ration will be issued to the mothers who will stay to nurse them.

13. Crime increased remarkably during the earlier weeks of scarcity; dacoities of grain and thefts in standing crops were numerous, but since the few fields which yielded anything have been harvested, and it has become evident to the people that grain will not fail, it has remarkably diminished.

14. Sir Richard's impressions on the condition of the taluk were as follows:—

- that the numbers are still abnormally high, but that, while such is the case and many people are being relieved who are not in need of it, there is reason to fear that others who do need, are not found out and taken on the work soon enough. This, however, is now being remedied;
- that the great majority of the labourers are in good case, but that some low-caste persons are in bad condition;
- that special attention must be given to village inspection, with a view of picking up any such persons as have not yet been relieved;
- that the various native officials will have to be carefully instructed to look after persons of low caste and not suffer them to drift into danger, and that the various European officers must see that they do this;

that the superior relief officers in the taluk are making most praiseworthy efforts to give effect loyally and fully to the orders of the Madras Government in the direction of system and economy ;
that considerable success seems to have already attended their efforts, and that still further improvement is to be looked for.

22nd February 1877

ROBERT HARVEY, M. B.,
Medical Officer on Sir Richard Temple's Staff.

Memorandum on the condition of relief gangs at Goondakul in the Gooty taluk of Bellary as ascertained by SIR RICHARD TEMPLE on 22nd February 1877.

SIR RICHARD TEMPLE left Adoni by the morning train on the 22nd February, accompanied by Mr. Glenny, C. S., Sub-Collector of Gooty, and reached Goondakul at 9 A. M. All the relief labourers employed on the works within easy distance had been collected near the railway station, and he spent the greater part of the day in inspecting them, first going carefully down the lines of persons drawn out for inspection, pointing out those who seemed able to support themselves, and afterwards investigating the circumstances. About 4,500 persons were paraded. They were for the most part ryots and subordinate cultivators, weavers, and working men of the better caste and classes in admirable condition, and bearing no signs of ever having missed a meal. Here and there a few poor-looking specimens, generally of inferior social position, presented themselves, and the contrast between them and the greater majority of the persons present was pointed out to the native officials, who could not fail to see it. Large numbers of the women belonged to respectable castes, and had come to the works to earn a little money, their husbands being employed at home or otherwise off the works. Some cases of cheating by gangmen were exposed, and many persons were shown to be in a position not to require aid from Government.

2. Sir Richard was astonished by the very marked contrast between these gangs and the gangs of low-caste workmen seen on his second visit to Adoni, and Mr. Glenny remarked that, as regards physical condition, they were the best gangs he had yet seen. There was no sign of suffering among them, and Sir Richard Temple thought that there could be no doubt whatever that very many of them had been admitted to the works much too soon, and would have maintained themselves without difficulty had the works not been open to receive them. He considered that many of them might now be discharged without the smallest danger of their suffering risk of starvation or even of distress.

22nd February 1877.

ROBERT HARVEY, M. B.,
Medical Officer, on Sir Richard Temple's Staff.

Telegram dated 3rd March 1877.

*From—Arconum,
From—SIR R. TEMPLE,*

*To—Calcutta.
To—Revenue Additional Secretary*

HAVE returned from Nellore after a hard journey. Found numbers on relief not at all excessive compared to failure of crops. Saw signs of distress in western part of district. Was much pleased with East Coast Canal. Have recommended that forty thousand relief labourers be sent there from Ceded Districts and Kurnool. Have also suggested commencement of earth-work by relief labour on Sangum irrigation project from Pennair river near Nellore. Shall next proceed to Salem and Coimbatore.

No. 99, dated Arconum, 3rd March 1877.

*From—The Private Secy. to Sir Richard Temple, on Special Mission,
To—The Additional Secretary to the Government of India.*

By direction of Sir Richard Temple, I have the honour to submit, for the information of the Government of India, copy of a minute recorded by him about drafting off relief labourers from the neighbouring districts to the East Coast Navigation Canal.

Minute by SIR RICHARD TEMPLE, dated Nellore, 28th February 1877.

HAVING visited the East Coast Canal at Kurotoor, on the seaside opposite Nellore, in company with Mr. Sharp, the Acting Collector, and Mr. O'Shaughnessy, District Engineer, and having inspected eight thousand labourers now employed on the works, I desire to record the following remarks.

2. This excellent navigation canal, passing through the whole length of the Nellore district, connects the delta of the Kistna river with Madras, and opens out a large field for inland trade between the presidency and some of the richest agricultural districts of the interior.

3. Before the present scarcity commenced, this canal was open from Madras to Kistnapatam, at the mouth of the Kundalairoo river in the Nellore district, a distance of ninety-five miles. Above Kistnapatam northwards, in the direction of the Kistna district, a distance of 105 miles, some work was in progress. Since the commencement of the scarcity this work has been vigorously prosecuted over the whole of this above length of 105 miles. Some 30,000 persons of both sexes are now employed. Of these, some are professional labourers, regularly employed before the commencement of the scarcity; others have been drafted on to the canal from the district relief works of Nellore; others again have been sent as relief labour-

he can excavate the canal completely up to its terminus at the Kistna by July next; the work consisting of earth excavation, the very work best suited for relief labour. He has now, as just seen, only 30,000 labourers, leaving 60,000 to be yet made up out of the 90,000 full complement required. He has professional supervision available; he has an established task-work system; and everything that can be needed in the way of sheds, huts, hospital accommodation and the like. The situation is remarkably salubrious, being on the very margin of the sea, and there is good fresh water close to the surface.

4. It seems to me that here is the fairest possible opportunity for employing relief labour from the Nellore district, and from the neighbouring districts, in a proper and regular manner. But the month of February is over, and only one-third of the desired complement of labourers has been made up. It seems to me that strenuous efforts ought to be immediately made for making up that complement to its full strength.

5. The Government of Madras have, as I understand, issued repeated injunctions to the district officers to send relief labourers to this canal. This is, I know, an object which the Government have much at heart. Indeed, if the canal be not now excavated as a relief work, while money for this purpose is available, there will be financial difficulty hereafter in finding money for it. This is another reason for not allowing the present opportunity to slip away.

6. In the Nellore district itself, comparatively near to the canal, there are upwards of 50,000 persons working on relief labour on district roads and other petty works. Of these many are unfit for regular task-work on the canal, but many, on the other hand, are quite fit. Surely these latter might be drafted off at once from the district works to the canal. The Collector of Nellore appears to have understood at first that only persons from the Ceded Districts were to be employed on the canal, so he did not take any particular steps to send people there. He, however, has recently issued orders that all the able-bodied persons on his relief works shall be drafted on to the canal, and about one thousand have been so sent. The process of drafting and despatching these people seem to be tardy at first. Doubtless the people are unwilling to go; the attractions of relief works close at their own doors prove so great, and the native officials are apt to be too yielding in such a case. That is all the greater reason why efforts should be made by the European officers to ensure the people being promptly sent; when, on being ordered to go to the canal they attempt to strike, as I see they are attempting in some places, then firmness and patience will be needed.

The Collector informs me that he expects to gather together 20,000 able-bodied persons of both sexes from among his relief gangs, which certainly are able to furnish that number for the canal. He probably will not be able to do more; if he succeed in effecting even as much as this, we may be content to accept that result. At all events he would do well to expedite the matter with all his might, looking to its importance in so many ways. And this he informs me that he is doing. Indeed steps are, as I see, being taken. But on the assumption that he does manage to send 20,000 persons, that number added to the already existing 30,000 would make up only 50,000; leaving 40,000 to be made up out of the required complement of 90,000.

7. It is therefore clear that 40,000 able-bodied persons ought to be sent from the Ceded Districts and Kurnool, as soon as possible, in accordance with the policy already laid down by the Madras Government. At yet the numbers sent from those districts have been very small. The reason, as I understand, is this, that volunteers only have been called for from the relief gangs in those districts, and so long as the men can get easy work at their own doors (as they actually can), they will not volunteer to go to a distant district for harder work. But the proper plan would be for the relief officers to select persons, able-bodied and otherwise fitted, from every relief gang, to be ordered to proceed to the canal with an intimation that they will be turned off relief works in the event of their refusing to go. Having recently inspected so many of those gangs, I can affirm that there are many thousands of persons thus qualified who can go to the canal, and will go, if cautioned by the fear of dismissal in event of refusing, but not otherwise. The public interests seem to demand that a trial should be made in this direction; some 15,000 might thus be called for from the Bellary district, and some 15,000 from Kurnool, the necessary 10,000 (to make up the 40,000) could be called for from Cuddapah and North Arcot.

RICHARD TEMPLE.

No. 93, dated Tritany, 26th February 1877.

From—The Private Secretary to Sir Richard Temple,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit copy of a Minute recorded by him regarding the utilization of the services of the Great Indian Peninsula Railway on the Madras line.

Minute by SIR RICHARD TEMPLE, dated Tritany, 26th February 1877.

FROM the beginning of the present month (February) the Madras Railway has succeeded in carrying away promptly from Raichore all the grain waggons delivered there by the Great Indian Peninsula Railway. The success of the Madras Railway in these affairs is very satisfactory. The daily average of despatches southwards from Raichore has been 105 waggons (683 tons). Most of this grain has been cholam (jowaree), which is the ordinary food of the poor in the Ceded Districts. And this grain, which was quoted at 7 seers per rupee in Decem-

trade is expected to increase, and that there are practically inexhaustible quantities of grain ready to be sent down, if wanted. I trust, therefore, that the large imports from the north may continue, notwithstanding the fall in price throughout the Ceded Districts. And I am clear that efforts should not be relaxed in delivering as promptly as possible all the northern grain which may come through Raichore.

2. But at the other end of the Railway, namely, at Madras itself, there is much cause for anxiety. At one time the grain despatches from Madras by railway towards the interior averaged 1,000 tons a day; and when I was in Madras at the end of January, I understood that the Madras Railway could, if working full power, despatch 1,200 tons of grain a day. But during the last fortnight despatches of grain from Madras have hardly averaged 700 tons per diem. Dealers in the Ceded Districts are in much difficulty, because they cannot get up their grain from Madras and fulfil their engagements in the interior. No appreciable decrease of the great accumulations of grain on the Madras beach is being effected. Shipments of rice from beyond the sea are falling off.

3. I cannot doubt that the drought-stricken districts of Madras and Mysore require that the stream of grain imports into Madras should continue as long as the monsoon permits. And therefore I think that new efforts must be made to relieve the block at Madras and so prepare the way for further shipments from Bengal and Burma.

4. At one time it was hoped that, by reducing charges on the Southern India Railway, a portion at least of the grain supply for Mysore and Coimbatore might come from the port of Negapatam. But enquiry has shown that the Negapatam route could hardly give any appreciable relief to Madras for the next six weeks, even if facilities for landing, warehousing and despatching rice existed at Negapatam, which is not at present the case.

5. It was also thought that the eighteen engines, which the Government of India has arranged to lend to the Madras Railway, would enable that Company to carry out its programme for working full power both at the Madras end and at the Raichore end. But the work of the last few weeks has broken down a number of the Madras Company's engines, and it now appears that the borrowed engines, when they arrive, can hardly do more than supply the place of the engines which have broken down.

6. In neither of these ways can such full relief be given as will enable the Madras Railway to do what the country absolutely requires, that is—(1) to despatch from 1,000 to 1,200 tons a day from Madras, and (2) to bring in from 700 to 1,000 tons from Raichore. This requirement is irrespective of the supply brought by the Beypore line to Coimbatore and Bangalore, which supply is comparatively inconsiderable, and must entirely cease when the monsoon closes the western ports early in May. Unless this requirement can be met, there is danger that the food-supply of the country may fall short.

7. I see only one way by which the present difficulty can be met, and regular despatches of grain into the interior of the Madras Presidency, both from the east (Madras) and from the west (Raichore), can be secured. And that is, by reviving a proposal, which was at one time under the consideration of the Government of Madras, for working the Raichore section of the Madras line by the rolling stock and through the agency of the Great Indian Peninsula Company. By this arrangement the Great Indian Peninsula engines and staff would work the traffic to Adoni, Gooty and Bellary, the principal marts to which northern grain is now being consigned. And the Madras Railway could be able to concentrate its efforts, its engines, and its staff, upon the work of carrying into the interior the great accumulations of rice now awaiting despatch from Madras.

8. I am now writing at a distance from Madras, and it may be that in some detail my understanding of the facts may be open to correction. But if the case is in the main as stated above, and if no other way of meeting the difficulty can be devised, then I earnestly commend to the consideration of the Government of Madras that the services of the Great Indian Peninsula Railway Company be utilized for the requirements of the Ceded Districts in the way now suggested. A similar proposal was, I understood, favourably received by His Grace the Governor at the time of the Raichore block at the end of January. The subsequent smooth working of the Raichore section caused the proposal to be for the time dropped. But now the serious block at the other end of the Madras line appears to me to dictate the revival of the proposal.

9. It is quite certain that a large and constant supply of grain is wanted in the famine-stricken districts; it is also certain that there are large quantities of grain ready to be sent into those tracts both from the north and from the east; it is only too probable that there will be serious danger to the country if a constant and full supply cannot be maintained; the Madras Railway (from no fault of its agents and officers, who are doing their very best) first failed to maintain the supply from the north, and have now failed to maintain the supply from the east. There is, in my judgment, now no alternative but that the Madras Railway should accept the aid of the Great Indian Peninsula Railway at the northern source of supply. And I believe that the Great Indian Peninsula Railway is quite ready to give the required aid.

10. If His Grace the Governor in Council should be pleased to accept the views expressed in this Minute, then I think no time should be lost in arranging to give effect to His Grace's decision. I anticipate that the Government of India and the Government of Bombay would accept favourably any proposal of the kind that might be made by the Madras Government. And the preliminaries could probably be settled by a meeting of the authorities of the two Railway Companies at Raichore, in presence of the Consulting Engineers of the Madras and Bombay Governments. If the proposal now revived is to be carried out at all, it will be best for the country and for both the Railway Companies that it should be carried out at once.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS
FOR THE WEEK ENDING THE 8th MARCH 1877.

GENERAL REMARKS.—No rain has fallen in Madras, with the exception of a shower in Kurnool: prospects are unchanged. The reported total on relief works is 667,443, being a decrease of 47,500 on last week; there is a decrease of 36,000 in Bellary, 9,500 in Cuddapah, 8,800 in Kurnool, and 1,400 in Madura: an increase of 8,500 in Nellore, and small increases in Chingleput, South Arcot, Salem and Tinnevely. In Bombay there has been some hail in Khandesh, and slight rain in the Deccan districts and Násik: at Satara a heavy shower fell; prospects are good in Sind: the *rabi* harvest has been completed in Guzerat and the Konkan. In the Central Provinces rain and hail fell in Nimar, and showers in Betúl, Nagpur and Hoshangabad: the *rabi* harvest continues, and prospects are fair. No rain is reported from Rajputana or Central India; prospects are good. The *rabi* harvest is completed in Berar. In Bengal a few showers have fallen in some districts; the crops promise very well. Rain is reported from Upper Assam. None has fallen in the North-Western Provinces, Oudh, or the Punjab, in all of which provinces prospects are favourable.

Presidency or Province and District.		Rainfall for week preceding.	State of agricultural prospects.
Madras—			
Kistna	(Mar. 5th)	Nil	<i>Dalca</i> crop in Gudivada taluk, and <i>raggi</i> elsewhere, still being transplanted; standing crops fair; <i>raggi</i> in places, castor, cotton, pulses and <i>chillies</i> harvested; outturn, <i>raggi</i> full, others from $\frac{1}{2}$ to $\frac{3}{4}$; food grains generally stationary; cholera, seizures 892, deaths 357; fever and small-pox prevail; cattle disease in some taluks; markets fairly supplied; seers of Rs. 80 weight, rice 9'64, <i>cholum</i> 12'24, <i>raggi</i> 15'18, <i>cumboo</i> 11; imports by land, rice not correctly reported, <i>cholum</i> 15'62, <i>raggi</i> 15'62, <i>cumboo</i> 15'62; number on relief works 3,149; number fed gratuitously by Government 217, by people 1,081; cholera in 8 taluks.
Kurnool	(„ 6th)	A slight shower in Kurnool on Sunday last; none elsewhere.	White <i>cholum</i> , <i>raggi</i> , <i>varagu</i> and crops under wells and channels in good condition; cholera and small-pox prevalent throughout the district; cholera, seizures 117, deaths 166, including old cases; cattle reported to be dying for want of fodder; rinderpest prevails except in Pattikonda; second sort rice per rupee in imperial seers 7'10, <i>cholum</i> 8'63, <i>cumboo</i> or <i>sajja</i> 9'31, <i>raggi</i> 9'65; number on relief works 194,632, gratuitously fed 3,651, exclusive of 2,300 private in Kurnool town; additional civil officers, including survey and settlement men, 201; medical officers and subordinates in the district 13; import of Government grain 2,076 tons in the district; private import 588; the decrease in the number of coolies is chiefly due to improved supervision, emigration to east coast canal, diminished wages and enforcement of task-work; the slight fall in prices is due to steady import of grain and harvest under canal; no material change perceptible in coolies' physique.
Cuddapah	(„ 6th)	Nil	Average prices, seers per rupee, second sort rice 7'57, <i>cholum</i> 9'38, <i>raggi</i> 10'50, <i>cumboo</i> 9'10; people on relief works 58,207; gratuitously fed 1,634; cholera, deaths 664; number of cattle died from want of fodder and disease 547.
Bellary	(„ 6th)	Nil	Average prices (seers of 80 tolas) second sort rice 7'29, <i>cholum</i> or great millet 8'84, Jubbulpore <i>cholum</i> at Bellary 11'33, <i>raggi</i> or lesser millet 8'97, <i>cumboo</i> 8'46; import, 3,689 tons; accounts from two railway stations only; 231,159 persons on relief works, decrease as compared with revised return for previous week 36,241, this is owing to reduction of rates of wages, removal of coolies supposed to be fairly well-to-do, desertion on account of having been fined for not executing task work and prevalence of cholera; 15,895 gratuitously fed, increase as compared with revised return for previous week 1,146, this is owing chiefly to some more infirm persons in need of relief having been fed in the taluks, Bellary, Hudgally, Adoni, and Pennakondah; 4,369 gratuitously fed by private charity aided by Government grant; cholera in 14 taluks, small pox and fever prevalent; cattle still perishing from want of fodder; supply of drinking water diminishing but not exhausted.
Nellore	(„ 6th)	Nil	Average prices in this week, second sort of rice, 8'10 seers per rupee, <i>cholum</i> 9'28, <i>raggi</i> 11'32, <i>cumboo</i> 9'35; imports on behalf of Government, rice 172 tons, on behalf of merchants, rice 394 tons, <i>raggi</i> 65 tons, <i>cholum</i> 7 tons; number on relief works, 74,865 including canal coolies; number fed gratuitously 6,315; 354 deaths from cholera; small-pox, cholera and dysentery are prevalent throughout the district, but chiefly in the taluks of Nellore, Gudur, Atmakur and Kanigiri; in some villages water is scarce even for drinking purposes; water dried up in wells in Nellore; prospects of cattle very bad; large numbers have perished for want of fodder.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—continued.		
Chingleput (Mar. 6th)	<i>Nil</i>	Average prices, second sort rice, 9'66, <i>raggi</i> 11'43, <i>cholum</i> 10'64; number on relief works 8,442; number gratuitously fed 5,158; public health—cholera and small-pox prevalent in the taluks of Madhurandam, Sydapet, Trivellore and Ponnery; no cases of cholera have occurred in Chingleput, and the epidemic is abating in Conjeveram; pasturage <i>nil</i> ; water very scarce.
North Arcot (" 6th)	<i>Nil</i>	Average prices in Government seers, second sort rice, per rupee 8, <i>cholum</i> 9'6, <i>raggi</i> 9'7, <i>cumboo</i> 8'7, wheat 6'2; relief works, coolies 17,806, decrease owing to prevalence of cholera and introduction of reduced rates; persons gratuitously fed 835; cholera still prevalent; fever and small-pox in some parts; pasture scarce; cattle dying of starvation in some parts.
South Arcot (" 6th)	...	Rice, second sort, 8½ seers, <i>cumboo</i> and <i>raggi</i> 10½ each, <i>cholum</i> 11½, rice, imported, 2,280 tons; number employed 1,010; gratuitously fed 40; Tahsildars and Deputy Tahsildars superintend; cholera deaths reported during week 218 out of 290 attacks; cattle disease in some villages; pasture deficient.
Salem (" 6th)	<i>Nil</i>	Prices of grains, seers of 80 tolas, rice 7½, <i>raggi</i> 9½, <i>cumboo</i> 8½, <i>cholum</i> 9½; import of all grains 630; number on relief works 42,100, number gratuitously fed 2,570, ditto private 760; cholera in all taluks; gratuitous relief number falling off 17 per cent., due to disinclination to remain in camp.
Coimbatore (" 6th)	<i>Nil</i>	Rice, second sort, 7'80, <i>cholum</i> 9'33, <i>raggi</i> 10'20, <i>cumboo</i> 10'61; imports estimated, rice 322, other grains 299; cholera prevalent in all taluks, attacks 1,158, deaths 748; cattle poor; water and fodder scarce; no cultivation except to a small extent under wells; on relief works 22,351, gratuitously fed 1,312; loss of physique reported from Oodloomalpet and Sattiamangalam taluks; no change observed elsewhere.
Tanjore (" 6th)	<i>Nil</i>	Prices, seers, rice 8½, <i>raggi</i> 12½, <i>cumboo</i> 11'0, <i>cholum</i> 11'0; imports, rice 724 tons, grains 134; relief works, none; 184 deaths from cholera; cattle generally healthy.
Madura (" 6th)	<i>Nil</i>	Rice 7½ seers per rupee, <i>cholum</i> 11½, <i>raggi</i> 10½, <i>cumboo</i> 10½; import, rice 1,189 tons, other grains 88; cholera in the whole district except Madura taluk, total deaths 283; weather very sultry; water becoming more scarce; cattle not thriving for want of pasture; cattle disease continues in Tirumangalam taluk; small-pox in Maducolattur and Periakolam; number on relief works 7,990; gratuitous relief 384.
Trichinopoly (" 6th)	<i>Nil</i>	Prices same as last week; import of grain for week ending last Saturday 43 tons; number on relief works on 28th ultimo 483, gratuitously fed on 3rd instant by public subscription 1,164; cholera better, 125 seizures, 76 deaths; small-pox worse, 382 attacks, 27 deaths; cattle healthy; pasture scanty.
Tinnevelly (" 6th)	<i>Nil</i> •	No improvement in prospects since last week; cholera on increase; cattle disease called <i>Vedooopo</i> prevalent in four taluks, but no mortality except in Sattur; heat excessive everywhere and dry crops fast withering away; average prices, per rupee, second sort rice 7½ seers of 80 tolas, <i>cholum</i> nil, <i>cumboo</i> 11, and <i>raggi</i> 12; import of grain, rice 625, <i>cholum</i> 8, and <i>cumboo</i> 106 tons; number on relief works 1,542; number gratuitously fed 192; increase in number on relief works owing to completion of harvest in river valley, and to increased rate of wages.
Malabar (" 6th)	<i>Nil</i>	Market well supplied; imports by sea and land, rice 3,097, <i>raggi</i> 292, <i>cholum</i> 236 tons; exports, rice 846, <i>raggi</i> 854, <i>cholum</i> 16 tons; prices of rice fallen slightly in Kurumbanad and Ponani, stationary elsewhere; highest 7½ Indian seers in Wynaul, lowest 10½ in Cherakal, average 9½ Indian seers per rupee, <i>raggi</i> 10½ Indian seers per rupee in Wynaul, average elsewhere 13½ Indian seers; cholera and small-pox in seven taluks, deaths from former 113; cattle healthy; pasture failing; 617 coolies on Kolathur roads. <i>General Remarks.</i> —General prospects unchanged.
Bombay—(Mar. 8th)		
<i>Sind (Mar. 7th).</i>		
Kurrachee ...	...	River at Kotri on 26th February, 4 feet 11 inches—same as last year; small-pox as before, 6 fresh cases in Kurrachee on 22nd and 2 on 23rd, 2 deaths on 21st, none since, 36 cases recovering on 25th; measles in Johi; cattle disease in places, 50 deaths in Ghornabari and 35 in Sehwan taluka; weather hot.
Shikarpur ...	...	<i>Rabi</i> harvest prospects good; cattle disease in 8 talukas; chicken-pox in Ubauro.
Hyderabad ...	...	Weather abnormally hot; no other change.
Upper Sind Frontier ...	...	Weather close and warm; oil-seed crops ripening, other <i>rabi</i> staples fair.
<i>Guzerat (Mar. 7th).</i>		
Ahmedabad ...	...	No change.
Kaira ...	...	<i>Rabi</i> crops harvested; cotton-picking continues.
Surat ...	...	No change. •
Broach ...	...	Fever and small-pox prevail.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—continued.		
<i>Khandesh and Násik. (Mar. 7th).</i>		
Khandesh ...	...	Hail storms in Sháháda, Chopra and Sauda talukas, causing slight injury to grain and severe damage to grass; fever still continues in Pimpalner taluka.
Násik ...	About 25 in eastern talukas.	
<i>Konkan (Mar. 7th).</i>		
Tanna ...	...	Reaping of <i>rabi</i> completed; small-pox continues in Bassein and Bhivandi and, slightly, in Wara talukas; fever in almost all talukas.
<i>Deccan (Mar. 7th).</i>		
Poona ...	26	Small-pox in all talukas except Máwal; few cholera cases in Bhimthari.
Ahmednagar ...	21	Cholera in one taluka, 4 cases, deaths 2.
Sholapur ...	37	Slight cholera in the district.
Satara ...	113 (Total 121)	Rain also fallen in other places; small-pox in Khatau continues; 40 deaths from cholera.
<i>Southern Mahratta Country (Mar. 7th).</i>		
Belgaum ...	...	291 deaths from cholera.
Dharwar ...	...	Cholera prevails; deaths 507.
Kanara ...	...	Cholera continues, 72 deaths; small-pox prevails, 4 deaths.
Kuládgi ...	...	Deaths from cholera 89.
<i>Kattywar and Gackwar's Territory (Mar. 7th).</i>		
Rájkot ...	...	No change in weather and health; small-pox prevails at Nawánagar.
Wadhwan ...	...	No change.
Baroda ...	...	Hot weather has set in; sale of cotton continues.
<i>General Remarks.</i> —Weather hot in Sind and Guzerat; small-pox continues in Sind, Surat, Broach, Tanna and several other districts; cholera in Southern Mahratta Country and parts of the Deccan; heavy shower of rain in Satara.		
Bengal—		
Chittagong ...	85	Weather clear and seasonable; the prospects of the cold-weather crops are good; lands are being prepared for sowing <i>pania aous</i> in some places; cholera is abating; small-pox prevails in certain portions of the district.
Noakholly ...	Nil	Weather seasonable; heat gradually increasing; chillies, pulses, &c., are progressing fairly; ploughing for the early rice has begun; cholera has much abated; some stray cases of small-pox have been reported from Sudhárám and other stations.
Chittagong Hill Tracts...	Nil	Weather very cold throughout the week; the hill people are busily engaged in cutting their <i>joons</i> for cultivation; the tobacco plants are thriving well; cholera is still prevalent.
Hill Tipperah ...	Nil	Weather seasonable; state and prospects of the crops continue good.
Backergunge ...	Nil	The weather is getting warmer, but continues fine and cool for this season of the year; the crops are good everywhere in the district, except in the wave-stricken tracts; there is no disease among the cattle anywhere; cholera is still present, but not in an epidemic form, in thanas Backergunge, Mendigunge, Gournadi, Mirzagunge Golachipa and Bowful.
Furcedpore ...	Nil	Weather fair; cooler at the beginning of the week than at the end of the previous week, but now getting gradually warmer; the prospects of the crops continue satisfactory; general health is good.
Dacca ...	35	Weather seasonable, and looks like rain at the time of report; state and prospects of the crops are favourable.
Mymensingh ...	Nil	Weather fine; state and prospects of the crops are fair.
Tipperah ...	245	Weather still cool; the crops are promising.
24 Pergunnahs ...	05	Weather bright and warm; the cold-weather crops are being gathered; public health is generally good; only one case of small-pox and a few cases of cholera reported during the week.
Jessore ...	Nil	Weather—the days are hot and the nights cool; the state and prospects of the crops are everywhere satisfactory; the yield of the date trees has been poor, and the season is now just at an end; cholera has much abated.
Nuddea ...	Nil	Weather growing warmer rapidly; the crops are fair; public health is generally good; there is some cholera in the Sudder sub-division.
Moorsheadabad ...	Nil	Weather seasonable; clouds on the mornings of the 22nd and 23rd instant; the <i>rabi</i> crops continue to be good; at places they are being harvested; <i>boro dhan</i> , sugarcane, and mulberry are favourably reported on; the price of rice has fallen to 21 seers per rupee; cholera is still prevalent in Debogram; otherwise the public health is good.
Pubna ...	Nil	Weather seasonable; state and prospects of the crops are good.
Rajshahye ...	Nil	There has been a decided change in the weather, which has become much hotter during the past week; the nights are still cool, with a fair amount of dew; the prospects of the <i>rabi</i> crops continue good; the sowing of early rice and <i>tíl</i> (<i>sessamum</i>) is being pushed on, and <i>boro dhan</i> , or spring rice, is being transplanted.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—continued.		
Bogra ...	<i>Nil</i>	Weather—the days are getting hotter gradually; wind blowing violently at noon now and then; <i>kherachi</i> and <i>koun</i> are being sown; in some places the fields are being prepared for the early rice and jute.
Dinagepore ...	<i>Nil</i>	The weather has become much warmer of late; the <i>rabi</i> crops are promising; they are not yet fit for harvest.
Rungpore ...	<i>Nil</i>	Weather warm and windy; wheat and other cold-weather crops are being harvested; early rice is being sown.
Cooch Behar ...	<i>Nil</i>	Weather becoming warm; west wind has begun to blow; fields are being prepared for the <i>bitri</i> rice and also for jute; sowings have just commenced in some places; tobacco will have to be very soon reaped; general health is good.
Jalpáiguri ...	<i>Nil</i>	Weather warm; tobacco continues good, and is being harvested in some parts; a little rain is required.
Darjeeling ...	15	Weather milder, with occasional sunshine during the week; the only crops now on the ground are wheat and barley, which are progressing favourably; land is being prepared for the early rice.
Midnapore ...	<i>Nil</i>	Weather fair; daily getting warmer; state and prospects of the crops are good.
Howrah ...	<i>Nil</i>	Weather pleasant and seasonable; no crops on the ground at present.
Hoochly ...	8	Weather warm; the rice lands are still being ploughed; peas, <i>musari</i> , <i>khesari</i> , and mustard are being harvested; mangoes were not injured by the rain of last month; public health is normal; there is sporadic cholera here and there in the district.
Burdwan ...	<i>Nil</i>	The crops are good; fever and cholera are prevalent in Jehanabad.
Bankoora ...	<i>Nil</i>	Weather dry and hot; the prospects of the cold-weather crops continue favourable.
Beerbhoom ...	<i>Nil</i>	Weather hot and bright; state and prospects of the crops continue good.
Sonthal Pergunnahs ...	<i>Nil</i>	Weather getting warmer; the <i>rabi</i> crops in Godda are good, and there is nothing else to notice; a little cholera prevails in Deoghur.
Bhágálpur ...	<i>Nil</i>	Weather very fine, with light westerly wind; the <i>rabi</i> crops are ripening; general health is very good.
Monghyr ...	25 at Begoo Serai.	Weather fair; a very fine <i>rabi</i> crop is looked for.
Purneah ...	<i>Nil</i>	Weather hot, with west wind; state and prospects of the crops are good.
Maldah ...	<i>Nil</i>	Weather fair; getting hot daily; wind generally from the south-west; the crops are in excellent condition as before; there were four deaths from cholera and one from small-pox reported during the week.
Darbhunga ...	<i>Nil</i>	Weather fair and seasonable; the state and prospects of the crops are quite satisfactory.
Mozuffierpore ...	<i>Nil</i>	Weather hot, with west wind; the prospects of the <i>rabi</i> crops are everywhere reported to be good; health of the district is good.
Saran ...	<i>Nil</i>	Weather generally fine; cool in the mornings and evenings; beginning to get warm in the day-time; wind blowing from the west; for the last three days the mornings were occasionally cloudy; the prospects of the <i>rabi</i> crops are generally good throughout the district; the crops are fast reaching maturity, and the harvest will commence within a fortnight or so; serious damage was caused to opium by the late rain; the loss in the Chupra Agency has been estimated at one-fifth; the mango trees are rather late in coming into flower; indigo sowings will shortly commence; general health is good.
Chumparan ...	<i>Nil</i>	Weather seasonable; <i>arhur</i> has been somewhat injured by the cold-weather following the late rains; the prospects of other crops are excellent, and an unusually abundant harvest is expected.
Patna ...	<i>Nil</i>	Weather fair, with westerly wind; the prospects of the <i>rabi</i> crops are good; also the health of the district; rain is not wanted now.
Gya ...	<i>Nil</i>	Weather getting hotter daily; the prospects of the crops continue fair; the mango trees have commenced to flower; public health is good.
Shahabad ...	<i>Nil</i>	Weather getting hot, with west wind; peas and <i>musoor</i> pulse are being gathered; the crops generally promise well; the late rain has done much injury to the poppy crop, and has slightly affected the wheat crop.
Hazáribágh ...	<i>Nil</i>	Weather seasonable; but daily becoming sensibly warmer; no change to report; wheat and barley are being carried home; the outturn is about the average; health of the district is good.
Lohardugga ...	<i>Nil</i>	Weather seasonable; in Palamow linseed, wheat, and barley have suffered to the extent of two annas from blight caused by the late cloudy weather; the prospects of other crops are excellent; small-pox has caused several deaths in several parts of that sub-division; otherwise the general health is good.
Manbhoom ...	<i>Nil</i>	Weather fine; the days are becoming very hot; barley is now the only crop on the ground, which is looking well.
Singbhoom ...	<i>Nil</i>	Weather seasonable; the prospects of the <i>rabi</i> crops continue favourable; the district is reported healthy.
Balasore ...	02	Weather fair and hot; ploughing progresses slowly; cholera reported from a few localities; an outbreak of foot-and-mouth disease among the cattle has occurred.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—concluded.		
Cuttack ...	<i>Nil</i>	Weather close and oppressive; the cold-weather crops are in good condition; ploughing is going on actively everywhere; a little cholera reported here and there.
Pooree ...	<i>Nil</i>	Weather fair; the <i>dalua</i> paddy crop is advancing well; ploughing for the next season is going on briskly; the market has risen again on account of influx of pilgrims; shipment of rice is still going on; cholera is very rife in the city and parts of the district. <i>General Remarks.</i> —Some light showers of rain are reported to have fallen in the 24-Pergunnahs, Darjeeling, Hooghly, Dacca, Chittagong, Balasore, and at Begoo Serai in Monghyr district; the rain in Tipperah has been comparatively heavier; in Calcutta the sky was cloudy on Tuesday evening and slight rain fell; the cold-weather crops are generally good, and are being gathered; the spring rice and mulberry and other minor crops are favourably reported on; the fields are still being prepared for the autumn rice, and at some places the sowing has commenced; the poppy crop in Behar is reported to have suffered by the rain of last week.
N. W. Provinces—		
(Mar. 8th)		
Benares (Mar. 7th)	<i>Nil</i>	Prospects favourable; reaping commenced in a few places.
Allahabad („ 7th)	...	Prospects favourable.
Jhansi („ 8th)	...	Slight attack wheat in black soil.
Agra („ 7th)	<i>Nil</i>	Crops good.
Meerut („ 7th)	<i>Nil</i>	Prospects good.
Bareilly („ 7th)	...	No change.
Almora („ 5th)	...	Weather bright up to Sunday. since then clouds have collected and wind changed to rainy quarter.
Oudh—		
(Mar. 8th)		
Lucknow (Mar. 7th)	<i>Nil</i>	<i>Rabi</i> crops being cut; prospects favourable.
Sitapur („ 7th)	<i>Nil</i>	<i>Rabi</i> prospects fair.
Fyzabad („ 7th)	...	Harvest promising.
Punjab—		
(Mar. 8th) ...	<i>Nil</i>	Health generally good, and harvest prospects everywhere satisfactory.
Central Provinces—		
Upper Godāvari		
(Mar. 3rd)	...	<i>Rabi</i> gathered; health good; prices steady.
Sambalpur ...	...	Cloudy and warm; ploughing continues; cholera prevalent.
Bilāspur ...	...	Prospects of <i>rabi</i> favourable; fever continues; prices steady.
Raipur ...	...	Warm; prospects of <i>rabi</i> favourable; slight cholera; prices easy.
Bānghāt ...	...	<i>Rabi</i> cutting; cholera and cattle disease prevalent; prices rising.
Chhindwāra ...	...	Cool; <i>rabi</i> cutting; prospects favourable; health good; prices steady.
Chānda (Mar. 4th)	...	Cloudy; threshing continues; cattle disease prevalent; prices falling.
Betūl („ 5th)	51	<i>Rabi</i> cutting; prospects fair; cattle disease continues; prices stationary.
Bhandāra („ 6th)	...	Clear and close; threshing of <i>rabi</i> crops completed; <i>rabi</i> cutting; fever and cholera continue; prices easy.
Nāgpur („ 7th)	24	<i>Rabi</i> gathering; unexpected rain damaged crops to some extent; health good; prices stationary.
Wardha ...	...	Threshing almost completed; health good.
Nimār ...	23	Hail fell in places; wheat rusted slightly; small-pox continues; prices stationary.
Hoshangabad ...	06	Prospects good; prices unchanged.
Narsinghpur ...	...	Prospects favourable; prices stationary.
Jubbulpore ...	...	Cloudy and warm; <i>rabi</i> excellent; cattle disease continues; health good.
Saugor ...	...	Rust has appeared in wheat, but no damage done; <i>masur</i> cutting; health good.
Seoni ...	...	Wheat ripening; prospects good; no epidemic.
Mandla ...	...	<i>Rabi</i> excellent; measles continues; prices stationary.
Damoh ...	...	Gram and <i>masur</i> cutting; prospects good; prices stationary.
British Burma—		
(Mar. 8th)		
Arracan Division ...	...	Nineteen deaths from cholera in Akyab town, a few cases in the Naai and Munhya townships; slight cattle disease in one township, otherwise public health normal.
Pegu Division.

No. 33.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

STATISTICS RELATING TO THE DISTRESSED DISTRICTS IN THE MYSORE PROVINCE.

No. 274.

Extract from the Proceedings of the Government of India, in the Department of Revenue, Agriculture, and Commerce, dated Calcutta, the 9th March 1877.

[AGRICULTURE & HORTICULTURE.]

Famine.

READ—

Telegram from the Government of India, in the Foreign Department, to the Chief Commissioner of Mysore, dated October 30th, requesting the submission of separate statements regarding each taluk in the distressed districts, showing its area, population, Government realizable revenue in 1875-76, rough proportion of *kharif* to *rabi* cultivation, average annual rainfall, actual rainfall up to date, ordinary price of the staple-food of the taluk at that season, actual prices on the date of the return, probable extent of failure of crops, and amount, if any, sanctioned for relief works and other relief; and adding that the statements might be prepared from the best information then available, and corrected or supplemented afterwards if necessary.

Letters from the Secretary to the Chief Commissioner, Nos. 134, 157, and 175, dated 19th January, and 15th and 28th February 1877, submitting the information required for the Nandidroog, Nagar, and Ashtagram Divisions respectively.

Letter to the Chief Commissioner, No. 470, dated 2nd December 1876, forwarding copy of a letter to the Government of Bombay, No. 459, dated 30th November 1876, and requesting that a complete review similar to that required in the case of Bombay might be submitted for the province of Mysore.

Letter from the Secretary to the Chief Commissioner, No. 131, dated the 17th January 1877.

Ditto ditto, No. 135, dated 20th January 1877.

Ditto ditto, „ 142, „ 26th „

Ditto ditto, „ 144, „ 27th „

Ditto ditto, „ 154, „ 2nd February 1877.

Ditto ditto, „ 155, „ 6th „

Ditto ditto, „ 174, „ 26th „

and telegram, dated 6th March 1877, forwarding translations of the original reports received from each taluk, together with the remarks thereon of the Deputy Commissioners of the districts.

Statement A, compiled from the returns and summaries received in reply to the telegram of the Foreign Department, dated 30th October 1876, and the letter to the Chief Commissioner, dated 2nd December, above referred to.

Statement B, being an abstract of statement A, with additions from the Mysore weekly returns.

RESOLUTION.

the year 1874-75 was abundant, but the south-west monsoon of 1875 failed so extensively as to cause a loss of the greater part of the dry crops, and the succeeding north-east monsoon was likewise scanty and insufficient to fill the tanks which are relied upon for the irrigation of about one-sixth of the province. The prevalence of distress was brought fully to the notice of the Government of India in January 1876, and aid was afforded by means of relief works and considerable remissions of the land revenue. During the present year both the south-west and north-east monsoons have been even more scanty than before, and distress has consequently been converted into a famine of much severity.

2. In October last the Chief Commissioner reported very fully on the condition of affairs up to date, obtained a grant for relief works, and was requested to submit statistical information regarding each taluk similar to that called for at the same time with reference to the distressed portions of the Madras and Bombay Presidencies. Subsequently, a complete review and forecast, resembling that required for those presidencies, was considered to be necessary. The submission of the information thus expected has been unavoidably delayed by various circumstances, and it has not in all cases been found possible to ascertain details with the precision which might have been desired. The result has, moreover, been to a considerable extent anticipated by the graphic sketch of the condition of the province very recently presented by the minute of Sir Richard Temple dated 14th ultimo, and its accompanying memoranda by Mr. Bernard. At the same time His Excellency the Governor-General in Council considers that there may be much advantage in making public a review of the tract suffering from scarcity which is based upon a comprehensive series of facts, collected by the several local officers who are in actual contact with the people and their difficulties, and expressed as far as possible in their own words.

3. The area of Mysore is 27,077 square miles, and its population 5,055,412, and the province is divided into eight districts, comprising 68 taluks. The Shimoga, Kadur, Hassan and Mysore districts, which lie in order from north to south along the edge of the Western Ghâts, have suffered less than the others, and the two first named have even afforded by the jungles and grazing grounds in certain of their taluks most material aid to the remainder of the province.

Area in square miles.	Population.
16,812	2,579,827

Chitaldroog and Bangalore come next in order of failure, while Tumkur, lying between them, and Kolar, the easternmost of all, have virtually lost nearly the whole of their crops. The affected area and population as estimated by the Chief Commissioner are given in the margin, and amount to nearly two-thirds of the whole area and one-half the whole population of the province. If, however, all taluks be considered as affected in which the crop saved amounts to less than one-half, the numbers will be 14,479 and 2,849,329, while if taluks with half crop saved be added the results will be raised to 16,160 and 3,141,747 respectively.

4. The rainfall during the past season is shewn in the margin. As only one-third of the taluks have had less than half the average, and no less than thirty-one have received above one-half, the general result is more favourable than that of the rainfall in the distressed districts in the Bombay Presidency during the same period. The fact, however, of the present season being the second one of drought renders the deficiency far more serious in its consequences than it otherwise would have been. The Chief Commissioner reports that "the tanks generally are all dry, and the gravity of the crisis is undoubted," and it is to be feared that a considerable increase of suffering to both man and beast is inevitable.

Proportion.	Number of taluks.
Full rainfall	8
Three-fourths	13
Two-thirds	10
One-half	14
One-third	10
One-quarter	9
One-seventh	4
Total	68

5. The attempt to estimate with any approach to accuracy the failure of crops is in the present case surrounded with considerable difficulties. The province is subject to the influence of two monsoons, and there is also a considerable amount of land dependent on irrigation, which again proceeds from several sources, some of which are less affected by the rainfall than others. In the absence of correct statistics as to the proportions of the total

area under each class of cultivation, it is obvious that a mere estimate of the yield of each such class in annas is usually of little use. In some cases the taluk reports are sufficiently intelligible without such statistics, but in others it has been necessary to fall back upon the estimates prepared for the returns called for in October, which, though doubtless framed with all care, are probably less reliable than the more matured taluk reports of a later date, and which for the most part anticipated a

Total	...	9	6	10	4	8	5	8

10

loss somewhat heavier than has eventually resulted. The marginal table is the nearest estimate which, under these circumstances, it has been found practicable to frame. The Tumkur District, it will be seen, has suffered the heaviest loss; but is closely followed by Bangalore and Chitaldroog; Kolar and Kadur hold an intermediate position; Hassan and Mysore have failed but slightly, and Shimoga is almost untouched. Counting by taluks, the crop saved is above half in twenty-five taluks; the failure has been total in ten and nearly so in eight more, while the intermediate number, losing from one-sixth to one-half both inclusive, is twenty-five. These results are more extreme as regards both crop lost and crop saved, than those ascertained in the case of Bombay.

6. The estimates of probable remissions of land revenue which were formed in November amounted to no less than Rs. 25,64,956, the total demand for the year being Rs. 68,94,825; but further enquiry has reduced this figure to one-half, or Rs. 12,76,672. It appears probable that still further reductions will be found practicable, especially in the Kolar District. The general principle laid down by the Chief Commissioner has been that eight annas in the rupee may be remitted on wet lands under tanks, if wholly unirrigated, and from four to six annas on dry land holdings, but that if any further concession be needed it must be in the form of postponement of recovery till next year.

7. The resources of Mysore in cattle and agricultural stock generally have not been reported, but they have already been most materially impaired, and it is to be feared that considerable further loss is unavoidable. The condition of the cattle may be said to be decidedly bad in nineteen taluks, indifferent in forty-one, and good in eight only. The districts of Chitaldroog and Tumkur appear to be the worst; the reported losses being 79,700 and 97,600 head respectively. The remedial measures adopted have been the suspension of sales of grass on waste lands, the throwing open of the State forests, and above all, the removal of the cattle to the Ghât districts, particularly to the eight Mulnad taluks or hilly region in the Shimoga and Kadur districts. Prickly pear has not found favour as fodder.

8. The scarcity of water is great through above two-thirds of the province; the condition in this respect of seventeen taluks being bad and of thirty-two indifferent, and the suffering of the people and the cattle will be intensified in the event of no rain falling in the course of next month. The digging of temporary wells in the beds of nullas and tanks is the only measure which can be resorted to.

9. The course of prices during the three months terminating at Christmas is chiefly remarkable as shewing a general and gradual rise, rather than the sudden rise and subsequent recovery which was observable in the case of Bombay. Since that date there has been a decided amendment in the price of ragi, but that of rice has been more stationary. The condition and prospects of the grain trade have been so ably reviewed in the memoranda by Mr. Bernard, to which reference has already been made, that it is sufficient to say that in Mysore, as elsewhere, private trade has shewn great activity, that the demand on the railway is, and will continue to be, in excess of its carrying power, and that there appear to be not inconsiderable stocks in the hands of the people which will not be drawn upon until June and July, when it is to be hoped that rain will have fallen and removed all anxiety regarding the coming season.

10. Mysore, like the west of India generally, does not possess a wealthy

withstanding occasional bad years, and to deal liberally with their tenantry. The population contains a rather larger percentage than usual of high castes, but the majority are poor, excepting, perhaps, in the Mysore district.

11. The number of persons reported to have emigrated is 334,248, or about 13 per cent. on the affected population, but the movement has for the most part been only to the Mulnad taluks of the Shimoga and Kadur districts, for the purpose of grazing cattle, or to the coffee plantations of Coorg and its vicinity, where labour is in request. It is doubtful whether the change of climate has usually been found advantageous.

12. Up to the period when the taluk reports now under consideration were sent in, the organization of relief works had not attained any very large dimensions, and the Chief Commissioner was endeavouring, with equal caution and judgment to meet, without exceeding, the exigencies of the situation. The projects which have been undertaken have, owing to the want of facilities for large undertakings, been of limited extent, and have in the great majority of instances consisted of tank repairs and clearances. As such projects are particularly appropriate to the circumstances of Mysore, and task-work

District Fund Budget	...	...	Rs. 1,85,323

Imperial Public Works Irrigation Budget	...	...	8,56,234
Ditto Roads and Buildings ditto	...	...	8,36,533
TOTAL			11,92,767
Civil Budget : petty repairs, &c.	...	...	76,831
Municipal Budget	...	...	1,19,713
TOTAL			16,93,903

is everywhere enforced, with the cordial co-operation of the Public Works Department, there is good reason to believe that the result will be a material improvement of the irrigational resources of the Province. The totals of the general expenditure up to December 31st by means of which much relief will be afforded, are given in the margin. The appropriations for relief works under civil officers

were on February 17th Rs. 4,98,568, out of which Rs. 1,92,968 had been actually expended. The relief appears to have been sufficient without being excessive:

13. The organisation for charitable relief has been carefully developed throughout the various districts. Considerable sums have been privately raised for the support of the aged, helpless and infirm, and the Chief Commissioner, in accordance with sanction accorded to him at his request on the 2nd November 1876, has made in all cases an equivalent grant on the part of Government. Recently arrangements have been commenced, at the suggestion of Sir Richard Temple, for a careful house-to-house visitation, with the view of preventing, as far as human agency can effect it, the mortality which might otherwise possibly occur among those who are from any cause prevented from seeking relief on the works.

14. The local officers estimate as shown in the margin the numbers likely

March, 1st	...	140,000
May, 1st	...	164,000
July, 1st	...	166,000

to be in receipt of relief. As regards the first-mentioned date, it seems sufficient to say that, according to the latest information obtained by telegraph and relating to the latter part of February, the total on the works and receiving charitable relief was 94,596. The estimate, therefore, while beyond the mark was not altogether excessive, and it seems not improbable that the numbers on the 1st of May may come up to the local calculation. By the 1st of July, however, a considerable reduction in numbers may fairly be anticipated, especially if a favourable commencement of the rains has taken place.

15. In conclusion, His Excellency the Governor General in Council has great pleasure in congratulating the Chief Commissioner and the officers of the Mysore Administration on the zeal, judgment, and humanity which have characterised their arrangements and exertions to meet the great calamity which has fallen upon the province, and the large measure of success which has hitherto attended them.

ORDERED, that copies of this Resolution be communicated to the Secretary of State for India, the Chief Commissioner of Mysore, the Governments of Madras and Bombay, and Sir Richard Temple, and that it be published in the *Gazette of India*.

(True extract.)

T. C. HOPE,

STATEMENT A.

STATISTICS

RELATING TO THE

DISTRESSED DISTRICTS

IN THE

PROVINCE OF MYSORE.

N. B.—This Statement consists of extracts from the information furnished by the Chief Commissioner of Mysore on the 19th January and 15th and 28th February 1877, in accordance with the telegram from the Government of India of the 30th October 1876, and of summaries of the reports on each taluka called for by the Government of India on December 2nd, 1876.

KEY to the alphabetical headings in the following statement:—

- (a)—a careful estimate of the amount (if any) of the crop which has been saved, calculated in annas, on the assumption of an average yield being represented by 12 annas : *kharif* and *rabi* should be shown separately : if there be any prospect of further sowings, it should be mentioned : •
- (b)—an estimate, as close as may at the time be practicable, of the amount or revenue to be remitted :
- (c)—information as to the mortality, past and anticipated, among cattle and agricultural stock ; the measures already adopted by Government and the people, their result, and suggestions for the future :
- (d)—the nature of the water-supply, extent of its failure, further anticipated failure up to next rains, and remedial measures possible, if any :
- (e)—the course of prices weekly of each of the principal food-grains from October 1st up to the date of report in each case, and six years' averages :
- (f)—the local stocks, as far as ascertainable ; the centres, railway stations, or otherwise whence further supplies are being, or may be, drawn, and the probability of private enterprise being sufficient to maintain them, as also of a fall in prices owing to ample importation :
- (g)—the character of the population, whether high or low caste, poor or well-to-do, purely or only partly agricultural, and if the latter, in what proportions urban or artisan ; also the character of the landholders, whether large, wealthy, able to aid their tenants and likely to do so, or the reverse : •
- (h)—the movements of the people ; how far emigration has taken place, and with what result (have the people bettered themselves or merely gone elsewhere to starve, or are they returning), and whether further emigration is probable :
- (i)—the relief works already started, their sufficiency or otherwise, and the further works which are considered practicable, arranged in the order of their necessity :
- (j)—the nature and amount of charitable relief given to travellers, and to the aged, infirm, &c., who are unable to work :
- (k)—the number of persons whom the Government has on its hands at date of report for relief (1) by works, (2) by charitable measures, and the number, roughly estimated, which it is likely to have on its hands on March 1st, May 1st and July 1st

yield of crop seen one anna. artika crop was a Vyshaka pad- s not sown owing rcity of water.	Remissions Rs. 32,411-11-8 out of a revenue of Rs. 93,000.	The total number of cattle is 67,954, and of this one-fourth has been sold to butchers. Want of forage is much felt; further sales may therefore be made; and other animals may die from starvation. Prickly-pear recommended as fodder for cattle, but the owners do not like to adopt the plan. It is recommended that Government take charge of the cattle of those people who are unable to feed them. The Deputy Commissioner does not agree to this, as fodder has become dear everywhere. Abandonment of Halbani sales will, it is hoped, have some beneficial results.	Scarcity of water is felt. Hoskote tank contains some four months' supply. All other tanks are dry. In a month or two it is feared that, if matters do not improve, the remaining reservoir will also become dry. The remedial measures recommended are sinking wells, deepening beds of tanks, and removing silt from tank beds and wells. RICT—concluded.

f	g	h	i	j	k
ated local about 6,000 of ragi. Ex- importation grains from re, but no of a fall in	Two-fifths of the people are agriculturists. One-fourth of the population are well-to-do and one-tenth are extensive landholders. These latter have been helping their people, but it is feared that they will not continue to do so much longer.	One-twentieth of the population have emigrated, and none have yet returned; whether emigrants have bettered themselves or not is not known. Further emigration probable.	The works set in hand are not considered sufficient to secure a supply of water to both people and cattle. The further works proposed are deepening beds of tanks, improving tank bunds, opening out new roads, dismantling fort walls, and filling in ditches.	There are kitchens at Pettah and Yellathere, and in the cantonment, where the aged, infirm, &c., are daily fed.	The number on the hands of Government on date of report is as follows :— On works ... 6,000 By charity ... 3,306 The number on the dates specified is approximately as under— On 1st March ... 10,000 „ 1st May ... 15,000 „ 1st July ... 10,000
ated stock of possession of 172 kundes. tions of grain g made from re, but not to ge extent as the require- f the people. ect of a fall i. Private en- may ulti- it is hoped, i supplies.	One-fourth of the population agriculturists. There are a few rich landholders, but it is not thought that they will in any way assist their tenants.	One-hundred people have emigrated: whether they have bettered themselves or not is not known. Further emigration probable.	The relief works already set in hand are not considered sufficient. About Rs. 4,000 are needed for sinking wells. The further works practicable are :— (1) To open out a cross road to join Kolar-Sonepur Road. (2) To repair Karanji tank at Devanahalli. (3) To repair two kuntas.	No relief kitchens have been opened in this taluk. People have, however, extended their charity to the poor, &c.	The number of persons on the hands of Government is— On relief works ... 220 By charity ... 27. On the dates specified below the approximate number is— On 1st March ... 1,000 „ 1st May ... 1,500 „ 1st July ... 1,000
al stocks of e estimated at rs of ragi, ers of rice, acers of dhall, ock is con- inadequate people. In- n of grain g made, but such large s as to pre- distress. No of prices	One-fifth of the population are agriculturists. The rest are of mixed occupations. There are few landholders capable of aiding their tenants. This taluk causes apprehension as the general state of the inhabitants is that of poverty.	On an average about 8 or 10 people from each village have emigrated to the coffee districts for employment; a few have returned being unable to find means of subsistence.	The minor works that have been started will last for a month and are not considered sufficient. The works proposed are opening of three new lines of roads, improvements of tanks, and sinking of wells in each village of the taluk.	No Government kitchen has been opened in this taluk. Relief funds to the extent of Rs. 2,000 monthly are needed.	The number of persons receiving relief on works on date of report is 1,000. The number estimated on the dates specified is as follows :— On 1st March ... 4,000 „ 1st May ... 4,000 „ 1st July ... 4,000

lies are being from Bangalore. merchants are o maintain the ation; no full es anticipated.	Three-fourths of the population are high caste and one-fourth low; ong-fourth well-to-do, and three-fourths poor. The total population is 57,000, of which 14,000 are purely agricultural and 3,000 partly so; the remain- ing 40,000 are of other professions. There are a few wealthy landholders.	About 2,000 people have abandoned their villages; none of them have returned. 4,000 to 5,000 more may leave the taluk.	The relief works started in the taluk have consisted chiefly in excavating silt from tank-beds. The collection of metal along the district fund roads has been sanctioned. This measure will provide work for some time to come for those willing to take it.	Kitchens have been opened in two places, in which about 400 and 50 people respect- ively are fed daily.	Number of persons on the hands of Government up to middle of January for relief— On relief works ... 2,000 By charitable measures... 450 Estimated number to be on the hands of Go- vernment for relief on 1st March— On relief works... 4,000 By kitchens ... 1,000 On 1st May— On relief works ... 4,000 By kitchens ... 1,000 On 1st July— On relief works ... 3,000 By kitchens ... 1,500

n has been by private in- als, who, how- are not inclined en their pits. es are being from Bangalore Aloor. Local rise is sufficient tain the im- on. A full in is doubtful.	The population is 57,359 and is general- ly agricultural. Some wealthy landholders support their tenants. In the Kusba there are some wealthy mer- chants.	3,256 persons have left the taluk, and some of them have returned, finding no means of subsistence. A few more may leave.	The relief works started in this taluk have consisted chiefly in excavating silt from tank-beds. The collection of metal along the district fund roads has been sanctioned. This measure will provide work for some time to come for those will- ing to take it.	Several private kit- chens were opened in this taluk, but all have been closed. Government kitchen now open at Hundun- kere; further kitchens appear necessary and will be opened.	The number of persons on th hands of Government for relie by relief works on date of re port was about 70 or 80 persons most of the works having been finished. The number of persons in re- ceipt of charity amounts to 150. The number estimated to be on the hands of Government on the 1st March is ... { 3,000 to 4,000 On relief works— By kitchens ... 1,000 On the 1st May 1877— On relief works . 4,000 By kitchens ... 1,000 On the 1st July 1877— On relief works ... 4,000 By kitchens ... 1,000 NOTE.—This taluk has suffer ed very severely this year, and is in fact, almost worse than Sira.

Kartik or annas crop ved in some lies, and in re has been ire. As re-Vyahaka or jowaree was s still being t lands. whole, only anna and a s been saved.	Remissions probable Rs. 18,000, out of a revenue of Rs. 1,23,800.	The mortality which has already occurred is reckoned at 7,729, and the deaths anticipated are 11,593. There has been a great loss in cattle; those surviving are suffering from want of forage. The State forest of Devaroydroog was thrown open for the ryots to cut grass. Fodder is being imported, but at high prices. The use of the prickly-pear for fodder has been suggested, but does not seem to have been adopted. The cess of hulbani has been remitted during the year. Grant of takavi for the purchase of cattle is suggested, but recovery is doubtful.	Want of water is not yet felt; in some tanks there is a supply for one to one and a half months. Wells will be sunk in places where scarcity of water is likely to be felt.																																																																							
monsoon crop has d, except un-pillary wells. yshaka (rabi). t be said what of crop will be the water-sup-ling. No pros- arther sowings. sally, a total	An estimated sum of Rs. 35,000 is entered by the Amildar as requiring remission. Rs. 20,000 would appear to be ample for this taluk. Total revenue is Rs. 91,277.	The past mortality among cattle is reckoned at 16,000, and the anticipated mortality at 30,000. Agricultural stock has suffered greatly. Reserved forests were thrown open to the ryots to cut grass. It is now intended to allow their cattle to graze in these tracts. People imported fodder from different places at heavy cost. Hulbani was remitted.	The want of water is beginning to be felt.																																																																							
rding Kartik the Amildar that only a na crop has red, but this is low estimate. an a fair four rop must have ved in some whole, only two annas has red.	Estimate of amount of revenue to be remitted Rs. 25,000, out of a total of Rs. 1,37,735.	Past mortality among cattle is reckoned at 10,000; anticipated mortality 2,939. Agricultural stock suffered greatly. Government remitted the hulbani cess and threw open the Reserved State Forests in Devaroydroog to cut grass from; the result was satisfactory so long as grass was available. It is now intended to allow ryots to graze their cattle in the forests. The use of the prickly-pear for fodder has been suggested to the people, but it is not available in sufficient quantities in this taluk.	Want of water beginning to be felt. Orders have been issued for the sinking of wells where necessary.

TUMKUR

a	b	c	d	e																																																											
No Kartik crop has been saved. A little soti, ragi, and rice has been saved out of the Vyshaka crop. Practically, an entire failure.	Total revenue Rs. 1,12,329. The Amildar has entered Rs. 80,000 to be remitted. The Deputy Commissioner considers this amount far too high; about Rs. 25,000 would seem to be the proper amount.	About 20,266 head of cattle have died, and nearly all the rest have been removed to the Mulnad. Only a few have been kept for the working of the Kappalay wells. The agricultural stock has suffered severely. The State forests of Bookkapatna, Muddagiri and Devaroyadroog opened out by Government afforded great relief. It is now under consideration to allow the ryots to graze their cattle in these forests.	In some places though there is no water close to the village, it is procurable at some little distance off; in other places wells are being sunk in the beds of tanks at Government expense. Sufficient water is procurable.	SIRA Prices of the principal food-grains :— From October 1st to 22nd— Ragi... .. 10 seers per rupee. Rice... .. 7 " " From 23rd up to 31st— Ragi 7½ seers per rupee. In Kartik soti, ragi, sugarcane, and other grains were sown in wet lands, and a 6-anna crop has been saved. Dry crops failed completely. In Vyshaka jola was sown, and is still being sown in wet lands. Some of these crops promise well. Practically, there will be no appreciable outturn.	Remissions Rs. 25,000 out of a revenue of Rs. 1,43,882.	The past mortality among cattle is 5,807, the anticipated is 2,900. The agricultural stock has suffered considerably. Government threw open the reserved forests for the ryots to cut grass in; also remitted the cess of hulbani during the year. The use of the prickly pear for fodder was suggested, but it grows only in small quantities. The only suggestion that can be made is to allow ryots to graze their cattle in all reserved tracts; but even in these places, fodder is not obtainable in any large quantity.	The wells are running dry. If the rains do not fall early, there will be great difficulty in obtaining water. Orders have been issued to sink as many wells in beds of tanks as are necessary to secure water.	MADDAGIRI The average price of food-grains is given below :— Rice 6 seers per rupee. Ragi ... 8, 7, 7½, 7 " " Gram ... 8, 7, 6 " " The average price for the last six years is— Rice 13 seers per rupee. Ragi 45 " " Gram 28 " " The Deputy Commissioner remarks that the price of ragi is steady, and shows, if anything, a tendency to fall.																																																											
A 3-anna Kartik crop has been saved in this taluk. In some hobbles, however, more than a fair 8-anna crop must have been saved. There are no prospects of further sowings. Some Vyshaka crops have been sown, but there does not appear to be any probability of saving anything. The crop saved is about three annas.	About Rs. 18,000 will have to be remitted out of a total of Rs. 90,783.	2,950 head of cattle have died, and 6,000 more deaths are expected. A number of cattle have been sent off to the Mulnad taluks, as also to places in other districts where fodder can be obtained. No measures have yet been adopted by the Government, with the exception of suggesting the use of prickly-pear for fodder. This taluk does not appear to be on the whole so very bad, except in some hobbles where, however, the people can arrange for procuring fodder from adjoining taluks.	Want of water is felt in the hobbles of Yedivora, Amrathur and Koppah; orders have been issued to sink wells in places where needed, as also in tank beds. ISTRIC—concluded.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
LUK. is stored in the k, but the owners not open their pits. Supplies are being run from Bangalore. The prices remain stationary. Private enterprise probably maintain importation.	The population is 71,928, and about one-eighth are high caste, and the rest low. The former are well to do and the latter poor; both agriculturists. Some land-holders are able to support their tenants. •	About 1,157 persons have left the taluk; none have returned. The relief works now sanctioned will in all probability stop further emigration.	The relief* works started in the taluk have consisted chiefly in excavating silt from tank beds. Collection of metal along the District Fund roads now sanctioned. This measure will provide work for some time to come for those willing to take it.	Charitable relief is given to travellers, aged, infirm, to those unable to work, &c., in three different kitchens opened by Government. There were some more of these institutions kept up by private individuals, but they have been closed for want of funds. Additional kitchens will have to be opened at public expense.	The number of persons the Government has on its hands up to date is on relief works about 1,500, by charitable measures 500. The anticipated numbers are:— 1st March, 4,000 on relief works; 800 on kitchens. 1st May, 4,000 on relief works; 800 on kitchens. 1st July, 3,000 on relief works; 800 on kitchens. The Deputy Commissioner remarks that the state of the taluk is very bad; very few cattle left.
LUK. here is two months' stock of sori and ragi. Supplies are coming from Bangalore in abundance. Private enterprise seems able to maintain the importation. As there is much competition trade, no fall of prices is likely to occur. The Deputy Commissioner remarks that there is a large quantity of grain stored by which the owners will not dispose of. Rain has been poured into the country, and is still coming in.	The population is 86,532. There are people of both high and low caste, of which $\frac{1}{4}$ are well to do, and $\frac{3}{4}$ poor; $\frac{2}{3}$ purely agricultural, and $\frac{1}{3}$ of other professions. There are some large land-holders, but they are not likely to aid their tenants.	About 1,000 persons have left the taluk with their families. None of them have yet returned, and it seems probable that about 400 more will leave. The emigration was chiefly to the coffee districts and the Mulnad.	The relief works started in the taluk have consisted chiefly in excavating silt from tank beds. Collection of metal along the District Fund roads just sanctioned. This measure will provide work for some time to come for those willing to take it.	One Government kitchen, aided by private contributions, is established. More kitchens appear to be needed.	The number of persons on the hands of Government is— On relief works ... 1,080 By charitable measures 150 The anticipated numbers are— On March 1st...3,000 relief works 200 kitchens. On May 1st ...5,000 relief works; 400 kitchens. On July 1st...3,000 relief works; 400 kitchens. The Deputy Commissioner remarks that the state of the taluk is in parts bad. If relief works are steadily kept going, matters will go smoothly; otherwise the kitchens will be deluged by starving labourers.
LUK. 1,500 kandies of a in are in stock in the taluk; supplies are being drawn from Bangalore. Prices are daily rising; private enterprise is able to maintain the importation.	The population is 85,661, the greater portion of which are of high caste. Half the number of the whole population are purely agriculturists, one-eighth urban or artisan, one-eighth other professions, and the remainder mixed. The landholders are not capable of aiding their tenants.	About 6,000 people have left the place. About 1,000 of them have returned.	Relief works have been opened; large relief works also sanctioned.	There is one Government kitchen in this taluk.	The number of persons on the hands of Government at date of report is on relief works 419; by charitable measures 144. The future estimate is— On March 1st 2,000 relief works; 600 kitchens. „ May „ 3,000 relief works; 600 kitchens. „ July „ 2,000 relief works 600 kitchens. The Deputy Commissioner remarks that portions of this taluk have suffered very severely, other have done pretty well.

a	b	c	d	e																						
The Amildar reports it from eight to ten annas of the paddy and from two to three annas of the ragi crops saved. The Deputy Commissioner reports 9½ annas saved.	Remissions Rs. 5,000 out of a total of Rs. 1,50,539.	3,822 head of cattle have died, and 2,000 more are expected to die. Hulbani rents remitted. The ryots, who have raised some rice crop on lands under channels, assist the people with grass in villages in which dry cultivation has entirely failed.	Villages suffer for want of water; wells having run dry. Wells are, however, being dug, but it is doubtful whether they will contain water till rains set in. The villages situated close to the river Kaveri and its channels have a sufficient supply of water, but those depending on channels suffer temporarily when they are under repair or when water is not let into them. The continual flow of water into the channels is recommended.	ASHTAGRAM

The Amildar reports it from fourteen annas of the moongar and from two to ten annas of the rice and ragi crops saved. The Deputy Commissioner reports 9½ annas saved.	Remissions Rs. 6,000 out of a total of Rs. 1,23,294.	Mortality among cattle 1,245 head. No more cattle are expected to die. There is a sufficiency of fodder, and hence remedial measures unnecessary.	Abundant water-supply, as there are wells in or near each village. In event of scarcity all that will be needed is clearing wells.	CHAMRAJNAGAR

The Amildar reports from four to eight annas of the moongar crops and from five to nine annas of the paddy and ragi crops were saved. There is a prospect of the cholera and karagi sowings if the rains of March and April do not fail. The Deputy Commissioner reports nine annas saved.	Remissions Rs. 750 out of a total of Rs. 57,600.	2,061 head of cattle have died and 47,630 are expected to perish. Hulbani rents remitted, and State forests opened for the cattle to graze in. Precautions are suggested to protect forests from fire and to keep diseased cattle separate from the healthy.	The tanks have all dried up, and most of the wells are also dry. Deepening of wells suggested to improve water-supply.	GUNDLUPET

LUK. Twenty-five thou- and people or near- 43 per cent. of e population pos- s a stock of provi- ns t, last them for or seven months. e remainder have to pend for their sup- ies on the local mar- ts, villages, &c.	The population amounts to 57,777. Of these 28,591 are males and 29,186 females. There are 10,725 agriculturists 4,999 labourers, 2,902 traders and manufac- turers, and the re- mainder are of mixed occupation. Nearly 50 per cent. of the agricultural population are well- to-do. They have rendered aid to their tenants and jeetgars by advancing small sums of money with- out interest, and by lending grain.	About 1,000 per- sons have emigrated to coffee-growing dis- tricts in search of employment. People from Mandla, Naja- mangala, Hussan, Tumkur and Tarikere taluks pass through this taluk on the way to coffee planta- tions; 200 persons are, however, daily returning, hav ing failed to get employ- ment. Emigration, it is said, is likely to continue till next rains.	No relief works have as yet been started. Some coolies are, however, collecting materials for the roads to be repaired by the Public Works Department. Works suggested are the excavation of three tanks and the dis- mantlement of the eastern and southern portions of the Gund- lupet fort walls.	A kitchen has been opened, where from 400 to 500 people are fed daily.	The number on the hands of Government on date of report is— <table><tr><td>On works ...</td><td>200</td></tr><tr><td>By charity ...</td><td>400</td></tr></table> The number estimated on the dates specified is— <table><tr><td>On 1st March ...</td><td>400</td></tr><tr><td>On 1st May ...</td><td>100</td></tr><tr><td>On 1st July ...</td><td>100</td></tr></table>	On works ...	200	By charity ...	400	On 1st March ...	400	On 1st May ...	100	On 1st July ...	100

ALUK. About 15,000 persons have a sufficient stock of grain for six or seven months. The remainder depend for their supplies on the talshops or markets, and on the importation from Bangalore and Ganjam. The importation will, it is said, be sufficient, and will continue till the moongar crops are reaped in August.	The population is 57,286 or 28,254 males and 29,032 females. There are 13,490 agriculturists and traders, 1,370 labourers, and 5,316 manufacturers. The remainder are of mixed and miscellaneous occupation. Twenty per cent. of the population are well-to-do; the rest are poor.	5,748 persons have emigrated to coffee plantations in search of food. A few have returned, and further emigration is probable.	In addition to relief works in progress, the construction of two new lines of road, viz., the Bararala-Nagamangala road and Kokatty road, is suggested.	The relief kitchen opened at this kusba from private subscriptions feeds about 50 persons daily. Arrangements are being made for distributing food to travellers, aged and infirm, &c. ALUK. There are about 30 respectable merchants in the taluk who trade extensively in rice and ragi. They not only import grain in large quantities, but export it to the Bilgherry, Gudalore, Nanore, Mundriem, Adoor, Nanjungode, districts which is the cause of prevailing high prices in prices. There is, however, enough grain in the taluk to supply the wants of 10,000 people for seven or eight months. The remainder will have to depend for their supply on local markets, shops, &c.	The population amounts to 126,930. Of this number 63,528 are males and 63,402 females. 17,122 are agriculturists, 8,480 labourers. Traders and manufacturers number 8,452, and people of miscellaneous occupation 92,876. Three-fourths of the population are well-to-do.	500 persons have emigrated from this taluk; some of them are reported to be starving; further emigration probable.	No relief works actually opened, though the municipality have undertaken the construction of a road and the Public Works Department the excavation of a tank, at the former of which 300 persons and in the latter 1,000 persons are employed.	Twelve relief kitchens have been opened in the town of Mysore from private subscriptions. These amount to Rs 9,796, and are to be supplemented by a Government grant of an equal sum, which is to be expended in the purchase of grain in localities where it is cheapest. The daily average of destitute persons fed is 2,140.	The number of persons Government has on its hands on date of report is— <table><tr><td>On works</td><td>...</td><td>1,300</td></tr><tr><td>By charity</td><td>...</td><td>70</td></tr></table> The number likely to be in hand on the dates specified below is— <table><tr><td></td><td>On works.</td><td>By charity.</td></tr><tr><td>1st March</td><td>...</td><td>1,000</td></tr><tr><td>1st May</td><td>...</td><td>1,000</td></tr><tr><td>1st July</td><td>...</td><td>1,000</td></tr></table>	On works	...	1,300	By charity	...	70		On works. ALUK. The local stock of grain is sufficient to supply the wants of 1,597 persons for six or seven months. The remainder will have to obtain their supplies of rice from Mysore, and ragi in the Heggadarante Taluk. Fall in prices not anticipated.	The population numbers 64,535 souls. Of this 31,899 are males and 32,636 females. There are 11,787 agriculturists, 5,055 labourers, 3,075 traders and manufacturers and the remainder are of mixed occupation. Seventy per cent. of the population are well-to-do.	2,000 people have emigrated to coffee plantations, and are doing well. 1,000 persons more are expected to emigrate.	No relief works as yet started. Works practicable are repairs to tanks.	About 300 persons are fed daily in the relief kitchen opened by private subscriptions at Sindoovally.	No information given.																		

a	b	c	d	e																			
The Amildar reports the crops saved in the following proportions :—Three to eight annas of the ragi crop, six to ten annas of the paddy crop, and one to three annas of the Hyne ragi crop. Deputy Commissioner reports nine annas saved.	Remissions Rs. 11,000 out of a total of Rs. 1,07,386.	Deaths among cattle from disease 2,011. No mortality anticipated for want of fodder and water. Crops have been raised in some places, and there is grass in store. The taluk contains jungles and borders on Coorg. No remedial measures are necessary	One-third of the villages are situated close to the rivers Kaveri and Lakshmantirta; hence no want of water is felt. In a few villages there are small katties and wells, which contain water, while in others there is no water. As wells and katties get dry, people get new wells dug. No remedial measures are therefore necessary.	PERIAPATNA

The Amildar reports that nine annas of the rice crop and one anna of the ragi crop saved. The Deputy Commissioner reports nine annas saved.	Remissions Rs. 10,000 out of a total of Rs. 92,194.	3,057 head of cattle have died and 2,019 more are expected to die. Cattle are driven to graze in the forests of Coorg and Heggaderankote. The ryots fortunate in their cultivation feed their cattle with the straw of ragi, paddy, &c. Hulbani tax remitted. Prickly-pear suggested as fodder, and cattle permitted to graze in jungles, and on a portion of the Amvat Mahal Kaval.	Ample supply of water in villages situated on rivers. No scarcity feared in villages into tanks of which nullah water flows. Tanks are becoming nearly all dry. Scarcity is likely to be felt in places where there is no river, and here the digging of wells is suggested.	YEDATOR

REMARKS BY THE DEPUTY COMMISSIONER.

- (c) A special officer, with an assistant and some of the Kedda establishment, have been appointed to assign grazing grounds for the cattle along the foot of the Neilgherries and Western Ghâts and to direct them there. The cattle should be detained there till the rains have undoubtedly set in.
- (d) Emigration has been chiefly from the Mandya Taluk, where the people are very poor, and the crops have failed almost completely. Elsewhere emigration has been principally for the purpose of taking the cattle to graze.
- (e) It is difficult to estimate the number likely to be on relief works, as many people come on them who are only passing through the district.

DISTRICT—concluded.

f	g	h	i	j	k												
TALUK.	About 60 per cent. of the total population have a stock of grain on hand for six or seven months. The requirements of the remainder will be met from supplies available in local markets, villages, &c.	The population aggregates 116,334. Of this number 57,906 are males and 58,428 females. There are 24,798 agriculturists, 5,879 labourers, 4,149 traders and manufacturers, and the remainder are of mixed occupation. Three-fourths of the population are well-to-do.	5,000 or 6,000 people are in the habit of going to Coorg for their food, and after a short stay returning to the taluk.	No regular relief works have as yet been started. The works practicable are the construction of three new roads and excavation of three tanks.	Relief in the shape of food is gratuitously given in seven places to travellers, the aged, and infirm. The daily average is 910. The number of people Government has on its hands on date of report is— On works € By charity 1,30 On dates specified below the number estimated is— <table><tr><th></th><th>On works.</th><th>By charity.</th></tr><tr><td>1st March ...</td><td></td><td>2,600</td></tr><tr><td>1st May ...</td><td></td><td>5,000</td></tr><tr><td>1st July ...</td><td></td><td>7,000</td></tr></table>		On works. TALUK.	The local stocks are sufficient for half the population for six or seven months. Rice being imported from Ankulgoode, Penapatun, and neighbouring taluks.	The population amounts to 65,523. Of this number 32,952 are males and 32,571 females. There are 14,478 agriculturists, 3,058 labourers, 3,189 traders and manufacturers, and the remainder of mixed occupation. Half the population are well-to-do.	Four or five thousand people have emigrated to Coorg and other places. Some have returned and others have sought employment on coffee plantations; further emigration probable.	No regular relief works as yet started; estimates for practicable works are hereafter promised.	Six kitchens from private subscriptions have been provided for travellers, infirm, &c., and from 300 to 400 persons are fed daily. The number on relief works date of report was 1,500. The number likely to be on the hands of Government on the dates specified below is— <table><tr><th></th><th>On works.</th><th>By charity.</th></tr><tr><td>On 1st March ...</td><td></td><td>1,500</td></tr><tr><td>On 1st May ...</td><td></td><td>500</td></tr><tr><td>On 1st July ...</td><td></td><td>500</td></tr></table>		On works. In some villages the crops entirely failed; in others the following was obtained:— Annas. Agri ... from 1 to 3 Iri ... " 1 " 2 Allar ... " 1 Angulgram from 1 to 3 Holam ... " 1 " 3 Ice ... " 1 " 8 was only below the tank of Kamasa-udra that any wet crop was obtained. On the whole 6 annas saved.	Out of a total of Rs. 77,885, remissions to the amount of Rs. 20,000, of which Rs. 4,000 will be on account of wet lands. The Deputy Commissioner considers these figures too high.	13,102 head of cattle had died up to the end of December, out of 90,284. Cattle driven into the Mulnad do not thrive, from severity of weather and unsuitability of the grass.	A few tanks have a little water, and the wells are drying up. No rivers or streams in the taluk. Some villages are suffering much from want of water. The Deputy Commissioner considers that the people should dig wells for themselves in beds of tanks, as the work can be easily and quickly done. MUNJARÁ			
Rice and ragi only grown in this taluk; paddy crop estimated at 6 annas; Vyshuka crop grown is very small; ragi estimated at 3 annas. The Deputy Commissioner estimates 10½ annas saved.	Revenue Rs. 1,46,290. No remissions likely to be needed, though it cannot be stated for certain till the end of the year.	Cattle healthy; mortality low; no remedial measures required.	No scarcity of water in the taluk. Prices of food-grain not sent up, but owing to large influx of people from the Maidan taluks, the prices are much the same as elsewhere. Although the rice crop has been excellent, dealers have no reduced prices, as they are holding back for higher rates, and selling their straw to pay the assessment.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
ALUK. About 500 kandies of <i>rāgi</i> and 200 of <i>ice</i> are concealed in the taluk for fear of being looted. Grain is imported but not in sufficient quantities, and the prices are not likely to fall, unless more is sent in.	The population is of both high and low caste; the latter are chiefly agriculturists. No large land-owners.	About 12,000 people have emigrated to the Nilgiris and the Mulnad, including 3,000 who have gone with their cattle. People are continually leaving and returning.	20 relief works have been started at a sanctioned cost of Rs. 8,855 on which 737 coolies are employed. Several other works, chiefly tanks, are in contemplation. This is one of the most suffering taluks.	For relief of poor and those incapable of work, Rs. 636 have been subscribed, of which Rs. 349 have been collected. Government has sanctioned Rs. 70 per mensem for January and February for this taluk.	Number of people now on the hands of Government— On works ... 7 By charity ... 1 Total ... 9 Estimated number on— 1st March ... 1,200 1st May ... 800 1st July, in case of rain falling ... 400
AD TALUK. 40,000 kandies of <i>ice</i> and 5,000 of <i>rāgi</i> in stock.	Both high and low castes are employed on coffee plantations, &c. It is feared that many coolies will be discharged, as the ground is too hard for remunerative labour.	No people have left the taluk, but there has been an influx of about 10,000. From 500 to 800 are employed on a road, also large numbers by the Public Works Department.	The construction of two roads at a cost of Rs. 15,000 is advocated as a relief work for the large number of Maidan taluks' people who have emigrated into this taluk.	A grant of Rs. 50 for the kitchen at Saklaspur for January and February has been sanctioned.	About 2,200 people are employed on district fund and Public Works Department works. Many will return home on fall of rain leaving 1,000 for relief on 1st March, May and July.
ALUK. 27,300 kandies of grain in hand. Rice imported from Coorg and Munjara bad. Trade is encouraged, and different kinds of food-grains for sale at the weekly fairs of Arkulgud and Marrur.	The population is composed of Mussulmans, Brahmans, and other high caste Hindus. Some of them (Kumatis) are well-to-do, but in no way liberally disposed. Some are employed under Government, others have lands; a few are traders. No wealthy landholders or inamdars in a position to assist their tenants.	About 2,000 or 3,000 people have emigrated to Coorg and Manantoddy. Some of them have returned, being unable to obtain work. No more are expected to leave.	Four relief works are sanctioned at a cost of Rs. 1,755, besides the Channel works under the control of the Irrigation Department. There are three works proposed and estimated to cost Rs. 3,522.	No kitchens have been started.	140 persons are now employed on works. If the proposed works are sanctioned, there will be on the hands of Government on 1st March, May and July, 450. If these are not sanctioned, 300 on each of the above dates. The Deputy Commissioner says there is work for 1,000 coolies if they would only come. This is partly a Mulnad taluk, & distress will not be felt so much as in other places. There are a fair number of works going on and more ready for submission.

HASSAN.

a	b	c	d	e																																																																																																																							
No Vyshaka crop raised for want of water. The Kartik crop was as follows: from 4 to 8 annas. y crop from 1 to 10 annas. On the whole about annas saved.	Remissions Rs. 20,000, out of a total revenue of Rs. 1,74,042.	The number of deaths among cattle was 3,485. There is a stock of rice straw, and some grass is still procurable in gomals and kavals. The straw may last three months. Several remedial measures have been suggested, which, it is hoped, will save the more valuable cattle. There is no prickly pear in the taluk. The Mulnad is close at hand.	There are four small streams; the tanks also contain some water, which, it is feared, will eventually dry up. Wells have been sunk in tank beds and other low situations. The supply so obtained, together with the water procurable from rivers, will, it is hoped, be sufficient. Vyshaka crop failed. Out of 411 villages that owed Kartik crop, only 24 have saved anything, viz. :-

Ragi from 2 to 3 annas.
Ballar ... 3 "
Oil-seed ... 2 "

The seed sown in other villages failed from want of water.

Wet crop.—In eight villages a crop of sugarcane, calculated at from 3 to 10 annas, was saved. Rice grown under the tank in the village of inam produced a full crop, and is the only village in which any rice was reaped. There is little hope of saving the rice crop in other villages, as there is no water. No prospect of farther sowings.

About 6 annas saved.

On wet lands Rs. 9,000 will have to be remitted, on dry Rs. 5,000, out of a land revenue of Rs. 1,26,732.

Mortality of cattle 5,843, of which 682 were sheep and goats. About 4,000 horned cattle and 1,000 sheep and goats more will die. Many have been removed to Mulnad. The remainder live on a small supply of ragi straw saved from the last harvest, and what little grass there is in gomals and bulgams declared free by Government to goats' cattle.

In a few villages there is a little water for people and cattle for from one to two months. Villagers are excavating wells in tank beds and other low situations, and it is this water that is now being used. Eventually Government will have to help.

Average crop saved is given at—

Ragi 1 anna.
Rice 4 "
Horse-grain 1 "
Haraka 1 "
Ballar 1 "
Bengal gram 2 "
No Vyshaka crop sown.

The Deputy Commissioner reports 6 annas saved.

Remissions Rs. 8,000, out of a total of Rs. 88,176.

Three thousand head of cattle have died, and 4,000 are expected to die, out of a total of 18,896. About five-eighths of the horned cattle have been removed to the Mulnad. There is enough rice and ragi straw to support the remaining for two months.

There is a sufficiency of water for all but 200 villages, in which there is great scarcity. It is recommended that the people dig wells in tank beds for themselves where needed.

Grains are sold at per rupee—

Ragi ... 7 seers
Rice ... 6 "
Cholam ... 6 or 7 "

NAGAMAR

[STRICT—continued.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>												
ALUK. Rice is imported from Mangalore; ragi, all, &c., from Bangalore, but not in sufficient quantities to avert a fall in prices.	The population is partly agricultural, partly trading. There are very few wealthy landholders, &c., who are able to aid their tenants.	Eleven thousand seven hundred and sixty-five people have left the taluk; none have returned; more are expected to go.	Twenty-one relief works have been started at a total sanctioned cost of Rs. 8,074. Five more works are proposed at a cost of Rs. 2,101. Many of the former are nearly finished. There are also several municipal works going on, which give employment to 60 or 70 people. This taluk does not require relief works so much as others, as there has been a moderately fair crop obtained, and those works that are now going on have afforded work to those that wanted it.	Three hundred people are daily fed at a kitchen started by the people. The money raised for this purpose is Rs. 481 in cash, and 671 seers of grain. Only Rs. 105 have been collected as yet.	The number on works at date of report is 1,254; the estimated numbers on 1st March, May and July are 150, 450 and 450 respectively. At date of report 300 were maintained by private charity. It is estimated that on the above dates the number will be 400, 400 and 300 respectively. The above calculation appears to be a very hopeful view of the future. There are now 1,254 people daily employed on works; yet it is calculated that on 1st March only 400 will come, as the others will have left in anticipation of commencing agricultural operations again.												
ALUK. The stock of grain hand is 1,000 kans of ragi and 300 rice. Grains are sorted in sufficient quantities, but prices not fall, nor are they likely to do so. At same time they not higher than elsewhere, though the taluk is one of the most distressed.	One-fourth of the ryots are purely agriculturists, and the rest partly so; many among the latter are poor. There are about 20 rich men in the taluk, but they do not help the poor. Some four or five gomdals have hitherto lent grain, but it is now exhausted.	Many people have gone to Munjarabad, where they get bare subsistence on Government works or on coffee estates, as, owing to their condition, they are unable to do much work; 8,000 have left, but are not doing well, as they can only earn small wages. They may return, but none have done so as yet, and people are still leaving.	The following works are considered sufficient: 14 works employing 1,658 coolies at an estimated amount of Rs. 42,722; seven works are proposed to employ 2,550. Some works are also in progress under the Public Works Department.	Money has been raised in the taluk to feed the poor. About 70 aged and infirm who are unable to work are fed; the food given is ragi and rice, conji or gruel. This kitchen has been open two months, and Government has granted it Rs. 50 for January and February.	The number on works is 1,258; supported by charity, 100. Estimate for the future— <table><tr><th colspan="3">On Works. By Charity.</th></tr><tr><td>1st March...</td><td>4,400</td><td>200</td></tr><tr><td>1st May ...</td><td>3,000</td><td>100</td></tr><tr><td>1st July ..</td><td>1,500</td><td>50</td></tr></table> The Deputy Commissioner considers that 200 will have to be gratuitously fed on 1st March. ALA TALUK. Estimated stock in hand— Kandies. Rice ... 5,000 Ragi ... 1,500 Jum ... 500 Rise-gram ... 300 Kandy is 160 tons.	Total population, 65,000. All but about 4,000, who are Brahmmins and Mussalmans and are very poor, are sufficiently well off for the present; 6,500 are willing to earn wages on relief works. There are no wealthy landholders.	About 24,000 people have left for coffee plantations; about 6,000 are doing well there, the others are not so well off, as their wages are low; 700 have returned, and it is expected that others will return in one or two months more.	Plenty of work for some time to come for the people, unless large numbers come back from the Mulnads.	One hundred poor persons are fed daily by private charity at Nagamangala and Choongchangiri. Two more kitchens at public expense are proposed at a cost of Rs. 100 per mensem, to be supplemented by an equal amount from Government.	Seven hundred and fifty men were employed on 7 relief works; more are expected. People to be maintained by Government— <table><tr><td>By charity, 1st May ...</td><td>300</td></tr><tr><td>1st July ...</td><td>500</td></tr><tr><td>On works, 1st May ...</td><td>1,000</td></tr><tr><td>1st July ...</td><td>1,000</td></tr></table>	By charity, 1st May ...	300	1st July ...	500	On works, 1st May ...	1,000	1st July ...	1,000

Out of 191 villages in the taluk, 90 lost their crops entirely, and the others obtained dry crops as follows:	Remissions, Rs. 1,500 land revenue, 500 molunturfa, Rs. 2,000 out of a total revenue of Rs. 59,047.	Total number of agricultural stock was 71,783, of which 2,323 have died, and about 2,000 more will probably die, but they will principally be the old and worthless ones. Many have been removed to better feeding grounds.	In some of the tanks there is still two or three months' supply of water: when these fail, the Hemavati River will be the chief source of supply. Some of the villages are situated at a distance from its banks. The Deputy Commissioner reports 10½ annas saved.																																																																																																																												

Rice crops obtained from below river channels are reported to have been excellent; in many cases the ryots had derived a clear profit of over Rs. 100 for every acre of wet land.

The Deputy Commissioner reports 10½ annas saved.

No Vyshaka crop was raised. Kartik crop averaged—

	Annas.
Ragi	2
Dhall	1
Chillies	2
(Hingelly oil-seed	2
Oil-seed	2
Horse-grain	1
Coffee	4½

Wet.

In the Maidan hoblis of Adgur and Halebidi—

	Anna.
Paddy	1
Sugarcane	1

In the Mulnad hoblis—

	Annas.
Sugarcane	2
Rice	4½

No prospect of further sowings. The Deputy Commissioner considers the Mulnad crop very much under-estimated, as it is generally reported that the rice crop has been excellent this year. He also reports that 10 annas on the whole of the crops have been saved.

Remissions Rs. 13,000, out of a total of Rs. 1,16,945, or nearly 1/10th of the revenue. As this is a Mulnad taluk and none of the coffee revenue will have to be remitted, this amount is considered high.

Up to end of the year 5,537 head of cattle had died; anticipated deaths 5,000.

In five Mulnad hoblis there is a sufficiency of water. In the Mulnad hoblis Rs. 40 have been allowed to excavate wells where required: when this work is completed, a sufficient supply will be obtained.

BELU

DISTRICT—continued.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>												
MALUK. Local stocks are 300 candies of rice and ragi in 10 villages. The traders have a similar quantity in store. These grains are imported from the Mulnad.	There are both high and low castes, the latter predominating, and most of them poor. There are some well-to-do in both classes, but none of them are charitably disposed.	About 15,000 people have emigrated, and are no better off by so doing. Further emigration is unlikely, as people have returned from the Mulnad, on account of no work.	Rs. 333 have been sanctioned for relief works. As this is, however, insufficient, arrangements are being made to obtain sanction to estimates amounting to Rs. 3,000.	Rs. 250 have been subscribed for relief of the poor. It is considered necessary to open a kitchen at Narsipur for four months at a cost of Rs. 1,100. Poor travellers passing through this town are fed nightly at a cost of Rs. 100 per mensem.	406 people have been employed on works up to date. The above is not the daily number, but contains every one employed so far. About 120 persons are gratuitously fed by low people. Estimate for the future is — <table><tr><td></td><td><i>Works.</i></td><td><i>Charity</i></td></tr><tr><td>1st March ...</td><td>150</td><td>400</td></tr><tr><td>1st May ...</td><td>150</td><td>400</td></tr><tr><td>1st July ...</td><td>200</td><td>500</td></tr></table>		<i>Works.</i>	<i>Charity</i>	1st March ...	150	400	1st May ...	150	400	1st July ...	200	500

ALUK. Stock of grain in hand: Rice 30,000 candies; Ragi 3,000; ice, salt, dhall, &c., are imported, but not in sufficient quantities.	Part of the population is purely agricultural. The high caste people have some grain in hand, though a few of both high and low castes are obliged to beg, or live on jungle leaves, roots, &c. There are no wealthy landholders. The Patels to some extent supply food to their servants, and will continue to do so.	1,000 people have emigrated to the purely Mulnad taluks. It is supposed that they have bettered themselves, and there is no likelihood of their return before the rainfall.	Relief works at a sanctioned cost of Rs. 4,010 have been commenced. The coolies, however, have not bettered themselves on account of low rates of hire, and because of their weak condition not enabling them to do their required portion of work.	The subject of charitable relief is now under consideration.	The number of coolies on Government works up to date is 46. Estimated number on 1st March and July 200. The Deputy Commissioner remarks that the daily average is not given, though the estimate for the future is very low, and that in all probability nearer 2,000 than 200 people per day will be on the hands of Government later on.

Estimated amount of crop saved is —	Remissions on wet lands Rs. 7,935, on dry Rs. 7,680, total Rs. 15,615 out of a revenue of Rs. 1,19,912.	The number of cattle at the end of last official year was 105,831, of which 4,715 have died, many of the remainder have been taken to the Mulwad. At present there is a sufficiency of straw for the remainder.	In the majority of villages there is a scarcity of water. A sum of Rs. 2,000 is recommended to be sanctioned for the purpose of digging wells, as the work is very laborious.																																																																																																																																																																			
Rice from 4 to 12 annas. Ragi " 1 " 4 Horse-grain " 1 " 1 Dhall " 1 " 3 Mil-need " 1 " 1 Jugarcane " 2 " 8																																																																																																																																																																						
In some places rice and sugar cane are reported to have entirely failed. No further prospects of sowing this year, but if early rains fall, cholum, ragi, &c., may be sown.																																																																																																																																																																						
The Deputy Commissioner reports 9 annas saved.																																																																																																																																																																						

DISTRICT—concluded.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
ALUK. As rice has not been a entire failure, some people have a small supply on hand. The mildar thinks that unless Government makes arrangements for the importation of grain, there is no likelihood of prices falling.	The population is chiefly agricultural, some are traders, but by no means well-to-do. There are no landholders or others sufficiently wealthy to assist the poor.	About 4,600 people have emigrated to Manantoddy, Coorg, &c., where they are nearly as badly off as before. None of the people have returned, and those left are still going.	A relief work (estimate Rs. 460) is now in progress. This, however, is insufficient. Other estimates have been submitted for sanction. The Deputy Commissioner remarks that works for many hundreds of people are forthcoming about Akkihebbal on the irrigation channel repairs, &c., but the people will not turn out; only about 40 or 50 daily at work. The repair of the Annyana katti will give employment to many people, as also the works on the channels, if the people go to them, and if imported labour is not used. He also recommends the carrying out of several other works.	A sum of Rs. 676, partly in grain and partly in money, has been privately subscribed to feed the poor. Rs. 50 per mensem has been sanctioned for the months of January and February for a kitchen in this taluk.	270 persons are now employed on Channel (Irrigation) and District Fund Works. Fed by charitable institutions, 70. It is estimated that by 1st March, 4 or 5 thousand people will have to be provided for.

a	b	c	d	e				
The yield from kharif crop is estimated at 4 annas, and rabi, which is lately sown, estimated at 3½ annas. Sugarcane is being planted under Sulikeri Lake and channels. The whole yield may be taken at 3½ annas.	Expected remissions Rs. 19,000, out of a total of Rs. 95,865.	The total mortality among cattle amounts to 16,854 head, and the anticipated deaths are Rs. 10,000. Permission is granted to graze in State forests.	All tanks, with the exception of Sulikeri Lake, are dried up; the water-supply is also failing in wells and nalas. The people are suffering from the scarcity of water. It is proposed to clean and deepen the existing wells and sink new ones in beds of tanks and low grounds.	CHANNAGI

REMARKS BY THE DEPUTY COMMISSIONER.

There is no actual famine in these two taluks, but there will be much distress, and considerable numbers may on the relief works when the harvesting is over. Remissions will be required, and their amount should be notified as as possible, as the fear of levies in the hot weather paralyses the efforts of the people. The repair of two large is desirable, one being kept for the hot weather. Two large road-works also will afford relief as required. condition of the Honnali Taluk is rather better than that of Channagiri.

STRICT

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
LUK. The stock in hand 2,500 kandies of 0 seers each. A moderate supply of grain imported from Bombay via Bellary. Private enterprise is sufficient for the present, but will have to be supplemented by Government hereafter. A fall in prices is expected.	Population is 69,417 and is generally of low caste. Only a few landlords can aid their tenants. • •	About 2,000 people have left for the Mulhads with their cattle. They are not in distress, but have gone to look after their cattle. Some of the ryots of Tunkur and Chitaldroog Districts have come into this taluk, but they may proceed further as soon as the harvest season is over, after which they will not find any livelihood here, except on relief works.	Twenty-three relief works have been sanctioned at a total cost of Rs. 16,575. Besides these, other agricultural and district fund works are in progress. Some more works are proposed to be sanctioned, if necessary.	A feeding house is opened at Channagiri in which the old and infirm are fed.	The number of persons the Government has on its hands at date of report is— On works 1,00 By charitable measures 5 The number it is likely to have is— 1st March 2,50 1st May 3,00 1st July 1,00

ALUK. The stock in hand 40,000 kandies of 60 seers each. Importation is from Sont. Private enterprise is at present sufficient.	Population 68,607; chiefly agricultural and but few of high caste. Very few landlords are in a position to help their tenants.	Some people have come from Dharwar and Chitaldroog with their cattle to the Mulhad. Some ryots of the taluk have gone to the Mulhad, but a few of them have since returned.	Twelve relief works have been sanctioned at a total cost of Rs. 6,182; also some agricultural works and local fund works for about Rs. 1,149. The works in hand and those that will be shortly started are sufficient for the present, and additional allotments to them will be made as required.	<i>Nil.</i>	The number of persons which the Government has on its hands at date of report is—for relief works 230; by charitable means none. The number, roughly estimated, that it is likely to have on hands is— On Works on On 1st March ... 1,500 .. May ... 1,500 .. July ... 500

N. B.—There being no distress or failure of crops in the two lastmentioned taluks, no separate reports regarding them have been submitted.

KADI

a	b	c	d	e		
The dry crop has been entirely lost; of the wet, about one-fourth, or 3 annas, has been saved.	Rs. 50,000, out of a total revenue of Rs. 1,14,879, must be remitted.	8,952 head of cattle have died, up to date; expected to die 8,500. Hal-bani rents have been remitted and State forests thrown open for grazing, and some of the ryots have removed their cattle to the Mulnad for grazing purposes. These measures have saved many. Further suggestions on this point will be made after trying the working of the measures now adopted.	Almost all the tanks have dried up. A scanty supply of water is obtained from wells. It is probable that many of the wells from which water is now obtained will dry up. Wells will have to be sunk in the beds of tanks and in low grounds.	BANAV.

ALUK. Local stocks as far as can be ascertained are 7,000 kandies of grain. Hassan, Bangalore and the Muldars are the centres of private enterprise and efficient. There has been no fall in prices, owing to importation.	The population is 55,346, and mostly consists of high caste. Of these about 99 per cent. are poor. There are both pure agriculturists and partly agriculturists. Of the latter class about 50 per cent. are artisans. The landholders are generally poor, and therefore not in a position to aid their tenants.	The percentage of the population who have emigrated is not stated. They are reported to have bettered themselves. Further emigration is probable.	Five kattis and 4 tanks are being repaired and 20 wells sunk, at present at a cost of Rs. 3,814. Advocated are—24 wells, 1 road from Jangut to Arsikere (Rs. 3,900), or in lieu 2 tanks—1 at Yegati (Rs. 10,000), and another at Kadur (Rs. 6,000). Of the first, 20 wells have been sanctioned and taken in hand, and estimates are awaited for the 4 others from the taluk. For the second funds are needed. The Amil has recommended the repair of 2 kattis and 1 well at a cost of Rs. 649, but funds are needed.	A private kitchen is opened at a monthly cost of Rs. 100. A monthly subscription of Rs. 500 has been sanctioned by Government to supplement private donations, of which Rs. 300 have been allotted to Banavar, which amount will be utilised from 1st January 1877.	The number of persons Government has on hand on works is 3,300; by charitable measures, 35. The number that Government is likely to have on its hands, roughly estimated, is— On 1st March ... 9,000 „ 1st May ... 19,000 „ 1st July ... 49,000

ALUK. Mangalore, Hassan and Bangalore are the centres of supply. Private enterprise is considered sufficient. There is about 500 kandies of grain in stock.	The population is 89,919, and mostly consists of high caste. Of these about 99 per cent. are poor. There are pure agriculturists and partly agriculturists. Of the latter class about 15 per cent. are artisans. The landholders are generally poor, and therefore not in a position to aid their tenants.	About 25 per cent. of the people have emigrated. Further emigration is probable.	Three kattis and 4 tanks are being repaired and 6 wells sunk at present, at a total cost of Rs. 2,531. The following works are advocated: 1st, 12 wells; 2nd, a road from a point in the Hallebede road to the Sakarepatam-Banavar road, or in lieu a tank near Lakke (Rs. 3,900); 3rd, to the south-east of the taluk a tank to be selected hereafter. Of the former, 6 wells have been selected and taken in hand, and estimates for the others are awaited from the Amil. The second and third proposals await the orders of Government.	Two private kitchens are opened—one at Chikmagalur and another at Kalsapura—at a monthly cost of Rs. 200 and 20 respectively. A monthly subscription of Rs. 500 has been sanctioned by Government to supplement private donations. Of these Rs. 100 have been allotted to Chikmagalur, which amount will be utilised from 1st January 1877.	The number of persons Government has on hand at date report is—on works 70, and charitable relief, 200. A rough estimate of the number which is likely to have on its hands given below: On 1st March ... „ 1st May ... „ 1st July ...
---	--	--	---	---	---

a	b	c	d	e																																																						
Kharif 6 annas, or half an average crop ; rabi, nil. No further prospect of sowings. About half an average crop for the whole taluk will be saved.	Amount to be remitted Rs. 7,000, out of a total revenue of Rs. 1,09,000. Only portions of the taluk have been affected with drought.	5,947 head of cattle have died up to date, and 1,827 more may be expected to die hereafter. The measures already adopted by Government and the people for saving the cattle, their result and suggestions for the future are the same as are given for the Banavar Taluk.	Information given for this column is the same as for the Banavar Taluk.	<table><tr><th colspan="3">TARIKER</th></tr><tr><th colspan="3">Prices of the principal food-grains.</th></tr><tr><th></th><th>Rice, 1st sort.</th><th>Rági.</th></tr><tr><td></td><td>Srs.</td><td>Srs.</td></tr><tr><td>7th October 1876 ...</td><td>9½</td><td>12½</td></tr><tr><td>14th " " ...</td><td>8½</td><td>9½</td></tr><tr><td>21st " " ...</td><td>6½</td><td>7½</td></tr><tr><td>28th " " ...</td><td>6½</td><td>7</td></tr><tr><td>4th November, ...</td><td>6½</td><td>7</td></tr><tr><td>11th " " ...</td><td>7½</td><td>7</td></tr><tr><td>18th " " ...</td><td>7½</td><td>9</td></tr><tr><td>25th " " ...</td><td>6</td><td>9</td></tr><tr><td>2nd December, ...</td><td>6</td><td>9</td></tr><tr><td>9th " " ...</td><td>6½</td><td>8</td></tr><tr><td>15th " " ...</td><td>7</td><td>8</td></tr><tr><td>22nd " " ...</td><td>7</td><td>8</td></tr><tr><td>30th " " ...</td><td>7½</td><td>8</td></tr><tr><td>5th January 1877 ...</td><td>7½</td><td>8</td></tr></table> Six years' average prices—Rice 14, and rági 34. TABLE—continued.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
UK.					
Local stocks, as ascertained, 130 kandas of Aymor and Ben in the Shimoga Siralkopa in Shikarpur taluk, ali in the ali taluk, are centres whence es are drawn. te enterprise is lent.	Population 96,891. Other information is the same as given for Chikmagalur Taluk.	No emigration has taken place in this taluk. No further emigration is probable.	1 tank and 3 kattis are being repaired and 1 well sunk, at a total cost of Rs. 2,097. The following works are advocated: 1st, the excavation of 6 wells; 2nd, the A d jumpur-Chengeri Road, Rs. 13,000, or in lieu a tank near Adjampur, Rs. 5,000; 3rd, a tank in the vicinity of Singudana-bulhi. (Nagananakéré.) The Amil has also advocated the following works being taken in hand: 1st, katti for Rs. 219, 2nd, for Rs. 178, and 3rd, for Rs. 127, or Rs. 524 for all three, but funds are needed to sanction them.	A private kitchen has been established by Mr. Compahis, at a monthly cost of about Rs. 150. A similar kitchen is opened at Adjampur by private subscription. A monthly subscription of Rs. 100 has been sanctioned by Government to supplement private donations and allotted to this taluk, which amount will be utilised from 1st January 1877.	The Government has 62 persons on hand at date of report on works, and 150 are receiving charitable relief. Rough estimate of number Government is likely to have on its hands on— 1st March ... 3,010 1st May ... 3,785 1st July ... 3,375

CHITALDROOG

a	b	c	d	e
The entire crop seems have been lost.	Half of the wet assessment has already been remitted. It is recommended that the moiety of the dry land assessment, Rs. 6,000 uncollected, should be deferred in preference to being remitted. The total realizable revenue is Rs. 51,753, and the portion remitted appears to be Rs. 19,876.	Mortality among cattle ... 15,257 Mortality among sheep and goats 8,884 Total ... 24,141 It is feared that all the cattle will perish from want of fodder and water and other causes. No prickly-pears to be had in the taluk. Out of the surviving 19,448 head of cattle, about 15,000 were taken to the Mulhad. Half of them are said to have perished there, and the rest are returning.	Up to February next a sufficient supply of water can be obtained from wells and the beds of tanks. After February wells will have to be sunk.	BUDIHA Between 1st October 1876 and date of report the prices of ragi and rice have varied as under:— Ragi, per rupee, from 11 to 7½ seers. Rice, " " from 6 to 5½ " " " 2nd sort, from 7 to 5½ " " At one period rice fell as low as 4½ seers. Average price of these grains per rupee, for the past six years—Ragi, 50 seers; rice, 14 and 15 seers.

The estimated return of crop which has been sown throughout the taluka is 2 annas out of the monsoon crop only, or one anna and a half on the whole cultivation. There is no prospect of further sowings.

Rs. 50,000, out of a revenue of Rs. 5,8644, must be remitted.

The deaths among cattle have been 15,156 up to date, and the anticipated deaths are about 5,000. No steps have been taken by Government or by ryots to stop the mortality. There is no prickly-pear in the taluk.

There is at present sufficient water for drinking in almost all the villages of the taluk, and estimates have been sent in to sink wells in those villages where there is scarcity of water.

The crops, viz., white jowari, Bengal gram, remaining to be harvested are estimated at 2 annas; but these are only in some swampy parts of the taluk. There is no yyslaka or spring crop in this taluk. The proportion of crop saved is about 2½ annas.

The amount of revenue to be remitted on account of absconding of ryots and failure of crops is estimated at Rs. 15,000.
The total revenue is Rs. 91,479.

Mortality among the cattle up to date 2,859, and anticipated up to March next 1,500.
No want of fodder is felt. Further measures for the maintenance of cattle will have to be adopted by Government in case of fodder failing.

In most parts of the taluk no want of water is at present felt, but 16 new wells and the deepening of 11 old ones is necessary.
Estimates for some of these works have been sent up, and for others they are in course of submission, while in the case of some further works estimates will be prepared and sent in due course.

The weekly prices of rice, ragi, jowari, dhall have fluctuated from 1st October 1877 to date of report; but are not specified.

The average prices for the 6 years of the grain named is given below:—

Rice, 1st sort ..	10½ seers

DAVANGE

DISTRICT.

f	g	h	i	j	k																																																
BALUK. The quantity of grain in the taluk is estimated to be 300 kases. This stock of grain is not used; the people live on purchased grain, which is imported from Bellary and Bangalore railway stations. Of the rich royts have exported grain to sell, further supplies are anticipated from the above places alone. Considering the private enterprise displayed, supplies will be sufficient to meet all requirements. No fall in prices is anticipated.	The occupations of the population of this taluk are as below:— <table><tr><td>Agriculturists</td><td>27,483</td></tr><tr><td>Labourers</td><td>5,342</td></tr><tr><td>Traders or dealers</td><td>620</td></tr><tr><td>No particular occupation</td><td>665</td></tr><tr><td>Beggars</td><td>137</td></tr><tr><td>Total population</td><td>34,247</td></tr></table> Of the men of each occupation there are both high and low caste. No help to be expected from the few rich agriculturists in the taluk.	Agriculturists	27,483	Labourers	5,342	Traders or dealers	620	No particular occupation	665	Beggars	137	Total population	34,247	Number of people who have emigrated is about 700. Of these some are returning; further emigration is probable.	The number of relief and other works started since April is as follows:— <table><tr><th>WORKS.</th><th>No. of works.</th><th>Amount of estimate.</th><th>No. of men employed.</th></tr><tr><td></td><td></td><td>Rs.</td><td>Rs.</td></tr><tr><td>Relief</td><td>6</td><td>1,332</td><td>2,180</td></tr><tr><td>Irrigation</td><td>1</td><td>754</td><td>360</td></tr><tr><td>Local Fund</td><td>7</td><td>4,487</td><td>171</td></tr><tr><td>Municipal</td><td>1</td><td>100</td><td>104</td></tr><tr><td>TOTAL</td><td>15</td><td>7,273</td><td>2,755</td></tr></table> Estimates amounting to Rs. 2,391 have been sent up for further works. BALUK. Very few families in the taluk have stores of grain. The merchants import large quantities from Bangalore, Bellary and Davangere. The price of grain in consequence of these large importations has slightly fallen.	The population is 69,409; and consists chiefly of the upper classes, only 1/10th portion being low castes. The people are generally very poor, there being only a very few rich men. The population of the taluk is 69,409. Of these 41,400 earn their livelihood by agriculture, and the remainder by other professions. Among the agricultural classes there are none who are rich enough to afford relief to their tenants and others.	Half of the agricultural classes have gone to the Mulnad taluks, and to the South Canara District. Not finding relief in those parts of the country, some of them have since returned. There is a likelihood of further emigration.	The relief works now in progress in the taluk are given below: Imperial fund works sanctioned Rs. 480; district fund works sanctioned Rs. 2,188; relief works sanctioned Rs. 22,669; grand total Rs. 25,637. Works for which estimates have been received amount to Rs. 11,256. In addition to these, works to the amount of Rs. 30,000 will be required in the taluk.	Private subscriptions have been raised by a famine relief meeting. The money thus collected, having been supplemented by an equal sum from Government, is now being appropriated for feeding the old and sick men, women and children. Ragi is given out as follows:—Twice a week at Chitaldroog, 1/2 of a seer for an adult per day, 1/4 a seer for a boy or girl a day. The number of persons to whom relief is given is about 500.	The number of persons whom the Government has on its hands at date of report is, on works 81 and by charitable measures 50. The number, roughly estimated which it is likely to have on hands is, on— <table><tr><td>1st March</td><td>1,000</td></tr><tr><td>1st May</td><td>1,200</td></tr><tr><td>1st July</td><td>1,300</td></tr></table>	1st March	1,000	1st May	1,200	1st July	1,300
1st March	1,000										
1st May	1,200										
1st July	1,300										

BALUK. The stock of food-grains probably amount to from 15,000 to 18,000 kandies. Supplies are imported from Dharwar and from the Mulnad taluks of the Shimoga district. Private enterprise exists to a considerable extent, and will have a tendency to lower the prices; this is counteracted by exportation.	The population of the taluk is 99,135 and consists of both high and low castes. One-fourth of it appears to be rich and three-fourths poor. Their occupations are:—Agriculturists 67,974; Artizans 20,143; No particular occupations 31,161. 1,19,278 Of the agriculturists there are many wealthy and able to assist their tenants, but they are not likely to do so.	One-eighth of the population have emigrated to Dharwar and the Mulnad taluks, having no means of earning their livelihood at home. They are stated to have found employment on coffee plantations. These men will be likely to return to this taluk if the next rains fall. Further emigration of some to the Mulnad is probable for the sake of personal subsistence and of fodder for the cattle.	Relief works under execution are— <table><tr><th></th><th>Rs.</th></tr><tr><td>Imperial Works</td><td>12,013</td></tr><tr><td>Local Fund Works</td><td>21,789</td></tr><tr><td>Total</td><td>33,802</td></tr></table>		Rs.	Imperial Works	12,013	Local Fund Works	21,789	Total	33,802	The harvest of this year's crop has relieved the people a good deal from the distress which was prevailing previous to it. Up to 31st October last relief was afforded by a subscription raised from well-to-do men both in Davangere and Harihara by distribution of cooked meals. Government has sanctioned a sum of Rs. 200 for the relief of the aged, infirm, &c.; of this a sum of Rs. 37-13 has been spent up to date.	The number of persons whom the Government has on hand on date of report for relief is 250. The anticipated numbers are— <table><tr><th>On works—</th><th></th></tr><tr><td>On March 1st</td><td rowspan="3">1,000</td></tr><tr><td>„ May „</td></tr><tr><td>„ July „</td></tr></table> The probable charitable relief not stated. CHITALDROOG

a	b	c	d	e																																																																																																		
The dry crops have largely failed. The old of paddy, ragi, and jowari crops is estimated at 2 annas. Besides the food-grain crops, men, jowari, many, and karlay cattle are being sown for the next vyshaka crop. The whole outturn will not exceed $\frac{1}{4}$ of an anna.	Out of Rs. 76,884, the amount of revenue to be remitted is estimated at Rs. 74,600. 1st.—From the desertion of ryots. 2nd.—From the failure of crop. 3rd.—From there being no purchasers for the lands of the defaulters.	The mortality amongst cattle amounts to 12,403 up to date, and further heavy loss is anticipated. Ryots refuse to feed their cattle on prickly-pears. Up to date cattle have been fed on roots and leaves of date trees on the banks of nulas and on grass purchased. The straw obtained from the kartik crops harvested, and the remaining date leaves, might serve for fodder for 20 days more. If Kuplay wells are sunk in the extensive tract of uncultivated lands in this taluk, and grass be sown and looked after, and an establishment maintained, it might serve as fodder.	In all parts of this taluk the want of water is felt, but for the villages which are situated near the Haggary and Garanye nulas, the water-supply will answer by daily digging small pits in their beds. The want of water is much felt now by other villagers, and it will be so after two months by the inhabitants of the villages situated close to the above two streams. There will be some relief by the further excavation of old wells, and by removing the silt in the tanks.	DODERI <i>Prices of the principal food grains.</i> <table><tr><th></th><th>Srs.</th></tr><tr><td>Rice, 1st sort</td><td>12½</td></tr><tr><td>" 2nd sort</td><td>14</td></tr><tr><td>Jowari</td><td>28½</td></tr><tr><td>Ragi</td><td>30</td></tr><tr><td>Narany</td><td>34</td></tr><tr><td>Harka</td><td>35½</td></tr><tr><td>Sujee</td><td>31½</td></tr><tr><td>Wheat</td><td>11½</td></tr><tr><td>Buller</td><td>12½</td></tr><tr><td>Gram</td><td>25</td></tr><tr><td>Dhull</td><td>10</td></tr><tr><td>Moong</td><td>13</td></tr><tr><td>Bengal Gram</td><td>10½</td></tr><tr><td>Addooth</td><td>12½</td></tr></table> Prices at date of report are not given. The crops harvested and remaining to be harvested are estimated to be 1 anna. These are both vyshaka and kartika crops, in the following proportions:— Vyshaka ... $\frac{1}{4}$ Kartik ... $\frac{3}{4}$ Total ... 1 anna.	The amount to be remitted is estimated at Rs. 50,000 or nearly the full amount realised last year.	The total number of cattle in the taluka in March 1876 was 157,000, of which 20,000 have died, 100,000 have been driven to pasture elsewhere, and 15,000 are expected to die. No special measures have yet been taken by Government to preserve the cattle.	Want of water not much felt, nor is it likely to be so. There are two streams in this taluka, viz., Vedavaty and Soomamukhy. If pits are dug in the beds of these streams, the want of water for the cattle of all the villages situated close to them will be met. To meet the requirements of other villagers, wells may be made in the beds of tanks and other places. JK. stocks of food might amount to 80 kandies. Supplies are imported from Ryadroog, Chitaldroog. Transportation from some places may be expected to continue owing to the lack of means at the disposal of the people, supplies imported from the taluk, and no fall in prices is anticipated.	The agriculturists comprise both high and low castes; they are poor. There are no artisans. Of the agriculturists none are able or likely to aid their tenants. The total population is 71,194.	About 20,000 men have emigrated to other places, where it is said they are starving; some have returned. Further emigration is probable.	17 relief works, at an estimated amount of Rs. 14,558-8 are under execution. These are insufficient. The construction of roads between large villages will be a suitable measure of relief. Exaction of full day's work and daily payments are recommended.	No charitable relief is given.	The number of persons whom the Government has on its hands at the date of report for relief on works is 920. Number of persons, roughly estimated, whom the Government is likely to have on its hands for relief on works— <table><tr><td>On 1st March</td><td>...</td><td>1,000</td></tr><tr><td>„ 1st May</td><td>...</td><td>800</td></tr><tr><td>„ 1st July</td><td>...</td><td>500</td></tr></table> No relief is to be afforded by charitable measures. LUKA. The stock of food might amount to 2,000. Krishnaraj lies. Supplies are imported from Bangalore and Bellary, and the Mulnad taluk of the Kadur and Noga Districts. Importation of rice is likely to increase from the mentioned two ways stations. Private enterprise is but little, and there is a tendency to an increase in prices.	The population of the taluk is 53,520, and consists of three parts high and one-fourth part low castes; of the whole, the well-to-do are about one-sixteenth of the population. The agriculturists number 34,215 and artisans 13,513; of the former none are able to aid their tenants.	One-fourth of the population have emigrated to other places. Of those who have emigrated it is said that some are earning their livelihood by daily labour, some are returning to their places owing to the climate not agreeing with them. Further emigration is probable.	Number of relief works under execution 81; amount of estimate Rs. 14,314. The construction of roads between high roads and villages, and the excavation of wells, will be a measure of relief.	Charitable relief is given to aged and infirm travellers by Government.	The number of persons whom the Government has on its hands for relief at the date of report is— <table><tr><td>On works</td><td>...</td><td>500</td></tr><tr><td>By charitable measures</td><td>...</td><td>100</td></tr></table> Number of persons, roughly estimated, whom the Government is likely to have on its hands for relief is— <table><tr><td></td><td>1st March.</td><td>1st May.</td><td>1st July.</td></tr><tr><td>On works</td><td rowspan="2">} 15,000</td><td rowspan="2">15,000</td><td rowspan="2">15,000</td></tr><tr><td>By charity</td></tr></table>	On works	...	500	By charitable measures	...	100		1st March.	1st May.	1st July. 				Prices of the principal food-grains.																																																																																																																						
The estimated amount of the crop which has already been reaped, and which is yet expected to be reaped, is calculated at 2½ annas, of which nearly all is Kartik or November crop. There is no further prospect of sowings.	Rs. 15,000 may probably have to be remitted out of a total of Rs. 38,206.	12,239 head of cattle and agricultural stock have already died and about 5,000 more deaths are anticipated. There is no prickly pear in the taluk. The people have taken a large number of their cattle to the Mulnad and other places where pasture is procurable, and they are not likely to return till they hear of rain-fall and growth of grass in their taluk. Such of the cattle as have not been so removed are being fed with wild leaves and roots, or with straw or stalks purchased at high prices from persons in good circumstances who may have them in stock. No measures can be suggested for the future.	There is no place which is entirely destitute of water-supply. But in villages where the existing water-supply is scanty difficulty is anticipated up to the next rains, and in such cases, fresh wells as a relief measure may be sunk; for which purpose steps are being taken.	<table><tr><th rowspan="2"></th><th colspan="6">NUMBER OF SEEDS PER RUPEE.</th></tr><tr><th>Rice.</th><th>Ragi.</th><th>Cholum.</th><th>Wheat.</th><th>Ballar.</th><th>Horse gram.</th><th>Bengal gram.</th></tr><tr><td>5th Oct.</td><td>9</td><td>10</td><td>10½</td><td>7</td><td>...</td><td>...</td><td>8</td></tr><tr><td>12th "</td><td>8</td><td>11</td><td>10</td><td>...</td><td>...</td><td>...</td><td>...</td></tr><tr><td>19th "</td><td>7½</td><td>8</td><td>7½</td><td>...</td><td>...</td><td>...</td><td>...</td></tr><tr><td>26th "</td><td>6½</td><td>7½</td><td>7</td><td>6</td><td>...</td><td>...</td><td>7½</td></tr><tr><td>2nd Nov.</td><td>5½</td><td>6</td><td>6</td><td>5</td><td>...</td><td>6</td><td>7</td></tr><tr><td>9th "</td><td>5½</td><td>7½</td><td>7</td><td>5</td><td>...</td><td>...</td><td>7</td></tr><tr><td>16th "</td><td>7</td><td>8</td><td>8</td><td>5</td><td>...</td><td>...</td><td>7</td></tr><tr><td>23rd "</td><td>7</td><td>7½</td><td>7½</td><td>5</td><td>...</td><td>...</td><td>6</td></tr><tr><td>30th "</td><td>6½</td><td>7</td><td>7</td><td>5</td><td>...</td><td>6</td><td>6</td></tr><tr><td>7th Dec.</td><td>6½</td><td>8</td><td>7½</td><td>5</td><td>...</td><td>6</td><td>6</td></tr><tr><td>14th "</td><td>6</td><td>8</td><td>8</td><td>5</td><td>...</td><td>6</td><td>6</td></tr><tr><td>21st "</td><td>6½</td><td>7½</td><td>7½</td><td>5</td><td>...</td><td>6</td><td>6</td></tr><tr><td>28th "</td><td>6½</td><td>7½</td><td>7</td><td>5</td><td>...</td><td>6</td><td>6</td></tr></table>		NUMBER OF SEEDS PER RUPEE. In the villages along the course of the Chinna-Huggry river some Kartik crops have been saved by wells dug. The outturn is 10 annas in the rupee. For the Vyshaka crop seed has also been sown and the outturn expected is 6 annas.

Excluding black cotton soil, dry crops have been raised in certain localities, and the outturn is 6 annas. As the tanks did not receive sufficient supplies of water this year, the Kartik wet crops have failed, and there will be no sowing for the Vyshaka. In 16 villages of the Bilchode-hobli the lands, almost all black soil, have been left waste. Likewise, in 10 villages of the Soke-hobli, and in 20 villages of the Jagalore-hobli, the dry crops have generally failed. There will be no further sowing during the current year.

The yield of the whole taluk is 2½ annas only.

Remissions Rs. 18,921, out of a total revenue of Rs. 26,852.

About 6,268 head of cattle have died, and it is thought that 6,000 more will die before the next rains set in. Some of the cattle have been taken to the Mulnad taluks. The ryots are not aware of any means for saving their cattle. There is little or no prickly pear in the taluk.

Except in 25 villages situated near the banks of the Chinna-Huggry river, scarcity of drinking water is more or less felt. The existing wells will have to be deepened, and new ones sunk wherever they are found to be requisite.

TRICT—continued.

	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>
UKA.					
here in the taluka are a large supply of grain in stock. The hants are all of good means. A certain portion of the who had 5-anna have from 4 to 6 months' supply, and have none. Supplies are being imported from Terrihere, Mangere, Davanagere, and Shimoga in the province, and the Camara zilla di, &c., in British India, and these supplies may continue for some time. Rail stations are too far away from the taluk as well as merchants from the import grain. As the demand exceeds the supply, the prices have risen.	The population consists of both high and low castes, of whom the former are more than the latter. There are few well-to-do people. The proportions of the population are as follows:—Cultivators and sub-cultivators 38,462. People carrying on other professions or artisans 17,252. People neither agricultural nor artisan 2,029. Total population 57,743. The landholders who are wealthy, able to aid their tenants, and likely to do so, do not number more than 50, and these only help those in whom they are particularly interested.	About 1,591 ryots and others have emigrated with their cattle to the Mulnad country in search of pasture. But as large emigrations have taken place to those parts from other taluks also, scarcity of fodder as well as prevalence of cattle disease appear to be experienced there; but this being the harvest season in those parts in coffee jungle, &c., the emigrants appear to have found means of livelihood. Some of them have returned to their homes after suffering from the climate and from heavy loss of their cattle. Further emigration appears probable.	The number of relief works already started is 29, at a total sanctioned amount of Rs. 11,605-11; but these being insufficient, further works are considered practicable, in the following order of their necessity: 1st.—Hollalkere Summuth. Repairing of the Channa-Patna-Katti. 2nd.—Repairing of the Arsangatta tank. 3rd.—Ranguri Summuth. Noolenoor, Dunic, Kannechully tanks and Katti repairs. 4th.—Bagur Summuth. Repairs to Katti and tanks of Hebbali and Chicka-ye-gatti. 5th.—Hosdoorga Summuth. Repairs of Kattis of Athignatta and Hoorlihulle. But the ryots do not take advantage of relief works, on the plea that they are unaccustomed to do cartwork, &c., they prefer emigrating to places where they can find employment, such as coffee plantations, &c., where they expect the work to be easy.	Out of the grant of Rs. 200 from Government, a sum of Rs. 150 has been spent in feeding the needy with ragi balls, &c. The remaining money will, in the same manner, be spent. At the kushali of Hosdoorga there is a public kitchen opened by private subscriptions, and a similar one is about to be opened at Hollalkere.	The number of persons on hand at the date of report (1) on works, (2) by charitable measures, is 504, and the number, roughly estimated, which the Government is likely to have on its hands on— 1st March 1877 is 700. 1st May 1877 is 400. 1st July 1877 is 300. The small number shown for May and July is in consequence of the rains anticipated in those months, when the ryots may revert to their usual ploughing operations.
UKA.					
ne of the ryots got sufficient of grain. The hants import in small quantities from the neighbouring markets in Bellary District. prices are not likely to go down.	Total population of the taluk, 38,782. The people are in general poor. There are only a very few well-to-do families. The number of cultivators is 26,356, and there are 12,427 of other professions. There are about 25 rich men in the taluk, but they are not likely to assist any of the people.	About 2/3rds of the people have emigrated to the Bellary District, and none of them have returned, as they have found relief there. If sufficient relief works are not started in the taluka soon, there will be further emigration to other parts of the country.	Relief works of the value of Rs. 300 have been sanctioned, and estimates for works of the value of Rs. 1,700 are pending sanction. Estimates for more relief works are in course of preparation. If sanction is granted up to Rs. 12,000 for making village roads, raising tank bunds, and repairing and sinking wells, the poor in the taluk will find relief. The ancient across the Chinna-Hugery river, for which an estimate is prepared by the Irrigation Department, may be advantageously built during the present famine season.	Notwithstanding the efforts made, no private subscriptions have been raised in the taluka for feeding the infirm, old, and children. Unless Government sanction a reasonable sum, nothing can be done in this respect.	About 175 men are now employed on district fund works. The following are the estimated numbers that will have to be provided with work in future: On March 1st 1877 ... 800 „ May 1st „ ... 1,500 „ July 1st „ ... 2,000

<i>a</i>	<i>b</i>	<i>c</i>	<i>d</i>	<i>e</i>																																				
Of the dry crops for Kartik, the outturn is one anna in the rupee only. A small extent of wet land was cultivated for the Kartik crop for want of water in some of the tanks in the taluk. The outturn of the whole was only three annas in the rupee. For the Vyshaka crop, most of the lands have not been cultivated at all. Some lands will be cultivated by means of wells, &c., and the outturn will, it is expected, be about two annas. Most of the trees in the gardens have died.	The yield of the taluk may be about 2 annas in all. In consequence of the scanty falls of rain both during the past year and this year, most of the lands were left uncultivated, and the ryots, with the exception of a few here and there, are in a very reduced condition. Coercive measures have been in many instances adopted for the recovery of the last year's Government demands against the ryots. This year they are scarcely able to maintain themselves and their families, so it is presumed that about Rs. 30,000 will have to be remitted this year, out of a total of Rs. 69,896.	The number of cattle in the taluk was 128,060; of these 4,544 died up to the end of November. About 20,000 cattle have been taken to the Mulnad in search of fodder. It is expected that about half of the present number of cattle will survive. There is very little prickly pear in the taluk. The ryots have done their utmost to save their cattle, even feeding them on leaves of trees. Should permission be obtained for the ryots to graze their cattle in the Amrut Mahal Kavula lands in other parts of the district, some relief would be afforded.	At present there is sufficient drinking water in all the villages of the taluk. There are many natural springs, wells and tanks in it. Should these dry up, measures will then have to be adopted to remove the silt as well as to deepen them, and in certain localities new wells will have to be sunk. OBSERVATIONS BY THE DEPUTY COMMISSIONER.

- (a).—The district is almost entirely burnt up: the dry crops have been lost in almost all parts.
- (b).—Large remissions will be required.
- (c).—Very heavy loss of cattle from starvation has occurred, and a large number of further deaths may be expected. For fodder little can be done, as prickly pear is scarce, importation would be expensive, and even the grain in the Mulnad is unhealthy for the cattle.
- (d).—A very large number of wells have been and are under construction, but a water famine is the chief danger.
- (e & f).—The two railway stations have been the saving of the people, and imports are likely to continue.
- (h).—Emigration has not done the people much good.
- (i).—A large number of tank repairs and other minor works have been and are in progress. The improvement of the sanitary condition of the villages, and of their communications with market towns, is desirable.
- (k).—The estimates of relief for the future are a maximum.

DISTRICT—concluded.

<i>f</i>	<i>g</i>	<i>h</i>	<i>i</i>	<i>j</i>	<i>k</i>															
TALUK.																				
Only a few families, here and there, have sufficient supplies for their own use. Grain is now being imported from different parts of the Bellary District, as well as from Bangalore. Notwithstanding the importation of grain, the prices have remained stationary.	The total number of people is 52,445; of these 33,800 are cultivating ryots, the remaining 18,645 are of other professions. The people are in general poor. There are a few rich men here and there, and able and willing to assist their tenants and others.	About 5 or 6 thousand people emigrated to the Mulnad country, and about 2 or 3 thousand have gone to the neighbouring taluks of the Bellary District, where extensive relief works are being carried out. Some of the men have since returned from the Mulnad, as they could find no relief there, and the climate is unwholesome. Those that went to Bellary District have not returned, as they found relief there.	Seventeen relief works have been sanctioned. The total amount of estimates for them is Rs. 3,799. Out of this sum Rs. 1,610-15-2 have been spent. The relief works now in progress are not sufficient. Estimates will be submitted for more relief works in due course.	Private subscriptions amounting to Rs. 2,500 were raised, and about 3,800 souls are being fed daily since August last. The money has been almost spent. 200 souls are being fed daily since 14th December 1876 from the Government grant of Rs. 100. More money is wanted.	The numbers relieved at present are— <table><tr><td>On relief works</td><td>...</td><td>1</td></tr><tr><td>On district fund works</td><td>...</td><td></td></tr><tr><td>Fed by Government at</td><td></td><td></td></tr><tr><td>Powagada daily</td><td>...</td><td></td></tr><tr><td>TOTAL</td><td>...</td><td>1</td></tr></table> Besides the above, 3,800 women and children are being fed daily in the villages by private subscriptions. The number of persons that will have to be maintained on relief works, &c., on March, 1st May, and on 1st August 1877 will be about 10,000 respectively at least. The number would be higher than this, were it not for the extensive relief works now in progress in the neighbouring taluks of the Bellary District, to which the people of this taluk resort in large numbers. us maintained by charity.

ful estimate of the amount (if any) the crop which has been saved, valued in annas, on the assumption an average yield being represented 12 annas; <i>khari</i> and <i>rabi</i> should be sown separately. If there be any prospect of further sowings, it should be mentioned.	An estimate as close as may at the time be practicable of the amount of revenue to be remitted.	Information as to the mortality, past and anticipated, among cattle and agricultural stock; the measures already adopted by Government and the people, their result and suggestions for the future.	The nature of the water-supply, extent of its failure, further anticipated failure up to next rains, and remedial measures possible, if any.	The course of prices each of the principal crops from October 1st up to date of report in each case years' averages.
After making allowance for the proportions of dry and wet cultivation, the average amount of the crop saved is:— One-eighth in 7 taluks. One-sixth " 1 " Nil " 1 " TOTAL 9 "	The remissions were estimated, in November last, at Rs. 5,63,750; but, according to the taluk returns now submitted, this amount is reduced to Rs. 2,76,460.	The mortality among cattle from scarcity of fodder and water amounts to 13,951 head; and 9,532 more are expected to die. There is little fodder except leaves of trees; but State forests have been thrown open and prickly pear recommended as fodder. Hulbani sales have also been abandoned, and ryots have been recommended not to sell but to use their ragi straw, and to sow cheena or Bengal gram in beds of dried tanks, so as to produce fodder for cattle.	Most of the tanks, wells, and reservoirs have become dry. Much distress is expected from the scarcity of water. Ryots have, however, been recommended to sink wells in beds of tanks, rivers, and nullas, and to remove silt from tank beds and wells.	Prices were mostly at the close of the year than during the previous three months, and about 8 seer and 6 of rice per maund but they have since improved.
The crop saved is estimated as— One-sixth in 2 taluks. One-fourth " 2 " One-third " 6 " TOTAL 10 "	The remissions were estimated, in November last, at Rs. 3,26,226; but, according to the taluk returns now submitted, this amount is reduced to Rs. 2,80,300.	Deaths among cattle and agricultural stock amount to 29,183 head, and 137,000 more are expected. The measures adopted to prevent this as much as possible, are the suspension of Hulbani sales, and the opening of State forests for cattle to graze in. Prickly pear has also been recommended as fodder.	People and cattle suffer a little from the want of water. In order to improve the supply, deepening of wells, clearing silt, and digging water holes in fit spots have been recommended.	Prices on the whole dearer than in the Bangalore District.
The crops saved are as follow:— One-fourth in 1 taluk. One-sixth " 1 " Nil " 6 " TOTAL 8 "	The remissions were estimated, in November last at Rs. 423,543; but, according to the taluk returns now submitted, this amount is reduced to Rs. 163,000.	A considerable number of cattle have died for want of fodder, and further mortality is expected. In order to prevent this as much as possible, Hulbani sales have been abandoned and forest reserves thrown open for cattle to graze, and prickly pear has been recommended as fodder. Grant of takavi for purchase of agricultural stock has been suggested; but the recovery of such advances is doubtful.	In some taluks there is water sufficient for a month or two, while in others the want of it is beginning to be felt. Wells will, however, be sunk in tank beds and in places where required to keep up a supply.	As above.
The crop saved is:— Two-thirds in 1 taluk. Three-fourths " 7 " Five-sixths " 2 " Full average " 1 " TOTAL 11 "	The remissions were estimated, in November last, at Rs. 355,938 but, according to the taluk returns now submitted, this amount is reduced to Rs. 75,250.	About 26,500 head of cattle have died for want of fodder. A number of cattle have been driven to neighbouring jungles, and to the forests of Coorg and Holfaderani Kote, to graze. In some taluks there is grass sufficient for the remaining cattle. Hulbani sales have been abandoned, and forest reserves generally have been thrown open to cattle. Prickly pear also suggested as fodder.	Villages situated on the banks of rivers have a tolerably good supply of water, while in the case of others a scarcity is apprehended, and deepening of existing wells and sinking new ones are suggested. In parts where people get their supply from channels, it is recommended that the Irrigation Department should let water flow into them continually.	Prices generally, specially of rice, than in any of the districts. The same is observable in the case of ragi up to the present time.

al stocks are insufficient to requirements of the district. Importation of food- stuffs is going on through Bangalore, Malur, and other railway stations; the supplies are not con- sidered to be sufficient for requirements of the people. The enterprise may ulti- mately maintain supplies fall in prices is not ex-	The larger proportion of the population are agricultur- ists, and the majority of the people are poor. There are a few well-to-do landhold- ers, but they are not likely to aid their tenants.	A considerable number of the labouring classes have emi- grated to coffee districts in search of employment. Whether they have bettered themselves or not, is not known; but further emigra- tion is probable.	The minor works which were set in hand at the be- ginning of the distress were found to be inadequate; and further works—such as con- structing roads, sinking wells in, and removing silt from, beds of tanks, strengthening bunds of tanks, levelling ruined fort at Hoskote, and dismant- ling Bangalore fort walls and filling ditches,—have been recommended to be undertaken.	There are relief kitchens at Peltah and Yell and in the cantonment Bangalore, where travel- lers and the aged and infirm are fed. Private ac- tions have also been in nearly all the talu- ks relieving distress this class of people.
is altogether a stock of 71,800 kandies of in this district. The pal centres from which are drawn, are the road and Malur rail- stations. Private en- terprise is not considered enough to maintain sup- plies and hence a fall in is not anticipated.	The majority of the popula- tion are of low caste, poor, and agricultural. There are no wealthy landholders in this district capable of affording assistance to their tenants.	People to the number of 57,100 have emigrated, and further emigration is probable unless checked by more relief works.	Rs. 13,534 have already been sanctioned for relief works, and if this sum be found insufficient and a necessity arise for them, more relief works will be undertaken.	A feeding kitchen ex- ists at the Kusba town of the taluk of this dis- trict where travellers, an aged and infirm, are gratuitously fed.
a fair stock of grain in this district, but the will not dispose of it, has been pouring into country chiefly from one, and is still coming. The enterprise, it is ex- pected, will maintain supplies.	The population are of both high and low caste, and generally poor. About three-fourths are agricul- turalists, and the remainder belong to the urban or artisan class. There are a few well-to-do landholders, but the majority of them are disinclined to aid their tenants.	A considerable number of the labouring class have emigrated to Coorg and other districts in search of employment. Very few have returned, and it is not known whether those who have not done so have bet- tered their condition or not.	The relief works already started consist chiefly in excavating silt from tank beds. The further work to be undertaken is collec- tion of metal along the district fund roads, which, it is expected, will give employment to a number of people.	In every taluk of this district there is one or more relief kitchens opened, destitute travellers, people who are unable to earn a livelihood by reason of age or infirmity are gratuitously fed.
sufficient grain in this district to sup- ply demands of three- fourths of the population for seven months. Be- cause of the large imports from different parts of the country is going	About one-fourth of the po- pulation are agriculturalists, while the remainder are traders, manufacturers, and of other mixed occupations. The majority of the people are well-to-do.	A number of people have emigrated to Manantoddy, Coorg, and other places in search of employment; some have returned on account of insufficient wages, while others are reported not to be doing well: further emigration is considered improbable.	No regular relief works have been started in either of the taluks of the district, as there was no necessity for them; but minor works, such as repairing roads and tanks, will be undertaken to give work to unemployed labourers.	Except in two taluks where there is no need for them relief kitchens have been open for affording relief to destitute, and others who are unable from old age or sickness to earn a livelihood.

careful estimate of the amount (if any) of the crop which has been saved, calculated in annas, on the assumption of an average yield being represented by 12 annas: <i>kharif</i> and <i>rabi</i> should be shown separately. If there be any prospect of further sowings, it should be mentioned.	An estimate, as close as may at the time be practicable, of the amount of revenue to be remitted.	Information as to the mortality, past and anticipated, among cattle and agricultural stock; the measures already adopted by Government and the people, their result, and suggestions for the future.	The nature of the water-supply, extent of its failure, further anticipated failure up to next rains, and remedial measures possible, if any.	The course of prices of each of the principal crops from October 1st up to date of report in each case years' averages.
Crops saved:— One-half in 3 taluks. Three-fourths „ 2 „ Five-sixths „ 4 „ — TOTAL ... 9 taluks.	The remissions were estimated in November last at Rs. 3,93,247, but, according to the Taluk returns now submitted, this amount is reduced to Rs. 97,615.	There has been a very heavy mortality among cattle in this district and a large number of animals have been driven to the Mulhad to graze. There is a small stock of rice and ragi straw which may suffice for what cattle there are remaining for a couple of months. Besides, of what little grass there is left in the Gunals and Kavals the cattle of ryots are permitted the free use.	There is no general failure of water at present, though a scarcity is apprehended if the rains keep off; and in that case the sinking of wells in tank-beds and in low grounds will be undertaken.	Prices generally the same as in Kolar. There is a remarkable rise beginning of November followed by a recovery.
In each of the two distressed taluks of this district the yield of crops may be taken at one-third. The remaining taluks have a full average crop.	The remissions were estimated in November last at Rs. 44,062, but according to the taluk returns now submitted this amount is reduced to Rs. 38,000.	20,311 head of cattle have died, and 15,000 more deaths are expected. State forests have been thrown open for cattle to graze in.	Except in the villages on the banks of rivers, much scarcity of water will be felt by the drying up of tanks, wells and nalas. Cleaning and deepening of existing wells and sinking of new ones in beds of tanks and low grounds will, it is hoped, improve the supply.	The prices of only 4 distressed taluks. In one of these rise to 4½ seers in November while in the other prices were fair the out.
Only three out of the five taluks of the district are affected by drought. In one of these one-half and in the others one-fourth of the crops has been saved. The remaining two taluks have a full average yield.	The remissions were estimated, in November last, at Rs. 1,46,012; but, according to the taluk returns now submitted, this amount is reduced to Rs. 64,000.	The mortality among cattle amounts to 18,187 head, and 13,027 more deaths are expected. Hulbani sales have been abandoned and State forests thrown open for grazing. A certain number of animals have also been taken to the Mulhad to graze.	A great scarcity of water is apprehended from tanks and wells running dry. Wells will, however, be made in beds of tanks and in low grounds to improve the supply.	Prices about the same as in the Bangalore District.
The proportion of the crops saved is as under:— One-sixth in 4 taluks. One-eighth „ 1 taluk. Nil „ 3 taluks. — TOTAL ... 8 taluks.	The remissions were estimated in November last at Rs. 3,12,478, but according to the taluk returns now submitted, this amount is reduced to Rs. 2,82,041.	The mortality among cattle has been very great in this district from the want of fodder and water, and a large number more are expected to die if matters do not improve. Herds have been driven to the Mulhad to graze. In five taluks there is no prickly-pear to be had, and in those where it is to be procured ryots are disinclined to feed their cattle on it. In two talukas cattle are fed on roots and leaves of date trees, and on the straw and stalks obtained from the Kartik crops harvested. Great relief is expected from the cattle being permitted to graze on the Amrat Mahal Kaval lands.	There is no immediate apprehension of a failure of water in this district, except in one taluk, where excavation of old wells and removal of silt from tank beds are recommended. In the event of a general failure of water, it is said that deepening old wells and sinking new ones will be sufficient to keep up a supply.	Prices mostly rather higher than in Kolar until recently. A rise in November very marked in some taluks.

-continued.

local stocks, as far as ascertainable; the centres, railway stations otherwise, whence further supplies are being or may be drawn; and the probability of private enterprise being sufficient to maintain them, in case of a fall in prices requiring ample importation.	The character of the population, whether high or low caste, poor or well-to-do, purely or only partly agricultural, and if the latter, in what proportions, urban or artisans; also the character of the landholders, whether large, wealthy, able to aid their tenants and likely to do so, or the reverse.	The movements of the people; how far emigration has taken place, and with what result (have the people bettered themselves, or merely gone elsewhere to starve or are they returning), and whether further emigration is probable.	The relief works already started, their sufficiency or otherwise, and the further works which are considered practicable, arranged in the order of their necessity.	The nature and amount of the relief given to and to the aged, infirm and unable to work.
There is a stock of grain in the district, but it is not expected to last long. Importations are being made from Mangalore, Bangalore, and the Mulnad, but not in sufficiently large quantities to cause a fall in prices.	The population is of both high and low caste, and for the most part poor; about one-fourth are agriculturists, while the remainder are of miscellaneous and mixed occupations. There are no landholders who possess the means to aid their tenants. The patels are said, however, to supply food to their servants.	Considerable emigration has taken place to Coorg, Mautoddy, Nilgiris, and the Mulnad. The emigrants are not supposed to be doing well, both on account of the low wages and because of their weak condition not enabling them to work the full time required of them. Notwithstanding, further emigration is probable.	The relief works to the amount of Rs. 71,209, already started, will afford ample work for the people. If more works are needed they will be undertaken.	In all the taluks, with exception of two, kitchens have been both from private contributions and Government tributions, to afford to destitute travel to people incapable of earning a livelihood.
The local stock comprises 2,500 kandies of grain. Importations are being made from Bombay via Bellary and Coimbatore, and will be sufficient for the present, though eventually the supplies will, it is suggested, require to be supplemented by Government.	The larger proportion of the population are agriculturists, and very few are of high caste. A very small number of the landlords are able to aid their tenants.	About 2,000 persons have removed their cattle to the Mulnad to graze, and people from other districts have also brought their cattle there in search of fodder. The latter, it is expected, will leave as soon as the harvest is over, as there is no likelihood of their earning a livelihood except on relief works.	Rs. 23,906 have been sanctioned for relief works, and these are considered to be sufficient. Two more works will be undertaken if it be found necessary to do so.	In one taluk a feeding has been opened, where the aged, infirm, and the aged, are fed.
There are about 8,930 kandies of grain in stock, and importation is going on from Mysore, Bangalore, and the Mulnad, the principal centres of supply. Private enterprise, it is expected, meet the requirements of the people, no fall in prices is anticipated.	The greater number of the people in this district are of high caste, and about 99 per cent. of the population is poor. From 15 to 50 per cent. are urban or artisans. There are no landholders in so well-to-do a position as to be able to aid their tenants.	About 25 per cent. of the population have emigrated from two taluks, and further emigration is said to be probable.	The relief works already started will cost Rs. 8,442. The further works which it is proposed to undertake, such as digging wells, constructing roads, and excavating tanks, will, it is roughly estimated, cost Rs. 19,000.	Private kitchens have been opened in each of the distressed taluks. Private subscriptions, supplemented by Government donations have also been raised to relieve helpless people who are unable to earn a livelihood.
In some taluks there is a stock of grain, but not large, while in others there is little or none at all. It is, however, being imported from Bangalore, Mysore, Devangiri, Dharwar, and the Mulnad taluks. It is feared that merchants are not sufficiently well off to import grain so as to meet all wants.	The population are of both high and low caste, and are for the most part poor. About two-thirds of them are agriculturists. There are a few well-to-do landholders, but it is not thought that they will assist their tenants to any great extent.	A large number of people have emigrated from some taluks to the Mulnad and to coffee estates, in the former case for fodder for their cattle and in the latter for employment. Some have returned because of the uncongeniality of the climate, and because of their being unsuccessful in earning a livelihood. Notwithstanding these adverse circumstances further emigration is probable.	Rs. 1,12,984 have already been sanctioned for starting relief works, and a further outlay is still to be incurred.	Except in two taluks, where no relief measures have yet been adopted, the aged and infirm are fed from private subscriptions and from tributions of like kind made by Government.

GOVERNMENT OF INDIA. HOME DEPARTMENT.

REPORTS BY DOCTORS LEWIS AND CUNNINGHAM ON LEPROSY, AND THE "ORIENTAL OR DELHI SORE" IN INDIA.

Extract from the Proceedings of the Government of India in the Home Department (Medical),—under date Fort William, the 10th March 1877,—No. 174.

Read—

Reports dated November 1876, by Drs. Lewis and Cunningham on Leprosy and the "Oriental or Delhi Sore" in India.

RESOLUTION.—Leprosy in India has of late years attracted more than ordinary attention. The report of the Royal College of Physicians of London, the suggestions made by Drs. Tilbury Fox and Farquhar for obtaining a better knowledge of the endemic skin diseases of India, Dr. Gavin Milroy's report on leprosy in the West Indies, Dr. H. Vandyke Carter's report of his enquiries into the disease in Norway and other countries which were made under the orders of the Secretary of State for India, and the interest taken in the gurjun oil and other supposed cures for the disease, have all contributed to this result. In 1875 the Government of India directed that a special enquiry should be made into leprosy in India, partly by the local Sanitary Commissioners and partly by Drs. Lewis and Cunningham, the special Assistants to the Sanitary Commissioner with the Government of India. At the suggestion of the Lieutenant-Governor of the North-Western Provinces, Kumaon was selected for Drs. Lewis and Cunningham's enquiries, and the report of these enquiries, so far as they have yet gone, has now been submitted.

2. The Oriental or Delhi Sore, as it is more commonly called, was very prevalent among European soldiers for years after 1857 when they re-occupied the city, and continued to prevail among them more or less until 1867. Of 1,998 European soldiers with their families, of whom statistics are given by the Special Committee of 1865, 1,072 had been affected with Delhi Sore during a residence varying from one to fifteen months, and many of these were permanently disfigured. Now the disease is rarely seen among the European garrison. It was suggested by the Sanitary Commissioner to the Government of India that Drs. Lewis and Cunningham might be employed in inquiring into the history of this disease. The investigation made by these gentlemen

shews not only the true character of the disease which has not hitherto been fully ascertained, but also indicates that its disappearance is to be attributed to sanitary improvements, and more especially to the improvement of the water-supply.

3. The thanks of the Government of India are accorded to Drs. Lewis and Cunningham for their valuable reports.

ORDER.—Ordered that this Resolution be forwarded to Local Governments and Administrations for information, and that it be printed along with the summaries of Drs. Lewis and Cunningham's reports in the *Gazette of India*.

Ordered also, that a copy be sent to the Sanitary Commissioner with the Government of India for communication to Drs. Lewis and Cunningham.

Summary of Report by Drs. T. R. Lewis and D. D. Cunningham on Leprosy in India.

A brief recapitulation of the principal points to which reference has been made in this our first report regarding leprosy may be of use to such readers as have not sufficient time to study the question in detail. It must, however, be premised that any digest relating to such an obscure subject is necessarily attended with more risk of misinterpretation than a detailed report where all the qualifying circumstances of any set of deductions can be produced.

It will have been seen that although leprosy was known to prevail in Hindostan many centuries before the Christian era, comparatively little was known regarding its precise localisation in the different provinces until the general census of 1872 was taken. Not only was the comparative prevalence of the disease in various districts all over British India ascertained at that period, but the possibility of attaining to something approaching to a fair estimate of the aggregate leprosy population of the country also became practicable. According to these census returns, there are some 99,000 lepers in the territories under British rule, yielding a proportion of 54 lepers to every 100,000 of the entire population, or (taking the actual figures in the first Table) 1 leper to every 8,145 persons. Of the aggregate number about one-eighth is contributed by certain districts, each of not less than 100,000 in population, furnishing a ratio nearly five times higher than the average ratio for the whole of India. In these districts there is a leper to every 384 persons instead of to 1,845. Should these latter data be verified on more close observation, an important step will have been made towards solving the difficulty of dealing with the question in a practical manner, as such a phenomenon must depend either on peculiar local or hereditary conditions.

One of these abnormally affected localities forms the subject of a special report on this occasion, *viz.*, the District of Kumaon. Roughly speaking, it contains 1,000 lepers. This yields a proportion equivalent to something over 250 per 100,000 of the population, or, calculating on the actual figures of the estimate, 1 leper to about every 388 individuals (*vide* Table 5, page 13). With the object of mitigating the sufferings of at least a portion of this unfortunate class, the Commissioner, Sir Henry Ramsay, has founded an asylum at Almora with accommodation for over a hundred lepers.

The inmates of this Asylum formed the subject of a series of clinical observations, the details of which are recorded in the foregoing pages.

Eighty lepers were subjected to the closest scrutiny; 49 proved to be cases in which anæsthesia presented the most prominent feature; 12 in which the presence of tubercles in the skin was the most marked peculiarity; in 15 cases the two former conditions were so equally evident that they were classified as "mixed;" and in 4 cases an eruption formed the most pronounced symptom. The ratios which these yield agree generally with the proportion in which the different varieties of the disease have been observed to occur in other countries.

The average age at which the onset of the disease was observed was found to be between 23 and 24 years; even the decimals obtained by calculating averages in the case of male and female lepers were found to be almost identical. There was, however, a range of from 3 years to 60. The average duration of the disease was nearly 14 years. The form in which anæsthesia was the prevailing feature was the most chronic, the average duration of the "tuberculated" cases being shorter by nearly six years.

The history of the Asylum gives no support to the doctrine that leprosy is a contagious disease, but strong evidence to the contrary. The reverse has been stated with regard to the history of the Asylum, but it will have been seen, from the information elicited, that not the slightest foundation existed for such a statement.

But with reference to the probable influence of heredity in the propagation of leprosy, the facts elicited, and which may, we believe, be accepted as trustworthy, give forth no uncertain sound. There can, we think, be no very substantial argument adduced in the face of the figures which have been collected in connection with this Asylum alone to contra-indicate the inference that hereditary taint exercises a most important influence in the transmission of the pest.

Taking into consideration, therefore, the prominent part undoubtedly played by heredity, and the fact that the disease but seldom manifests itself until after puberty, it is evident that any attempt at "stamping it out" by the compulsory segregation of leprosy persons would prove wholly impracticable; for, as mentioned in the last chapter, it would not only be necessary to segregate those suffering from developed disease, but also those hereditarily disposed to it. How, and by whom, could the predisposition be determined? It would, indeed, be even more important to secure the latter class and such persons as are only manifestly affected to a slight extent, for it would appear that persons of this description furnish by far the greater portion of the children who are, so to speak, potentially leprosy,—time and circumstance alone being required for the development of the disease.

In intimate relation with this question is that of the probability or otherwise of an increase in the prevalence of the disease amongst such a leprosy community as exists in Kumaon. Fortunately it would appear that, *pari passu* with the active manifestation of the disease, a tendency to sterility is also induced; moreover, the mortality among the children of lepers (even among such of them as are born before leprosy has manifested itself in the parents) appears to be abnormally high, so that the probable aggregate of the number of the offspring of lepers is to a very appreciable degree less than that furnished by non-leprosy individuals. It is therefore evident that, unless there be influences other than heredity at work in the locality tending towards the production of the leprosy condition, no serious increment need be apprehended. It will be our endeavour to ascertain on a future occasion whether any such leprosy-inducing conditions can be detected in the specially affected localities.

With regard to the latter, we have drawn attention to the fact that the malady is far more prevalent along the Nepal frontier, a country in which a very large proportion of lepers are found, and it is believed that no organised attempt of any kind exists in it to relieve their sufferings. Indeed, the reverse is not uncommonly stated. Under these circumstances it is, perhaps, not strange that these districts should be exceptionally afflicted, especially when it is considered that the records of the Almora Leper Asylum show that one-fifth of the total number of the inmates who have received shelter since the institution was established have come from Nepal.

We may find that personal examination into the facts along these specially affected border parganas will dispel the plausibility of such an inference, but at present we are inclined strongly to attribute the exceptional prevalence of cases of leprosy in this part of Kumaon in a great measure to its having to give shelter to more than its own share of lepers; to support more, in fact, than is contributed to the population by its own quota of leprosy stock.

We have abstained from making any observations regarding the pathology of leprosy on the present occasion. It will be more convenient to describe this portion of the inquiry when our microscopical investigations of the diseased tissue have been completed. These, for the greater part, we propose to carry out in Calcutta, where the Leper Asylum and the hospitals offer peculiar facilities for prosecuting researches of this character.

Summary of Report by Drs. T. R. Lewis and D. D. Cunningham on the "Oriental or Delhi Sore" as observed in India.

The report which we now bring to a conclusion may be thus briefly summarised:—

1. Assuming that the cutaneous affection which we have studied at Delhi is, practically, of the same nature as the sore which is prevalent in Mooltan, Lucknow, Lahore, Scinde and other parts of India, as also, the chronic sore known in Aleppo, Biskra, Bagdad, &c., as 'Bouton,' it comes under the general designation suggested by Dr. Tilbury Fox of 'Oriental sore':
2. Our information of the distribution of the sore in India is taken from the statistics regarding 'abscess and ulcer' collected from all parts of the country, but our pathological observations are, for the most part, based on typical examples of the affection witnessed at Delhi:
3. Whereas of late years the statistical returns indicate considerable diminution in the number of hospital admissions among European troops from 'abscess and ulcer;' and among native troops also in such stations as are garrisoned by the two classes of soldiers, there is no such manifest decrease in the stations occupied solely by sepoys:
4. This discrepancy may be due to more attention having been paid to the sanitary requirements of those stations at which European troops are located.
5. That, although at Delhi this inference does not constantly hold strictly correct, nevertheless, it appears to do so at those seasons when the European and native soldiers are placed under equally advantageous conditions as to water:
6. In those years, when sores were notoriously prevalent among both the European and native troops stationed in Delhi, their water-supply was derived from wells. Latterly, the European troops in the Fort have been supplied with water from the river Jumna, whereas the native troops still resort to the wells. The wells, however, are flooded with water from the canal, which is derived from the Jumna, some miles distant. The canal supply occasionally fails, the well-water assumes the character normal to the locality, and cutaneous disorders are a not uncommon sequence:
7. So far as our own observations go, there is no evidence of any parasitic agency in the production of the disease, and it appears probable that the deleterious effects are due to the chemical constituents of the water. In Delhi, the quantity of salts with which the water is impregnated and its extreme hardness in so many of the wells, is the most noteworthy feature. The unoxidised organic contents of the water would not appear to be of material influence, seeing that the water is not worse, or even so bad, as in many of the stations in Lower Bengal where this cutaneous affection is, practically, unknown:
8. Although we are not in a position to speak definitely regarding the character of the wells in other military stations where the Oriental sore prevails owing to the lack of analyses of assured accuracy, it appears highly probable, judging from the geographical position of the stations and from the statements of residents of several of them, that the well-waters manifest properties similar to those which they possess in Delhi. The well-waters in many of the places where the sore prevails, in Egypt, Asia Minor, Syria and other countries are also notoriously more or less brackish:

9. It seems, therefore, probable that, although the salts which cause the hardness of a water, may of themselves not be the actually deleterious ingredients, nevertheless, this quality may serve as an index of properties in it which tend to favour the production of cutaneous disorders. Several salts exert a peculiar action on the skin—those of Iodine and Bromine, for example, produce very characteristic eruptions :
10. With regard to the special skin affection in question, we have no hesitation in suggesting that the disease, as commonly observed at Delhi, setting aside all cases which are manifestly due to syphilis, scrofula and the like, is in no way distinguishable from one or other of the various forms of Lupus ; its clinical history is similar, as is also its morbid anatomy ; and the treatment which has proved the most satisfactory is that which is generally recommended for Lupus :
11. It is probable, however, that, owing to climatic and other influences, it may be somewhat modified from its European prototype as suggested by the fact of its prevalence being limited to particular districts—a feature which, so far as we are aware, does not characterise it in Europe in any special manner ; and
12. Finally, we have suggested that the tendency which this form manifests to become endemic may be taken advantage of for purposes of nomenclature, and have therefore proposed that this form of Oriental sore should receive the designation *Lupus endemicus*.

CALCUTTA,
November 1876.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

RELIEF REPORTS FOR THE WEEK ENDING 24th FEBRUARY 1877.

Extract from the Proceedings of the Board of Revenue, Madras, dated 2nd March 1877.

THE Board submit to Government the relief reports for the week ending 24th February, with abstracts and maps as noted in the margin. The reports from Karimol and Kistna are, as usual, telegraphic only.

1. District average prices.
 2. Relief outlay and numbers by districts.
 3. Ditto ditto by taluks.
 4. Classification of works.
 5. Number, &c., of works.
- Maps—Salem, North Arcot, Coimbatore, Cuddapah, Nellore, Bellary and Chingleput.

2. *Prices* are generally little changed. Rice has risen slightly in Kistna and Nellore and in North Arcot and Salem, but has fallen a little in the Ceded Districts and in the south. Cholum has fallen in the Ceded Districts, owing probably to importations

from Central India, but is nearly stationary elsewhere, except in Trichinopoly and Madura, where there is a rise, owing apparently (in the latter district) to the approaching exhaustion, which was anticipated, of the stocks of ivungu or black cholum. Ragi and cumbu have risen in Kistna and fallen in the three Ceded Districts, but the price is little changed elsewhere. Prices of all grains are, as before, generally cheapest in Chingleput and Kistna, and in Nellore, where proximity of these centres of supply is shown in the extreme south and north of the district and along the coast. Jubbulpore cholum is quoted separately in two taluks of Bellary (*viz.*, Bellary itself and Hospett) at rates (seers 9.1 and 11.8 and 9.1 and 10.2 respectively) considerably lower than the indigenous grain ; but it is sold also, and influences prices in other

	RICE, 2ND SORT.		CHOLUM, &c.	
	Highest Seers.	Lowest Seers.	Highest Seers.	Lowest Seers.
Nellore	7.00	9.18	7.87	10.50
Cuddapah	6.12	7.88	7.07	9.48
Bellary	5.91	9.18	7.73	10.30
Chingleput	8.46	9.81	10.26†	12.32†
North Arcot	6.00	9.00	7.1 +	10.9 +
Trichinopoly	6.53	7.98	9.17†	10.48†
Madura	6.13	8.45	9.55‡	11.76‡
Tinnevely	7.24	8.30	7.20†	9.50†
Coimbatore	6.58	9.50	8.50†	12.42†
Salem	6.56	9.40	8.25†	10.68†

* Distressed taluks only.

† Ragi.

‡ Cumbu.

parts of the district. In Cuddapah prices are highest in Jammalamadagu and in the subdivision plateau, and in North Arcot in the adjoining high-lying tracts in the north-west of the district. The marginal table shows the highest and lowest prices ruling in each district for common rice and for cholum, or other staple food-grain most generally quoted. The differences are considerable, and seem, in some cases, anomalous.

The Madamabelli taluk report from Cuddapah is again wanting.

3. *Grants and outlay on relief works.*—The grants for works, &c., made up to the date of the report amounted to Rs. 84,69,763. The outlay against these grants was, including gratuitous relief, Rs. 79,57,452. The grants have been exceeded in Kurnool and Coimbatore, but further sums have since been assigned to these districts. The Board have endeavoured to separate in the present report the outlay on new works and repairs of roads in progress, which the Collectors were requested to distinguish in the detailed reports, but which they have not done with accuracy, and which in one district (Chingleput) has not been attempted. The following figures showing distribution of outlay are, however, approximately correct for works still in progress; Kurnool, for which details are not now available, being omitted:

				In the week.	Up to the week.
				Rs.	Rs.
<i>Roads—</i>					
New works	...	...	..	1,88,810	29,87,699
Repairs	...	...	...	81,934	8,87,530
				2,70,774	38,75,229
Chingleput	...	...		2,964	17,851
Total Roads				2,73,738	39,23,180
Irrigation works	...	...		21,602	3,18,981
Miscellaneous	...	...		32,840	3,90,827
TOTAL				3,28,180	46,32,988

The irrigation works are almost all repairs, and the miscellaneous works connected with water-supply. The outlay on roads is chiefly in the Bellary and Cuddapah Districts; in the others, works of irrigation and water-supply are receiving attention. Of the outlay in the two districts named, 89 per cent. is on road works, but the proportion in the remaining districts is 67 per cent. Some outlay on irrigation works is in progress under Public Works officers, who have received credits amounting to Rs. 1,71,000, but of these works the Board have no knowledge. The entries in Abstract 5 are summed up for eight districts as follows:

				In progress.		Completed.	
				No.	Miles.	No.	Miles.
Roads, new works	...	...	..	325	2,415	68	207
„ repairs	...	...	..	128	1,510	15	119
Irrigation, new works	...	...	..	34	...	15	...
„ repairs	...	...	..	174	...	117	...
Miscellaneous	...	...	..	1,553	...	847	...
TOTAL				2,514	3,955	1,063	326

4. *Numbers on relief works.*—The comparison with the last reported numbers is as follows by districts:

	17th February.	24th February.		
Kistna	3,014	3,078	+	64
Nellore	54,949	42,389	—	12,560
Cuddapah	80,389	67,728	—	12,661
Bellary	3,07,509	2,74,169	—	33,340
Kurnool	2,14,299	2,03,453	—	10,846
Chingleput	12,595	10,556	—	2,039
North Arcot	18,519	18,572	+	53
Trichinopoly	556	489	—	67
Madura	7,749	6,794	—	955
Tinnevely	1,114	640	—	474
Coimbatore	22,152	22,900	+	748
Salem	36,430	41,966	+	5,536
TOTAL	7,59,275	6,92,734	—	66,541

5. There has thus again been a large decrease, amounting to 8·6 per cent. There is no increase of importance in any district, except Salem. Besides the coolies above entered for the *Nellore* District, there were 23,889 employed on the East Coast Canal, against 19,102 in last week. This increase on the canal works accounts for part of the decrease in the rest of the district, which occurs chiefly in the Atmakur, Kavali and Udayagiri taluks. The Board have received reports showing that coolies were being drafted to the canal from these taluks. The whole decrease, however, cannot be thus accounted for; but the new scale of wages appears to have been introduced in all the taluks named. The results are satisfactory, and there will doubtless be a larger increase

shown in next return from the canal.

6. The *Cuddapah* numbers are contrasted by taluks below :

	17th February.	24th February.		Per cent. of population.
Jammalamadagu	9,630	2,778	— 6,852	2·52
Pulivendla	10,232	9,974	— 258	9·03
Proddatur	1,253	1,288	+ 35	1·26
Cuddapah	7,120	7,339	+ 219	4·50
Budwail	8,857	7,478	— 1,379	8·04
Sidhout	5,409	4,168	— 941	5·83
Pullampett	8,555	8,806	+ 311	6·10
Kadari	4,592	2,333	— 2,259	1·65
Royachoti	2,569	1,536	— 1,033	1·20
Madanapalli	18,753	16,414	— 2,309	11·87
Voilpadi	3,419	5,224	+ 1,805	3·59
TOTAL	80,389	67,728	— 12,661	5·01

Reduction has evidently been carried to great lengths, and the Board fear too far in some parts of the district. The sub-division has now 25,537 coolies against 110,000 a few weeks ago.

7. The taluk figures for the Bellary District are as follow :

	17th February.	24th February.		Per cent. of population.
Adoni	87,985	67,984	— 20,001	37·
Alur	46,593	47,830	+ 1,237	48·7
Gooty	23,330	22,593	— 737	15·6
Tadpatri	11,175	10,562	— 613	9·01
Anantapur	8,997	6,782	— 2,215	6·6
Dharmavaram	5,251	4,297	— 954	3·6
Penkonda	3,529	2,115	— 1,384	2·4
Hindupur	1,733	4,553	+ 2,820	5·2
Madaksira	13,697	12,867	— 830	16·2
Raidrug	7,336	7,785	+ 449	8·9
Bellary	49,266	42,396	— 6,870	23·3
Hospett	17,181	12,261	— 4,920	16·5
Sundur	3,075	3,353	+ 278	22·4
Kudligi	15,439	13,026	— 2,413	11·0
Harpanhalli	5,610	6,166	+ 566	7·
Hadgalli	3,322	9,269	+ 1,947	11·7
TOTAL	307,509	274,169	— 23,340	16·4

The large decrease in Adoni is satisfactory, and is due to strenuous efforts to prevent abuse of relief and to detection of some fraudulent returns. The native subordinate staff is greatly complained of. The decrease in Bellary coincides with the partial introduction of the new money wages in lieu of grain hitherto given. The works in Sundur territory are certain ghât roads, and the coolies are not drawn solely from that State, but come also from the

8. The decrease of 10,816 in *Kurnool* cannot be explained at present. The fall in Chingleput is chiefly owing to decrease in the Madurantakam taluk. The decrease in *North Arcot* occurs chiefly in the southern taluks, and works have ceased in Chendragiri, as to the cause of which the Collector will be called upon to report. In *Madura*, no works are in progress in Dindigul, and numbers have declined in Ramnad and Palni. There are no fluctuations of importance in Coimbatore. The increase in *Salem* is general throughout the district, except in the taluks of Oosoor and Kistnagiri.

9. *Rates of wages*.—The new scale, as prescribed in G. O., 31st January 1877, No. 529, and 12th February 1877, No. 681, has been introduced in many places; but the Board are unable to check the rates with the price statements, as they are not aware what grains have been selected by the district officers as the standards in each taluk. The new rates were in force in

* In Palni the new scale for full tasks is paid with grain in kind.

three taluks of North Arcot, two of Madura,* several of Nellore and of Bellary. In Salem the works were being carried on chiefly at low piece-work rates, and under G. O., 12th February, these are not to be disturbed. In all other places the wages

in force appear to be those prescribed by the orders of the 2nd January 1877. The Collector of Tinnevely continues to pay grain wages in Sattur, notwithstanding repeated orders. He will be separately addressed on the subject. The only other places in which grain wages are now paid are parts of Proddatur in Cuddapah, parts of Bellary taluk, and in Palni in the Madura District. The Board hope that next reports will show the new scale fully introduced. The scattered nature and remoteness of the works are doubtless the causes of the delay in enforcing it.

Gratuitous relief.—The following are the totals compared by districts with those in last report :

DISTRICTS.			17th February.		24th February.	
Kistna	...	...	430	191	—	239
Nellore	...	...	9,025	5,953	—	3,072
Cuddapah	...	...	1,723	1,705	—	18
Bellary	...	...	10,014	14,829	+	4,815
Kurnool	...	...	4,026	3,538	—	488
Chingleput	...	...	4,095	4,843	+	748
North Arcot	...	...	619	557	—	62
Madura	...	...	197	230	+	33
Tinnevely	...	...	93	138	+	45
Coimbatore	...	...	1,573	1,297	—	276
Salem	...	...	3,495	3,056	—	437
TOTAL			35,288	36,337	+	1,049

The increase in Bellary is nominal, and results from the returns of two taluks—Adoni (3,191) and Tadpatri (1,591)—having been wanting last week. The numbers gratuitously fed are large in these two taluks, in Hospett, and in Madaksira, but in Hindupur they have dwindled to 401. In Nellore the fall in numbers is general, but the decrease is chiefly to be ascribed to there being no return from the Nellore taluk, which had 1,560 on the 17th February. The new camps in North Arcot are not filling rapidly, and the numbers in Salem are still diminishing under the camp system. The high number in Coimbatore is due to the inclusion of 1,100 persons fed at a relief-house in Udumalpetta, maintained by private subscriptions, aided by a grant from Government.

10. The outlay in and up to the week is as follows, according to the report :—

			In the week.	Up to the week.
			Rs.	Rs.
Relief works	...	...	4,51,161	77,16,025
Gratuitous relief	...	...	13,325	2,41,427
			4,64,486	79,57,452

A memorandum of the grants sanctioned by the Board up to date accompanies. The total is Rs. 91,09,763.

11. The following particulars of advances under the Land Improvement Act for the construction of wells are reported :

	IN THE WEEK.		UP TO THE WEEK.	
	Cases.	Amount.	Cases.	Amount.
Cuddapah	122	Rs. 10,180	170	Rs. 15,250
Bellary	...	635	...	1,270
Nellore	...	...	...	4,105

12. The special establishment returns are still wanting from some districts. The following particulars are known :—

	RELIEF WORKS.		PAYMENT OF WAGES.		ACCOUNTS.		TOTAL.		REMARKS.
	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.	Number.	Monthly pay.	
		Rs.		Rs.		Rs.		Rs.	
Cuddapah	189	5,718	35	486	45	518	219	6,722	9 superior officers Rs. 3,472.
Bellary	1,089	17,653	213	3,007	81	1,646	1,383	22,306	10 superior officers, Rs. 3,462.
Kurnool	388	15,665	83	852	63	772	534	17,289	14 superior officers, Rs. 7,667.

There have been hail storms in Khandesh, and rain has fallen in Nasik, Ahmednagar, Poona, Sholapur, and Satara. Grain has slightly declined in price, jowari now averaging 23½ lbs. the rupee throughout the nine affected districts.

The number of people upon Relief Works in the nine affected districts is 221,772 against 258,855 last week, and there are also 2,093 hill-men and immigrants upon Relief Works in Ratnagiri and Kanara.

The decrease is remarkable, and is due to the fact—the figures given being averages of the weekly musters—that large numbers of people absented themselves from the works for one or two days of the Holi holidays. The fact that the labourers are able to sacrifice their pay in order to enjoy a holiday, shows that they either have some small resources of their own, or are able to make some slight savings from their wages.

2. The Sanitary Commissioner has visited the Islampur Tank Relief Work, and reports—“I made a careful inspection of the physical condition of the labourers, and failed to discover the slightest indication of starvation amongst them. They did not appear to be pinched, and I feel satisfied that they obtain sufficient food to keep them in sufficiently good health to enable them to perform the not very arduous tasks demanded from them. There are only two sick persons, one with a broken arm, and the other was said to be suffering from ophthalmia. Altogether, the sanitary arrangements at Islampur are satisfactory, and the people appear to be well looked after and contented. They made no complaints.” Similar reports have been received from other works, and there is every reason to believe that the people are working satisfactorily under the Public Works Department system of tasks and wages.

3. Tables (A) and (B) are appended as before. A mistake in the week ending 3rd February has been corrected. It will be noticed that, on the latest date for which information is furnished, the number of people upon works under Civil Agency was 39,680, and that upon works under Public Works Department Agency was 184,318. Considerably less than a fifth of the labourers are now, therefore, upon Civil Works, and Government hope very soon to have reduced the number to a minimum. It must be borne in mind that the wives, children, and near relatives of able-bodied labourers are received upon works under Public Works Department supervision, unless they are infirm, or incapable, when they are either considered fit objects for charity, or transferred, should they desire it, to petty works in the neighbourhood of their own villages.

On the large schemes now in progress, sanitary precautions are taken in laying out and arranging the camps, and are enforced among the work-people. The results have hitherto been extremely satisfactory, as the people upon those works have, in a great measure, escaped from cholera, small-pox, and other diseases prevalent in the neighbourhood.

4. In the worst districts, and especially in Sholapur, there is a very complete organization for watching the people in their villages and homes. Many of those who left the works in the early part of last month have not yet again sought the employment which is open to them whenever they like to avail themselves of it, but there is no uneasiness or distress apparent among these people, nor any unusual sickness. There is very little cholera in Sholapur, and only one death attributed to want has yet been authentically ascertained in this district. This occurred in the early part of February. The individual was a man of 65 years of age, one of a family, the other members of which did not appear to have suffered any great privations, and he died in the town of Sholapur at a time when aid was being freely bestowed on all who sought it.

5. It has not been found practicable as yet to induce the Sholapur people, who were thought to be in distress, to go to the Dhond and Manmad Railway for work, though a free Railway passage to Dhond and batta is offered to those who will go. A very few of these people have been induced to go to the Nira Canal work, and large public works in the Collectorate itself are still without a full complement of labourers, and it seems that a great many of them will not take any employment, except light nominal work close to their own doors. As far as can be ascertained, it is not the rates of wages that seem to deter these people, but the necessity for going away from home, and of performing some labour. They would probably accept even lower wages than those given on Civil Agency works, if they could obtain them on their own terms. In the meantime, they seem to be subsisting on their means, and their behaviour is very much that of ordinary labourers in ordinary seasons, *i. e.*, they seem to be able to pick and to choose, and to be present or absent on works as suits their convenience. There has been further agitation to restore the former state of things; this has probably been brought about through ignorance of the real condition of the people, or by other considerations, and there is no indication of the existence of general extreme want.

6. Maps are not attached to this summary, as no change has occurred which needs exhibition.

7. The following table gives the expenditure by Government, during the week ending 24th February, upon charity in the relief of the aged and infirm poor, and in payments made to the young children of labourers employed upon Relief Works :—

DISTRICT.	Collectors' Discretionary Grant.			Expenditure incurred on account of children under 7 years of age whose parents are upon Relief Works.		
	Average number of persons relieved during the week ending 24th February.	Expenditure during the week.	Total Expenditure up to date.	Average number of Children, and of Women taking care of them.	Expenditure during the week.	Total Expenditure up to date.

8. A table is appended, showing the condition of the affected Native States.

9. With regard to the movements of food-grains, 3,258 tons were exported from Bombay to the Southern Mahratta Ports during the week ending 28th February, and during the fortnight ending 3rd March 5,212 tons were carried by the Great Indian Peninsula Railway to stations upon the Poona-Sholapur and Nasik-Bhosawul lines. The table below shows the quantities of grain sent by sea and rail from October till the end of February to the Southern Mahratta Ports and the railway stations in the distressed districts. It will be seen that the total amount delivered up to the end of February was 185,906 tons :—

FOOD-GRAINS SENT TO	In October 1876.	In November 1876.	In December 1876.	In January 1877.	In February 1877.	TOTAL.

10. On the whole, the grain supply continues satisfactory, and the decrease in the number of people upon the Relief Works is also satisfactory, but, to some extent, more nominal than real.

M. K. KENNEDY, Major-General, R. E.,
Secretary to Government.

Statement regarding the condition of Native States.

NOTE.—The totals are not invariably the sum of the men, women and children, as in a few returns these particulars have not been given, the total number of labourers alone having been entered. These figures are for the nine distressed districts only. The people upon relief works in Ratnagiri and Kanara are shown in Table A.

Note.—The figures in columns 8 and 9 do not include the number on works carried out by the Professional Department, which

a.—Explanation regarding the expenditure shown in this column has been called for.

b.—This does not include 28,789 persons who were employed during the last week on works carried out by the Public

OF INDIA.

AGRICULTURE, AND COMMERCE.

OF MYSORE FOR THE WEEK ENDING 24th FEBRUARY 1877.

Suma appropriated for works of all kinds under revenue officers	Reported Expenditure up to date.	PRICES OF STAPLE GRAIN IN LBS. PER MUPPE.				Average rainfall for five years in inches calculated up to 31st March 1876.	Total rainfall from 1st April 1876 to date.	General Remarks.
		Ordinary prices of Rice and Ragi.	Prices during the week last reported upon.	During the present week.				
10	11a	12	13	14	15	16	17	
78,623	41,413	Rice ... 24 Ragi ... 60	11 to 15 14 to 20	15 16 to 18	35	16		The condition of the Province remains practically unchanged. Only the largest tanks and very few of these hold any water-supply, and no rain has fallen to replenish them. Although the crops, unless under exceptional cultivation, have generally failed, grain, imported chiefly by railway, is abundant, and its movement brisk through the agency of private trade. For the week ending this date 1,911 tons were received at the terminal station at Bangalore and 213 at Kolar-Road, or altogether 2,124 tons.
88,405	10,775	Rice ... 32 Ragi ... 80	12 to 16 14 to 20	14 14 to 19	25.4	14.9		Tons. In November 1876 the imports were ... 9,913 December ... 11,562 January 1877 ... 11,256 February, 1st to 21th ... 11,149 Total ... 43,913
1,28,605	57,000	Rice ... 28 Ragi ... 106	10 to 13 11 to 18	12 15 to 16	27.4	15.9		There is hardly a blade of grass to be seen, but forage is still procurable. Major Chrystie, R. N., a careful observer, after marching 350 miles from Bangalore to Bellary along high roads, District roads, and across country, inspecting works put in hand under professional supervision, reports that although cholera in a severe form had broken up the larger gangs, there were a considerable number of men, women and children so rendered capable of earning a livelihood, and that those relieved at kitchens and camps that have been judiciously located, were not generally so emaciated as he expected to see them, although in some instances they were pitiable objects. His "Notes" conclude with the cheering intelligence that in the northern taluks, there is much ripening cultivation in the beds of tanks and under wells, and that wherever water can be anyhow made available, the ryots with most praiseworthy diligence, are cheerfully doing their utmost to look the difficulty in the face. In an interesting report of the condition of the Nandydroog Division from the 16th to end of February, Colonel Pearce corroborates this strongly, and as the area thus under consideration is, with the Chitaldroog District perhaps, the most stricken portion of the Province, the situation may be considered as fairly hopeful as under the circumstances could well be expected; and should heavy rain provisionally fall towards the end of the month, after the crops so being raised are reaped, it will be more so. Colonel Pearce reports the death of more than 10,000 poor cattle during the fortnight in his Division, but as a set off to this he brings to notice the great cure that is being taken after the better kinds, and the large prices paid for forage for them. He reports also cholera of a very virulent type from which during the fortnight nearly 3,500 had succumbed.
22,161	1,770	Rice ... 24 Ragi ... 70	11 to 13 16 to 22	12 to 14 18 to 24	24.3	20.8		The report for the Nandydroog Division does not embrace Municipal limits where relief operations are carefully carried on by the President of the Commission under a General Committee that meets weekly in Bangalore. The President reports that all the quasi potable waters were analysed by Dr. Nicholson in 1874, and that while those pronounced to be good are strictly conserved, and the draught on them authoritatively regulated, those that were condemned as unfit for drinking purposes have been filled in, and others in selected sites established—and that every effort is being made to relieve distress, by providing suitable employment according to the physical state of those requiring it, and feeding with judgment those who are from any real cause not able to work.
14,320	22,219	Rice ... 32 Ragi ... 76	10 to 16 16 to 18	13 16 to 18	31.4	15.8		Besides the importation of grain to the extent of nearly 380 tons per day from the 1st November from Madras, the result of a conference with the grain merchants in the Darbar Hall on the 1st March, when Captain Bisset, R. N., explained an alternative route from Nexpatnam, was, that the merchants were convinced of the practicability of increasing the supplies they had already to some extent drawn from that port, under existing rates up to 200 tons a day; where the Notification of the equalization of the rates should be authoritatively made public.
46,804	18,324	Rice ... 30 Ragi ... 76	13 18	14 19	39.4	18.3		The totals and averages under the heads of expenditure, of deaths from sickness, of persons employed on relief works by the Revenue authorities, and of those provided otherwise than on Public Works under professional supervision, of which returns are kept separately—such mode of relief being preferred where possible—will be again thoroughly scrutinized and corrected where necessary, from the 1st January to the week ending 24th February, and thereafter the weekly returns under the special arrangements will be available for proper comparison. These figures may be accepted by Government in supersession of other reports previously submitted.
37,406	21,168	Rice ... 30 Ragi ... 64	12 to 15 16 to 20	14 16 to 18	35.7	19.6		
1,38,886	69,784	Rice ... 24 Ragi ... 88	10 to 12 15 to 18	12 14 to 18	23.5	9.5		
5,44,230	2,41,450							

have been so apportioned as to enable those able and willing to work a fair day's wage for a fair day's labor.

Works Department Officers and who were wrongly included in Col. B of last week's return.

J. PUCKLE,

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

FAMINE IN THE MADRAS AND BOMBAY PRESIDENCIES.

No. 15, dated 16th March 1877.

From—The Government of India,

To—Her Majesty's Secretary of State for India.

WE enclose copies of Minutes and Memoranda which we have received from Sir Richard Temple during the past week, regarding various matters connected with the famine in the Madras and Bombay Presidencies.

2. Among these papers will be found an interesting report on the district of Nellore, together with a separate Minute proposing the early commencement, as a famine work, of an irrigation work in that district known as the Sangam project. Nellore is a large district on the east coast, of which the southern boundary is about fifty miles to the north of Madras. Its area is 7,150 square miles, and its population, according to the last census, 1,374,012. During the ten months ending with the 31st January last, the rainfall was only 11 inches 35 cents. In the previous year, 1875-76, the rainfall had been scanty, amounting to 26 inches 49 cents., against 37 inches 40 cents., the average rainfall of the preceding four years. In 1874-75 there had been heavy floods, and many important tanks and channels had been breached. Two years of drought following a year of floods had greatly tried the resources of the district. The total yield of the crops of the district for the present year is estimated at less than one-fourth of the average outturn, although the people with commendable industry have in some parts of it dug temporary wells and deepened old wells, and thus raised a spring crop. The drought was worst in the western taluks, at the base of the Eastern Ghâts, and adjoining the district of Cuddapah. The number of persons on the relief works at the time of Sir Richard Temple's visit was 85,000, or about 6 per cent. of the population of the district. Sir Richard Temple inspected about 17,000 labourers, and found very few who appeared to be in a condition to sustain themselves. He considered that much more discrimination had been exercised by the Nellore authorities in admitting persons to the relief works, than had been the case in the Ceded Districts; but that the depressed condition of some of the persons he had seen on the works, indicated the necessity of a house-to-house visitation more systematic than had been as yet introduced. Some of the relief works were useful, but many were of doubtful value, and task-work had often been little better than nominal. The small local works, in fact, had been made too easy and too attractive, and, as we noticed in our last despatch, great difficulty was in consequence experienced in inducing the people to go to the one large relief work, the East Coast Canal, which runs through the district, and which Sir Richard Temple describes as the very best relief work in all Southern India. The markets are well supplied with grain, coming both by inland and by water routes.

3. Of the Sangam project, Sir Richard Temple writes that the plans and estimates are ready, and the work could be put in hand at once. Its estimated cost is twenty-seven lakhs, the irrigable area 94,000 acres, and the estimated return from water tax two and a half lakhs. Sir Richard Temple considers, from the information supplied to him by the District Engineer that, of the entire project, works estimated to cost nineteen lakhs, and to yield an annual revenue of one and three-quarter lakhs, might be executed, in a great part at all events, by relief labour. He has suggested the work to the Madras Government as one which is deserving of consideration, at a time when so much stress is laid upon the expediency of employing relief labour upon really good and reproductive works. The suggestion is doubtless receiving the consideration of the Government of Madras, with whom we shall communicate upon the subject.

4. Sir Richard Temple has paid a third visit to the district of North Arcot, having received conflicting accounts regarding the degree of distress in certain parts of it, and having had reason to fear that in other parts, and especially in the zemindari tracts, chiefly in the north-east of the district, the distress might become serious. The results of his inspection appear to have been more satisfactory than he had anticipated. In a great part of the Chandragiri taluk the spring crops were good. The Kārvetnagar zemindari, with the exception of the eastern portion of it, had not suffered from drought. The autumnal showers had given it a fair winter crop. Irrigation from wells and from watercourses was giving it a good spring crop. In Kūlahasti, on the other hand, which is the other great zemindari in North Arcot, the drought had been exceptionally severe. Sir Richard Temple made suggestions for improving the system of gratuitous relief, and extending that of house-to-house visitation, and also for arranging some light textile work on which the distressed weavers (a numerous class in the North Arcot district) might be employed.

5. The results of Sir Richard Temple's visits to North Arcot are summarized in the following terms:—

"I find that distress does not threaten the mass of the people; that the numbers on relief works will probably not much exceed the comparatively small number now employed, if only the usual showers of April shall last; that the numbers on charitable relief will probably increase considerably as the season advances; that in the old towns, scattered over the district, in the sacred haunts so much frequented by pilgrims and beggars from distant places, and in the jungle tracts fringing the edges of the district, there are classes among whom many cases of individual distress are to be expected; that on the whole the relief measures taken in hand are sufficient to meet that degree of distress which is to be anticipated; that the relief works are of a small description, the number of able-bodied relief labourers not being large enough to justify their congregation upon large works, but if such large works should be wanted, there are many tanks to be repaired; that in some particular places the delay which at one time occurred was owing to technical and other reasons beyond the control of the local authorities; that the arrangement for house-to-house visitation in every village (save the zemindaris, which are being separately arranged for) are very systematic and satisfactory. I have discussed with the Collector every measure of relief which I can think of. My impression is, that he is now doing everything which ought to be done in this respect."

6. Among the enclosed papers will be found a review by Sir Richard Temple of the objections advanced by the Sanitary Commissioner at Madras to the reduced scale of wages lately prescribed for the relief works in that Presidency. The gist of Sir Richard Temple's remarks is, that the present rate of wages appears, so far as experience goes, to be sufficient to maintain in health people employed on the very light work which is enforced on most of the relief works in the Madras Presidency, and provides as much food as the labouring poor in rural localities get in ordinary times; that it is not possible to determine *à priori* on scientific data what amount of food is necessary to sustain the particular classes who come to the relief works; that the effect of the present rates should be tested by careful practical examination of the people themselves; and that, if it should appear that there is a change for the worse in their physical condition, the rates should be raised, but not otherwise, and that wherever really hard labour is exacted, a higher rate of wages should be given. This is practically what is now being done in the Bombay Presidency. Sir Richard Temple has, within the last few days, had a personal conference on this subject with the Government of Madras; and from a telegram from His Grace the Governor which reached us on the 14th instant, we learn that "the Governor in Council having considered various reports" (from district officers) "has decided to defer the consideration of the general adequacy of the scale for further report; the special attention of officers being directed to securing that labourers receive full benefit of allowances, and to scrutinizing all cases of apparent weakness; children under ten being relieved from test work, and weakly persons being formed into special gangs with special nourishment where necessary."

7. In our despatch of the 9th instant, we adverted to the insufficiency of the means at present available for transporting grain from Madras into the interior, the Madras Railway not being able to carry more than 700 tons a day. The subject has been engaging the careful attention of our Public

Works Department, and arrangements have been made, which, it is hoped, will have enabled, or will speedily enable, the Madras Railway Company to carry 1,400 tons a day. Satisfactory arrangements have been made for sheltering and housing the grain, both public and private, on the Madras beach.

8. In his Minute of the 6th instant, No. LIV, and the Memorandum annexed to it, Sir Richard Temple has furnished a revised estimate of the expenditure on, and loss of revenue from, the famine. The result is a total estimated loss of five crores and two hundred and eighty one thousand rupees. In the Financial Statement made yesterday in the Legislative Council by our colleague Sir John Strachey, the net cost of the famine is set down at five and a quarter crores of rupees, or five millions and a quarter, according to the old calculation of two shillings for the rupee, of which sum £3,100,000 will fall on this year, and £2,150,000 on 1877-78. This estimate does not take into account future recoveries of land revenue suspended for the present, which Sir Richard Temple estimates at the considerable sum of Rs. 1,29,50,000 out of Rs. 1,87,96,000, which must for the time be left uncollected. The question whether these balances should be held in suspense or entirely remitted, is one which, as stated in our despatch of the 16th ultimo, we have deemed it proper to leave to the unfettered discretion of the local Governments. Sir Richard Temple states in his present Minute (paragraph 19) that many of the most experienced Collectors in both the Madras and Bombay Presidencies are in favour of the plan of suspending only, and not entirely remitting, the land revenue on the dry or unirrigated lands. These opinions and the grounds upon which they are based, will doubtless receive due consideration from both the Governments concerned. For the present, however, we have deemed it safer to exclude from our calculations any reduction of the cost of the famine from this source.

9. We have this day received the following telegrams from Sir Richard Temple :—

Telegram, dated 15th March.

"I proceed for few days to Bombay Presidency. Throughout Madras Presidency the relief works are now fully controlled and carefully restricted to dimensions of actual distress. Much credit due to local officers in districts. The organization of charitable relief not equally successful, but further efforts being put forth. Destitute people often unwilling to resort to relief camps. Some casual deaths near Madras itself still happen, chiefly owing to insufficiency of measures in three large Zemindaries. Remedy being applied. Reduced wages still being tried. Spring crops good in many parts of distressed districts; prices somewhat stiffening. Condition of people good generally, but cholera breaks out temporarily in many places. Large accumulation of grain at Madras well housed. Anxiety about railway arrangement on Madras and Bombay lines. Still hope that these two lines will supply the large and active demands of inland grain trade. Markets continue well supplied."

Telegram, dated 16th March.

"In continuation of yesterday's telegram for mail. It was ordered a month ago throughout Madras Presidency, that if any children below seven years of age, belonging to persons employed on relief works, cannot be supported, they shall receive special relief. This is being carried out with my full concurrence. Children above seven have from beginning received relief wages. It has also been ordered, with my full concurrence, that if any relief labourer shall be found to suffer physically from reduced wages, he shall receive special allowance, or else be put to light work. Have complete evidence that most of the large gangs are standing the reduced wage without suffering. Whether they can bear it, as the season advances, remains to be seen. Having inspected in the presence of many officers about one hundred and thirty thousand relief labourers in scattered gangs throughout Madras Presidency, I have reason to believe the physical condition of these people to be generally good. I picked out in every gang every person who seemed below par, and suggested special measures regarding each individual."

10. There has been a further decrease in the number of persons on the relief works both in Madras and Bombay. In the former Presidency the number, according to the latest return, was 657,365 against 667,443, the number for the previous week. In Bombay the number was 223,865 against 263,053, the total reduction in the two Presidencies being thus 49,266. In Bombay, however, there were also children under seven years of age, and women in charge of them, to the number of 44,150.

In the number charitably relieved there was an increase of 10,226 in Madras, and a decrease of 999 in Bombay, the totals for the two Presidencies being 58,317 and 5,566, respectively.

The Mysore returns give 38,808 persons as employed on the relief works under Civil Officers, in addition to 30,794 employed by Public Works agency, and 30,097 in the receipt of charitable relief, making a total of 99,699.

No. 101, dated Arcunum, 3rd March 1877.

From—The Private Secretary to Sir Richard Temple,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit, for the information of the Government of India, copy of a minute recorded by him on the advisability of commencing the earth-work of the "Sungum" project in the Nellore District.

Minute by SIR RICHARD TEMPLE, dated Arcunum, 3rd March 1877.

DURING my recent visit to the Nellore District, I was much struck by the possible advantages of what is known as the "Sungum" project for the employment of relief labour.

2. This project has, as I learnt, been professionally framed; the plans and estimates are ready, and the work could be put in hand at once, whereby many relief labourers now employed on village works could be at once employed under regular professional supervision.

3. The project is an excellent one for using the flood-waters of the Pennair river to fill channels which carry the waters to tanks and other reservoirs for irrigation. The head-works are situated at a point called "Sungum," near Atmakoor, on the Pennair river, about 30 miles above Aloor. The total cost is estimated at 27 lakhs of rupees (say £270,000); 94,000 acres would be irrigated, and the net returns in water tax are computed at 2½ lakhs (say £25,000) annually. The financial prospect is therefore fair enough.

4. Out of the total cost above set down—27 lakhs of rupees—the greater portion consists of earth-work and excavation, namely, 16 lakhs, as will be seen thus,—

	Lakhs.
Tanks and channels	16
Masonry distributaries	5
Anicut in Pennair	6
Total	27

5. Now, subject to correction, I understand from the District Engineer (with whom I had the advantage of travelling while in the Nellore District) that the earth-work, that is, the channels and tanks, might at once be undertaken by relief labour within the cost of 16 lakhs, which work would be useful so far as it goes, *without* the *whole* of the remaining expenditure, namely, 6 lakhs for anicuts and 5 lakhs for masonry distributaries, being necessarily undertaken. These works will, of course, be wanted for the complete project; but the project might be executed without them, and though in some degree incomplete, it might be useful without them. In this limited sense I learn that only three lakhs worth of masonry channels would be absolutely necessary. If executed in this manner, that is,—

with	16 lakhs, earth-work.
"	3 " masonry distributaries.
Total	19

The project might yield net 1½ lakhs annually in revenue returns. It would employ 200,000 persons for four months.

6. Considering the large numbers that are being employed on comparatively unproductive district and village works, I think it is a pity that relief labour cannot be employed on the earth-work of this really useful and well-considered project.

7. I bear in mind that all available labour is wanted for the East Coast Canal, which is also in the Nellore District, as is shewn in my minute of the 28th ultimo on the subject. But there is much difficulty in inducing the relief labourers to go there. And it is

possible that thousands of persons who would not go to the East Coast Canal would be willing enough to work on this Sungum project, which is favourably situated as regards their homes. And some thousands of relief labourers might be sent from the Ceded Districts and Kurnool.

8. It is true that the earth-work for the channels and tanks will not produce a result without the addition at least of three lakhs of expenditure for the masonry distributaries, but for this also relief labour would be to some extent available. And something might be contributed from the ordinary irrigation grant of the Presidency; of this point, however, the Madras Government would be the judge.

9. At all events, when so much stress is justly laid upon the employment of relief labour upon really good and reproductive projects, it seems proper to ask the notice of the Government of Madras to the merits, in this respect, which the Sungum project in Nellore possesses. If anything is to be attempted, then rapidity in commencing would be essential.

RICHARD TEMPLE.

No. 103, dated Coimbatore, 6th March 1877.

From—The Private Secretary to Sir Richard Temple,

To—The Additional Secretary to the Government of India.

By direction of Sir Richard Temple, I have the honour to submit, for the information of the Government of India, copy of a Minute recorded by him respecting the Nellore District, together with a Memorandum of the facts ascertained by him during his visit from 27th ultimo to the 1st current.

Minute by SIR RICHARD TEMPLE, dated Coimbatore, 6th March 1877.

IN forwarding the Memorandum of facts ascertained by me during my recent visit to the Nellore District, it will suffice to make only a few general remarks.

2. The failure of the rains during 1876 in this district appears to have been more utter than I had previously supposed. Hardly one-third of the average rainfall was vouchsafed. At no period of the year did any sufficing rain fall: even the Pennair river failed to come down in flood; and the dam across that river opposite the town of Nellore and the irrigation works dependent thereon have this year proved almost useless. Along the East Coast line,—that is, in the villages immediately adjoining the margin of the sea,—some rain fell: but it dwindled away to the westwards, till almost nothing fell in the western parts of the district at the base of the Ghât range of hills. I found very serious drought prevailing and considerable distress, especially in the vicinity of the well-known hill fort of Udaigarh. The total outturn of the district is still estimated by the local authorities to be under four annas, or less than one-fourth of the average outturn. On the other hand, in some parts of the district, especially the eastern, the people, finding water to be near the surface, have, with commendable industry, made the most of this slender opportunity and have dug temporary wells or deepened old wells, and thus raised a certain amount of spring crops. Between Nellore and the East Coast Canal I saw cultivation of this kind stretching for several miles. In a short time the result of the accession of new grain supply will be felt throughout the district.

3. Meanwhile, the markets are well supplied with grain, coming both by inland and by water routes.

4. Out of the large number of relief labourers whom I inspected carefully (about seventeen thousand in all), very few were found to be apparently in a condition to sustain themselves; the vast majority seemed to be persons of the right sort for these works, that is, persons who really needed this form of relief. Their physical condition was generally fair. But among them were found sprinkled here and there persons whose physical state was low and unsatisfactory. Every one of these I brought to the notice of the Collector. The total number at the time of my visit, 55,000 persons on district works and 30,000 on the East Coast Canal (of which latter most belong to the Nellore District), in all 85,000, amounts to 6 per cent. on the population of the district—a proportion which, though liberal and sufficient to meet the existing distress, is not excessive, considering the failure of harvests.

5. But I think that this number ought not, without careful consideration, to be permitted to materially increase, because the condition of the ryots generally is reported to be good and free from indebtedness, and because the spring crops shortly to be harvested will bring in a fresh supply. To this favourable description the peasantry of the western parts form the only exception.

6. On the whole, I think that much more discrimination in regard to admission of people must in the first instance have been exercised in the Nellore District than in the Ceded Districts. The difference in the condition of the gangs in Nellore presented in this respect a marked difference as compared to the Ceded Districts, which is, so far, very creditable to the Nellore authorities. We may venture to believe that no undue expenditure on relief (to any appreciable amount) has been incurred in Nellore, which redounds to the credit of the Acting Collector, Mr. Sharp.

7. On the other hand, the occasional appearance, even among the ranks of the relief gangs, of persons in a reduced or depressed condition indicates clearly the need of a house-to-

house visitation, more systematic than heretofore, in the villages throughout the district. This inference I pressed on the consideration of the Collector, who seemed quite alive to it.

8. No relief camps in the improved style established near Madras have been opened in this district, though charitable relief is being administered at several places. Proper camps ought, I think, to be opened without the least avoidable delay.

9. The relief works have been sometimes useful, consisting of excavation of irrigation channels and reservoirs, but have often been of doubtful value, such as opening out roads which the local funds will hardly be able to keep in repairs in future. The task-work, though perhaps in some places fairly well exacted, has, I fear, often been little better than nominal; the relief labourers have been employed too near to their homes, and the matter has been allowed to become too easy and attractive. Doubtless the Collector will try to remedy this: and some remedy has already been applied in the western portion of the district through the praiseworthy exertions of Mr. Underwood, Assistant Collector.

10. In proof of the objectionable attractiveness of the petty district works, I may adduce the extreme difficulty of transferring relief labourers from these works to the East Coast Canal—an excellent work in a salubrious position, remarkably suited for purposes of relief, and distant only 30 miles on the average. Able-bodied relief labourers on the district works are being ordered to proceed to the East Coast Canal, but they refuse to obey and go on “strike,” remaining for days and days out of work sooner than proceed. It is to be hoped that these difficulties will be overcome by the firmness and patience of the local officers and by the people themselves being awakened to a sense of the necessity.

11. I have in a separate Minute recorded my views regarding the East Coast Canal. Rumours unfavourable to the salubrity of the operations on this important project have from time to time been spread. I found, however, the position of the works very salubrious, and the arrangements, sanitary, engineering and others, excellent, and very creditable to the District Engineer, Mr. O’Shaughnessy, of whose practical ability I am disposed to form a high estimate.

12. If the commencement of the Sungum irrigation project (from the river Pennair, 30 miles above the town of Nellore) can be sanctioned, as recommended in my separate Minute, that will afford a further field for the profitable employment of relief labour.

13. Though the state of affairs regarding the relief of distress in this district may be generally pronounced to be favourable, yet there is this cardinal defect, that although the district has the very best relief work in all Southern India (the East Coast Canal) running through it, still the relief labour of the district is not brought to that work to any thing like a sufficient extent. The management of this particular matter is the primary point to which the attention of the Collector should be given.

RICHARD TEMPLE.

Memorandum on the Nellore District, visited by Sir RICHARD TEMPLE from the 27th February to the 1st March 1877.

FROM North Arcot Sir Richard Temple entered the Nellore District, proceeding thither from Triputtty *via* Kalustri and Goodoor. At the lastnamed place he was met by the Collector, Mr. Sharp, C.S., and after inspecting the relief labourers there, drove into Nellore on Tuesday, the 27th February. The next day Sir Richard visited the East Coast Canal works at Maipad, Korutoor and near the Pennair river, with the Collector and Mr. O’Shaughnessy, the District Engineer: there he also met Mr. Stevens, who is employed on the canal works. About eight thousand relief labourers on the canal, and in the evening some hundreds more on works near the Pennair anicut at Nellore, were inspected. On Wednesday night Sir Richard left Nellore, with the Collector and District Engineer, reaching Nellaripalem the next morning. Here he saw the Tahsildar of the Atmakur Taluk and inspected about 4,500 relief labourers who had been collected there by previous arrangement. Continuing his journey to Nandeveram, he met there Mr. Underwood, C.S., Head Assistant, who was on tour in the western taluks. Mr. Underwood accompanied Sir Richard, after seeing the labourers at Nandeveram, to Murripad, where more gangs were drawn up. From Murripad Mr. Underwood returned; Sir Richard and staff proceeded in palanquins by the Dornel Ghât, Budvail and Sinhout to the Wontimetta railway station in the Cuddapah District. At Nellore Sir Richard also met Mr. Goldingham, C.S., District Judge, and Mr. Christie, District Superintendent of Police.

2. The following facts were ascertained by enquiry, chiefly from the Collector, Mr. Sharp, C.S.—

The district of Nellore has an area of 7,150* square miles, including zemindary tracts, and

* In the Nellore District Manual it is stated to be 8,751 square miles.

	Sq. miles.	Population
Government taluks	4,626	897,845
Venkutgiri zemindary	1,858	848,870
Kalustri	526	100,888
Chundy	124	21,990
Mutyapad	21	4,941
	<u>7,150</u>	<u>1,874,012</u>

contains a population of 1,874,012 persons, according to the census of 1871. It is divided into nine Government taluks and four zemindary divisions, the extent and population of which are shown in the margin. Many zemindary villages, however, are scattered in all the Government taluks, except in Nellore and Rapur.

3. The area of land in the Government taluks cultivated with the several food-grains, according to the returns sent to the Board of Revenue for Fusli 1285, was 884,852 acres, and the statistics of the important grains sown are as under :

AREA OF CROPS SOWN IN FUSLI 1285.									
									Acres.
